

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS,

FRIDAY, MARCH 1, 1935

NUMBER 9

and Yonder \*  
(Uncle Peavine)

## Economic Highlights

Happenings that affect the dinner pail, Dividend checks and Tax Bills of every individual, National and International problems inseparable from local welfare.

The Roosevelt Administration's recovery program is based upon the work of two major bureaus. One the NRA, was designed to aid industry and industrial workers. The other, the AAA, was created to help solve the farmers' problems and put agriculture on a paying basis.

Both bureaus adopted plans for raising and fixing prices. The NRA did this by means of executive fiat. The AAA, however, which was dealing with products largely dependent on the whims of nature went much further. There was more meat being produced than people could buy—so it killed off pigs. There was more cotton than people were using, so it placed heavy restrictions on cotton acreage, and paid bonuses to farmers for not raising a crop. It followed a similar procedure with other basic farm products.

At the beginning, AAA executives said their purpose was to bring the farm price index back to the pre-war level, this, they held, would enable the farmer to make a profit, and would not impose an excessive burden on the buying power of the public. Prices came back to the pre-war figure and then continued to soar. The other day the price level was 25 per cent over its 1913 equivalent—and AAA found itself with a first class consumer's war on its hands. Rumbblings of discontent are heard from millions of homes, where incomes have not risen anywhere near the extent of the rise in the cost of living.

Specific rises are taking place in meat prices. Butter is higher than it has been for many years. Even spring vegetables, usually dirt cheap, will, according to forecasts, be relatively expensive. Of the major edibles only fish, which is not subject to AAA control, is not advancing materially in cost.

The result of all this is that AAA is now definitely on the retreat. Crop curtailment will probably be dropped so that production may increase automatically stopping the present price trend. Protests are coming in against this change, from agriculture centers, which can see only the boon of high prices, but the chances are that consumer pressure will win out. It is probable that all restrictions will be taken off the farmer until prices return to the pre-war level, when the AAA may resume its control policy.

Thus, one of the two basic recovery bureaus has been forced to draw in its horns. As for the other, the NRA, there is plenty of trouble in the offing. Even its sponsor, Mr. Roosevelt, is believed to be cooling off so far as it is concerned—he wants congress to continue it, but on a somewhat different set-up than in the past. Wage and hour provisions will be maintained and labor will be guaranteed the right to bargain collectively if it chooses—but many NRA powers over business management will be dropped. A strong drive against NRA price fixing is developing in the Senate, led by that old-time foe of monopoly, Senator Borah. It is a safe prognostication that the NRA will have little or nothing to say about prices in the future, and there is an excellent chance that the anti-trust laws, which the NRA made inoperative, will be brought into play.

As a result, the Administration's price-fixing program in both the industrial and agriculture fields, can be fairly said to have collapsed. Best opinion holds that the Administration is shifting in its position, that it will give industry and agriculture more of a chance to work out their own problems, will depend less on legislative palliatives. It hasn't been heralded in headlines, but a number of left-wingers, who are strong for collectivism and regimentation, have recently been eased out of important positions in both the AAA and NRA. The more conservative citizens are pleased, they see a chance to get the kind of governmental policy they asked for and didn't get two years ago.

Those who believe that the principal menace to the United States' territorial security lies across the

## Newspaper Men To Advertise Texas

Corcoran, Texas, Feb. 28—Plans for a major publicity project in behalf of the Texas Centennial, the operation of the "Centennial Special" train through the Old South under the auspices of the Texas Press Association, are nearing completion, Lowry Martin, chairman of the general arrangements committee, announced here today.

Carrying about 150 Texas editors, publishers, public officials and business men and women, the "Centennial Special" will visit 14 Southern states, leaving from Houston on April 25, will visit in Washington for two days and will return to Texas, via Little Rock, Ark., arriving at Dallas where the train will disband on May 4.

Following is the tentative route: Houston, New Orleans, Birmingham, Montgomery, Jacksonville Savannah, Columbia, Raleigh, Richmond, Washington, Charlotte, Atlanta, Chattanooga, Nashville, Memphis, Little Rock, and Dallas.

"The trip offers an opportunity for any Texan to enjoy a wonderful vacation trip, seeing one of the most beautiful scenic sections of the United States when it is most beautiful, in the spring, and at the same time, render a great service by helping to advertise Texas and the Centennial," said Martin. "A remarkably low all-expense rate has been arranged by the Press Association with the participating railroads, and for the first time in history, women are invited on such a trip."

Col W. E. Talbot, president of Progressive Texans, Inc., and his organization are cooperating with the Press Association, and will distribute literature advertising Texas resources and opportunities in all of the principal cities visited. Col. Talbot will have charge of the speaking program as luncheons, dinners and other entertainments for the Texans in various cities enroute, where more Texas advertising will be disseminated. Harris headed the "New Deal Special," sponsored last year by the Press Association which was pronounced one of the most successful ventures ever staged. It visited St. Louis, Chicago, Kansas City, Washington, New York and other large cities.

"Texas has never made any particular effort to interest the Southern States in our resources and opportunities," said Martin, "and we feel that the Centennial offers a splendid opportunity for Texas to pay a goodwill visit to that section, and invite them to our State birthday party in 1936."

## Rabbit Drive To Be Held Saturday

A rabbit drive to start at the city lake site Saturday with the drag going up creek to be climaxed by dinner on the ground and barbecue served at the noon hour on W. L. Buckalew's farm about six miles up creek from the city lake. Everybody is invited to go on this drive not only for the sport that is in the event but for the riddance of the county of these pest that can destroy an acre of good corn in one night's time.

## Pacific in Japan, find ammunition to back their theory in the administration's \$500,000,000 army development program.

Let in a welter of items concerning new airplanes, additional troops, and a building up of the national guard, is a requisition that has been little publicized as yet; but is of tremendous significance. It provides for a great Hawaiian air base, to cost \$11,000,000. Army officers, quired on the meaning of this, said frankly that the war department wishes to move the national front 2,000 miles into the Pacific.

It is proposed to have a string of such bases eventually built from Alaska to Panama.

Latest statistics indicate that the general industrial upturn is continuing, with various industries coming close to the 1923-25 average. The improvement in steel has been due principally to orders from the automobile industry.

Fear is expressed in some circles that the recent rise has been too rapid—that recession will set in.

## Two To Silver Trophies Be Awarded At Kent County Meet

Two silver cups and a banner received and ribbons awarded to be given as prizes county meet to be held in March 15 and 16, at G. W. Haggard, director of the Inter-scholastic League in this county.

If the loving cups will be given to the all-round champion of Class B and the other will be all-round champion of the all-round championship ward school county.

Dual winners will be awarded red or white ribbons, as was last year. Finishing schools will be allowed to display the all-round championship banner during the coming permanent possession can be by winning all-round champion three consecutive years.

Every cordial invitation to attend a large crowd is expected to schedule is being worked out will be published in complete next weeks Chronicle.

and Girard are the only "B" schools in the county to receive the silver trophy cup in that difference in the engraving

It is believed that these cups will be added incentive each year for the schools to do their best.

The department officials said that, including mules, chickens, cows, and farm equipment, including planters, cultivators, and will be bought at this time in to provide for needs resulting from the approach of the planting season. Feed, seed, and fertilizer come under the head of capital

limited amount of household for families without these necessities also will be furnished, rural officials said.

Other school members, most of Miss Parker, Wade and Miss Davis.

## Kent School Wins Many Trophies

A show window of Huls Drug play of the awards and trophies by the Jayton school this year Davis.

It is a very attractive display worth looking over. All of us are proud of the showing the school has made this year. We feel we are in a position to say that the school of Jayton is backing the school 100 per cent.

## LINK COMPANY MEETING

Managers of the various stores in the Link Company held a meeting at the store in Spur Tuesday night to discuss business methods. The meeting was started off with a delicious dinner in the base and everybody was ready to business and not to emphasize sales too much.

It is reported that some managers had a drouth for this year, others held out an optimistic view and said that rain will fall in time to produce crops yet. They agreed that Bryant-Link Company should put forth every effort to serve the people with a high line of merchandise and do everything to make the people happy and feel that they get real bargains at all Bryant-Link stores.

Among those at the meeting were: Taylor of Rotan, Guy Speck of Lamasa, Tom Teague of Jayton, Tom Teague of Aspermont, Chesley Speck of Aspermont, J. C. Bryant, R. B. Bryant, E. E. Bryant and J. A. Smith of Ford, Ernest Weatherly of Link, Sr. and Geo. Link Jr.

## Planning to Help Old Confederate Soldiers

Austin, Texas, Feb. 27—Seventy one years have passed since the surrender of the gaunt gray armies of the South.

Yet today 8,000 oldsters are receiving Confederate pensions from the State of Texas. And the pension fund has an overdraft of five million dollars.

Possible solution of the pension problem, to be submitted as a bill has been offered by the Senate Tax Program committee. Members are Senators Arthur P. Duggan, Chairman, and Grady Woodruff and T. J. Holbrook.

To retire a part of the deficit, the committee suggests the legislature appropriate two million dollars from the general revenue. The remainder of the deficit, three million dollars, represents a loan from the highway department, and is, according to ruling of the attorney general a revolving fund.

The Committee advises that payment to widows be reduced from \$25 to \$20 dollars the month and that non-indigent widows be eliminated from the roll. It was found that 6769 of the 8,009 pensioners are widows of Confederate veterans of the Civil, Indian and Mexican wars.

The pension fund was not put into operation while the echoes of the battle could still be heard. It was not until 1899 that the fund was established. In that year there were 3,673 pensioners, most of them soldiers, and expenditures were \$137,372.61. Expenses for the last fiscal year in pensions and mortality warrants were \$3,242,564.15.

Restrictions have been raised, the committee's report says, encouraging the application of veterans and their widows regardless of non-indigency, almost regardless of length of residence in the state with the result that funds are being supplied to a limited extent from the public works administration.

State funds also have been materially reduced, the final \$3,500,000 of state bond money to be made available \$750,000 in March and April, \$400,000 for each succeeding month thru November; \$700,000 in December.

We realize the counties are disturbed about the amount of relief funds they are receiving, but we are turning over every dime to them as fast as it comes to us," Mr. Johnson stated.

Counties were requested NOT to send delegations to Austin seeking more funds and approval of work relief projects wherein the state is called upon to pay material costs.

## For City Marshall Ford Agency For Jayton

I take this method of informing the citizens of Jayton that I am a candidate for City Marshall. I know that all of you are well acquainted with me and know whether I am qualified to serve you as you desire to be served or not. If you believe I will make you a good officer I earnestly solicit your support. If elected I will do my best to carry out the law as it should be carried out and make you a real City Marshall. Thanking you now for any favors shown me, I am

Sincerely Yours, Malcolm Hall.

## ARRESTED ON LIQUOR CHARGE

Last Saturday afternoon deputy sheriff Byrum Smith arrested two parties on a charge of violating the prohibition laws. This is the first arrests of this kind in Jayton for some time. We are informed that one of the two taken before the grand jury last Tuesday came clean and the other will be tried in the District Court next week.

It seems that Kansas has decided to settle in Texas as we have had two Kansas dust storms since the last publication of the Chronicle. Just when we were getting reconciled to sand storms, along comes these dust storms and get us all confused. What has Texas ever done to Kansas to cause this dust migration anyway.

## Some Fire, Plenty of Smoke Lots of Water

Last Saturday just at the noon hour, and immediately after the force had left the Chronicle office smoke in storm cloud proportions was seen issuing from the building.

The fire alarm was turned in and the fire boys were on the job in double quick time and getting the water hose in the front door of the office quickly put the fire out. Later investigation disclosed that from all view points that most of the fire was in the stove and stove pipe. Probably caused by the soot collecting fire and the doors of the office being closed the wind from the south backing up against the hotel building to the north, sucked the flames down the flue into the office.

The damage was light, the total being estimated at less than \$120.00 for the shop and building. Never the less it was one fire in our short lives too many and we hope to never have another. We thank Miss Elouise Wilson for her quick action of calling us and having someone turn in the fire alarm. We also thank the fire boys for their prompt and efficient service and all others that gathered at the fire and assisted in any way. We also thank the boys that assisted in cleaning up the shop. The kindness will not be forgotten.

## Blue Black Norther Witnessed Here

A blue black norther hit Jayton Sunday afternoon, and Oh, boy did it rain the dirt! For some time it was just a matter of getting our breath the best way we could and taking our time in spitting up the soil. The thermometer went down as the wind picked up the dust and

boys track and field, picture making, sixth and seventh grade spelling, and a number of second places to win the title. "Hop" Worthen was an outstanding performer from the rural school, taking a number of first places in both athletic and literary events.

The ward school championship of Class B was more closely contested than the high school division. Jayton ward school was first with 120 points. Girard ward school score being 94. Jayton Ward School won first in the following events: Choral singing, ward school junior girls declamation, ward school junior boys declamation, junior boys track and field music memory, picture memory and fourth and fifth grade spelling.

Girard won first in arithmetic, essay writing, junior boys playground ball, sixth and seventh grade spelling and story telling.

MORE WORK ON HIGHWAY 18 Thursday's state papers carried the announcement of the call for bids on two more projects on highway Eighteen. The call was for bids on 12 miles of grading and drainage structures in Stonewall county between Aspermont and the Haskell county line and for three bridges in Dickens county between Spur and the Kent county line. It begins to look as if old highway 18 is to be completed before the good year of 1936 Centennial year in Texas.

From all reports, Postmaster E. C. Wade has seriously taken up the game of golf and is taking lessons from the proficient experts at the game H. Kenady and John Fowler.

County attorney Adcock, accompanied by his wife and mother and County Judge J. B. Earnest made a trip to Lamesa, Thursday of this week.

Where Do They Go From Here

We just saw a photograph of a graduating class of girls 30 years ago. Not one of the girls showed her teeth and not one of them showed that she possessed such a thing as legs. How different today! Such a picture would show every girl with her mouth wide open as she could get it, smiling like a dentist's advertisement, and as much of her legs showing as she could possibly manage and have it pass the censor. Will the girls of 30 years from now be different? Of course. They'll be different—and in that way be the same as ever. The world changes and conditions change. Human beings do not really change at all—but they do change in what they consider the smart thing at the time. What is smart for one generation is always going to be out of date and impossible for the next. The woman of 1965 may be wearing nothing but smiles—or they may be wearing stacks of furs. You may depend on it that they will covet whatever happens to be rare and costly. That is natural; it's the way they have always been and always will be. Women will not change, but their customs and costumes will change. So don't worry about it.

SPANKING BEST DISCIPLINE

While it is seldom applied any more many people and some parents still believe in the old adage about "sparring the rod and spoiling the child." Mrs. John S. Reilly, prominent author

and lecturer, is of similar opinion. She says sound spankings, preferably administered during the child's burst of anger, still constitute the best form of child-training. The mother of seven children herself, she believes old-fashioned spankings (hair brush, slipper, razor strap or whatnot) should remain a vital part of parents' equipment in rearing children. There is no age limit she said, but she does not mean brutal beatings. Her method calls for spanking "in the place the Lord meant for it," which does not harm but does a lot of good to most youngsters who need it once in a while.

Nobody's Business  
By Julian Caspers Jr.

Austin.— Taxes have been the paramount issue and subject for the past week. Legislators sit up nights thinking up new taxes and new things to tax. The senate tax survey committee gave birth to 18 new suggested sources of tax revenue the other day. The argument offered for every suggested new tax is always that it will relieve those burdened by existing taxes. The trouble is it never works out that way—it simply means additional taxes, more money for the politicians to spend.

There has been only one reduction in state taxes in a decade, and that was when the people took matters in their own hands and voted a constitutional amendment to exempt home-steads up to \$3,000 from state taxation.

Here is some interesting light on the tax question. It is a summary of some authoritative testimony given by one of the best informed tax experts in Texas before the senate tax survey committee—the identical committee which a few days later brought in the new tax suggestions. He says:

"Present tax levies yielded enough during the biennium just completed to reduce the state deficit from \$20,000,000 to \$12,000,000, and to cover the \$16.50 school per capita appropriation and pay \$3.35 on the previous year's deficit in the school fund. The state is about 90 days behind on its current accounts. It could easily wipe out the deficit and catch up during the coming biennium without a penny of additional taxes be-

ing raised. Business men are familiar with the law of diminishing returns; it means you can't have your cake and eat it, too. Politicians perpetuate to believe it. For instance, in 1931 the tax on sulphur was raised from 60 cents a ton to 75 cents. The sulphur tax yield promptly dropped from \$1,300,000 in 1931 to \$435,000 in 1932, and one of the Texas sulphur companies built a \$14,000,000 plant in Louisiana. Even Huey Long is too smart to lay the goose that lays the golden egg. As a result, Texas no longer has the proud title of sole supplier of America's sulphur supply.

It isn't so much a matter of finding new things to tax, as it is of collecting the taxes that are already levied. There are about \$140,000,000 of delinquent taxes owing in Texas to state, counties and local governmental bodies. If every tax collector in Texas made an earnest effort to collect these overdue taxes, it is probable there would accrue state sufficient money to wipe out the deficit and operate the entire government for a year, even if no current taxes were collected during the year. The legislature has encouraged the bad situation, of course, by passing a law remitting penalties and interest from time to time. It seems grossly unfair to the tax payer who has struggled and denied himself to keep his taxes paid, when his neighbor who has gone delinquent for years escapes all penalties and interest. It makes the delinquent vote of legislators who espouse their cause. At least the legislators who do.

A freshman legislator from East Texas is suffering from a bad case of the jitters. Before his election he promised the courthouse crowd in his home county that he would sponsor a bill to raise the pay of several county officials. He introduced the bill, but his heart wasn't in it, so he privately told the committee chairman:

"I promised to introduce this bill and I have. But so far as I am concerned, you can let it die in committee."

The word got back home to the chairman because the chairman happened to be in the

School auditorium. The program was very entertaining and the people expressed the wish to have these Merry Millers back again for another program in the near future.

Texas is an empire in size, equaling in area four average states; and though sparsely populated in parts there are in Texas more newspapers than in any other state in the Union. Over a hundred and twenty dailies and 620 weeklies.

DIABETES MUST BE GUARDED AGAINST

Austin, Texas, Feb. 28.—"The general increase in diabetes throughout the United States during the past few years is eloquently expressed in the Texas figures. In 1929 only 367 persons were recorded as having died of this malady, while last year about 700 succumbed. Even making allowances for undiagnosed cases in earlier life, the increasing deadly power of this malady thus becomes apparent. And while perhaps it is the least publicized of the major killers, it nevertheless deserves an appreciation of some of the predisposing causes as well as the methods to combat them," states Dr. John W. Brown, State Health Officer.

It can be said that, whatever the exciting cause of its development may be, diabetes is definitely associated with the soft living now so general among the so-called white collar workers. And it is here that diabetes potentially and increasingly flourishes.

"Thus it is noted that professional men and women, educators, bankers, business executives, servers of food and drink, laboratory and desk and bench people in general, in short, the sedentary workers are more likely to become victims of this disease than those who labor manually. And to this list must be added housewives to whom electricity and leisure in this connection have in numerous instances proved to be a doubtful blessing.

"Therefore it is plain that adults whose living habits involve a minimum of physical exertion and a maximum of food, including sweets, could profitably determine to 'about face' and gear themselves to a more normal living regimen. The rules in-

that if they had panted down the new leaf they turned over on January 1st, they would have been much better off.

What we need in this little village is a perfected boy scout organization. The boys interested are Cobb Wade and we will try to find some one to act as scout master if there are enough boys interested.

And what's the matter that some of the women aren't interested in organizing a Girl Scout troop? With the coming of Spring it's a good time to start an organization of this type.

SHERIFF'S SALE

State of Texas  
County of Jones.

Notice is hereby given that by virtue of an order of sale issued out of the Honorable District Court of Jones County, Texas, by the Clerk of said court, on the 5th day of February A. D. 1935, in the case of J. E. Robinson of Jones County, Texas and C. J. Robinson of Kent County Texas, composing the co-partnership of Robinson Bros., and whose main office is in Jayton Kent County Texas, against D. Etheridge and Lillie Etheridge, Numbered on the docket of said court 5992, on a judgement rendered in said court in favor of said Robinson Bros., and against the said D. Etheridge and Lillie Etheridge, for the sum of \$1289.46 to draw interest from the date of said judgment at the rate of 10 per cent per annum until paid and the further sum of \$128.94 to draw interest from same date at the rate of 6 per cent per annum until paid, and also costs of suit, with a foreclosure of an attachment lien on the following described real estate to wit:

The north 1-2 of survey No. 45, abstract No. 356, Block "G" original grantors W. and N. W. R. Ry Co., Pat. No. 134 Vol. 104, certificate No. 2-421, situated in Kent County, Texas, and said attachment lien existed on the 10th day of October A. D. 1934 and levied upon as the property of D. Etheridge and that on the first Tuesday in March A. D. 1935, the same being the 5th day of said month, at the Court house door of Kent County, Texas in the town of Clairmont, between the hours of 10 o'clock A. M. and 4 o'clock P. M. I will offer for sale and sell at public auction, for cash, to the highest bidder, all the right title and interest of the said D. Etheridge and Lillie Etheridge in and to the said above described real estate.

Witness my hand this 6th day of February, A. D. 1935.

B. A. Cumbie, Sheriff of Kent County Texas.

By E. V. Peek, Deputy.

ASPERMONT MAN IS FOUND DEAD

Aspermont, Texas Feb. 25—The body of R. B. Hanke, 54 year old Aspermont carpenter, was found this afternoon at a lumberyard where he had been sleeping. Apparently he had been dead since Friday night, the last time he had been seen, and when the body was found friends had been searching for him for several hours.

Justice of the Peace E. B. Burleson rendered a verdict of death of natural causes. Mr. Hanke had been suffering from heart attack for several months.

Surviving are four children, Ruda and Howard Hanke of Philadelphia and George and Mildred Hanke of near Aspermont. Funeral arrangements were incomplete tonight. Mt. Hanke had resided in this area for more than 25 years.

THINGS ONE REMEMBERS

Recently I talked to a district manager of the largest brokerage houses in the country. He commented on the fear and uncertainty that political investigations of industries engender in the public mind. As an example, he brought up the most recently announced investigation, that of the telephone system.

He said that shortly after the announcement, which brought a sharp drop in telephone stock, an old couple he knew, came into his office. The man did odd gardening jobs while his wife tended a small milk goat herd. During a lifetime, they had saved \$3,000 which was invested in American Telephone and Telegraph stock. They feared for their savings and their dividends.

What could the manager tell them little or nothing at all. For when politics takes the helm, business stability flies out the window.

Savings can be legislated, investigated and taxed out of existence. Who can tell the old couple what to do.

You will have to hurry if you expect to get in on the 50c rate for the Chronicle for one year. When the 100 are sold the sale stops. There are still a few left.

CLOTHES CLOSET INCLUDED IN BUDGET  
"It is not very convenient having your nicer clothes stored practically a mile away from home in your mother's clothes closet, yet I felt that I could not let them ruin by keeping them at home behind cretonne curtains which are anything but dust proof," said Mrs. Edith Hamilton, wardrobe demonstrator of the Center Point H. D. Club.  
"Upon selling our cotton tags we immediately included a clothes closet in the budgeting of this money. To begin with we had a good frame to which the curtains were hung, with the exception of not extending to the ceiling. This extension is being made. The space is to be utilized by adding two shelves above the hanging rod, for storing quilts and blankets. One end of the closet will have shelves made of ten inch boards spaced about twelve inches apart," reports Mrs. Hamilton.

A roll of building paper is to be purchased to cover the outside and inside of the closet which is five feet in length, eight feet in height, and 28 inches in depth.  
Our second meeting in March will be "improving storage space" conducted by the wardrobe demonstrator in her home. At this time the storage space will be completed even into hat racks and shoe stands for the demonstration," she adds.  
C. H. D. A.

USES BOTTLE TOPS FOR KNOBS ON DRESSER  
"Black rubberized tops that you find on medicine bottles make very attractive knobs for dresses drawers," says Mrs. E. R. Cox of the Center Point Club, who wishes to pass the idea on especially to the 4-H club girls who are bedroom demonstrators. She took two of these bottle tops which were the same size and punched a hole in the center of them the size of the nail she wished to use in fastening them to the drawer. The point of an ice pick was heated and used to make the holes in the tops. Next, she inserted the nail in this hole and nailed the top to the drawer in her dressing table that she has recently made from orange crates.  
C. H. D. A.

QUILT FOR BEDSPREAD FOR COLONIAL FURNISHINGS  
A very light quilt is used as a bedspread with the colonial furnishings in the improved bedroom of Maxine Goodall, bedroom demonstrator of the Girard 4-H club.  
The design consist of squares and triangles of cotton material in a solid green print and unbleached muslin. No cotton batting is to be used in this quilt. One layer of cotton outing will be used so that the spread will quilt nicely, yet not be heavy and bundlesome.  
C. H. D. A.

CLOTHING IDEAS ARE GIVEN JOBS  
"I can easily apply the methods and ideas given on the altering and designing of our foundation patterns to the patterns I have for the three girls," said Mrs. R. C. Hoyle, co-operator of the Polar H. D. Club.  
"With the amount of sewing for three girls, in school that I have to do everything that I learn in selection and construction of clothing it soon taken advantage of in having a better designed and constructed garments, also saving time by using these methods in providing clothing for our family," she further stated.  
C. H. D. A.

DO GOOD UNTO OTHERS  
Making six hundred feet of tile; adding a new member to the Polar H. D. club who is interested in being a farm food supply demonstrator is the result of one club woman's attending short course from which she brought back and distributed to non-club members. One of these being Mrs. T. G. Yeatts, formerly of Abilene, who is at present an active member of the Polar H. D. Club and is making 600 feet of tile for her garden.  
"Upon reading the bulletin on Sub-irrigation of gardens, by using hollow tile I have longed for a space for such a garden. When we moved out on the ranch I had ample space and water for this garden. Naturally the next step I took was to join the home demonstration club in my respective community so that I might be better prepared to carry on my garden project," stated Mrs. Yeatts.

program was week for the purchase of capital goods during March. The department officials said that, including mules, chickens, hogs, and farm equipment, including planters, cultivators, and will be bought at this time in order to provide for needs resulting from the approach of the planting season. Feed, seed, and fertilizer come under the head of capital

limited amount of household for families without these needs also will be furnished, rural official said.

County School Wins Many Trophies  
The show window of Huls Drug display of the awards and trophies by the Jayton school this year various athletic and literary It is a very attractive display worth looking over. All of are proud of the showing the prizes made this year. We feel are in a position to say that them of Jayton is backing the 100 per cent.

LINK COMPANY MEETING  
Managers of the various stores ant-Link Company held a meeting at the store in Spur Tuesday night to discuss business methods. The meeting was started off with a delicious dinner in the basement and everybody was ready to business and not to emphasize the too much.  
It is reported that some managers had a drouth for this year others held out an optimistic and said that rain will in time to produce crops yet. needed that Bryant-Link Company should put forth every effort to see the people with a high line of merchandise and do by can to make the people happy feel that they get real bargains at all Bryant - Link stores. ing those at the meeting were: Taylor of Rotan, Guy Speck of Cecil Speck of Lamesa, Tom son of Jayton, Tom Teague of Chesley Speck of Aspermont, J. C. Bryant, R. B. Bryant of Bryant and J. A. Smith of Ford, Earnest Weatherly of T. C. Ensey, L. R. Barrett, Link, Sr., and Geo. Link Jr.

County funds are being supplied to a marked extent from the public works administration.  
State funds also have been materially reduced, the final \$3,500,000 of state bond money to be made available \$750,000 in March and April, \$400,000 for each succeeding month thru November; \$700,000 in December.  
We realize the counties are disturbed about the amount of relief funds they are receiving, but we are turning over every dime to them as fast as it comes to us," Mr. Johnson stated.  
Counties were requested NOT to send delegations to Austin seeking more funds and approval of work relief projects wherein the state is called upon to pay material costs.  
"We just can't pay out any money for materials at this time," Mr. Johnson said.

For City Marshall Ford Agency For Jayton  
I take this method of informing the citizens of Jayton that I am a candidate for City Marshall. I know that all of you are well acquainted with me and know whether, I am qualified to serve you as you desire to be served or not. If you believe I will make you a good officer I earnestly solicit your support. If elected I will do my best to carry out the law as it should be carried out and make you a real City Marshall. Thanking you now for any favors shown me, I am  
Sincerely Yours,  
Malcolm Hall.

ARRESTED ON LIQUOR CHARGE  
Last Saturday afternoon deputy sheriff Byrum Smith arrested two parties on a charge of violating the prohibition laws. This is the first arrests of this kind in Jayton for some time. We are informed that one of the two taken before the grand jury last Tuesday came clean and the other will be tried in the District Court next week.

It seems that Kansas has decided to settle in Texas as we have had two Kansas dust storms since the last publication of the Chronicle. Just when we were getting reconciled to sand storms, along comes these dust storms and get us all confused. What has Texas ever done to Kansas to cause this dust migration anyway.

From all reports, Postmaster E. C. Wade has seriously taken up the game of golf and is taking lessons from the proficient experts at the game H. Kenady and John Fowler.  
County attorney Adcock, accompanied by his wife and mother and County Judge J. B. Earnest made a trip to Lamesa, Thursday of this week.

boys track and field, picture making, sixth and seventh grade spelling, and a number of second places to win the title "Hop" Worthen was an outstanding performer from the rural school, taking a number of first places in both athletic and literary events.  
The ward school championship of Class B was more closely contested than the high school division. Jayton ward school was first with 120 points. Girard ward school score being 94. Jayton Ward School won first in the following events: Choral singing, ward school junior girls declamation, ward school junior boys declamation, junior boys track and field music memory, picture memory and fourth and fifth grade spelling.  
Girard won first in arithmetic, essay writing, junior boys playground ball, sixth and seventh grade spelling and story telling.

SCHOOL NEWS

We did not turn out school last Friday in honor of our first President but at 3:15 the girls played the faculty in a volley ball game.

We think that we have some good material for the senior and ward girls team. The first strings have not been named yet but it won't be long now until we will have them ready for competition.

Last Monday morning we heard several of the students give their declamations and we expect them to win this year.

We are glad to see Tom Bill Fowler back in school.

Common Happenings around The School Campus

Herbert and Fuzzy trying to vault 16 1-2 feet. Douglas trying to throw the discus 135 feet. C. B. correcting six week exam papers.

Several students learning to spell all the words in the spelling list.

Miss Waddell showing the tennis players how to drive that ball.

Euna Vaye wondering whether she will graduate this year.

All the girls trying to make the volley ball team.

Merle Rose attempting to turn in a six weeks paper without the proper corrections.

Small boys getting in the way at the jumping pit while the big boys are trying to jump.

Loyal Harrison trying to break the high jump record. Best jump so far is 4 feet 6 3-10 inches.

Study hall full of students at 3:15

Things we would like to see

The Freshmen, Seniors and Juniors send in some class news to the paper each week.

Dollar bills floating around in the air.

Ice cream served free in every classroom.

Soph Class News

Since most of us passed on our exams we have another complaint and that is that we wish every time we fail a daily history test Mr. Coons would not make us stay in. His weakness we think, is sending 22 out of 23 soph history students to detention at least twice a week. (We hope he'll take this hint) We going strong for the Interscholastic meet and we will take off the biggest part of the award we think.

Jack Harrison was in town Wednesday afternoon transacting business and seeing friends.

CENTER POINT H. D.

"Skirts! Yes we are all interested in how to make skirts of types from our foundation for skirts," says the Center Point ladies. "As we are all a group of women, we need to know how to make trim line dresses last Tuesday our demonstration Miss Jones taught us how to make a two piece skirt pattern, center front, with yardstick hardly half way across from front at top and bottom and draw straight line from dot at dot at bottom. Cut on straight line. There! you have a skirt, just slash the pattern up front and tissue gingham, why, it just slash the pattern up front bottom about 18 to 20 inches, out to the desired fullness and you have an evenly flared skirt so easy when you know how."

Reporter.

Judge A. J. Hagins dropped to see us Tuesday. He has two sick grandchildren out at his Whopping Cough.

Mrs. L. F. Wade is on the list this week with a rheumatism.

CENTER POINT CLUB NEWS

At our salad demonstration given by Miss Jones Tuesday, we learned how to prepare several salads and how to carry out color schemes in making them. A very good easily made salad dressing was also made and demonstrated by a member of the club, all declared it was so good we decided to pass it on. It is as follows:

1-2 cup of water, 1-2 cup of vinegar, 1 table spoon of flour, 1-2 teaspoon pepper 1-4 teaspoon mustard one beaten egg. Cook till thick. Chill pour over shredded raw cabbage. This is spicy and different. Some very important points in salad making is never make salad sloppy, always dry vegetables and fruit with dry rag. Salads must be cold. Mix with fork, pile up. Never press down salad.

Teachers Mabel Waddell and Mayme Morris Murphy spent the week end in Plainview and cotton Center and let the Blizzard catch them while on the plains and did not report back for school until Monday at noon.

Mozelle Mason has returned home from a weeks visit with her grandfather at Rule, Texas.

Ex-Sheriff R. I. Goodall who has been nursing a sprained ankle for the past few weeks was seeing friends in Jayton Tuesday and told us his ankle was slowly improving.

Bring us a good young hen and get the Chronicle for 1 year. Then read the advertisements in the Chronicle every week and if you only buy the bargains advertised you will save enough in one year to buy you a whole flock of hens and 'steven roosters. If you are game as a chicken you will make us cry quits.

Claude Worthen and Earnest Moore made a trip to Levelland last week end where they spent some time with Claude's parents, Mr. and Mrs. A. E. Worthen who moved from here to that section lately. Claude said he ate so many of his mother's hot biscuits that he was always hungry now for them. Earnest wanted to know if the sand blew here Sunday. He said the ground just came up and hit him in the face up there on the plains.

The Chronicle is offering \$1.50 a piece for good heavy hens—One years subscription to the Chronicle. If you don't want the paper at that price. Let us know and we will cut you off.

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS,

FRIDAY, MARCH 1, 1935

NUMBER 9

### ere and Yonder \* (Uncle Peavine)

Following is a letter received by Uncle Peavine and we at Auntie Cactus was right for your selves:  
... usual thing we enjoy your...  
... are so sorry that you have eye, at least it seems so to us, don't seem to be able to one side of any thing. Now Peavine, try to turn that eye the other side of this mail business.  
... lead for the local merchants, why? Our local merchants for themselves, dont they buy all their produce from the...  
... If we raise gardens we just it we can or can what we can rest of it goes to waste. As merchants are stocked up from and cannot be bothered home products. Even when our eggs, it's so much in little less in cash. They make the goods we take in trade profit when they sell what from us—Now I ask is that the home people a square deal? should not we people have a right to do the best we can for and our families as the do? All right Uncle come show us why we should have sympathy for our home me.  
... Don't the money they pay tuckers go out of the county

Auntie Cactus.  
... Cactus, I want you to know appreciate this fine letter. It wise. Its my opinion that we all work together for the good. The merchants should in so possible buy the farmers produce the farmers as far as possible with the home merchants, giving the other a square fair. We invite the readers to columns of the Chronicle believe they have a kick. Get you kick before the publication so doing we may be able some wrongs and square some corners.

### ERNMENT FOR UNION LABOR OR WHAT?

... on labor controlled United States Senators have placed selves on the spot as fearing labor vote more than they do to see the United States herself out of the depression.  
... President Roosevelt's proposition \$4,000,000,000 of government funds, to give employment to every unemployed man \$0.00 per month on worthwhile public improvements meets approval of all except union-buster and a few fanatics pretend to believe the government can make money by magic wave of the wand therefore should dish it out a scoop full to all who extend an itching palm.  
... \$0.00 per month is not a big But fifty per month is than nothing. There was nothing in the President's position that would force any to take government super-employment. If the unemployed rather go hungry than to on this kind of work, it was to him, and him alone.  
... He working for this wage person employed has the at any time to quit and accept employment from anyone would pay him a larger in-  
... are a few U. S. Senators who are out to get the dent's goat (as the saying) These with the ones who more of their jobs than do of their country as a seem to be determined to the date in force rather than recovery.  
... editor of Liberty, a magazine published in Washington Union Labor killed the government's building program by demanding an increase in wages, and now Union seems to be determined to the depression until the becomes bankrupt.

### Economic Highlights

Happenings that affect the dinner pail, Dividend checks and Tax Bills of every individual. National and International problems inseparable from local welfare.  
... The Roosevelt Administration's recovery program is based upon the work of two major bureaus. One the NRA, was designed to aid industry and industrial workers. The other, the AAA, was created to help solve the farmers problems and put agriculture on a paying basis.  
... Both bureaus adopted plans for raising and fixing prices. The NRA did this by means of executive fiat. The AAA, however, which was dealing with products largely dependent on the whims of nature went much further. There was more meat being produced than people could buy—so it killed off pigs. There was more cotton than people were using, so it placed heavy restrictions on cotton acreage, and paid bonuses to farmers for not raising a crop. It followed a similar procedure with other basic farm products.  
... At the beginning, AAA executives said their purpose was to bring the farm price index back to the pre-war level, they held, would enable the farmer to make a profit, and would not impose an excessive burden on the buying power of the public. Prices came back touched the pre-war figure and then continued to soar. The other day the price level was 25 per cent over its 1913 equivalent—and AAA found itself with a first class consumer's war on its hands. Ramblings of discontent are heard from millions of homes, where incomes have not risen anywhere near the extent of the rise in the cost of living.  
... Terrific rises are taking place in meat prices. Butter is higher than it has been for many years. Even spring vegetables, usually dirt cheap, will, according to forecasts, be relatively expensive. Of the major edible only fish, which is not subject to AAA control, is not advancing materially in cost.  
... The result of all this is that AAA is now definitely on the retreat. Crop enticement will probably be dropped so that production may increase automatically stopping the present price trend. Protests are coming in against this change, from agriculture centers, which can see only the boon of high prices, but the chances are that consumer pressure will win out. It is probable that all restrictions will be taken off the farmer until prices return to the pre-war level, when the AAA may resume its control policy.  
... Thus, one of the two basic recovery bureaus has been forced to draw in its horns. As for the other, the NRA, there is plenty of trouble in the offing. Even its sponsor, Mr. Roosevelt, is believed to be cooling off so far as it is concerned—he wants congress to continue it, but on a somewhat different set-up than in the past. Wage and hour provisions will be maintained and labor will be guaranteed the right to bargain collectively if it chooses—but many NRA powers over business management will be dropped. A strong drive against NRA price fixing is developing in the Senate, led by that old-time foe of monopoly, Senator Borah. It is a safe prognostication that the NRA will have little or nothing to say about prices in the future, and there is an excellent chance that the anti-trust laws, which the NRA made inoperative, will be brought into play.  
... As a result, the Administration's price-fixing program in both the industrial and agriculture fields, can be fairly said to have collapsed. Best opinion holds that the Administration is shifting in its position, that it will give industry and agriculture more of a chance to work out their own problems, will depend less on legislative palliatives. It hasn't been herald in headlines, but a number of left-wingers, who are strong for collectivism and regimentation, have recently been eased out of important positions in both the AAA and NRA. The more conservative citizens are pleased, they see a chance to get the kind of governmental policy they asked for and didn't get two years ago.  
... Those who believe that the principal menace to the United States' territorial security lies across the

### Newspaper Men To Advertise Texas

Corsicana, Texas, Feb. 28—Plans for a major publicity project in behalf of the Texas Centennial, the operation of the "Centennial Special" train through the Old South under the auspices of the Texas Press Association, are nearing completion. Lowry Martin, chairman of the general arrangements committee, announced here today.  
... Carrying about 150 Texas editors, publishers, public officials and business men and women, the "Centennial Special" will visit 14 Southern states, leaving from Houston on April 25, will visit in Washington for two days and will return to Texas, via Little Rock, Ark., arriving at Dallas where the train will disband on May 4.  
... Following is the tentative route: Houston, New Orleans, Birmingham, Montgomery, Jacksonville Savannah, Columbia, Raleigh, Richmond, Washington, Carlette, Atlanta, Chattanooga, Nashville, Memphis, Little Rock, and Dallas.  
... "The trip offers an opportunity for any Texan to enjoy a wonderful vacation trip, seeing one of the most beautiful scenic sections of the United States when it is most beautiful, in the spring, and at the same time, render a real service by helping to advertise Texas and the Centennial," said Martin. "A remarkably low all-expense rate has been arranged by the Press Association with the participating railroads, and for the first time in history, women are invited on such a trip."  
... Col W. E. Talbot, president of Progressive Texans, Inc., and his organization are cooperating with the Press Association, and will distribute literature advertising Texas resources and opportunities in all of the principal cities visited. Col. Talbot will have charge of the speaking program at luncheons, dinners and other entertainments topped the Texans in various cities enroute, where more Texas advertising will be disseminated. Harris headed the "New Deal Special," sponsored last year by the Press Association which was pronounced one of the most successful ventures ever staged. It visited St. Louis, Chicago, Kansas City, Washington, New York and other large cities.  
... "Texas has never made any particular effort to interest the Southern States in our resources and opportunities," said Martin, "and we feel that the Centennial offers a splendid opportunity for Texas to pay a goodwill visit to that section, and invite them to our State birthday party in 1936."  
**Rabbit Drive To Be Held Saturday**  
... A rabbit drive to start at the city lake site Saturday with the drag going up creek to be climaxed by dinner on the ground and barbecue served at the noon hour on W. L. Buckalew's farm about six miles up creek from the city lake. Everybody is invited to go on this drive not only for the sport that is in the event but for the ridance of the county of these pest that can destroy an acre of good corn in one night's time.  
... Pacific in Japan, find ammunition to back their theory in the administration's \$500,000,000 army development program.  
... Lost in a welter of items concerning new airplanes, additional troops, and a building up of the national guard, is a requisition that has been little publicized as yet; but is of tremendous significance. It provides for a great Hawaiian air base, to cost \$11,000,000. Army officers, quired on the meaning of this, said frankly that the war department wishes to move the national front 2,000 miles into the Pacific.  
... It is proposed to have a string of such bases eventually built from Alaska to Panama.  
... Last statistics indicate that the general industrial uptick is continuing, with various industries coming close to the 1929-30 average. The improvement is not as has been due principally to orders from the automobile industry.  
... Fear is expressed in some circles that the recent rise has been too rapid—that recession will set in.

### Two Silver Trophies To Be Awarded At Kent County Meet

Two silver cups and a banner have been received and ribbons have been ordered to be given as prizes in the county meet to be held in Claremont March 15 and 16, according to G. W. Haggard, director general of the Interscholastic league in this county.  
... One of the loving cups will be given to the all-round championship school in Class B and the other will go to the all-round championship rural school.  
... The banner will be given to the all-round championship ward school of the county.  
... Individual winners will be awarded blue, red or white ribbons, as was the case last year.  
... The winning schools will be allowed to keep the all-round championship cups or banner during the coming year. Permanent possession can be gained by winning all-round championships three consecutive years.  
... Everyone in the county is given a cordial invitation to attend the meet, a large crowd is expected to attend.  
... The schedule is being worked out now and will be published in complete form in next week's Chronicle.  
... Jayton and Girard are the only two Class "B" schools in the county so that the silver trophy cup in that division lies between them.  
... All other schools in the county that take part in the meet will be competing for the rural schools cup. The two cups are exactly alike except for the difference in the engraving thereon.  
... It is believed that these cups will serve as an added incentive each year for the schools to do their best in the meet.  
**"The Red-Headed Step-child"**  
... "The red headed Stepchild" a 3-act comedy drama will be presented in the Claremont auditorium next Friday night March 8th.  
... The proceeds will go toward financing the county track meet. Admission will be 15c for school kids and 25c for adults.  
... The play is about a western girl who comes east. Her adventures in high society circles are amusing.  
... The part of the "Red-Head" is played by Miss Inez McGlothlin, a member of the faculty of the Claremont school.  
... Other members of the cast are: Miss Pauline Rogers, Miss Mae Carriger, Miss L. O. Osman, Mrs. Gem Wade Byrd, Mrs. Oscar Osman, Ben Carriger, Q. T. Wade H. W. Davis and G. C. Diel Jr.  
... Miss Evelyn Sowell is director of the play.  
**Kent County Teachers Meet In Jayton**  
... On Tuesday night the teachers of this county met in their regular monthly meeting at Jayton High School. A very interesting and conservative program was given and after the speeches, there was a general round table discussion of school problems.  
... The following teachers were present: Mr. and Mrs. Gilbert, Durham; Miss Rogers of Claremont; Mrs. Johnston, Pursley; Mr. and Mrs. Robert Williams, Rising Star; Mr. Marvin Williams and Miss Cora Le Hyatt, Center Point; Messers Lowrey, Coons and Garrett of Jayton; Misses Waddell, Creighton, Huffhines, Bier, Patton, Yerborough, and Murphy of Jayton. County Supt. Earnest was also present.  
... The following program was given: Teaching reading and phonics in the grades; Miss M. M. M. Miss Creighton, and Miss Patton.  
... Teaching in the grades. Miss Redden, Claremont.  
... Teaching of decimals and percentages. Mr. L. W. W.  
... The next meeting will be held at Claremont, March 28 at 7:30. Judge Earnest will be in charge of the program.  
... A note of interest: During the 15 years that the Chronicle has been published, Bryant-Lirk Company and Robinson Bros. Jayton Merchants have failed but a few times to carry a large ad in the paper.

### Planning to Help Old Confederate Soldiers

Austin, Texas Feb. 27—Seventy one years have passed since the surrender of the gaunt gray armies of the South.  
... Yet today 8,009 oldsters are receiving Confederate pensions from the State of Texas. And the pension fund has an overdraft of five million dollars.  
... Possible solution of the pension problem, to be submitted as a bill has been offered by the Senate Tax Program committee. Members are Senators Arthur P. Duggan, Chairman, and Grady Woodruff and T. J. Holbrook.  
... To retire a part of the deficit, the committee suggests the legislature appropriate two million dollars from the general revenue. The remainder of the deficit, three million dollars, represents a loan from the highway department, and is, according to ruling of the attorney general a revolving fund.  
... The Committee advises that payment to widows be reduced from \$25 to \$20 dollars the month and that non-indigent widows be eliminated from the roll. It was found that 6769 of the 8,009 pensioners are widows of Confederate veterans of the Civil, Indian and Mexican wars.  
... The pension fund was not put into operation while the echoes of the battle could still be heard. It was not until 1899 that the fund was established. In that year there were 3,673 pensioners, most of them soldiers, and expenditures were \$137,372.61. Expenses for the last fiscal year in pensions and matricular warrants were \$3,243,564.15.  
... Restrictions have been raised, the committee's report says, encouraging the application of veterans and their widows regardless of length of service in the state, was one of the reasons that the ranks of the veterans have thinned, there has been no compensatory decrease in the number of veterans and widows on the rolls. The state now has more than twice as many pensioners as any other Confederate State, was the most sparsely populated of the southern states during the Civil war.  
... "The liberal policy of the state toward its pensioners has, in all likelihood, encouraged the migration of the veterans and their widows from other states to Texas during the last quarter century, placing upon this state the greater part of the burden of providing for the beloved veterans of the Civil war."  
... "It is apparent to the committee that the present policy (of administration of the pension funds) in view of the constitutional limitation upon the appropriations for pension purposes, restricting the amount to revenue derived from tax levy of seven cents on the one hundred dollar valuation, is disastrous and if continued will defeat its own purpose."  
... The plan for retirement of the pension deficit would not lower the monthly stipulation of married veterans (\$50) nor that of single veterans (\$25) would enable them to cash their warrants without discount.

### Some Fire, Plenty of Smoke Lots of Water

Last Saturday just at the noon hour, and immediately after the force had left the Chronicle office smoke in storm cloud proportions was seen issuing from the building. The fire alarm was turned in and the fire boys were on the job in double quick time and getting the water hose in the front door, of the office quickly put the fire out. Later investigation disclosed that from all view points that most of the fire was in the stove and stove pipe. Probably caused by the soot catching fire and the doors of the office being closed the wind from the south backing up against the hotel building to the north, sucked the flames down the flue into the office.  
... The damage was light, the total being estimated at less than \$120.00 for the shop and building. Never the less it was one fire in our short lives too many and we hope to never have another. We thank Mrs. Elouise Wilson for her quick action of calling us and having someone turn in the fire alarm. We also thank the fire boys for their prompt and efficient service and all others that gathered at the fire and assisted in any way. We also thank the boys that assisted in cleaning up the shop. The kindness will not be forgotten.

### Blue Black Nother Witnessed Here

A blue black nother hit Jayton Sunday afternoon, a boy did it rain the dirt? For a time it was just a matter of getting our breath the best way we could and taking our time in getting the almost regardless of length of service in the state, was one of the reasons that the ranks of the veterans have thinned, there has been no compensatory decrease in the number of veterans and widows on the rolls. The state now has more than twice as many pensioners as any other Confederate State, was the most sparsely populated of the southern states during the Civil war.  
... "The liberal policy of the state toward its pensioners has, in all likelihood, encouraged the migration of the veterans and their widows from other states to Texas during the last quarter century, placing upon this state the greater part of the burden of providing for the beloved veterans of the Civil war."  
... "It is apparent to the committee that the present policy (of administration of the pension funds) in view of the constitutional limitation upon the appropriations for pension purposes, restricting the amount to revenue derived from tax levy of seven cents on the one hundred dollar valuation, is disastrous and if continued will defeat its own purpose."  
... The plan for retirement of the pension deficit would not lower the monthly stipulation of married veterans (\$50) nor that of single veterans (\$25) would enable them to cash their warrants without discount.

### Methodist Young People to Meet in Haskell

The Methodist Young people of Stamford district will meet in Haskell, Sunday afternoon, March 3rd at 3 p. m. at the Methodist Church for the purpose of creating greater enthusiasm and interest in Church activities.  
... Woodrow Adeock, president of the Northwest Texas Conference Young People's Division will direct the meeting.  
... The program will be built around the theme, "New Light and New Life," and will not last longer than two hours. All young people between the ages of 12 and 24 are cordially invited to attend.  
... Churches of the Stamford District are located in the following towns and communities.  
... Aspermont, Avoca, Bomerton, Elbert, Goree, Haskell, Jayton, Knox City, Lueders, Munday, Peacock, Rochester, Roaring Springs, Rule, Seymour, Spur, Stamford, Sager-ton, Thorp, Throckmorton, Vera, Weinert, Westover, and Woodsen.  
... Eldon C. Wade has been confined to his bed since Tuesday afternoon at which time he underwent a minor operation at the hands of Doctors Alexander of Spur and Jayton. He hopes to be out and at his place of responsibility some time next week.  
... Dewey Lansdown and his mother have both been on the sick list the last ten days.  
... Dr. Alexander is driving a new 1935 Ford V-8.  
... A business that won't stand advertising must be a rotten business, and if it is the smell is advertisement enough.  
... Chattie mortgages in triplicate forms, 5c at the Chronicle Office.  
... Banker McKenzie says: "Jayton needs a business organization the worst in the world, and I am for one 100 per cent."

### 84 Years Young

Judge A. J. Hagins was 84 years young, Tuesday of this week. Wednesday morning he came skipping into the Chronicle office like a kid and informed us of the fact along with the statement that on the same day he came into the first money he ever received for nothing. When we asked him to explain he said "I received a check for the cotton that I failed to produce in other words "I failed to produce my allotment of cotton and some other fellow over produced his allotment and this great and glorious government of ours made the gentleman divide up with me. He did the work and I received half the money, great doings that."  
... If the Chronicle looks rather bum this week, just remember we have been thru a fire, flood and sand-storm since the last issue was put in the mail and besides that everyone on the force has been sick part of the week.  
... Bring in your good young hens they are worth \$1.50 each on subscription to the Chronicle. If you are game you will pay up or ask us to cut you off the mailing list.

Where Do They Go From Here

We just saw a photograph of a graduating class of girls 30 years ago. Not one of the girls showed her teeth and not one of them showed that she possessed such a thing as legs. How different today! Such a picture would show every girl with her mouth wide open as she could get it, smiling like a dentist's advertisement, and as much of her legs showing as she could possibly manage and have it pass the censor. Will the girls of 30 years from now be different? Of course. They'll be different—and in that way be the same as ever. The world changes and conditions change. Human beings do not really change at all—but they do change in what they consider the smart thing at the time. What is smart for one generation is always going to be out of date and impossible for the next. The woman of 1905 may be wearing nothing but smiles—or they may be wearing stacks of furs. You may depend on it that they will covet whatever happens to be rare and costly. That is natural; it's the way they have always been and always will be. Women will not change, but their customs and costumes will change. So don't worry about it.

SPANKING BEST DISCIPLINE

While it is seldom applied any more many people and some parents still believe in the old adage about "spanking the rod and spoiling the child." Mrs. John S. Reilly, prominent author and lecturer, is of similar opinion. She says sound spankings, preferably administered during the child's burst of anger, still constitute the best form of child-training. The mother of seven children herself, she believes old fashioned spankings (hair brush, slipper, razor strap or whatnot) should remain a vital part of parents' equipment in rearing children. There is no age limit she said, but she does not mean brutal beatings. Her method calls for spanking "in the place the Lord meant for it," which does not harm but does a lot of good to most youngsters who need it once in a while.

Business men are familiar with the law of diminishing returns. It means you can't have your cake and eat it, too. Politicians persistently refuse to believe it. For instance, in 1931 the tax on sulphur was upped from 60 cents a ton to 75 cents. The sulphur tax yield promptly dropped from \$1,300,000 in 1931 to \$435,000 in 1932, and one of the large Texas sulphur companies built a \$14,000,000 plant in Louisiana, where even Huey Long is too smart to kill the goose that lays the golden egg. As a result, Texas no longer retains the proud title of sole source of America's sulphur supply.

Nobody's Business By Julian Caspers Jr.

Austin.— Taxes have been the paramount issue and subject for the past week. Legislators sit up nights thinking up new taxes and new things to tax. The senate tax survey committee gave birth to 18 new suggested sources of tax revenue the other day.

The argument offered for every suggested new tax is always that it will relieve those burdened by existing taxes. The trouble is it never works out that way—it simply means additional taxes, more money for the politicians to spend.

There has been only one reduction in state taxes in a decade, and that was when the people took matters in their own hands and voted a constitutional amendment to exempt homesteads up to \$3,000 from state taxation.

Here is some interesting light on the tax question. It is a summary of some authoritative testimony given by one of the best informed tax experts in Texas before the senate tax survey committee—the identical committee which a few days later brought in the new tax suggestions. He says:

"Present tax levies yielded enough during the biennium just completed to reduce the state deficit from \$20,000,000 to \$12,000,000, and to cover the \$16.50 school per capita appropriation and pay \$3.35 on the previous year's deficit in the school fund. The state is about 90 days behind on its current accounts. It could easily wipe out the deficit and catch up during the coming biennium without a penny of additional taxes being raised."

It isn't so much a matter of finding new things to tax, as it is of collecting the taxes that are already levied. There are about \$140,000,000 of delinquent taxes owing in Texas today to state, counties and local governmental bodies. If every tax collector in Texas made and earnest effort to collect these overdue taxes, it is quite probable there would accrue to the state sufficient money to wipe out the deficit and operate the entire government for a year, even if no current taxes were collected during the year. The legislature has encouraged a bad situation, of course, by passing laws remitting penalties and interest, from time to time. It seems grossly unfair to the tax payer who has struggled and denied himself to keep his taxes paid, when his neighbor who has gone delinquent for years, escapes all penalties and interests. But it makes the delinquent vote for the legislators who espouse their cause. Or at least the legislators think it does.

A freshman legislator from East Texas is suffering from a bad case of the jitters. Before his election he promised the courthouse crowd in his home county that he would sponsor a bill to raise the pay of several county officials. He introduced the bill, but his heart wasn't in it, so he privately told the committee chairman:

"I promised to introduce this bill and I have. But so far as I am concerned, you can let it die in the committee."

The word got back home somehow perhaps because the committee chairman happened to be a good friend of the legislator's county judge.

The judge came to town, did a little lobbying, and the bill rolled out of the committee with a favorable report. The judge was in Austin a week, but he never went near the legislator who introduced the bill. The legislator wonders why. He'll probably find out next election, when the courthouse crowd at home casts its vote.

Politics is a strange game, but its first rule is "Never bite the hand that feeds you."

Clyde Barrow and Raymond Hamilton, No. 1. Texas bandits, have rendered a notable service to their state. Friends of law and order have tried for several years to enact a law creating an effective state police force. Clyde and Ray convinced the people of Texas that modern machine gun bandits couldn't be caught by county sheriffs with horses and buggies and six shooters. So the senate passed the state police bill with only one dissenting vote, that of Publisher senator Sulak of La-Grange. House action, decisive and favorable probably will follow shortly.

WE CAN'T DO WITHOUT METAL

If you want to obtain an idea of the value of metals, look around your home, office or factory. Practically everything you use involves one or more metals, automobiles and pens, furnaces and thumb tacks, utensils and sporting goods.

Every basic industry is vitally dependent upon metals for making and distributing its products or services. If the impossible happened, and we suddenly found ourselves without metals tomorrow, life would have to be carried on in the neolithic manner.

This illustrates the reason for the importance that is attached to the domestic minerals and mining industries and shows why far sighted economists are interested in fair and reasonable legislative and tax policies for mining.

Mrs. Lee Howell and sons Robert Hudson and Lynwood came home Tuesday of this week after spending two weeks in Millersview, Texas with Mrs. Howell's mother Mrs. J. T. Wood, who has been very ill with double pneumonia.

MUSICAL PROGRAM SPONSORED BY LANDERS-GARDNER

The people of Jayton trade territory enjoyed a musical program given by the Merry Millers and sponsored by the Landers-Gardner store on Jayton Thursday night at the High School auditorium.

The program was very entertaining and the people expressed the wish to have these Merry Millers back again for another program in the near future.

Texas is an empire in size, equaling in area four average states; and though sparsely populated in parts there are in Texas more newspapers than in any other state in the Union. Over a hundred and twenty dailies and 620 weeklies.

DIABETES MUST BE GUARDED AGAINST

Austin, Texas, Feb. 28.—"The general increase in diabetes throughout the United States during the past few years is eloquently expressed in the Texas figures. In 1929 only 367 persons were recorded as having died of this malady, while last year about 700 succumbed. Even making allowances for undiagnosed cases in earlier life, the increasing deadly power of this malady thus becomes apparent. And while perhaps it is the least publicized of the major killers, it nevertheless deserves an appreciation of some of the predisposing causes as well as the methods to combat them," states Dr. John W. Brown, State Health Officer.

It can be said that, whatever the exciting cause of its development may be, diabetes is definitely associated with the soft living now so general among the so-called white collar workers. And it is here that diabetes potentially and increasingly flourishes.

"Thus it is noted that professional men and women, educators, bankers business executives, servers of food and drink, laboratory and desk and bench people in general, in short, the sedentary workers are more likely to become victims of this disease than those who labor manually. And to this list must be added housewives to whom electricity and leisure in this connection have in numerous instances proved to be a doubtful blessing.

"Therefore it is plain that adults whose living habits involve a minimum of physical exertion and a maximum of food, including sweets, could profitably determine to 'about face' and gear themselves to a more normal living regimen. The rules involved in this suggestion are: under the doctor's direction and under weight; eat proper foods in proper amounts; shunning excesses of sugar sweets; and have a physical examination; and regularly exercise the muscles of the body in either work or play."

ASPERMONT MAN IS FOUND DEAD

Aspermont, Texas Feb. 25.—The body of R. B. Hanke, 54 year old Aspermont carpenter, was found this afternoon at a lumberyard where he had been sleeping. Apparently he had been dead since Friday night, the last time he had been seen, and when the body was found friends had been searching for him for several hours.

Justice of the Peace E. E. Burlison rendered a verdict of death of natural causes. Mr. Hanke had been suffering from heart attack for several months.

Surviving are four children, Ruda and Howard Hanke of Philadelphia and George and Mildred Hanke of near Aspermont. Funeral arrangements were incomplete tonight.

Mr. Hanke had resided in this area for more than 25 years.

THINGS ONE REMEMBERS

Recently I talked to a district manager of the largest brokerage houses in the country. He commented on the fear and uncertainty that political investigations of industries engender in the public mind. As an example, he brought up the most recently announced investigation, that of the telephone system.

He said that shortly after the announcement, which brought a sharp drop in telephone stock, an old couple he knew, came into his office. The man did odd gardening jobs while his wife tended a small milk goat herd. During a lifetime, they had saved \$3,000 which was invested in American Telephone and Telegraph stock. They feared for their savings and their dividends.

What could the manager tell them little or nothing at all. For when politics takes the helm, business stability flies out the window.

Savings can be legislated, investigated and taxed out of existence.

Who can tell the old couple what to do.

You will have to hurry if you expect to get in on the 50c rate for the Chronicle for one year. When the 100 are sold the sale stops. There are still a few left.

Quite a few people are learning

that if they had panted down the new leaf they turned over on January 1st, they would have been much better off.

What we need in this little village is a perfected boy scout organization. The boys interested at Cobb Wade and we will try to find some one to act as scout master if there are enough boys interested.

And what's the matter that some of the women aren't interested in organizing a Girl Scout troop? With the coming of Spring it's a good time to start an organization of this type.

SHERIFF'S SALE

State of Texas County of Jones.

Notice is hereby given that by virtue of an order of sale issued out of the Honorable District Court of Jones County, Texas, by the Clerk of said court, on the 5th day of February A. D. 1935, in the case of J. E. Robinson of Jones County, Texas and C. J. Robinson of Kent County Texas, composing the copartnership of Robinson Bros., and whose main office is in Jayton Kent County, Texas against D. Etheridge and Lillie Etheridge, Numbered on the docket of said court 5992, on a judgment rendered in said court in favor of said Robinson Bros., and against the said D. Etheridge and Lillie Etheridge, for the sum of \$1289.46 to draw interest from the date of said judgment at the rate of 10 per cent per annum until paid and the further sum of \$128.94 to draw interest from same date at the rate of 6 per cent per annum until paid, and also costs of suit, with a foreclosure of an attachment lien on the following described real estate to wit:

The north 1-2 of survey No. 45, abstract No. 356, Block "G" original grantors W. and N. W. R. Ry Co., Pat. No. 134 Vol. 104, certificate No. 2-421, situated in Kent County, Texas, and said attachment lien existed on the 10th day of October A. D. 1934 and levied upon as the property of D. Etheridge and that on the first Tuesday in March A. D. 1935, the same being the 5th day of said month, at the Court house door of Kent County, Texas in the town of Clairemont, between the hours of 10 o'clock A. M. and 4 o'clock P. M. I will offer for sale and sell at public auction, for cash, the above described real estate, together with all the right title and interest of the said D. Etheridge and Lillie Etheridge in and to the said above described real estate.

Witness my hand this 6th day of February, A. D. 1935.

B. A. Cumbie, Sheriff of Kent County Texas. E. V. Peek, Deputy.

**WALL BAPTIST ASSOCIATION MEET AT GIRARD, 5TH**

Next meeting of the Stonewall Association to be held at Girard, Tuesday, March 5th. The program will be rendered: A. M. Devotional services led by R. T. Barton, Girard.

M. S. S. Evangelism, Rev. H. Swenson Church.

A. M. "Relationship of S. Church" Rev. Finas Williams, Aspermont Church.

A. M. "Church Loyalty" - Fred McPherson Pastor of Church.

A. M. Sermon - Rev. Tierce of Aspermont church.

News, Lunch.

Evangelism and prayer service led by Lee Dowdle.

P. M. "Denominational Loyalty" H. C. Bristo, Rotan Church.

"Baptist Hundred Thousand" by Rev. J. D. Brannen, Dispersary of Abilene, Texas.

"Women's Work" by Mrs. J. of Aspermont.

P. M. Business and adjournment.

Body is invited to come and enjoy a spiritual feast and fellowship.

A. P. Stokes, Pastor of Girard Church.

**BAPTIST CHURCH NEWS**

Sunday was another good day at Baptist Church. There was attendance in Sunday school and a number of Jayton who do not attend Sunday school.

of our classes have put up tables and we hope to have the tables curtained before next week.

To those of you who do not attend Sunday School elsewhere we extend a cordial invitation and assure a warm welcome if you will study God's word with us.

In the past few weeks at the church the pastor has been giving a series of sermons on "Baptist Believe." Continuing series, his subject for next morning will be "Regeneration" Sunday evening all departments of the B. T. U. will meet at a church at 6:30 P. M.

Last Sunday evening our Intermediate and Senior B. Y. P. U. presented a play at the Centerview Church. This play will be repeated in the program to be given at the regular evening service hour. This program appears elsewhere in this paper.

Our Wednesday evening Bible Study class is growing. Our lessons started in Genesis with the creation and has continued through the study of the division of the races of mankind and the confusion of languages. Come next Wednesday evening and study with us the 12th, through the 15th chapter of Genesis in which is recorded the life of the great old patriarch, Abraham.

**SENIOR B. Y. P. U. PROGRAM**

4. The Difficulty of the Task. Mrs. Fuller.
5. The Christian Responsibility. Mrs. Van Zandt.
6. A Highway Shall Be There. Mrs. Wm. Alexander.

**CLOTHES CLOSET INCLUDED IN BUDGET**

"It is not very convenient having your nicer clothes stored practically a mile away from home in your mother's clothes closet, yet I felt that I could not let them ruin by keeping them at home behind cretonne curtains which are anything but dust proof," said Mrs. Edith Hamilton, wardrobe demonstrator of the Center Point H. D. Club.

"Upon selling our cotton tags we immediately included a clothes closet in the budgeting of this money. To begin with we had a good frame to which the curtains were hung, with the exception of not extending to the ceiling. This extension is being made. The space is to be utilized by adding two shelves above the hanging rod, for storing quilts and blankets. One end of the closet will have shelves made of ten inch boards spaced about twelve inches apart," reports Mrs. Hamilton.

A roll of building paper is to be purchased to cover the outside and inside of the closet which is five feet in length, eight feet in height, and 28 inches in depth.

Our second meeting in March will be "improving storage space" conducted by the wardrobe demonstrator in her home. At this time the storage space will be completed even into hat racks and show stands for the demonstration," she adds.

**C. H. D. A. USES BOTTLE TOPS FOR KNOBS ON DRESSER**

"Black rubberized tops that you find on medicine bottles make very attractive knobs for dressers drawers," says Mrs. E. R. Cox of the Center point Club, who wishes to pass the idea on especially to the 4-H club girls who are bedroom demonstrators.

She took two of these bottle tops which were the same size and punched a hole in the center of them the size of the nail she wished to use in fastening them to the drawer. The point of an ice pick was heated and used to make the holes in the tops. Next, she inserted the nail in this hole and nailed the top to the drawer in her dressing table that she has recently made from orange crates.

**C. H. D. A. QUILT FOR BEDSPREAD FOR COLONIAL FURNISHINGS**

A very light quilt is used as a bedspread with the colonial furnishings in the improved bedroom of Maxine Goodall, bedroom demonstrator of the Girard 4-H club.

The design consist of squares and triangles of cotton material in a solid green print and unbleached muslin. No cotton batting is to be used in this quilt. One layer of cotton outing will be used so that the spread will quilt nicely, yet not be heavy and bundlesome.

**C. H. D. A. CLOTHING IDEAS ARE GIVEN JOBS**

"I can easily apply the methods and ideas given on the altering and designing of our foundation patterns to the patterns I have for the three girls," said Mrs. R. C. Hoyle, coperator of the Polar H. D. Club.

"With the amount of sewing for three girls, in school, that I have to do everything that I learn in selection and construction of clothing is soon taken advantage of in having better designed and constructed garments, also saving time by using these methods in providing clothing for our family," she further stated.

**C. H. D. A. DO GOOD UNTO OTHERS**

Making six hundred feet of tile; adding a new member to the Polar H. D. club who is interested in being a farm food supply demonstrator is the result of one club woman's attending short course from which she brought back and distributed to non-club members. One of these being Mrs. T. G. Yestta, formerly of Abilene, who is at present an active member of the Polar H. D. Club and is making 600 feet of tile for her garden.

"Upon reading the bulletin on Sub-irrigation of gardens, by using hollow tile I have longed for a space for such a garden. When we moved out on the ranch I had ample space and water for this garden. Naturally the next step I took was to join the home demonstration club in my respective community so that I might be better prepared to carry on my garden project," stated Mrs. Yestta.

SCHOOL NEWS

We did not turn out school last Friday in honor of our first President but at 3:15 the girls played the faculty in a volley ball game.

We think that we have some good material for the senior and ward girls team. The first strings have not been named yet but it won't be long now until we will have them ready for competition.

Last Monday morning we heard several of the students give their declamations and we expect them to win this year.

We are glad to see Tom Bill Fowler back in school.

Common Happenings around The School Campus

Herbert and Fuzzy trying to vault 16 1-2 feet. Douglas trying to throw the discus 135 feet. C. B. correcting six week exam papers.

Several students learning to spell all the words in the spelling list.

Miss Waddell showing the tennis players how to drive that ball.

Euna Vaye wondering whether she will graduate this year.

All the girls trying to make the volley ball team.

Merle Rose attempting to turn in a six weeks paper without the proper corrections.

Small boys getting in the way at the jumping pit while the big boys are trying to jump.

Loyal Harrison trying to break the high jump record. Best jump so far is 4 feet 6-8-10 inches.

Study hall full of students at 3:15

Things we would like to see

The Freshmen, Seniors and Juniors send in some class news to the paper each week.

Dollar bills floating around in the air.

Ice cream served free in every class room.

Soph Class News

Since most of us passed on our exams we have another complaint and that is that we wish every time we fail a daily history test Mr. Coons would not make us stay in. His weakness we think, is sending 22 out of 23 soph history students to detention at least twice a week. (We hope he'll take this hint) We going strong for the Intercolastic meet and we will take off the biggest part of the award we think.

Jack Harrison was in town Wednesday afternoon transacting business and seeing friends.

CENTER POINT H. D. NEWS

"Skirts! Yes we are all interested in how to make skirts of different types from our foundation patterns for skirts," says the Center Point ladies. "As we are all a very stout group of women, we need to learn how to make trim line dresses," so last Tuesday our demonstration agent Miss Jones taught us how to take our two piece skirt pattern, fold the center front, with yardstick measure hardly half way across from center front at top and bottom and dot then draw straight line from dot at top to dot at bottom. Cut on straight line. There! you have a skirt, just the skirt to slenderize us and then of course when we make our spring veils and tissue gingham, why, we will just slash the pattern up from the bottom about 18 to 20 inches, spread out to the desired fullness and there you have an evenly flared skirt. It's so easy when you know how.

Reporter.

Judge A. J. Hagins dropped in to see us Tuesday. He has two very sick grandchildren out at his house. Whopping Cough.

Mrs. L. F. Wade is on the sick list this week with a case of rheumatism.

CENTER POINT CLUB NEWS

At our salad demonstration given by Miss Jones Tuesday, we learned how to prepare several salads and how to carry out color schemes in making them. A very good easily made salad dressing was also made and demonstrated by a member of the club, all declared it was so good we decided to pass it on. It is as follows:

1-2 cup of water, 1-2 cup of vinegar, 1 table spoon of flour, 1-2 teaspoon pepper 1-4 teaspoon mustard one beaten egg. Cook till thick. Chill pour over shredded raw cabbage. This is spicy and different. Some very important points in salad making is never make salad sloppy, always dry vegetables and fruit with dry rag. Salads must be cold. Mix with fork, pile up. Never press down salad.

Teachers Mabel Waddell and Mame Morris Murphy spent the week end in Plainview and cotton Center and let the Blizzard catch them while on the plains and did not report back for school until Monday at noon.

Mozelle Mason has returned home from a weeks visit with her grandfather at Rule, Texas.

Ex-Sheriff R. L. Goodall who has been nursing a sprained ankle for the past few weeks was seeing friends in Jayton Tuesday and told us his ankle was slowly improving.

Bring us a good young hen and get the Chronicle for 1 year. Then read the advertisements in the Chronicle every week and if you only buy the bargains advertised you will save enough in one year to buy you a whole flock of hens and steen roosters. If you are game as a chicken you will make us cry quits.

Claude Worthen and Earnest Moore made a trip to Levelland last week end where they spent some time with Claude's parents, Mr. and Mrs. A. E. Worthen who moved from here to that section lately. Claude said he ate so many of his mother's hot biscuits that he was always hungry now for them. Earnest wanted to know if the sand blew here Sunday. He said the ground just came up and hit him in the face up there on the plains.

The Chronicle is offering \$1.50 a piece for good heavy hens—One years subscription to the Chronicle. If you don't want the paper at that price. Let us know and we will cut you off.

Miss Polly Waddell, coach girls basket ball team and the Jayton public schools, took some of the trophies girls had won so she could home folks what her girls team did.

Mrs. George Rice and are visiting in Meadow

Best! Murdoch and R. made a business trip to Spnesday of this week.

W. L. Coons, one of our efficient school teachers, spent end in Haskell. He did not go he went to see but he did a good show.

Ben Spraddling of Girard Jayton Wednesday of this week after business interests ing friends.

Jack Overfelt, prominent of the Bonds Chapel coming attending to business matters Wednesday afternoon of the

Miss Veralee Jones kind ed her two subscriptions Chronicle, Wednesday of the
