Fish have been biting fine along the waterfront most of the week although there were a few windy days when many did not go out in their boats.

Bill Crist had Mr. Frank and a party of four, of San Antonio, out fishing Sunday. They brought in 187 nice fish.

Travis Oliver, owner of the Good Luck Pier, on Fulton Beach, reports good catches of trout, drum, reds and gafftops all last week and says that night fishing under the lights has been especially good.

On Tuesday, Jess Tucker and Clet King, of Lawton, Okla., got 65 trout. Wednesday, Carl Beardman, of Beloit, Kans., got 35 trout and 12 red fish. R. F. McKnight landed 66 trout Wednesday. Mr. Steck, of San Antonio, landed 97 trout on Saturday and Sunday. Walter Stark and party, of Austin, landed 214 big trout. It was too windy for good fishing for a couple of days, so Mr. Christilles did not go out. Yesterday he had H. Knox and Elmer Jones, of Pecos, out fishing. They brought in 159 trout and 1 drum which weighed between 60 and 70 pounds.

Mr. and Mrs. Earle Thomas went fishing Wednesday afternoon. They got 31 trout and red fish. The largest trout weighed 3½ pounds and the biggest red weighed 3 pounds. W. E. Saunders of San Antonio fished with Thomas Sunday, getting 96 speckled trout.

General Robert J. Smith, chairman of the 1954 March of Dimes in Texas stated that he is counting on Mr. Hardeman to develop the greatest March of Dimes in the history of Aransas County.

"We know that we must set as our target for 1954 a higher average per person in the state to help the National Foundation in its campaign of research to prevent polio and for treatment on this disease has struck. In the 1953 campaign Texas donated \$2,635,827.26 or the equivalent of 34 cents per capita," General Smith stated.

"While we do not as yet have the complete 1953 figures for polio treatment costs in Texas," he continued, "we know that the thousands of carry-over cases from the epidemic years of 1949-52 will result in a state deficit anticipated to be in excess of \$300,000."

Since the National Foundation started its program in Texas in 1938 almost \$9,000,000 has been spent in the state for polio treatment. This represents 87% of the total net contributions of this state during the same period.

### First of Whooping Cranes Arrive at Aransas Refuge

At least six whooping cranes, including one youngster hatched this summer, were back on Aransas Wildlife Refuge Wednesday, but it probably will be Saturday before a complete check can be made on the number of birds arriving.

Julian A. Howard, manager of the U. S. Fish and Wildlife Refuge, said all these birds, part of the world's only remaining flock, apparently arrived Tuesday.

"Because of other work, we have been unable to make a complete check on the area. We probably won't know before Saturday exactly how many whoopers have returned," Howard said.

The birds migrate thousands of miles to nesting grounds somewhere near the Arctic Circle each spring and return each fall. The migration usually ends about mid-December.

Two years ago the flock that winters at the Aransas Wildlife Refuge had 25 members, including five youngsters. Last year only 21 flew north, and it had only two young. Four birds were known to have been killed on the flight north.

This year the U. S. Wildlife Service and the National Audubon Society led an intensive appeal to hunters to protect the whooping cranes in migration.

The first arrivals included a pair with one youngster, another adult pair and a single bird.

### The Home Grounds

(By Mrs. Emma H. S. Reese)

The home gardener should make the most of our recent welcome rain. If the earth is cultivated about the roots of plants and shrubs, much of the moisture can be saved. Now is a good time to transplant bulbs and separate perennials. These when transplanted should be protected by a light mulch until their growth is established in the new location.

After the rain is a good time to dig up grass burrs and weeds that otherwise will spoil the lawn. One of these, a rather pretty little vine called Wine Flower, has obnoxious little seeds in profusion, which is allowed to ripen, will kill little chickens and turkeys. Also they cling to clothing and are a great pest. This and a native variety of shrubby Cinquefoil, also blessed with a pretty little flower, this time of a yellow color, have roots which grow underground like trees and which, like the grass burr, must be completely destroyed if they are not to perpetuate themselves indefinitely. It is a good idea to keep on hand a mixture of lawn seed, which may be obtained from your seedsmen, containing a portion of annual rye, as well as perennial rye, and the more enduring grasses, which should be raked into the bare or thin spots in the turf after each rain, when burntout places often show themselves.

Since we are on the subject of cleanup and improvement, here is a timely tip on the disposal of discarded fluorescent tubes, when burnt out, should never be thrown out casually, as broken bits will cause a serious wound. If the C. P. & L. is notified, someone will come and pick up these tubes and dispose of them safely.

**Jr. High Pirates Split Two Games With Aransas Pass and Portland**

October 15 the local Junior High team journeyed to Aransas Pass and sustained a 26-7 loss to that school. The first half was a close battle as Benny McLester passed to Ruy Langley on the third play of the game for a 70-yard gain. The play carried down to the Aransas Pass 10-yard line, however, the Junior boys lacked the power to score against their opponent's line.

The first half ended 7-0, but the opponents stormed back the last half for 19 points to the local's 6. The final score was 27-6. The local squad lost the services of Curtis Johnson, center and Stephen Weber, but both are expected to be back in uniform for the Goliad game, Nov. 5.

On Oct. 22 the Juniors took a 20-0 decision from Portland Junior High School on the Gregory Field. Benny McLester went around end for 35 yards for the initial score. Ruy Langley caught a 40-yard scoring pass from McLester in the second quarter to lead 13-0 at half time. McLester again hit Truelove with a 10 yard pass for the game's last touchdown.

Bobby Close, Leo Owen, Clyde Townsend and James Bass were outstanding on defense. Bobby Close has racked up 27 tackles in the last two games to lead in that department. The boys are anxious to make it two wins in a row when Callallen Junior High visits for a game on Pirate Field at 6:30 Thursday night, Oct. 29.

**Rotary Club Holds Regular Meeting**

The Rockport Rotary Club held their regular luncheon meeting Wednesday at noon at the Methodist annex with Mrs. H. H. Dick, Mrs. B. B. Bettell, Mrs. Mary Juergens, Glenn Topping, of Burlington, Iowa and Lloyd Dean, of Ingleside as guests.

B. B. Bettell had the program. He had a picture on Mexico which Miss Patricia Pew very kindly presented to the club. The picture was taken at Tampico which was portrayed as a tourist resort and fishing center for game fish such as tarpon and Acapulco where the sail fishing is very good. The scene of the beaches and of the land in both places was beautiful.

R. R. Rice reported that the club had another 100 per cent attendance in October.

**Mrs. Oscar Kocpke Guest Speaker At U. N. Program**

United Nations Day was observed Saturday afternoon at the Woman's Club building with a program, sponsored by the Council of Church Women.

Mrs. B. W. Hamblin presided at the meeting and Mrs. Mamie Hooper presented the program. Miss Iris Sorenson was pianist.

After the invocation by Rev. Brad Ramsey, Mrs. Hooper read Mayor Rogero's proclamation of U. N. Day in Rockport.

Mrs. S. F. Jackson read a poem on the signing of the U. N. Charter and Mrs. John Cox called the roll of the Nations in the U. N.

A square reflector on the officers' table was outlined by the flags of the countries included in the U. N. with a globe of the world in the center.

Harry Carter offered a prayer for the U. N. and Rev. Calvin Peterson told what had been accomplished by the U. N.

Mrs. Hamblin then presented Mrs. V. G. Woolsey, of Corpus Christi, who is Past District President of the W.S.C.S. and Promotion Secretary for the Southwest Texas Conference, and who has attended a meeting of the U. N.

Mrs. Woolsey introduced the guest speaker, Mrs. Oscar Kocpke of Corpus Christi. Mrs. Kocpke has been very active in local church organizations, is a past president of the Corpus Christi Council of Church Women, has been president of different P.T.A.'s in Corpus and is now president of the League of Women Voters.

Mrs. Kocpke attended the U.N. meeting this summer and gave a very clear word picture of the building and meetings.

She read Isa. 26, 2-4 before starting her address.

She said that there are guides to show visitors through the building. One starts through with 15 visitors every four minutes. At the U.N. meeting there are interpreters who translate speeches as they are made, into other languages as fast as the speaker talks so with the aid of an earphone a person may hear the address in his own language.

A secretary at the U.N. meeting only takes notes for 20 minutes at a time. He then retires and sends his notes in and they are printed and placed on the record of the meeting in five hours.

Mrs. Kocpke thinks that the U.N. is a powerful organization and she says that it costs less to run it one year than one-half day of war costs.

Mrs. J. Hanway spoke of the things a Christian can do for International Peace. Benediction was pronounced by Rev. T. H. Pollard.

A social hour followed the meeting. The tea table, covered with an embroidered white linen cloth had an antique silver and white china vase of red bougainvillee, resting on a silver bound reflector

Luther Wren was stopped on Highway 35, about five miles north of Rockport because he was driving with only one headlight. When asked for his drivers license it was found he did not have any as they were suspended.

He was arrested by Deputy Sheriff Sherman Mundine for driving when his license was suspended. He was fined \$25 and costs of court, making a total of \$46, in Judge Wendell's court.

**CITIZEN'S RIGHTS IN COURT EXPLAINED**

Unless you have a close relative who is a lawyer, your opinion of our courts probably is a mixture of hearsay, rumor, mystery and awe. The average citizen has had little experience with the courts, and

is apt to view with a sinking feeling some document requiring his presence in court.

Most criminals have a good idea of their rights in court, but the average citizen, confronted with a traffic ticket or court summons, has little knowledge of the protections provided for him. If you are innocent of the charge and know your rights as a citizen in court, you need have no fear of your appearance before the jury and judge.

Probably the most fundamental and important right is summarized in the well-known adage, "Every man is innocent until proved guilty." It is up to the prosecuting authorities to prove that the person on trial is guilty—and not the obligation of the person accused to prove that he is innocent. The prosecution must

prove your guilt beyond a reasonable doubt, or you will be acquitted. The mere fact that you have been given a ticket or accused of a crime is not even evidence of guilt.

Another important protection is the right to have a witness whose testimony you may need subpoenaed to appear in court and testify. Many people are reluctant to go to court when their own rights are involved, and unless you had a means for compelling their attendance and testimony, you often would be unable to prove the facts necessary for success in your case.

It is the duty of every citizen to testify if he has information important to a law suit and is called upon to do so. The courts can and do enforce attendance in court and the giving of testimony.

Certain other safeguards are valuable to you. A person may refuse to testify in any proceeding if he has a reasonable belief that his testimony could be used as a basis of a criminal proceeding against him. This does not mean, of course, that a confession given freely and voluntarily cannot be used in evidence. But it does mean that an accused cannot be compelled to take the witness stand, nor can his failure to testify be commented upon by the prosecution.

Our courts provide many safeguards for the innocent against false accusations of crime. But many of these rights would be valueless without the assistance of a lawyer, who has been schooled in legal principles and rules of statute or decision involved, to invoke these rights. The "right to counsel" must be granted to every accused person brought before any court in the state. The law provides that if an accused person cannot afford to pay for legal counsel and desires it, the court must appoint a lawyer to assist him in his case.

Every person charged with an infraction of the law has the right to consult counsel before making any plea. This applies to cases in every court—including justice of the peace courts, municipal courts, traffic courts and district courts. It does little good to consult a lawyer after you have pleaded and paid the fine, for then the damage has been done.

The courts are open to you any time one of your legal rights has been denied or any of your property has been unlawfully taken. This is one of your most precious

rights. The courts are the only peaceful means of enforcing your rights.

(This column, based on Texas law, is written to inform—not advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

HIGHLIGHTS AND SIDELIGHTS From Your State Capitol

By VERN SANFORD Texas Press Association

AUSTIN—Thirty of the conservative Democratic leaders held a private meeting here and laid plans to retain control of the party in Texas through the precinct, county and state conventions next year.

George Sandlin, of Austin, secretary; and Claud Gilmer, of Rocksprings, chairman of the Texas Democrats for Eisenhower campaign in 1952. This session came three months after organizers had begun their work, looking to next year's struggle with the liberal Democrats.

Governor Shivers was present, but according to reports coming out of the meeting, he gave no indication as to whether he would be a political candidate, and if so, in which race.

Texas Young Democrats have become a new focal point in the old political feud. Dormant since 1947, the organization is being built up again, says Boyd Taylor, a University of Texas student.

Taylor reports that according to the rules, state organizations must get a new permit every two years from the National Young Demos and pay a \$100 fee.

This requirement has been carried out by this group, Taylor says. As evidence, he shows a telegram from John F. McCarthy of Bridgeport, Conn., treasurer of the national organization.

Taylor's associates are the Adlai Stevenson type of Democrats, as opposed to Shivers group. Several young Texans met with Stephen Mitchell, chairman of the National Democratic Executive Committee, when he was here last July, says Taylor, at that time Mitchell suggested that the young Texans get a charter.

Now let's get to the other side of the argument. George Sandlin, of Austin, secretary of the Texas Democratic Executive committee, says he never officially heard of Boyd Taylor.

According to Sandlin, Taylor's group failed to follow the prescribed procedure, which is to be certified by the state Democratic chairman, the national committee chairman and committee woman. "None of these had certified Taylor's group," Sandlin said.

As far as the State Democratic committee is concerned, the present head of the Texas Young Demos is Max Triplett of Hillsboro, who occupied that position in 1947, and for whom no successor has officially been chosen.

So—here we go again, the so-called liberal democrats versus the so-called conservative democrats. Boyd Taylor and his Young Demos, on the liberal side, plan a state convention in San Antonio Friday and Saturday (October 30-31).

Among the speakers will be Ralph Yarborough of Austin, who lost to Shivers in the race for governor last year; and Byron Skelton of Temple, who has opposed Shivers' party leadership.

Texas Republicans, meanwhile, were carrying forward their own election plans for 1954. But Senator Price Daniel, in a speech at San Antonio, said he does not think they have much chance.

"Texas is a Democratic state," the senator said. "I don't think the Republicans are going to win and (statewide) offices next year."

Eisenhower's victory in Texas in 1952 was not a Republican triumph, but a personal victory for Ike, in Daniel's view.

There will be no special session of the Legislature on drought relief at this time, the governor has announced.

In an official memorandum, Attorney General John Ben Shepperd ruled that the governor can use his \$200,000 deficiency appropriation to finance a state-federal hay program.

Agriculture Commissioner John C. White, in Shepperd's opinion,

work, looking to next year's struggle with the liberal Democrats.

The governor's deficiency appropriation is the Legislature's authority to the chief executive to spend money for any necessary purpose that may be unforeseen while routine appropriations of state moneys are being made.

With \$200,000, the governor estimates, the drought relief program can be carried along for a couple of months. After that time, the situation can be re-studied.

Texas oil production was reduced again, for the third straight month, by the Railroad Commission.

November's quota is 2,803,528 barrels daily, 360,374 barrels less than the figure for July, when the downward trend began.

From the Texas Independent Producers and Royalty Owners Association came cries of protest at the drop in production.

Association spokesmen protested that the reduction in Texas oil production comes about by virtue of the importation of foreign oil.

"We have merely forfeited more of our domestic market to foreign oil," said M. D. Bryant of San Angelo, president of the association.

Imports of foreign oil amounted to \$69,125-barrels daily in September, according to reports received by the Railroad Commission.

There are too many insurance companies in Texas.

So says Garland A. Smith, newly-appointed chairman of the State Board of Insurance Commissioners.

Smith added that he intends to draft legislation that will cut down the number of new insurance companies which have insufficient securities to protect holders of their policies.

There are now 1,822 insurance companies operating in Texas, he said. Of the total, 500 are Texas companies and the others are national companies with branches in Texas.

"That's far too many," Smith asserted.

He cited that three companies have liquidated in the last year, and one company could not meet \$800,000 in liabilities.

Tightened enforcement of the liquor laws will be possible by the addition of 10 new inspectors for the Texas Liquor Control Board.

Coke R. Stevenson, Jr., the board's administrator, announced that a training school will begin November 2 for selected candidates who seek the jobs.

After an intensive course of study, they will take an examination, and those who pass it will start work as inspectors.

Because most of these men will be assigned to the undercover squad, the trainees' names are not given.

It is the responsibility of under-

cover men to gather evidence regarding violators of the Texas Liquor Control Act.

For years, the Legislature has worried over laws regulating the annexation of territory by cities.

Still troublesome, the question will get a going-over by a Texas Legislature Council committee composed of Senators Gus J. Strauss of Hallettsville, Nevelle H. Colson of Navasota, and Jep S. Fuller of Port Arthur; and Representative Marshall O. Bell of San Antonio, Charles Murphy of Houston, Scott P. Sayers of Fort Worth and Tom King of Dallas.

How to provide for the orderly expansion of cities while protecting the property rights of citizens is the problem.

Lieutenant Governor Ben Ramsey is chairman of the council. He has appointed committees on game and fish laws, juvenile code, and revising Texas' court system.

Funeral services for Donna Rae Miller, infant daughter of Mr. and Mrs. Bobby L. Miller were held at 5:00 p.m. October 21 in the Rockport cemetery.

She died Wednesday morning in a Corpus Christi hospital. Leo Owen, of the Rockport Church of Christ, officiated.

Aransas County Sheriff's Sale

NOVEMBER 3, 1953 - 10:00 A.M.

All of the property listed below will be sold at Sheriff's Sale at the Courthouse in Rockport, Texas on November 3, 1953 beginning at 10:00 a.m. The Sheriff or his agent will sell the property to the highest bidder for cash upon oral bids under the rules governing auction sales generally. The bid must start at the amount of the opening bid set out opposite each tract, and no bid of less than this figure can be

accepted by the officer conducting the sale. This property is being sold for taxes, and all sales are made subject to the right of the former owner to redeem within two years from the date the purchaser's deed is filed for record. Purchasers will receive the ordinary type of Sheriff's deed which is without warranty, express or implied. It will also be necessary that the bidders satisfy themselves

concerning the location of the property on the ground prior to the sale as the amount of property being offered will make it impossible to give this information as the sale progresses. Maps and plats of these subdivisions are on file in the office of the County Clerk at Rockport, and all papers in the suits on which these sales are based are on file in the office of the District Clerk.

**WOODSBORO DEFEATS PIRATES BY 25-6 SCORE**

**By Leon Bateman**

The Woodsboro Eagles sent the Pirates to their second conference loss of the season by a score of 25-6.

The first payoff of the evening came when Robert Duncan, of Woodsboro, made a handoff to Glynn Morgan who scampered seven yards to pay dirt. Guy Meissner bucked over for the extra point.

The Pirates, "not to be outdone", fought their way up to the 7-yard line to send J. D. Spencer the rest of the way with the pigskin. The extra point was not good. During the second quarter the Pirates held the Eagles to one touchdown. It was again made by Morgan who took a handoff from Duncan to push his way up field 18 yards for the Eagles' second touchdown, but failed to make the extra point. The first half ended with the score standing 13-6 in favor of the Eagles.

The Pirates never could seem to get started in the second half due to the wet and muddy field, but held the Eagles to two touchdowns.

The first touchdown of the second half was made by Duncan who bucked one yard to toss in another touchdown for the Eagles. They still failed to penetrate the Pirate line for the extra point. Duncan, the outstanding back of Woodsboro led the Eagles to another touchdown with a pass to Scott who then ran for the last six points of the night. The extra point was not good and the game ended with the score 25-6 in victory for the Woodsboro Eagles.

The Pirates were short two men for the game. One starter was out on account of scholastic eligibility and the other on account of missing two weeks of practice.

Outstanding among the Pirates were Tommy Bradshaw at end who stopped numerous defensive threats and John Silberisen, big 190 pound tackle who tore holes in the Woodsboro line. Outstanding punting came from the foot of Harry Lee Mills whose average was 50.3 yards on a field of mud and water. Fully Clingman did a good yeoman's job of backing up the line.

**Baptist Young People Entertained With Party**

The young people of the First Baptist Church were entertained with a Hallowe'en party last Tuesday evening. The social was sponsored by the Business Women's Circle of the W. M. S. and held in the Church annex.

The party guests were greeted at the door by a ghost who gave them a "cold, clammy handshake." They were then ushered into the ghost chamber and presented to the King and Queen of Ghosts and asked to sit on the throne with them; the throne being a trick chair that collapsed. From there the guests were taken into a room of fortunes. Each guest shined a light on the tree and selected a black cat and yellow pumpkin to which their fortunes were attached. Then the young people were led into the "bone yard". There they read their own names and epitaphs from the tombstones. Then their journey led them to the "horror chamber" where they had to hold, in their hands, the parts of a "goblin" that comes back to each Hallowe'en season.

From here they were led down the "Witch's Hallway". There while a fierce wind blew on the banshee bush, they selected their choice of "poison from the witch's cauldron", and journeyed past the ghosts and skeletons into the Hallowe'en decorated game room. The decorations included huge pumpkins, black cats, bats and owls that took their places around the wall. Orange and black paper was the decorative motif.

The group enjoyed an hour of choice Hallowe'en games, stunts, relays and faces, with prizes and favors given to individuals and groups.

Popcorn balls, doughnuts and Coke were served from the refreshment table. The table was covered with a white cloth. Orange and black streamers and bows were draped gracefully around it, making a setting for the lighted pumpkin and candles which completed the centerpiece.

Those taking part in the fun were: Ruth Torres, Nedra Ham, Wanda Cororan, Lou Benningfield, Wanda Sue Mundine, Nancy Carol, Harvey, Sherry Ivy, Jerry Ballou, Tommy Shults, Johnnie Sapp and Leon Bateman. Mrs. John Roaten, Young People's Director of the Church, Mrs. J. H. Rork, Young People's Training Union Leader; Mrs. H. B. Ramsey, Young People's Sunday School teacher.

Members of the Business Women's Circle assisted in the social were: Mrs. Ruby Mundine, chairman, Mrs. W. A. Jones, Mrs. Tom Shults, Mrs. A. L. Ballou, Mrs. Ed Ballou and Mrs. Pearl Ivy.

**C. P. & L. Completes 63-Mile Electric Line**

A 63-mile electric line from Lon Hill to Falfurrias, fourth major link in Central Power and Light Company's new 138,000-volt transmission system, has been completed and is now in service.

The higher-voltage transmission network, which will extend over a large part of South Texas within the next few years, now stretches from Pleasanton to the Lower Rio Grande Valley by way of Victoria and Lon Hill. The 138,000-volt lines have twice the voltage and about four times the power carrying capacity of any CPL line previously in service.

The new Lon Hill-Falfurrias section of transmission line links previously completed 138,000-volt lines from Victoria to Lon Hill and from Falfurrias to Edinburg. The 138,000-volt transmission system will soon extend also to Laredo, as a 69,000-volt line from Falfurrias to Laredo is currently being converted to the higher voltage.

The 138,000-volt lines are designed to transmit large quantities of electricity between CPL's major power centers. As the use of electricity by customers increases and plant capacity is enlarged to satisfy the rising demand, higher-voltage lines are needed to carry more power from one place to another, CL officials explained.

Expansion of the CPL transmission system is being carried on concurrently with substantial increases in the power supply available to South Texas. Lon C. Hill Power Station, under construction at Lon Hill in the Corpus Christi area, will be in service early next year with an initial net capacity of 66,000 kilowatts. Major additions to the Victoria and Laredo power stations are also currently in progress and scheduled for completion early in 1955. A 66,000 kilowatt generating unit will be added at Victoria and a 33,000 kilowatt unit at Laredo. Completion of these projects will increase the net capacity of Central Power and Light Company's electric system to 465,100 kilowatts, as compared with the present net capability of 300,100 kilowatts.

### C. of C. Will Sponsor 1954 Winter Fishing Tournament

A lady angler will be the defending champion in the 1953 Rockport Winter Visitors Fishing Tournament.

She is Mrs. R. H. Lieurance, of Kiowa, Kansas, who took top laurels in the redfish division of last year's three-month-long event.

Mrs. Lieurance's prize-winning catch was a 12-pounder snagged in the Aransas Bay surf at nearby Fulton.

So far, Mrs. Lieurance hasn't indicated whether she will be on hand to compete in the 1953 tournament which gets under way early in December.

But, regardless, there will be plenty of entrants to take aim at her record.

The tournament—in its second year—is open to the hundreds of visitors who spend winter vacations in the Rockport area.

It is sponsored by the Rockport Chamber of Commerce.

"We expect a much bigger and better tournament this year," said Mrs. Mary Juergens, manager of the Rockport chamber.

"We were just starting last year, and it was highly successful."

"Already we are getting dozens of inquiries about the tournament from people who are planning to spend the winter with us."

The tournament, Mrs. Juergens said, probably will follow the same pattern as the 1952 event, when awards were made for the largest redfish and speckled trout caught each week.

The anglers with the biggest catches over the entire tournament span were declared champions and presented with trophies.

The 1952 champion in the speckled trout division was S. B. Copeland of Von Ormy, near San Antonio.

Participants in the 1952 tournament were required to fill out a registration card and to submit their catches at official weighing stations.

Both procedures probably will be followed this year, Mrs. Juergens said.

### State Health Officer Warns Deer Hunters

Austin—Note to hunters: Deer season opens November 16. That gives you enough time to resolve to take it easy this year with the .30-30 or the shotgun. Look before you shoot, and shoot where you look.

State Health Officer Geo. W. Cox checked statistical tables today and announced that shooting accidents had claimed the lives of 187 people last year. That's more death than was dealt out by typhoid, scarlet fever, smallpox, diphtheria, whooping cough, typhus, measles, malaria, pellagra, and encephalitis combined for the same period of time.

"It's getting so that hunting seasons are almost as hard on the hunters as they are on the game," the health official commented.

How many of those 187 deaths occurred during the hunting season he didn't say. But with thousands of Nimrods taking to pastures for deer and turkey, it's safe to say the number was needlessly high.

So why not agree with yourself or other members of your hunting party that this year you will:

Never carry a loaded gun in your car.

Never lay a gun aside unless you personally unload it.

Never carry your gun with the safety catch off.

Never let your finger rest on the trigger, or even inside the trigger guard—until you take aim at the target.

Never point the gun at anything you don't intend to shoot.

Never mix fire water with fire-water.

Never drag a gun through a fence. Put it over before you climb through.

Never shoot a gun without first

checking to see if the bore is clear of obstructions.

Never shoot at noises in the brush. Remember that when wildlife is being stalked it seldom makes a noise that you can hear.

Remember, too, that guns can become toys of death for inquisitive youngsters. Unload yours before you get home.
