

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS, FRIDAY, SEPTEMBER 13, 1935

NUMBER 37

## Old Day At Spur Experiment Station

All West Texas Field Day at Spur Experiment station has set for Friday September 20. It is to be one of the most outstanding agricultural events ever in the Western part of the state. Delegations headed by county cultural agents and vocational school teachers from over 40 counties have already made plans to attend. There will be no speech making but the results of experiments conducted at the Texas stations will be discussed by the best authorities in the state. The chief topics for discussion and discussion will be—

1. SILOS 10:30 until Noon. Demonstrations in filling silos and use of practices will be led by specialists from the Extension Service, College Station, and will be from the use of the most simple-made slide in cutting feed and combining the whole plant in the practice within the reach of the farmer in Texas, to the use of most modern machinery where that is never touched by the farmer's hand. Farm machinery dealers will have on exhibit and operation in the field a complete line of machinery for the making of silage.

2. 1:00 p.m. Cattle feeding experiments. The cattle that have been fed since December 3rd, a period of 90 days and the result of the experiments conducted at the Spur Experiment Station.

3. A series of new studies that interest not only the caterers but of tremendous interest to cotton farmers and oilseeders. A new outlet for the farmer products. A reduction in risk element in oil mill feed. A vitamin problem discovered in cottonseed. These discussions will be held in the afternoon at the Experiment Station at College Station. The studies will also discuss the relation of these studies to defective nutrition in the human race.

4. 3:00 p.m. until 3 p.m. Soil conservation.

5. An exhaustive series of experiments pertaining to drought. The old and serious problem of saving water for cotton and other crops when the crops need it. 6. The rains that sent creeks and rivers on the rampage during May and June over most of the state was stored in the soils at Spur Station and sent crops on the rampage in July and August. Just a case of saving up for the "dry day"! The scorching heat of mid-summer. In the past, instead of making "two crops" grow where one grew it has been determined that blades can be grown where one grew before. Just a simple but illuminating, studies pertaining to water and soil conservation.

7. Think that the day will be a day for all who attend. You are invited to come and enjoy the day. Friday September 20.

8. Little royal between two of the most powerful Democratic rank and file members of the federal government for the northern district of Texas in prospect. T. W. (White) White, once lieutenant governor, Dallas insurance executive, Percival Rice, Dallas attorney-at-law, manager last year for Tom Connally, and assistant national commissioner of the Federal Reserve Bank. Davidson has been endorsed by Sen. Morris Shepley and Senator Connally. A may result, an endorsement of Davidson likely will be by any successful candidate. The appointment will probably be made in December, when Judge Wallace reaches the age of retirement. The post pays \$10,000 and appointment is for life.

9. 95th grade English club met and organized. September 6, 1935. Officers were elected. President—Tom Wade. Secretary—Nolan Corder.

10. We do not have a name for our club. We are wishing that any name for the school would be chosen for our club. The name in the name selected was a trip into the mountains.

11. T. North of Texico. New friends in Jayton. Dr. and Mrs. R. L. Alexander.

## Senator A. P. Duggan

The news of the death of Senator A. P. Duggan, of Littlefield, Texas, who has so well represented this district in the State Senate for the past three years, was a severe shock to his many friends throughout Kent County. He was an ever faithful friend of West Texas, a hard worker for the betterment of the State as a whole and one of the few state officials of whom no charge of playing personal politics was even hinted at. He commanded the respect of every member of the State Legislature as well as the governor.

Loyal to his friends, loyal to his State and nation, honest, true to the trust placed in him by his people, he never failed to give them the service they deserved. He was not a politician. His worst political enemy never had the hardness of heart to charge him with demagoguery. He was just the same Arthur P. Duggan every day in the year, year in and year out. The friend of every man that deserved a friend, a good father, a true husband, a good neighbor, a splendid citizen, a Christian gentleman and a genuine Texan, who by his devotion to his state, worked himself into an early grave. The editor considered him as a personal friend and as such he sincerely regrets his passing. Texas and especially West Texas will miss him, but the good he has done will live through the ages, truly it can be said of him, Well done thou good and faithful servant, Rest in peace.

## Huey P. Long, Killed

Huey P. Long, United States Senator and self styled "Kingfish" of Louisiana, is dead. He died from the effects of a bullet fired from a six shooter at close range. The bullet passed entirely through his body. His death came hours later after the best physicians and surgeons in the State and done all they could possibly do to save his life. The young doctor who fired the fatal shot was riddled with bullets from machine guns at the hands of Long's personal body guards immediately after he shot the Senator.

So ends the life and career of Louisiana's most spectacular politician who had almost succeeded in making himself the absolute ruler of his state and was considering running for president of the United States on an independent ticket.

## Heavy Rains End Week Of Wet Weather

Beginning Sunday, September 1st, and continuing for several days this country was treated to one god shower after another until Sept. 8th when the spell was brought to a close with a rainfall of 1 1/2 to 2 inches and giving this country one of the best general soakings it has had in years. Its possible now to sow winter pasture grains with an assurance of getting it up and growing before the winter weather arrives. It assures us of a late feed crop and makes possible more than an average cotton crop.

The farmers are elated and every one will be hard at work from now on planting, gathering and making hay while the sun shines. Very little cotton will be picked before next week but when cotton picking starts there will be no let up except for bad weather until the crop is picked and ginned.

## HARMONY CLUB NEWS

Henry Wallace was a mid-west fighter for farm relief, we learned at a program on "America Must Choose" conducted at a meeting of the Harmony H. D. Club.

Henry Wallace was born on a farm. He has owned and supervised the operation of a Polk County farm for years, and conducted many valuable experiments.

His greatest interest has been in the field agriculture economics and farm prices.

Jewel Puryear who attended the Short Course, described the Key Cottage, Community Work Center and other events of interest at the Short Course.

Jewel Puryear - Rep.

Ted Alexander is here from Lubbock this week visiting his parents Dr. and Mrs. R. L. Alexander.

## Attend meeting At Canyon

The sectional short course of the Farm Credit Administration held at West Texas State Teachers College, Canyon, Texas, September 6 and 7, was a great success, according to Thos. Fowler, Secretary - Treasurer of the Jayton National Farm Loan Association, who, with W. L. Buckalew and Walton Davis, directors of the association just returned from the meeting.

All who attended had an opportunity to learn more of the operation of the various units of this large financing system for agriculture that has, through its operations, helped thousands of Texas farmers and ranchers to carry on through the period of emergency.

Among the principal speakers at the meeting were A. C. Williams, President of the Federal Land Bank of Houston, who spoke on the work of The Federal Land Bank in making loans on its own behalf and as Agent for the Land Bank Commissioner. Mr. Williams also told of recent legislation which permits Land Bank Commissioner loans to be made to worthy tenant farmers to enable them to purchase farms of their own. The objective of the Farm Credit Administration of Houston is coordinating National Farm Loan Associations and Production Credit Associations was discussed by Mr. Williams. Of this he said; "Our goal is to have credit centers accessible located where farmers and stockmen can secure both long and short term credit service according to their needs. In these local credit centers the national Farm Loan Associations and Production Credit Associations should be linked together as closely as Administratively feasible in order to render the maximum service at the minimum cost. Problems related to credits, collections, management, territory, and improved services to borrowers will be worked out on a basis of mutual advantage to both systems."

Virgil P. Lee, Vice-President of the Production Credit Corporation of Houston, told how production credit loans are made at a low rate of interest through Production Credit Associations to aid farmers and stockmen in the production of crops and livestock. T. P. Priddy, Jr., Vice-President and Treasurer of the Federal Intermediate Credit Bank of Houston, outlined the functions of the Intermediate Credit Bank; which discounts the notes of farmers and stockmen on loans made by various eligible lending agencies. Jno. B. Jones, Secretary - Treasurer of the Houston Bank for Cooperatives, spoke on the various types of loans made to farmers cooperative associations in Texas.

## Trench Silo Demonstration

The Kent County Trench Silo demonstration which will be conducted by Mr. E. P. Eudaley and Mr. O. G. Tumlison, our district agent of College Station will be held at the farm of Mr. M. W. Overfelt, five miles from Jayton at B. M. Chapel school house. The meeting will be held Monday September 16, This being the first demonstration conducted by specialists it is the desire of the county agent that as many farmers and ranchers attend this meeting as possible. A good representation at this meeting will enable us to secure specialists from time to time. It will be well worth anybody's time to hear Mr. Eudaley talk on conservation of feed as he is one of the most able and practical men that the extension staff possesses. Mr. Tumlison, will also be very interesting to hear as he has spent much time in this section of the state and is familiar with our needs.

## BAPTIST CHURCH CONFERENCE SUNDAY

This is a notice to all members of the Baptist Church that there will be a called conference of the church Sunday morning, September 15, for the purpose of considering the church building program. Every member is urged to attend.

Fred McPherson

Quite a few Jaytonites attended the session of District Court at the capital this week.

## G. H. Nelson Of Tahoka Candidate For State Senator

G. H. Nelson, District Attorney of the 106th Judicial District, announced Monday his candidacy for State Senator, 30th Senatorial District of Texas, to succeed the late Honorable Arthur P. Duggan. He stated he would make an active personal campaign of the District and make known his platform at an early date. Governor Alfred has called a special election for September 28 to fill the vacancy caused by the death of the prominent West Texas Senator.

"I will base a campaign" Nelson stated, "on the proper methods of liquor control, and on the old age pension problem, in accordance with the recently voted constitutional amendments. I will favor old age pensions such as will be in keeping with the ability of the State to pay, and seek to put such pensions in operation as quickly as possible."

"I favor education of West Texas children in equality with those of other sections of Texas, and will seek adequate support of West Texas institutions of higher learning."

"If elected, I will fight for proper representation of West Texas in the legislature through redistricting of representatives and senatorial districts as required by law."

He also stated he would lay special emphasis on agriculture, labor, highways, revenue and taxation.

Born thirty-three years ago on a farm in Cass County, Texas, Nelson early in life acquired an ambition to serve the people in public office. He worked his way through Hughes Springs High School, East Texas State Teachers College and the University of Texas Law School, following which he served as principal of Roscoe and Hermleigh High Schools, Superintendent of Tahoka High School and Secretary-Manager of the Tahoka and Ralls Chambers of Commerce.

Since 1928 Nelson has served the people in public office. He was elected to the office of County Attorney, and is now serving his second term, unopposed, as District Attorney under Judge Gordon B. McGuire of Lamesa.

"I believe," Nelson said, "that my twelve years in West Texas, with three of them devoted entirely to the study of West Texas problems and needs, my records before the bar, as a school man, as a civic and church worker, will show I am qualified for the office I now seek."

## Baptist Folks Start New Church Building

Monday morning of this week the first dirt was moved and work was under way for the building of the new Baptist Church in Jayton. The new building will be located on the N. E. corner of the block on which the Methodist Tabernacle is located and if nothing happens to prevent it will not be many months until the Baptist Brethren of Jayton will be housed in a new and modern structure that will be a credit to the church and the entire community.

## POSSIBLE TO HAVE NEW MATTRESSES

To have two new mattresses in homes of each rural family has been made possible by the recent amendment to the U. S. Bankhead Act, which permits the ginning tax-free of 110 pounds of cotton grown by the producer to be used for domestic purposes in his own household.

This should be of interest to farm women who are interested in making their own mattresses. Satisfactory, comfortable, cotton mattresses can be made at home.

Fifty pounds of cotton is necessary in making a mattress for double beds of standard size, 54 inches wide. For a small expenditure all materials purchased can be of good quality.

If you haven't learned the newer methods in mattress making call on a club woman to assist you, for they have had recent training on making standard mattresses.

Richard Jay, Jo Robinson and Joe Gilbert left Monday for Abilene where the three of them entered McMurry College for the first term. All of them will be freshmen and we wish them luck in their first year of college life.

## B. Reagan Candidate For State Senator

B. Reagan, well-known west Texan who has been closely associated and identified with the development of this section of the state, has announced his candidacy for the Texas Senate.

He will make the race in the special election called for September 28 by Governor James V. Allred, to fill the vacancy caused by the death of Senator Arthur P. Duggan.

Reagan has resided in Big Spring for 37 years and has been active in the West Texas Chamber of Commerce. He is a past president of the South Plains Bankers Association, also a former national official in the Woodmen of the World.

Reagan came to West Texas to be superintendent of the Big Spring schools. He left that profession to enter the drug business. During the Wilson Administration, he was postmaster at Big Spring. He was the president of the West Texas National Bank when it merged with the First National Bank of Big Spring and is now president of the First National Bank.

He was reared in Brown County, educated in the public school and attended Baylor University, Waco.

In all civic matters, Reagan has taken an active interest, especially where West Texas was concerned. His candidacy is based on his understanding of West Texas problems because of his wide experience in serving this section of the state.

## Notice Automobile And Truck Owners

The fall season is now with us. From this date on it becomes necessary for the town authorities to enforce the parking and speed laws of the state and town in order to guard against accidents and injuries.

Therefore, we here and now give notice, that parking of cars and trucks nearer than 15 feet of the corners of Jones Drug and Landers-Gardner street intersections of highways 18 and 84 is from this date on prohibited.

Notice is also given that cars must be parked to the right and at a proper angle to prevent traffic jams. Long trucks should not park on highway 18, between Jones Drug and Landers - Gardner stores at any time as this is a state highway and must be kept open.

The State speed limit in all towns and cities is 20 miles per hour. Some folks drive too fast while in Jayton, and they must be more considerate of the dangers of fast driving in the town.

The proper officers will be on the streets Saturday to assist folks in properly parking their cars. Please cooperate with them. It is better to be safe and well within the law than to do a foolish thing and be the cause of a serious accident, and perhaps the cause of the death of some child or even an older person.

By Order  
City Commission

## A SURPRISE PARTY

Last Saturday night a group of friends gathered at the home of Mrs. R. A. Jay for a surprise party for Richard Jay, Joe Gilbert, Jo Robinson, and Aletha Sprouls. A good time was the report of all who attended. Each one of the honored guest received a package of handkerchiefs, which called for a speech from each. Games of progressive were played and Mr. Coons and Aletha Sprouls winning high score. Refreshments of lime soda and sandwiches with stuffed eggs and cheese balls were served to the following: Jo Robinson, Aletha Sprouls, Joe Gilbert, Richard Jay, Barney Faye Jewell, Lucille Daniels, Mr. and Mrs. W. L. Coons, Esther Wade, C. B. Coats, Herbert Wade, Alton Cox, Douglas Davis, Katherine Jay, Med Wade, and Hostesses Mrs. R. A. Jay, Alice Wade, and Jane Robinson.

Miss Jewel Hughes is here this week visiting her sister, Mrs. C. B. Waggoner.

Lyles Bros. of Stamford had business in Jayton last Friday afternoon.

## George Wilson Gets Big Canadian Lynx

Late Tuesday afternoon George Wilson, who lives in Stonewall Co. about 12 miles N. E. of Jayton started out with his four wolf dogs looking for a wolf race, and had only gone a short distance when they jumped a varmint that just the looks would have made one have cold chills. The dogs after a short run put the animal up a cedar tree and when George rode up, it jumped out and the dogs covered him at once. But they had tackled the fight of their lives. George says it seemed to him that the fight lasted an hour, while in fact it was just a few minutes. The air was filled with hair, hide, howls, and growls, while lynx and dogs were tangled in mortal combat. The dogs finally won out, but one was badly crippled and all were rather well worked over, while the Lynx though down and out when George got to him, was still able to raise his head off the ground, so George ended his suffering with a 22 bullet. The animal was brought to Jayton, Wednesday morning and attracted quite a few folks who had never seen a cat of his size and color. M. V. Jay did the skinning act and the hide will be mounted. George tells us one other animal of the same class was caught in his neighborhood last summer, but small in size in comparison with this one. George has also caught three wolves during the rainy spell since September 1st.

## Escaped Convicts In Wyoming Penitentiary

The following communication was received by Sheriff W. B. Bingham from Warden A. S. Roach of the Wyoming State Penitentiary regarding the two convicts who escaped here June 10, 1934. They were caught and sentenced about a month after breaking jail here.

Aspermont, Texas  
Dear Sheriff:

Re: George Clayton our Max Shelton Glenn Little, our Raymond Shelton In regard to above subjects would like to say that they were sentenced July 9, 1934 from Lincoln County to serve from 6 to 12 years for the crime of Grand Larceny Auto Theft.

It is possible for these convicts to do their twelve years in 4 years 11 1/2 months. Making their possible discharge date about June 28, 1939. If you wish a detainer placed against these men kindly let me know. Sincerely yours,

A. S. Roach, Warden  
The above men are the ones that escaped jail here June 10, 1934, over powering me, breaking jail and taking my automobile. I located these men through the Federal Bureau of Investigation of Washington D. C.  
W. B. Bingham

## Tri-County Singing Convention, Sept. 22

Remember the Tri-County Singing Convention meets the 4th Sunday in September in Jayton. Please keep this in mind as we will have dinner on the ground. You can start cooking now. Place of meeting will be announced later. Watch next weeks Chronicle.

## CONCRETE CELLAR FOR STORAGE OF FARM FOODS

"It was hard to decide which was needed most, adequate storage for our canned foods or a new home. Consequently we managed for both."

"This is something I have dreamed of for years," Mrs. C. H. Cade, pantry demonstrator, told the home agent, while they were inspecting the new 6 by 8 ft. concrete cellar.

At this time plans were made to build shelves on both sides of the cellar, placed eleven inches apart with supporting stingers 30 inches apart. The depth of the shelves will be eight inches. This allows for storing canned foods "two deep", and "double decking" foods canned in tins.

"Bins and crates are to be used to provide for storing root and dried vegetables."

The Baptist Senior Sunday School Class was entertained with a party in the home of Mr. and Mrs. John Vincent last night.

**Does It Pay To Advertise**

Strange as it may seem, there are some business houses in Jayton that tell us they cannot afford to advertise, yet if they could only understand, or see, or read, the minds of the buying public they would know that they can not afford not to advertise.

During the past thirty days more than two and one half tons of advertising matter has been distributed within this territory by the mail order houses. Can you, Mr. Merchant, on anyone else for that matter, who has something to sell afford not to advertise?

These foreign firms are after business that you should have, and could have. Suppose each catalog produces for the mail order firm only twenty dollars worth of business. Multiply twenty by about 10,000 and see what it amounts to, \$20,000 is the way we figure it and before the season is over it will total nearer \$50,000.

Why do they get this business? Simply because they Advertise. If you can hold this business here in Jayton by spending half the profit for advertising you have made money for your self and for the town as a whole. Think it over, call our advertising man and let's go after this business in the modern way, and in the only way it can be held here at home.

Special Election - September 28, 1935

**NOBODY'S BUSINESS**

Austin, Sept. 9.—The gage of battle to adopt a state monopoly system for the sale of hard liquor in Texas was thrown into the legislative arena this week, on the eve of the opening of the special liquor control session of the 44th legislature.

Ex-Senator, Tom Love of Dallas, spokesman for the bone dries, and veteran of innumerable prohibition campaigns, sent a letter to every member of the state legislature, urging state monopoly, and asserting that only in those nine states which

have adopted the system has any substantial revenue accrued to the state.

Bitter and probably successful resistance, will be encountered to his plan from distillers, liquor wholesalers and distributors, hotels, restaurants and all who hope to profit from the liquor traffic.

The state monopolist will have another try at it, if they fail in the special session, next year, when the people will vote on a constitutional amendment setting up state monopoly. Wet leaders here are greatly concerned over what will take place in the intervening year and a half. If regulation is too lax, if drunken drivers kill too many people, if public drinking by women in public bars where women and young girls are batenders is too widespread, they fear a strong reaction that will result in the votes adopting state monopoly next year.

Meanwhile in the larger cities of Texas and in many small ones, those who profit from the sale of liquor, apparently are doing their utmost to confirm the fears of wet leaders. Thruout the state, liquor dealers have "jumped the gun," not even waiting until the state constitutional amendment is repealed by official canvass of the vote this week, but opening up saloons — specifically prohibited by the repeal amendment — where all varieties of hard liquor and mixed drinks are served. Local option laws are utterly disregarded. Breweries in Texas and out, manufactured and shipped 6 per cent beer into the state even before election day, releasing it in floods on election night. Every bottle or keg that is made or sold in the state constituted a separate violation of both state and federal laws still on the books. In Fort Worth a 19-year old girl married in a saloon as a crowd of drinkers cheered, an ordained minister performing the ceremony before the altar of roses, erected on the bar. Drugstores thruout the state continued their magnificent disregard of all laws, and sold packaged liquor by the thousands of gallons. Whatever the legislature does, anarchy is in the saddle so far as liquor sales in Texas are concerned today.

The state prison board, meeting in Houston last Saturday, accepted the resignation of Lee Simmons, longtime superintendent and manager of the system, appointed his successor, Dave Nelson of Orange, chairman of the livestock sanitary commission, manager of the Stark farming interests, and world veteran who won decorations for gallantry. Gordon Burns, Huntsville's senator, and many other members of both houses, protested, asked delay in acting on Simmons' resignation until the legislature could investigate.

The incident brought to a head a long-smouldering fight between Simmons and his friends and a majority of the prison board. Simmons' friends claim he has been handicapped by the board, while his enemies, headed by Senator Tom Holbrook of Galveston, have criticized Simmons loudly. Both factions promise a legislative investigation, which likely will develop early in the special session.

The widespread interest of Texas in oil was again exemplified in the last prorotation order of the railroad commission, which listed and fixed allowables for 174 separate fields. No section of the state seems to be without oil production or potential production. Sixty per cent of the state's counties produce oil. Newest

among the areas where limits are as yet undeveloped is the Rio Grande valley section. Union Sulphur Co. has discovered well and qualified for a second five percent royalty. Jacobs, genial public relations director of Southland Life Insurance Co., reported that passing through Austin to the field, reported that many owns several hundred acres in the immediate vicinity of Sulphur producers, which lease to the Sulphur Co. promise to enrich themselves tremendously.

Mr. and Mrs. Eldon Fowler, and Harold K. farwell party for the last night in the home of Mrs. Wade. There were Wilson's friends present greets he won high scores

**There's lots of room in the FORD V-8**

EVERY ONE who steps into the Ford V-8 for the first time is surprised at its roominess. There's exceptional seat room, leg room and head room in all body types — the whole car gives you a feeling of substantial size.

The Ford gives you extra body room because of the compact design of the V-8 engine — an exclusive Ford feature at a low price. This V-8 engine takes up less space in the hood and permits more of the car's length to be used for passenger comfort. Many a

car selling at a higher price does not give you as much interior room as the Ford V-8.

Rear seats are wide and restful . . . three people can ride comfortably in the front seat of the Fordor Sedan, Fordor Touring Sedan, Convertible Sedan and Phaeton, and in the Coupes and Roadster. The seat of the Ford V-8 Roadster is 52 inches wide. A ride in the Ford V-8 will show that it combines unusual body room with fine-car performance, safety and comfort.

**County Agent's Notes**

Grain should be sown for fall and winter even though lots of feed has been put up. Feed will keep. Save the feed until the pasture has failed. A great many dairy men will have cows come fresh in September. Care should be used in feeding the cows in order to prevent them from having caked udders. If the cows are on good pasture they will not need any feed prior to calving nor for a week after calving. If the pasture is not so good and it is necessary to feed give them a few pounds of ground oats and bran or ground corn and bran. Do not feed any cotton seed meal until cows have been fresh about a week or ten days depending on how the cows are getting along.

On Monday the 9th a community meeting was held at Girard with some fifty farmers present. At this meeting it was decided that a fair

or community organized in planning committee. School as follows: M. A. Leath, Young, and E. J. Kell. Men are going into evening regard to appointing agents for each department and location. Meeting will meet September 16, for make a report of the

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS, FRIDAY, SEPTEMBER 13, 1935

NUMBER 37

## Field Day At Spur Experiment Station

West Texas Field Day at Spur Experiment station has set for Friday September 20. It promises to be one of the most outstanding agricultural events ever in the Western part of the State. Delegations headed by county agricultural agents and vocational teachers from over 40 counties have already made plans to attend. There will be no speech making but the results of experiments conducted at the Texas stations will be discussed by the best authorities in the state. The chief topics for discussion and discussion will be—

**SILOS 10:30 until Noon.** Demonstrations in filling silos and sowing of practices will be led by lists from the Extension Ser-Staff, College Station, and will from the use of the most sim-omade slide in cutting feed hingling the whole plant in the practice within the reach of farmer in Texas, to the use of most modern machinery where it is never touched by the hand. Farm machinery dis- will have an exhibit and ration in the field a complete machinery for the making of

until 1: p. m. Something to drink. Not much. 1:00 p. m. Cattle feeding ex- tending the cattle that have been since December 3rd, a period of 90 days and the result of the tests conducted at the Spur Station. A series of new studies that interest not only to the cat-ers but of tremendous im- to cotton farmers and oil-ers. A new outlet for the farmer products. A reduction risk element in oil mill feed- vitamin problem discovered. These discussions will by scientist from the Experi-Station Staff at College Sta- who will also discuss the re- of these studies to defective in the human race.

2:00 p. m. until 3 p. m. Soil Conservation— review of an exhaustive series of experiments pertaining to drought. The old and serious prob- having water for cotton and crops when the crops need it. Heavy rains that sent creeks and on the rampage during May ne over most of the state was and stored in the soils at ar Station and sent crops on age in July and August. Just in case of saving up for the "Dry Day"! The scorch- of mid-summer. In the pas- studies instead of making "two of grass grow where one yrew" it has been determined that blades can be grown where ne grow before. Just a simple but illuminating, studies per- to water and soil conserva-

think that the day will be a ble one for all who attend. are invited to come and enjoy Friday September 20.

W. T. North of Texico, New was using friends in Jay- of the week.

## Senator A. P. Duggan

The news of the death of Senator A. P. Duggan, of Littlefield, Texas, who has so well represented this district in the State Senate for the past three years, was a severe shock to his many friends throughout Kent Coun-ty. He was an ever faithful friend of West Texas, a hard worker for the betterment of the State as a whole and one of the few state officials of whom no charge of play- ing personal politics was even hint- ed at. He commanded the respect of every member of the State Leg-islature as well as the governor.

Loyal to his friends, loyal to his State and nation, honest, true to the trust placed in him by his people, he never failed to give them the service they deserved. He was not a politician. His worst political enemy never had the hardness of heart to charge him with demagogery. He was just the same Arthur P. Duggan every day in the year, year in and year out. The friend of every man that deserved a friend, a good father, a true husband, a good neighbor, a splendid citizen, a christian gentleman and a genuine Texan, who by his devotion to his state, worked himself into an early grave. The editor considered him as a personal friend and as such we sincerely regret his passing. Texas and especially West Texas will miss him, but the good he has done will live thru- out the ages, truly it can be said of him, Well done thou good and faith- ful servant, Rest in peace.

## Huey P. Long, Killed

Huey P. Long, United States Sen-ator and self styled "Kingfish" of Louisiana, is dead. He died from the effects of a bullet fired from a six shooter at close range. The bullet passed entirely through his body. His death came hours later after the best physicians and surgeons in the State and done all they could possi- bly do to save his life. The young Doctor who fired the fatal shot was riddled with bullets from machine guns at the hands of Long's personal body guards immediately after he shot the Senator.

So ends the life and career of Louisiana's most spectacular politi- cian who had almost succeeded in making himself the absolute ruler of his state and was considering run- ning for president of the United States on an independent ticket.

## Heavy Rains End Week Of Wet Weather

Beginning Sunday, September the 1st, and continuing for several days this country was treated to one good shower after another until Sept. 8th when the spell was brought to a close with a rainfall of 1 1/2 to 2 inches and giving this country one of the best general soakings it has had in years. It is possible now to sow winter pasture grains with an assurance of getting it up and growing before the winter weather ar- rives. It assures us of a late feed crop and makes possible more than an average cotton crop.

The farmers are elated and every one will be hard at work from now on planting, gathering and making hay while the sun shines. Very little cotton will be picked before next week but when cotton picking starts there will be no let up except for bad weather until the crop is picked and ginned.

## HARMONY CLUB NEWS

Henry Wallace was a mid-west fighter for farm relief, we learned at a program on "America Must Choose" conducted at a meeting of the Harmony H. D. Club.

Henry Wallace was born on a farm. He has owned and supervised the operation of a Polk County farm for years, and conducted many valuable experiments.

His greatest interest has been in the field agriculture economics and farm prices.

Jewel Puryear who attended the Short Course, described the Key Cottage, Community Work Center and other events of interest at the Short Course.

Jewel Puryear - Rep.

Ted Alexander is here from Lub- bock this week visiting his parents Dr. and Mrs. R. L. Alexander.

## Attend meeting At Canyon

The sectional short course of the Farm Credit Administration held at West Texas State Teachers College, Canyon, Texas, September 6 and 7, was a great success, according to Thos. Fowler, Secretary - Treasurer of the Jayton National Farm Loan Associa- tion, who, with W. L. Buckalew and Walton Davis, directors of the as- sociation just returned from the meeting.

All who attended had an opportu- nity to learn more of the operation of the various units of this large financ- ing system for agriculture that has, through its operations, helped thou- sands of Texas farmers and ranchers to carry on through the period of emergency.

Among the principal speakers at the meeting were A. C. Williams, President of the Federal Land Bank of Houston, who spoke on the work of The Federal Land Bank in making loans on its own behalf and as Agent for the Land Bank Commissioner. Mr. Williams also told of recent leg- islation which permits Land Bank Commissioner loans to be made to worthy tenant farmers to enable them to purchase farms of their own. The objective of the Farm Credit Admin- istration of Houston in coordinating National Farm Loan Associations and Production Credit Associations was discussed by Mr. Williams. Of this he said: "Our goal is to have credit centers accessible located where farmers and stockmen can secure both long and short term credit service according to their needs. In these local credit centers the national Farm Loan Associations and Production Credit Associations should be linked together as closely as Admin- istratively feasible in order to render the maximum service at the Min- imum cost. Problems related to credits, collections, management, terri- tory, and improved services to bor- rowers will be worked out on a basis of mutual advantage to both systems."

Virgil P. Lee, Vice-President of the Production Credit Corporation of Houston, told how production credit loans are made at a low rate of interest through Production Credit Associations to aid farmers and stockmen in the production of crops and livestock. T. P. Priddie, Jr., Vice-President and Treasurer of the Federal Intermediate Credit Bank of Houston, outlined the functions of the Intermediate Credit Bank, which discounts the notes of farmers and stockmen on loans made by various eligible lending agencies. Jno. B. Jones, Secretary - Treasurer of the Houston Bank for Cooperatives, spoke on the various types of loans made to farmers cooperative asso- ciations in Texas.

## Trench Silo Demonstration

The Kent County Trench Silo demonstration which will be conducted by Mr. E. R. Eudaley and Mr. O. G. Tumlinson, our district agent of College Station will be held at the farm of Mc. M. W. Overfelt, five miles from Jayton at E. B. Chapel school house. The meeting will be held Monday September 16, this being the first demonstra- tion conducted by specialists it is the desire of the county agent that as many farmers and ranchers at- tend this meeting as possible. A good representation at this meeting will enable us to secure specialists from time to time. It will be well worth anybody's time to hear Mr. Eudaley talk on conservation of feed as he is one of the most able and practical men that the exten- sion staff possesses. Mr. Tumlin- son, will also be very interesting to hear as he has spent much time in this section of the state and is familiar with our needs.

**BAPTIST CHURCH CONFERENCE SUNDAY**  
This is a notice to all members of the Baptist Church that there will be a called conference of the church Sunday morning, September 15, for the purpose of considering the church building program. Every member is urged to attend.  
Fred McPherson

Quite a few Jaytonites attended the session of District Court at the capital this week.

## G. H. Nelson Of Tahoka Candidate For State Senator

G. H. Nelson, District Attorney of the 106th Judicial District, announced Monday his candidacy for State Senator, 30th Senatorial District of Texas, to succeed the late Honorable Arthur P. Duggan. He stated he would make an active personal cam- paign of the District and make known his platform at an early date. Governor Allred has called a special election for September 28 to fill the vacancy caused by the death of the prominent West Texas Senator.

"I will base a campaign" Nelson stated, "on the proper methods of liquor control, and on the old age pension problem, in accordance with the recently voted constitutional amendments. I will favor old age pensions such as will be in keeping with the ability of the State to pay, and seek to put such pensions in operation as quickly as possible."

"I favor education of West Texas children in equality with those of other sections of Texas, and will seek adequate support of West Texas institutions of higher learning. "If elected, I will fight for proper representation of West Texas in the legislature through redistricting of representatives and senatorial districts as required by law."

He also stated he would lay special emphasis on agriculture, labor, highways, revenue and taxation. Born thirty-three years ago on a farm in Cass County, Texas, Nelson early in life acquired an ambition to serve the people in public office. He worked his way through Hughes Springs High School, East Texas State Teachers College and the University of Texas Law School, following which he served as principal of Roscoe and Hermligh High Schools, Superintendent of Tahoka High School and Secretary-Manager of the Tahoka and Ralls Chambers of Commerce.

Since 1928 Nelson has served two terms as county attorney of Lynn County and is now serving his second term, unopposed, as District Attorney under Judge Gordon B. McGuire of Lamesa.

"I believe," Nelson said, "that my twelve years in West Texas, with three of them devoted entirely to the study of West Texas problems and needs, my records before the bar, as a school man, as a civic and church worker, will show I am qual- ified for the office I now seek."

## Baptist Folks Start New Church Building

Monday morning of this week the first dirt was moved and work was under way for the building of the new Baptist Church in Jayton. The new building will be located on the N. E. corner of the block on which the Methodist Tabernacle is located and if nothing happens to prevent it will not be many months until the Baptist Brethren of Jayton will be housed in a new and modern structure that will be a credit to the church and the entire community.

## POSSIBLE TO HAVE NEW MATTRESSES

To have two new mattresses in homes of each rural family has been made possible by the recent amend- ment to the U. S. Bankhead Act, which permits the ginning tax-free of 110 pounds of cotton grown by the producer to be used for domestic purposes in his own house- hold.

This should be of interest to farm women who are interested in making their own mattresses. Satis- factory, comfortable, cotton mat- tresses can be made at home.

Fifty pounds of cotton is necessary in making a mattress for double beds of standard size, 54 inches wide. For a small expenditure all materials purchased can be of good quality.

If you haven't learned the newer methods in mattress making call on a club woman to assist you, for they have had recent training on making standard mattresses.

Richard Jay, Jo Robinson and Joe Gilbert left Monday for Abilene where the three of them entered Mc- Murry College for the first term. All of them will be freshmen and we wish them luck in their first year of college life.

## B. Reagan Candidate For State Senator

B. Reagan, well-known west Tex- an who has been closely associated and identified with the development of this section of the state, has an- nounced his candidacy for the Texas Senate.

He will make the race in the special election called for Septem- ber 28 by Governor James V. All- red, to fill the vacancy caused by the death of Senator Arthur P. Duggan.

Reagan has resided in Big Spring for 37 years and has been active in the West Texas Chamber of Com- merce. He is a past president of the South Plains Bankers Association, also a former national official in the Woodmen of the World.

Reagan came to West Texas to be superintendent of the Big Spring schools. He left that profession to enter the drug business. During the Wilson Administration, he was post- master at Big Spring. He was the president of the West Texas National Bank when it merged with the First National Bank of Big Spring and is now president of the First National Bank.

He was reared in Brown County, educated in the public school and attended Baylor University, Waco.

In all civic matters, Reagan has taken an active interest, especially where West Texas was concerned. His candidacy is based on his un- derstanding of West Texas prob- lems because of his wide experi- ence in serving this section of the state.

## Notice Automobile And Truck Owners

The fall season is now with us. From this date on it becomes nec- essary for the town authorities to enforce the parking and speed laws of the state and town, in order to guard against accident, and pre- vent the legitimate traffic that comes to Jayton.

Therefore, we here and now give notice, that parking of cars and trucks nearer than 15 feet of the corners of Jones Drug and Landers-Gardner street intersections of high ways 18 and 84 is from this date on prohibited.

Notice is also given that cars must be parked to the right and at a proper angle to prevent traffic jams. Long trucks should not park on highway 18, between Jones Drug and Landers - Gardner stores at any time as this is a state highway and must be kept open.

The State speed limit in all towns and cities is 20 miles per hour. Some folks drive too fast while in Jayton, and they must be more con- siderate of the dangers of fast driv- ing in the town.

The proper officers will be on the streets Saturday to assist folks in properly parking their cars. Please cooperate with them. It is better to be safe and well within the law than to do a foolish thing and be the cause of a serious accident, and perhaps the cause of the death of some child or even an older person.

By Order  
City Commission

## A SURPRISE PARTY

Last Saturday night a group of friends gathered at the home of Mrs. R. A. Jay for a surprise party for Richard Jay, Joe Gilbert, Jo Robinson, and Aletha Sprouls. A good time was the report of all who attended. Each one of the honored guest received a package of hand- kerchiefs, which called for a speech from each. Games of progressive were played and Mr. Coons and Aletha Sprouls winning high score. Refreshments of lime soda and sandwiches with stuffed eggs and cheese balls were served to the following: Jo Robinson, Altha Sprouls, Joe Gilbert, Richard Jay, Barney Faye Sewalt, Lucille Daniels, Mr. and Mrs. W. L. Coons, Esther Wade, C. B. Coats, Herbert Wade, Alton Cox, Douglas Davis, Katherine Jay, Med Wade, and Hostesses Mrs. R. A. Jay, Alice Wade, and Jane Robinson.

Miss Jewel-Hughes is here this week visiting her sister, Mrs. C. B. Waggoner.

Lyles Bros. of Stamford had busi- ness in Jayton last Friday after- noon.

## George Wilson Gets Big Canadian Lynx

Late Tuesday afternoon George Wilson, who lives in Stonewall Co. about 12 miles N. E. of Jayton started out with his four wolf dogs looking for a wolf race, and had only gone a short distance when they jumped a varmint that just the looks would have made one have cold chills. The dogs after a short run put the animal up a cedar tree and when George rode up, it jump- ed out and the dogs covered him at once. But they had tackled the fight of their lives. George says it seem- ed to him that the fight lasted an hour, while in fact it was just a few minutes. The air was filled with hair, hide, howls, and growls, while lynx and dogs were tangled in mortal combat. The dogs finally won out, but one was badly crippled and all were rather well worked over, while the Lynx though down and out when George got to him, was still able to raise his head off the ground, so George ended his suffer- ing with a 22 bullet. The animal was brought to Jayton, Wednesday morning and attracted quite a few folks who had never seen a cat of his size and color. M. V. Jay did the skinning act and the hide will be mounted. George tells us one other animal of the same class was caught in his neighborhood last summer, but small in size in comparison with this one. George has also caught three wolves during the rainy spell since September 1st.

## Escaped Convicts In Wyoming Penitentiary

The following communication was received by Sheriff W. B. Bingham from Warden A. S. Roach of the Wyoming State Penitentiary regard- ing the two convicts who escaped here June 10, 1934. They were caught and sentenced about a month after breaking jail here.

Sheriff W. B. Bingham, Stonewall County, Aspermont, Texas

Dear Sheriff: Re: George Clayton our Max Shelton Glenn Little, our Raymond Shelton In regard to above subjects would like to say that they were sentenced July 9, 1934 from Lincoln County to serve from 6 to 12 years for the crime of Grand Larceny Auto Theft. It is possible for these convicts to do their twelve years in 4 years 11 1-2 months. Making their possible discharge date about June 28, 1939.

If you wish a detainee placed against these men kindly let me know. Sincerely yours,

A. S. Roach, Warden  
The above men are the ones that escaped jail here June 10, 1934, over powering me, breaking jail and taking my automobile. I located these men through the Federal Bureau of Investigation of Washington D. C.  
W. B. Bingham

## Tri-County Singing Convention, Sept. 22

Remember the Tri-County Sing- ing Convention meets the 4th Sun- day in September in Jayton. Please keep this in mind as we will have dinner on the ground. You can start cooking now. Place of meet- ing will be announced later. Watch next weeks Chronicle.

## CONCRETE CELLAR FOR STORAGE OF FARM FOODS

"It was hard to decide which was needed most, adequate storage for our canned foods or a new home. Consequently we managed for both." "This is something I have dream- ed of for years," Mrs. C. H. Cade, pantry demonstrator, told the home agent, while they were inspecting the new 6 by 8 ft. concrete cellar. At this time plans were made to build shelves on both sides of the cellar, placed eleven inches apart with supporting stingers 30 inches apart. The depth of the shelves will be eight inches. This allows for storing canned foods "two deep", and "double derring" foods canned in tins.

"Bins and crates are to be used to provide for storing root and dried vegetables.

The Baptist Senior Sunday School Class was entertained with a party in the home of Mr. and Mrs. John Vincent last night.

APPLY FOR ADVERTISING RATES

**Does It Pay To Advertise**

Strange as it may seem, there are some business houses in Jayton that tell us they cannot afford to advertise, yet if they could only understand, or see, or read, the minds of the buying public they would know that they can not afford not to advertise.

During the past thirty days more than two and one half tons of advertising matter has been distributed within this territory by the mail order houses. Can you, Mr. Merchant, on anyone else for that matter, who has something to sell afford not to advertise?

These foreign firms are after business that you should have, and could have. Suppose each catalog produces for the mail order firm only twenty dollars worth of business. Multiply twenty by about 10,000 and see what it amounts to, \$20,000 is the way we figure it and before the season is over it will total nearer \$50,000.

Why do they get this business? Simply because they **Advertise**. If you can hold this business here in Jayton by spending half the profit for advertising you have made money for your self and for the town as a whole. Think it over, call our advertising man and lets go after this business in the modern way, and in the only way it can be held here at home.

**STATE SENATOR**

(30th Senatorial District)

Special Election - September 28, 1935

**NOBODY'S BUSINESS**

Austin, Sept. 9.—The gage of battle to adopt a state monopoly system for the sale of hard liquor in Texas was thrown into the legislative arena this week, on the eve of the opening of the special liquor control session of the 44th legislature.

Ex-Senator, Tom Love of Dallas, spokesman for the bone dries, and veteran of innumerable prohibition campaigns, sent a letter to every member of the state legislature, urging state monopoly, and asserting that only in those nine states which

have adopted the system has any substantial revenue accrued to the state.

Bitter and probably successful resistance, will be encountered to his plan from distillers, liquor wholesalers and distributors, hotels, restaurants and all who hope to profit from the liquor traffic.

The state monopolist will have another try at it, if they fail in the special session, next year, when the people will vote on a constitutional amendment setting up state monopoly. Wet leaders here are greatly concerned over what will take place in the intervening year and a half. If regulation is too lax, if drunken drivers kill too many people, if public drinking by women in public bars where women and young girls are batenders is too widespread, they fear a strong reaction that will result in the votes adopting state monopoly next year.

Meanwhile in the larger cities of Texas and in many small ones, those who profit from the sale of liquor, apparently are doing their utmost to confirm the fears of wet leaders. Thruout the state, liquor dealers have "jumped the gun," not even waiting until the state constitutional amendment is repealed by official canvass of the vote this week, but opening up saloons — specifically prohibited by the repeal amendment — where all varieties of hard liquor and mixed drinks are served. Local option laws are utterly disregarded. Breweries in Texas and out, manufactured and shipped 6 per cent beer into the state even before election day, releasing it in floods on election night. Every bottle or keg that is made or sold in the state constituted a separate violation of both state and federal laws still on the books. In Fort Worth a 19-year old girl married in a saloon as a crowd of drinkers cheered, an ordained minister performing the cere-

mony before the altar of roses, erected on the bar. Drugstores thruout the state continued their magnificent disregard of all laws, and sold packaged liquor by the thousands of gallons. Whatever the legislature does, anarchy is in the saddle so far as liquor sales in Texas are concerned today.

The state prison board, meeting in Houston last Saturday, accepted the resignation of Lee Simmons, longtime superintendent and manager of the system, appointed his successor, Dave Nelson of Orange, chairman of the livestock sanitary commission, manager of the Stark farming interests, and world veteran who won decorations for gallantry. Gordon Burns, Huntsville's senator, and many other members of both houses, protested, asked delay in acting on Simmons' resigna-

tion until the legislature could investigate.

The incident brought to a head a long-smouldering fight between Simmons and his friends and a majority of the prison board. Simmons' friends claim he has been handicapped by the board, while his enemies, headed by Senator Tom Holbrook of Galveston, have criticized Simmons loudly. Both factions promise a legislative investigation, which likely will develop early in the special session.

The widespread interest of Texas in oil was again exemplified in the last prorotation order of the railroad commission, which listed and fixed allowables for 174 separate fields. No section of the state seems to be without oil production or potential production. Sixty per cent of the state's counties produce oil. Newest

among the areas where limits are as yet undeveloped. Rio Grande valley section. Union Sulphur Co. has discovered well and quickly produced a second fine production. Jacobs, genial public relations director of Southland Life Insurance passing through Austin to the field, reported that the Sulphur producers, which are lease to the Sulphur department promise to enrich South Texas tremendously.

There's lots of room in the **FORD V-8**

EVERY ONE who steps into the Ford V-8 for the first time is surprised at its roominess. There's exceptional seat room, leg room and head room in all body types — the whole car gives you a feeling of substantial size.

The Ford gives you extra body room because of the compact design of the V-8 engine — an exclusive Ford feature at a low price. This V-8 engine takes up less space in the hood and permits more of the car's length to be used for passenger comfort. Many a

car selling at a higher price does not give you as much interior room as the Ford V-8.

Rear seats are wide and restful... three people can ride comfortably in the front seat of the Fordor Sedan, Fordor Touring Sedan, Convertible Sedan and Phaeton, and in the Coupes and Roadster. The seat of the Ford V-8 Roadster is 52 inches wide. A ride in the Ford V-8 will show that it combines unusual body room with fine-car performance, safety and comfort.

# SEPTEMBER

## Is The BIG Month

Lowrey had charge of the in chapel Monday. Following the opening song, Supt. Lowrey led the audience a "Everybody Say I, I, I, I, I." which sufficient effort of try each the song was put forth, and students preferred it by Mr. Lowrey more than to learn the song.

Children in the second grade the "Clock" and Arilla Silos led with a song.

The program and announce the high school students in the auditorium to make or an athletic council for

Mabel Waddell will probably see the next time she is pass open window. Tuesday after was passing Miss Patton's which had a window open wide a gash in the left side of her

a strip of tape and a little blood to relieve the pain, Waddell went on with her dut school teacher.

SENIOR CLASS

The senior class of 1936 met Tuesday morning and organized, choosing Miss Mabel Waddell as their sponsor.

The following officers were elected to serve a term in the respective offices.

- President — Loyal Harrison.
- Vice-President — Jo Dell Cade
- Secretary - Treasurer — Barney Faye Sewalt.
- Reporter — Mildred Self.
- Assistant Reporter — Doris Mae Sewalt.

The class has a total membership of 12 and 5 post graduates.

Namely the seniors are Lone Cade, Jo Dell Cade, Barney Faye Sewalt, Doris Mae Sewalt, Lela Pearl Cox, Mildred Self, Dorothy Pearl Lee, Euel Harrison, Owen Cox, Clifton Sprouls Loyal Harrison, and Royal Harrison.

Post graduates are Pearl Fuller, Audrey Robinson, Harvey Robinson, C. B. Coats, and Milton Sandell.

The following statement was made by this class:

"We as seniors, promise to do our best in making the year '36 the

greatest year in the history of Jayton High School; and we have many surprises and great hopes for this class." Watch for our progress in the School News.

JUNIOR CLASS

Miss Louise Rutherford will be the sponsor for the Junior class this year. This class is the largest class in the high school and they express the desire to make the highest grades of any class in the school.

The Junior Class extend their welcome to the new teachers as well as the old ones.

- Officers elected for the year are: Francis Earnest — President.
- Kenneth Ward — Vice-President.
- L. H. Matthews - Secretary
- Katie Crider — Reporter.

This class has great plans and they are expecting to accomplish great things and many things thruout the year.

SOPHOMORE CLASS

Miss Opal Louise Creighton was elected to sponsor this class at a call meeting Tuesday.

The Sophomore class this year is larger than the class of '35. The to

tal members come to 14, namely:— Katherine Jay, Halley Wade, Ben Perry, John Robinson, John Arden Wilson, Gaylon Casey, Dessie Mae Taylor, Lucille Daniels, Faye King, Bake Robinson, Winnell McKenzie, Ipez Cheney, Ovie Rackley, and Betty Jo Lane.

At the meeting Tuesday the needed officers were elected as follows:

- President — John Arden Wilson.
- Vice-President — Halley Wade.
- Sec. - Tres. — Winnell McKenzie.
- Reporter — Betty Jo Lane.

These students say they expect to get a great deal of recognition this year.

FRESHMAN CLASS

A sponsor for the class has not been chosen yet but we hope to shop around and get the best one of the lot before things come to a standstill.

The officers for the new school year are for President Avon Sewalt, for Secretary and Treasurer, Verde Mae Fuller and Dorothy Earnest for our Reporter.

The membes of this class express their wishes to be as successful in

high school as they were in grade school.

SEVENTH GRADE CLASS

The seventh graders are going to be different. Besides the usual organization of the class, these students are offering a free show ticket to the person sending in the best name for their class.

The suggestion must be in before 4 o'clock, September 18 and should be addressed to Miss Mabel Waddell. Everyone is eligible to enter this contest.

Marvin Williams is sponsor for our class and the officers are: Cleo Hamilton — President.

**\$24.95**  
and up to  
**\$49.50**

**County Agent's Notes**

Grain should be sown for fall and winter even though lots of feed has been put up. Feed will keep. Save the feed until the pasture has failed. A great many dairy men will have cows come fresh in September. Care should be used in feeding the cows in order to prevent them from having caked udders. If the cows are on good pasture they will not need any feed prior to calving nor for a week after calving. If the pasture is not so good and it is necessary to feed give them a few pounds of ground oats and bran or ground corn and bran. Do not feed any cotton seed meal until cows have been fresh about a week or ten days depending on how the cows are getting along.

On Monday the 9th a community meeting was held at Girard with some fifty farmers present. At this meeting it was decided that a fair

or community show of some kind be organized in the Girard district. A planning committee was appointed as follows: M. A. Darden, D. J. Young, and B. J. Kellett. These men are going into every detail in regard to appointing superintendents for each department, amusements and location. This Committee will meet September 19th and make a report of their plans.

Mr. E. R. Eudaly and Mr. O. G. Tumlinson have advised the county agent that they will be in Kent Co., September 16, for the purpose of assisting in Trench Silo Filling demonstration and Field day. There were some very successful demonstrations conducted in August in some of the counties of this District and Mr. Eudaly reports lots of interest in this kind of work, anyone who has never heard Mr. Eudaly talk on conservation of feed will greatly enjoy his talk for he has spent many years in this line of

work and is well posted on all feeding materials of West Texas. It has been said that Mr. Eudaly's talk alone is worth traveling the entire distance of the County. You will find information in regard to where and just what time of the day this demonstration will be had, at this writing the county agent was unable to give this information.

The County Agent again wishes to ask the Wheat Board of Kent county to contact him at once in regard to a 1936 wheat program in this county. According to information received from headquarters the new 1936 programs will be forwarded to county agents shortly, and if wheat growers of this section are interested an organization of this county must be set up at once.

**FOR SALE: 100 bushels of seed wheat. Free of weeds and Johnson grass. \$1.00 per bushel. See Joe Mathews**

**YOU Will Be DELIGHTED**

This afternoon when your eyes fall on that big circular now on the press that will tell you all about how you may secure a New Plymouth automobile.

**Welding**  
... the best way to make a perfect union of two pieces of metal is by welding them together.

... and the best way to get a more pleasing flavor and a better taste in a cigarette is by welding together the different types of tobacco ...

That is just what we do in making CHESTERFIELD Cigarettes—the three types of mild ripe home-grown tobaccos, that is tobaccos grown in this country, are welded together. Then they are welded with aromatic Turkish.

When these tobaccos are welded together you get a combination which is entirely different from one type of tobacco. It is this welding of the amounts of the right kind of tobaccos that makes CHESTERFIELD a better-tasting cigarette.

Chesterfield... the cigarette that's MILD

**Merchandise of Supreme Quality!**

After the splendid rains, the wonderful sunshine makes us all feel good and happy and hopeful. It won't be long now until the fields will be full of pickers and the gins running day and night. Up on our toes! Let's get going. This store is ready with the largest and best stocks we have carried since the fall of '33. We will feature Supreme quality merchandise at prices that will be fair to our customers.
