

THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS, FRIDAY, SEPTEMBER 6

NUMBER 35

Beaver - Parks.

Last Sunday afternoon at 2:30 o'clock Mr. Clay Beaver and Miss Bernice Parks were united in the holy bonds of matrimony at the home of Mr. and Mrs. W. J. Lane of Jayton. Mrs. Beaver is formerly of Kerville, Texas where her parents now live. Mr. Beaver is the relief administrator for Kent County and lives here. Judge J. B. Earnest officiated at the ceremony.

Those present at the ceremony were:

Mr. and Mrs. M. E. Beaver, Mr. and Mrs. T. J. Cooper, Mr. and Mrs. J. S. Gregg, Mr. and Mrs. G. H. Smith and Matt Darden and Ruby Bess all of Girard; Hub Beaver and Juanita Sanders of Spur, and Mr. and Mrs. W. J. Lane and Betty Jo and Katherine Jay of Jayton.

The young couple plan to make their home in Jayton. They have their well wishes of all their friends for a long and happy married life.

Nearly 9000 Taxing Authorities

AUSTIN.— Texas has nearly 9000 local taxing authorities bearing heavily on the taxpayer, said State Auditor Orville S. Carpenter today about the recent "Report on Taxes and Indebtedness of Local Units of Government in Texas for 1934."

"In spite of the present trend toward efficiency in government and elimination of duplication between departments, we find in this State cities, counties, schools, water districts, drainage districts, road districts, irrigation districts and many others, all assessing and collecting taxes on the same property. As a result most property owners must render the same property to several assessors and pay taxes to several collectors," Carpenter explained.

"The number of local taxing authorities seems increasing. A similar survey made by Moore Lynn, former state auditor, for the year 1932 showed at that time 8,742 tax districts. He called attention to the 'present chaotic conditions' then existing in local taxation matters," Carpenter said.

"The survey just completed for the year 1934 shows 8,936 local taxing units, an increase of 194 in two years," he stated.

In the 8,936 districts an enormous taxpayers' debt of three-fifths of a billion dollars has been built up. The actual figure in 1934 was \$670,442,179, with sinking funds deducted, he said.

Al Elliott, Carol Mellroy, Mrs. Carol Mellroy, George Statts, Ruth Statts, Mrs. J. E. Ellis, Abilene, Texas; W. W. Heathington, Mrs. W. W. Heathington, Wayne Heathington, Joe F. Heathington, Cleo Heathington, Paul Heathington, Abilene, Texas; Hugh Hagins, Laredo Hagins, Paul Hagins, Pauline Hagins, Marium Hagins, Spur, Texas; Ross Lee Hagins, Ross Hagins, Dollie Hagins, Josie Hagins, Joann Hagins, Tahoka, Texas; Jerome Hagins, Mrs. Jerome Hagins, Wilber Dee Hagins, Mauriense Hagins, Delmer Hagins, Spur, Texas; H. H. Deahl, Mrs. H. H. Deahl, Jon Deahl, Panhandle, Texas; Will Bennett, Mrs. Will Bennett, Janet Bennett, Gilpen, Texas; Margaret Bural, Mary Bural, Lucy Bural, Dal Bural, Gilpen, Texas; L. W. McCombs, Mrs. L. W. McCombs, Anna Flo, Carlos, June, Laura, Jack R., Billie, Delmer and Barron McCombs, Jayton, Texas; Joe Hagins, Hazel, Robert, A. J. Jr., Alma Jean, Joe Wendell, Sam, Opal and Nettie Beth Hagins, Jayton, Texas; Dr. R. L. Alexander, Mrs. R. L. Alexander, Ted, Joe Paul, Max, Billie Bob Alexander, Jayton, Texas; Eloise Wilson, Kathleen Stewart, Jayton, Texas; Jim Simpson, the official Barbecueer, Jayton; Mr. L. F. Wade and Mrs. L. F. Wade, Jayton, Texas.

While we may have omitted some names from this list or perhaps the address of some may be wrong, we hope not.

Mr. and Mrs. Hagins and children, grand children and great grand children are planning already for next years reunion which they hope to make the biggest and best of all. Mr. Hagins will be past 85 at this time and it is his desire to have all of his relatives present the total of which far exceeds the number present on this occasion, as well as hundreds of his old and new friends. We sincerely pray that he may live to carry out his plans.

Present and registering were: A. J. Hagins, Mrs. A. J. Hagins, Mrs. B. J. Hagins, Mrs. Ira Hagins, Ben Hagins, Texas; P. C. Hagins, Lou Mary Pear Hagins, Gilpin, Jesse Hagins, Emma Hagins, Hagins, Della Hagins, Anna Hagins, Gilpin, Texas; W. J. Mrs. W. J. Driggers, Bob Driggers, W. J. Driggers, Jr., W. J. Driggers, Mac Farrel Gladys Ernest, Gilpin, Texas; D. Hagins, Ruth Hagins, Elsie, Wilson Hagins, Gilpin, Carl Hagins, Lula Hagins, Hagins, Paul Dale Hagins, Texas; E. E. Hagins, Martha Hagins, Joe O. Hagins, Ruby Hagins, Lou Hagins, Al Elliott, Mrs.

and

Cap-Rock Life Insurance Co.

The Cap-Rock Life Insurance Co. is a new business lately organized by Spur business men to take care of the life insurance business in this part of Texas. The organization is made up of several of the leading business men of Spur and Dr. Bob Alexander, a former Jayton citizen is the institutions medical advisor. While the company has only been organized a very short time they have written more than \$100,000.00 in insurance. We have every reason to believe they will make a great success of the undertaking and build up a great business for this part of Texas. It's not a "Mutual" as it has been reported by some, but is operating on the Old Line Insurance plan which has stood the test of time and is governed by the rules and regulations of the State Department of Insurance.

SCHOOL OPENS WITH HEAVY ENROLLMENT

The local school opened the fall term, Monday September 2 with probably a record attendance in both students, teachers and parents present. A welcome to new students, parents and teachers was extended by Mr. Coons. Mr. Eldon Wade delivered a response. A trio was rendered by Doris Holley, Doris Mayo Sewall and Peggy Lohise Fowler. Then two splendid and inspiring talks were given by Aletha Spruals and Mildred Self, after which followed assignments by Mr. Lowrey. A prayer, appealing to the better side of both students and patrons was delivered by Rev. Van Zandt. It is estimated that more than one hundred parents were present for the opening and all went away expressing hopes for a successful school year.

The new teachers are Miss Zeman, Miss Rutherford, Mr. Williams (Marvin), Mrs. C. Jay. Along with the new teachers the school has 96 new pupils coming from 10 adjoining common school districts. Jayton has a nice new school bus which brings in 51 pupils from Clipper, Rosewood, Rising Star, Blackwell and Center Point school districts. A second bus is being installed which is to bring in 21 high school pupils from Pursley, Salt Flat and Golden Pond. This bus is to be privately operated. This makes the total enrollment for High School 92 and the grade school 238, a grand total of 330 scholastics and 11 teachers. In addition to this number there are four ex-seniors in attendance.

All the work now being offered in the local school is state accredited and a splendid school spirit is being exhibited by the student body.

The athletic enthusiasm is running high with 22 senior boys reporting for duty along with 24 senior girls and the Junior boys and girls have never been counted there are so many of them.

The new gymnasium will be dedicated in the near future. As soon as games can be arranged for both boys and girls.

We also extend a welcome to both boys and girls of the town to organize a team and a playing schedule will be arranged for them.

Henry Schussler and family were called to Ft. Sumner, New Mexico, Sunday by the death of Mrs. Schussler's sister child. They arrived home Tuesday evening and Henry tells us that all the country West of Jayton is good and wet and that Ft. Sumner is on quite a boom the result of much Government work being done in that part of N. M.

Claude Worthen left Tuesday for Norman, Oklahoma where he intends entering school at O. U. His many Jayton friends wish for him every desired success.

Dr. Bob Alexander and R. C. Brown of Spur were here Tuesday in the interest of the Cap-Rock Life Insurance Company, of which Dr. Mr. Brown is the Secretary and Treasurer.

W. T. Cathey and Jim Barkley were over from Clairemont, Thursday afternoon and when they left out for home W. T. was at the wheel of a new V8.

Quite a number of Jayton folks were in Spur last week end to see the Will Rogers picture that was showing at the Palace Theatre.

County Agent's Notes

Bankhead Certificates are now being issued at the County Agent's office. Anyone who has not received notice of delivery may call at this office at their convenience and receive their certificates for 1935 allotment. Certificates that were pooled and sent to Washington for re-issue have not been returned to date, but it is expected by the county Agent that they will arrive from Washington to be issued to the producers sometime during the month of September.

A trench silo demonstration is being planned to be held on the farm of L. C. Smith at Girard sometime the coming week. The digging of the pit is in progress and due to bad weather a date is unable to be set at present, but anyone interested in attending this demonstration may receive information and the date for this demonstration from the office of the County Agent.

KENT COUNTY POLITICAL SUBDIVISIONS APPLY FOR WORK PROJECTS TOTALING \$146,000.00

County Judge J. B. Earnest and Commissioner Ab Cargile returned from Abilene, Thursday morning where they met with the district officials of the WPA and submitted work projects to the amount of \$146,000.00 for the various sub-divisions of the county.

They were listed as follows:

Precinct 1 — Lateral roads \$41,000. Precinct 2 — Lateral roads \$22,000. Precinct 3 — Lateral roads \$36,000. Precinct 4 — Lateral roads \$24,000. Town of Jayton street improvement work \$9,000. City lake improvement work \$8,000. Total for the entire county \$146,000.

The town of Jayton has also made application to the PWA for a loan and grant of \$35,000 to enable the town to extend and improve their water works system and put in a sewer system. We have no assurance that we will get all or any of this money, but we will do our best to see that the rules and regulations governing the granting of the various applications.

The Commissioner's court and the officials of the town have at least made application for the money to do this much needed work and if we can't comply with the demands of the government officials it will just be our misfortune and not our fault.

COLE GALLAGHER MAKES WINNING RUN FOR HIWAY

Last Wednesday the Hiway took the Pill Rollers in to win a hard fought game of soft ball. An extra inning was necessary because the Hi-way was determined to be in the lead when the game was finished.

With the score 7 to 7 when the extra inning started and Bake Robinson shut out the Pill Rollers in their half of the extra inning the Hi-way came to bat and Cole Gallagher hit a double to left field and with one man out scored from third on a long fly to left hit by Dale Moore.

The Hi-way will now play the Prune Diggers to decide who will play the Pill Rollers in the City Series.

ONLY PRETTY TEACHERS

Rockford, Ill., Sept. 3 —Henceforth it will be no hardship to have to "stay after school" in Rockford.

W. W. Ankenbrand, superintendent of schools here decreed today that future applicants for teaching positions must have "A" grades in pulchritude.

"Teachers need not be Follies beauties, but they must be pretty."

A report from the local relief offices is to the fact that there has been a number of work relief projects approved lately and the work will begin as soon as the money arrives which will be some time this month.

A group of Jayton Young People of the Methodist Church went to Seymour last Friday and Saturday to a district meet of the Stamford District.

Jess Hall remembered us last Saturday with a stack of roasting ears and a summer pumpkin. Thanks Jess.

Mrs. Tom Connally

Behind every man who has achieved greatness in history, there is usually the shadow of a good woman. Close friends of United States Senator Tom Connally, 2000 of whom gathered at Marlin to pay their last respects to Mrs. Connally, say this is true to an unusual extent in the case of the distinguished junior senator from Texas. Possessed of a remarkably keen mind, and a sure instinct for the right, which hurdled easily the hazards of politics, Mrs. Connally was not only the constant companion, but the influential advisor of the senator. From every corner of the state, friends came to the home at Marlin last week, to extend their condolences to Senator Connally and his young son, Ben, and to express their conviction that all Texas as well as her own family, had suffered a great loss in her death.

\$1,000,000,000 Crop Predicted

AAA Head Forecasts Largest Return To Cotton Farmers Since 1929 Because Of 12 Cent Loan Plan

The first billion dollar cotton crop since 1929 should result from President Roosevelt's action in approving the new loan and payment plan, according to Chester C. Davis, Administrator of the AAA.

"Cotton farmers will instantly appreciate the significance for them of the President's action. The plan to assure cotton growers an average return of not less than 12 cents a pound not only promises the best cotton income the cotton farmers have enjoyed for years, but it also means enlarged outlets for cotton exports, which are of immense importance to the cotton industry.

Davis' forecast of a probably "billion dollar cotton crop" for '35 is based on estimates of total farm value of cotton, including an payments necessary to bring the average return up to 12 cents, exceeding \$700,000,000 rental and benefit payments under the cotton adjustment plan. The total value of cotton seed totaling between 150 and 175 million dollars.

"When cotton farmers understand how simple and easily this plan will work they will be in no hurry whatever to market this year's crop. The assurance of government payments to farmers, making up to them the difference if any, between 12 cents and the average price of cotton on the ten spot markets from Sept. 1 to January 1, will enable growers to take ample time to estimate the true market situation and sell their cotton to the greatest advantage to them selves. Farmers should remember that the present plan restores a free market, so that growers can benefit directly from orderly and intelligent marketing of their crop. Any payments to them will cover average differences, not individual differences, between market price and 12 cents. The 10 cent loan will assure farmers an immediate source of income," Davis said.

DISTRICT COURT

We are informed that the Grand Jury which was in session Monday and Tuesday of this week found five bills. Four felonies and one misdemeanor. Two of the felony cases were for cattle theft, two for violation of the prohibition laws of the state, and one case classed misdemeanor. Kent county folks are law abiding people and as a rule few serious cases are ever up for consideration unless transferred to this county from some other county in the district.

Stephenville, Texas —Registration at John Tarleton College will be Monday and Tuesday, September 16 and 17, according to information from J. Thomas Davis, Dean. Classes will start Wednesday, and on Saturday, September 21 a formal opening program will be given in the College auditorium at 9 o'clock.

Receptions for all Tarleton students will be given by the college officials and by various Stephenville churches shortly after school opens.

Don't fail to find out about the free car that is to be given to one of our subscribers on Thanksgiving day.

Shorty Sherer and wife are here this week visiting friends and attending to business matters.

Economic Highlights

One of the most dramatic acts of the late Congress occurred, entirely unexpectedly as far as the general public was concerned, just before the session passed into history.

This act was the passage of the so-called "neutrality plan," proposed by the White House, originated by the Senate, and forced through the house by Administration leaders under a gag rule which forbade any amendments and limited debate to the absolute minimum.

Reason for this unprecedented occurrence does not require a microscope to discover. Everyone knows that Europe is closer to a major war than at any time since 1914. The American State Department doubtless has a better idea of how close war is than any other domestic agency—it is a possibility that in Secretary Hull's handsome, impassive, white-thatched head there is knowledge that if disclosed, would make headlines throughout the country. And, with the memory of the "incidents" that brought America into the World War still fresh the Administration, which has consistently pursued an extremely cautious foreign policy, seems determined to keep us out of future conflicts if that is at all possible. High spots of the neutrality plan include:

Prohibition of the export of arms and ammunition to any foreign belligerent until February 29, 1936 (by that time another Congress will be in session, and will be able to cope with changed conditions.)

Prohibition of the use of American vessels in arms traffic until February 29, 1936.

Establishment of a strict licensing system for American munitions manufacturers and exporters.

Authorization for the President to require a bond of any ships suspected of transporting arms and munition.

Authorization for the President to restrict or entirely close territorial American waters to submarines of belligerents.

Authorization for the President to forbid American citizens to travel abroad during war except at their own risk, unless such traveling is made necessary in order to escape a zone of conflict.

It is an interesting fact that the neutrality bill passed both houses by close to unanimous votes—yet a number of Congressmen, including some who voted for it, are dubious. Senator Johnson, old-time advocate of U. S. isolation, said it would not prevent our getting into war. And a few voices, including that of Senator Wadsworth potential Republican Presidential candidate, spoke up against the principal it represents, on the grounds that small, persecuted nations will be harmed by the policy, while big, aggressive nations will not. For example, Italy could get by without purchasing arms abroad—while closing of foreign buying to Ethiopia which has no industrial resources that might be turned to munitions production, would make it impossible for her to defend herself in the event of war.

However, editorial response to the plan has been highly favorable—papers which oppose the President in most of his policies are for him when he attempts to keep us out of the pending European super-war. The provisions whereby Americans traveling on ships belonging to belligerents must do so at their own risk is perhaps the most important single part of the bill — remember the Lusitania!

Many men live on "borrowed time" as the saying goes, but to Fred Glassie, Tarrant County farmer, goes the distinction of having lived for six years on borrowed blood. Every six weeks he has to undergo a blood transfusion, due to aplastic anemia, a rare disease about which doctors know little. Relatives have furnished the blood, his wife having contributed hers three times. Between times, Glassie goes about his work normally and feels on ill effects, except for a few days prior to each transfusion, when he becomes weak and tires easily.

Huls Drug has a new assistant these days. Mr. Walker of Peacock, Texas. Mr. Walker is an experienced drug store clerk and we welcome him to Jayton and hope that he will like the town and decide to make it his future home.

Old Memories Revived

A man who had left his home village when he was young and had gone to the wicked city and made a lot of money thought he would revisit the scenes of his childhood. As his hugh car, loaded with gay friends entered the sacred precincts the man exclaimed: "Ah me! How well I remember every stick and stone of my native village! There's the old red school house, turned now into a home for some poor family! And there's the big new high school on Bennett's hill! And there's the old watering trough, at the foot of main street now turned into a fountain! There's Al Dart's wagon shop, converted into an up-to-date service station! Over there is the Methodist church, and up East Avenue you can see the Free-will Baptist spire! On that corner used to stand Mathers's store. I don't suppose any of the old crowd are alive any more."

At this point an aged but spry inhabitant hailed the party and said: "You're Bill Spivey, ain't ye? I knew ye the minute I set eyes on ye. I trusted your father for a codfish back in 1883 an' I'd thank ye to settle for it. The codfish was 45 cents and the interest would be \$1.40 more. Give me \$1.75 and I'll call it square."

W. J. Garrett had business in Dallas this week.

W. F. Gilbert enjoyed a visit from his brother whose home is in Eastland, Texas.

Mrs. Thelma Jackson is spending the week at Spur with her mother Mrs. J. A. Marsh

A terrific gulf storm hit Florida and many lives were lost and great damage done to property is reported. Come to Texas.

Mr. Jo Ward of Coleman county is here this week visiting relatives and friends. He reports crop conditions in Coleman county above the average.

Miss Mozell Mason who has been in the Stamford Sanatorium for the past two weeks is reported able to leave the Sanatorium.

Planting Time Is Here For Fall Gardens

College Station, Sept. 7-- Most of the success of the fall garden depends on preparing the soil correctly, according to J. F. Rosborough, Extension horticulturist.

"All weeds and vegetation must be removed before planting," Rosborough said, "or the soil will dry out quickly and possibly carry diseases."

The Extension horticulturist recommended a heavy application of summer manure before plowing is started. He explained that summer manure, which has no acid or burning ingredients, is used to increase the water holding capacity and to prevent the soil from becoming hard and crusting following the fall rains.

He recommended that as soon as the soil is plowed, it should be pulverized. "Select vegetables that are resistant to heat to plant in the fall garden from the last of August to the first half of September," Rosborough continued, "such as onion sets, swiss chard, tender green, Irish potatoes, carrots, beets and collards. Later, plant such vegetables as lettuce, radishes, mustard, spinach, and cabbage which will withstand cold weather. Bush beans will grow unless the weather turns too cold."

He meant to say that in many gardens, hardy vegetables such as pepper, egg plant, okra and tomatoes, which have survived the summer heat and are ready to produce a fall crop, should be fertilized. In sandy soils, the addition of one to two tablespoons per plant of 6-12-6 commercial fertilizer will be beneficial.

"Wise gardeners do not stake all in a fall garden by just planting a turnip patch," he said, "but they plant other vegetables such as swiss chard, tender green, house proof turnips and other leafy things of this type along with the old stand."

"Before cold weather sets in, pumpkins, cashaws, summer squashes, and other vegetables of this type should be stored in a protected place," he continued. "In the western part of the State, store these vegetables in the cellar; in the southern part, store them where ventilation will absorb the vegetable moisture and keep rot fungus down."

Sponsors Called For

Towns in Texas and the Southwest have been invited to select sponsors to take part in the Cowgirls contest at Midland, October 19 - 23, sponsored by the Midland Fair Inc.

Each girl is required to furnish her mount and equipment but the Midland Association will care for the mounts while here.

How The Contestants Will Be Judged
25 per cent on personal appearance of cowgirl in costume.

25 per cent on appearance of horse and saddle.

25 per cent on ability of girl to ride and handle.

25 per cent on horses ability to handle.

The cowgirls will not be expected to perform any daring acts.

Prizes

1st — \$100 hand made saddle.

2nd — \$100 complete riding habit

3rd — fitted hand bag.

4th — pair of hand made boots.

Rooms will be available at the Hotel Scharbauer for the cowgirls at a rate of \$2.00 for single room or \$3.00 for double room. If you care to make reservations, state the price you wish to pay for room, I shall be glad to attend to this matter for you.

Rollie Bilberry has our thanks for a fine watermelon he presented to us last Saturday.

OUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND
Director, Physical and Health Education
New Jersey State Department of Public Instruction

Summer Meals

The same old essentials go unchallenged. Oh, a little less meat perhaps, and for the overweight child a little less bread and butter, bacon, and potato. All children can do very well without candies, pastries, and, especially, soda pop or so-called "tonic." By the way, don't let that name "tonic" mislead you. It's far from being anything of the sort. Instead, try a drink of pure cold water or cool milk. There's real refreshment.

Pass up your old beliefs about summer diets. Most of them were only superstitions without a grain of scientific backing. The needs of the body don't change so very much with the seasons. Heat isn't necessary as it is in the winter, therefore the suggestions to reduce sugars and starches. But the energy and health requirements don't change.

The same quart of milk is needed, although good ice cream may account for a part. Green vegetables, fresh fruit, tomatoes, a little meat or fish, some egg, some bread and butter, and there you are, winter or summer.

Planning a Scout trip is exciting, important; Dr. Ireland will give some advice about it in his next article.

W. B. Lafoon and family and Mrs. Owen King and Mr. H. C. Gee visited Virgil Gee and family in Oklahoma City last week.

Victorious in State and Region

JACK S. CLARKE (left), 19-year-old Ft. Worth youth, and J. B. Sorensen, Jr., 16 years old, of Taylor, who won both state and regional honors in this section, when their model traveling coaches were adjudged the best of those submitted in the apprentice class competition of the Fisher Body Craftsman's Guild. In addition to \$75 in cash, each boy will receive a trip to the fifth convention of the General Motors-sponsored educational foundation to be held in Quebec from August 21 to 24, inclusive.

Special Attention

On account of a delay in the receiving of some important material the BIG Announcement we hoped to make this week is necessarily postponed until next week. Sufficient now to say that it will be to your interest to keep your eyes and ears open for we have something in store for you that will be well worth your watching and waiting for.

In The Meantime

You can't lose by trading here. Our new goods are being sold at prices you will be glad to pay and all summer goods are going out at genuine bargain prices. See us for cotton picking supplies of all kinds. We have them and they are for sale. **WHY GO HUNGRY?**

When you can buy groceries at such low prices for the cash.

This grand dessert was truly made By darling little Eva. It is so good that I'm afraid That no one will believe her.

PERFECT ICE CREAM

CAN YOU believe that a mere child can make smooth "yummy" ice cream all by herself, the equal of any you have ever eaten? She can, if she knows the secret—a marshmallow ice cream recipe!

For marshmallows are the simple answer to the prayer of every housewife who wants to make perfect ice cream without effort, in either a mechanical refrigerator or in an ice cream freezer. With marshmallows there is no such word as "fail" in the lexicon of ice-cream-making. That is because they introduce into home-made ice cream the same agent which makes commercial ice creams so un-failingly smooth and creamy—an agent which, before combining with sugar and corn syrup to make the marshmallows themselves, was pure sparkling gelatine.

Because marshmallows contain a certain unvarying proportion of gelatine and sugar, they are always dependable; two essential ingredients in one. Naturally this helps to simplify recipes in which they are used; as, for example, in lemon marlow, the name given to all marshmallow ice creams.

LEMON MARLOW

- 27 marshmallows 1/2 pint whipping cream
- 1/2 cup water
- 3 tablespoons lemon juice

Steam the marshmallows and water together in the top of a double boiler until a smooth liquid blend is obtained. The melting of the marshmallows is hastened by cutting them into pieces with scissors dipped in hot water. Add the lemon juice and set aside to cool until slightly stiffened. Combine carefully with the stiffly beaten cream, pour into containers, and freeze without stirring.

Plenty of cool, wet weather this week. It all started Sunday with a good shower just after noon.

R. B. Corder was called to Bledso Thursday by the serious illness of his brother.

We know a lot of church men who belong to the powers that prey.

Manhood is greater than titles and coronets—and always will be.

Some men who go fishing never catch anything until they get home.

HELPMEEET — helpmeet; one who helps get the meat. After all, is that a disgrace?

Just because we have a vague sense of our limitations, we often find ourselves far below our best.

Success lies as much in discovering the things we cannot do as it does in finding out the things in our reach.

Just so long as society makes it to our interest to pretend to be what we are not just that long will we court a hypocrisy that kills. Much of society is but a march of ghosts.

Have you just simply robbed him of his ideal? He may seem to forget about it; he may act the same toward you, but, oh, how little forgiveness when a star goes out!

There are some songs unsung to harp or lute. The rhythmic years of loving ministry work out a sweet refrain. Some day it will be caught up by choir that lingers along the shoreless seas.

Wonder if we have come to the age of the literary bell hop? That is to say, the age when books are made for the market more than for the intellect — when an author is more famous for royalties than for ideas. Shades of the past. The days when really great men, in utter unconcern for gold, sat in coffee houses and debated over their cups the pabulum that would feed an intellectual world for ages. We have in mind some authors of the near past, and some of the present day, who are writing whose minds blaze no more. We are producing no immortals. Thought has too much the canker of gold about it.

What Am I?

I am the foundation of all business.

I am the fount of all prosperity.

I am the parent, most times, of genius.

I am the salt that gives life its savor.

I am the sole support of the poor.

The rich who try to do without me deteriorate, languish and fill premature graves.

I am a blessing without which no healthy man or woman can be happy. Nations that woo me ardently rise; nations that neglect me die.

I have made the United States. I have built her matchless industries, opened up her rich minerals, laid her incomparable railways, reared her cities, built her skyscrapers.

I am the friend and guide of every worthy youth. If he values me, no prize or place is beyond his reach. If he slights me, he can have no enviable end. I can do more to advance him than can the richest parents.

I am the creator of all capital.

I am represented in every loaf of bread that comes from the oven, in every train that crosses the continent, in every ship that steams the ocean, in every newspaper that leaps from the press.

Fools hate me; wise men love me. All progress springs from me.

The man who is good friends with me can never get pery far — and stay there.

Who am I?

What am I?

I am work. —B. C. Forbes

Brady reports a ten inch rain that put the creeks out of bank, but the city was saved from serious damage by the levee built in 1930.

Heavy rains were reported from Lubbock to Girard Tuesday night. Just a light shower hit Jayton. But we are shedding no tears.

Fall grass is promising now, which will be of great benefit to the stock farmers and ranchmen.

The dog is not the only animal that bites the hand that feeds him. In fact few dogs are that onery.

Six-Day Bike Riders Praise Safety League For Children

Members of Three-In-One Safety League hear Bobby Walthour, popular racer, stress the importance of safety in bicycle riding.

NEW YORK, (Special)—Bicycle riding is not only the healthiest but also the safest form of sport for children. In the opinion of members of the international riding teams who participated in the recent six-day bike race at Madison Square Garden.

However, it was agreed by the bike riders that children should be taught how to ride and should be familiar with traffic rules. They praised the Three-In-One Safety League for the work it has done in promoting safety for bicycle riders through its membership in all parts of the United States. The league now has more than 100,000 members.

Bobby Walthour, one of the international riding stars, in accepting honorary membership in the Safety League, said he believed that careful observance of the

rules of the road by bicycle riders eliminated practically all hazards in this sport.

"I am heartily in favor of the Three-In-One Safety League's campaign to promote safety for children who ride bicycles. Although there is a constant hazard in my branch of bicycling—racing—even in this sport we must follow the rules of the road and respect the rights of other riders. I believe children should be encouraged to consider bicycling an art and to ride properly."

The Three-In-One Safety League gets its name from the three C's which stand for Caution, Courtesy and Cooperation. Its membership is open to all children in America between the ages of 6 and 16, who may enroll through their local hardware or sporting goods dealer.

See- **H. Cobb Wade**

A traffic court judge reading a six page gruesome magazine account of what happens to the victim of auto accidents to traffic law offenders brought before him.

Government officials denouncing the "profit motive" and then asking and taking increased salaries for themselves.

A New Jersey farmer breaking New Jersey's sales tax law to test it. Nebraska placing a minimum valuation of \$10 each on dogs in that state on the grand assessment rolls for 1935, thus giving them a higher value than all Nebraska's jewelry and precious stones.

Forty-two government ace sleuths being required to hunt in all corners of the nation for a 250 pound utility magnate.

The last Congress was usually spoken of as lethargic, slow-moving dead on its feet. But, with September approaching and Congressmen anxious to get home in order to pay attention to their political fences, the closing days witnessed an amazing burst of activity.

Passed was the banking bill — in its final form it represents a compromise between the Administration and such conservatives as Senator Glas. Government will control the banks — but the administering board will apparently be as non-political as possible.

Passed was the \$250,000,000 "soak the rich" tax bill, much in the form first asked by the President.

Passed was the bitterly debated Utility Holding Company bill. The "death sentence" clause is out, though there is considerable difference of opinion as to what the bill really provides. Some say it gives the government the power to put holding companies out of business if it wants to — others say it simply provides strait-jacket regulation. Still in the air is the burning question of the bill's constitutionality.

Passed was the bill setting up a

"little NRA" for the bituminous coal industry — a measure whose constitutionality seems more than doubtful.

Passed was a measure giving the federal government control over liquor, made necessary by the Supreme Court's abolition of the old NRA.

Passed was a bill placing a ban against gold-damage suits after January 1.

Passed was a bill to provide interstate compacts to restrict crude oil production.

Commissioner's Cade and Cargile were Jayton visitors Wednesday morning with County Judge Earnest and Commissioner Suits. They were hustling up work projects and making strenuous efforts to get them outlined and in the district office at Abilene, Wednesday afternoon.

"America Must Choose"
TOPIC OF COUNCIL PROGRAM

The County Home Demonstration Council met in Jayton August 31. Mrs. Edith Hamilton was appointed chairman of the exhibit committee. This committee is to have charge of the educational exhibit on leafy vegetables from this county at the Panhandle South Plains Fair in Lubbock, September 23 to 28.

The Key Cottage, a modern rural home the Community Work Center and the Dress Exhibit at Short Course were described by Mrs. Hamilton. The kitchen arrangement in the Key Cottage and the ventilated pantry in the Community Work Center created much interest among the group as she briefly described each. Mrs. Hamilton immediately "put on the spot" oodles of detailed questions from the council.

A program on "America Must Choose" was conducted by Mrs. O. W. Coats, chairman of the education committee. Council members learned that there are three possible paths to be followed in the "domestic allotment" form of surplus control according to Henry A. Wallace, author of "America Must Choose." These three paths being National Planning which requires greatest burden of adjustment to fall on agriculture or farms, international planning which will throw the burden on factories; the Middle course which will equalize the burden on industry and agriculture. The last course is the one that Mr. Wallace suggest that we take. Other points discussed were the life of Henry A. Wallace, Conditions in America before and after the world war, what the Roosevelt administration recognized.

Most all Texas reports heavy rains the plains country has been soaked and parts of N. M. has suffered from rains of flood proportions. It's pretty damp in Kent county but we can still stand some more moisture.

I looked up Satisfy and it says—

SAT-IS-FY. Something that pleases gives satisfaction; something that suits. For example, you are pleased in a dress. As applied to cigarettes, it means one that is **MILD**—that is not harsh or bitter; one that **TASTES** just right.

Beaver - Parks

Last Sunday afternoon at 2:30 o'clock Mr. Clay Beaver and Miss Bernice Parks were united in the holy bonds of matrimony at the home of Mr. and Mrs. W. J. Lane of Jayton. Mrs. Beaver is formerly of Kerville, Texas where her parents now live. Mr. Beaver is the relief administrator for Kent County and lives here. Judge J. B. Earnest officiated at the ceremony. Those present at the ceremony were: Mr. and Mrs. M. E. Beaver, Mr. and Mrs. T. J. Cooper, Mr. and Mrs. J. S. Gregg, Mr. and Mrs. G. H. Smith and Matt Darden and Ruby Bess all of Girard; Hub Beaver and Juanita Sanders of Spur, and Mr. and Mrs. W. J. Lane and Betty Jo and Katherine Jay of Jayton. The young couple plan to make their home in Jayton. They have the well wishes of all their friends for a long and happy married life.

Nearly 9000 Taxing Authorities

AUSTIN, — Texas has nearly 9000 local taxing authorities bearing heavily on the taxpayer, said State Auditor Orville S. Carpenter today about the recent "Report on Taxes and Indebtedness of Local Units of Government in Texas for 1934." "In spite of the present trend toward efficiency in government and elimination of duplication between departments, we find in this State cities, counties, schools, water districts, drainage districts, road districts, irrigation districts and many others, all assessing and collecting taxes on the same property. As a result most property owners must render the same property to several assessors and pay taxes to several collectors," Carpenter explained. "The number of local taxing authorities seems increasing. A similar survey made by Moore Lynn, former state auditor, for the year 1932 showed at that time 8,742 tax districts. He called attention to the 'present chaotic conditions' then existing in local taxation matters," Carpenter said. "The survey just completed for the year 1934 shows 8,936 local taxing units, an increase of 194 in two years," he stated. In the 8,936 districts an enormous taxpayers' debt of three-fifths of a billion dollars has been built up. The actual figure in 1934 was \$670,442,179, with sinking funds deducted, he said.

Al Elliott, Carol McIlroy, Mrs. Carol McIlroy, George Statts, Ruth Statts, Mrs. J. E. Ellis, Abilene, Texas; W. W. Heathington, Mrs. W. W. Heathington, Wayne Heathington, Joe F. Heathington, Cleo Heathington, Paul Heathington, Abilene, Texas; Hugh Hagins, Laredo Hagins, Paul Hagins, Pauline Hagins, Mariam Hagins, Spur, Texas; Ross Lee Hagins, Ross Hagins, Dollie Hagins, Josie Hagins, Joann Hagins, Tahoka, Texas; Jerome Hagins, Mrs. Jerome Hagins, Wilber Dee Hagins, Mauriene Hagins, Delmer Hagins, Spur, Texas; H. H. Deahl, Mrs. H. H. Deahl, Jon Deahl, Panhandle, Texas; Will Bennett, Mrs. Will Bennett, Janet Bennett, Gilpin, Texas; Marguerette Bural, Mary Bural, Lucy Bural, Dal Bural, Gilpin, Texas; L. W. McCombs, Mrs. L. W. McCombs, Anna Flo, Carlos, June, Laura, Jack R., Billie, Delmer and Barron McCombs, Jayton, Texas; Joe Hagins, Hazel, Robert, A. J. Jr., Alma Jean, Joe Wendell, Sam, Opal and Nettie Beth Hagins, Jayton, Texas; Dr. R. L. Alexander, Mrs. R. L. Alexander, Ted, Joe Paul, Max, Billie Bob Alexander, Jayton, Texas; Eloise Wilson, Kathleen Stewart, Jayton, Texas; Jim Simpson, the official Barbecueer, Jayton; Mr. L. F. Wade and Mrs. L. F. Wade, Jayton, Texas. While we may have omitted some names from this list or perhaps the address of some may be wrong, we hope not. Mr. and Mrs. Hagins and children, grand children and great grand children are planning already for next year's reunion which they hope to make the biggest and best of all. Mr. Hagins will be past 85 at this time and it is his desire to have all of his relatives present the total of which far exceeds the number present on this occasion, as well as hundreds of his old and new friends. We sincerely pray that he may live to carry out his plans.

Cap-Rock Life Insurance Co.

The Cap-Rock Life Insurance Co. is a new business lately organized by Spur business men to take care of the life insurance business in this part of Texas. The organization is made up of several of the leading business men of Spur and Dr. Bob Alexander, a former Jayton citizen is the institutions medical advisor. While the company has only been organized a very short time they have written more than \$100,000.00 in insurance. We have every reason to believe they will make a great success of the undertaking and build up a great business for this part of Texas. It's not a "Mutual" as it has been reported by some, but is operating on the Old Line Insurance plan which has stood the test of time and is governed by the rules and regulations of the State Department of Insurance.

SCHOOL OPENS WITH HEAVY ENROLLMENT

The local school opened the fall term, Monday September 2 with probably a record attendance in both students, teachers and parents present. A welcome to new students, parents and teachers was extended by Mr. Coons. Mr. Eldon Wade delivered a response. A trio was rendered by Doris Holley, Doris Mayo Sewalt and Peggy Lohise Fowler. Then two splendid and inspiring talks were given by Aletha Sprouts and Mildred Self, after which followed assignments by Mr. Lowrey. A prayer, appealing to the better side of both students and patrons was delivered by Rev. Van Zandt. It is estimated that more than one hundred parents were present for the opening and all went away expressing hopes for a successful school year.

The new teachers are Miss Zeman, Miss Rutherford, Mr. Williams (Marvin), Mrs. C. Jay. Along with the new teachers the school has 96 new pupils coming from 10 adjoining common school districts. Jayton has a nice new school bus which brings in 51 pupils from Clipper, Rosewood, Rising Star, Blackwell and Center Point school districts. A second bus is being installed which is to bring in 21 high school pupils from Pursley, Salt Flat and Golden Pond. This bus is to be privately operated. This makes the total enrollment for High School 92 and the grade school 238, a grand total of 330 scholars and 11 teachers. In addition to this number there are four seniors in attendance.

All the work now being offered in the local school is state accredited and a splendid school spirit is being exhibited by the student body. The athletic enthusiasm is running high with 22 senior boys reporting for duty along with 24 senior girls and the Junior boys and girls have never been counted there are so many of them.

The new gymnasium will be dedicated in the near future. As soon as games can be arranged for both boys and girls.

We also extend a welcome to both boys and girls of the town to organize a team and a playing schedule will be arranged for them.

Henry Schussler and family were called to Ft. Sumner, New Mexico, Sunday by the death of Mrs. Schussler's sister child. They arrived home Tuesday evening and Henry tells us that all the country West of Jayton is good and wet and that Ft. Sumner is on quite a boom the result of much Government work being done in that part of N. M.

Claude Worthen left Tuesday for Norman, Oklahoma where he intends entering school at O. U. His many Jayton friends wish for him every desired success.

Dr. Bob Alexander and R. C. Brown of Spur were here Tuesday in the interest of the Cap-Rock Life Insurance Company, of which Dr. Mr. Brown is the Secretary and Treasurer.

W. T. Cathey and Jim Barkley were over from Clairemont, Thursday afternoon and when they left out for home W. T. was at the wheel of a new V8.

Quite a number of Jayton folks were in Spur last week end to see the Will Rogers picture that was showing at the Palace Theatre.

County Agent's Notes

Bankhead Certificates are now being issued at the County Agent's office. Anyone who has not received notice of delivery may call at this office at their convenience and receive their certificates for 1935 allotment. Certificates that were pooled and sent to Washington for re-issue have not been returned to date, but is expected by the county Agent that they will arrive from Washington to be issued to the producers sometime during the month of September.

A trench silo demonstration is being planned to be held on the farm of L. C. Smith at Girard sometime the coming week. The digging of the pit is in progress and due to bad weather a date is unable to be set at present, but anyone interested in attending this demonstration may receive information and the date for this demonstration from the office of the County Agent.

KENT COUNTY POLITICAL SUBDIVISIONS APPLY FOR WORK PROJECTS TOTALING \$140,900.00

County Judge J. B. Earnest and Commissioner Ab Cargile returned from Abilene, Thursday morning where they met with the district officials of the WPA and submitted work projects to the amount of \$140,000.00 for the various sub-divisions of the county.

They were listed as follows: Precinct 1 — Lateral roads \$41,000. Precinct 2 — Lateral roads \$22,000. Precinct 3 — Lateral roads \$36,000. Precinct 4 — Lateral roads \$24,000. Town of Jayton street improvement work \$9,000. City lake improvement work \$8,000. Total for the entire county \$140,000.

The town of Jayton has also made application to the PWA for a loan and grant of \$35,000 to enable the town to extend and improve their water works system and put in a sewer system. We have no assurance that we will get all or any of this money but it's possible to get some of it and provided we can comply with the rules and regulations governing the granting of the various applications.

The Commissioner's court and the officials of the town have at least made application for the money to do this much needed work and if we can't comply with the demands of the government officials it will just be our misfortune and not our fault.

COLE GALLAGHER MAKES WINNING RUN FOR HIWAY

Last Wednesday the Hiway took the Pill Rollers in to win a hard fought game of soft ball. An extra inning was necessary because the Hiway was determined to be in the lead when the game was finished.

With the score 7 to 7 when the extra inning started and Bake Robinson shut out the Pill Rollers in their half of the extra inning the Hiway came to bat and Cole Gallagher hit a double to left field and with one man out scored from third on a long fly to left hit by Dale Moore.

The Hiway will now play the Prune Diggers to decide who will play the Pill Rollers in the City Series.

ONLY PRETTY TEACHERS

Rockford, Ill., Sept. 3 —Henceforth it will be no hardship to have to "stay after school" in Rockford.

W. W. Ankenbrand, superintendent of schools here decreed today that future applicants for teaching positions must have "A" grades in pulchritude.

"Teachers need not be Follies beauties, but they must be pretty."

A report from the local relief offices is to the fact that there has been a number of work relief projects approved lately and the work will begin as soon as the money arrives which will be some time this month.

A group of Jayton Young People of the Methodist Church went to Seymour last Friday and Saturday to a district meet of the Starvation District.

Jess Hall remembered us last Saturday with a stack of peaking ears and a summer pumpkin. Thanks Jess.

Mrs. Tom Connally

Behind every man who has achieved greatness in history, there is usually the shadow of a good woman. Close friends of United States Senator Tom Connally, 2000 of whom gathered at Marlin to pay their last respects to Mrs. Connally, say this is true to an unusual extent in the case of the distinguished junior senator from Texas. Possessed of a remarkably keen mind, and a sure instinct for the right, which hurdled easily the hazards of politics, Mrs. Connally was not only the constant companion, but the influential advisor of the senator. From every corner of the state, friends came to the home at Marlin last week, to extend their condolences to Senator Connally and his young son, Ben, and to express their conviction that all Texas as well as her own family, had suffered a great loss in her death.

\$1,000,000,000 Crop Predicted

AAA Head Forecasts Largest Return To Cotton Farmers Since 1929 Because Of 12 Cent Loan Plan

The first billion dollar cotton crop since 1929 should result from President Roosevelt's action in approving the new loan and payment plan, according to Chester C. Davis, Administrator of the AAA.

"Cotton farmers will instantly appreciate the significance for them of the President's action. The plan to assure cotton growers an average return of not less than 12 cents a pound not only promises the best cotton income the cotton farmers have enjoyed for years, but it also means enlarged outlets for cotton exports, which are of immense importance to the cotton industry.

Davis' forecast of a probably "billion dollar cotton crop" for '935 is based on estimates of total farm value of cotton, including and payments necessary to bring the average return up to 12 cents, exceeding \$700,000,000 rental and benefit payments under the cotton adjustment program totalling about \$126,000,000 and farm value of cotton seed totalling between 150 and 175 million dollars.

"When cotton farmers understand how simple and easily this plan will work they will be in no hurry whatever to market this year's crop. The assurance of government payments to farmers, making up to them the difference if any, between 12 cents and the average price of cotton on the ten spot markets from Sept. 1 to January 1, will enable growers to take ample time to estimate the true market situation and sell their cotton to the greatest advantage to themselves. Farmers should remember that the present plan restores a free market, so that growers can benefit directly from orderly and intelligent marketing of their crop. Any payments to them will cover average differences, not individual differences, between market price and 12 cents.

The 10 cent loan will assure farmers an immediate source of income," Davis said.

DISTRICT COURT

We are informed that the Grand Jury which was in session Monday and Tuesday of this week found five bills. Four felonies and one misdemeanor. Two of the felony cases were for cattle theft, two for violation of the prohibition laws of the state, and one case classed misdemeanor. Kent county folks are law abiding people and as a rule few serious cases are ever up for consideration unless transferred to this county from some other county in the district.

Stephenville, Texas —Registration at John Tarleton College will be Monday and Tuesday, September 16 and 17, according to information from J. Thomas Davis, Dean. Classes will start Wednesday, and on Saturday, September 21 a formal opening program will be given in the College auditorium at 9 o'clock.

Receptions for all Tarleton students will be given by the college officials and by various Stephenville churches shortly after school opens.

Don't fail to find out about the free car that is to be given to one of our subscribers on Thanksgiving day.

Shorty Sherer and wife are here this week visiting friends and attending to business matters.

Economic Highlights

One of the most dramatic acts of the late Congress occurred, entirely unexpectedly as far as the general public was concerned, just before the session passed into history.

This act was the passage of the so-called "neutrality plan," proposed by the White House, originated by the Senate, and forced through the house by Administration leaders under a gag rule which forbade any amendments and limited debate to the absolute minimum.

Reason for this unprecedented occurrence does not require a microscope to discover. Everyone knows that Europe is closer to a major war than at any time since 1914. The American State Department doubtless has a better idea of how close war is than any other domestic agency—it is a possibility that in Secretary Hull's handsome, impassive, white-thatched head there is knowledge that if disclosed, would make headlines throughout the country. And, with the memory of the "incidents" that brought America into the World War still fresh the Administration, which has consistently pursued an extremely cautious foreign policy, seems determined to keep us out of future conflicts if that is at all possible. High spots of the neutrality plan include:

Prohibition of the export of arms and ammunition to any foreign belligerent until February 29, 1936 (by that time another Congress will be in session, and will be able to cope with changed conditions.)

Prohibition of the use of American vessels in arms traffic until February 29, 1936.

Establishment of a strict licensing system for American munitions manufacturers and exporters.

Authorization for the President to require a bond of any ships suspected of transporting arms and munition.

Authorization for the President to restrict or entirely close territorial American waters to submarines of belligerents.

Authorization of the President to forbid American citizens to travel abroad during war except at their own risk, unless such traveling is made necessary in order to escape a zone of conflict.

It is an interesting fact that the neutrality bill passed both houses by close to unanimous votes—yet a number of Congressmen, including some who voted for it, are dubious. Senator Johnson, old-time advocate of U. S. isolation, said it would not prevent our getting into war. And a few voices, including that of Senator Wadsworth potential Republican Presidential candidate, spoke up against the principal it represents, on the grounds that small, persecuted nations will be harmed by the policy, while big, aggressive nations will not. For example, Italy could get by without purchasing arms abroad—while closing of foreign buying to Ethiopia which has no industrial resources that might be turned to munitions production, would make it impossible for her to defend herself in the event of war.

However, editorial response to the plan has been highly favorable—papers which oppose the President in most of his policies are for him when he attempts to keep us out of the pending European super-war. The provisions whereby Americans traveling on ships belonging to belligerents must do so at their own risk is perhaps the most important single part of the bill — remember the Lusitania!

Many men live on "borrowed time" as the saying goes, but to Fred Glasie, Tarrant County farmer, goes the distinction of having lived for six years on borrowed blood. Every six weeks he has to undergo a blood transfusion, due to aplastic anemia, a rare disease about which doctors know little. Relatives have furnished the blood, his wife having contributed hers three times. Between times, Glasie goes about his work normally and feels on ill effects, except for a few days prior to each transfusion, when he becomes weak and tires easily.

Huls Drug has a new assistant these days. Mr. Walker of Peacock, Texas. Mr. Walker is an experienced drug store clerk and we welcome him to Jayton and hope that he will like the town and decide to make it his future home.

Old Memories Revived

A man who had left his home village when he was young and had gone to the wicked city and made a lot of money thought he would revisit the scenes of his childhood. As his hugh car, loaded with gay friends entered the sacred precincts the man exclaimed: "Ah me! How well I remember every stick and stone of my native village! There's the old red school house, turned now into a home for some poor family! And there's the big new high school on Bennett's hill! And there's the old watering trough, at the foot of main street now turned into a fountain! There's Al Dartt's wagon shop, converted into an up-to-date service station! Over there is the Methodist church, and up East Avenue you can see the Free-will Baptist spire! On that corner used to stand Mathers's store. I don't suppose any of the old crowd are alive any more."

At this point an aged but spry inhabitant hailed the party and said: "You're Bill Spivey, ain't ye? I knew ye the minute I set eyes on ye. I trusted your father for a codfish back in 1883 an' I'd thank ye to settle for it. The codfish was 45 cents and the interest would be \$1.40 more. Give me \$1.75 and I'll call it square."

W. J. Garrett had business in Dallas this week.

W. F. Gilbert enjoyed a visit from his brother whose home is in Eastland, Texas.

Mrs. Thelma Jackson is spending the week at Spur with her mother Mrs. J. A. Marsh

A terrific gulf storm hit Florida and many lives were lost and great damage done to property is reported. Come to Texas.

Mr. Jo Ward of Coleman county is here this week visiting relatives and friends. He reports crop conditions in Coleman county above the average.

Miss Mozell Mason who has been in the Stamford Sanatorium for the past two weeks is reported able to leave the Sanatorium.

Planting Time Is Here For Fall Gardens

College Station, Sept. 7— Most of the success of the fall garden depends on preparing the soil correctly, according to J. F. Rosborough, Extension horticulturist.

"All weeds and vegetation must be removed before planting," Rosborough said, "or the soil will dry out quickly and possibly carry diseases."

The Extension horticulturist recommended a heavy application of summer manure before plowing is started. He explained that summer manure, which has no acid or burning ingredients, is used to increase the water holding capacity and to prevent the soil from becoming hard and crusting following the fall rains.

He recommended that as soon as the soil is plowed, it should be pulverized. "Select vegetables that are resistant to heat to plant in the fall garden from the last of August to the first half of September," Rosborough continued, "such as onion sets, swiss chard, tender green, Irish potatoes, carrots, beets and collards. Later, plant such vegetables as lettuce, radishes, mustard, spinach, and cabbage which will withstand cold weather. Bush beans will grow unless the weather turns too cold."

He meant to say that in many gardens, hardy vegetables such as pepper, egg plant, okra and tomatoes, which have survived the summer heat and are ready to produce a fall crop, should be fertilized. In sandy soils, the addition of one to two tablespoonfuls per plant of 6-12-6 commercial fertilizer will be beneficial.

"Wise gardeners do not stake all in a fall garden by just planting a turnip patch," he said, "but they plant other vegetables such as swiss chard, tender green, loose proof turnips and other leafy things of this type along with the old stand."

"Before cold weather sets in, pumpkins, cashaws, summer squashes, and other vegetables of this type should be stored in a protected place," he continued. "In the western part of the State, store these vegetables in the cellar; in the southern part, store them where ventilation will absorb the vegetable moisture and keep rot fungus down."

Sponsors Called For

Towns in Texas and the Southwest have been invited to select sponsors to take part in the Cowgirls contest at Midland, October 19 - 23, sponsored by the Midland Fair Inc.

Each girl is required to furnish her mount and equipment but the Midlans Association will care for the mounts while here.

How The Contestants Will Be Judged
25 per cent on personal appearance of cowgirl in costume.

25 per cent on appearance of horse and saddle.

25 per cent on ability of girl to ride and handle.

25 per cent on horses ability to handle.

The cowgirls will not be expected to perform any daring acts.

Prizes

1st — \$100 hand made saddle.

2nd — \$100 complete riding habit

3rd — fitted hand bag.

4th — pair of hand made boots.

Rooms will be available at the Hotel Scharbauer for the cowgirls at a rate of \$2.00 for single room or \$3.00 for double room. If you uare to make reservations, state the price you wish to pay for room. I shall be glad to attend to this matter for you.

YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND
Director, Physical and Health Education
New York, State Department of Public Instruction

Summer Meals

The same old essentials go unchallenged. Oh, a little less meat perhaps, and for the overweight child a little less bread and butter, bacon, and potato. All children can do very well without candies, pastries, and, especially, soda pop or so-called "tonic." By the way, don't let that name "tonic" mislead you. It's far from being anything of the sort. Instead, try a drink of pure cold water or cool milk. There's real refreshment.

Pass your old beliefs about summer diets. Most of them were only superstitions without a grain of scientific backing. The needs of the body don't change so very much with the seasons. Heat isn't necessary as it is in the winter, therefore the suggestions to reduce sugars and starches. But the energy and health requirements don't change.

The same quart of milk is needed, although good ice cream may account for a part. Green vegetables, fresh fruit, tomatoes, a little meat or fish, some egg, some bread and butter, and there you are, winter or summer.

Planning a Scout trip is exciting, important; Dr. Ireland will give some advice about it in his next article.

W. B. Lafoon and family and Mrs. Owen King and Mr. H. C. Gee visited Virgil Gee and family in Oklahoma City last week.

Victorious in State and Region

JACK S. CLARKE (left), 19-year-old Ft. Worth youth, and J. B. Sorensen, Jr., 16 years old, of Taylor, who won both state and regional honors in this section, when their model traveling coaches were adjudged the best of those submitted in the apprentice class competition of the Fisher Body Craftsman's Guild. In addition to \$75 in cash, each boy will receive a trip to the fifth convention of the General Motors-sponsored educational foundation to be held in Quebec from August 21 to 24, inclusive.

Special Attention

On account of a delay in the receiving of some important material the BIG Announcement we hoped to make this week is necessarily postponed until next week. Sufficient now to say that it will be to your interest to keep your eyes and ears open for we have something in store for you that will be well worth your watching and waiting for.

In The Meantime

You can't lose by trading here. Our new goods are being sold at prices you will be glad to pay and all summer goods are going out at genuine bargain prices. See us for cotton picking supplies of all kinds. We have them and they are for sale. **WHY GO HUNGRY?**

by Marcia Camp

This grand dessert was truly made by darling little Eva. It is so good that I'm afraid that no one will believe her.

PERFECT ICE CREAM

CAN YOU believe that a mere child can make smooth "yummy" ice cream all by herself, the equal of any you have ever eaten? She can, if she knows the secret—a marshmallow ice cream recipe!

For marshmallows are the simple answer to the prayer of every housewife who wants to make perfect ice cream without effort, in either a mechanical refrigerator or in an ice cream freezer. With marshmallows there is no such word as "fail" in the lexicon of ice-cream-making. That is because they introduce into home-made ice cream the same agent which makes commercial ice creams so un-failingly smooth and creamy—an agent which, before combining with sugar and corn syrup to make the marshmallows themselves, was pure sparkling gelatine.

Because marshmallows contain a certain unvarying proportion of gelatine and sugar, they are always dependable; two essential ingredients in one. Naturally this helps to simplify recipes in which they are used; as, for example, in lemon marlow, the name given to all marshmallow ice creams.

LEMON MARLOW

- 27 marshmallows 1/2 pint whipping cream
- 3/4 cup water
- 3 tablespoons lemon juice

Steam the marshmallows and water together in the top of a double boiler until a smooth liquid blend is obtained. The melting of the marshmallows is hastened by cutting them into pieces with scissors dipped in hot water. Add the lemon juice and set aside to cool until slightly stiffened. Combine carefully with the stiffly beaten cream, pour into containers, and freeze without stirring.

Plenty of cool, wet weather this week. It all started Sunday with a good shower just after noon.

R. B. Corder was called to Bledso Thursday by the serious illness of his brother.

We know a lot of church men who belong to the powers that prey.

Manhood is greater than titles and coronets—and always will be.

Some men who go fishing never catch anything until they get home.

HELP MEET—helpmeet; one who helps get the meat. After all, is that a disgrace?

Just because we have a vague sense of our limitations, we often find ourselves far below our best.

Success lies as much in discovering the things we cannot do as it does in finding out the things in our reach.

Just so long as society makes it to our interest to pretend to be what we are not, just that long will we court an hypocrisy that kills. Much of society is but a march of ghosts.

Have you just simply robbed him of his ideal? He may seem to forget about it; he may act the same toward you, but, oh, how little forgiveness when a star goes out!

There are some songs unsung to harp or lute. The rhythmic years of loving ministry work out a sweet refrain. Some day it will be caught up by choir that lingers along the shoreless seas.

Wonder if we have come to the age of the literary bell hop? That is to say, the age when books are made for the market more than for the intellect—when an author is more famous for royalties than for ideas. Shades of the past. The days when really great men, in utter unconcern for gold, sat in coffee houses and debated over their cups the pabulum that would feed an intellectual world for ages. We have in mind some authors of the near past, and some of the present day, who are like comets whose mighty blaze will shortly disappear to come no more. We are producing no immortals. Thought has too much the canker of gold about it.

What Am I?

I am the foundation of all business.

I am the fount of all prosperity.

I am the parent, most times, of genius.

I am the salt that gives life its savor.

I am the sole support of the poor.

The rich who try to do without me deteriorate, languish and fill premature graves.

I am a blessing without which no healthy man or woman can be happy.

Nations that woo me ardently rise; nations that neglect me die.

I have made the United States.

I have built her matchless industries, opened up her rich minerals, laid her incomparable railways, reared her cities, built her skyscrapers.

I am the friend and guide of every worthy youth. If he values me, no prize or place is beyond his reach.

If he slights me, he can have no enviable end. I can do more to advance him than can the richest parents.

I am the creator of all capital.

I am represented in every loaf of bread that comes from the oven, in every train that crosses the continent, in every ship that steams the ocean, in every newspaper that leaps from the press.

Fools hate me; wise men love me.

All progress springs from me.

The man who is good friends with me can never get very far—and stay there.

Who am I?

What am I?

I am work. —B. C. Forbes

Brady reports a ten inch rain that put the creeks out of bank, but the city was saved from serious damage by the levee built in 1930.

Heavy rains were reported from Lubbock to Girard Tuesday night. Just a light shower hit Jayton. But we are shedding no tears.

Fall grass is promising now, which will be of great benefit to the stock farmers and ranchmen.

The dog is not the only animal that bites the hand that feeds him. In fact few dogs are that onery.

Six-Day Bike Riders Praise Safety League For Children

Members of Three-In-One Safety League hear Bobby Walthour, popular racer, stress the importance of safety in bicycle riding.

NEW YORK, (Special)—Bicycle riding is not only the healthiest but also the safest form of sport for children, in the opinion of members of the international riding teams who participated in the recent six-day bike race at Madison Square Garden.

However, it was agreed by the bike riders that children should be taught how to ride and should be familiar with traffic rules. They praised the Three-In-One Safety League for the work it has done in promoting safety for bicycle riders through its membership in all parts of the United States. The league now has more than 100,000 members.

Bobby Walthour, one of the international riding stars, in accepting honorary membership in the Safety League, said he believed that careful observance of the

rules of the road by bicycle riders eliminated practically all hazards in this sport.

"I am heartily in favor of the Three-In-One Safety League's campaign to promote safety for children who ride bicycles. Although there is a constant hazard in my branch of bicycling—racing—even in this sport we must follow the rules of the road and respect the rights of other riders. I believe children should be encouraged to consider bicycling an art and to ride properly."

The Three-In-One Safety League gets its name from the three C's which stand for Caution, Courtesy and Cooperation. Its membership is open to all children in America between the ages of 6 and 16, who may enroll through their local hardware or sporting goods dealer.

Americana

Merchants selling red shirts for young men—the purpose of the crazy color being to conceal lipstick stains resulting from necking parties.

All motor vehicles in Maine having to carry the word "vacationland" emblazoned on their registration plates next year—even trucks, funeral coaches and for hire passenger vehicles.

Attractive Offers To Men, Women, Boys and Girls, & Clubs

See- H. Cobb Wade

A traffic court judge reading a six page gruesome magazine account of what happens to the victim of auto accidents to traffic law offenders brought before him.

Government officials denouncing the "profit motive" and then asking and taking increased salaries for themselves.

A New Jersey farmer breaking New Jersey's sales tax law to test it.

Nebraska placing a minimum valuation of \$10 each on dogs in that state on the grand assessment rolls for 1935, thus giving them a higher value than all Nebraska's jewelry and precious stones.

Forty-two government ace sleuths being required to hunt in all corners of the nation for a 250 pound utility magnate.

The last Congress was usually spoken of as lethargic, slow-moving dead on its feet. But, with September approaching and Congressmen anxious to get home in order to pay attention to their political fences, the closing days witnessed an amazing burst of activity.

Passed was the banking bill—in its final form it represents a compromise between the Administration and such conservatives as Senator Glass. Government will control the banks—but the administering board will apparently be as non-political as possible.

Passed was the \$250,000,000 "soak the rich" tax bill, much in the form first asked by the President.

Passed was the bitterly debated Utility Holding Company bill. The "death sentence" clause is out, though there is considerable difference of opinion as to what the bill really provides. Some say it gives the government the power to put holding companies out of business if it wants to—others say it simply provides strait-jacket regulation. Still in the air is the burning question of the bill's constitutionality.

Passed was the bill setting up a

"little NRA" for the bituminous coal industry—a measure whose constitutionality seems more than doubtful.

Passed was a measure giving the federal government control over liquor, made necessary by the Supreme Court's abolition of the old NRA.

Passed was a bill placing a ban against gold-damage suits after January 1.

Passed was a bill to provide interstate compacts to restrict crude oil production.

Commissioner's Cade and Cargile were Jayton visitors Wednesday morning with County Judge Earnest and Commissioner Suits. They were hustling up work projects and making strenuous efforts to get them outlined and in the district office at Abilene, Wednesday afternoon.

"America Must Choose"
TOPIC OF COUNCIL PROGRAM

The County Home Demonstration Council met in Jayton August 31. Mrs. Edith Hamilton was appointed chairman of the exhibit committee. This committee is to have charge of the educational exhibit on leafy vegetables from this county at the Panhandle South Plains Fair in Lubbock, September 23 to 28.

The Key Cottage, a modern rural home the Community Work Center and the Dress Exhibit at Short Course were described by Mrs. Hamilton. The kitchen arrangement in the Key Cottage and the ventilated pantry in the Community Work Center created much interest among the group as she briefly described each. Mrs. Hamilton immediately "put on the spot" oodles of detailed questions from the council.

A program on "America Must Choose" was conducted by Mrs. O. W. Coats, chairman of the education committee. Council members learned that there are three possible paths to be followed in the "domestic allotment" form of surplus control according to Henry A. Wallace, author of "America Must Choose." These three paths being National Planning which requires greatest burden of adjustment to fall on agriculture or farms, international planning which will throw the burden on factories; the Middle course which will equalize the burden on industry and agriculture. The last course is the one that Mr. Wallace suggest that we take. Other points discussed were the life of Henry A. Wallace, Conditions in America before and after the world war, what the Roosevelt administration recognized.

Most all Texas reports heavy rains the plains country has been soaked and parts of N. M. has suffered from rains of flood proportions. It's pretty damp in Kent county but we can still stand some more moisture.

I looked up Satisfy and it says—

SAT-IS-FY. Something that pleases gives satisfaction; something that suits. For example, you are pleased with a dress. As applied to cigarettes, it means one that is **MILD**—that is not harsh or bitter; one that **TASTES** just right.

Chesterfield... *the cigarette that's Milder*
Chesterfield... *the cigarette that TASTES BETTER*
