

**NICHOLS' WORTH**

By: Nanalee Nichols

Have you ever been standing in a grocery store checkout line and noticed those "National Investigators" and "Comets" (no, not the actual titles of the publications)?

Sure you have, it's hard to ignore headlines such as "Two Headed Woman To Have First Child" or "Aliens Land In New York Streets".

It's almost impossible not to buy one, just to satisfy the old curiosity. Invariably the stories are less exciting than the headlines. Example: One headline screamed that movie star was "In Danger of His Life Every Night". The gist of the article turned out to be that he slept with his pit dog in the room with him....and bulls are notoriously dangerous.

Well, it seems to work so well for those papers, we got to speculating on what would happen if we did it.

Her's some of the headlines we came up with...technically truthful, but obviously ridiculous.

Try this one: Editor Narrowly Escapes Death From Angry Tackler. The story? Last weekend I disturbed a red wasp at its nest building.. It attacked and stung me...and I am allergic to them.

How about Bloody Accident Claims Life of One, Victim's Family Can't Identify Body! Story? Well, there was this possum that tried to cross the highway last night....get the idea?

There is a world of possibilities here...consider the "Scandal" possibilities.

**Local Businessmen Seen In Clandestine Meeting** That could be any group of people in business having lunch together at the same table.

**The Truth Behind The Kiwanis Club, Bitter Facts Revealed At Meeting.** Bitter facts could qualify as "We need to raise more funds" or "It's time to pay dues again!"

Obviously this type of journalism could go on and on. **The Amazing Story Of How One Family Changed Their Lives** could refer to a family remodeling their house or even moving to a new town.

**Where Are Our Children Heading?** could be used to accompany a Vacation Bible School announcement!

**Mayor Says 'It's Time To Clean Up This City'** would be perfect for a scheduled community cleanup day.

**Local Citizen Deals Drugs Openly** could be as obvious as the pharmacist selling his perfectly legal prescriptions...they are, after all, drugs.

The list goes on and on. Technically truthful but blatantly ludicrous statements could be affixed to ordinary stories.

One thing about it, it sure would be different! But for now, I think we will stick with our same old headlines...a little boring maybe...but at least not rumour starting!

## Tax-Small Towns Down, Overall Improves

State Comptroller Bob Bullock said Friday that Texas cities can expect handsome increases from their local sales taxes as the Texas economic recovery continues to pick up steam.

This month's city allocation checks showed a 23.5 percent increase over June 1987, a growth rate too high to attribute to the broadened sales tax base.

"Local governments will continue to see a healthy increase in revenues

from their sales taxes as the state's economy mends and consumer confidence grows," Bullock said.

Checks totaling \$65.1 million were sent to 878 cities that collect local option sales taxes at either one or one and one-half percent.

Since January, the state has sent \$465.9 million in local taxes to cities across the state, an increase of 10.3 percent over last year's allocations during the same period.

Bullock projected that local sales tax revenue statewide will continue to increase at an average rate of more than eight percent a year through 1991.

Bogata received \$1,020.57 for a 4.60 percent increase over 1987 payments to date. Clarksville received \$14,445.51 for a 6.39 percent increase.

Detroit received no payment for this period for a 100.39 percent change. Blossom received no payment this

period, marking a 4.83 percent decrease over the 1987 payment of \$896.10.

Deport received no payment for this period, for a 9.38 percent change from last year. Paris received \$156,374.09 for this period for an 8.26 percent increase.

Mt. Pleasant received \$77,834.26 for this period for a 9.03 percent increase over the payment of last year, while Talco received \$1,331.10 this period, marking a 0.06 percent decrease over last year's payment of \$1,485.41.

Houston saw the greatest increase in revenue this month, their check of \$11.2 million was a whopping 35.6 percent increase over last year's June payment.

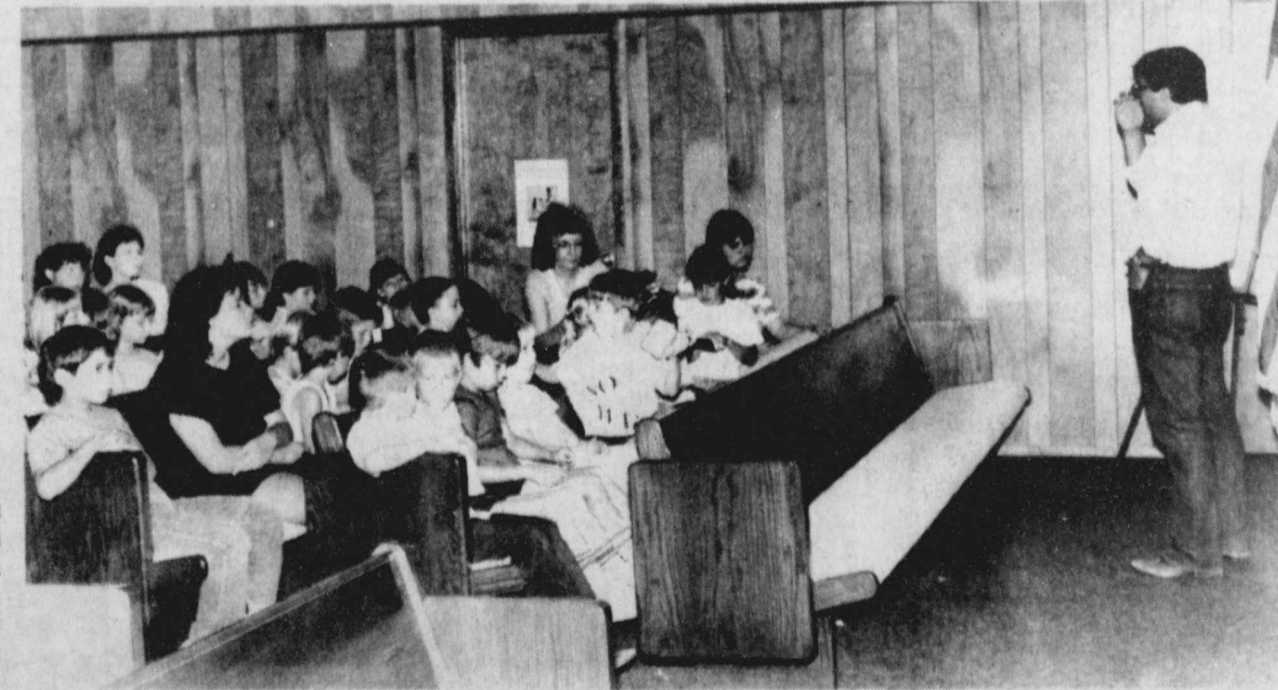

The MTA's and the CTD should continue to see an increase in revenues along with the cities and counties, Bullock said.

### FmHa Proposes New Lending

Proposed rules, which could assist hundreds of farmers who are behind on their Farmers Home Administration loans, were issued today, according to FmHA Texas State Director J. Lynn Futch.

The new regulations will carry out portions of the Agricultural Credit Act passed by Congress last December. "There will be a 30 day comment period and additional time for any appropriate changes before the regulations become effective," Futch said.

One of the changes would allow FmHA to reduce the delinquent debt of certain borrowers to help them stay in business. There are approximately 5,000 delinquent borrowers in Texas, many of whom should be assisted with this Program once

implemented. In related actions, the Agency also issued proposed regulations to:

Make it easier for farmers or their families to lease or buy back homesteads that have been lost through foreclosure or conveyance;

Set up a program of help members of minority and socially disadvantaged groups to purchase farmland and develop an outreach program to

carry it out; Establish a new administrative appeals unit distinct from the rest of the agency to handle borrower grievances;

Certify and participate in state mediation programs.
