

NICHOLS' WORTH

By: Nanalee Nichols

I am not a big fisherman. This past summer, however, I spent a lot of afternoons and late evenings sitting on a porch with my nine-year old nephew, being the assistant fisherman. That, translated, means cleaning slime and water weeds off of hooks, helping hold the fish's mouth open while hooks are removed, keeping up with lures, baits and equipment, untangling lines and generally being his "flunky".

We had a wonderful time. This past weekend we went up to Spavinaw, Oklahoma to do a little swimming and relaxing with friends, and to visit my aunt, uncle and cousin.

Spavinaw is where my grandmother lived until her death. She taught me to fish.

Now, grandmother was a fisherman. There was no doubt about it. She knew where the big ones were, what they wanted, when they wanted it. What I know about fishing I learned from her.

We would get up good and early, drive down to the lake, lower her little fishing boat into the water and take off.

Anchored in some quiet, shady cove called "Deer Hollow" or "Black Foot Cove", we would fish for crappie, bass or bream as happy as clams.

She would tell me stories of the Indians, or point out different varieties of trees on the shoreline. Sometimes we would see beautiful deer coming down to the water to drink, or raccoons.

She would instruct me in general fishing knowledge, and served, I fear, in exactly the same capacity as I did this summer...general flunky to my baiting, fish removing and line tangling.

Once, I recall, I was told I had to remove a dead minnow from the hook. I had an aversion at that age (I hope I was quite small, but don't recall) to dead minnows, or live ones for that matter.

I refused. She said that I didn't have that option, the minnow HAD to come off and we weren't going home until it did.

I tried to grasp it lightly and gave a timid tug. Of course, the minnow's corpse didn't budget.

She gently, but firmly, insisted I try again. If I recall, it took about twenty minutes to get the blasted thing wellowed around until finally, more or less on it's own, FELL off the hook.

I was sobbing and whining by that time. She was a sfirm and gentle as ever...as implacable as the sun coming up, and as dependable.

As soon as I had overcome the minnow problem, we went for a nice, long cruise round the lake, looking at water lily blooms, opening up the throttle just for fun.

The dead minnow quickly became a standing joke between us. Of course, she never did overcome my distaste of putting live minnows ON the hook...which may be why I don't fish to much these days.

I wished for her this summer. How much more knowledge Jeffery would have obtained had she been around to teach him. How much more patience she had than I do!

Everyone needs someone to fish with when they are small. Most of us had someone. I can only hope that today's instructors were as special as those I was instructed by...and that the memories we create in the process will become as treasured.

Summer Is Through, The Signs All Say

Summer is through. Oh, sure, there are some hot days left, but those nights when folks without an air conditioner can lie awake all night long waiting for the temperature to drop below eighty degrees are over for one more year.

It is a typical East Texas September. The winds are cooler and more frequent, but the afternoons can still provide a sunburn and a lot of sweat.

Trees and animals know that fall is coming slowly and deliberately though.

Take a long look at the leaves.

Willows are turning pale yellow when the sun shines through. The bois d'arc leaves are falling to the ground...they are one of the last trees to leaf out in the spring and one of the first to de-leaf in the autumn. Perhaps they don't wish to take chances...not believing it's warm til the last and getting ready for an early cold spell sooner than anyone else.

Pecans are getting ready, hackberry and oak haven't a leaf without an insect chomp or two out of them.

Flowers such as roses are putting on their last display of color, hopefully

to last until October, but in East Texas no one can predict when the first frost will do it's work.

School is back in session. Youngsters, when queried, will pull long faces and answer that they don't like to be back in school. Every morning, however, they can be seen laughing, running and singing as they go into the school buildings.

Parents cast doubtful eyes at least year's winter garments, wondering whether they fit, or will last another year. Soon it will be cool enough in the mornings for jackets, but before noon

too warm to wear them.

The temptation to don long-sleeved, new fall clothes will be in evidence, too.

Animals are restless, feeling the urgings to prepare for winter. Fur gets thicker, hair longer, those which store food do so.

Something closely akin to spring

fever in reverse affects humans as they, too, scurry around getting beds ready for winter, trimming, mowing and cleaning.

They, too, know that autumn is here and winter not far behind.

Yes, summer is through for one more year, in spite of last flings of lakeside visits and yard mowing!

Prairiland FFA Wins Chapter Rating Award

The Prairiland Future Farmers of America organization was represented at several meetings held throughout Texas during the summer.

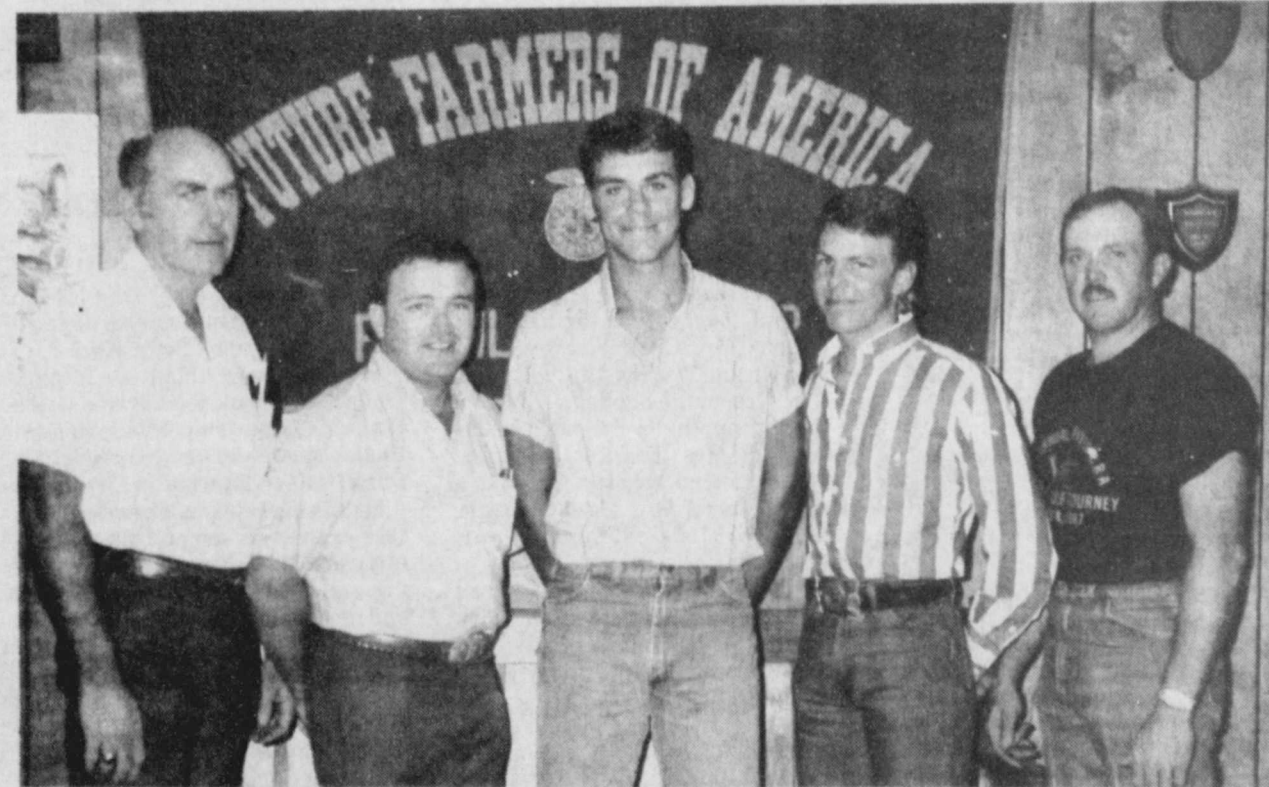

Prairiland was represented at the State FFA Convention in Ft. Worth and was one of three chapters from 1454 chapters to receive a National Chapter Rating Award. Students receiving State Farmer Degree titles were: Wes Winters, Jeff Fendley, Sheila Speir, Cassidy Vickers, Robbie Fults, Dakota Wright, Richard Eatherly, David Hevron, Kent Richey, Craig Blackburn, Mike Blackburn, Brad Watson and Bruce Watson. Students receiving the State Farmer Degree title must (1) earn or productively invest \$500 in a supervised occupational experience project, such as cattle or a crop and (2) have successfully completed certain established leadership skills. Wendy Milford was recognized as an American Farmer Candidate, the highest degree offered by the FFA; she will be awarded the title in Kansas City in November.

Local representative sattended the State FFA Leadership School in Trinidad, June 8-11; the Area VI FFA Leadership School in Avinger, June 17-18; the National Vocational Agriculture Teachers Association in Hot Springs, AR, June 16-18; the State FFA Convention in Ft. Worth, July 14-17; and the State Agri-Science Inservice Training in Houston, August 11-14.

Keith Reep, president of Area VI, represented Prairiland and the area at the State FFA Leadership School and attended workshops concerned with public speaking and leadership skills. The purpose of the school was to train area and district officers who could then duplicate the training at an area leadership workshop for the benefit of area and local officers. Wendy Milford, past state vice-president of Area VI, and an ex-Prairiland student, was also in attendance of the school.

Wes Winters and Keith Reep, with sponsors Buddy Freeman and Frankie Norwood, were Prairiland representatives at the Area VI FFA Leadership School. Skills previously taught at the state level school were reiterated at the area school. Mr. Norwood and Mr. Freeman attended a session for Area VI agriculture teachers to plan activities for the 1987-88 school year.

Bobby Winters, Prairiland FFA sponsor, attended the National Vo-Ag Teachers Association conference in Hot Springs, AR. Six states were represented at the conference. Prairiland sponsors Bobby Winters, Buddy Freeman and Frankie Norwood, while attending the State Agri-Science Inservice Training in Houston, were coached in curriculum changes in agriculture. Some changes were to begin for the 1987-88 school year; however, by the 1988-89 school term, all agriculture courses will be considered semester courses, thus, allowing students to have greater variation in selection due to the courses concluding each semester. One new semester course, Equine Science, has been added to the curriculum for the 1987-88 school year. The course is available to sophomores, juniors and seniors only.

THE PRAIRILAND FFA has been busy throughout the summer months, being represented at several meetings throughout the

state. Attending some of those meetings during the summer were, left to right: Ag teacher Bobby Winters and Buddy

Freeman, FFA officers Wes Winters and Keith Reep, and Ag teacher Frankie Norwood. (Staff Photo by Carolyn Ladd)

Patriots Win Season Opener 14-0

By Stan Anderson

The Prairiland Patriots opened the 1987 football season last Friday night in Pattonville against the Class AA Rivercrest Rebels. The Patriots took advantage of Rebel miscues and a size advantage over the smaller Rebel team as they powered their way to a 14-0 victory.

The Patriots kicked off to the Rebels in the first quarter. The Rebels began this drive moving the ball seemingly at will until flagged with an unsportsmanlike conduct penalty that forced a Rebel punt.

The Patriots set up on their own 26 in their new wishbone offense, but found the going tough as the Patriots only managed three yards in three plays. Following a Martin Babb punt, the Prairiland defense tightened the screws on the Rebel offense forcing a fumble recovery by Patriot Mike Ray.

Prairiland took possession on the 50 and began to utilize their size advantage picking up one first down and 21 yards before fumbling the ball back to Rivercrest on the Reb 25. The Patriot defense made quick work of the Rebel offense, forcing a punt on consecutive downs and took over again near midfield.

Prairiland began to tear off huge chunks of yardage behind the running of Craig Ladd and Steven Johnson. The Patriots pushed the ball to the Rebel 22-yard line. Then disaster struck as the Patriots turned the ball over to the Rivercrest team on the 25-yard line. At this point of the contest, the momentum had definitely

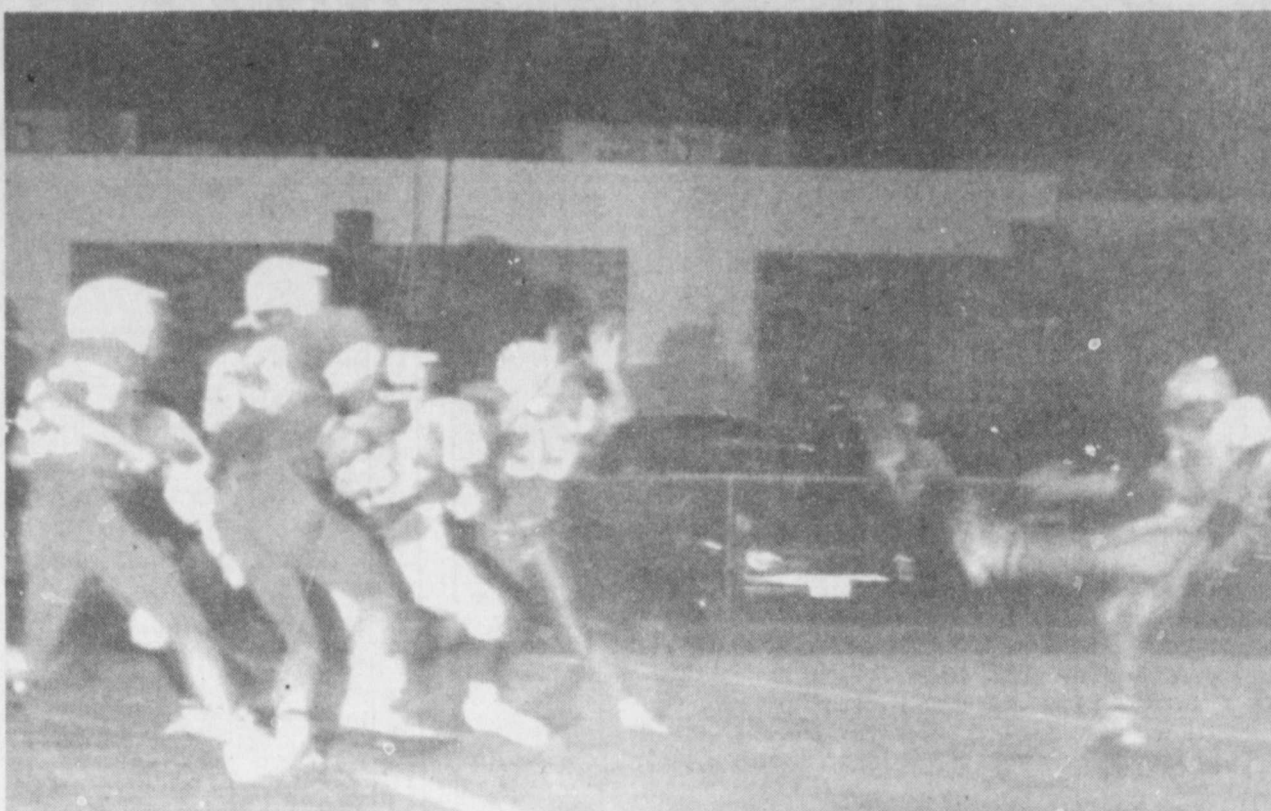

swung in Prairiland's direction. The defense quickly forced a Reb 46.

Ladd and Johnson went to work again on the Rebel defense, grinding out 45 yards, giving Prairiland a third down on the one-yard line. Quarterback Martin Babb plunged over from the one yard line as Prairiland took an early 6-0 lead. The point after kick was mishandled and the score stood 6-0 as both teams headed for the locker room at the half.

The Patriots opened the third quarter on their own 21-yard line. They were forced to punt after picking up one first down. But good defensive play from Lloyd and Joseph Whelchel on the defensive line shut out any Rebel threat and Prairiland took over again on their own 30-yard line. The Patriots began to move the ball well as they put together a 10-play series before being forced to punt.

The defensive units of both teams began to assert themselves as both teams traded punts until 5:00 minutes into the fourth quarter when another fumble recovery by Patriot Mike Ray gave them the ball on the Rebel 18-yard line. Prairiland used only two plays as fullback Steven Johnson rambled in for the final TD of the contest. The Patriots went for the two point conversion successfully, taking a 14-0 lead over the Rebels. Neither team mounted a serious threat as the clock wound down sealing the victory for the Patriots.

This week Prairiland travels to R.L. Maddox Stadium to face the Class AAAA North Lamar Panthers. Kick off is set for 8 p.m.

PATRIOTS Joseph Whelchel, No. 63, and Trevor Upchurch, No. 35, led the drive to block this punt

when the Prairiland Patriots held the Rivercrest Rebels scoreless in their season opener last Friday

night at Prairiland. The final score was Prairiland 14-Rivercrest 0. (Staff Photo by Stan Anderson)

PROPOSITION NO. 17 ON THE BALLOT
Senate Joint Resolution 26 proposes a constitutional amendment to allow the legislature to define by law those municipal functions that are governmental and those that are proprietary. This authorization would apply to laws passed by the 70th Legislature, 1987, and by future legislatures in regular or special session. A municipality is liable for damages arising out of acts committed under its proprietary functions, but not its governmental functions. Definition of such functions by the legislature would clarify the liability of a municipality in civil lawsuits filed against it. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment authorizing the legislature to define for all purposes the governmental and proprietary functions of a municipality."

PROPOSITION NO. 18 ON THE BALLOT
House Joint Resolution 18 proposes a constitutional amendment to authorize the legislature to provide for the creation, operation, and financing of jail districts. Financing of a jail district could be accomplished through the issuance of bonds and other obligations, or by levy of an ad valorem tax on property located in the district if the qualified electors of a district approve an ad valorem tax or bonds secured by a property tax. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment relating to the creation, operation, and financing of jail districts."

PROPOSITION NO. 19 ON THE BALLOT

House Joint Resolution 88 proposes a constitutional amendment to authorize the issuance of \$500 million in general obligation bonds, the proceeds of which will be used to establish a superconducting super collider fund. The fund would be used to provide economic incentives for the superconducting super collider research facility, and the agency administering the fund would be authorized to grant land or property to the United States government for undertakings related to the facility. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment authorizing the issuance of general obligation bonds to fund undertakings related to a superconducting super collider research facility sponsored or authorized by the United States government, and to make appropriate grants for such undertakings."

PROPOSITION NO. 20 ON THE BALLOT
House Joint Resolution 96 proposes a constitutional amendment to allow the legislature to provide ad valorem tax relief for mobile offshore oil and gas well drilling equipment. The tax relief would be limited to equipment that is being stored while not in use in a county that is adjacent to the Gulf of Mexico or on a body of water that is adjacent to the Gulf of Mexico. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment to authorize the legislature to provide ad valorem tax relief for certain offshore drilling equipment that is not in use."

PROPOSITION NO. 21 ON THE BALLOT
Senate Joint Resolution 17 proposes a constitutional amendment to provide for legislative involvement in the executive branch of government by permitting the legislature to include the speaker of the house of representatives in the membership of an agency or committee that includes officers of the executive branch of government and performs executive functions. Under current law, the legislature is not allowed to exercise any powers in executive matters under Article II of the Texas Constitution, which provides for the "separation of powers" into three distinct departments. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment permitting the legislature to include the speaker of the house of representatives or the speaker's appointee in the membership of an executive agency or committee."

PROPOSITION NO. 22 ON THE BALLOT
Senate Joint Resolution 53 proposes a constitutional amendment to allow the legislature to limit the term of office of a gubernatorial appointee to a vacancy in a state or district office to a partial, temporary term if the appointment is made on or after November 1 of the last year of the governor's term and the governor is not reelected. Under this amendment, the legislature may provide that the tenure of such an appointee would end sooner than the term would normally expire. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment to allow the legislature to limit the authority of a governor to fill vacancies in state and district offices during the end of the governor's term if the governor is not reelected."

PROPOSITION NO. 23 ON THE BALLOT
Senate Joint Resolution 54 proposes a constitutional amendment to authorize the Texas Water Development Board to issue an additional \$400 million in water development bonds. Of the \$400 million authorized, \$200 million would be designated for conservation and development of water resources, \$150 million would be designated for water quality enhancement, and \$50 million would be designated for flood control. The amendment also authorizes the legislature to provide for review and approval of the issuance of the bonds and the use of the bond proceeds. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment authorizing the issuance of an additional \$400 million in water development bonds, \$200 million of which would be used for conservation and development of water resources, \$150 million for water quality enhancement, and \$50 million for flood control. The amendment also authorizes the legislature to provide for review and approval of the issuance of the bonds and the use of the bond proceeds."

"The constitutional amendment to authorize the issuance of an additional \$400 million of Texas Water Development Bonds for water supply, water quality, and flood control purposes."

PROPOSITION NO. 24 ON THE BALLOT

House Joint Resolution 83 proposes a constitutional amendment to allow a county to use county equipment and personnel to perform work, without compensation, for another governmental entity if the commissioners court finds that the work will not interfere with the performance of county work and approves performance of the work. The governmental entity must be located wholly or partly in the county, and the governing body of the governmental entity must file a written work request with the commissioners court. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment to permit a county to perform work, without compensation, for another governmental entity."

PROPOSITION NO. 25 ON THE BALLOT
Senate Joint Resolution 5 proposes a constitutional amendment to allow the Legislature to authorize Randall County to levy a tax for the benefit of the Amarillo Hospital District. Any such tax could be levied only on property located outside the City of Amarillo and outside the South Randall County Hospital District. The tax could not be more than 75¢ per \$100 property valuation and would be effective only upon approval by the voters in the area to be taxed. If the tax is authorized by the Legislature and approved by voters, the Amarillo Hospital District is to serve residents of part of Randall County. If a tax is levied under this provision, Randall County must repay the State for the cost of publication of this amendment. The proposed amendment also permits the legislature to authorize a hospital district to change its boundaries or jurisdiction if the district was created or authorized by a constitutional provision that includes a description of the boundaries or jurisdiction of the district. Any change in the boundaries or jurisdiction of such a hospital district would become effective only upon approval of the voters in the district. The proposed amendment will appear on the ballot as follows:
"The constitutional amendment authorizing the legislature to permit the Amarillo Hospital District to serve certain residents of Randall County, to authorize Randall County to provide financial assistance to the district, and to authorize certain hospital districts to change their boundaries or jurisdiction with voter approval."

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 1

Senate Bill 86 submits to the voters the question of whether the 15 members of the State Board of Education should be appointed instead of elected. If the proposition passes, the Governor will appoint a member of the board for each district, with the consent of the Senate. If the proposition fails, the members will be elected from these districts.

The referendum will appear on the ballot as follows:
"The State Board of Education shall be composed of members who are appointed from districts instead of elected, with equal representation throughout the State of Texas."

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 2

The Texas Racing Act submits to the voters the question of whether pari-mutuel wagering should be legal in Texas on a county-by-county local option basis. If pari-mutuel wagering is adopted by the voters statewide, a county must also pass a separate proposition on pari-mutuel wagering at an election held in the county before any such wagering may be conducted in that county.

The referendum will appear on the ballot as follows:
"The legalization of pari-mutuel wagering under the Texas Racing Act on a county-by-county local option basis."

Pistachio Wafers—Fun Party Treat

Have a party! Warmer weather brings pleasant evenings—a perfect excuse for an outdoor affair!

Quick to prepare, Pistachio Cheese Wafers are ideal for impromptu nibbling. The dough may be made ahead of time, then sliced and baked when party time rolls around. Serve the delicate, crisp wafers warm or cool and accompany with a favorite beverage, bubbly champagne or sparkling cider.

A big bowl of nuts is always welcome at any kind of party, too. And since pistachios are so fun to crack open and eat, keep the nut bowl filled with this distinctive, tasty nut.

California pistachios are available dyed a fuschia red or cloaked in their own natural, distinguished beige shells.

A wonderful out-of-hand snack for any time of the day, pistachios from California are also great to use in cooking.

A Recap Of 4-H Happenings

By John R. Senter

Just before I began to put this week's column into the computer, it occurred to me that there is really not a rule that says every 4-H column should be written for the folks in the 4-H program. Just about all the people in the program are aware of what is or has been going on, so this column is one for the folks that aren't directly involved in the program. Hopefully after this column has been read and has a chance to soak in, then more county folk will be as fired up about Lamar County 4-H as the present regiment is.

The 1987 4-H year began with a record enrollment of over 300 and 100 volunteer adult leaders. If my Sul Ross State math is still intact, then that's a ratio of one leader per three members. During the fall and spring, county kids received honors in local, area, state and national stock shows from Paris to Houston and Denver. Of the 100 sale lots in the April junior show, 49 percent of these were Lamar County 4-H animals.

The summer brought a different kind of activity to the 4-H program. Another record was set when 27 4-H'ers represented Lamar in the District Method Demonstration contests. When the dust settled, nineteen of these kids were headed to Texas A&M for the state contest. The 4-H Dairy Cattle judging team placed fourth in state and had two members receiving individual awards. The big news at A&M came to three county 4-H members who received Texas 4-H Foundation scholarships. These three kids came away with \$17,000 in college money. No other county in the state can claim three scholarship winners!

Record books are a bit part of the 4-H program. This year we had 56 books submitted for county judging. Of these, 13 junior books and 14 senior books were sent to District as county winners. Of the 14 senior books from our county, six of these were submitted to the state level as district winners.

When the time came for the county and district fashion shows, Lamar County kids again came through like champs. Thirteen members represented us at the district level. Five of these were senior age kids and eight were juniors. Recent memory doesn't show anything like this for Lamar County.

In addition to the representation at the District Fashion show, two of the senior girls were chosen as District winners and represented our district in Amarillo at the Texas 4-H Fashion Show. One more record in the books.

What all this should be indicating is that we are in the midst of a bunch of 4-H folks that take this program very seriously and their hard work and dedication is just now starting to show up and pay off. I realize that is easy to make statistics say just what you

want them to say, but in this case I chose to make them say the truth.

Hopefully these words have erased some doubt or better yet, created some new interest in the Lamar County 4-H program.

Any members that will be between 12 and 18 on January 1, 1988, meet the basic qualifications for the Houston Livestock Show Calf Scramble. There are other considerations, but if you are interested in competing in the scramble and possibility being able to own a registered beef or dairy heifer then it is important that you act now.

The sign up deadline is Friday, September 11 at noon. If you sign up and are elected to compete and then catch a calf and are declared a winner, you will be issued a certificate by the show to be used toward the purchase of a beef or dairy heifer.

We have had at least one winner from Lamar County 4-H for the past three years and this year should be no different. If you think you are interested, you might want to talk to folks like Gina Satcher, Shannon Clinkenbeard, Johnny Tidwell, Jimmy Metzger, Shane Welch or David Jardt about what it takes to win and then what is expected after you do win. In any case the sign up date must be strictly adhered to so if you want to be considered as a contestant, or if you just want more information, please call us by noon on the 12th.
