16 Team Girls Track Meet Held In Jayton Friday

Plans Made For 1972 **Baseball Season**

The Jayton Base Ball Club met Thursday March 23 in the high school library with a larger than usual number out. Officers for the 1972 season were elected as Herman Dunham, president; Don Trammel, vice president, Jarri Parker, Local Player Agent and Jay Kidd, secretary, treasurer. W. D. Hall was named manager with Herman Dunham Coach.

New Suits were discussed and it was decided to get some prices and discuss it more

Also discussed the work which needed to be done on the concession stand and on the ballfield. A work day will

Those attending were: Bud Ware, Glenn Phillips, Joe Slaton, Royce Stanaland, W. D. and Ethel Hall, Nancy Hagar, Wendell Hicks, Sylvia Sartain, Mary Lynn Johnson, Lou Williams, Ann Young, Estell Luna, Herman Dunham, Bruce Land, John Fowler, Frankie Garcia, Joe Benavides, Gordon Cravey, Don Trammel, Rhett Johnson, Gus Fincher and Jay Kidd.

Your interest is appreciated and sincerely hope we have this good a turn out when we have the work day. Reporter

Aerial Spraying is a major means of controlling competitive brush in Kent County.

Local SWCD Cooperators have been spraying approximately 20,000 acres anually.

Rangeland Spraying Recommended For Grass Production

By: Rhett H. Johnson District Conservationist Aerial spraying of mesquite and sand shinnery are excellent means of controlling these competitive shrubs on our

These practices are not new to the local land owners as many thousands of acres have been sprayed by Duck Creek Soil and Water Conservation Distric Cooperators.

native rangelands.

These cooperators have turned to aerial spraying on their rangeland that does not need seeding because of the possibility of treating large areas in a short time at a reasonable cost. Cooperators in Kent County have been spraying approximately 20,000 acres each year.

There are a number of specification that should be followed when aerial spraying. They are: (1) Because of the drift hazard, the wind should always be less than 10 MPH This will also insure better coverage. (2) Plants should have a lush growth, approximately 45-90 days following the first appearance of leaves in the spring. (3) Flagmen should always be used to insure even distribution. (4) Aerial spraying of mesquite and sand shinnery requires a

mixture of 1 pound 2, 4, 5-T

low volatile ester in one gallon of diesel oil and enough water to make four gallons of mixture per acre. Constant agitation is required to keep the chemical in suspension. Aerial spraying should only

be used where thre is sufficient grass cover of the better range grasses. If there is not at least a 15% coverage of these better grasses such as plains bristlegrass, sideoats grama, little bluestem, or and lovegrass, the landowner should consider a mechanical

type brush control that will

prepare a seedbed for seeding.

Where sufficient coverage of these better grasses are on the rangeland, grass response has been remarkable when the landowner has rested the grasses and allowed them to gain in vigor and produce seed before grazing in the win-

If you are interested in controlling the competitive brush on your land, and release the moisture used by that brush to your grass, the Soil Conservation Service Personnel will be glad to look at your range with you to determine the most econimical means of brush control, Glenn Phillips, Carrol Johnson or Rhett Johnson will be glad to assist you.

Sam Johnson Honored On His 83rd Birthday

Kent County Now

Has 241 Farm Units

of 241 farms in the 1969 Census of Agriculture, according to figures released by the U. S. Department of Commerce's Bureau of the Census, a part of the Department's Social and Economic Statistics Administration (SESA).

In the last previous Census f Agriculture (1964) the number of farms reported in the county was 227.

Of the county's total farms in 1969, 198 are reported as selling\$2,500 or more of agricultural products in the year, as compared with 166 in 1964.

The report also shows average farm size in the countywas 1,968.4 acres, and average value of these farms (land and buildings) was \$147,

Other figures from the re-

1. Value of all farm products sold in 1969, \$3,049, 450; in 1964, \$2,287,250.

2. Value of all crops sold in 1969, \$748,637; in 1964, \$1,034,153.

3. Value of a 11 livestock, poultry, and their products sold in 1969, \$2,300,693; in 1964, \$1,250,257.

Reported for the first time in an agricultural census is information on the extent to which the corporate structure is being used by operators of

farms from which agricultural products totaling \$2,500 and overwere sold. Including family farms using this type of business structure, one of the county's\$2,500-and-over farms is incorporated.

As It Looks

By Rep. Omar Burleson Member of Congress, Texas

OCCASIONALLY LETTERS ARE received with only the first name signed. Knowing so many people we are usually able to identify the writer with the post mark of his home-

Since the reorganization of the Post Office Department, which for all intents and purposes removed control from Congress, mail is now received with postmarks such as "TX 781," Some may be Ly 713 and so on. Sometimes it is a little difficult to identify ole Joe, Bill, Jim or Jane as the writer of the letter. This is because the local post= mark is that of the Regional Distribution Center. When complaints have been made to the new post office setup, they say that anyone in our small towns can still get their local postmark by going to the Post Office but they have to do so at certain hours.

This has the effect of losing theidentity of small communities. There is a pride in having our own postmarks and, besides, there is no evidence that improvement has been made in postal service. The complaints are still numerous. As a matter of fact, there exists many doubts as to

whether making the Postal Service a semi-public corporation is going to bring about the efficiencies which it was recommended to do.

The organization is subsidizedat \$98 Million a year, which is supposed to be eliminated by 1985. Of course, this is a lot less than the \$700 Million or more loss before the reorganization but it has yet to be proved.

The Postal Service may get into enough side lines to make it profitable in a few years. From plans they have, it looks asifthe Service may become sort of a variety store. Patrons in Alaska can buy automobile tags at the post office window and Europe-bound travelers can get passports at the same place. For a special price the Postal Service promises that in the near future they can deliver a letter about 300 miles in two minutes.

The service, in addition to selling stamps, is now designing more exotic issues to keep collectors busy and money coming in. The bigger offices also carry stamp albums. Even the rogues' gallery will be blown up and likely the pictures will be in color.

Post Offices may soon be

For residential ustomers who live

nanently constructed

larger unit

selling hunting stamps, stock job applications for Federal positions and information on the Federal budget.

Some old-time postal managers deplore the new operations saying they are gimmickry designed to take the public's mind off the fact that the mail service is not getting any better. The complaints may get louder as more and more over-the-counter transactions are put into effect.

There is still the problem of the delivery of the individualletter across town in a reasonable time. Postal officials have said that "in instances we can get a letter across the country faster by jet plane than a letter can be delivered on the other side of the city by truck". This seems to be one of the hangups.

Some officials have plans whereby post offices will become sort of like shopping centers, dispensing goods and services for those who want to pay for it. There are even guarantees of delivering packages within so many

One must wonder if marriage and divorce may eventnally be offered over the postul counter.

Unkle Zeke Sez

DEAR MISTER EDITOR:

Maybe it was thoughts of spring that lightened their hearts, but the fellers at the country store Saturday night weren't viewing everthing with alarm during the session. Even Ed Doolittle was heard to admit that life could be worse than out in the open space and clean air where a feller still has room enough to move about and keep the joints loose

It were Clem Webster that reported where he had saw in one of his farm journals this piece that spoke up fer the farmer and rancher. The writer said that taking care of the land was being looked on more and more as a important job, and farming was one of the ways a feller can combine this with making a living. Clem said he, fer one, sees a lot of joy in living on the land, but making money

fast was not one of the joys. The spring is the best time fer thinking on the bright side of farming and ranching, but Clem said he allus liked the idee of having room to cuss his cat and the land. He got to thinking about how important land is when he read this piece about a high-rise, low-rent housing project in St. Louis. They spent \$36 million putting up 33 big. apartment buildings to find out that nobody would live all that bunched up. They got three quarters of the 2,800 apartments standing empty, and now they're talking about tearing. the hole deal down. One feller said cramming 12,000 people on 57 acres of land was a bad idee, and Clem said he shore would

Bug Hookum said he loved the land as good as the next man, out he was of a mind that farning needs to git out from nder the federal Guvernment. This year, said Bug, \$4 billion is being spent in farm subsidies fer everthing from paying folks not to grow anything to paying support prices on what they grow. We got a situation where a rancher can't sell stock fer the cost of the feed, and the cost of everthing else keeps the squeeze on him. Bug recalled the farmer that was asked what he would do if he inherited a million dollars. The feller said he would keep or farming as long as the money held out.

The fellers talked pritty general about the problems ranchers and farmers has with financing. They was agreed credit is so easy the temtation to borrow to keep going is powerful. Bug said he had saw where 200,000 people went bankrup last year, more than ever before, and he figgered a good many of em was folks that was trying to keep a farming operation together

Personal, Mister Editor, I am agreed with the farm journal eller that said the farmer has the kind of life a heap of folks wish they had. I saw this piece that allowed 57 per cent of Americans feel the "quality of life" has fell off in the past 10 years. I bet they ain't many armers in that group.

Here is one of those great epigrams of my favorite philosopher - Dad! Or was it Mother? It's hard to remember for sure.

But, anyway, it isn't true. The older I get the more I realize that there are some who can tie their own neckties but still aren't

Maturity is not measured by what you can do. It is measured rather by your reasons for doing-or not doing-things you can do. Think that sentence through once more. Your son will become a man when he has sound reasons for doing one thing and not doing something else, even though he could

It is in the character-molding and spiritual growth which the Church provides that both youth and adults discover the soundest motivation of life. In worship and religious training we embrace the reasons that will prompt our courageous decisions as Christian men and women.

An Open Letter To The People Of Texas

Dear Voter

I'm a candidate for attorney gen-eral of Texas because I believe it's time for a change in the office.

Crawford Martin is seeking a fourth term. It's the first time in the history of Texas an attorney

general is running for a fourth term.
Campaigns should be run on the issues and I don't like to inject personalities and personal relation ships into a political campaign. But, the relationship between Frank Sharp and Atty. Gen. Crawford

The new book about the Texas stock fraud scandal, "Texas Under a Cloud," tells about that relation-

ship. On page 128 the book says:
"Atty. Gen. Crawford Martin,
got some free newspaper publicity when it was revealed in October, 1971, that he received a 'stock tip' from Frank Sharp while Martin and his family were Sharp's ranch guests late in 1969 and again at Sharp's Houston office early in 1970.

nce,

"Sharp was trying personally to sell National Bankers Life stock to Martin, although the attorney gen-eral said that Sharp never mentioned the possibility of Sharps

town Bank loans to buy the stock. "Martin said that he turned the stock offer down because it would have cost too much, because NBL was in 'shaky' condition, and be cause he did not buy 'speculative stocks.

"He did not comment on the ethical aspects of a state official's accepting a stock tip of that sort perhaps, because Martin, as attorney general, had ruled in favor of Sharp on a key legal issue about Sharpstown State Bank only two and one half years before Sharp made the stock offer to Martin.

'Martin's ruling had the effect of increasing the bank's capitalization dramatically and thus its ability to make large loans, ultimately giving Sharp the financial resources he used in the manipulations charged by the SEC.

As you know, hundreds of Texans lost their life savings be-cause of Sharp's stock manipulations and it probably wouldn't have happened but for Atty. Gen. Martin's legal opinion

Don't you agree, it's time for a change in the office of attorney general of Texas? Just so you'll know what you'd

be changing to, I'd like to tell you a little about John Hill. I'm a native Texan, grew up in Wink and Kil-gore, was national debate champion at Kilgore Junior College and graduated from the University of Texas Law School. I served in the Navy during World War II, prac-ticed law (much of the time in courtrooms) in Houston, and was secretary of state from 1966 to 1968.

I certainly would appreciate your It is time for a change.

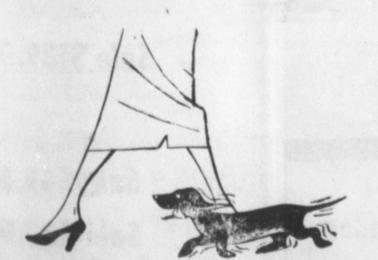

John Hill John Hill

P.S. If you want to help in o campaign, please write John Hill, 408 Brown Building, Austin, Texas 78701 or call 512-474-1991.

Mrs. Bessie Pearson accompanied them to Lubbock. Mrs. Browning and Mrs. Pearson got in a lot of win lov shopping while Sleepy gathered some Barber supplies.

It was a beautiful day and so wonderful to get good play sical reports from your family doctor.

Mrs. Roy Fuller, Mr. and Mrs. Halley Wade and Samira visited in Denison with Mr. and Mrs. Gary Jones and then on to Tulsa Ckla, to visit with Renelle and boys during the Easter Holiday.

Visiting with Mr. and Mrs. Robert Koonce are their granddaughters from Odessa.

Mrs. Kathleen Parks visited with her sons and their families in Richardson over the Easter Holidays.

Mr. and Mrs. Joe Parham of Lubbock and family visited with her mother, Mrs. Una Hunnicutt, and Mr. and Mrs. J. A. Kidd and family and Mr. and Mrs. Buildy Gallagher over the Easter Holidays.

The Domino's are going great in the new quarters east of the courthouse with room for four tables and not often will you have to wait for a vacancy to open up, to get to

Mrs. Oleta Moore spent Easter holidays in DeLeon with her parents Mr. and Mrs. Clarence Floyd.

Mrs. Hilton's condition was still unimproved at our last

Evelyn Murdoch hada check up at Dallas one day last week. Her report was good. but she remained to have further test run.

Vanessa Vencil of Wichita parents, Mr. and Mrs. Bill Vencil this week.

Henry Smith is at home from the hospital, in Abilene after having surgery.

Mrs. Guy Brown is still in the hospital in Rotan.

Mrs. Rachel Barfoot visited with Mrs. J. W. Barfoot this last week. Mrs. Barfoot returned home with her and she will visit with granddaughter, Mr. and Mrs. Joe Stegall and with Erma Black.

Mrs. Erma Black recently had surgery on her foot and is still not up and about.

Mrs. Grover Little, a formor Jayton resident is quite ill at her home in Odessa, it is reported.

Mrs. Oleta Moore, Mrs. Ben Boland, and Mrs. E. E. Spicer had business in Abilene Tuesday of last week.

Mrs. Ann Hancy has been on the sick list and was to have gone to Abllene for a check up Friday.

Mr. and Mrs. Leck Wall and Mrs. Rogene Browning attended the funeral of a nephew in O'Donnell Monday of last' week. He was killed in a car wreck. He was 18 years old we understand.

Visiting with the Leck Walls recently was their daughter Debra and family. They visited with Mr. and Mrs. L.E. Browning and boys of Jayton.

SUMMER CARNIVAL

Stately 5 to 6 foot high plants with lush green, lobed leaves bear these delightful pompon-like flowers in great quantity. Some-times a foot to 2 feet of stem is in bloom at one time.

Looking for a tall flower to use among shrubs or as a back-round for other blossoms? This year's bronze-medal-winning rollyhock named Summer Carnival fills the need.

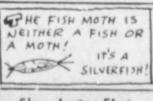

if seeds are sown early, grows to 5 or 6 feet in height and about a foot to 2 feet of this length will be in flower at one

"double" but they're a different kind of double. Around the edge of each 4 inch bloom is a single row of flattish guard petals. Inside these, sometimes leaving only half an inch of the guard petals showing, is a crest of wavy, ruffled petals. The whole flower closely resembles the pompon French sailor's beret.

nmer Carnival is a strain which includes many colors. Thus you'll have blooms of scarlet, deep rose, rose, pink cream, vellow and white from one packet of seeds. And the plants will come up year

after year from just one sowing. Space the seeds widely be-use hollyhocks form big plants. If you grow the plants in a seedbed, move the seedlings to their permanent places when no more than 3 or 4 inches tall because you'll find they have tap roots as long as the top

This lovely Sollyhock, with its large, lobed leaves and bright flowers, originated in Japan. Introduced for the first time in this country this year, seeds are listed in the catalogs and shown

1972 Buyer Outlook Favorable

Economic experts have voiced abundant optimism over the 1972 housing out look and a record market year may well be ahead.

Forecasts of more than 2 million housing starts for 1972 are common, and mortgage money is ex-

pected to be plentiful because of supporting activity by the federal government and government-sponsored organizations. Pressures for holding down mortgage interest rates are expected to continue. An excellent selection of

single homes is anticipated in many locales, since a swing in this direction from multiple family dwellings is expected among builders. This favorable outlook means that 1972 will be a

good year to purchase a home. The trend of land, labor, and material costs is up-even with post wage-price freeze controls-so the time to buy is as soon as you can afford it. In most cases, the purchase of a home continues to be an excellent long-range

If your 1972 plans include home buying, remember to do some advance checking on what is involved in a real estate purchase in your locale. Carefully consider location, structure, and design of a home. Investigate the most suitable mortgage financing available-whether the loan be FHA, VA, or conventional. Make sure you can afford the down payment and monthly outlays for principal, interest, taxes, insurance, utilities, and maintenance. Become well acquainted with the protection available to you through a title search and

SLEEP KNITS - Carefree cotton knits provide stylish sleepwear that's long on comfort. The multi-colored jumpsuit has a front-button placket and no-slip feet. while the gown features a rickrack-trimmed peasant top above a plaid skirt. By Carter's, both are available in sizes 4 to 14.

ON DECK-Sea-breeze comfort and cool fashion per-formance are assured in this pantsuit of crisp red and white dotted cotton. By Craig Craely, the outfit includes i tab-belted battle jacket with rounded collar and straight-cut pants with deep cuffs.
