by Mary Ann Sarchet

The response to the appeal for donors to replace the units of blood used by Jim Brooks and Mrs. Gladys Arnold has been overwhelming. Last Friday morning, 55 donors had signed up, and because of this, plans have been made for Coffee Memorial Blood Center to set up for the blood donations at the City Hall in Silverton on Monday, March 10.

All blood donated above the amount needed by Mr. Brooks and Mrs. Arnold will be in reserve for anyone in Silverton who needs it.

Mackenzie Lake Lots To Be Ready Soon

Lots at Mackenzie Lake will be platted and ready for lease sometime in April or May, according to Lon Davis of Floydada, president of the Mackenzie Water Authority board.

He said the lots would be around 25,000 square feet and larger than the ones at White River Lake. He said the lease per lot per year cost would be similar to that charged at White River.

Davis also stated that Texas Parks and Wildlife Commission has built a new \$20,000 boat ramp on the south side of the lake near the dam, at no charge to the water authority. The all-weather road across the dam has been completed and the lake is about 40 feet deep and stocked with fish; however, no one is admitted to the lake area without special permission.

"REA is cooperating with our overall development plan by keeping electric poles to a minimum and we want to keep the natural beauty of the lake area as original as possible," Davis added. He said the live springs that feed into the lake are maintaining a lake level balance in spite of the loss of water due to evaporation and seepage.

Owls Score Well In Season's First Meet

Silverton's Owls scored 36 points to finish behind Lubbock Christian High School, 68; Aspermont, 66; Roscoe, 50, and Rule, 49, in the season's first track and field meet at Spur last Saturday. The Owls finished ahead of Paducah, 33; New Deal, 30; Crosbyton, 28; Petersburg, 23; Motley, 19; Haskell, 17; Ralls, 14; Jayton, 12; Spur, 9; Wellington, 7; Christ the King, 6, and Patton Springs, 6.

Dayne Mayfield finished second in the shot put with a heave of 49' 10 1/2" behind Felix Martinez of Petersburg who set a new meet record with a put of 50' 4". The old record was 48' 1", so Mayfield actually broke the old meet record also.

Gary Storie won the pole vault with 11' 6".

Dayne Mayfield won the discus with a throw of 138' 7 1/2". His brother, Zane Mayfield, placed third in this event with a throw of 117' 10".

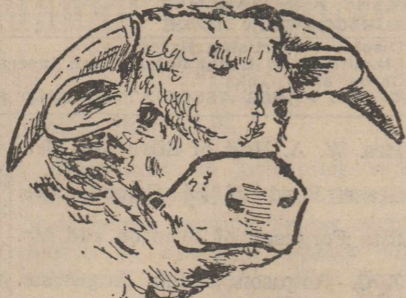

Presidential Citation Presented Lee Clay

A Silverton employe of the Southern Division of the Southwestern Public Service Company was honored Thursday, February 20, at a Safety Breakfast.

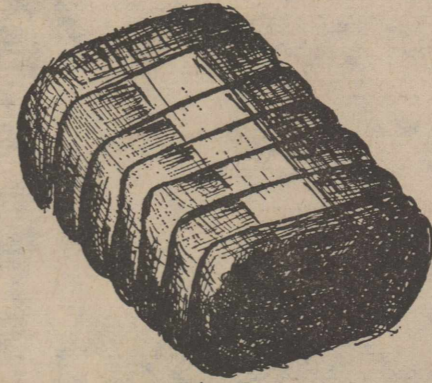

Lee Clay, manager of the Silverton office, was presented a Presidential Citation for notable achievement in accident prevention as a supervisor for successfully completing the year without injury to any personnel under his supervision.

The award was presented by Lloyd Davis, Division Superintendent, to the employe for working without a lost-time accident during 1974.

Mrs. Shelby Haynes was taken to Central Plains Hospital in Plainview on Thursday of last week by the Silverton Volunteer Ambulance Service. Ambulance attendants were Roy Younger and Dwain Henderson.

Area Musicians Record New Country Sounds

Now on sale in Silverton is a brand-new 8-track stereo tape album of western swing numbers that was recorded by a group of area musicians, including Jack Sutton of Silverton who plays piano and electric piano in the numbers. The album is "Windy Wood and The New Sons of the West present The Big Band Sound of Western Swing."

R. T. (Windy) Wood of McLean, who will be moving to Lake Tanglemood soon, a brother of Leland

Wood of Silverton, does the vocals on the tape. When asked what gives the band the big sound, he says, "Lots of musicians. First you must have a good solid rhythm section and I think we have one of the best, good lead musicians that can really take off, and in our case we have probably the world's best twin five-string fiddle players in Frankie McWhorter and Jack Bailey." McWhorter is from Canadian and played with Bob Wills. Bailey is from Pampa.

Sales Taxes Paid To Texas Cities Early

Austin—Comptroller Bob Bullock surprised 809 Texas towns and cities Thursday with \$64.1 million in quarterly city sales tax payments coming a full month earlier than usual.

"I said we would speed up the payments and we did," Bullock said.

The payments covered the October-December, 1974 quarter. Last year payments for that quarter were sent on March 25.

Bullock said the early payment will help all cities with cash flow problems but he also noted that the total payout was worth some \$400,000 in one month's interest alone if the cities simply invested the money.

In a letter accompanying the checks to the cities, Bullock said he will try to further improve the service and said his office is continuing to work on a plan to make payments more frequently than once a quarter.

Speedier handling of the city money was one of Bullock's primary issues in his election campaign.

The \$64.1 million for the October-December, 1974 quarter compared to \$58.7 million for the Christmas shopping quarter of 1973.

Sales tax paid to the City of Silverton totalled \$3,380.75.

The public is invited to hear Mr. Shuman speak on soils, plants, seeds, animal crops and livestock.

Mr. Shuman is a graduate of Oklahoma State University as an agr-consultant and majored in animal husbandry and agronomy. He has 20 years' experience in the field of agriculture.

The program will be of special interest to stockmen and farmers.

New Officers Chosen By 4-H Adult Leaders

Riley Harris was elected to serve as president of the Briscoe County 4-H Adult Leaders Association at their meeting March 3, 1975, in the Pioneer Room at First State Bank. Those elected to serve with Harris were Harold Edwards, vice president; Mrs. Harold Edwards, secretary-reporter; Mrs. Bill Durham, treasurer. Mr. and Mrs. Riley Harris will represent Briscoe County at the District 4-H Adult Leaders Meetings.

Wayland Fitzgerald is in charge of the summer county-wide encampment which is to be held July 11-12. Fitzgerald is planning to secure the Boy Scout Camp, hoping more people can attend due to the convenience of the location. 4-H members and their families are asked to make plans to attend 4-H camp and enjoy a great fellowship.

Three Young People In Auto Accident

The automobile in which Ronnie Hale, Donna Hale and Able Asebedo were riding west of Quitaque Saturday about 11:30 p.m. was involved in a collision with a vehicle driven by Charles Barrett of Quitaque.

The Silverton youth were taken to Lockney General Hospital, where the boys were treated and released, and where Donna Hale continues to receive treatment.

The car was demolished.

Playing were Joe Arnold, Alvin Stice and Jimmy D. Stone. Casey Bean led the scoring for the Mean Green with 11 points; Michael Hill, 4; Tad Cornett and Mark Patton, two points each; Monroe Hill, Eric Patton and Bryan Schott.

George Seaney, president of the Silverton Cemetery Association, was pictured directing the dumping of a truckload of rock on one of the lanes in the cemetery last Friday. The job was completed with the assistance of the

Silverton Young Farmers and other interested residents who furnished 12 trucks and the labor for the job. The Cemetery Association spent \$3,750.00, and is presently asking for donations to help defray this expense.

Weed Control Boosts Wheat Grain Profits

Windshield surveys do not show it, yet most wheat fields are full of weeds. Closer observation shows that all fields have some weeds and many fields have heavy populations of ten or more plants per square foot. Grain yield in these fields will be severely reduced if weeds are not controlled in the next two weeks, according to Eddie Holland, Briscoe County Agricultural Extension Agent. Tansy

and treacle mustard are the winter annual weed pests causing the problem. These weeds are most prevalent in years with good fall rains or if farmers irrigate wheat for emergence, according to Dr. Frank Petr, Area Agronomist, Texas Agricultural Extension Service. Presently both weeds are in the rosette stage. Small tansy mustard are a tuft of fern-like lacy

gray-green leaves. Flowers are yellow and small orange seeds are borne in long cylindrical pods. Rosettes of treacle mustard look like small dandelions. The leaves are about one half inch wide and are deeply lobed. Seed stalks bearing yellow flowers arise from the rosettes in early spring and sometimes grow to a height of 1.5 feet. The seed pods are shorter and broader than those on tansy mus-

tard. The mature plant and pods develop a characteristic reddish purple color.

Research at the USDA Research Center at Bushland shows that one weed per square foot can reduce wheat yields up to ten percent. That's two bushels per acre in a field with twenty bushels per acre yield potential, according to Dr. Petr. Spending two to three dollars per acre for control will pay big dividends. On irrigated fields with yield potentials of 50 bushels per acre or in fields with more weeds, returns for control may be up to twenty-five dollars per acre.

Control of tansy mustard can be accomplished by applying 0.5 pound per acre of 2,4-D ester before March 15. Weeds will deprive wheat of valuable moisture if allowed to grow during warm weather in late March or early April.

Treacle mustard infestations are worse north of the Canadian river and in the Hereford area. Treacle mustard is a new pest and producers have had more difficulty controlling this weed than tansy mustard. To solve this problem chemical weed control experiments were started in 1967 in Moore County on the Dale Coleman, Jim Clements and Jim Dowty farms by Dr. A. F. Wiese, Texas Agricultural Experiment Station scientist located at Bushland. Results over the years indicate that one pound per acre of 2,4-D or MCPA esters will control the weed if applied on or shortly after March 1. Treating weeds before rosettes are more than two inches in diameter is another good rule of thumb for planning spray operations. Larger treacle mustard plants or those under moisture stress are difficult to control. Larger weeds treated after the middle of March with two pounds per acre of 2,4-D were not adequately controlled in the research plots.

Treacle mustard occurs in wetter areas of a field while tansy mustard is usually most preval-

NEW ARRIVAL

Mr. and Mrs. David Holt are parents of a son, David Lane, born in Central Plains Hospital in Plainview February 24. He weighed six pounds and ten ounces.

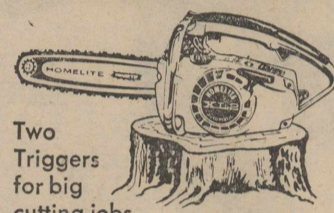

Grandparents are Mrs. John Boyd of Eden, Robert Boyd of Kingsville, and Mr. and Mrs. Rex Holt of Silverton.

Great-grandparents are Mr. and

ent in the drier well-drained sites. Producers should observe their fields carefully to determine if a higher rate of 2,4-D is needed to get good control of the treacle mustard. Where treacle mustard is present in only a small proportion of the field two passes with the aerial or ground rig may be preferable to doubling the application rate for the entire field.

"Careful checking of fields for these pests and prompt control measures will be profitable for the wheat producer," Dr. Petr emphasized.

DEAR EDITOR:

A LETTER TO THE CITY COUNCIL

I'm sure you have had several complaints about your decision to raise the water rates here in Silverton, now I'm going to give you my reason why you have no justification to raise the water rates.

I was an employee of the City for 13 years, and during that time it was necessary for each department to pay its way, because the City was in debt. During that time the City had property taxes collected in the amount of approximately \$21,000.00 per year, of which 80% went into the Bond Fund to pay off the bonds plus interest each year. That left the City about \$5,000 or \$6,000.00 dollars each year for other expenses. If we were lucky we could save enough over a period of 4 or 5 years to re-top the streets, repair the water tower and etc.

Now the City is completely out of debt and they have the following taxes collected each year. Property taxes-\$23,705.00, Sales Taxes-\$12,919.00 and Revenue Funds from the Federal Government-\$5,563.00, for a total of \$42,187.00 per year. Now, why not let some of this tax money pay for the new well and etc. I understand that the Federal Rev. Funds will pay for any new wells each year anyway, that is as for as the money goes. Now if your not going to use this tax money for this purpose well lets, lower the property taxes since we don't seem to have a need for them anymore.

According to the article in last weeks paper, the total cost of the contract for the new well per year is \$7,500.00 at the most. At the present time the City has 450 meters at \$1.50 per meter raise in the minimum, that is \$675.00 per month or \$8,100.00 per year. Now during a normal year the City will sell around 65,000,000 gallons of water, take the minimum from that and it will leave you about 50,000,000 gallons per year at .50 per thousand, which would be \$25,000.00 per year. Now at the old rate of .30 per thousand this would be \$15,000.00, or a difference of \$10,000.00, which means the citizens of this community will be paying \$18,000.00 for this new well that the City paid \$7,500.00 for. Either one of the above op-

tions would have paid for the well, but not both. Don't get me wrong, I'm glad the City found some water, but lets don't raise the water rates until you have too. Think of some of these older people on a fixed income that are just barely getting by now. Believe me I'm not the only one that feels this way, several people are behind me 100%.

4-H Horse Club Selling Light Bulbs

The Briscoe County 4-H Horse Club will conduct an all-out drive beginning March 14 to sell electric light bulbs to residents, according to an announcement made today by Briscoe County Agent Eddie Holland. The money will be used to finance the first annual Briscoe County Invitational Horse Show May 24.

The light bulbs will be sold in "Thank You Packs," each containing two 60 watt, two 75 watt and two 100 watt Sylvania Soft-White Light Bulbs at the regular retail price of \$2.25. Every householder can use light bulbs and this drive gives everyone an opportunity to buy a good supply of a needed product and at the same time help a worthy cause.

The entire membership of the Briscoe County 4-H Horse Club is being organized to supply friends and neighbors with light bulbs delivered right to their homes. Clubs and organizations in other cities have had excellent results with similar bulb-selling programs, and County Agent Holland expressed his confidence in the success of this fund-raising campaign.

Tips For Farm And Home

by Briscoe County Extension Agents

Eddie R. Holland and Patricia L. Honea

CUTTING BOARD CARE

Clean a cutting board after each use whether it is part of the counter, atop a dishwasher or a separate piece. Use suds and a stiff brush. To remove stubborn stains, let dampened scouring powder remain in contact with the wood for 15-20 minutes. Then scrub and wipe away. It may be necessary to recondition the board after an extended period of use (especially cutting) by sanding off all the remaining lacquer and applying mineral oil to the board. Simply saturate a clean cloth with oil and wipe on. Allow overnight absorption.

ELEGANCE AND WASHABILITY

What you always wanted in a sheet—linen with the luxurious feel of satin, but with the practicability of permanent press. The new tricort sheet made of Antron III nylon feels soft and silky yet retains the easy-care qualities of synthetics. This satin-like impostor is machine washable, needs no ironing and retains its beauty through repeated washings. Both fitted and flat sheets are available in a wide range of colors with printed designs planned for production next year.

START CLEANLINESS HABITS EARLY

Child-care specialists advise giving plenty of "finger foods" to toddlers just learning to feed themselves. Strips of vegetables, peas and lima beans can all be picked up with the fingers if a spoon or fork taxes the child's patience too much.

For health reasons, little hands should be suds-scrubbed and rinsed before each feeding session. Besides, it's never too early to start training a child into good cleanliness habits which he will remember throughout his life.

BRIGHT PAJAMA BAG POPS INTO THE WASHER

Let the sun shine in with a colorful pajama bag that's easy to make out of laundry-loving fabrics. A 20-inch yellow circle and a 22-inch orange circle make up the body. Cut the 22-inch circle in half and insert a 16-inch "invisible" zipper according to package

directions. This will form the back of the pajama bag. Using a nose and mouth cut from the orange fabric, two half-dollar size circles for eyes and two 4-inch magenta circles for cheeks, topstitch the features into place on the yellow circle to form a cheerful, smiling face. Stitch several rows of orange rickrack in various widths across the top of the face.

To complete the pajama bag, place the wrong sides of the two circles together, and topstitch 1/2-inch from the edge of the yellow circle. Then trim off the orange circle and you have a gay, decorative pajama bag that's a snap to keep clean and bright.

placed in a dryer. To do so is to risk an explosion. Be sure to read labels before using liquid cleaners and some spot removers.

Foam rubber and rubber-like materials can be dried in a dryer on an AIR setting only. They must not be dried at a heat setting since the heat may damage the plastic and be a fire hazard.

Glass fiber curtains and draperies should be hung to dry.

Knitted woollens will shrink from heat and tumbling. Instead, block and air-dry to hold their original dimensions and appearance.

WASHING MAY BE PRACTICAL FURNITURE RESTORATION AID

If you own a piece of old wood furniture that would look better cleaner, but you aren't sure it can be washed, try working on a small inconspicuous spot first. If the test zone becomes streaked or blossoms a whitish haze, abandon the project and seek the help of an expert.

Should the testing prove safe, use mineral spirits to remove old wax. Prepare a solution of four tablespoons detergent or soap to a half gallon of warm water. Dip a soft-bristled brush into the sudsy solution, lightly shake out excess moisture and proceed carefully. Wash, rinse and dry small areas at a time.

Wait at least 24 hours to be sure the furniture is completely dry; then apply a hard-paste furniture wax and buff with a soft cloth.

THE MASTER IS COMING

They said: "The Master is coming To honor the town today, And none can tell at whose house or home

The Master will choose to stay." And I thought while my heart beat wildly,

What if He should come to mine? How would I strive to entertain And honor the Guest Divine?

And straight I turned to toiling, To make my home more neat; I swept, and polished, and garnished, And decked it with blossoms sweet;

I was troubled for fear the Master Might come ere my task was done, And I hastened and worked the faster,

And watched the hurrying sun. But right in the midst of my duties

A woman came to my door; She had come to tell me her sorrows,

And comfort and aid to implore. And I said: "I cannot listen, Nor help you any today, I have greater things to attend to." And the pleader turned away.

But there soon came another— A cripple, thin, pale and gray— And said: "Oh, let me stop and rest

Awfully in your home, I pray!" And I said: "I am grieved and sorry, But I cannot help you today, I look for a Great and Noble Guest."

And the cripple went away.

YOUNG FARMERS HEAR FARM PROGRAMS DISCUSSED

Silverton Young Farmers met in the Pioneer Room at First State Bank in Silverton February 27 for a regular meeting. Wayne Mayfield and James Griffin from the A.S.C.S. office were guest speakers. Mayfield gave highlights of 1974 and plans for the present farm program. They touched on disaster payments, target and loan price on cotton and grain.

In the business meeting, it was reported that between \$3,000 and \$3,500 had been committed to an R. C. A. Rodeo, and that rain-out insurance would cost about \$1,300 and liability \$80 a performance. It was decided not to have an R.C.A. Rodeo.

The members will try to meet March 8 at the old picture show grounds for clean up work.

The chapter ag tour will be set up at a later date from last Saturday.

Calvin Shelton gave a report on Area activities and banquet. He also gave a report on the amateur rodeo producers and was put in charge of securing a producer.

The chapter welcomed George Reed, Steve Barbour and Ed Lain as new members. Other members present were G. W. Happell, Toke Riddell, Calvin Shelton, Jimmy

Mrs. Gordon Alexander was taken to Swisher Memorial Hospital in Tulia Sunday morning by the Silverton Volunteer Ambulance Service. Wayne Nance and Stanley Fogerson were ambulance attendants on the trip. Mrs. Alexander has been in the hospital's intensive care unit this week.

Mrs. Jimmy Walker, an assistant coach at Waco's Midway High School, is associated with the team that won the State AAA girls basketball crown last week. Mrs. Walker is the daughter-in-law of the Roy Mack Walkers.

Mrs. C. G. Harrison was taken to Central Plains Hospital in Plainview Sunday.

Mr. and Mrs. Brubs Bomar visited their son-in-law and daughter, Mr. and Mrs. David Carroll, in Midland over the weekend.

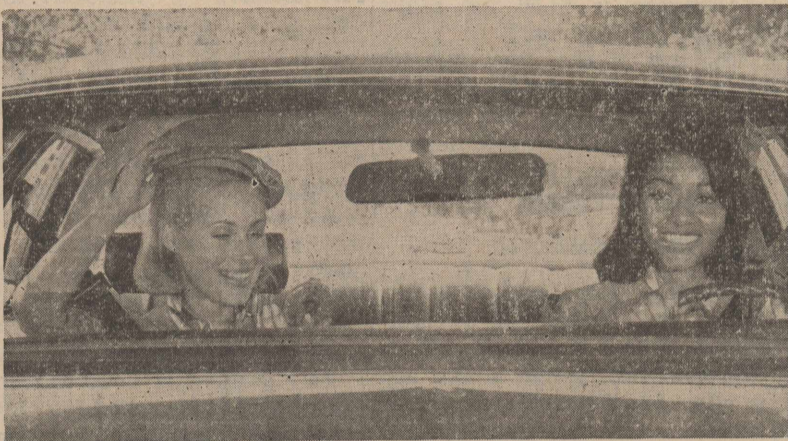

Mrs. Jack Sutton returned home Friday after spending ten days in a Plainview hospital for tests and treatment.

God's Purposes

If you were having a picnic at the lake at approximately this spot, you might say, "Well, why did the engineers leave those trees in the water when they made this lake? They create such an eyesore. I can see no purpose in it." Yet, fishermen tell us that the fish love those old tree stumps and roots and that you can almost always find fish swimming in the dark recesses around and between these trees.

So many times we question God's wisdom in allowing some things to be and other things to come to pass. But God is good and his purposes are wise. The very thing that seems useless to us, might make us marvel if we could see with Heaven's eyes.

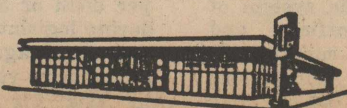

As Isaiah reminds us, "For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord. For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts."

But he also wants us to know that his thoughts are many toward us and that everything works toward our good and our salvation. If we had no conflicts, and no questions, we would never have the opportunity to step out on faith.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

A Land Bank loan at work

Labor-saving devices won't turn farming into a "rocking chair" occupation. Still, there are ways that a long-term Federal Land Bank loan at reasonable cost could help you expand—and handle the increased production with less effort. In fact, if you've been working too hard, your credit probably hasn't been working hard enough. To find out how expansion capital might be used to get more efficiency, see your Land Bank Association.

BOB WILLS COMMEMORATIVE COIN TO BE ISSUED THIS MONTH

Pictured here is the Bob Wills commemorative medal which is being issued to be sold as a money-making project for the Bob Wills Foundation of Turkey and the Hall County Bicentennial activities for Memphis Chamber of Commerce. The medals will be sold by all the Hall County Banks. The medals will arrive in March, and will be on display in the Hall County Banks. For information, contact the banks.

The collection is expected to continue with the issuance of a medal each year for the next several years.

Bob Wills' portrait, minted in

relief on one side of the medal, is done by Hall County's famed artist, Jan Bell. The obverse side of the medal will change with each issue. The first medal commemorates Hall County as The Cotton Capital of the Panhandle. Hall is the largest cotton producing county in the Texas Panhandle and also the home of Bob Wills. This is a limited edition of the serial numbered medals which is certain to grow in prestige and value through the years.

Only 125 24-karat gold on .999 fine silver, 250 .999 fine silver, 1,000 antique silver and bronze medals will be struck.

APPLICATIONS BEING TAKEN BY LIONS FOR SUMMER CAMPS

Applications for a summer vacation full of fun for handicapped children in Briscoe County are now being accepted by members of the Silverton Lions Club. Applications are also being sought for camping fun for diabetic children in this area.

CRIPPLED CHILDREN

This unique Texas Lions Camp for Crippled Children at Kerrville will open its first two-weeks session Sunday, June 1, 1975. Four sessions will be held this summer for youngsters from seven through sixteen years of age.

The camp is free to eligible blind, deaf, mute or crippled children. All requests for summer camp are handled locally by the Lions.

In past years, Lions have sent over 15,000 youngsters to the Texas Lions Camp for Crippled Children at Kerrville.

DIABETIC CHILDREN

The Texas Lions League, which has operated a crippled children's camp at Kerrville for 22 years, has expanded its Texas Lions Camp for Diabetic Children and is offering two camping sessions at two different locations for its 1975 program.

A two-week session at Camp Manison near Friendswood for diabetic children from six through sixteen, from June 2 through June 13, is limited to 150 campers.

A two-week session, from Monday, July 28, through Friday, August 8, at Texas Lions Camp for Crippled Children at Kerrville will also take 150 diabetic children from six through sixteen years of age.

Both sessions are free for eligible campers.

For more detailed information about the Lions Camp Programs, you are urged to contact Jay Towe, of the Silverton Lions Club at 823-2046 or 823-2482.

Several top placings were earned by Silverton 4-H boys and girls at the Houston Junior Livestock Show last week.

Top local exhibitor was Shelly Harris, who showed a first-place Yorkshire barrow.

James Alan Patton also did well with a second-place Chester White barrow. His brother, Eric Patton, was exhibitor of a fourth-place Chester White.

Kim Cornett was exhibitor of a 21st place Chester White.

Other local exhibitors were Karen Martin, Mark Patton, Tad Cornett and Mike Cornett.

Heart Fund Benefit To Be Presented Here

A Heart Fund Benefit featuring REVUE in a country and rock concert will be sponsored in the Silverton School Auditorium at 8:00 p.m. Monday, March 10, by the Century of Progress Study Club. Advance tickets will be available from members of the sponsoring club and admission will be \$2.00 in advance, \$2.50 at the door.

REVUE is composed of instrumentalists and vocalists, Scott Hutsell, keyboards; Carl Gallington, drums; Rick Hester, bass guitar; Ronnie Hester, rhythm and lead guitar.

First part of the concert will be all country and western numbers. The rock concert will begin after intermission.

The H & H Productions crew has been working hard to make this a good show that will be enjoyed by young and old. Heart Fund donations will also be accepted at the door.

The cornea, the lens-like membrane which covers the pupil of the eye, can be used to restore sight to certain blind individuals if donated, on death, to the Lions Hi-Plains Eye Bank of District 2-T1, Inc.

Senior Class To Present Play March 6

The Class of 1975 invites you to attend their production of the three-act comedy entitled "The Roaring Twenties" by Edward Trigger. The play will be presented Thursday, March 6, at 8:00 p.m. in the Silverton School Auditorium.

Devastatingly funny! This comedy provides a look at the fads and foibles of "the roaring twenties." Dexter and Jessie Dunning and their three children are the average American family. Into their peaceful home comes Jessie's ne'er-do-well brother, Jay Desmond, who announces that he has decided to settle down and make his home with his sister and her family. One month later Jay is still relaxing at the Dunning's home when a local bank informs Jessie that somebody has deposited ten thousand dollars in her account. "Mama has got herself a sugar daddy, and she don't know who he is or how she got him."

Admission is \$1.50 for adults and 75c for students.

The cast of characters includes Dexter Dunning, who owns a lumberyard, played by Ted Wilson; Jessie Dunning, Dexter's devoted

wife, Jean Reeves; Karen Dunning, their pretty daughter, Ruth Ann Cline; Della Dunning, Karen's precocious young sister, Brenda Payne; Gary Dunning, who works in his father's lumberyard, Tommy Bullock; Eddie Messing, boy who lives next door, Kelly Bomar; Norman Langham, in love with Karen, Dean Ziegler; Elly Dunning, Dexter's unfortunate sister, Christi Northcutt; Jay Desmond, Jessie's ne'er-do-well brother, Todd McJimsey; Nero Aintree, a customer's man in a broker's office,

"KISSING DISEASE"

NOT VERY ROMANTIC

Infectious mononucleosis—often called just "mono"—is a widespread ailment that mostly affects teenagers and young adults and is often found among college students.

Mono is quite accurately called the "Kissing Disease," reports the Texas Medical Association. Physicians observed 20 years ago that the disease was spread primarily by prolonged, passionate kissing. A few cases seem to have been spread by the communal use of drinking utensils, and there have been sporadic cases following blood transfusions.

Despite legends to the contrary, mono is a benign disease. Among millions of cases, only a few rare fatalities have occurred. However, it is highly unpleasant, producing weakness, dizziness, fever, aching joints, swollen glands, skin rash, and mental depression.

Although mono is one of the nastiest diseases around, it never causes permanent damage and almost never produces prolonged convalescence. Most patients are back in perfect health within two or three weeks. There is neither prevention or cure available, and the mainstay of treatment continues to be rest, fluids and mild pain relievers.

Mono, a virus disease, is not easily communicable, usually requiring close, intimate contact. One attack usually produces lifetime immunity. If there is a "recurrence," the illness most likely is something else.

Volleyball Tourney Slated March 18-22

The annual L. O. A. Junior Study Club Volleyball Tournament will be held at the school gymnasium in Silverton March 18-20-21-22, 1975. Entry fee for teams will be \$6.00. Admission will be 50c for adults and 25c for school age children to 12. Players will also be charged admission.

Trophies will be given to the men's and women's teams that win first, second and third places, and to the winners of the consolation brackets.

For further information regarding the tournament or to enter your team, please send the team name, address, captain's name and entry fee to Mrs. Jerry Baird, Box 462, Silverton, Texas 79257, or call 806-823-2476 between 8:00 a.m. and 4:00 p.m. Monday through Friday.

SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION APRIL 22, 1975

NUMBER ONE ON THE BALLOT (S.J.R. No. 3)

Repealing Sections 48a, 48b, 51e, and 51f of Article III and Sections 62 and 63 of Article XVI of the Texas Constitution, Article XVI of the Texas Constitution is amended to:

Provide for the revision and consolidation of provisions relating to state and local retirement systems and programs and to provide that all general laws that have established retirement systems and optional retirement programs for public employees and officers in effect at the time of the adoption of this constitutional amendment will remain in effect, subject to the general powers of the Legislature.

Provide that the amount a participating officer or employee contributes to the employee retirement system or the teacher retirement system shall be established by the Legislature but may not be less than 6% of current compensation and providing further that the amount contributed by the state may not be less than 6 nor more than 10% of the aggregate compensation paid to participating persons, except that in an emergency, as determined by the Governor, the Legislature may contribute more than 10% of the aggregate compensation paid to persons participating in state retirement systems.

Provide that the Legislature shall provide for local retirement systems created by any city or county for its officers and employees and shall further provide for a state-wide system of benefits for officers and employees of counties or other political subdivisions of the State which may voluntarily participate, and

NUMBER TWO ON THE BALLOT (H.J.R. No. 6)

Amending Article III, Section 24 of the Texas Constitution to:

Provide an increase in salary for members of the Legislature from \$400 per month to \$600 per month.

Provide an increase in the per diem rate for members of the Legislature from \$12 to \$30 for each day during each Regular and Special Session of the Legislature.

Provide an increase in the transportation allowance for members from \$10 per mile to the rate prescribed by law for employees of the State of Texas.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising and consolidating provisions relating to state and local retirement systems and programs and providing for a maximum state contribution to state systems of 10 percent of the aggregate compensation paid to individuals."

Amending Article III, Section 24 of the Texas Constitution to:

Provide an increase in salary for members of the Legislature from \$400 per month to \$600 per month and setting a per diem of \$30 per day during legislative sessions and a mileage allowance at the same rate provided by law for state employees."

In need of a Pull...

It is fun to get out and romp with our children, to share in their joy. Sometimes it is even work to pull them on a sled. Afterwards you may be tired and bones and muscles ache, but you think fondly of the laughter, and squeals of delight and the love that shines in a child's eyes. Then you think it's all worth the effort, for they won't be young forever, and someday you will only have memories.

They won't be young forever and now is the time that they need a pull in the direction toward God. Now is the time that you can lead and share in the joys of their worship. Take your children to Church

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

TEXAS TALK

by Danny Green

CBS Television in their regular program called "60 Minutes" took some time last month to talk about grass-fed cattle. Charles E. Ball, executive VP of the Texas Cattle Feeders Association told TEXAS TALK why he wrote a letter to CBS taking exception to some of the comments. Mr. Ball indicated the program implied that feeding grain to cattle was immoral. Saying that grain not fed to cattle would not prevent starvation in another part of the world, Mr. Ball pointed to the practical problems of transportation, storage and economics as factors which would prevent the grain from reaching starving people. Ball said the cattlemen is already using grassland as effectively as possible without intensifying the energy problem (use of fertilizer). Other points were made by Mr. Ball including the fact that much of the grain fed to cattle is not suitable for human consumption. Many of us will be watching now to see if a reply to his letter is forthcoming from CBS.
