## \$175,000.00 Bond Election Called For Sept. 22nd For Library, Community Building And Parks

Kent County voters will go to the polls on Sept. 22nd to approve or disapprove a \$175,000.00 bond issue, as a result of orders passed by the County Commissioners Court Thursday of last week, and Monday of this week.

Outlined in the issue, are the proposals to spend the money on the following projects:

1. Build a community center and library.
2. Build a playground for children at the site of the old credit lake.
3. Improve the County park, with water and rest room facilities.
4. Improve the golf course for the major purposes of serving the high school students who want to play golf.

The motion to pass this order by Commissioner Dickerson and seconded by Hamilton, Court minutes show. The order passed by a full vote. Also the order called for the employment of Elmer V. East, a Lubbock attorney to handle the legal proceedings.

In petition signed by a large

number of Kent County residents, the following pleadings were made: "We, the undersigned qualified voters of Kent County, hereby petition the Honorable Commissioners Court of said County to call an election, to either approve or disapprove a bond issue in the amount of \$175,000.00 said bond to be paid off in the period of four years, without an increase in taxes, to accomplish the aims stated below."

In other actions by the court, Mrs. James E. Luna was appointed election judge in Precinct No. 4, the replace Mrs. K. P. Brantner who had resigned. This was on motion by W. C. Dibrell seconded by Elwood Byrd.

On motion by Byrd, seconded by Dibrell, all the current bills were paid.

On motion by Hamilton, seconded by Dickerson, the county commodity program was approved.

On motion by Dibrell, seconded by Byrd, the Court requested the amount of \$11,964.48 from the State Highway Department to be used to pay salaries and to repair and improve the county lateral roads.

### GETS DEGREE AT SUL ROSS COLLEGE

Granville Smith, son of Mr. and Mrs. Louis C. Smith of Jayton graduated Aug. 14 from Sul Ross College with a Bachelor of Science degree. He is teaching this year at Waco High School, and a former football and basketball player with the Jaybirds.

## The Heart Of Jayton Placed In Prec. No. 3 For Voting Purposes

The Kent County Commissioners Court, in a recent meeting took a slice right out of the heart of the city of Jayton, from Prec. 1 and Prec. 4 and put it in Prec. 3, in an effort to balance up the precincts, vote-wise.

Minutes of the order had not reached the office of the County Clerk Tuesday morning. Hartense North said Judge Gallagher, and County Attorney Freemeyer were working on the order, to get down the metes and bounds of the new precincts. Both of them were out of office at the time the editor of the Chronicle was there.

But, unofficially, according to one of the Commissioners, here is the way the new precinct bounds will be.

FM road 1083 that comes into town, and ends at the Court House. A line at this road, running on east to the city limits will form the south line of this area in Prec. 3. The street running east and west, and just south of the school house will form the north line of Prec. No. 3. Except where this street jogs at the Bill Daniel place, the line will not jog, but will put all the people facing this street on the north, also in Prec. 3, and this line will run east to the City Limits.

This area will get about 100 votes out of Prec. 4 and about 30 out of Prec. 1 it was estimated.

The FM road No. 1083 itself, running around to U. S.

380 near the River bridge will be in Prec. 3 to connect it to the rest of the Precinct. On either side of this road will be in No. 1 and No. 4 as in the past. One other change will put Bobby Byrd in Prec. 3. He is the only person outside the city limits of Jayton who has been moved, a member of the court said.

When the minutes of the meeting passing this order are available, we will carry the details of it in the paper.

### HONORED WITH SHOWER

Mr. and Mrs. Robert Hobson were honored with a shower last Tuesday in the home of Mrs. Elbert Walker.

The Jayton Chronicle \$3.00 Per Year

## Football Scrimmage At School Tonight

### This Week In Jayton

Coach Jerry English told a representative of the Chronicle Monday, he is now in the process of getting acquainted with the football boys, and trying to determine the possibilities.

Of the 32 boys who have reported for pre-school workouts, he says there are ten or eleven good boys, but he is afraid the depth will be very thin. Also, he says there is the lack of speed.

The team will have an intersquad scrimmage tonight at 8. Next Thursday night they will scrimmage Turkey at 7:30.

Also on Thursday at 5, Ira and Benjamin will scrimmage here. They are six man teams.

Coach English says after these two scrimmages he will know more about the strength and weaknesses of the squad. He expects Roby to be the strong team among the competition.

The Coach, says he will run from the Wing T formation the same as Stamford has been using now for 17 years. He says the team has good size, and throws fairly well.

## High School Enrollment Sets Long Time Record

Principal Ralph Newton reports a round 100 enrollment in high school. This is the first time enrollment has reached 100 in more than twenty years, the records show.

This, broken down, is 26 seniors, 20 juniors, 22 sophomores and 32 freshmen. In junior high there are 21 8th graders and 27 7th graders.

In elementary school, or the first six grades there are 153 pupils.

Broken down by grades, kindergarten 21, first 17, second 23, third 18, fourth 14 and 15 for a total of 29, fifth 23 and sixth 24, according to principal Bill McMeans.

## Smith Reunion Set

The family of W. L. Smith will hold a reunion Sunday, Aug. 30th at the reunion grounds in Clairemont.

All friends of the family are invited and welcome to attend.

### JAYTON GIRL GETS BACHELOR DEGREE AT TEXAS TECH

More than 1,000 students have applied for degrees at Texas Tech University's summer commencement exercises August 22.

Dr. Grover E. Murray, Tech president, delivered the principal address at the 7:15 p. m. exercises in Lubbock Municipal Auditorium.

Anita Fern Pierce of Jayton received a Bachelor's Degree in Arts and Sciences.

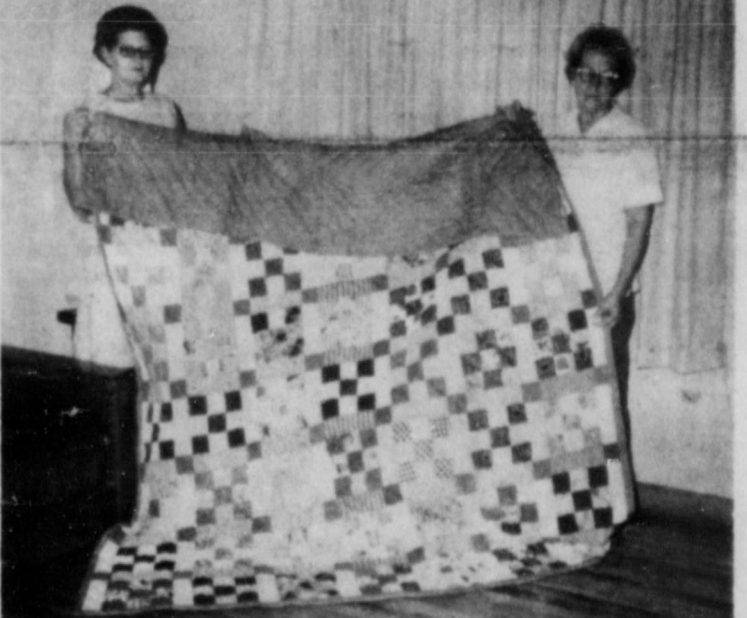

## ASC Election Ballots To Be Mailed Soon

On September 1, ASC community committee election ballots will be mailed to all known eligible farm voters, according to W. E. Walker, Chairman of the Kent County Agricultural Stabilization and Conservation Committee.

Farm voters may vote for up to three of the candidates listed, or they may write in their choices on lines provided at the bottom of the ballots. To be counted, all ballots must be properly signed and mailed or returned to the County ASCS Office by September 11. Votes will be tabulated September 15, Kent County, ASCS Office, Jayton.

In each of the three ASCS communities in the county, three community committee members and two alternates will be elected. The candidate receiving the largest number of votes becomes chairman; the second largest vote-getter, vice-chairman; third highest, regular member; fourth and fifth highest become first and second alternates who may serve on the committee if regular members are temporarily absent or if a permanent vacancy occurs.

## H.D. Club Quilt

This quilt will be given away September 19th at the Kent-Dickens County Fair to be held in Girard.

Mrs. Alton Clark and Mrs. Hugh Turner are shown holding the quilt made by Kent County Home Demonstration Clubs.

One of the best cartoons I have seen lately shows Vice President Agnew reading the headlines where Nixon said that Manson was guilty. Then Agnew scratches his head, and says, "I should have said that."

Another interesting item in the news, Jill Blalberg, daughter of the now dead, famous heart transplant recipient, turns thumbs down on the whole process.

She said the new heart made a complete change in the life and personality of her father. She explained that the life of the famous doctor was "A living hell after the transplant."

The heart is supposed to be the emotional center of the human being. Wonder, really, would the transplanted heart change the love and emotions of the individual? This is something the doctors and scientists can discuss for some time.

Segregation and Integration, like everything else, affect the poor more than the rich.

Monday I was talking to a business associate in Lubbock about the new court order, changing the boundaries of the Lubbock schools. He was telling me how some of the people in Lubbock, who can financially afford it, are keeping their children in Lubbock High, rather than moving them to Dunbar or Estacado High, which are predominantly classed with black students.

Monday I was talking to a business associate in Lubbock about the new court order, changing the boundaries of the Lubbock schools. He was telling me how some of the people in Lubbock, who can financially afford it, are keeping their children in Lubbock High, rather than moving them to Dunbar or Estacado High, which are predominantly classed with black students.

## Livestock Feeding Program Meeting Set

A meeting on livestock feeding and rations, will be held on Wednesday afternoon, September 9, at 4:30 in the county courtroom. U. D. Thompson, Extension Service Animal Husbandman, will discuss feeding requirements, feeding for shows, and producing a desirable carcass.

This will be of interest to 4-H Club beef feeders and local people who produce and feed calves for their frozen locker.

## At Home After Wedding

Mr. and Mrs. Robert Hobson are at home at Spur, where he is employed by the Texas Highway Department.

They were married at Jayton Assembly of God Church, with Rev. Alvin Stewart performing the ceremony. The bride is the former Sharon Kay Murdoch, daughter of Mr. and Mrs. Woodrow Murdoch.

Mr. Murdoch presented his daughter in marriage. Her attendants were her sister, Kay Driver, of Midland, who was maid of honor; Martha Tyler of Tahoka, who was her bridesmaid.

Their street length gowns were mint green, overlaid with lace. Their head pieces were made from white carnations and net.

Tonja Driver was flower girl. Her dress was mint green satin with lace; and she carried a white basket with white pom mums.

## NEW MEMBERS OF THE JAYTON SCHOOL FACULTY

New members of the Jayton school faculty this year are: Jerry English, head coach and athletic director. Kenny Judy, girls coach, assistant football coach and social studies. Margie Shackelford, business Eugene Harris, Spanish and English. Rick Smith, music and band; Carlene English, fourth grade. Vertie Arney, fourth grade.

### VISITING THE BRANCH'S

Mr. and Mrs. Ben Oliver and children of Amarillo have been visiting Mr. and Mrs. George Branch for a few days.

## BUY IT IN JAYTON

at 7:00 P.M. announced T. O. Upshaw, Area Missionary.

The meeting is open to all Fisher, Jones and Stonewall-Kent Associational Officers and Pastors.

### BAPTIST WORK SHOP IS SET

September 3 has been the date set for the Fisher, Jones and Stonewall-Kent Baptist Associational Workshop. The meeting will be held at Cross Roads Baptist Church, Rotan.

## Student Council Recommends Dress Code For Jayton

With Kim Nichols, president presiding, the Student Council met Aug 19 to discuss projects, and the dress code for 1970-71.

Points of discussion were as follows:

The cost of the dinner which the Student Council bought for the teacher's meeting Aug. 18, 1970.

Passed by the Student Council to be presented for the dress code were:

Boys hair must be neat. shirt tails must be worn inside unless designed to be worn on the outside. Boys must wear socks.

Girls pants suits can be worn all week, and casual pants on Friday. No shorts worn in public places on bus trips, but can be worn on bus. No

shooter skirts allowed at all. Suggestions for a project were discussed. Suggestions of building a fountain were discussed and tabled for a later date.

Lajuana Hamilton moved that the Student Council take a survey of the ten best liked meals served in the lunch room. Dana Hahn seconded the motion. Survey will consist of two committees: John Davis, Dana Hahn, Tommy Parker on the committee to make a list of the meals--Lajuana Hamilton, Pam Kelley, and David Fincher is on the committee to make the survey forms.

The Student Council looks forward to a good year.

## Band Elects Officers

Band officers were elected August 20th for the 1970-71 school term. Their duties are as following:

President-Mike Rice  
Vice President-Keith Cave  
Historian-Brenda Wilson  
Librarian-Pam Kelly  
Sec. and Reporter-June Brewer

Uniform girl-Jonnie Johnson  
Bus Captains-Allen Kelly Jr. High  
John Davis-High School  
Dog Catcher-Billy Johnson

Thanks to the school, we are proud to have Mr. Smith as our new band director.

signature most do so before a witness and obtain the signature of the witness in order for the ballot to be counted.

A list of known eligible voters is open for inspection at the County ASCS Office. Any person who believes he is an eligible voter but who is not listed should get in touch with the County ASCS Office as soon as possible. Elbert said.

He also said that any voter who has not received a ballot in the mail within a few days after September 1 should call the County ASCS Office to arrange to receive a duplicate ballot if necessary.

### THANK-YOU

We would like to thank the Kent County Roping Club for honoring us with the pretty plaque last Saturday night. Mr. and Mrs. Sam Johnson

## Girard Potshots

Would like to invite all you folks out there to attend Church at the Girard Baptist Church next Sunday Aug. 30th. Coming to preach for us at both the morning and evening service is Wayne Brown, a Hardin-Simmons student preacher who has been preaching only a few months. He is 21 and his wife also 21 will be with him. Would like to see a house full of folks on the 30th and give this young man a boost in his ministry. Since the Girard Church doesn't have a pastor--you may want to call this young preacher as pastor. Anyway, milk the cows and slop the hogs and come on to Church.

The George Dardens attended funeral services last Wednesday in the Chapel of the First Baptist Church of Hamlin for Tom Akins 87. Mr. Akins died in a nursing home in Hamlin. Burial was in O'Donnel cemetery.

The president vetoed a 4.4 billion dollar education bill and the veto won't be happy with the senators since this modern day Education seems to boil down to the fact that "Long Hairs and Whiskers" who conduct riots on campus and tell the college presidents and their teachers how a school should be run--yet some of the so called smart ones can't hardly read and write. There may be a "Tax Payers Backlash" one of these days due to unnecessary money spent on an Education that teach kids to bite the hand that feed em'.

Ollie Bural was trucking cattle to the live stock auction in Lubbock last Thursday. Folks in this neck of the woods will be sending a lot of cattle to the salesring if it continues to be dry weather.

M. A. Darden 93 was admitted to the Aspermont hospital in Aspermont last Tuesday, he remains in hospital at this writing.

Mrs. Henry Stiles has returned to her home after two weeks in the hospital in Aspermont.

Thanks to Willie B. Freeman of Lubbock for a years subscription for the Jayton

Chronicle and to B. J. Whitener of Cotati, Calif. for one year subscription for the Texas Spur.

Mrs. Lela May Williams from Amarillo has been visiting her parents the Henry Stiles for past couple of weeks.

Aunt Mollie Fuqua has returned to her home after several weeks in New Mexico where she visited son and family.

Leo Turner of Hobbs, N. M. visited his parents the Hugh Turners last Wednesday night Leo is employed with Mid-Atlantic Pipe Line Company in the "Land of Enchantment".

Mrs. Walter Driggers left for Hamlin last Thursday after a phone call informing her brother Jesse Hagins who had suffered a stroke at his home in Hamlin.

School began in Jayton last Thursday and of course the Mame's and Papas' were on hand to see that "Johnnie" or Susie didn't cry to much on the first day of school. For many kiddies it was the first day.

A few folks still remember when Mr. and Mrs. R. S. Woody owned and operated a Grocery store and in connection had the Post Office in the store--and that was back in 1910. And S. R. Thomas had a general Mercantile across the street from the Woody Grocery, and in 1911 M. A. Darden bought out the Thomas Mercantile, that sold everything from shoestrings to caskets, including plows, wagons, buggies, groceries and dry goods. Ranchers in those days would send their wagons out of the croton breaks with six mules hitched to the wagon to buy supplies, groceries and etc. to last a spell. It was fun to see kids to watch the cow hands load their wagons and with a six mule team head back to the Ranch deep in the cedar breaks of Kent county. Folks didn't have too much money in those days but folks didn't need much money. There was plenty good beef to eat and plenty good horses to ride. Doctors were as scarce as "hens teeth" and castor oil

I well remember was the main medicine, and when a kid cut his foot on a fruit jar the Papas and Mamas would hit out for Wodjys store to get a bottle of "new skin" and pour on the wound or put your foot in kerosine (coal oil) and pretty soon you were as good as new.

Kent County was pretty law-abiding in those days, however now and then a cow poke would get the wrong brand on the right yearling and some times there would be a "shoot out" and the next day long lines of wagons and buggies would head for the Cemetery. That was Kent County in 1910.

Mr. and Mrs. Floyd Willis were shopping in Spur last Friday morning--and Floyd gave me a check for the Jayton Chronicle for another year. Thanks.

Mr. and Mrs. Tom Hunnicut spent a big part of last week in the home of their daughter and family the Dewey Tuckers in Idalou.

Mr. and Mrs. Tom Wilson returned from a vacation trip to Houston and the Gulf Coast, they visited the Pete Shersers in La Marque near Galveston in addition to a visit with daughters and families in the Houston area.

The Beggs Ranch experienced a big grass fire last week, the fire seem to have caught in a Canyon and several fire fighters from this vicinity rushed down to help out.

A lot of thunder and quite a display of electrical storms played over the old home town a couple of nights last week but through Saturday we have had little moisture. Just one little shower.

Folks are wondering why the work stoppage on the road side park at "Put Off Canyon" highway 70 between Girard and Jayton? The Marker pertaining to the history of the Canyon I spose is still in the Court House basement and some concrete has been poured at the site and we hope the project hasn't been forgotten.

Did you know that Judge Roy Bean, "Law West of the Pecos" died March 19th 1903 at the age of 78? At Langtry, Tex.

A good looking Bird Dog has taken up room and Board at Mrs. Fred McGaha's home west of town, and she would like for the owner to get him.

Mrs. Mamie Willis from Seminole, Mr. and Mrs. Edward Stanley of Conn and four children, Mrs. Iva Willis and Cliff, Mr. and Mrs. Elmer Roy Marlow of McAdoo were visitors last week in the George Willis home.

## Fish In Need Of Oxygen Will Die

when Kent County tank owners should be on the alert for summer die-off of fish.

Oxygen depletion, die to the dying and rapid decaying of water weeds and other organic substances when the weather is hot and still, usually is the cause of fish die-off, reminds County Agent Geeslin.

All animal life in the pond uses oxygen 24 hours a day. Oxygen, he adds, is replaced by surface absorption from air and by release from micro-

scopic plants only during the hours of sunlight. Therefore, it is lowest in ponds at day-break. If the supply is dangerously low, fish will surface and gasp for air in the early morning.

To relieve the oxygen shortage, the county agent suggests broadcasting from 50 to 100 pounds of superphosphate per surface acre over the pond. This buffers toxic effects of carbon dioxide and ammonia and stimulates microscopic plants to produce more oxygen. If treated soon after fish show distress, the situation is usually relieved in short order.

Using outboard motors to stir up the water and replenish the oxygen supply is often used for small ponds. If a pump is available, water can be pumped from the pond bottom and sprayed on the surface.

IT NEVER FAILS

Suffocation from the lack of oxygen is not the only cause of fish die-off, advises the county agent. Careless use of insecticides when spraying crops or livestock can also cause fish to die. This situation should be considered before chemicals are used in the farm pond or lake.

### VISITING IN CALIF.

Mr. and Mrs. Elbert Walker left Wednesday to spend a few days in California with her mother.

### WEDDING SHOWER

Mr. and Mrs. Mark Montgomery were honored with a shower Saturday evening in the home of Mrs. Bearl Murdoch.

### SPENDS DAY IN HOME

Mrs. Ray Smith spent the day with Mrs. Lowrance Tuesday at Rotan.

## Attend The Church of Your Choice

### It's Such a Big World

Some folks say that as we grow older the world grows smaller. Is that because of the wonders of modern communication and transportation? Or is it because when some folks grow older they become preoccupied with their own little orbit of life?

Junior certainly enters life completely preoccupied with himself. But once he begins to walk and talk--goah how his world balloons!

That's why he needs the religious training our churches provide. His faith must keep pace with his burgeoning world.

And as grown-ups, in worship and Christian devotion, we need likewise the spiritual gifts our churches offer. For it really is a big world. Full of challenges, opportunities, and promising tomorrows. It always looks that way to a growing soul.

EDITOR'S NOTE: We would like to ask someone from each church to please keep us informed about your calendar of activities. And keep your church listing up to date.

# Welcome Issued To Kent - Dickens Fair

The Kent-Dickens County fair will be held in Girard on September 17-18-19. We would like to invite your organization to prepare an exhibit, representing your activities for the Educational Commission. Please contact one of us if additional information is needed. Contact: Joe League, Kent-Dickens County, Phone 7-3932; Floy Barnett, Kent-Dickens County, Phone 2-3183.

## EDUCATIONAL EXHIBITS

Supervisor: Mrs. Joe League

Each exhibit must be complete prior to 3:00 P.M. Thursday, September 17th. Exhibits complete will not be eligible for judging.

Each booth will be 4 feet by 8 feet maximum.

The exhibits must be completely educational. The exhibit should teach a lesson in one of the following areas: (a) principles of money management, how to make a budget, a good breakfast to start the day right, or how to recognize a good wash and wear product, etc. The exhibit may (a) promote an idea (b) Give information (c) teach how to do something or (d) show a quality product for the purpose of raising standards.

Exhibitors shall be organized groups unless otherwise approved and exhibits will be judged as a whole.

Exhibitors must furnish their own labor and materials for setting up exhibits.

The Fair Association will not be responsible for any damage to these exhibits. Exhibitors should take necessary steps to prevent damage or loss to their exhibit.

Exhibitors may mark displays indicating whether or not they want them judged.

## What They Wore... by PHYLLIS JOYCE

### THE BIRTH OF FASHION

PRIOR TO THE YEAR 1350, WOMEN DID NOT DRESS TO PLAY UP THEIR FEMININITY. THEN ALL AT ONCE, IN THE FRENCH COURT, THE THREE MOST POWERFUL ELEMENTS OF FEMALE FASHION WERE INVENTED TOGETHER.

FIRST WAS FORM FITTING GARMENTS, WHICH CALLED ATTENTION TO A WOMAN'S SHAPE THAT HAD BEEN VOLUMINOUSLY DRAPED FOR CENTURIES.

DECOLLETAGE WAS AN EVEN MORE OBVIOUS WAY OF GETTING WOMEN APART FROM MEN.

HEAD-DRESSES DREW ATTENTION TO HER FACE. IN SHORT, EVERY EFFORT WAS MADE TO MAKE A WOMAN LOOK MORE FEMININE.

TODAY... WHEN BUYING WOMEN'S OR CHILDREN'S APPAREL LOOK FOR THIS LABEL - THE SYMBOL OF DECENTY, FAIR LABOR STANDARDS AND THE AMERICAN WAY OF LIFE.

## HOW TO GUARD AGAINST PYORRHEA

Beyond the age of 35, the average American loses over twice as many teeth to gum disease as to decay. To this jolting statistic of the American Dental Association, the World Health Organization adds that in the United States, "almost the entire adult population" is affected in some degree by periodontal (gum) disease—commonly called "pyorrhea."

One of the insidious things about such disorders is that they are seldom painful in the early stages and are therefore easily overlooked or neglected.

The first hint of pyorrhea is usually inflamed or bleeding gums. Later, the teeth may become loose in their sockets, making normal chewing almost impossible. Finally, even without any defect in the teeth themselves, they may fall out one by one.

The causes of periodontal disease are complicated and not fully understood even today. Most recently, research workers have discovered that certain types of gum disease can be transmitted from one hamster to another. This suggests that pyorrhea may be spread by an external micro-organism—possibly through contaminated silverware or dishes.

One sensible precaution is to guard your family against germs the way any safe restaurant protects its patrons: by washing dishes (preferably in an automatic machine) in very hot water spiked with a high-phosphate detergent. A high concentration of phosphate is important. The phosphate component, found in brand-name detergents, contributes materially to cutting down germ levels, thus reducing the possibility of cross-infection.

For the same reason, if your date's gums look suspiciously red, it might be best to settle for a good-night handshake. It's better to miss a kiss than risk a loose tooth.

In general, regular visits to your family doctor or dentist will help to head off pyorrhea or at least to reduce the damage. For instance, one established contributing factor—a vitamin C deficiency—can be corrected by having your physician recommend a vitamin supplement or a vitamin-rich diet.

Your dentist is the man to see about rectifying other conditions known to be linked to gum disease. One of these is the formation of tartar, which appears to provide a haven for bacteria injurious to the gums. Similarly, irritations which can blossom into pyorrhea may be caused by teeth that do not meet properly, are badly

placed or bite against the gums. A faulty filling also can be a culprit. All of these conditions can be remedied by time well-spent in the dentist's chair.

However, one of the most effective and simplest preventives is proper, do-it-yourself tooth-brushing. That's because pyorrhea can be triggered or aggravated by food particles lodged between the teeth or around the gum line. For the best results, the World Health

Organization lists these pointers:

- Brush regularly with a motion that reaches into as many crevices as possible and stimulates the gums without damaging them.
- Use a simple toothbrush instead of a fancy one.
- Massage the gums with a rubber stimulator to help keep them healthy.
- Brush for at least three minutes.
- Rinse the mouth after brushing to wash out loose food particles that might otherwise settle back into tooth crevices.

A study of English school children in their early teens showed that there was 50 per cent less gum disease among those who brushed their teeth regularly than among the irregular brushers.

And here's a tip for the sweet-toothed: Munching an apple at the end of a meal will help to clean the teeth, exercise the gums and control most forms of gum disease before it gets out of hand.

## QUICK QUIZ

THE POISON IVY PLANT HAS HOW MANY LEAVES?

- (A) 1 (B) 2 (C) 3 (D) 4

WHAT IS THE BEST TREATMENT FOR THE POISON IVY PLANT?

- (A) ASPICIN (B) BAKITOL (C) SODIUM PENTATHOL

WHAT COLOR ARE THE LEAVES OF THE POISON IVY PLANT IN THE SPRING?

- (A) YELLOW (B) RED (C) GREEN (D) BLUE

## ABOUT YOUR HOME

Often you hear young women say they hate housework. This is usually the result of poor planning more than anything else.

In the first place, running a home is not complete satisfaction to most of us, but there are times when we think we simply don't have time for any outside interests. This is always a mistake and is perhaps the most common reason, whether the person concerned realizes it or not, for house-keeping boredom.

If it is not possible for you to be away from home for an hour or so each day, don't become discouraged. You can do any number of interesting things right in the home that will help you to express yourself and do away with boredom.

If necessary, rearrange the house for greater working ease. Uncluttered organization and convenient arrangement make keeping house much easier and more pleasant. Plan meals that do away with time-consuming dishes. Use more quick dishes made with prepared mixes canned or frozen foods.

Why not chart the following day's activities the night before? Plan the meals, the housework and family activities. Encourage the children and hubby to lay out their clothes for the next day in order to cut down on the morning scramble.

Use place mats and paper plates and napkins except for special company.

## New Arrivals

Howard and Sue Freeman of Jayton are the proud parents of a baby girl, born Saturday, August 22 at 1:03 P.M. at the Methodist Hospital in Lubbock.

She weighed 6 lbs., 9 1/2 ozs. and is 20 1/2 inches long.

Mendel Rivers, House Armed Services Chairman, on student deferments: "I don't think we can do much this late in the session. I plan no bills this year."

ON A YOUTHFUL NOTE  
Wolfgang Mozart played several musical instruments well and composed a number of short pieces of music by the time he had reached the age of five!

## SCHOOL NEWS

The climax of the assembly held in the Jayton High school auditorium, May 17, was the awarding of letter jackets to the members of the Jayton Basketball teams which follows:

**Basket Ball Girls**  
Norrine Harrison lettered three years; was placed on the all-tournament team at Avoca, on the all-tournament team at District, and was chosen as best guard at the Aspermont tournament.

Marie Smith lettered three years; was placed on the all-tournament team at Jayton, and was chosen as the best all-around girl at the Jayton tournament.

Laverna Harrison lettered two years; was placed on the all-tournament team at Avoca tournament.

Margie Myrick lettered three years; was placed on the all-tournament team at Avoca tournament.

Lucille Robinson lettered three years.

Cherrie Stanley lettered three years; and was Captain of the team. Trophies won this basketball season are as follows:  
First place at Jayton Tournament.  
First place at Aspermont Tournament.

First place at Avoca Tournament.  
First place at McAdoo Tournament.

**Basket Ball Boys**  
Don Patton lettered four years; was placed on the all-tournament team at Jayton and Aspermont tournaments, and was Captain of the team.

Harford Long lettered two years; was placed on the all-tournament team at Jayton, and Aspermont tournaments.

Bert Sartain lettered two years.  
E. W. Cade lettered one year.  
Billy Glen Vencil lettered one year.

Hugh Kissick lettered one year.  
Glendell Underwood lettered one year.

Trophies won this basketball season are as follows:  
Second place at Jayton Tournament.  
Consolation at Aspermont Tournament.  
Consolation at District Tournament.

## THE JUNIOR CLASS TRIP TO CRATERVILLE, OKLAHOMA

The Junior Class left Thursday, May 1st at 8:00 for Craterville, Oklahoma where they stayed until Sunday, May 4th. The first day we stopped at Seymour and went to the park there and ate lunch; then we started on for Craterville. As anyone didn't know where Craterville was, we really didn't know where we were going. Finally outside of Cache, Oklahoma we came to some signs that said "Monkey Zoo". Mr. Hinds started to turn off and everyone laughed at him so we drove on for about thirty minutes and then decided we were lost. We turned around and went back to the signs and sure enough there was Craterville. Everyone was glad to see the place so we could get some rest, but didn't.

We had to cook our supper outside and served it on some long tables. The way we ate, the room mothers thought they could never fill us up.

Thursday morning some of the boys went to Medicine Park and the rest of the boys and girls climbed the big mountain near our cabins. Thursday night some of the boys were surprised to find their beds

filled with salt, water and rocks.

Friday morning everyone went up Mt. Scott which is 3.5 miles high. Then we went to Medicine Park and there some of us went motor-boat riding and again Friday afternoon when we returned to our cabins some of the boys had returned home sooner than we did and you should have seen our beds. They had rocks, crackers and even ginger ale bottles in them. Friday night some went swimming and others went skating, motor car riding, ferris wheel riding while others looked at the monkeys.

Saturday morning we went back to Mt. Scott and then on to Medicine Park. Some went in swimming and others skating while there. On our way back to Craterville we saw buffalo, long horned cows and also the place where they have the Easter Parade, which is a very beautiful place.

Then came the dreaded day to go home. We all got up, packed our suitcases, and rolled our bedding. Some of the boys went skating and at 10:00 o'clock we left Craterville Park on our way home. We stopped at Lawton, Oklahoma and attended the Central Baptist Church service. After church we ate lunch and at 1:00 o'clock were on the road for Jayton. With only a little car trouble we arrived in Jayton Sunday night at about 12:00 o'clock.

Those going on the trip were: Marie Smith, Joyce Brantner, Norma Turner, Bert Sartain, Fenny P. Darden, Melvin Florence, Reuben Cypus, Delton Fisher, Ray Culver, R. A. Moreland, Glendell Underwood, E. W. Cade, Mr. Hinds, Mrs. Fisher and Mrs. Brantner. Everyone enjoyed the trip very much and are already looking forward to our trip next year as Seniors.

## Chevrolet introduces Sprightly Vega Hatchback Coupe

This distinctive four-passenger coupe model of Chevrolet's new 1971 Vega 2300 economy car has a wide combination rear window and rear deck that swings up for easy access to the rear compartment and a fold down rear seat for extra cargo room. This is one of four Vega models. Vega's individual styling will be continued for at least four years. Roomier and better handling than usual economy cars, Vega has a new, domestic-built lightweight overhead cam engine to fill performance needs of American drivers. It gives impressive fuel economy and low emissions. Among "firsts" in economy cars are Vega's power-flow interior ventilation, comfortable molded foam seats and steel side-guard beams in the doors. Vega models go on sale in Chevrolet dealerships on Thursday, September 10.

## SKI...MAIS OUI!

The Alps! More than 2,000 years ago Hannibal crossed them with elephants. Today, the ingenious French are crossing them with fantastic skiing and luxurious, low-cost accommodations for "shussing" enthusiasts.

Take Belleville/Les Menuires, for example. Only 90 miles from Geneva, this is a new integrated complex with high rise hotels and condominium apartments built around a central shopping and sports plaza. And its 6,000 foot elevation guarantees the best possible snow conditions from December to May.

And would you believe 25,000 acres of skiable surface... plans for over 200 ski lifts... summer skiing at the 7,000-12,000-foot level on the glaciers... and near perfect high-altitude weather all the time?

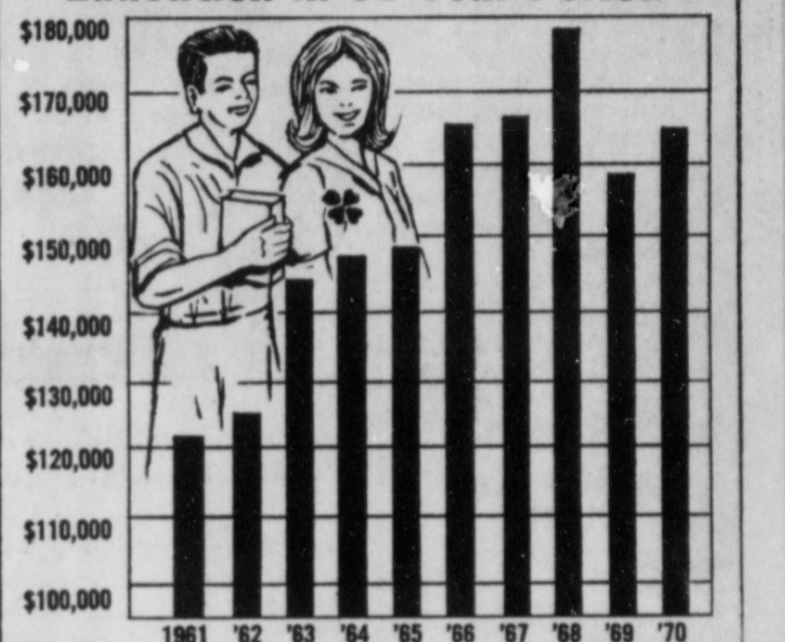

These complexes don't stop at ski lifts, rental shops, restaurants and entertainment centers either. There are shopping centers for food, drug stores, banks, hair salons, flower shops, movies, swimming pools, photography studios, nurseries for the pre-ski set, and even a library.

The cost for enjoying all this convenience and some of the best skiing in the world? As little as \$239 per person for 8 days and 7 nights—including jet air fare!

Bona fide ski groups interested in further information should contact their local travel agent, the nearest French National Tourist Office, American Flyers Airlines or write to International Travel Brokers, 609 Fifth Avenue, New York, N.Y. 10017.

Office Supplies at the Jayton Chronicle

## 4-H's Get \$1.4 Million for Education in 10-Year Period

A total of 286 scholarships valued at \$166,700 are offered this year to current and former 4-H members. These bring the dollar amount of educational grants given during the last decade to \$1.4 million.

The figures were compiled by the National 4-H Service Committee, Chicago, which obtains funds from private sources. Some 45 of 60 donors contribute funds for scholarships which range from \$300.00 to \$1,600.00. Each business firm or foundation sponsors a specific program such as safety, or underwrites scholarships to be used in pursuing specific courses of study such as forestry.

Several companies have been supporting 4-H in this manner for about 50 years. Among the pioneers are Montgomery Ward; International Harvester Company; The Santa Fe Railway System; Chicago and North Western Railway Company; The Sears-Roebuck Foundation and Kerr Glass Manufacturing Corporation.

Information on specific programs may be obtained by contacting the county Extension office.

## SMILES

One Thing Needful  
Butcher—"Round steak, madam?"  
Bride—"The shape doesn't interest me, so long as its tender."

Ouch  
Judge—"Why did you strike this dentist?"  
Accused—"He got on my nerves."

The Moderns  
"Look at that young person with the short hair and the blue jeans—is it a girl or a boy?"  
"It's a girl; she's my daughter."

"Oh, forgive me, sir, I never dreamed you were her father."  
"I'm not her father, I'm her mother."

Tit-For-Tat  
Private Eye—I trailed your husband into three nightclubs and two bachelor apartments.  
Lady Client—Good grief. What was he doing?  
Detective—Trailing you.

Consoling  
Policeman—Why didn't you stop when I blew my whistle?  
Lady Driver—I'm a little deaf.  
Policeman—Don't worry, you'll get your hearing tomorrow.

## THE MISSUS

## NEWS for OUTDOORSMEN

by VERN SANFORD  
Despite some thoughts to the contrary, the hunter is directly responsible for today's extensive wildlife conservation program. Without him many species now plentiful would be extinct.

Hunters rate the mourning dove as the number one game in the United States. Regardless of whether it is hunted or not, the annual mortality of the mourning dove is between 70 and 80 percent.

This you may not believe, but there are more rifle and pistol ranges in the United States than there are golf courses. Furthermore, shooters outnumber golfers three to one.

Hunters have spent more than \$100 million for duck stamps since the passage of the migratory bird-hunting stamp act of 1934. This revenue is used to preserve wetlands for waterfowl habitat.

America's wildlife program has been financed at the rate of \$22 per minute for more than 30 years through the Pittman-Robertson Act—a sportsman-supported excise tax.

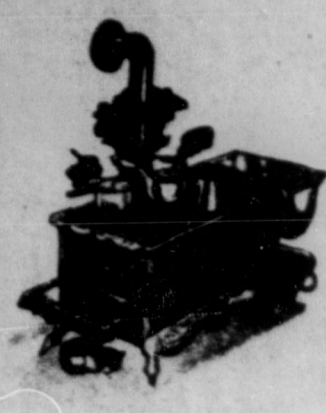

Hunters spend nearly \$300 million a year on automobile travel for gas, oil, tires and maintenance.

A porcupine can destroy two trees in a single night and is known to cause damages ranging from \$10 to \$100 per acre. He's a busy little fellow!

Pelicans nesting on Great Salt Lake in Utah must fly up to 100 miles a day for fresh water and food.

Fastest of all fish is the sailfish. It has been known to tear off 100 yards of line in three seconds, which indicates a speed of about 70 miles an hour.

## FROZEN FRUIT GINGER SALAD

3 ounces cream cheese  
3 tablespoons Mayonnaise  
1/4 cup maraschino cherries, sliced  
1/4 cup chopped dates  
1/4 cup preserved kumquats  
1/4 cup diced pineapple  
1 tablespoon chopped candied ginger

1 cup heavy cream, whipped  
1/2 cup toasted almonds  
Lettuce  
Pineapple Cream Dressing

Beat cheese and mayonnaise together until smooth; combine with fruits and fold in whipped cream. Pour into freezing tray of refrigerator, sprinkle with almonds and freeze 2 1/2 to 3 hours, or until firm. Cut into squares and serve on lettuce with dressing. Serves 8.

Use 1/4 cup diced oranges instead of chopped dates; and 1/4 cup diced bananas instead of kumquats; omit chopped ginger.

Freeze mixture in sealed baking powder cans; slice and serve on slices of tomato; garnish with watercress. Freeze mixture as above; serve on slices of pineapple and garnish with watercress.

## HAWAIIAN FRUIT PLATE

Grape leaves  
4 oranges  
2 cups pineapple cubes  
1 cup melon cubes  
4 maraschino cherries  
Lime French Dressing

On each salad plate arrange 4 grape or geranium leaves or salad greens. Arrange 6 orange slices in groups of 3 separated by a double row of pineapple cubes. Garnish with melon cubes topped with cherry rings and serve with dressing. Serves 4.

Omit oranges and serve the melon balls on whole rings of pineapple.

## SUNDAY VISITORS

Mr. and Mrs. Robert Hobson of Spur visited Mr. and Mrs. Woodrow Murdoch Sunday.

## From The Recipe File Of Opal Richards

## FROZEN SPICED APRICOT SALAD

1 pound dried apricots  
2 cups water  
1/2 teaspoon cloves  
1/4 cup sugar  
1/4 teaspoon salt  
Grated rind of 1 lemon  
2 tablespoons lemon juice  
Lettuce  
Lemon Mayonnaise

Wash apricots and cook in water with cloves, sugar, salt and rind.

## FROZEN PEAR AND CHEESE SALAD

3/4 ounces cream cheese, mashed  
1 No. 1 can pears  
3 tablespoons French Dressing  
Ginger Dressing

To cheese add juice drained from pears and French dressing; beat until smooth. Slice pears and arrange in freezing tray of refrigerator. Pour in cheese mix-

Any fruit from your basket may be combined for frozen fruit salad.

ture and freeze until firm enough to cut into squares. Arrange on lettuce and serve with dressing. Serves 4.

## FROZEN SPICED PRUNE

Use prunes and 1/2 teaspoon cinnamon for apricots and cloves.

F. Edward Herbert, Congressman (D-La) on draft: "There's more to review this year and it will take more time than usual."

## Handy Tips Given Of Floral Arrangements

Foliage for arrangements during the winter months, may be preserved now by using glycerin. The leaves of many plants may be used to make interesting arrangements when flowers are not available from the garden, Pat Nilson, County Home Demonstration Agent, notes.

The procedure is simple. All you need to do is stand the stems or leaves in a mixture of one part glycerin and two parts water.

Midsummer is a good time to get started on this project. The leaves will be in an active stage of growth and will rapidly absorb the glycerin. This usually takes about two to three weeks, she adds.

Many kinds of leaves may be preserved by the glycerin process. Magnolia, oak, peach, plum, eucalyptus and poplar leaves are satisfactory. Of the shrubs, try barberry, forsythia, sumac, privet, rhododendron and rose leaves. The leaves of many perennial herbaceous plants may be used as aspidistra, canna, coral, bells, geraniums, iris and devil's ivy. Leaves of small herbaceous plants may be submerged completely in a half and half glycerin-water solution.

Select only perfect specimens and wash the foliage with water to remove dirt or spray residue. If the material has woody stems, cut off the lower inch with a sloping cut before starting the treatment. Then stand the stems or leaves upright in a jar of the glycerin solution.

The leaves will change color as the solution is ab-

sorbed, and good air circulation and warm weather will speed up the absorption. Wipe the leaves occasionally with a cloth dampened with the solution as this will help prevent drying before the glycerin reaches the edge of the leaves.

Leaves preserved by glycerin should be stored in boxes to protect them from damage and dirt. Check the boxes frequently during the first few weeks to be sure there is no leakage from the leaves which might cause mold.

## NOTICE-----

The Texas Highway Department is planning the construction of Farm to Market Road 1083 in Kent County from the end of present F.M. 1083 to U.S. 380 and S.H. 70.

The proposed highway project will provide for a two lane highway consisting of a 20 ft. asphalt surface on 100 ft. of right of way. The proposed highway is located about 4 miles southwest of Jayton.

Maps and other drawings showing the proposed location and geometric design and any other information about the proposed project are on file and available for inspection and copying at the Resident Engineer's Office. Mr. Ben R. Wilkinson, on North State Highway 208, Colorado City.

Also, the drawings showing the proposed geometric design have been placed on file with the County Judge of Kent County.

Information about the State's Relocation Assistance Program, the benefits and services for displaced persons and relocation assistance office as well as information about the tentative schedule for acquisition of right of way and construction can be obtained at the Resident Engineer's Office.

Any interested citizen may request that a public hearing be held covering the social, economic and environmental effects of the proposed location and design for this highway project by delivering a written request to the Resident Engineer's Office on or before September 11, 1970.

In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing.

**VISIT'S NURSING HOME**  
Mrs. Mark Geeslin visited with Mrs. O. C. Lowrance Sunday in the nursing home in Rotan.

## Its That Time Again

Lockets have started banging and bells ringing. There is laughter echoing through the halls of Jayton High again. School has just started. The lovers are back to holding hands in the halls, and janitors are back to pushing brooms down them. When break time come you can undoubtedly hear a rise of chatter coming from the girls rest rooms as Sharon Ewing and Delores Murrett tell about their old and new boyfriends. Another bell rings and everyone rushes to class, meeting new students and teachers, and settling down to study or whisper when the teacher turns his back. In the gym you hear the bouncing basketballs; in the band hall you see LaJuana Hamilton trying to get David Senn to quit missing notes during Stars and Stripes Forever. Over in the Science lab you see a series of very confused, mixed up faces with a look of determination rising. Suddenly another bell rings and shouts go up throughout the building. Then everything is quiet. Everyone has gone home after the first day of school. The halls are quiet again but the spirit is still there. The spirit of Jayton High which will never die.
