Worth

By Nanalee Nichols  
Thanksgiving is this Thursday, of course, and sometimes it is hard not to lose sight of the original purpose of the holiday.

It is easy to forget that the Pilgrims originated the holiday, and that it is not held for the purpose of holding football games.

After near starvation the Pilgrims were thankful for pumpkins, meat, corn and the friendship of a small band of Indians...plus just being alive.

We have so much now. We talk of hard times, but almost any "old timer" can recall much harder times, and when one remembers the day-to-day struggle just to survive back when this nation was being settled the problems we contend with aren't so formidable.

So many things are taken for granted now. Such a simple thing is a glass of water. We turn a tap, and water comes forth, hot or cold.

Not too many years ago, water had to be drawn from wells, or before that, taken from creeks or springs.

We flip a switch and the lights come. We give it no more thought than breathing.

When we turn a key an engine cranks. The vehicles available to us now travel distances in comfort that our ancestors fought step by grueling step.

Warmth in unheard of forms, unheard of quantities is available to us. We fuss about the cost, but it didn't matter how much money was available back in the past, it couldn't buy a comfortable house.

And consider food. Cooking is no problem, gas or electric or microwave...there is a choice.

Turkeys are available in a staggering number of ways. A plain frozen turkey can be purchased at any store. Or one that bastes itself in golden butter...or one that consists of only breast meat...or one that is half dark meat and half white and packaged in a neat little roll...or one that is smoked...or glazed. About the only kind of turkey not available right now is one alive and unfrozen!

The whole point is just how much we really DO have to be thankful for. We are warm, sheltered, fed, and comparatively unthreatened.

This Thanksgiving Day, give it a thought.

SCOTT NEASHAM, right, National President of the Future Farmers of America, congratulates Kip Winters of Pattonville on his achievement of the American Farmer

Degree. The degree was awarded in a ceremony at the 55th National FFA Convention, held in Kansas City, Missouri on November 11-13.

### CF Campaign Raises \$664.26

The North East Texas Chapter of the Cystic Fibrosis Foundation is grateful to Sharon Sullivan of Pattonville for raising \$664.26 in the Fall Breath of Life Campaign.

The money contributed by the citizens of Pattonville will help extend the lives of CF children and adults and will support the nationwide efforts of researchers to find a cure for CF. It will also help finance public education efforts, which will lead to early diagnosis and proper treatment of the disease.

A disease like CF would deserve our attention and concern if it struck only one family. But CF is America's number one genetic killer of our youth, and one out of every twenty persons in this country carries the gene that can pass the disease along to the next generation.

Consequently, we have a long way to go to conquer

CF. You who worked so hard and you who gave so generously, have helped to take another step forward.

## Footprints From The Past

**By John W. Hood**  
Thanksgiving is one of the most special times I can remember from my childhood days.

All the family gathered at my grandmother Hood's home for a day of feasting and visiting, and talking about the Christmas holidays ahead.

Back then my granmom insisted that everyone come to her house for a "big feed" and no place else would do. Thanksgiving was such a good holiday. As far as I was concerned, it was one of the best.

There was always a lot of good eats and all the other kids and the aunts and uncles. After we had eaten all we could hold, us kids would go out to play while the older women would clean up the dishes, and by the time they were all through, it would be time for the football game between Texas and Texas A&M.

All the men would gather around the radio to listen to the game, and Mam would quit the women and join the men and boys, because she loved football. Football wasn't her favorite sport, but it always held her until the baseball season began!

Mama could tell anyone the leading rusher, and who was the leader in passes or punts. She knew who all the coaches were, and the standings in the Southwest conference, and she would spend a lot of time explaining the game to us little ones.

When baseball season

began, Mama very seldom missed a game on the radio. She knew all the big league players, what position they played and their batting average.

Her favorite was the Texas league, and she would gather all us young ones around her and explain all the things that went on, who was the next hitter, whether he was liable to hit or not. Mama would get excited over the home town teams too.

Intense rivalry would go on between the Bogata and Deport teams, and mama knew everyone. She would holler at the opposing pitcher trying to get him rattled so he would make a mistake, and darned if I don't think it worked sometimes.

Mama helped us kids in sports a lot. She made yarn baseballs, and if we didn't have enough on a team, she would come out and play with us.

Thinking back to past Thanksgivings I know now that there was never anytime greater than sitting around that radio, stuffed with good food and my mom's face glowing with the excitement of a football game!

have a nice weekend...
