

Prairiland Teams Take Victories Over Tigers

By Paul Lyles
Both Prairiland varsity basketball teams dread the annual trip to play in Clarksville's snakepit of a gym. Most visiting teams have a right to cringe when they are made aware of the fact that the Clarksville Blue Tigers rarely lose at home. But that fear was put to rest Thursday night as both Patriot teams came away with victories. The boys won 67-61 and the Patriot fems took a 64-39 runaway.

Prairiland raised their season mark to 13-7 and their 13-AAA record to a 2-1 record. The Pats are now one game back of the North Lamar Panthers and are in a second place tie with Clarksville.

The Patriots had big leads in both halves that did not stand up, but they came up with the big plays in the last three minutes of the game. A three point play by Jeff Griffin and a pair of free throws by Scott Scudder helped clinch the win. Griffin got out of the gates in the first quarter with three straight baskets as the Patriots streaked to a 22-10 lead at the end of the first quarter.

Both teams reversed their scoring roles in the second quarter. The Blue Tigers outscored the Pats, 19-6 in the quarter. Scudder gave Prairiland a 28-18 lead, but Clarksville came right back to stun the Patriots with eleven unanswered points at the end of the first half. This string of points enabled the Blue Tigers to have a 29-28 at the half lead.

Prairiland came out in the third quarter intent on regaining the lead. In a three minute span, the Pats outscored the Blue Tigers 11-3. With Prairiland holding on to a slim 32-31 lead, Griffin scored on two inside moves and Rodney Harrell put in two free throws help the Pats storm to a nine point advantage.

Once again, Clarksville fought back with nine points in the last three minutes of the third quarter to cut the lead to 47-45 as the third quarter ended. Prairiland opened the final quarter of play with two buckets to open up a 51-45 lead. The Pats were owners of a 53-47 lead at the 5:59 mark. But Clarksville came back with six straight points, the last bucket tied the contest at 53-all with 3:40 remaining in the game.

The rest of the game was like a Chinese fire drill. Both teams traded buckets three times to make the score 59-all with 2:06 left. Five of the most important points of the game followed. Scudder made good on two free throws and Griffin was fouled as he made a driving lay in. After Griffin's successful free throw attempt, the Pats held a solid 64-59 margin with just over one minute left. After the Blue Tigers scored two points, Scudder, who has been a clutch free throw shooter this season, added two more to the charity stripe to give the Pats a 66-61 lead with just :23 left. Joe Smith added a free throw later to give the final margin.

Griffin led the Pats in scoring with a game high 28 points. Scudder had 17 and both Smith and Kalvin Williams had 10 each. The Lady Patriots got a firm grip on second place in District 13-AAA with a whopping 64-39 shellacking of the Clarksville Lady Blue Tigers. The Patriot fems, at 4-1, are one game behind the state-ranked Pittsburg Lady Pirates. Prairiland's season mark stands at 15-7. Prairiland was sluggish in the first quarter, but they still managed to lead 10-9 at the end of the first quarter. The onslaught began in the second quarter when the Lady Pats press became effective. The Pat fems scored seven straight points to take a 30-15 lead near the closing moment of the first half. The halftime lead was 31-18. The third quarter was a mirror image of the first quarter as the Lady Pats won the eight minute battle 10-9. This gave them a 41-27 advantage going into the final period. The Patriot fems got lay up after lay up in the last quarter as they mauled the Lady Blue Tigers in the last quarter by a score of 23-12. Vicki Bridges ended the scoring with a long rainbow at the game ending buzzer. Anita Jaynes paced Prairiland with 14 points and Kim House and Bridges added 12 each. In the first contest of the evening, the junior varsity boys were defeated by Clarksville by the score of 66-37. The Prairiland Varsity Boys defeated Mt. Vernon 74-56. High Point honors went to Jeff Griffin with 24, and Scott Scudder with 20. Todd Davis had 9 and Heath Kennedy earned 8. The Varsity Girls defeated Mt. Vernon Tuesday night. Boys scores were not available, but the girls defeated the Mt. Vernon fems 73-35, leaving them 6-1 in district competition now. Donna Vaughn had 17 points, Kim House 12, Tiffany Morgan 11, Vicki Bridges 11 and Tonya Burdine 10. The JV Girls won 28-16. Jenissa Baker made 10 points, JoAnna Keys 6 and Tammy Owens 6. The basketball teams will take on Winnsboro Friday night and Pittsburg Tuesday.

Prairiland Student Wins American Legion Contest

The First District Oratorical Contest of the American Legion was held at Paris Junior College campus on January 21 in the Alford Center. Rod Eatherly of Prairiland High School was the winner of the first contest. Eatherly was sponsored by Warren Teague Post of Deport. He will advance to the First Division American Legion contest to be held in Denton on February 4. Rod will receive a \$500 scholarship from the First District of the American Legion when he enters a college of his choice. He is only a junior student this year and will be eligible to compete in the 1985 contest also. His speech was on the constitution of the United States. The purpose of the American Legion's National High School Oratorical Contest is to develop a deeper knowledge and appreciation of the constitution of the United States on the part of high school students. Other objectives of the contest include the development of leadership, the ability to think and speak clearly and intelligently and the preparation for acceptance of the duties and responsibilities, the rights and privilege of American Citizenship.

Dear Sir:
I don't know who is on the Highland Cemetery committee. But I was there taking my Christmas flowers off of my loved ones graves and I saw this grave which needed attention very bad. I walked over to see whose grave it was and it was Miss Rhoda Oliver's grave. I told my husband that is awful for her grave to be in that shape. She helped Dr. Grant deliver nearly everyone that lives in Deport now. Surely there is some one that remembers her untiring hours she spent with the sick that will take a hoe and shovel up there and spend thirty minutes on her grave.
Yours truly,
Mrs. Grady Hignight
1120 North Ross
Sherman, Texas
Editor's Note: I quite agree with Mrs. Hignight, citizens of Deport owe Mrs. Oliver a lot, perhaps a committee should be formed to tend to her grave.
Mrs. Pilip Hosts Garden Club
The Blossom Garden Club met in the home of Mrs. Edward Pilip Monday night, January 23. The meeting was called to order by president, Mrs. Earl Crawford. Minutes were given by Mrs. Mae Crawford and a treasurer's report by Mrs. Natalie Ray. Mrs. Mae Crawford, Mrs. Arvena Goble gave the program on the basics of flower arranging. It was enjoyed by all. Each month two garden club members will bring the program on flower arrangement. Mrs. Sandra Graves won the door prize. Refreshments were served by the hostess and Mrs. Frances Anderson, co-hostess. The next meeting will be in the Church of Christ Education Building. Mrs. Sandra Graves will be the hostess and Mrs. Margo Crawford co-hostess.

Mike Allen Is New Head Football Coach At Prairiland

Mike Allen has been named as the Head Coach of the Prairiland Football Team after the resignation of Chet James recently. Allen is a 1980 graduate of East Texas State University with a Bachelor of Science in Health and Physical Education. He is a 1977 graduate of Prairiland High School, and was an excellent football player himself during his high school years. He and wife, Cathy, live in Blossom. They were recently married. After graduating from ETSU, Allen coached for a year in the Paris School System at Crockett Middle School. He then moved to Prairiland school. He has coached basketball and been coaching portions of the football team, such as linebackers, the offensive line, and being the offensive coordinator. He is currently coaching the JV basketball team, and has helped form and coach the Prairiland golf team.

Allen says he wants to concentrate on total dedication and put the emphasis on winning when he takes over as head football coach.

Not too long ago there was something on the television about hospitalization insurance for pets. I watched it...and laughed. More fool me!
The night after I limped home from the hospital after knee surgery, my nine year old house cat decided to "better" me. She was attacked and mauled by three dogs.
Now, that cat is pretty tough, she can handle any dog on a one-on-one basis...but not three large ones at the same time.
So, she went into the hospital with a fractured tail, a mangled leg, dislocated hip and some very serious lacerations. She went into the hospital at 3:30 in the morning...and there is an extra charge for veterinary emergency service. She came home three days later...with more medicine than I had!
Compared to her arrage of powders, bottles and pills, my two little prescriptions looked extremely puny. So did my knee incisions compared to her.
She had special food, and I spent a lot of time sitting and talking to her, since neither one of us could walk. But within three days she worsened.
Thus the second trip to the hospital. A change of medicine, lancing of an abscess, drains in the leg, etc. No ICU human patient ever looked much worse.
So, again she came home. And she did well, for about four days, when the sneezing began. Back she went, for an IV, but at least we didn't have to leave her that time!
But there was talk then of something new. If she didn't get the ability to move her tail back soon, it would have to be amputated.
At present the cat is up, about, eating us out of house and home and lying comfortably in front of the fireplace.
However, I look at the stack of receipts for the trips and hospitalization and medication and wonder...what company do you reckon HAS that pet hospitalization!

Footprints From The Past

By John W. Hood
While trying to keep warm during all the cold weather, we had the last of December made me think about how we keep warm when I was growing up. We would build a big fire in the fireplace and then all the family would gather around and that way we could stay warm if we did not have to

go to another room or outside for some reason and when that happened you would put on all the clothes that you had and make a run for it and you never did tarry very long either.

It kept you warm a little bringing in wood for the fireplace. I do believe that those old fireplaces could burn a rick of wood a day and still not keep you warm.

Sometimes after supper and when we had gotten the dishes washed and our lessons for the next day, Mom would make some taffy candy and then we would all help pull it. I did not know why you had to pull the candy to get it ready to eat but you did. I still don't, and if any of you know, I wish you would tell me the next time you see me.

After we had the candy ready to eat and were sitting around waiting for it to cool, Dad would start to tell of some of the experiences that he had when he was a young man and then that would get Mom started telling of her experiences when she was a girl. As I look back on those times they seem to stand out as all the family was gathered around the kitchen table talking and eating some good candy made by

my Mom with the help of all the family.

The summers were another thing altogether, as there was no way to stay cool as there was no electricity in the country and not very many families who lived in town had electric fans. The only way to stay cool was to use an old Garrett snuff fan that was such a job that you got hot trying to stay cool.

I think I liked the winters best for there were a lot of chores we had to do in the summer that we did not have in the winter. I can still remember when my sister was dating, we lived at a place where we had no grass on the lawn and sis would have my brother and I sweeping the yard and raking the chicken feathers out from under the house every Saturday morning as she didn't want her boyfriend to see the yard with the chicken feathers.

When Saturday evening came, me and my brother wanted to see and talk to her boyfriend as we thought that he had come to see us also, now that I am grown. I can see why she did not want us hanging around.

We didn't have the ice boxes then as we know them now but as we grew older and things did progress, we did have the old ice boxes where you had to put the ice in them. In fact, when I was in high school, I had a job delivering ice and I had a pair of the smartest mules that I ever did see, as they knew the ice route better than I did. They would pass

It Could Brake Your Neck

Disc brakes on modern cars may lock up when drivers pump them to slow down or stop on icy roads. Auto safety researchers at the Texas Transportation Institute have discovered that the new disc brakes do not release as quickly as drum brakes and if pumped, may not release at all, causing lockup and resulting in skidding. Vehicles with disc brakes should be squeezed with a slow, steady pressure and held.

Estimate Tax Now To Avoid Penalty

When lawmakers set up the tax law, they made it a pay as you go system. If you have a job where taxes are withheld from each paycheck, based on the number of allowances you claim, there is likely to be no problem. But if you have other income of \$500 or more, from self-employment, interest, dividends, capital gains, or rents for example, where there is no withholding, there may be a problem, the Internal Revenue says.

Generally, you may be required to pay estimated tax if you expect to owe \$400 or more in tax for 1984, and you either expect to have \$500 in income not subject to withholding or expect your gross income to be more than: \$20,000 if you are single, a head of household, or a qualifying widow or widower, or \$20,000 if you are married, entitled to make joint estimated tax payments and your spouse has not received wages for

1984, or \$10,000 if you are married, entitled to make joint estimated tax payments, and both of you have received wages for 1984, or \$5,000 if you are married and not entitled to make joint estimated tax payments.

Generally, when all is said and done, if you owe \$400 or more in taxes for 1984 you might be in for a surprise, a penalty for not making estimated tax payments or for not paying enough estimated tax. The penalty for not making estimated tax payments, or for not paying in enough estimated tax is 16 percent a year from January 1 to June 30, 1983, and 11 percent a year from July 1, 1983 to June 30, 1984, and the penalty cannot be abated. However, you will not have penalty if:

You had no tax liability last year, were a U.S. citizen or resident for the entire year, and your taxable year was a taxable year of 12 months.

The amount of your income tax withholding and estimated tax payments for 1984 is equal to or more than your total tax for 1983, or, The amount of your income tax withholding and estimated tax payments for 1984 is more than would have been due on your 1983 income using 1983 rates and personal exemptions, or,

The amounts of your income tax withholding and estimated tax payments for 1984 is equal to or more than 80 percent of the tax on your annualized taxable income, for 1984 for the periods from January 1, 1984 to March 31, May 31 or August 31, 1984, or,

The amount of your income tax withholding and estimated tax payments for 1984 is equal to or more than 90 percent of the tax on your actual taxable income for 1984 for the periods from January 1, 1984 to March 31, May 31 or August 31, 1984.

If you believe you should be making estimated tax

payments and you also have wages from which income tax is withheld, you may be able to fill out a new Form W-4, "Employee's Withholding Certificate," and have more withheld each pay period instead of making estimated tax payments.

For more information contact the IRS for the free Publication 505, "Tax Withholding and Estimated Tax."

4H IN FOCUS

By John R. Senter

On January 17, Dr. T.D. Tanksley, A&M University Swine Specialist, was in Paris presenting a program to 4-H and FFA members with swine projects for the April livestock show.

Despite bad weather, several 4-H and FFA members and parents attended. Dr. Tanksley addressed proper ways of selecting show pigs, to fit the modern trend in today's show rings. He placed emphasis on correct muscling and production efficiency. He also spoke on proper feeding for show pigs to maximize profit and gain the most possible potential from show pigs.

He explained the relationship of correct confirmation to soundness of feet and legs and the importance of both. Dr. Tanksley ended the meeting by urging swine competitors to properly feed for the correct finish and weight for the individual pig.

I would like to take this opportunity to remind each 4-H and FFA member with a beef project, that the showing and fitting clinic which was set for January 7

was rescheduled to February 18.

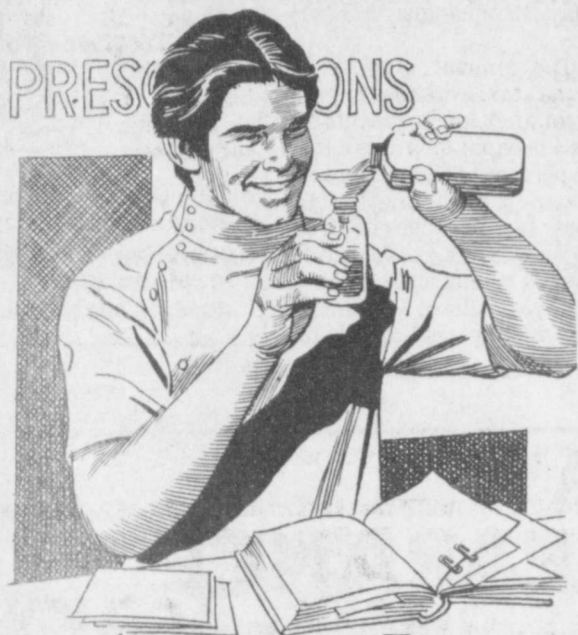

The starting time is still 10:00 a.m. at the county fairgrounds. The new development is that Jack Cross will be present to assist with the showmanship segment of the clinic. He will also be on hand to trim feet on all beef cattle for \$10 per animal.

I encourage everyone with beef cattle to attend the clinic and plan to have your steer or heifer's feet trimmed.

I have several items for 4-H lamb exhibitors. First, all members with sheep call me at 785-4513 so I may set up a date to check your lambs on feeding programs and condition.

Next, I wish to remind you that February 7, the date previously announced for the county lamb tooting was INCORRECT, it will be held at the county fairgrounds and will begin at 9:00 a.m.

This is an important notice: I have received the leg bands for the 4-H entered Houston birds. If you have questions, please contact me.

Texas-New Mexico Power Announces Rate Increase

The Texas-New Mexico Power Company announced today that they were filing with the Public Utility Commission of Texas and the cities it serves for a 3.63 percent rate increase for all customers.

Galen Legate, District Manager for Texas-New Mexico Power Company, said a typical residential customer uses approximately 900 kwh each month. If a customer uses this amount, their increase in the price of electricity would be \$3.00 per month.

Legate cautioned that consumption varies and that

the amount you use may not be the same as the amount used by a typical customer.

The overall increase for residential customers is 3.82 percent; for General Service customers the overall increase will be 2.57 percent.

Maxie Davis, Vice President, Corporate Affairs, stated that the increase was necessary to cover increased operating expenses incurred in 1983.

The Public Utility Commission normally takes about five months to make a final determination on a rate request.

Weekly Agricultural Briefs

Area wheat escaped the December freeze with very little damage other than a kill of the top. However, oats met their Waterloo. Producers from throughout the county report a drop in the early sale of some stocker cattle dependent on the oats for winter grazing.

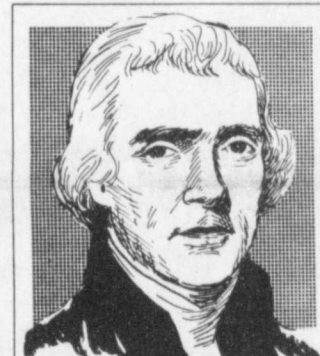

Robert Ledbetter and Lloyd Thompson, Direct Community stocker operators, are two farmers that have reported oat kill. They also reported a heavy oat kill in the Falls County area of Central Texas where there is the heaviest concentration of stockers in the state. Many of the stockers are moving to the feedlot where the winter pasture has been killed, according to Ledbetter.

Carl Jensen is the new president of the Red River Valley Limousin Association. Jensen succeeds Paris Limousin Breeder, W.G. Gibson in the position. Jensen's election was at the quarterly meeting of the association held last week in Paris.

David Hicks of Blossom is the new vice-president. Hicks and his family own 3L Limousin in the Red Oak Community. B.B. Oakley was endorsed by the group to serve on the board of directors of the Texas Limousin Association.

The active organization are working towards a September 15 breed promotion sale and will once again provide prize awards for junior in Limousin shows at Hugo, Honey Grove, Clarksville, Cooper, Sulphur Springs and Paris.

Although the wheat top growth was killed in this area, the wheat is expected to recover. In fact, it began to green up this week, and cattle are beginning to pick up a few bites each day.

Cattle herds consumed record amounts of hay during the three week cold spell, and has led to local cattlemen scouring the countryside for hay. Jerrell Burleson of the Garretts Bluff Community called and said he had a number of neighbors inquire about hay for sale. This could become a serious problem before green grass arrives.

If you have hay for sale, give our office a call. We will need your name, telephone number, type of hay, amount and bale information. Call 785-4513.

PJC Classes To Be Honored

Members of the Paris Junior College classes of 1934 and 1959, 50 and 25 years ago, will be honored during the 1984 homecoming on Saturday, February 18. All former students are encouraged to attend the activities, said David Denny, president of the PJC Association of Former Students and Friends.

Those in the 1934 class will receive Golden Dragon certificates while the 1959 class members will be given Silver Dragon certificates, Denny said. Special honorees will be members of the 1958-59 basketball team which ranked fourth in the nation that year. This is the best record ever for a basketball team at the college, said Mickey Flippen, athletic director.

To initiate homecoming activities, a reception and registration for the honored classes will begin at 2 p.m. in the Alford Center on campus. Registration and visiting for all former students begins at 2:30 p.m. in the center, and at 3:15, guests will go to the PJC Theater for a poor man's dinner theater.

A brief business meeting to elect officers and to recognize special guests will be held prior to the one-act play, and the dinner will be served at 5 p.m. Cost for the dinner is \$2.50 to be paid at the door.

At 6 p.m. the Lady Dragons' basketball game will begin in the Gymnasium, and the men's game will follow at 8 p.m. The 1984 homecoming queen will be crowned at halftime and the 1958-59 basketball team will be recognized. A homecoming dance for students and former students will follow the game.

THOUGHT FOR FOOD

Heavenly Angel Cake Surprise

This old-fashioned cake has a surprise pineapple cream filling.

1 pkg. (14.5 oz.) angel food cake mix

1 can (8 oz.) Dole Crushed Pineapple in Juice

2 1/2 cups whipping cream

1/2 cup chopped maraschino cherries

1/4 cup toasted chopped almonds

1 tbsp. sugar

Prepare cake according to package directions. Drain pineapple well, pressing out excess juice with back of spoon. Whip 1 cup cream. Fold in pineapple, cherries and almonds. Slice and reserve a 1-inch thick layer from top of cake. Cut cake around outer sides and inner sides, leaving about 1-inch thick border. Remove inside cake with hands; break in chunks. Fold into pineapple cream. Spoon pineapple mixture into cake hollow. Cover cake with reserved top. Whip remaining cream with sugar. Spread over cake. Refrigerate 2 hours, or overnight. Makes 8 to 10 servings. *Reserve juice for beverage.

Record Low Temperatures Cause Concern For Texas-New Mexico Power Company

Record low temperatures throughout the state caused the Texas-New Mexico Power Company and District Manager Galen Legate concern that some low income customers might have trouble paying their December usage electric bill in one lump sum.

"The Texas-New Mexico Power Company never wants to place undue hardship on anyone," stated Robert D. Woofler, chief executive officer of the utility. "Therefore in compliance with a request from the Governor's office and Public Utility Commission Chairman, TNP restates its 'Deferred Payment Plan' which should assist low income families," Woofler emphasized.

Galen Legate explained the program: If a customer has not been disconnected for nonpayment or has not been delinquent more than twice in the last 12 months, the Company will offer, at the customer's request, a deferred payment plan. The deferred payment plan will be applicable to the current delinquent amount, and payments will be of equal amounts for a period of not less than 30 days or greater than 90 days. Those wishing

to participate in the Deferred Payment Plan should contact the TNP office at 632-5762 as soon as possible.

The Deferred Payment Plan meets the requirements established by PUC Commissioner Erwin.

"This is not to be used by the customers as an excuse not to pay a bill, but rather to ensure that the customer's electric service is not disconnected because of an inability to afford a single payment for December's usage," stated

Commissioner Erwin. TNP also makes available average pay plan which spreads electric costs over twelve months. Such a plan is beneficial to families living on fixed incomes.

THOUGHT FOR FOOD

By GOULD CROOK
Southwestern Pecan Bread
2 1/2 cups flour
1 cup chopped pecans
3/4 cup chopped pitted dates
1 tsp. freshly grated orange peel
1 tsp. baking powder
1 tsp. baking soda
1/2 tsp. salt
3/4 cup sugar
1/4 cup butter, softened
1 egg
1 can (8 1/2 oz.) Dole Crushed Pineapple in Syrup, undrained
Combine 1 tbsp. flour, pecans, dates and orange peel. Combine remaining flour, baking powder, soda and salt. Cream sugar and butter until light and fluffy. Beat in egg until blended. Beat in 1/2 flour mixture until blended. Beat in 1/2 undrained pineapple until blended. Repeat, ending with flour. Stir in floured fruits and nuts. Turn into well-greased 9x5x3 inch loaf pan. Bake in 350°F oven 60 to 70 minutes until cake tester inserted comes out clean. Stand in pan 5 minutes. Turn onto wire rack to complete cooling. Makes 1 loaf.

Weekly Agricultural Briefs

By Herb Brevard

Heavier hay feeding during the extremely cold weather in December depleted some hay supplies much more than is normally expected. Possible hay shortages later in the winter are causing some producers to wonder about planting ryegrass now. Dr. Sim A. Reeves, Jr., agronomist, says that is is very questionable that enough production will be realized from ryegrass planted in sod now to justify the expense and the competition with warm season grasses later in the spring. However, planting ryegrass on a prepared seedbed where smallgrain was killed could be profitable. The ryegrass can utilize the fertilizer previously applied for the smallgrain and will face less competition from warm

season grasses. If planted now, ryegrass will not be ready to graze before March 1 and good production will not be realized until spring grasses began to grow.

Several chores need to be done concerning insects this time of year. According to Dr. James Robinson, entomologist, this is a good time to get pantry pests, household insects and stored product insects under control. Sanitation and the proper insecticide is the key to controlling these pests. Lice on cattle should also be controlled to help keep the animals in good condition.

Robinson says that spray equipment should be checked for freeze damage and repairs made before the equipment is really needed.

This is the time for Christmas tree producers to order pheromone traps and lures to use in determining tip moth infestations and timing insecticide applications.

Evacuating the Wounded

The Air Force has asked a Texas A&M think tank to develop specific ideas on how the nation's commercial airliners could be used to evacuate wounded soldiers from overseas battle zones in the event of war. More than 200 passenger jets—primarily of the jumbo jet class—and 100 commercial cargo planes are under the contract to the Air Force for just such emergency use.
