put mine away. I had become an equal to everyone else. No one cared who I "had" been. They only wanted to know who I was. We all had to achieve a new image on our own.

Last week, when I came back to TWU as a senior, it took a U-Haul to bring all my junk but I left my bulletin board and old yearbooks at home. I've found I don't need yesterday's accomplishments to secure my position. Now I have a confidence not of things past, but of things to come.

Frontier Days Pageant Set In Texas Theatre

If you had the privilege of studying Economics in school, you probably remember that the law of Supply and Demand played a most important role in many walks of life, especially in the business world. The fact is acutely noticeable in Haskell these days as the demand for Bewely's Best Flour Sacks far exceeds the supply. The demand stems from the fact that the ladies are looking for material to make their old time costumes for the big Frontier Days Pageant to be staged at the Texas Theatre on Tuesday night, May 15. It is very doubtful that any housewife in Haskell county and a few neighboring counties could come up with enough Bewely's Best flour sacks to make a mini-skirt let alone enough that is required to make an old time dress like Grandmother wore in days gone by.

However, regardless of the lack of flour sacks, the sewing machines are humming these nights as contestants endeavor to copy old patterns to come up with an outstanding wardrobe for the popular annual Queen's pageant. Others more fortunate, have looked in the trunks in the attic and found exactly what is needed in a truly authentic old time dress that some member of the family wore in the early days. Still others have been able to find someone who has a beautiful old dress which they are willing to loan for the occasion.

The beautiful pageant, which is scheduled to begin at 8 p. m. on the aforementioned date will have a unique stage setting which is a must to see. The theme of "Grandmas' Modern Home...1898" will be used with Sherman Floor and Inter-

ior providing the necessary items to furnish the house in the style of the early days.

While the Queen's Pageant is the feature attraction for the night, an outstanding stage show will also be presented in conjunction with it. Two sets of square dancers, one local and one from out-of-town, will be present to kick off the activities with a truly western flavor as they do-si-do to old time favorite numbers.

Another feature attraction on the show will be Karen Pippin who is attending Texas Christian University in Fort Worth, who plans to be HOME for the Frontier Days Celebration and Jaycee Rodeo which will include the entire week of May 14th through the 19th. Karen, the present reigning Miss Hey

Day is definitely an outstanding artist and her presentation will include both old and modern songs. She is the daughter of Mr. and Mrs. Jack Pippin of Haskell.

Anyway, all in all, you can be guaranteed a night of home grown and in some cases, home spun entertainment for the Queen's Pageant. So, if you are tired of watching re-runs and the Watergate Scandal on the boob tube, why not turn it off this one night and come join the crowd? The tickets are only \$1.00 for adults and 50 cents for children.

The pageant is under the direction of Mrs. R. A. (Frances) Lane and she reports that entries are coming in rapidly and that at least 30 and possibly 40 contestants will be participating in the colorful pageant.

Around Town

by CLYDENE

Sunday is Mother's Day and mothers across the nation will be honored in many ways. Christene Greene brought in a delightful recipe that is very appropriate for this special day of the year, and we'll reprint it here. It's titled, "A Love Cake for Mother", by Mrs. Lucille Morgan.

I can of obedience
Several lbs of affection
1 pint of neatness
Some holiday, birthday and everyday surprises
1 can of "running errands" (Willing Brand)
1 box of powdered "get up when I should"
1 bottle of "keep sunny all day long"

I can of pure "thoughtfulness" Mix well, bake in a hearty warm oven, and serve to "Mother" every day. She ought to have it in big slices.

Mr. and Mrs. James R. Mickler and Mr. and Mrs. Joe B. Chaney of Abilene, all went to A&M for the weekend to attend Final Review when Jim Bob made his first appearance as guide-on-beamer. Horse Shoe Pitching Contest Slated

The "OPEN" Horse Shoe Pitching contest slated to be held Wednesday, May 16, in conjunction with the Frontier Days Celebration and Jaycee Rodeo, is patterned like the Bing Crosby Open Golf Tournament in that "name" players will be featured. However, unlike the Bing Crosby Golf Tournament, the ability of the horse shoe pitchers will be questionable in most instances.

Slated to take place on north side of the courthouse square at 3 p. m., the first match will pit County Judge R. O. Roberson and County Sheriff Garth Garrett against the formidable opponents Mayor Belton Duncan and Abe Turner, president of the Haskell National Bank.

The second match, in case the first one ends, will be the Haskell Rotary Club versus the Haskell Lions Club. Veteran horse shoe pitcher, T. C. Walker, who holds the distinction of having been twice winner of the annual Hester reunion, will head up the team for the Rotary Club. He will have the pri-

vilage of selecting his running mate or partner from the membership of the Rotary Club. As of this date, the Lions Club has not announced their team but they have accepted the challenge of the rival civic organization and they are expected to be well represented at game time.

Now, it is a known fact that most conscientious Texas Lawmen still frown on pari-mutuel betting, there is nothing in the law books that says a feller can't place a few little side bets. Rooster fighting is unlawful too, but they still stage the pit fights down on the crick in Hootin' Holler quite often on moonlight nights.

Since the match is billed as

an open one and since this writer has no serious objections to women's lib, just in case the Progressive Study Club wants to challenge the B&PW Club, or vice versa, the game will be worked into the afternoon's schedule.

Now, it wouldn't be right or safe either to stage this horse shoe pitching contest without proper supervision, the dern things are made out of iron, the necessary precautions will be taken. Brooks Middleton will be serving in the capacity of Referee, and Ray Lusk, Sgt.-At-Arms, or in the English version, bounce.

Anyway, there will be no admission charge and you are invited to be present to root for your favorite team.

Spanish Class Tours Mexico

The Spanish II class of Haskell High School, in conjunction with the class, made a trip to Monterrey, Mexico, April 13.

During the trip the class toured the Garner National Park and the John Nance Garner museum.

The class had a frightening experience when one of the girls was asked to produce her birth certificate. After doing so, the class continued.

After entering Mexico, the group dined in typical Mexican restaurants, toured local markets, and took in a bullfight. The group found time to celebrate Ruth Ann Blankenship's birthday, where they were serenaded by three singers, and each had sketches made. Following the evening the group returned to the hotel in a horse drawn carriage.

The class, on the return trip to the United States, toured the Alamo and Johnson City after spending the night in San Antonio.

The Spanish Class expressed thanks to the teachers and sponsors. Mr. and Mrs. Max Stapleton, Mr. Jack Pippin and Mrs. H. L. Williams, for making the trip possible.

The group making the tour was made up of: Rosa Alvarez,

London, Featured Program Director

To further the instruction which began in February at Vernon, Concerning Reality Orientation in the nursing program for the geriatric patient, an in-service education meeting was held at the Rice Springs Care Home last Thursday in the dining area of the care home.

The featured program director was Bruce London from North Texas State University's department on Studies of the Aged. Mr. London conducted an actual R. O. session with four of the Home's residents. These sessions are designed to stimulate and increase the residents' awareness to life around his, as well as to revivify the senses which have been dwindling or become dormant due to lack of usage.

The entire staff, custodian, clerical, nursing, dietary and administrative, participated in the meeting. Following the R. O. session, Mr. London showed a film entitled, "Mrs. Reynolds Needs A Nurse," which was viewed by all. A discussion of methods possible and informa-

Haskell City Council Meets

The Haskell City Council held their regular monthly meeting Tuesday, May 8.

The meeting was opened by a prayer given by Belton Duncan and the reading of the minutes approved.

Members discussed the appointment of a new health officer, but decided to make the appointment at a later date.

Plans were made by the councilmen for use of the revenue sharing program and the resurfacing of city streets.

The yearly dog vaccination which has in the past taken place at the Haskell Fire Station will be moved to the show barn. A date has not been set and notice will be presented at a later date.

The council voted to pay one-half of the repair of the Pony League bleachers and approved the presentation of bills.

Lions Club Hears Feemster Of ASCS

The Haskell Lions Club met at the Haskell Steak House for their weekly luncheon and meeting.

Pledge of Allegiance to the Flag and songs were led by Wallace Cox Jr. and the invocation was given by Alfred Pierson.

Lion Tooley read the minutes of the directors meeting. The directors set a tentative date of June 12 for Ladies Night, and appointed Lions Don Comedy and Darold Roberson to represent the Lions Club in a Horse Shoe pitching contest during Frontier Days.

Lloyd Feemster of the ASCS gave the program on farming programs and the problems of farming. Feemster stated that a general cutback of government funds for the farming program will make it hard for many of the farmers to continue. He stated that most individuals outside of farming had a misconception as to how much a farmer received from the government and what is done with the funds. The cost of farming has gone completely out of sight, he stated, and there doesn't seem to be any relief in the future. This is just one reason for the decline in the number of farmers.

He closed by saying that as rough as farming and the situation was, Haskell county is doing better than most other counties.

Students . . .

(Cont. from Page 1, Sec. 1) Boys State delegates participate in training in state government.

During their Boys State session, the Haskell youths will participate in the organization of political parties, campaigns, elections, and the enactment and enforcement of their own laws within a mythical state.

"As one of the Legion's outstanding youth training programs, Boys State affords these youngsters an opportunity to learn the functions of government," Commander Anderson said. "Also, they will see the importance of the role a good citizen has in discharging his citizenship responsibilities. They soon discover how good government depends upon the active interest of every citizen."

On behalf of Post No. 221, Commander Anderson expressed appreciation to the following clubs and organizations which are also sponsoring youth to American Legion Boys State this year: The Haskell Lions Club, Haskell Bar Association, Haskell National Bank, and the Haskell Rotary Club.

Progressive Study Club Holds Installation Banquet Thursday

The Haskell Progressive Study Club held its installation banquet last Thursday night, at 7:30 at the Haskell County Country Club. Mrs. Tom P. Barnett became the 40th president of the club since it was organized and federated in 1937. Charter members present were Mrs. R. A. Lane and Mrs. R. W. Herren. The installation ceremonies were conducted by Mrs. C. W. Roberts, Mesquite District President, of Abilene. In addition to the new president, Mrs. Roberts installed the following officers who are to serve in the 1973-74 club year: vice-president, Mrs. Pat Henry; second vice-president, Mrs. A. C. Richardson; recording secretary, Mrs. Robert Free; corresponding secretary, Mrs. Doyle High; treasurer, Mrs.

David Burson; historian, Mrs. Jodie Kennedy; board member, Mrs. R. C. Couch, Jr. The Haskell High School Stage Band, directed by Mr. Wendell Gideon, entertained with a number of musical selections during the banquet hour. Following dinner, Mrs. Bailey Toliver presented a gift of appreciation and recognition of service to the outgoing president, Mrs. R. C. Couch Jr. Mrs. Couch has served two consecutive years as president of the club. During this time she led the club in a communitywide improvement drive that became an outstanding success. The club operated a flea market four days each year, to raise money to buy plants, shrubs and trees, which were planted around the courthouse

and in certain places on Rice Springs Creek. The Haskell Garden Club graciously did the actual labor of setting out the plants on this project. Other service clubs of Haskell cooperated and worked to clean up and remove unsightly structures in our town, as well as remove from streets and lots abandoned junk cars. The Progressive Study Club conducted a survey of our town to call attention to spots where improvement was needed. Certificates were awarded to business establishments on and off the square, who had remodeled or completed other improvement projects. Through town hall meetings held by the Study Club, civic leaders had opportunity to discuss and develop plans for city improvements. Altogether, the heart and spirit of Haskell Progressive Study Club is identified with every inch of progress made towards making Haskell the most attractive, the friendliest, and the most prosperous town in West Texas.

WHAT'S THE RUSH?

By MRS GENE OVERTON

In reading about Congress debating the bill to make it possible for 18 year olds to serve on juries, I realize again how very lucky we were to have grown up in the years we did. We had so many things to look forward to. My best friends in Rule were five girls whose parents agreed with my mother and daddy on certain rules for us. We could wear lipstick at 15. We could learn to drive the car and have dates at 18. Back then we couldn't vote until we were almost seniors in college. We could look forward to serving on juries when we were old enough to own property and pay taxes. I remember how proud I was to pay my first poll tax with my own money, and how daddy was pleased because my first vote was to be cast for prohibition, and his first vote had been cast for prohibition.

I remember how exciting it was when a boy became old enough to wear his first long pants. We girls were most impressed at how grown up our brothers were in long pants instead of knickers.

Poor kids now days have everything by the time they are 18. Lots of them have their own car by then, and they can vote, and soon can serve on juries. Some churches allow a youth to attend annual conferences and have the same voice in the business of the church as the adults who financially support the church. An Abilene high school student ran for president of the school body on the platform that a student be allowed to serve on the school board. What have these kids to look forward to? They will have done everything by the time they are 18... They go to college winter and summer to finish in a shorter time, instead of taking their time and enjoying every minute of college. Wonder why everybody is hurrying so? We have years and years to have to be grown up.

C. H. Herren, Veterans Service Officer for Haskell County, has a message of utmost importance for all veterans of World War II. This message concerns a false report that is currently circulating across the country, urging veterans to apply to the Veterans Administration for their "special" insurance dividend.

According to the erroneous report, which is being carried in many newspapers and other publications, a law supposedly has been passed authorizing the Veterans Administration to pay a "special" dividend of 55c per month for each \$1,000 of GI or Government life insurance which he had in force in World War II. The story is completely false, and is nothing more than a cruel hoax, since no such legislation has been enacted by the Congress. A Special Dividend was paid in 1949 and 1950 to veterans who carried National Service Life insurance during World War II. This was only a one-time payment, although annual dividends are still being paid to those veterans who have continued to keep their old GI insurance in force.

This false story seems to surface every two or three years, and all veterans are urged to recognize this "special" dividend rumor as a hoax. The Congress in 1970 passed a "State Claims Act" which relieves the VA from the responsibility of processing claims which might be made as a result of this false story. Thus, any veteran who applies for the "special" dividend mentioned in these reports is in reality wasting his time, his efforts, and the money spent for postage.

Any veteran who is legally entitled to an insurance dividend from the government will receive an official notice of the amount of his entitlement, and no heed should be paid to the false "special" dividend rumor.

OFF TO STATE . . . The Haskell Girls Track Team will be competing Saturday. The team (from left to right) are Coach David Burson, Mary Ann the 880 relay team, Helen Mary Cadenhead, 880 relay team, Debbie Tamm, Shirley Abbott alternate, and Karen Croft 880 relay team. The national record 1.42 set by Comanche. This week was "Beat 1.42 West".

Taylor, Reynolds Honored Tuesday By Memorial Assn. At Annual Meet

The Hazel and Robert Reynolds Memorial Fund Association held its regular annual salad supper Tuesday night, May 8, at 7:30 in First Baptist Church.

The Association meets yearly to award a Brazilian Scholarship, and in the past has always mailed it to May Belle Taylor, a missionary from Haskell there for many years. This year, May Belle retired and so the Association also honored her at the supper. The members of the association are former members of Mrs. Reynolds' Sunday School Class.

Banquet tables were laid with white cloths, and centered with spring flower arrangements. The serving buffet table held a huge bouquet of red roses.

President Mrs. Charlie Redwine welcomed members and special guests, May Belle Taylor and Virgil Reynolds of Dallas, son of the late Hazel and Robert Reynolds. Invocation was given by Mrs. R. C. Couch Sr., after the group sang "Lily of the Valley", Mrs. Reynolds' favorite song. After dinner, secretary-treasurer Mrs. Clyde Bland gave her report. Mrs. R. A. Lane, chairman of the nominating committee, submitted Mrs. Buford Cox as president, and Mrs. Ozelle Frierson as secretary-treasurer, who were elected by the membership.

Virgil Reynolds then gave a short talk thanking the group for this association and what it means. May Belle Taylor shared some of her experiences as a missionary in Brazil the many years she was there, and she presented each one present with silver and polished stone spoons or forks from Brazil. The group, in turn, presented Miss Taylor with a gift, and the meeting was closed with the singing of "The Evening Prayer."

sin. This data is used to plan reservoirs, such as the Miller Creek Reservoir now under construction; to develop land use practices; and many other activities.

Sediment figures closer to home reveal some startling facts about the rate of erosion from Haskell County farms, ranches, and public lands. The original capacity of the Paint Creek Reservoir (Lake Stamford) was 57,632 acre-feet in June 1953. (One acre-foot is one foot of water over one acre of land). In 1966, the Soil Conservation Service made a sediment survey on the Paint Creek Reservoir which showed that the storage capacity had decreased by 3705 acre-feet. The erosion rate on the Paint Creek watershed is 0.8 acre-foot per square mile of watershed area per year.

What this means is simply that each 640-acre section of land in the Paint Creek watershed loses 0.8 of one foot of valuable top soil each year.

Do we want the same thing to happen in 12 to 15 years to the Miller Creek Reservoir? This is our water source for years to come, and if Haskell and the surrounding communities are to grow, this water supply must last.

What can we do to curb or reduce the estimated rate of runoff that is occurring in the Paint Creek watershed? Why should you as a taxpaying citizen of Haskell, Munday and Weinert be concerned?

"There is no more land being made so we must take care of what we have," stated Cong. Burleson. Humanity and wild-life must be supported for centuries to come, so a need exists to conserve what we have. How? By wise water and land management to reduce flooding and runoff. We need to start or continue preventive treatment of the environment and "look past the super-emotional environmentalist" (Cong. Burleson's words).

We need preventive action now on the Miller Creek watershed to avert siltation of the reservoir once it is completed. By thus starting such measures now, we can have a source of dependable water for our communities that can be translated into more jobs, more opportunities for our young people to stay at home, and to support the raising of food and fibre crops.

Some side benefits that I have not mentioned, but are also of importance are opportunities for more parks and wholesome recreation for many of our local citizens as well as bringing in many outside people who will help our economy.

Storm Warning System Studied

Feasibility of a storm warning system for the Haskell area is being studied in order that area Haskell residents might have a more complete weather alert.

The system would consist of a transmitter, based at the Haskell Police Station, and a receiver, which would be in the homes of area residents.

Plans for the transmitter to

be tied directly to a weather station, 24 hours a day, are being made.

Area towns within a 20 mile radius would be covered with the alert system. Separate channels would be used for each town or area, to enable the department to transmit warnings to the area concerned.

A storm warning system of this type would alert residents as to the type of storm and the seriousness, and would be automatically activated by the transmitter based in Haskell.

Area residents would have to

purchase individual receivers at a price ranging from \$100 to \$125, depending on the quantity ordered.

Residents of the Haskell area (20 mile radius of Haskell) if interested in a storm warning system of this type, should fill out the form below and return it to: P. O. Box 727, Haskell, Texas, or call 864-2323 between 9:00 and 11:00 a. m.

Money trays to fit desk drawers, for fast, easy change-making, available at HASKELL FREE PRESS.

Questionnaires Sent To Farmers

During the last half of May, some 24,000 Texas farmers will receive a crop acreage questionnaire from Charles E. Caudill, Agricultural Statistician-In-Charge of the Texas Crop and Livestock Reporting Service, Austin, Texas.

This information will be the basis for determining the planted acreage for the State of Texas and for each county. There are 254 counties in Texas, and reports are needed from many farmers so that

each county will be well represented. Accurate estimates are of great importance to farmers in planning production and marketing and in providing an unbiased picture of Texas agriculture.

The Texas Legislature has provided a program of estimates for each county. Texas covers such a wide area that State totals alone do not provide adequate information on Texas' most basic industry—agriculture. This is a cooperative effort of USDA's Statistical Reporting Service and the Texas Dept. of Agriculture.

HONORED

W. ART The Howard Soil and Water Conservation District recently honored W. S. (Skinney) Cole of Rule as Outstanding Conser-

vation Rancher, along with Paul H. Allen of Coahoma, as Outstanding Conservation Farmer.

Mr. Cole, a retired pharmacist of Rule, started farming in 1939. Mr. Cole said, "I guess I was really and truly a drugstore cowboy because I operated the drugstore and ranched, too." Mr. Cole owns rangeland and cropland at Vincent.

He entered a conservation agreement with the Howard Soil and Water Conservation District in 1942. In 1966 he entered the Great Plains Conservation Program.

Five years ago, Mr. Cole decided to lease the ranch because of his health and labor problems. "I wanted a man who would keep the land in good shape and would realize the value of conservation farming and ranching," Cole said.

Mr. and Mrs. Cole attended the banquet and he received his award in person.

Here's to Your Health

A study of over 2000 teenagers in 112 high schools found that a large proportion are undernourished, despite heavy eating, because of faulty diets. The children themselves referred to "junk" they ate, instead of drinking milk and fruit juice, and eating wholesome fresh vegetables, fruits, meats and whole cereals. Sam Sharp Gives Rotary Program

Haskell Rotary Club members and guests met at the City Cafe at noon, Thursday, May 3, with vice president Carl Anderson presiding in the absence of president Bob Philpot. Bill Lane of Lane Apparel, was program chairman and he introduced Sam Sharp, pastor of the First Christin Church in Haskell. Mr. Sharp gave a short but interesting and inspiring talk to those present, using athletics to bring out his points. A former All American Football player and professional basketball player in his early youth, he stressed defense and offense as they pertain to most all worthwhile things in life as well as athletics. "I think that the worst thing wrong with all churches today is the fact that they are too much on the defensive and not taking initiative by stressing offense," he said. "Man is born with certain characteristics such as love, hate, passion and others and I don't think that the Lord expects a

Christian to keep these traits in the background," he continued. "I can hardly wait until tonight when the Lakers basketball team take the floor on the televised professional game and what do you think the score would be if the Lakers came out and played only defense and did not take any shots at the basket?" he asked his audience. "We need to get mad enough to clean up politics on a National scale as well as taking the offensive against Communism because if we only play on the defensive we are more than likely to be on the small end of the total score." He was high in his praise of the town of Haskell but said that there are still some eye sores which need to be corrected and that the way to do this was for business leaders to go on the offensive," he said in closing his talk. Invocation for the meeting was given by Bob Beauchamp and the singing led by Stanley Furrh with Rene Abbott providing accompaniment. Guests were introduced by Ferrel Coston in the persons of Mrs. H. O. Abbott, Jim Cox of

Carolyn Reynolds Identifies Cowboy

On Thursday, May 3rd, telephone number 864-2477 was busier than the phone of a beautiful blonde coed who has just returned home from College. The reason for the unusual number of calls was the picture of the mystery cowboy in last week's edition of the Haskell Free Press, to publicize the coming Frontier Days Celebration and Jaycee Rodeo. Both local and long distance calls came in from folks who were attempting to identify the rider whose picture was in the paper. A total of 13 different men of the area who were thought to be the rider, was added up at the end of the day set aside for the calls. Named to be the rider were: Brooks Middleton, Raymond Melton, J. A. Bynum, Olin Amerson, Sonny Wilfong, Alvin Sherman, Royce Adkins, A. B. McDonald, Dee Phillips, Hill Oates, Barney Frazier, Rex Felker and Lee Roy O'Neal. The first one to properly identify the rider was Mrs. Sony (Carolyn) Reynolds, whom it is suspected by some, had the aid of an old picture album of the late Frank Reynolds. Anyway, she named the rider to be Lee Roy O'Neal who is presently associated with the Parker Super Market of Haskell. There were only three other persons during the day who selected him as you.

PCA Holds 39th Annual Meeting

The Rolling Plains Production Credit Association held its 39th Annual Stockholders Meeting in Stamford Saturday, April 28, 1973. J. R. Gleaton, President, noted that this meeting was celebrating the 50th anniversary of the Intermediate Credit Banks and the 40th anniversary of the Production Credit System. He also disclosed that the Rolling Plains PCA now has a capital structure of almost \$5 million dollars and total loans outstanding of over \$25 million dollars. He stated that the total loans made in 40 years by this Association would likely be as much as \$500 million dollars. Mr. Gleaton announced that the interest spread (difference between Association cost and that being charged to its members) would probably be reduced by the middle of this year due to increased loan volume, which was widely acclaimed by the stockholders.

Mack Claburn, Director from Anson, gave the Report from the Board.

Jack H. Barton, Senior Vice President of FICB, Houston, was the guest speaker. He stated that one of agriculture's biggest problems today was consumer attitude toward the high cost of groceries but that food today is still the best buy you can find anywhere in the country. He added that the boxes and cartons in which the prepared foods are packaged amount to a large percent of the cost. He concluded by saying that PCA is the best thing that ever happened to agriculture—a farmer or rancher can do business with himself—because PCA is owned entirely by its stockholders. Mr. Barton presented to Lasater Hensley, Chairman of the Board, a plaque of recognition from the Federal Intermediate Credit Bank of Houston commending this PCA for their outstanding efforts in serving Texas farmers and ranchers in an unparalleled commitment to the financing of agriculture.

The stockholders re-elected Lasater Hensley to the Board of Directors. The Board of Directors held a meeting following the annual meeting and re-elected Lasater Hensley as the Chairman of the Board and Dean Decker of Childress as

Howard SCS Dist. Honors Rule Man

The Howard Soil and Water Conservation District recently honored W. S. (Skinney) Cole of Rule as Outstanding Conservation Rancher, along with Paul H. Allen of Coahoma, as Outstanding Conservation Farmer.

Mr. Cole, a retired pharmacist of Rule, started farming in 1939. Mr. Cole said, "I guess I was really and truly a drugstore cowboy because I operated the drugstore and ranched, too." Mr. Cole owns rangeland and cropland at Vincent.

He entered a conservation agreement with the Howard Soil and Water Conservation District in 1942. In 1966 he entered the Great Plains Conservation Program.

Five years ago, Mr. Cole decided to lease the ranch because of his health and labor problems. "I wanted a man who would keep the land in good shape and would realize the value of conservation farming and ranching," Cole said.

Mr. and Mrs. Cole attended the banquet and he received his award in persons.

Boll Weevil Pgm. Underway

AUSTIN—The cotton industry has changed greatly in the past 25 years, but its No. 1 enemy is still the boll weevil, according to Agriculture Commissioner John C. White.

The Texas Department of Agriculture and local cotton associations have stepped up their cooperative efforts to attack the nation's costliest agricultural pest. Research has revealed

that a combination of chemical, cultural, and biological control methods is necessary in most areas.

The Texas Association of Cotton Producers Organizations is supporting legislation to control the boll weevil. The bill is based on combined methods.

"Some people have the idea that practices under the proposed legislation would eliminate the need for using chemicals to control boll weevils. Up to now, however, we have not found a way to fight them without including insecticides. The amount used, however, is less

than it used to be," Commissioner White said.

The most promising pest management program in Texas is the diapause program. Early in September the boll weevil builds up fatty tissue and shortly enters a state of diapause. At this time he seeks out favorable overwintering ground litter in which to hibernate.

Weekly checks are made to determine boll weevil populations so that chemical applications will be applied at the proper time. Such surveys minimize misapplication of pesticides. To reduce the food supply, the farmer is requested to apply the proper herbicide desiccants. Stalk destruction after harvest is also advised.

This program has been used successfully in the Rolling Plains since 1965.

"We have made great strides in South Texas in fighting another cotton enemy, the pink bollworm, mainly by using wise cultural practices," Commissioner White said.

Under the Texas Pink Bollworm Law planting and plow-up dates are established for each cotton-growing area. At

ter harvest all shattered bolls and stalks are destroyed in order to kill the overwintering larvae. About one-third of the cotton acreage in Texas is under the pink bollworm program. Clean-up and stalk destruction efforts supported by local growers and enforced by the Texas Department of Agriculture are responsible for the success.

"Cotton is an 8 million dollar industry in Texas. Over 5 million acres will be planted in the 1973 season. The Department will certainly do what it can to protect the farmer's investment." Commissioner White said. "But these programs cannot be a success unless all the farmers in the state cooperate and observe regulations."

"If one farmer in the county allows the boll weevil or the pink bollworm to flourish, all the good efforts of other growers in the area will be in vain."

The Haskell County Boll Weevil Association is currently conducting a membership drive. All County farmers and ranchers are urged to contact the County Agent for membership information.

Haskell Livestock Auction Celebrates Seventh Anniversary

Haskell salutes the Haskell Livestock Auction this week of their seventh anniversary. The auction, first in the United States, according to Earl Sargent, to sponsor a Beef Buy Cott, is co-owned by James Powell and Pete Burkhalter. During an average week the auction employs five people and on Saturday close to 30.

They annually sponsor a cattle drive into the barn, and host a free barbecue for the riders and friends.

This year, they have auctioned off FFA livestock animals for Jayton, Spur, Aspermont and Haskell, as well as furnished the sound system for these events.

They allow use of their arena for area activities such as 'Play Day' for the kids here in town and the Barrel Racing Association annually for their time trial events.

Haskell is proud to wish Haskell Livestock Auction a happy seventh anniversary!

Stocks of the four feed grains—corn, oats, barley and grain sorghum—in Texas and throughout the nation continue to show declines, with wheat at the lowest level since 1968.

In Texas, a decrease of 47,000,000 bushels of the four feed grains was reported with grain sorghum declines being responsible for the downturn. Only oat stocks are above those of a year ago.

Wheat stocks in Texas stored in all positions as of April 1 are 15 percent below a year ago. Disappearance during the Jan-April quarter is estimated at 37,700,000 bushels; up sharply from the 3,000,000 bushels disappearance for the same period last year.

Grain sorghum stocks are estimated at 15,900,000 bushels, down 4 percent a year ago.

Corn stocks are estimated at 15,800,000 bushels, down 4 percent a year ago.

Soybean stocks are estimated at 5,900,000 bushels, down 44 percent below a year ago.

The top counties in Texas in production of fruits and nuts are San Saba and Gillespie. San Saba takes the 1972 honor in pecan production, and Gillespie county is the state's No. 1 peach producing county for 1972.

Texas for 1972 was the nation's leading state in pecan production. The state ranked 7th in 1972 in peach production.

Total pecan production for Texas during 1972 was 65,000,000 pounds. Most of the production was in the south central and cross timbers areas.

Other top counties in pecan production in Texas during 1972 were Gonzales, Comanche, Hood, Guadalupe, Colorado, Lavaca, DeWitt, Bell and El Paso.

Other top counties in peach production in Texas during 1972

were Upshur, Camp, Parker, Montague, Eastland, Clay, Comanche, Limestone and Lampasas.

This year the peach crop will be produced mostly in Central Texas and East Texas as the late freeze has either damaged or destroyed the crop in north Texas and on the High Plains.

Pecan trees are blooming in many areas of the state. Some damage is expected due to the late freeze which will reduce the crop in some northern sections of the state.

Egg production in Texas continues to have its ups and downs, the Texas Crop and Livestock Reporting Service notes.

Egg production during March was 11 percent below a year ago but 20 percent above last month. Nationwide, egg production was down six percent from the past year.

Gross income for dairying in Texas during 1972 was up eight percent from the previous year. Texas farmers received a gross income from dairy products of \$243,000,000. A total of 3,300,000,000 pounds of milk was produced in the state during 1972.

Total milk production was up from four percent from 1971.

Continue to submit screw-worm samples to the fly laboratory at Mission, authorities request.

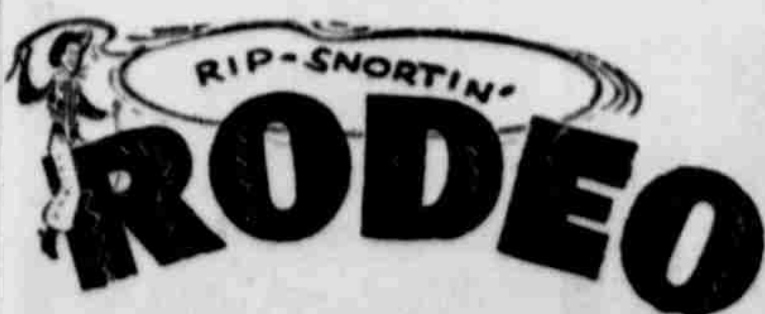

Thus far, 1973 is turning out to be a good year in screw-worm control. But livestock producers are urged to increase the sending of suspected screw-worm samples to the fly lab in Mission. County agents and vocational agriculture teachers have vials in which the samples may be sent.

Mrs. Lera Morgan and Lee Ann of Dallas visited Mr. and Mrs. James Powell last week.

Joe Fincher of Dallas enjoyed a weekend home with his parents, Mr. and Mrs. Gerald

10, at the new Community Room. Residents of Haskell are invited to the meeting which will be held at 7:00.

Fincher and Jill. Joe is employed by Dresser Industries.

Mr. and Mrs. Kenneth C. Keathley of Texarkana and Mrs. Bryan Keathley have been visiting in the Howard Perry home this week, to be with their father, Matt Keathley, who is ill. Mr. Keathley has been transferred to Rice Springs Care home and is slowly recovering this week.

Also visiting the Howard Perry's last weekend were son, Tom, and Monisa Ashley, of Texas Tech. Monisa is out for the summer, and her mother, Mrs. Leonard Ashley of Bowie, met her here to take her home.

Governor Briscoe signs proclamation designating May 6-12 as a period of public support for the National Guard and Reserve. On Governor Briscoe's right is Maj. Gen. Thomas S. Bishop, Adj. Gen. State of Texas. On his left is Col. James C. Craig, USAFR, National Vice President of Reserve Officers Association and Col. James D. Isaacks, Jr., USAFR, who is President of the Delaware Punch Company. Both Col. Craig and Col. Isaacks are members of the National Committee for Employer Support of the Guard and Reserve.

Lora Ross Has Dream Come True

One of the dreams of Lora Beth Ross has been realized. Her dedication to children and her concern for their welfare, have been recognized. The first draft of the Articles of Incorporation of the Lora Beth Children's Foundation were drawn up last week, and were presented to special educators in the Haskell-Knox Consortium. The corporation is a non-profit corporation organized and operated exclusively for educational, scientific and charitable purposes. It is set up to be a perpetual corporation.

Ms. Ross, employed by the Haskell-Knox Consortium, with offices in O'Brien, has 11 years experience. She is certified in five areas of this work—diagnostician, Elementary, High School, mentally retarded and counselor. She has long known that until the basic physiological and psychological needs of the child are met, he cannot receive the maximum benefit from his educational opportunities. Her individual effort to meet these needs in the school children of the two counties of Knox and Haskell was an overwhelming task too great for one person to achieve.

The general purpose of the corporation will be to receive and accumulate funds whether gift or otherwise, and make them available on a charitable and free basis for the purchase of medicines, prosthetic devices, eyeglasses or ophthalmological devices and care, dental work and appliances, diet supplements, shoes and clothing, and general and specialized medical services for poor, indigent, needy or destitute minor children within the State of Texas, primarily in the counties of Haskell and Knox.

The document for founding the corporation was drawn up at the request of Dr. Marjorie Keele and Mrs. Reba K. Walker, two of the consultants working with the Haskell-Knox Consortium.

Dr. Keele is a Dallas pediatrician who has made three trips to Haskell-Knox to provide medical examinations to children in the Plan A program. Mrs. Walker has taught the staff development classes through Texas Woman's University for four semesters and served as a consultant in the ten schools of the Plan A Consortium. Both women recognized the outstanding service of Mrs. Ross as she gave of her time, talent and energies, far above the requirements of her profession, and wished to assist and honor her.

The Lora Beth Ross Children's Foundation is the outward manifestation of this dedication to serve children. Application for tax deduction privileges on all gifts to the Foundation has been submitted.

Paint Creek
Community News

Mrs. Gene Overton

Most of the activity in our community these days is centered around the school and end of year programs. Last Thursday the All-Sports banquet was held in the lunchroom. After the barbeque dinner, Coach David Mimms introduced Mr. Charles Smith who was guest speaker.

A new state ruling is that athletes may receive only one jacket during their high school years. They may receive a small plaque, as an award in one sport.

The awards presented by Coach David Mimms were for boys football, plaques to Phillip Cockerell, Gary Shaw and Danny Brueggeman, and for boys tennis, to Tommy Pritchard (who went to regional in tennis), to David Green, Gary Shaw, and Billie Green. Coach Tom Pritchard presented awards for girls basketball to Peggy Dudensing, Kathie Morales, Marilyn Griffith, Denna Jasso, and Linda Caddell. The awards for girls tennis went to Annilyn Pritchard, Connie Brackell, Melyn Miekler, and Vicki Ansley. Juniors receiving letter jackets were Robbie Peiser, Quala Buerger, Shelia Andress, Kathie Bartley and Barry Shaw.

The Kay Overton Award to the best girl athlete went to Annilyn Pritchard and the Most Conscientious award to Robbie Peiser.

Danny Isbell, his parents, Mr. and Mrs. Allen Isbell, and sisters, Jannine and Janice, were hosts to some of the H-SU Rodeo Club at a fish fry Sunday evening. You should have seen the parade of pickups and cars that passed here going to the Isbells. Guests were Archie Jobe of Winters, Marsha Webb of Richardson, Ruby and Janice Rainey from Weinert, Bill Cotter from California, Earl Jordan from Hendricks' Ranch, Jerry Sanders of Weinert, Phil Phyllis and little Adam Coleman and the Isbell family.

Mr. and Mrs. Everett Fogel from Whittier, Calif., are here visiting his sister, Mrs. Walter Fischer and Walter and his nephew, Gene Fischer, and his family.

Paint Creekers attending the

revival services at the Haskell Church of Christ last week were the Burl Medfords, the Billy Middlebrooks, the Wayne Peisers, the Martin Colemans, the Johnnie Earles, the Buddy Brazzells, the Marvin Ansleys, the Tom Pritchards and the Jim Townsends.

An oil well is going down on Mrs. Alice Overby's farm. Hope they strike oil.

Mrs. Gene Martindale underwent surgery last Saturday, April 28, at Stamford Memorial Hospital, she is recuperating nicely, and her children, Mrs. Frank Simms of Vernon, Mr. and Mrs. Roy Martindale of Fort Worth, Mr. and Mrs. Jess Hartline, and Alisa and Dudley Meeks of Hawley have been here to visit her last week and this week.

Mr. and Mrs. Jodie Earles are the proud grandparents of a baby grandson. Little Jodie Isreal Daniels was born to Mr. and Mrs. Frank Daniels of Nashville, Ark. Mrs. Daniels is the former Margie Earles, Mr. and Mrs. Earles spent last week in Nashville and Mr. Earles came home to his farm work last weekend. Grandma stayed a week longer.

Mrs. Emma Miles, mother of Mrs. Ernest Bosse died last Monday and funeral services were held Wednesday at Kenny Funeral Chapel in Stamford. Mrs. Miles was 95 years old.

The Methodist Church honored this year's graduating seniors with a supper at the church recreation building Monday evening. Entertainment was a Hootenanny directed by Bennie Young and Wallar Overton. Laurie Young played her violin. Members of the senior class present were Linda Caddell, Billie Green, Diana Jasso, Gary Shaw, David Green, Marilyn Griffith, Alberto Jasso, Tommy Pritchard and Danny Weaver. The class sponsor is Mrs. Willie Lee Medford. Other guests were members of the Paint Creek faculty and their families, Rev. and Mrs. Jim Townsend and son, Mrs. Bennie Young and Don Comedy.

Paul Fischer fellat home last week and broke a rib. Don't tell him any jokes or cause him to sneeze.

There will be a PeeWee track tournament at Paint Creek on Thursday starting at 12:30. This includes grades from 1 to 6. The same schools that are in our basketball district. Rule, Rochester, O'Brien, Goree, Old Glory, Benjamin, Weinert and Paint Creek have been invited. That should be a fun track meet.

At the Haskell Garden Club Flower Show week before last the Educational and Conservation display was made by Mrs. Velton Middlebrook, Mrs. Norman Nanny and Mrs. Gene Overton. They made pictures of our West Texas birds. The nests were all last summer's bird nest from Paint Creek. The oriole nest came from the front yard of Kinda and Debbi Wells. The sparrow nest came from a tree along the highway, the humming bird nest from the

Mary Moeller Takes Training Course

Mary Moeller, who is employed in the food service department of Haskell Memorial Hospital recently completed a 90-hour training course in food service supervision. The course was offered through the Vocational Education Department of the Abilene Public Schools in cooperation with the Big Country Dietetic Assn. The Texas Education Agency approved and funded the course. Course approval was also obtained from the American Dietetic Assn., which qualified those who successfully complete the course for membership in a national organization for food service supervisors. This organization is known as HIEFSS which stands for Hospital, Institution, and Educational Food Service Society. The training course consisted of classroom and practical experiences in the areas of sanitation and personal hygiene, basic nutrition and modified diets, weights and measures, standardization of recipes, menu planning, food purchasing and storage, food preparation and service, safety, supervision and leadership, and record keeping. Students attended classes in Abilene on scheduled Wednesday's from 9 a. m. to 3 p. m. Practical experiences were carried out in their health-care facility under the supervision of a qualified dietary consultant.

The course was officially completed on Sunday, May 6, with presentation of certificates and a reception at the Amy Graves Ryan Center of Fine

honeysuckle vine at the Gene Overtons, and the other nest (we said a dove's nest, but we weren't sure) came from the Rike Ranch over by the lake. Did you know that every bird is protected by law in Texas except the sparrow, the crow and the pigeon?

The Homemaking girls of Paint Creek gave their assembly program last Friday. Our homemaking teacher is Mrs. Gertrude Tiry and she is a wonder.

Paint Creek Supt. Bill Gibbs has accepted the superintendency of the Bryson School and we will be losing this fine family. Mr. Gibbs was excited about the new school, but he said they surely would miss their Paint Creek friends.

Susan Lewis To Compete At State

SUSAN LEWIS

Susan Lewis, daughter of Mr. and Mrs. Cecil Lewis of Rule, will compete in the State 4-H Food Show at the State 4-H Round-up on June 4, 5 and 6. The State Round-up consists of various 4-H contests for 4-H members that have won top honors in their County and District.

This is Susan's second year to compete in the State 4-H Show. Last year she was 2nd in her division. Susan will be using the following recipe that has already won two 1st place ribbons, one in February at the Haskell County Food Show and one in March at the District III Food Show:

Pineapple-Top Layers
Pineapple-Lime Layer
1 pkg. lime-flavored gelatin
1 cup hot water
1 9-oz. can (1 cup) sliced pineapple
2 Tbsps. lemon juice
Dissolve gelatin in hot water. Drain pineapple, reserving the syrup. Add lemon juice to the

syrup and enough water to make 1 cup. Add to dissolved gelatin. Chill until partially set.

Cut pineapple slices in thirds, arrange in an "S" design in bottom of 10x5x3 pan. Pour small amount of gelatin mixture over pineapple. Chill until set. Then add rest of gelatin mixture. Chill until firm.

Lemon-Cheese Layer
1 pkg. lemon-flavored gelatin
1 cup hot water
2 3-oz. pkgs. cream cheese
1/3 cup mayonnaise
Dissolve gelatin in hot water. Chill until thick. Then whip until light and fluffy. Blend softened cream cheese and mayonnaise, fold into gelatin. Pour mixture over lime layer. Chill until firm.

Strawberry-banana Layer
1 pkg. strawberry-flavored gelatin
2 cups hot water
2 fully ripe bananas
Dissolve gelatin in hot water. Slice bananas over lemon layer. Pour dissolved gelatin over all, chill until firm. Makes 12 servings.
