Murder, theft, vandalism, rape, robbery. It's on the rise, and it's here...in every small town around, including our own.

And what do we do about it? Is there nothing?

I know that there are those out there who will argue with me when I say that reinstating swift, frequent death penalties for truly terrible crimes would help. I have a friend who says answering violence with violence isn't an answer. I disagree.

Prisons that were unpleasant places with poor quality food, little climate control, no phones, televisions, etc. might help too. (Again, there are many who don't agree with me). I like to point out that we've been doing it the other way since the 1960's...and the crime rate has soared up and up and up. So, perhaps we need to revert to the "barbaric" methods of punishment?

But, there is something else that can be done...and needs to be done.

For years I didn't think much about the violence and lack of respect for authority that our children see on television, on ads, on the street, over the radio.

Even more important, this attitude that NO ONE is responsible for their own actions has crept in until it dominates everything.

Well, it's time to change that. And each and every one of us can do a little about that.

We must begin to educate ourselves and every child we come in contact with that authority is there for a reason. We must remember that law enforcement isn't the "bad guy" (no, there aren't perfect, but they certainly deserve a lot more respect than they get).

We must begin to protest against mindless violence. We must begin to object to movies, shows and music that glorifies street gangs, criminals, filth and drug dealers!

Shrugging our shoulders and saying "there's nothing I can do" just won't work anymore.

"Yes sir," "No mam" need to be brought back into use. Common politeness, ordinary manners should be drilled into kids...not held up as something to be made fun of! And as adults WE need to work harder on our respect and politeness.

Each and every one of us needs to quit blaming things on someone or someone else.

Statements of "It's the government", "The system", "The schools", "Just the way things are" have slithered into our lives until it is all too easy not to take the blame for a single thing!

In other words...let's begin working on the youngsters of today in hopes that they will make responsible, respectful adults in favor of doing something about crime...but even more important, will be people to whom crime has no appeal.

It's time to start combating the pornography of extreme graphic violence. There will never be a better time to begin than NOW.

Let's quit feeling so helpless, let's do something about it!

Town Meeting To Present Possibility Of Rural Health Clinic In Deport Come Hear What This Idea Is All About...It's Important

Health care in Deport five days a week, at a lower cost? Sound too good to be true? Perhaps it isn't.

There will be a Public Meeting at the Deport American Legion Hall on Monday, November 8 at 8 p.m. (Following a presentation to the City Council) to explain the concept of a Rural Health Clinic and the services that can be obtained through a Nurse Practitioner.

Carrie Thompson, Nurse Practitioner, Julie Maddox, Vice President of Patient Care at St. Joseph's Hospital and Betsy Glover Chapman will be on hand to explain this concept in

health care and answer questions.

The concept is already working and working well in Cooper. A clinic with nurse practitioners will open in Honey Grove November 10th. Since the possibility of obtaining small-town or rural physicians is virtually impossible with the changes in medicine and highly specialized treatment the idea of rural health care clinics makes sense.

According to Ms. Maddox some of the services that can be obtained are: immunizations, checkups, prescriptions for illnesses, blood work, and much, much more.

A nurse practitioner is more than a

routine nurse, and is under the supervision of a doctor. Ms. Maddox says.. If hospital monitoring is necessary, it is available.

Plans for the physicians already at the clinic will be discussed at the meeting.

This idea could be very important for Deport. Lower cost medical care for families could well draw in people from the surrounding area.

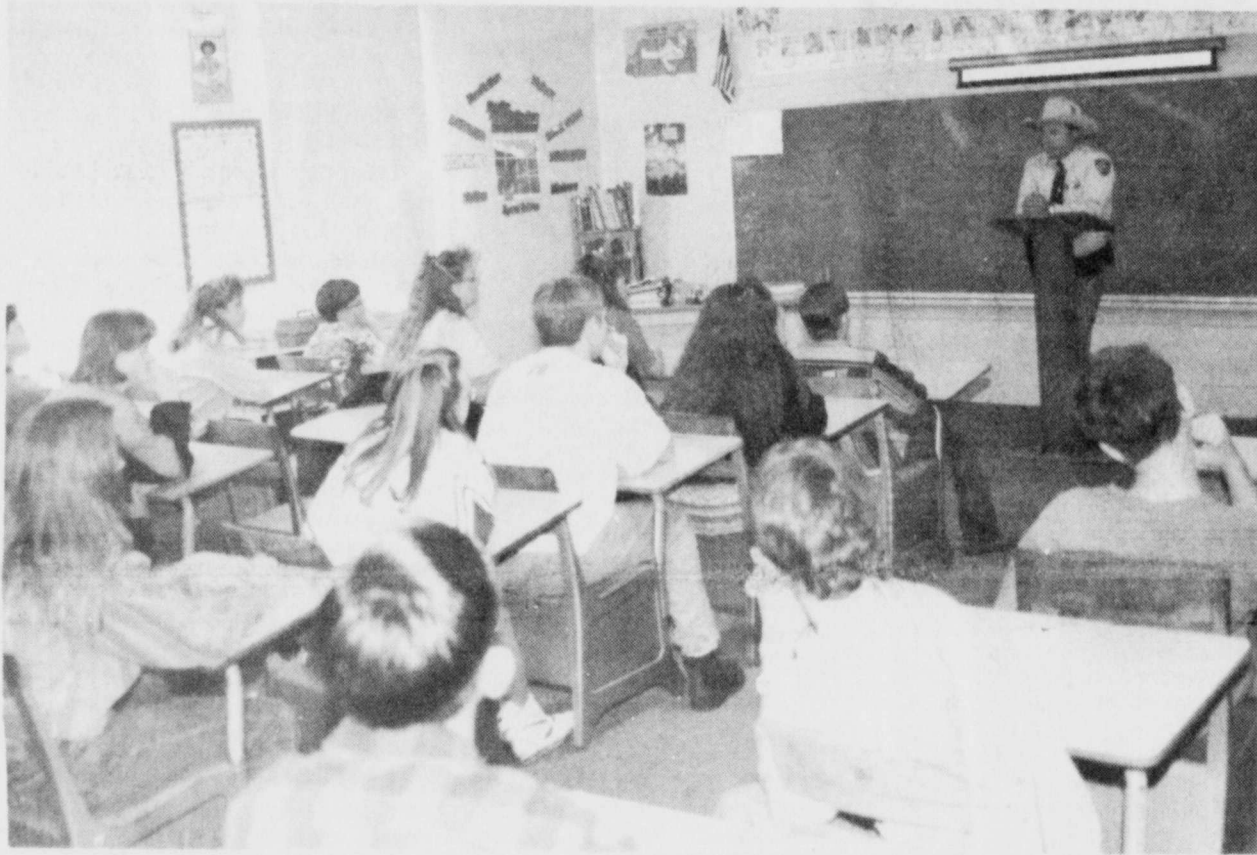

It could provide an excellent place for obtaining immediate health care.

Everyone in this area, and especially citizens of Deport are urged to come to this meeting and hear this presentation.

DONATION-Marilyn Glover of City Drug Store presents Pat Watson of the Lamar Co. Humane Association with a check for \$100 to match the \$100 worth of tickets City Drug has sold to benefit the Humane Association. The matching funds were a big

boost to the dogs and cats being cared for by the association. Winner will get a \$150 or \$100 shopping spree at Wal-Mart. All funds go to aid the animals at the Humane Association. (Staff Photo by Nanalee Nichols).

QUESTIONS and Answers-Pct. 1 Constable Randy Boren conducted a question and answer session with the Deport eighth

reading class taught by Carol Dorsey. The session wrapped up part of a unit which deals with

police and detective investigations. (Staff Photo by Nanalee Nichols)

Deport PTO Presenting Special Program On "Strangers, Danger"

The Deport PTO would like to thank all the local merchants and individuals who helped make our Harvest Festival such a wonderful success.

We couldn't have done it without you.

Our regular PTO meeting will be

held November 16th at 7 p.m. in the Elementary School Cafeteria.

There will be a special program presented called "Strangers, Danger"

Parents please come and bring your children. Children need to be educated about the dangers presented from strangers and this program is aimed at that.

FHA Getting Ready For "Christmas Bazaar"

The Prairiland Chapter of FHA will be hosting their Annual Christmas Bazaar in the Homemaking Room at Prairiland on November 13, Saturday, from 8 a.m. until 12 noon. Items to be offered for sale are

students' projects as well as home-made items.

The students projects will be displayed and judged at this time.

Everyone is encouraged to come out and support this FHA project.

New Trash Collection System Now In Place

As every one in Deport is bound to know by now the new trash collection system is now in operation and the big purple "polycarts" have been delivered to households.

There have been several questions asked about the system.

"One of the most important things to remember is that the carts must be placed curbside on for collection.

Another thing to remember is that trash pickup is now on Wednesdays, not Tuesdays.

According to Waste Management of Northeast Texas (the provider of this service) the polycarts should have no more than five large plastic garbage bags inside and the bags should not weigh more than 35 lbs. each. Items such as branches should be

bagged and tied at the mouth so they make a package that can be handled.

All trash must be contained in bags and placed in the carts.

Complaints or problems with the carts should be called in to Waste Management at 1-800-227-8834.

The carts will cost residents \$8.50 plus tax, bringing it to \$9.17. and commercial costs for a polycart will be \$13 plus tax.

Large items such as old refrigerators, stoves, air conditioners will not be picked up during regular pickup operations.

Only residential waste will be accepted at households.

Holidays may be taken, but trash will be picked up once a week, with an alternative date set if a holiday is on Wednesday.

"Scam" Cheating People In Area

Sheriff B.J. McCoy was in Deport Thursday morning, and made a statement concerning a recent "scam" which has been done in Deport and also in Red River County.

A white male, driving a Chevrolet Pickup in blue and cream, with Oklahoma tags, has posed as a salesperson making up a magazine on aluminum siding. He told an older Deport woman that he would clean her siding for free if he could take a picture of it. Then, he offered to put siding on the building next to her home for \$310 and said it would normally cost \$600. The woman wrote him a check and he disappeared.

In Red River County the same man obtained \$250 posing as a roofing.

Sheriff McCoy wants to stress that they want anyone who has been approached by this man, or who has been victimized by this scam to please call the Lamar County Sheriff's Department and ask to speak to him. The

number is 737-2400. Sheriff McCoy says that someone just might have the clue that would lead to an arrest in this crime, and that restitution is sometimes possible on this type of "scam".

He also says that "if a deal seems to be too good to be true or too cheap, it probably is". He says the main thing is to never, ever give money up front, before a job is started.

If anyone has information concerning this crime, please, call the sheriff.

Response Made To Housing Authority Story

An Associated Press News story being printed in newspapers throughout Texas has reported that the Texas Human Rights Commission has voted to recommend that federal funding be withheld from 11 housing authorities in East and Northeast Texas, including Deport, Blossom and Bogata unless they take action to integrate their public housing.

The recommendation was made to HUD (Housing and Urban Development).

Melba G. Ladd, Executive Director of the City of Deport's Housing Authority, has prepared a response to this story. Blossom's Executive Director Larry Bridges concurs with Mrs. Ladd's assessment of this situation.

She says, in a letter which is being sent to authorities state-wide, that:

The current publicity being released regarding Public Housing in our area contains only a part of the facts from reporting by the local Authorities to HUD.

As is the case in this type of reporting, an overall picture of events does not show the actual compliance records of these Authorities.

I can not speak for other Directors; however, there is no denying there has been discrimination in the past, not just to minorities, but to other areas of the population.

The onset of the lawsuit YOUNG

vs. CISNEROS filed in 1982 against the Clarksville Housing Authority resulted in a complete overhaul of activities in East Texas Housing Authorities. These activities consisted of compliance to directives ordered by District Judge William Wayne Justice, monitored by U.S. Department of HUD.

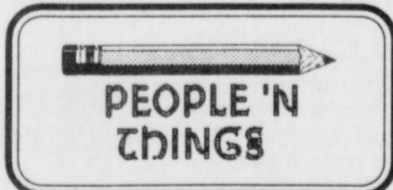

Detailed reviews, City/Area wide inspections have resulted in this local Authority being given a rating of UNITARY STATUS (in compliance). HUD recommended to the Court that Deport Housing be released from the lawsuit in 1990. No ruling has been made on that recommendation.

As I attend training meetings and visit with others who hold my position, I am gratified at the talent, understanding and business capabilities of local citizens, desperately making efforts to serve their communities.

Sensationalism, bordering on harassment reaches the media and press. Our accomplishments, our records do not, as we remain silent for fear of further implications.

I do not speak for others, I do not speak for my Board. I speak with a plea that consideration and yes publicity be given to the progress that has been made and continues.

Respectfully submitted,
Melba G. Ladd, Executive Director

Commodities will be given out on Tuesday, Nov. 9th at the Cunningham Community Center from 9 a.m. until noon.

The Deport American Legion will meet Thursday, November 11 at 6:30 for breakfast on Veterans Day. Veterans and members are urged to attend.

Deport Methodist Bazaar Is Nov. 6

The Deport United Methodist Church is holding its annual Bazaar on November 6, from 8:30 a.m. until 2:00 p.m. at the school cafeteria.

There will be a turkey dinner with all the trimmings for \$4 for adults and \$2.50 for children under the age of 12.

There will be arts and crafts, baked goods and quilts for sale as well.

Everyone is urged to come out and enjoy this fund raiser.

COUNTRY COOKING- Tina Gentry is this week's featured cook in the Country Cooking

Column. She is pictured with sons, Dustin and D.J. (Photo by Judy Screws)

No one is useless in this world who lightens the burdens of another. —Charles Dickens

Country Cooking

By Judy Screws

Tina Gentry is our country cook this week. The Gentrys (Tina and Donnie) live between Jolintown and Bogata. They have 3 children, Dustin, 23 months, D.J. 4, and Joshua 13. They also have Smokey, Patience, Rusty, Cindy, and Snowball. The last 5 names belong to Australian Shepherd dogs, which the Gentrys raise. If Patience was one of the dogs in the pen by the front door, she is inappropriately named. There is nothing patient about them. The Gentrys have cows and a horse, so Patience could have been one of them.

Donnie is a self employed welder. Tina is a housewife, mother, cook, Tupperware salesperson, and a working partner in the animal raising business.

Tina is from Avery. The family attends the First Baptist Church, in Bogata. She says the preacher, Brother George Thomas and his family are the best. Tina and Donnie are also members of Australian Shepherd Clubs of America, and National Rifle Association. Their hobbies are Hunting, fishing, motorcycling, horses, dogs, kids, and cooking. Tina wants to sky dive some day. She and the boys climbed up on back of the sofa so I could take their picture with the mounted deer she had killed.

The energetic young homemaker seems to be a bit mischievous, also. She likes to cook deer meat so people who say they don't like deer can't tell the difference. Her recipes sound wonderful even if they are mostly

made from wild game. You could probably substitute beef or chicken if you are not adventurous enough to use venison or quail. Tina says the Country fried quail with gravy is good anywhere, anytime, but it is especially good with homemade biscuits for breakfast. The name - Macaroni and Cheese, Cheese, Cheese really is probably all the description you need for that dish. The sloppy Joes and Chili sound warm and spicy for the weather we are having. Preceding the Can't Believe It's Deer recipe Tina wrote - I wrote this recipe because my mom hates deer meat, can't stand the thought of it. Unless she doesn't know it. Ha Ha Try it.

With deer season coming up, these recipes should be a great help to all who don't know what to do with deer meat when someone gives them a package. Now you won't have to just say "thank you" and leave it in the freezer a while before you throw it away. You can cook it before you throw it out. I'm only kidding. Eating game meat is just a matter of getting Bambi off your mind and digging in to some good food. I love squirrel dumplings and squirrel stew, and I get lots of good out of any deer meat that comes my way. Of course, I always cook something else for Donald, because he also doesn't eat deer meat.

Tina, Thank you for a nice visit and the timely recipes. Have a good week

3 lbs venison stew meat
4 oz dried apples

GOOD LUCK TEAMS

Patriots Lose To Wolves, 25-6

By Bill Moseley

The final result was nearly as disagreeable for the home crowd as had been the inclement weather the hardy participants and spectators at the Wolfe City-Prairiland game last Friday had endured. But even in the 25-6 loss to the Wolves, Coach Rick Connot could find cause for better things to come.

The Patriots had held the Wolves scoreless for more than 17 minutes, had come back to take one of the rare leads the youngish Patriots have enjoyed all year, and were thoroughly competitive until mid-third quarter.

Even then Prairiland battled to stay on 12 points down until only five minutes were left and the Wolves got the score which put the game out of reach.

It was the Patriots' eighth loss of the year against a single win, but put in perspective it stressed the strides the team has made both offensively and defensively since the first of the season.

Perhaps the most impressive performances the Pats had for the year were against Chisum and against Wolfe City on Friday. In each instance, the Red and Blue defense had kept the team competitive throughout most of the contest.

What is important to note is that the Mustangs and the Wolves will be playing head to head Friday night to determine the last playoff representative from 17-2A. Thus, 1-8 aside, the Patriots were not, by season's end, so far below these teams that there is not cause for optimism concerning the future.

Wolfe City recovered a Zach Allen fumble on the opening series of the night, driving immediately to the Prairiland 5-yard line before big Steven Fernandez returned the favor by getting a fumble recovery at the 12.

The Wolves again got as far as the Red and Blue 22 in the first quarter, but a gang tackle on the fourth down got the ball back at the 28.

Prairiland immediately moved out, with James Dudley and Michael Murphy alternating carries, and Dudley's 15-yard slash on the second quarter's first play stretched to the Wolves' 30. It was a reach too far, and Tyler Dexter intercepted.

The Wolves did not get their first score until the 7:33 mark of the second, with Cory Brumit scooting 18 yards. The PAT failed, leaving the score at 6-0.

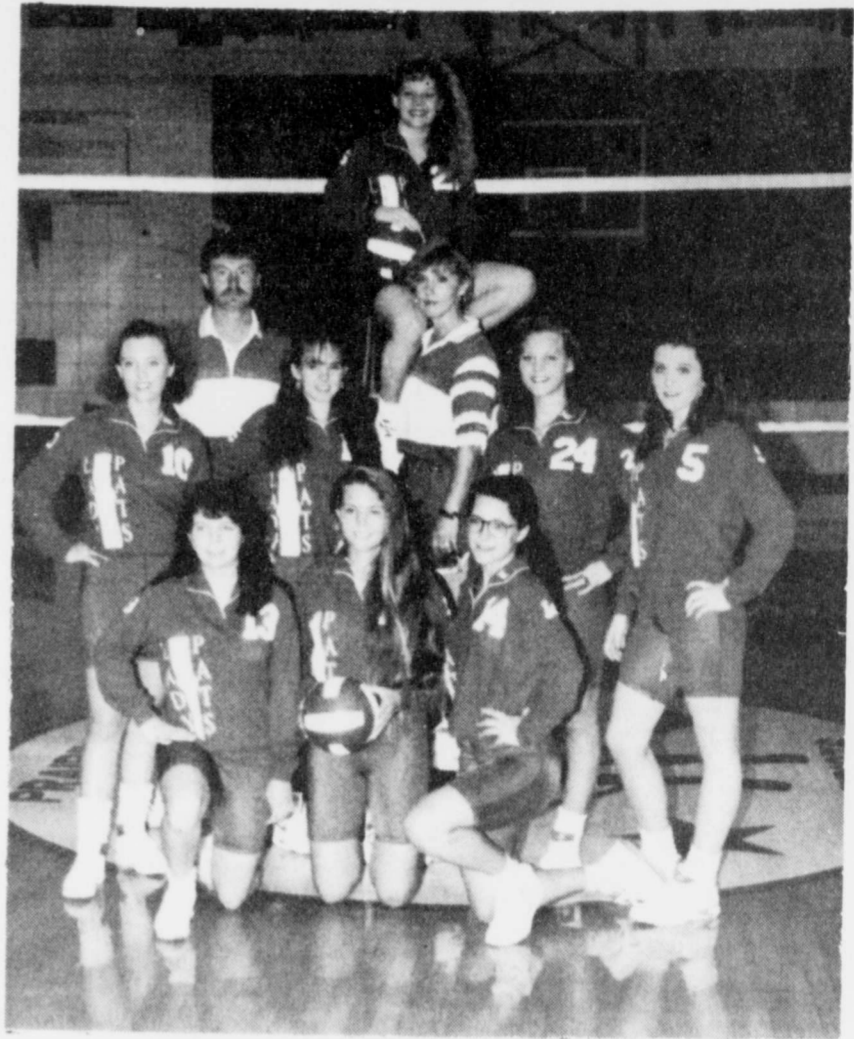

Dudley then became a man possessed. He returned the kickoff to his 25, got six on the first play, followed a Murphy 3-yarder with a 2-yard dive for a first down at the 37. And from there, he broke it, suddenly popping free at the midfield stripe and outflanking the pursuit to tie. He then nailed the PAT for a 7-6 lead.

But just as had happened at Honey Grove a week earlier, the Patriots allowed the killer return on the kickoff, a 75-yarder burner by Hadaway.

The second half scores by the Wolves came on a 63-yard third quarter drive and a one-play keeper from 25 yards out after a 15-yard punt return had negated half of Ramiro Peralta's 30-yard pressure punt from the endzone.

Offensively, Dudley had by far his most productive night of the year, while Murphy filled in well for the injured Stephen Swaim. Defensively, Dudley again was active in punishing Wolfe City runners, while Matt Dorries, Brandon Maroney, Jay Harrison and Fernandez had some very good moments.

The Patriots attempt to add that elusive second win of the season finale Friday night at Cooper.

For Fall Foliage, Who Are You Going To Call?

Wondering where and when the best fall color areas of the state will be this fall? Call 1-800-452-9292 to the Texas Travel Information Centers, operated by the Texas Department of Transportation (TxDOT), for the latest color updates and events around the state. The phone center is open from 8 a.m. to 9 p.m.
 The foliage report is compiled and updated weekly from spotters around the state and distributed to callers by counselors at the 11 information centers and the phone center in Austin.
 TxDOT spotters tell us there is color in several areas. While some leaves are turning with the first flush of brilliant hues of orange and red,

the peak color season will arrive in mid-November.
 Atlanta, Tyler, San Augustine, Martin Creek and Dangerfield State Parks report the leaves are changing. Lost Maples State Natural Area near Vanderpool is expecting its color in mid-November.
 For hiking and birding enthusiasts, trail maps are available from the Texas Forestry Association Museum in Lufkin. The Big Thicket Association also provides guided and self-guided tours, hikes, and canoe trips during the fall. Maps and directions are available at the visitor station seven miles north of Kountze at F.M. 420 and US 69.

"Holiday Magic Circus" Is Coming To Paris

The "Holiday Magic Circus" will be presented in the Paris area this year under the sponsorship of Lamar County Post 3990, Veterans of Foreign Wars and the Ladies Auxiliary.

A highly entertaining program will be presented at the VFW Post 3990 in Reno at 7 p.m. on December 12. The circus is filled with funny clowns, lots of magic and illusion acts and several animal acts.

John Credeur, Commander of VFW Post 3990 states that the Post is involved in many community oriented and VFW projects which help people from the very young to the elderly. They will use the proceeds from this performance to continue the programs they have maintained over the years.

Examples of the programs mentioned are Voice of Democracy, Patriotic Art, Little League Baseball, Boy Scout Troops, Jr. Girls Unit and others. Weekly visits to seven nursing homes in Lamar County and Clarksville to play bingo games, serve refreshments and on special occasions conduct programs designated to enlighten, inform and entertain the elderly who are confined.

Through the generosity of others in the community, it will be possible for many area children, otherwise unable to do so, to have the pleasure of witnessing a performance of the famous Holiday Magic Circus. Tickets are only \$4.00 for children or adults. For information, call Al Slater at 739-2011.

With Attic Ventilation, Saving Energy Is Under Control.

Even with insulation and tightly sealed joints, your home needs attic ventilation to control moisture—and to control attic temperatures. Moisture can build up during the winter and reduce the effectiveness of insulation. In the summer, a lack of ventilation can drive attic temperatures up and put greater strain on your air conditioning system. For more information about saving energy, call or visit your local TNP office and ask for a copy of the "Energy Management Guide."

Scudder Playing For Lady Aggies

Jan Scudder, Prairiland graduate of 1993, is playing this year with the Lady Aggie Volleyball Team.

They are experiencing lots of success with a current record of 23-4 which is an improvement over last year's 15-18.

The team is currently second in the conference with the only loss coming from University of Texas and they hope to even things up next week with a rematch at home.

Jan has gotten to play in five matches this year and was chosen to make the traveling squad to California at the beginning of the year. She is very busy with volleyball workouts, but has also become involved in the Fellowship of Christian Athletes Association on campus and has been chosen to speak to local high schools

and junior highs. HSE was there on Tuesday, October 26 to tape her session and this will be shown on television sometime this month. She has also been interviewed on radio as a representative of the Aggies Womens' Athletic Association which aired in the Bryan/College Station area.

Jan was a member of the 1992 State Semi-Finalist team from Prairiland and was the 1993 MVP of the All Star Game for the Division I schools representing the East team which defeated the West team. She was voted on the State Tournament All Star Team, All State Team, and the Texas Sportswriters All Star Team for 1992.

Jan is the daughter of Mr. and Mrs. Bill Scudder of Paris.

Deadline Nearing For Entering Calves in Program

By Paul D. Payne
Lamar County Extension Agent

About 200 head of steers and heifers are enrolled in the Lamar County TEX-VAC Program, and there is still time for additional beef producers to get their calves in the program this year. These calves must be weaned prior to October 20th and receive the required immunizations. The sale of these cattle will be December 4 at the Cattlemen's Livestock Commission Co. in Paris.

If you are interested in this program, get in touch with our office, the County Extension Agent in either

Cooper or Clarksville, or one of the members of the Beef & Forage Committees in those counties.

TEX-VAC treated cattle are the preferred cattle by those in the feeding industry. The more calves available to the buyers at the Dec. 4th sale, the greater are the chances of buyers being present who will pay a premium for those type calves.

For additional information on the TEX-VAC backgrounding program, contact our office at 737-2443.

Fire Ants Have Been Active

By Paul D. Payne
Lamar County Extension Agent

Fire Ants have been very active this fall prior to the cold front. In fact, we have reports of them in the county in areas where they had not been sighted previously. The cold weather should slow down their activity, and it is doubtful that we will notice very much activity until warm weather returns.

To you who may have just found your first mound of Fire Ants on your place, or perhaps they have not arrived at your location, I really do not have words of encouragement for you. Unless some magic material is developed (which is unlikely), you will just have to learn to live with them. There are over 200 products on

tempting to control the ants at my place east of Paris, but they just seem to flourish no matter what I have done. Hopefully, you will be more successful than I have been.

One of the sessions at the Lamar County Mini-Hort Shortcourse to be held this winter will be devoted to a discussion of the Fire Ant, so be looking for details on that program later on.

Harvest of 93 Crop Winding Down

The harvest of the 1993 crop is winding down across the Red River Valley area, as farmers are busy wrapping up harvest chores, preparing soil for next year and planting of the 94 wheat crop. Crops remaining to be harvested include the peanut crop, late maturing soybean varieties, a few fields of cotton, a few fields of double crop grain sorghum, pecans and a few patches of hay.

The cotton crop in the southeast corner of Lamar County is about out. Ran into James Norwood, operator of Cunningham Gin, the last of the week, and he reports only a couple of cotton producers with cotton still in the field there. Cotton yields were reduced significantly by the dry summer.

The recent rains have been excellent for the germination of volunteer ryegrass, clovers and small grains. We lost part of the ryegrass that germinated the early part of September as it dried out from lack of moisture. Bill Hatch of the Taylortown community reports volunteer ryegrass as "thick as hair on a dog's back." Now that is pretty thick. Several have made inquiry about the value of planting one of the improved ryegrass varieties such as Marshall, Surrey, etc. Just about all of these varieties out-produced the standard Gulf ryegrass in tests conducted at both Overton and Noble Foundation. It would seem to me that one would want to plant one of these unless the seed costs are significantly greater than Gulf.

Farmers in the area are rapidly getting their 94 wheat crop drilled. It would appear to me that we will have a slight increase in wheat acreage planted in the area this fall over last year. Ed Boykin, who is with Terra Seed in Honey Grove, reports much wheat planting activity in that area. If you are in need of wheat variety information, please give me a call. I have the results of yield data on both soft and hard wheat varieties in blackland and East Texas.

Hopefully, we are through with the Armyworm for this year, as their activity has diminished drastically. There is still a possibility that there will be another generation. Wayne Parson of the Belk community reports a large number of armyworm moths in his area. This could mean trouble as you will recall that the moth deposits the egg on the plant material and the worm emerges in a few days.

A conclusion is the place where you got tired thinking.

Johnson Grass Could Be Deadly To Livestock

Cattle producers are reminded to keep cattle off of the frost (freeze) bitten Johnson grass, sudan and sorghum plants for several days. The odds are great that these plants are deadly and could cause Prussic Acid Poisoning. So, take cattle off pastures and fields containing these plants until the plants have dried to the consistency of cured hay. Once plants have reached this level, they should be safe for cattle.

This does not apply to other grasses such as Dallis and Bermuda grass. There is no danger to cattle from eating these plants after they have been frozen.

The early freeze signaled the onset of a long winter, and this is one thing that the area cattle industry did not need as hay supplies are very short. The freeze stopped the growth of winter pasture that had been planted to ease the demand on the hay supply. If the freezing temperatures continue for an extended period to time, very little growth of winter pastures can be expected the remainder of the fall. This would mean that very little grazing could be expected until late winter or early spring. Hopefully, this will not be the case.

Had you thought about feeding silage this winter? There are a few farmers in the area who have put up several tons of silage this year that can be bought at competitive prices. So, you might want to give it some thought as it does present a viable alternative.

Aggravated Robbery Takes Place On October 30th

An aggravated robbery took place at the Reno Quick Stop, 6275 Lamar Road in Paris, at 10:20 p.m. on October 30th. Three white males parked a small Ford Bronco II (dark on top with white or gray stripe on bottom) on the road behind the store. One stayed with the vehicle and the other two walked to the store from behind. Suspect #1 entered the store and told the clerk, "This is a robbery. Lay down on the floor and you won't get hurt." The clerk lay on the floor and Suspect #1 reached over the counter and removed a small amount of cash from the cash register. Suspect #2 entered the store and acted as a lookout. Suspect #1 went around the counter and pulled a wire out of the wall next to the telephone, then started to get into the second cash register. A vehicle pulled into the parking lot with customers and Suspect #2 told Suspect #1 that someone was coming and to get out of the store. Both suspects left the store and went to the Bronco and drove away, going north from the store toward Pine Mill Road. Descriptions of the three white males are as follows:
(1) 20's, 5'10" to 6', slender, light-colored short hair parted in middle, long sideburns (to bottom of ears), wearing dark duster coat, armed with long barrel rifle or shotgun.
(2) 20's, 5'6" to 5'8", medium built, short dark hair, receding hairline, eyebrows growing together, gray "Members Only" jacket, armed with long barrel rifle or shotgun.
(3) No description.
A reward of up to \$1,000.00 is offered by Crime Stoppers. Call 930-785-8477 or the Lamar County Sheriff's Department at 903-737-2400 if you have any information concerning this crime.

The Value of Money
 As soon as children can count, introduce them to money—how to save it, spend it, and make it grow. When giving an allowance, give it in amounts that encourage saving. (If the amount is \$5, give your child 5 ones, with \$1 for savings.) Allow them to make spending decisions, but discuss the pros and cons before spending takes place. Alert children to the dangers of borrowing—don't be afraid of borrowing interest on small loans.
