

City Shows Steady Growth C. of C. Head Tells Railroad

Rockport has shown a steady growth of about 10 percent a year, James A. Jarboe, president of the Chamber of Commerce, told representatives of the Southern Pacific this week, and this growth has continued ever since the war.

With this growth, he pointed out, they have constantly improved the area.

The people of Rockport and Aransas County, only a couple of years ago, voted a \$415,000 bond issue for new harbor development in the area, although this work was delayed through relocation of the Intracoastal Canal from Rockport to Aransas Pass.

This year's Federal budget, Jarboe said has money allocated for this cut-off, and the Aransas County Navigation District intends to start their new harbor terminal, with rail connections, utilizing this cut-off which lessens the distance between here and Corpus Christi by about 15 miles.

Only recently, the Independent School District also completed a \$750,000 building program, giving this area one of the finest and most modern school plants in South Texas.

This year, Jarboe told the S. P. officials, citizens of Rockport voted an \$80,000 bond issue to pay for their share of a \$235,000 curb, gutter and drainage project which the State Highway Department will soon have under construction.

The 813th Aircraft and War Squadron will be in full operation a little later in 1958, he said, with its complement of 193 officers and men and their families here, making a substantial addition to the population, and to business in the area.

In addition, the Chamber of Commerce president said, the oil and gas field north of Rockport has one of the largest gas reserves in the lower Gulf Coast, and there will be as much drilling there in the future as there has been in the past, with the S. P. handling the pipe, cement and mud used in the field through Rockport.

For this reason, Jarboe urged the railroad to think seriously before curtailing its present service here, through closure of its station. In two years' time, he said, he felt that considerably more business would be developed in this region.

SPORTSMAN'S ASSOCIATION TO MEET TUESDAY

Next Tuesday night the Rockport Sportsman's Conservation Association will meet at the Woman's Club, and in the regular order of business will change the organization's name by dropping the word "Sportsmen's" from the title.

The nominating committee will present a slate of directors for the coming year for action by the membership. All members are urged to attend this meeting to select officers for the coming year.

The business meeting will be expected to provide more room for the entertainment, which will consist largely of three reels of colored movies that will be shown.

New Home of The First National Bank of Rockport

First National to Open Doors Monday, Mar. 10

The new First National Bank will open its doors next Monday, and there will be an open house to which everyone is invited from 2 till 6 p.m.

It will be completely modern in every respect. Outside dimensions of the building will be 100 x 60 feet, and the building contains a spacious lobby for the convenience of banking patrons, space for the bank's officers, a closing room, various work areas, a snack bar, storage space, and space for the air-conditioning equipment.

In addition, floor space is given to money and safety deposit vaults a director's room, and an insurance office for Glass, Sorenson and McDavid in one corner of the building.

The air-conditioning and heating unit is designed to take a minimum of space and power, while giving a maximum of service.

Partitions where they are any, are largely of glass, doors and frames are of aluminum, glass and steel; floors are covered with asphalt tile in some parts of the building, and in others with terrazo.

There is a night depository and a drive-in window attended by a teller who can also wait on customers within the bank if necessary.

Ceilings are of acoustical plaster. There is a paved parking lot for customers at the rear of the building.

The structure is located across the street from the old bank building, which will be torn down after the opening of the new building. It contains 6,000 square feet of floor space.

Victor Brock and Associates of Corpus Christi were the architects. Braselton Construction Company of Corpus Christi were the contractors, making a low bid of \$73,000.00.

The present building is one of the city's landmarks, being built when the bank was founded by the Mathis family and others, in 1890. Its east wall was wrecked in the hurricane of 1919.

Officers of the bank are: F. W. Heldenfels, Sr., president; James H. Sorenson, Jr., executive vice-president; A. C. Glass and Fred A. Bracht, vice president; Charles LaBounty, cashier and Mrs. Melinee K. Shults and Mrs. Edna M. Taylor, assistant cashiers.

Directors of the bank, besides the first five named, include Fred W. Heldenfels, Jr., James Heldenfels and Travis Johnson.

JACKSON MARINE SERVICE EXPANDS

Jackson Marine Service is expanding again, with installation of a mechanical ice plant, and equipment for handling and loading ice aboard shrimp boats. The plant will have a capacity of 50 tons a day.

Included in the installation is a vault with a capacity of 275 tons. In addition to this, the company has, for some time, been engaged in the jetting of concrete sheet piling along the waterfront it owns, and now has excellent docking facilities all along the front of their property.

Hale-Aikin Chairman Calls For Cooperation

Aransas County citizens are joining in the most widespread citizen study ever made of Texas public schools, with a view to recommending improvements to the 1959 state Legislature.

The study, which has to be both thorough and speedy because county reports are needed by May 1, is an outgrowth of the Legislature's move to examine operations of the Gilmer-Aikin Law since its adoption in 1949.

In common with the other counties of the state, the Aransas County committee under the chairmanship of Charles A. Roe, Jr., is concentrating its efforts in the areas of curriculum, teacher supply, classroom shortages and finance. Out of these studies improvements in the Gilmer-Aikin Law will be sought, and a widespread citizen knowledge of school problems at the local level is expected to result also.

FIRST BAPTIST TO DEDICATE HYMNALS SUNDAY

The First Baptist Church will hold a dedicatory service Sunday, according to Rev. C. W. Brumley, 100 new hymnals which the church has received.

Mayoralty Candidates State Qualifications

Candidates for the mayor's race are Randal G. Stivers, Jr., local real estate operator and contractor, and Hollis E. Collum, former employee of the Carbon Black plant.

Stivers was born June 21, 1923, at Tulsa, Oklahoma, and has been a Texan ever since 1936, where he has been engaged in the building and real estate business.

He had three years of military service, a part of it as staff sergeant with the 35th Infantry, 25th Division, in the Philippines, and has attended the University of Texas and St. Edward's University in Austin, from which he graduated in 1950, with the degree of Bachelor of Science in Industrial Engineering.

He was, for a time, associated with the General Motors Dealer-Relations Department in San Antonio, and later staff engineer with various engineering firms active in the oil business in Alice and Midland, Texas.

He is on the Board of Directors of the Rockport Chamber of Commerce, and treasurer of that organization, and a member of St. Peter's Episcopal Church, where he serves on the Bishop's Committee.

Married to Mary Louise Riney in November, 1941, he and Mrs. Stivers have one daughter, Catherine Pamela, 15 years old, and a son, Randal G. Stivers III, who was born seven weeks ago.

He is a home and property owner in Rockport.

This is his first venture on the local political stage.

Hollis E. Collum, combat veteran and resident of Rockport since 1947 has announced his candidacy for Mayor in the coming city elections.

Mr. Collum was born in Livingston, Texas in 1932 and except for the World War II period has been in Texas ever since. He is now 36 years of age.

During World War II he served overseas with the 34th Infantry Division holding the rank of 1st Lieutenant. From the landing at Salerno, Italy and the march north wounded four times, awarded the Purple Heart with three Oak Leaf Clusters, Silver Star, Presidential and Unit Citations.

Heretofore inactive in politics, except as a voter, Collum's sole interest in announcing for Mayor is for good government and civic betterment. His business for the past 15 years has been steel construction throughout Texas, but he expects to have his own business underway in Rockport by May 1, 1958.

He is an officer in the local American Legion Post, a member of the Northside Baptist Church and owns his own home at 911 Pearl St.

Commissioners' Court Transacts Routine Business At Meeting

The Commissioners' Court, at its regular meeting the last of February transacted largely routine business. A plat of the Bracht subdivision of Tract No. 1, Lamar was approved.

The county judge was authorized to purchase an IBM electric typewriter for the County Tax Assessor-Collector's office.

Lieutenant Ray Burleson of the 813th A. C. & W. Station asked that the county enter into a contract for fogging of the radar site. Commissioners declined to enter into such a contract, but agreed to fog the site whenever the rest of the county is being dealt with.

Commander Blackmar met with the commissioners as naval representative, and offered the airport observation tower, and roads at the airport, to the county, if the county would make a request for the same, and the commissioners instructed Judge Wendell to write the necessary letter.

The Aransas County Emergency Corps was reimbursed for their services as co-sponsors of the drag races held on February 23 in the amount of \$187, which amount went into the Aransas County Emergency Corps funds.

McDAVID SPEAKS AT ANNUAL BANQUET OF CHAMBER OF COMMERCE ON PROGRESS

Outgoing president, Jack McDavid, speaking at the annual banquet of the Rockport Chamber of Commerce, outlined for the members present some of the strides that had been made during the past year.

The Merchant's Committee, he said, had planned and financed the Christmas decorations, and would continue to add to the material available for this in the years to come, in order that Rockport's streets would reflect the Christmas season.

An active membership committee has made it a point to call on all new business people as soon as possible after their arrival, inviting them to join the Chamber.

Sub-committees, stemming from the civic affairs committee, have met with various governing bodies involved in the following projects: Lighting of the swimming beaches at night; employment of a city policeman and institution of a corporation court; separation of the sheriff's office from the tax assessor-collector's; Improvement of the Little Bay area; Erec-

Mrs. Roe At San Antonio Sports Show for C. of C.

Mrs. Charles A. Roe Sr., is at the San Antonio Sports Show this week with the booth from the Chamber of Commerce. This booth, when the San Antonio Show is over will be exhibited at the Houston Sports Show on March 15-19, and the Dallas Sports Show from April 12-20.

The exhibit consists of a large panel on which are delineated a map of Texas with the routes to Rockport marked in glittering tinsel, around which are dolls dressed to illustrate the different forms of relaxation available to the visitor in search of recreation.

Here is a tiny artist, standing before her easel; a golfer, picknickers, a miniature boat under full sail, bathing beauties; a tiny aquarium representing the marine laboratory, which also contributed an exhibit of shells; a tiny party boat headed for the fishing grounds, and hunters, apparently ready for ducks and geese.

To go with the exhibit, the Chamber of Commerce has had some new maps prepared, showing the entire bay area in Aransas, Mesquite, Copano and St. Charles bays and a part of San Antonio Bay. The plate on this is available to Chamber of Commerce members, who can use it to print maps of their own.

Members of the committee who did yeoman service on preparation of the exhibit were Mrs. Charles A. Roe, Sr., chairman; Mrs. Ethel Scott, Mrs. J. D. Griggs, Mr. and Mrs. A. L. Holland, Mrs. H. N. Dick, Mrs. F. L. McCord, Mrs. N. F. Jackson and Ben Earp.

An extremely interesting part of the background of the booth is the little group of birds used to call attention to the fact that the Aransas Wildlife Refuge, where America's last flock of whooping cranes spend the winter, is one of the attractions of Rockport.

These birds, a curlew, a whooping crane and a roseate spoonbill were modeled by Charles A. Roe, Sr., and are very creditable small bits of sculpture.

Local Home Economic Students Have Chance At Bake-Off Program

Local home economics students, under leadership of Mrs. Edith Cruser, of the ACHS, will have a chance to participate in Pillsbury's 10th Grand National Bake-off through a school bake-off program currently getting underway, it was learned here today.

Developed in consultation with prominent educators, the program enables each participating high school to hold its own miniature Bake-Off to select two top recipes using flour.

Home economics students are now working on recipes at home and in class in preparation for their school Bake-Offs which will be held prior to March 15. Trophy awards will be made to school winners and their recipes will be entered in state competition.

Each of the state winners, announced May 1, will receive two General Electric mixers; one for himself and one for the school he represents.

Winning state recipes will then compete with other junior division entries for a place in the Grand National and a chance at more than \$100,000 in cash and General Electric kitchen appliances. The event will be held this year in New York's Waldorf Astoria, September 21, 22 and 23.

Rockport Scouts Plan Overnight Camp Trip

Plans have again been made by members of Explorer and Scouts of Troop 49 for an overnight camping trip and hike at Camp DeLeon, Saturday.

Forty-two boys plan to make the trip from the two groups and will be accompanied by Cecil V. Gray and Richard Happner, advisor and assistant of Explorer Post and L. W. Tuer and John Mosely, scoutmaster and assistant scoutmaster.

Boys must have insurance before going, Tuer and Gray both said. This is the same type of insurance the school carries, to cover accidents and injuries due to and from meetings, and during the various activities in which they take part.

The program for the time spent at camp is as follows:

On Saturday, March 8, the Scouts will meet at the Scout Hut to leave, carrying a sack lunch, and after they have eaten on arrival will set up camp. At 2 p.m. they will be given an opportunity to work on stalking and compass or other merit badge work. From 3 to 4 p.m. they will go on a 5-mile hike. Between 5 and 6 they will prepare their own suppers, and then after supper will gather wood for the evening campfire which will be held between 7 and 8 o'clock. From 8 to 8:30 they will be confronted with an emergency problem, and taps is at 10.

On Sunday reveille is at 6 in the morning. Lobby of the New Bank

The banking room of the new First National Bank is completely modern in every respect, with what partitions there are composed largely of glass, while the floor in the work spaces are covered with asphalt tile; those in the lobby with terrazzo. All fixtures shown here were the work of Dick Picton, who designed and built them. They are covered with Formica, which Dudley Prophet applied to the fixtures after Picton had built them.

Dick Picton, of the Charles T. Picton Lumber Company, here in Rockport, is a do-it-yourself man that has almost turned professional. When the new First National Bank opens next Monday, March 10, every fixture, from customers benches and desks to the counters behind which the tellers stand are his handiwork.

And if you drop in at the insurance office of Glass, Sorenson and McDavid, in the same building, you will find the same fine cabinet work, put together with meticulous care by a craftsman who won't turn loose a piece of work until it's exactly right.

"It took me from last October until now," Dick said. "I worked weekends, lots of nights, and sometimes in the daytimes when business wasn't too brisk."

Of course, he didn't start out building bank furniture and fixtures, and he doubts if he'll have another job like it any time soon, but he'll keep his hand in on anyone of a thousand jobs.

"I built a lot of furniture we have," he said, "because that was the only way I could get it, and I suppose that's the way I got started."

"Then I built a boat. I wanted an outboard rig, and couldn't get just what I had in mind, so decided to do-it-myself. One of the fellows in the basin had a sweet 26-footer that I liked, and I duplicated that on a smaller scale, and made an outboard instead of an inboard job out of it. It worked out quite well."

In the bank job, the fixtures, particularly counters and partitions for the tellers, had to be built to such close tolerances that they fit exactly into various spaces. There was no chance to fudge a little here and a little there in case the things didn't fit. The only way a change could be made was by tearing up what

amounted to a piece of furniture and rebuilding it, and Dick didn't want any of that.

Consequently, he went over the architect's drawing carefully, he took off the measurements needed, and then started on the underneath framework. Each bench, desk, counter and partition was built almost to size, the only allowance being made for the veneer with which the finished product was covered.

"We were over at Parkdale Plaza," Dick said, "last fall, before I started the job, and saw a job there that looked so nice we decided that we'd make the bank fixtures the same way. The foundation of all of them was fir or pine, with some plywood, and then, as veneer we used walnut-grained Formica. This ought to take the beating it will have to stand with very little trouble."

The most noticeable portion of the fixtures strikes your eye when you enter the bank; the officers' enclosure first, and then a long, breast-high arrangement behind which the bank employees work, without the conventional grills used in older institutions of the kind. In front of the doors there are desks for customers to use, and along the walls there are seats for them also.

"We built all of it at the yard," Dick said, "except some of the partitions that had to be bolted to the walls, and most of that was done there, too, only the finishing touches being added in the bank. Luckily, I must have done a pretty good job of measuring, for we had very little trouble."

And when Dick says we, it really means him, because he engineered the whole thing, cut it, fitted it together, and cut it ready for its veneering, which was added, and then installed it in the bank with very little help.

193 Attend Scouts 6th Annual Dinner

One hundred and ninety-three people — Cub scouts, their fathers, mothers, sisters, brothers and friends — attended the sixth annual Blue and Gold Banquet in Rockport Saturday night, with Cubmaster Philip Baldwin acting as master of ceremonies and Scoutmaster John Moseley, of Troop 49 making the principal address.

Sponsored by the Rockport Rotary Club, with Fred Bracht acting as institutional representative, the pack, started six years ago with a mere handful of boys and parents, has grown until there are six dens now operating, each complete with den mothers, den dads, den chiefs, a cubmaster, an assistant cubmaster, and a full-gledged, working committee of ten, all of which help account for the turnout Saturday night.

Long tables, consisting of planks and sawhorses donated by Dick and Harold Picton, and put together with the help of A. L. Holland, lined the huge room, decorated with perky blue and gold pennants, American and Texas flags, and with cupcakes crowned with life preservers and candles. At the head table, place cards, shaped like the head and shoulders of a Cub Scout, bore the name of the people who sat there.

The food was furnished by many people, through help of Roe's Piggly Wiggly, and the milk was donated by Knolle's Dairy. Devoted den mothers had brought baked potatoes, wrapped in foil, carrot salad, string beans, and there were urns and urns of hot coffee.

Mrs. James Crusier was general chairman of the food detail, and her husband, Jim, sliced the ham.

The dinner started with an invocation by the Rev. A. Arnott Ward, and then, after the meal was over, a candle-lighting ceremony was held, honoring the birthday of scouting. Once this was over, the cup cake candle holders rapidly disappeared.

Cubmaster Philip Baldwin then gave thanks to all those people whose work had done so much to make the banquet a success, after which he presented guests at the head table. These included: Mr. and Mrs. Jack Horton, Rev. A. A. Ward, Mr. and Mrs. S. F. Jackson, Mrs. Baldwin, Jack Baughman, and the speaker of the evening, Scoutmaster John Moseley, of Troop 49, Rockport.

Moseley spoke on a safety program for bicycle riders, and on the rifle range now rapidly being built for use of scouts in Rockport, on 16 acres of ground that had been turned over to the organiza-

tion by Dudley Bracht. Following his talk, a film, the "World of Water," lent by the marine laboratory was shown, and this was followed by another, taken at the Cub Scout field day held last year at Refugio. Then came the presentation of various awards.

Mrs. Alouise Russell, who recently fell and broke her leg in three places, was complimented by Cubmaster Baldwin for the long and faithful service that she had given the organization before her accident forced her to resign. He also gave all den mothers certificates of appreciation for their work, before proceeding to call out the long list of honors for the Cubs. These included:

Michael Brooks, a one year pin; Robert Allgood, Wolf badge; Jimmy Benningfield, Wolf badge; Charles Grant, Wolf badge; David Roaten, Wolf badge; Jerry Stripling, Wolf badge; Craig Taylor, Wolf badge; Timothy Wilde, Bobcat pin; Roy Michel Johnson, Wolf badge;

Hugh M. Morrison, one gold and two silver arrow points on his Lion badge; Billy Wilson, one gold and two silver arrows on Lion badge; Garry Stryker, a two-year service star; Tommy Ben Thompson, one gold arrow on his Bear badge, Lion badge, one-year and two-year service stars;

Roy Alan Rogero, two-year service star; Shelley Poe Roaten, Lion badge and two-year service star; David Picton, two-year service star; Herby Mills, gold arrow on Bear badge, two-year service star; Kenneth Dullye, two-year service star; Bobby Edwards, one gold and silver star on Bear badge;

J. B. Crawford, one-year service star, and silver arrow on Wolf badge; Jerald Brundrett, Bear badge; Denny Elliot, silver arrow on Wolf badge; Stevie Landgraf, one silver and one gold arrow in Wolf badge.

Charles Roe, III, gold arrow on Wolf badge; Dennis Davenport, one-year service star; Jody Rouquette, one-year service star; Reggie Wendell, silver arrow on Wolf badge and a one-year service star. Dellon Beasley received a three-year service star, Steve Russell and Billy Ormand also received three-year service stars.

However, in addition, Billy Ormand, who has never missed a den or pack meeting in the three years that he has been a Cub Scout, was awarded a special three-year attendance badge, in recognition of his faithfulness.

Beasley, Russell, and Ormand also took part in the Webelos ceremony, by which they graduated from the Pack to become Tenderfoot Scouts, with Troop 49.

Officers and officials of the Pack are as follows:

Sponsoring institution, Rockport Rotary Club; institutional representative, Fred Bracht; Cubmaster, Philip Baldwin; assistant Cubmaster and leader of the Fortyniner Den, Ernest Russell. Committeemen are Dr. H. F. Elliot, William N. Johnson, Charles A. Roe, Jr., Paul Villa, Otis Rouquette, Willie D. Edwards, Walter I. Stryker, Jerald L. Brundrett. Den mothers are Mrs. Georgia Davenport and Mrs. Otis Rouquette, Den 1; Mrs. Fay D. Henderson, Den 2; Mrs. H. F. Elliot and Mrs. Madalyn Johnson, Den 4;

and Mrs. Shelley Roaten and Mrs. C. L. Grant, Den 5.

Boys in the pack, besides those named in the awards section include Jack and Jimmy Russell, Roger Carroll, Tommy Wells, Cris Sorenson, Charles Picton, Daniel Kresta, Eric Henderson, George Garrett, Jackie Hargrove, Jimmie Hargrove, Bobby Taylor,

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: American Cancer Fund and its unknown members, shareholders, officers, and representatives, and the persons who own stock or interests in and who constitute American Cancer Fund as an entity, corporation, association, firm, company or partnership, if it be any of such; and to the unknown devisee or devisees under a purported will of Clifford Mooers, deceased, dated September 24, 1956, admitted to probate in Kendall County, Texas, on December 10, 1956, and the unknown owners or claimants of any interest in the estate of such decedent or in any property standing in his name at the time of his death on November 13, 1956, including the lands and interests therein described in such suit and as described and identified in this citation, which are owned or claimed by such unknown claimants as devisee under such purported will. Defendants, each of whose identity and residence are unknown other than claimants American Cancer Society, Inc., a New York corporation, and American Cancer Society, Texas Division, Inc., a Texas corporation, who have been joined as defendants in such suit for personal service, GREETING:

You and each of you are hereby commanded to appear by filing a written answer to plaintiff's petition before the Second 38th Judicial District Court of Kendall County, Texas, in the Courthouse in the City of Boerne, Kendall County, Texas, at or before ten o'clock a. m. on the Monday next following the expiration of 42 days from the date of issuance of this citation, said Monday being the 17th day of March, 1958, and then and there to answer the original petition of Dolores Mooers, a widow, as plaintiff, filed in said court on the 30th day of January, 1958, against H. B. Fuqua as Independent Executor under a purported will of Clifford Mooers, deceased, and in which suit the other named defendants are those persons first named in this writ and to whom it is above directed, and other defendants to be cited personally are:

American Cancer Society, Inc., a New York corporation, Texas Division, Inc., a Texas corporation, and Betty Moss, Chester Green, R. J. Kelly, Mrs. Gladys Van Pelt, Genevieve Conroy, Ralph Dahlstrom, Sven Lundahl, Russell Baughman, Charley McClaskey, Allan H. Ellington, Paul S. Ole, and Mrs. A. G. Koenig, as executrix under the will of A. G. Koenig, deceased, and the said Mrs. A. G. Koenig, a widow, and Elizabeth Koenig, a feme sole, as the only heirs of A. G. Koenig, deceased; John T. Claybourne, Frank Demus, Mrs. C. W. Farley and husband, C. W. Farley, Tom Walters, Leonard Ward, Bruno Brandt, W. B. Davis, and John W. Clark, individually and as constituting and representative of that class of five-year employees given cash legacies of \$500.00 each under the terms of such purported will of such decedent.

Said suit styled "Dolores Mooers, A Widow, v. H. B. Fuqua, Independent Executor, et al.," being numbered 1525 on the docket of such court and a brief statement of the nature of the suit being as follows:

Plaintiff seeking equitable relief asks to set aside a settlement made with her husband, Clifford Mooers, dated May 1, 1956, and this Court's decree of approval entered the next day in cause No. 1464, styled "Ex Parte: Clifford Mooers and Wife, Dolores Mooers," recorded in the minutes, Vol. 6, p. 636, and asks an accounting and for a declaration fixing the identity of the residuary devisee under a purported will of such husband as admitted to probate December 10, 1956, in which suit it is claimed that plaintiff as the wife of such decedent for 27 years before his death was induced to consent to such property settlement and decree by the fraud of her husband and his agents, consisting of false representations and concealment of material facts as to the nature, extent and value of the community property and of plaintiff's true interest therein at such time, and because of further false promises to bequeath and on account of mistake induced by fraud of her said husband and coercion; and it is claimed that a fraud was also practiced by such decedent on this Court, and that the proceedings did not comply with Article 2624a.

It is further claimed in such suit that all or substantially all property in decedent's name at the time of such settlement and at the time of his death was community property, and that had the wife received those properties awarded to her in such settlement, such were greatly less than her share at such time, and such contract was grossly unjust and disadvantageous to her, but that there was further material fraud and deceit practiced on her as to those properties which it was recited she was to receive under such settlement because of failure of title and of consideration in material part and inability to deliver and failure to deliver personal property of the kind and value which it was represented such wife should receive.

Plaintiff offers to do equity and makes a continuing tender to restore that which she has received and asserts that due to her situation, inexperience, ignorance and deception she could not sooner have discovered such fraud and brought this action. It is further claimed that since such husband's death the defendant H. B. Fuqua, acting as Independent Executor under the pur-

ported will of such husband, has come into possession of but has not distributed all of those properties which the husband wrongfully took under such settlement and decree and in which plaintiff had a continuing equitable ownership and interest, and that the other defendants are claiming to own or have some interest in such properties and estate as the respective cash legatees and residuary devisee under such purported will; and that among such properties are lands and interests in lands within the State of Texas including those described, listed and identified in such petition, including the following:

Crippled Children's Applications Taken Now Says Osborn

Applications for space at the Lions' Crippled Children's Camp at Kerrville are being taken now, according to Carl Osborn, who says that, although the camp does not open until June 1, it's time to register requests to attend.

The camp, at Kerrville, has facilities for 720 children, he said, half boys and half girls, and the children will be taken from the various district on a pro rata basis, depending upon the number of Lions in the area.

The first session of the camp starts June 1 and lasts through June 14. This is for boys and girls through the ages of 7, 8, 9, 10 and 11. A second session for youngsters of this age runs from June 29 through July 12, and a third from July 27 through August 9.

In the higher age bracket (12 through 16) the first session is June 15 through June 28; the second is July 13 through July 26; and the third August 10 through August 23.

Those people in this area that are interested should contact Osborn, or any other Lion.

Rev. G. J. O'Doherty closed the meeting with a short talk.

The following members were present: Mrs. Travis Johnson, Mrs. Eiva Muiniux, Mrs. Raymond Roberts, Mrs. Sadie Curry, Mrs. Charles T. Picton, Mrs. W. F. Close, Mrs. Bill Wendell, Mrs. Roy Lee Hart, Mrs. Stanley Bissett, and the Misses Vivian Picton, Velma Picton, Veronica Klaeser, and Grace Smith.

Ruth Circle Meets At Palm Village

The Ruth Circle of the Woman's Society of Christian Service met with Mrs. A. D. Dodson and Mrs. Merritt Hulet at Palm Village. The meeting opened with prayer and refreshments were served afterwards from a refreshment board decorated with St. Patrick's Day symbols. The table decorations were a large black pipe, filled with four-leaf clovers, and a black top hat with a green St. Patrick's band and another clover-leaf.

There were 21 members and one visitor.

Mrs. E. T. White led the business meeting in the absence of the chairman, Mrs. Matt Scott, who had the measles. She appointed a nominating committee to report on a slate of officers for the coming year.

Mrs. Earl Anderson was chairman, assisted by Mrs. Stan Heath and Mrs. H. A. McDonald.

Mrs. Merritt Hulet gave the devotional on "Discipleship". Mrs. F. L. Harrington gave the last two chapters of the book "In Every Place a Voice". The Church of Christ
What It Teaches

"Who Then Can Be Saved?" This question was asked by the disciples of the Lord, and is recorded for us in Mat. 19:25.

Have you ever considered this question? Have you ever wondered if you might be saved? Some of the theology of men teaches that some men were born to be saved, and some to be lost, that God before the foundation of the world foreordained that a certain number of men and angels were to be saved, and a certain number to be lost; and that number is so fixed that it cannot be changed.

But, my friends, is that what the Bible teaches? If so, that would make God responsible for the salvation and condemnation of every man. If such a theory were true, it makes God a respecter of persons. Really, do you think anyone can justify such a theory in the light of what the Bible says?

Let us remember that our question is, WHO THEN CAN BE SAVED? Will you please carefully consider the following passages of Holy Scripture? Mat. 7:21, "Not everyone that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father which is in Heaven."

Then, if we will do the will of God we may enter into the kingdom of Heaven. Now let us turn to Mat. 28:19, "Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost." Thus we see that Jesus commissioned His apostles to evangelize all nations, and to baptize them, without a hint some were to be saved, and some lost, independent of their preaching.

But let's see again: Mark 16:15, 16, "And He said unto them, go ye into all the world, and preach the Gospel to every creature. He that believeth and is baptized shall be saved; he that believeth not shall be damned." In this place Jesus says, He that believeth and is baptized shall be saved. That puts salvation then in reach of everyone: he who will believe and be baptized.

Hence, my friends, you can do that, and so can every other person in the world, if they will.

Now let us turn to Acts 10:34, 35, "Then Peter opened his mouth, and said, Of a truth I perceive that God is no respecter of persons: But in every nation he that feareth Him, and worketh righteousness, is accepted with Him."

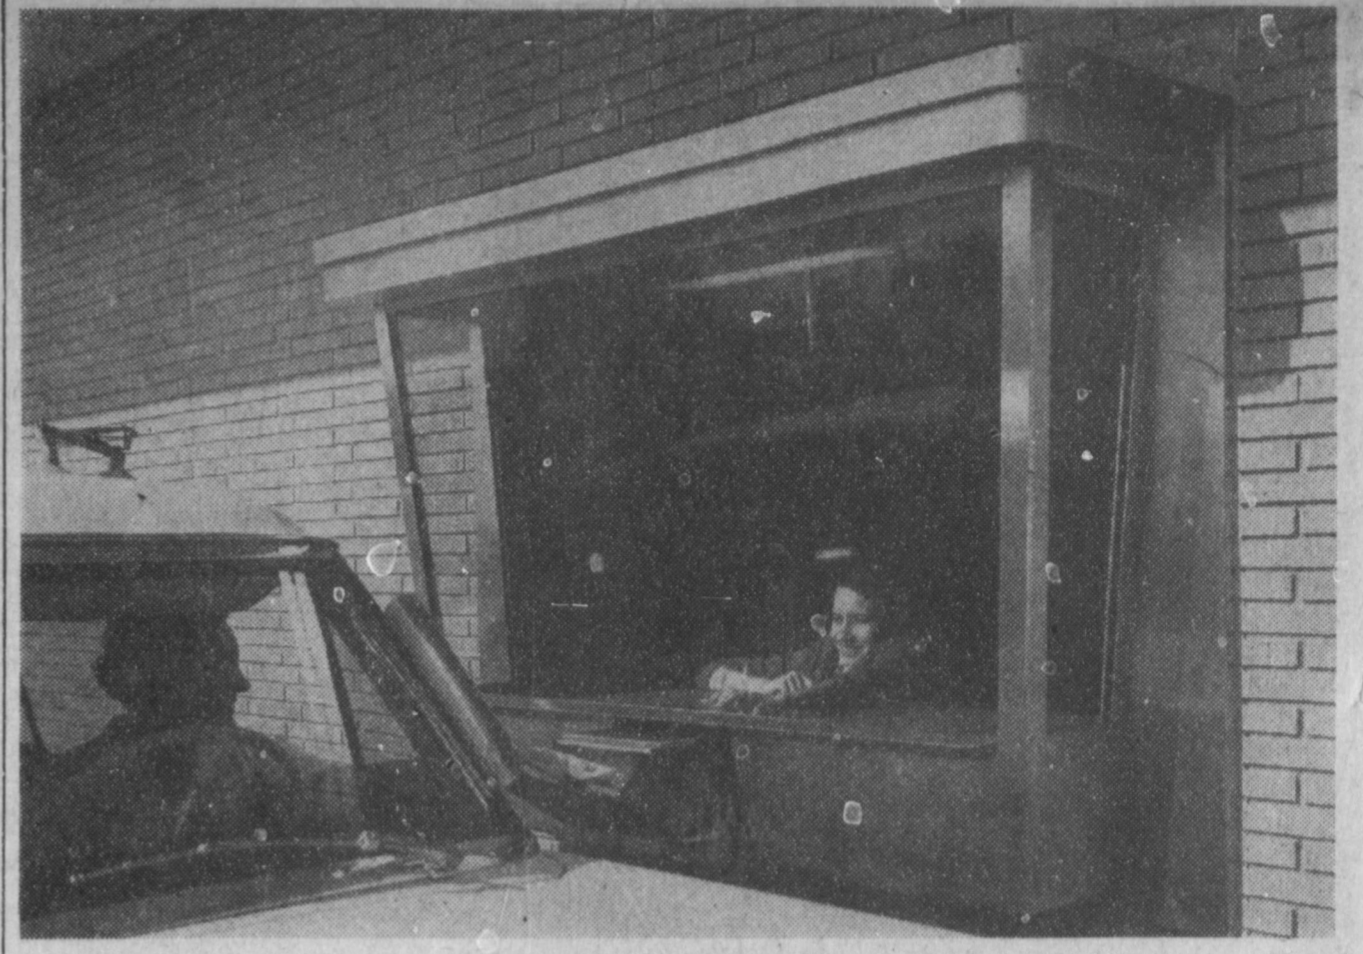

Thus we see that the Gentile can be saved as well as the Jew, for God is no respecter of persons. And all who fear God and work righteousness, is accepted with Him. To these very same people, Peter said, Can any man forbid water, that these should not be baptized, which have received the Holy Ghost as well as we? And he commanded them to be baptized in the name of the Lord.

Also, on the day of Pentecost, Peter said to those enquiring Jews, "Repent, and be baptized everyone." If you in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost.

Who Then Can Be Saved? There is but one conclusion: All may be saved who will do the will of God by hearing the Gospel, believing it with the whole heart, repenting of all sins, confessing Christ as God's son, and being baptized in water for the remission of sins.

Neither riches, nor poverty commends a man to God, but humble obedience to His word. My friend, you too, can be saved.

Miss Elsie Hawes, first teller to occupy the drive-in facilities of the new First National Bank which will open Monday, March 10, with an open house from 2 to 6 p.m. The drive-in window, according to James H. Sorenson, Jr., executive vice president, was added because of the bank's desire to furnish its customers the very latest in comfort and convenience in banking. —Photos by George Dickey

DRIVE-IN BANKING SOLVES MANY CUSTOMER PROBLEMS

Customers who drive will soon be able to conduct their banking transactions in a matter of seconds when the new drive-in window, constructed of bullet-proof glass and framed in stainless steel, is put into service by the First National Bank on Monday, March 10, it was announced today by Executive-President James H. Sorenson, Jr. It will be conveniently located at the east side of the bank.

According to Mr. Sorenson, this new banking service will save valuable time for the customer, who will be able to transact his banking business without leaving his car. The device, designed to give customers faster and more convenient banking facilities, was built by The Modular Safe Co., builders of the gold storage vaults at Ft. Knox, Kentucky containing the nation's wealth and the bank vaults which withstood the atom bomb attack at Hiroshima.

In addition to the tremendous time-saving element the drive-in window will solve parking problems, prevent congestion in the bank lobby and enable tellers to serve customers with greater efficiency.

Mr. Sorenson further explained that the customer will drive up to the window and speak to the teller in normal tones through an overhead two-way speaker system. By means of a push-button, the teller activates the electrically-controlled, streamlined, bullet-proof, craft-resistant deposit receptacle which automatically moves from the window to within easy reach of the customer seated in his car. The bank book, deposit or withdrawal slip is placed

Product of the Science of Nutritional Research

OLAFAST

OLA BASIC
Vitamin and Mineral
FOOD SUPPLEMENT

with
Alfalfa Watercress and Parsley

New wide-scope nutritional aid that goes beyond standard formulas to bring new and positive assurance of better nourishment for better health.

- COMPARE THE FORMULA...
Ola-Basic gives you 14 vit-mins—including more than normal daily requirements of every vitamin known to be essential to health!
Ola-Basic gives you 11 minerals. (Remember that minerals are vitally needed to control and stimulate the vitamin functions of the body.)
- PLUS... additional nutrients and extract of Alfalfa, Watercress and Parsley.
- Why a Multiple Vitamin Formula? Rather Than Single Vitamins?
The difference is important. If vitamins are like links in a chain of reactions which convert foods into "fuel" that the body can use, since a chain is only as strong as its weakest link, it makes little sense to strengthen a few links if other important links remain weak or broken. In the same way, you want a full complement of vitamins (and minerals) for one hundred per cent health. If you miss even a single vitamin day after day, you develop a "weak link," setting up a chain reaction which can undermine health.
