#### ALEX IN WONDERLAND

"Alex in Wonderland" is movie about moviemakers. This is certainly a new twist in movie themes. Several of the characters are playing themselves. Paul Mazursky directs the movie which he and Larry Tucker wrote.

This movie is about a 36year-old director named Alex who has directed a very successful movie and is seeking just the right story for his next attempt. Ideas for one film story after another are suggested and discussed but none seem to be the "hit" the director is seeking. During this time, a very understanding and patient wife, as well as two daughters, go through a period

of trial and misunderstanding. In the film itself, Mazursky and Tucker have several funny episodes while confining their efforts on near disasters in conventional, everyday family situations. And, other than these few instances, there's little offered in the way of entertainment in a movie about moviemakers. However, this film is rated "R" with persons under 17 requiring parent or

LOOKING BACK TO JUNE

Monday evening between 6 and 7 o'clock practically all of Jayton kept a close eye on the cyclone which struck the north western part Lost Lake Community. The cyclone traveled down Duck Creek on past harmony in the southern part of the county, destroying every thing in its path, completely destroying the Ing Rodgers and Luther Johnson homes, Nothing was left of the Ing Rodgers home but the Frigidaire and part of the concrete foundation. The Johnson place was a total destruction, house, garage, barns and all. Small pieces of furniture, clothing were found several miles from the place.

Deed animals chickens were carried off by the truck loads. Other homes and houses destroyed were rent houses in the Lost Lake Community and a house belonging to Mrs. Willis in the Antelope Community. The house where Bill Rackley once lived was also completely destroyed. It destroyed 3 windmills on the Overton Place, windmills on the 0-0 Ranch combine and other farm machinery. It took the Window with the window still at the Bob Barbee

Wire from fences was wraped around post as if done by machinery large cotton wood and mesquite trees were uprooted and wheat fields were flattened.

Rain hall accompanied the storm, the hail doing great damage to crops and buildings. The rain in Jayton was as much as 4 inches in Jayton folks in number took to their storm cellers. While others watched with anxious eyes and longed for a hole in which they could take refuge.

But Jayton escaped with only a light rain of three quarters of an inch and no rain or hail damage. As far as we know there was no one injured in the storm.
