## Swing Of Southwest Farm Markets

(USDA) — Southwest farm markets remained steady to strong last week, except for occasional easiness on some types of livestock, poultry, feeds, fruits, and vegetables, according to Production and Marketing Administration, U. S. Department of Agriculture.

Wheat and corn prices continued to climb last week, and closed Thursday 6 to 9 cents higher on corn and four cents on wheat. Barley recorded no changes, and sorghums fluctuated only mildly. Texas red oats came on the market at a cent or two above the dollar mark, and held about steady, closing Thursday at \$1.01 per bushel in car-lots at Fort Worth and Galveston. Wheat closed \$2.91, and white corn \$2.13.

Demand for scarce rice supplies continued active, both from domestic and foreign sources. Rains delayed late planting. Feed demand slackened, as green feeds became plentiful. Millfeeds halted from recent rise. Light offerings for hay found sharply reduced demand. Peanut planting reached its peak in North Texas, under favorable soil and weather conditions. Sizable quantities of fine and 1/2 blood wools sold this week.

Light offerings of spot cotton and demand for only certain qualities held trading to a small volume. Late rallies overcame early-week losses to the extent that Thursday close showed a net gain of 75 cents per bale, at some markets to a loss of \$1.75.

Heavy rains and some hail damaged crops and seriously interfered with harvesting in the Lower Rio Grande Valley early last week. Tomatoes resumed volume movement Wednesday at \$3.50 to \$4 per lug box of green wrapped 6 x 6 and larger sizes. Corn sold a little higher at mostly \$2.25 per bushel sack for white, and \$1.40 to \$1.75 per half bushel for Bantam. Some watermelons and cantaloupes began to ripen. Grapefruit loadings declined rapidly in a weak market. Denver and New Orleans saw fair trading, and poultry held fairly steady at most southwest points this week. Fryers remained firm, but hens and roosters weakened at Denver. Heavy hens brought 24 to 26 cents per pound at Fort Worth, 26 at Dallas, and 26 to 30 at Denver. Fryers sold generally around 32 to 36 cents. Most areas bought eggs at 37 to 38 cents per dozen.

Most cattle remained steady to strong last week, but some classes of cows lost ground, and calves weakened at Oklahoma City. Medium cows brought \$14.50 to \$16 at San Antonio. Medium to good kinds turned at \$14.50 to \$17.50 at Fort Worth, and \$14 to \$17.50 at Oklahoma City. Wichita bought common to medium cows at \$13.50 to \$16, while Denver took most common to good kinds at \$15 to \$18.

Hogs gained mostly 25 to 75 cents a week. Most good and choice hogs sold from \$24 to \$24.75. At Denver paid up to \$25.50. San Antonio bought sows at \$21 to \$22; but other southwest terminals paid only \$18 to \$19.

Sheep and lambs lost 25 cents to \$1.00 at San Antonio, and aged sheep fell 50 cents to \$1.00 at Fort Worth last week. Other southwest sheep and lambs gained mostly 25 cents to \$1.00. Common to medium shorn lambs brought \$11 to \$15 at San Antonio; medium to good kinds \$13.50 to \$15.50 at Ft. Worth; and good and choice \$22.25 at Denver.

Mrs. Sallie Goodrich of Plainview, Texas was visiting friends in Jayton last week.

## Methodist Church Appointments Made For Northwest Texas

Amarillo, June 2. — An overflow congregation heard Bishop Charles C. Seaman deliver the closing sermon of the 38th session of the Northwest Texas Methodist Conference here Sunday. Later in the day the new ministerial appointments were released.

Bishop Seaman told the conference that if the present trend continued, the itinerant system of Methodism would die. He referred to churches demanding certain preachers for their pulpits and to preachers seeking changes because of better salaries.

The conference did not select a 1948 meeting place. A committee to be named by the bishop will make the selection later.

The new appointments for the Stamford District are:

J. H. Crawford, superintendent; Aspermont, Marvin E. Fisher; Avoca, Robert D. Harris; Benjamin, J. P. Patterson; Bomarton, C. R. Copeland; Haskell-Paint Creek, J. E. Harrell; Jayton, J. D. Ramsey; Knox City, J. W. Price; Lueders, to be supplied; Munday, Don R. Davidson; O'Brien, W. J. Knoy; Peacock, to be supplied; Roaring Springs-Afton, C. D. McDonald; Rochester, Walter Driver; Rule, Lloyd Hamilton; Sagerton-Tuxedo, to be supplied; Seymour, E. L. Yeats; Spur, J. B. McReynolds; Spur circuit, M. J. Morton; Stamford, Marshall E. Rhew; Throckmorton, E. N. Scarlett; Vera, Cloy Lyles; Weirert, to be supplied; Westover, to be supplied; Woodson, J. M. Cochran; conference evangelist, W. M. Culwell.

## 23 At Reunion And Birthday Celebration

Mrs. Lena Vickers had as her guests last week end, her children as follows: Mr. and Mrs. Jack Hunter and girls of Holliday, Texas; Mr. and Mrs. Ollie Miller and girls of Monahans, Texas; Mr. and Mrs. Carl Vickers and children and Mr. and Mrs. Hurley Vickers and children of Jayton. Lunch was served to 23 on Saturday.

Saturday afternoon Vera Hunter was entertained with a party on her 7th birthday. Games were played by the children and then the presents were opened. The Birthday Cake was decorated with "Vera" in red across the top and was served with ice cream to all the guests. ## First '47 Wheat For Jayton Area Harvested Monday

L. S. Dennis, of the C. G. Sherrod place east of Jayton, brought in the first of the '47 wheat crop into Jayton, Monday June 2.

The wheat tested 63 pounds, No. 1. The Kimble Elevator in Jayton paid \$2.10 for the season's first grain which averaged 15 bushels to the acre.

## Turkey Outscores Jayton 5 To 4

Turkey's baseball nine grabbed three runs in a big third inning that was enough to nudge Jayton 5 to 4 in a game on the local diamond last Sunday.

Manager Gaston Jackson pitched a fine ball game in spite of defeat, striking out six and allowing only six hits, and was only bothered in the big third when Turkey was able to put together two hits and an error for the first three runs of the game.

The game featured several fast double plays by both clubs, and the Jayton team showed vast improvement on the field in comparison to previous games.

The score was 5 to 1 up to the last half of the ninth in favor of the visitors as Jayton fell short with two out and a man on base, as Turkey's relief pitcher struckout McAteer for the final out.

The schedule this week finds Jayton playing Afton on Saturday. Roaring Springs at Dickens, Croton at Spur. Midway at Turkey.

## SINGING IN SPUR SUNDAY, JUNE 8TH

## Mrs. Lynn Kerley Found Dead Tuesday Morning

Mrs. Lynn Kerley of Girard, Texas was found dead, about 12:00 o'clock noon, Tuesday, by her husband who had come in from the field to lunch.

An inquest was held Tuesday afternoon by Justice of the Peace Tom N. Sanders, County Judge, E. V. Peek and Deputy Sheriff, Ivey F. Murdoch and a verdict of death by a self inflicted wound was given.

Mrs. Kerley left the following note:

"Bye, Lynn I'll never make you happy and always be a worry to you and my folks. Maybe God will forgive me and I'll get some peace of mind. I love you, please remember that. Love, Opal."

It was reported that she had been in very ill health for several months.

## Mrs. C. W. Fincher Buried Tuesday

Mrs. C. W. Fincher, age 57, died Monday morning, June 2, at the family home in Girard, Texas. She had been ill for several weeks.

Funeral services were held Tuesday afternoon at 3:30, Baptist Church at Girard. Rev. A. T. Stokes of Afton, Texas assisted by Rev. R. L. Porter of Girard conducted the services. Songs for the service were: "When They Ring Those Golden Bells for You and Me" by Pearl Murdoch; "Just as I Am" and "On Jordan Stormy Banks" were sung by the choir. Burial was in the Girard cemetery.

Mrs. Fincher was the former Sarah Emily Hunnicutt. She was born in 1890 in Comanche County and moved with her family to Kent County in 1901. She was married to C. W. Fincher in 1907 at Dickens.

Survivors include her husband and nine children, Amos, Warren, Jerald, Don, C. W. Jr. and Gussie Dean all of Girard, Mrs. Bonnie Simpson and Mrs. Wanda Cox of Spur, and Mrs. Evelyn Murdoch of Jayton. Two preceded her in death, one in infancy and Joe who was killed in action in World War II. Two brothers, Joe Hunnicutt of Pampa, Texas and Tom Hunnicutt of Girard, two sisters, Mrs. Taylor Havins of Glen, Texas, Mrs. A. G. Dyer of Girard, and 16 grandchildren.

Palbearers were: Glenn Spradling, Alton Clark, Leva Simpson, Udell Cooper, Wilburn Ripple, Charles Parks, Richard Westfall and Ira Westfall.

KEEP SUGAR MOVING

If you want to help prevent a tough situation that's going to come up in regard to the distribution of sugar in this country, use your No. 11 sugar stamp right away.

Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service says that USDA is urging all homemakers to buy sugar now. The total available supply of sugar is no more than was expected... about 6,800,000 tons for the entire country.

But the distribution problem is something else again. The large wheat crop that's coming up is expected to make a really tough transportation problem, and in another month or so, there won't be enough box cars to carry wheat and sugar both.

Due to this situation, your No. 12 sugar stamp is going to be made good in advance, you'll be able to buy sugar on Stamp No. 12 on June 1... rather than July 1 as originally planned. Now both these stamps... 11 and 12... will be good until October 31... and if you plan to do any canning, save sugar from these stamps. No special canning-sugar stamps are going to be issued.

The way it looks now, many homemakers are postponing the use of their stamps. This is likely to create an unhealthy situation... make a temporary surplus in the hands of distributors. With the big wheat crop ahead, and if we all wait until the last minute to cash our sugar stamps, we're likely to find local sugar shortages.

Mr. and Mrs. Carl Jones and children of Pampa, Texas are visiting relatives in Jayton this week.

Mr. and Mrs. W. D. Vencil and boys and Linda Carol Barnett attended the Stamford High School Graduation exercises Monday where Jimmie Cox received his diploma.

Mr. and Mrs. M. V. Jay and Don and Mrs. Check Jay attended Texas Tech Graduation Exercises at Lubbock, Texas Monday where James Wallace Jay received his degree.

Mrs. Gaston Jackson will attend Texas Tech at Lubbock, Texas this summer.

## Sidelights From Washington

—by George Mahon

Previously I reported that the Republican majority in the House of Representatives would seek to reduce sharply the requests of the President for agriculture. Last week the Agricultural Appropriation Bill passed the House in a form that was very unsatisfactory to many members from farm areas. I voted against reporting the bill out of the Appropriations Committee and I spoke and voted for many amendments offered to the bill.

Briefly, here is what the bill does. 1. Cuts AAA soil conservation payments from \$333,000,000 to \$164,000,000. Farmers will have every reason to feel that this is a breach of faith by the government as Congress and the President had in effect months ago promised to provide the full amount of \$300,000,000 for the 1947 crop year.

2. The bill provides that the Farmers Home Administration, successor to the FSA, must discontinue the farm ownership program known as the Farm Tenant Purchase Program. FHA loan funds for crop production are cut by one-third.

3. REA funds for administration of the program were cut by \$1,600,000 and loan authorizations for REA coops were reduced by \$25,000,000.

4. Funds for the Soil Conservation Service to be used in connection with the conservation districts and otherwise, were cut by 10 per cent.

5. Funds for the school lunch program were reduced from \$75,000,000 to \$45,000,000.

6. In previous years 30 per cent of the tariff receipts have been available for supporting farm prices and disposing of agricultural surpluses. The bill reduces this program by two-thirds.

The votes in the House of Representatives on most of the above issues were very close. On a motion by the Democrats to restore the full \$250,000,000 for soil conservation payments and some of the other items, we lost by a count of 174 to 180.

What the Senate will now do with the bill remains to be seen. Undoubtedly some changes will be made by the Senate and House before the measure goes to the President for final approval late in June. The outcome of the controversy over this legislation is of vital importance to all farm areas.

DAIRY CHECK-UP

College Station. — Five check points that are important to Texas dairy farmers right now are listed by the Extension dairy husbandman of Texas A. and M. College.

The dairy husbandmen believe a check-up on the following items will help boost production:

1. Water supply—cows need more water this time of year. They will drink more if the water is clean, cool and conveniently located.

2. Sour milk—always a problem in the late spring and early summer months. Souring can be stopped by producing clean milk and cooling it to 55 degrees Fahrenheit within two hours after milking.

3. Horn flies—pest that occupy a cow's time when she should be producing milk. Horn flies can be controlled by spraying back, sides, legs with one pound of 50 percent wettable DDT powder in 25 gallons of water.

4. Good, green grass—a cheap feed that always brings a rise in milk production and cuts out many herd health problems. Dairymen can make green feed last longer by mowing weeds and alternating grazing.

5. Kind treatment—a necessity in management of dairy cows, now and throughout the year. Rough treatment and high production are seldom found together on a dairy farm.

Mrs. B. C. Cairns of Clairemont, Texas was visiting in Jayton Monday.

Red Teague of Clairemont, Texas had business in Jayton Monday.

Bess Porter of Lubbock, Texas spent last week end in Jayton with relatives.

College students home for the summer are: Rhoda Lou Kelley of McMurry, Roy Engledow of John Tarleton, Bracie Dell Lafoon, Billie Dave Hancock, Doris Brantner, and John H. Montgomery of Texas Tech; and Billy Bolch of Hardin Simmons.

## Sidelights From Washington

—by George Mahon

Previously I reported that the Republican majority in the House of Representatives would seek to reduce sharply the requests of the President for agriculture. Last week the Agricultural Appropriation Bill passed the House in a form that was very unsatisfactory to many members from farm areas. I voted against reporting the bill out of the Appropriations Committee and spoke and voted for many amendments offered to the bill.

Briefly, here is what the bill does. 1. Cuts AAA soil conservation payments from \$333,000,000 to \$164,000,000. Farmers will have every reason to feel that this is a breach of faith by the government as Congress and the President had in effect months ago promised to provide the full amount of \$300,000,000 for the 1947 crop year.

2. The bill provides that the Farmers Home Administration, successor to the FSA, must discontinue the farm ownership program known as the Farm Tenant Purchase Program. FHA loan funds for crop production are cut by one-third.

3. REA funds for administration of the program were cut by \$1,600,000 and loan authorizations for REA coops were reduced by \$25,000,000.

4. Funds for the Soil Conservation Service to be used in connection with the conservation districts and otherwise, were cut by 10 per cent.

5. Funds for the school lunch program were reduced from \$75,000,000 to \$45,000,000.

6. In previous years 30 per cent of the tariff receipts have been available for supporting farm prices and disposing of agricultural surpluses. The bill reduces this program by two-thirds.

The votes in the House of Representatives on most of the above issues were very close. On a motion by the Democrats to restore the full \$250,000,000 for soil conservation payments and some of the other items, we lost by a count of 174 to 180.

What the Senate will now do with the bill remains to be seen. Undoubtedly some changes will be made by the Senate and House before the measure goes to the President for final approval late in June. The outcome of the controversy over this legislation is of vital importance to all farm areas.

KEEP SUGAR MOVING

If you want to help prevent a tough situation that's going to come up in regard to the distribution of sugar in this country, use your No. 11 sugar stamp right away.

Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service says that USDA is urging all homemakers to buy sugar now. The total available supply of sugar is no more than was expected... about 6,800,000 tons for the entire country...

but the distribution problem is something else again. The large wheat crop that's coming up is expected to make a really tough transportation problem, and in another month or so, there won't be enough box cars to carry wheat and sugar both.

Due to this situation, your No. 12 sugar stamp is going to be made good in advance, you'll be able to buy sugar on Stamp No. 12 on June 1... rather than July 1 as originally planned. Now both these stamps... 11 and 12... will be good until October 31... and if you plan to do any canning, save sugar from these stamps. No special canning-sugar stamps are going to be issued.

The way it looks now, many homemakers are postponing the use of their stamps. This is likely to create an unhealthy situation... make a temporary surplus in the hands of distributors. With the big wheat crop ahead, and if we wait until the last minute to cash our sugar stamps, we're likely to find local sugar shortages.

Mr. and Mrs. Carl Jones and children of Pampa, Texas are visiting relatives in Jayton this week.

Mr. and Mrs. W. D. Vencil and boys and Linda Carol Barnett attended the Stamford High School Graduation exercises Monday where Jimmie Cox received his diploma.

Mr. and Mrs. M. V. Jay and Don and Mrs. Check Jay attended Texas Tech Graduation Exercises at Lubbock, Texas Monday where James Wallace Jay received his degree.

Mrs. Gaston Jackson will attend Texas Tech at Lubbock, Texas this summer.

## News From The County Agents' Office

Hoppers Hatching

Farmers of the state are being urged by Texas A. and M. Extension Service to start control measures against millions of grass hoppers now hatching.

Poisoning bait put out now can prevent lots of damage to row crops. In some sections, grasshoppers were bad last year and hatches this spring point to another big year for insects.

An early start on control of grass hoppers is being encouraged because young insects are easy to kill and as they bunch together now very little bait will be needed to kill and as they are around the edges of the field there will not be too much damage to row crops.

We have poison bait material available, and if you need it come by the County Agent's office and make arrangements for it.

Poultry Notes

The USDA announces support prices program for June at 35c per dozen at the farm and 37c at the processing plants.

Distribution of Sears Gifts

Eight registered gilts and one registered boar pig have been distributed to winners of the Sears Gilt Essay Contest. The distribution of the gilts and the boar were made Saturday May 31st.

Pastures Back Into Use

Abandoned fields are being brought back into use this year by Fisher County Farmers, who are seeding the depleted soils to pasture grasses and clovers.

Fisher County Agricultural Agent L. E. Turbeville reports that he has been called on repeatedly for help in putting old fields back into production.

J. C. Simpson, Fisher County farmer has made five acres of abandoned land pay him dividends again by clearing off mesquite growth and planting weeping love grass, madrid clover and blue panic grass. Tom Parker, another Fisher County farmer revived nine and one half acres with buffalo, blue grama and blue panic grasses. Mrs. Faye Young Morton, ranch owner, brought six acres back to life with the weeping love and blue panic grasses.

County Agent Turbeville says that there is a drive underway in the county to put all land to some good use. Most of the new acreage that has been planted to the grasses and clovers will be harvested for seed, so that more extensive pasture seeding can be done next year.

DAIRY CHECK-UP

College Station. — Five check points that are important to Texas dairy farmers right now are listed by the Extension dairy husbandman of Texas A. and M. College.

The dairy husbandmen believe a check-up on the following items will help boost production:

1. Water supply—cows need more water this time of year. They will drink more if the water is clean, cool and conveniently located.

2. Sour milk—always a problem in the late spring and early summer months. Souring can be stopped by producing clean milk and cooling it to 55 degrees Fahrenheit within two hours after milking.

3. Horn flies—pest that occupy a cow's time when she should be producing milk. Horn flies can be controlled by spraying back, sides, legs with one pound of 50 percent wettable DDT powder in 25 gallons of water.

4. Good, green grass—a cheap feed that always brings a rise in milk production and cuts out many herd health problems. Dairymen can make green feed last longer by mowing weeds and alternating grazing.

5. Kind treatment—a necessity in management of dairy cows, now and throughout the year. Rough treatment and high production are seldom found together on a dairy farm.

Mrs. B. C. Cairns of Clairemont, Texas was visiting in Jayton Monday.

Red Teague of Clairemont, Texas had business in Jayton Monday.

Bess Porter of Lubbock, Texas spent last week end in Jayton with relatives.

College students home for the summer are: Rhoda Lou Kelley of McMurry, Roy Engledow of John Tarleton, Bracie Dell Lafon, Billie Dave Hancock, Doris Brantner, and John H. Montgomery of Texas Tech; and Billy Bolch of Hardin Simmons.

### Bright Monday

Monday dawned with inexpressible beauty. There were a few clouds, but they were not ominous. The southerly breeze had a soothing freshness and seemed to settle in the trees with a whisper. By trolley and car the crowd went to work as usual, perhaps with a little reluctant after a brief respite but with an air of contentment on a new June day.

Suddenly, in the heart of the downtown district, an incident enriched the scene. A blind, partially crippled gentleman paused on a curb before making his way across the street. Out of the mass came a helper. He could not have been twelve years old—barefoot, freckled, the inevitable patch on his jeans, a cap that had seen a better day. Gently he escorted the man across. The job done, he removed his cap in kind respect and disappeared into the mass.

That is a beautiful thing about life. In every individual, nondescript or notorious, there are goodness and a spark of the sublime that ignites when most needed. No one knows where they will be manifested or in what form. "I have observed,"

said Plato, "that nobility of character will arise to meet the occasion." That boy will make it some day. The nobility in him will triumph. When we hear so much of a life that is degenerative and a people that are indifferent we seldom realize that goodness is everywhere in its myriad forms to meet the emergencies. For every boy who is a delinquent there are countless others who, in their quiet humility, arise in goodness to make a bright Monday that will linger in memory. —The Dallas Morning News.

Some cynic said he'd rather know less than to know so many things that aren't so.

I spent 12 years in school learning things and a good deal of the time since un-learning them. I was taught that the way to pronounce Nevada was "Ne-vah-duh"; Colorado, "Col-o-rah-duh" and "Hel-e-an-uh" for Helena, Montana. But talking to folks who come from those places, I find they are called "Ne-vad-uh," "Col-o-ray-do" and "Hel-e-nuh", respectively.

Probably smallest daily in the state is the Cameron Daily Herald of which J. B. White is editor. The

pages are the size of a sheet of typewriter paper, but the daily is newsy and well patronized by advertisers. . . August 8 will mark the 25th anniversary of the discovery of the great Luling oil field by Edgar B. Davis.

A bill introduced in the legislature proposes to claim the Gulf of Mexico as part of Texas for 65 miles out from shore. This is all right but it doesn't go far enough. Why be a piker? Let's annex the entire gulf, renaming it the Gulf of Texas of course—and then let Alaska come in as a state if she wants to—Texas will still be the biggest.

**SHERIFF'S SALE**

Whereas, it appears of record as shown by a deed from the Sheriff of Kent County, Texas, to the State of Texas, recorded in Volume 33, page 254, of the Deed Records of Kent County, Texas, that on the 7th day of November, 1929, the Sheriff of Kent County, Texas did convey to the State of Texas the land hereinafter described by virtue of an order of sale issued by the Clerk of the District Court of Kent County, Texas, on a certain judgement rendered in said Court in favor of the State of Texas against Unknown Owners, numbered on the docket of said Court No. 2304, for the sum of \$40.78, the same being for taxes, penalty, interest and costs due on said land; and,

Whereas, it appeared to me as Sheriff of Kent County, Texas, that more than two years have elapsed since the date said land was sold to the State of Texas as aforesaid, and that same has not been redeemed;

Notice is hereby given that by virtue of the authority vested in me by law, I will, on Tuesday, the 1st day of July, A. D. 1947, proceed to sell, at the principal entrance to the courthouse of Kent County, Texas, in the town of Clairmont, Texas, between the hours of two and four P. M., at public vendue, for cash, to the highest bidder, the following described real estate:

All of Lots Nos. 1, 3, 5, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, and 22, in Block No. Fourty-one in the original townsite of Clairmont, Kent County, Texas, according to the official dedication map or plat of said townsite.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks preceding said day of sale.

Witness my hand, this 2nd day of June, A. D. 1947.

H. J. Whatley  
Sheriff, Kent County, Texas.
