COMPLETE NEWS AND ADVERTISING COVERAGE OF THE GREAT TALCO OIL FIELD

VOLUME V

TALCO, TITUS COUNTY, TEXAS, FRIDAY, AUGUST 16, 1940

NUMBER 27

New Producer Completed by Texas Co.

Texas Company completed another flowing producer Friday when their drill bit cored into 90 feet of oil sand on the Barker No. 15. This tract is located in West Talco, and is farther north of the fault line than any well in the field. Several weeks ago the company brought in another flowing producer on the same tract. Three new permits were issued to the company to continue drilling on that lease.

On the east side Humble Com the A. J. Blalock No. 4 after comthe first of the week. No potential test has been given out on that completion yet. Humble has several locations to drill on the east side before moving to a new area.

Lucey Petroleum cemented a producer on the Williams No. 17 Wednesday and is preparing to start another well on the same tract. This land lies in the A. Watson survey.

11,429,000 BALES COTTON FORECAST FOR 1940 CROP

This year's cotton crop was estimated last Thursday as 11,429,000 bales, based on Aug. 1 crop conditions. Production was 11,817,000 bales last year and averaged 13,-547,000 bales in the ten years, 1929-

Condition was 74 per cent of normal on the 24,616,000 acres for harvest. Last year's harvested acreage was 23,928,000 acres. Area in cultivation in Texas on July 1 was Cass WHD Agent

department's production forecast was followed by announcement of provisions of a new governcent weeks in the face of unfavorable export prospects.

Congressional Race Official Figures

Following are the official figures in the First Congressional race on July 27 from the eleven counties in the district, showing Mr. Patman carried all of them. Out of 282 voting boxes he carried all but 19. He lost five boxes in Lamar coun-

ty and five in Red River: Vote by Counties

Pasture Fires are **Menace to Farms**

Texas farmers and ranchers are advised by Marvin Hall, state fire insurance commissioner, to exercise every precaution in the prevention of costly pasture fires.

The danger of such fires is high in the late summer and early fall, Pleasant. he said, especially in areas scorched Cotton is beginning to open. But by prolonged drought. Land scorched by fire may take two years for reseeding, necessitating heavy expense on the part of livestock men who may be forced to lease other pastures or purchase feed.

Hall advised the adoption of practices of old-time cowboys and Rangers in breaking off the heads of matches after they have been ignited. Small land owners have plowed furrows around pastures to guard against the spread of fire.

Sixty Days Hath

Families of local nimrods will probably enjoy more duck soup this year than last. Secretary Ickes announced Monday that the hunting season for ducks, geese, coots and jacksnipes had been extended to 60 days this year from the 45-day limit of last season.

Season in Texas, Louisiana and Arkansas opens Nov. 2 and closes Dec. 31. Bag limit on ducks remains 10 per day and the threeshell limit on repeating guns is con-

Renewed Leasing in Delta County

Along with other counties in th north end of the East Texas Basin Delta county is seeing renewed leasing. Stanolind is credited with acquiring the 258.4-acre Ira Knight tract in the D. Holbrook survey southwest of Klondike about six

West of Cooper about seven miles, S. A. Cochran is said to be paying Miro survey east of Bogata. A up to \$1.50 an acre for tracts in the Moses Williams and G. W. Still surveys, having acquired several hundred acres.

Watermelon Party Was

In spite of a heavy mist and rain all day Friday, a large crowd turned out Friday night for the watermelon slicing sponsored by Talco merchants.

The vacant building formerly occupied by the Talco Drug Store was furnished by Earl Lide, where a great number of watermelons were cut and the Talco string band rendered several selections.

Watermelons were placed all over town and cut to accommodate those standing on the street and those sitting in cars.

Merchants expressed themselves as being satisfied with the occasion, and hope to have similar occasions more often.

Regular Meeting

The Talco Chapter No. 846 Order o stated meeting Tuesday night at the Masonic hall, with Worthy Ma-0 tron Ivy Smith and Worthy Patron lation: 0 Jack Carlisle presiding. Sixteen 0 members were present. Cards were read from Mrs. Vera Morrison and 0 Mrs. Edna Sammons, thanking the 0 chapter for gifts they received dur-0 ing their illness. There was also a petition for membership. Plans for the new evening dresses for the officers were discussed and decided upon. The star points are to wear their station colors in taffeta and all Area 90 and were announced by other officers are to wear white John L. Lewis, supervisor of the taffeta. All dresses are to be made San Antonio area. alike. Next meeting will be Aug-

Derrick Going Up Southeast of Bogata

Derrick steel was on the ground Thursday and foundation to support the structure was being built for the J. F. Morrissey wildcat test on the A. F. Tyer 40 acres in the James heavy rig to drill the 5,000 foot test is to be installed.

The wildcat is preparing to drill after months of effort on the part of several Bogata and Rosalie men who had the leadership and cooperation of Tom Cole of Paris. Numerous obstacles have blocked the deal but by hard work they have been overcome. A great amount of faith has been shown in possibilities of this section for deep oil production by operators and geologists. There have been previous shallow tests in the area but sands below 3,000 feet are unexplored. Most of the land has been under lease for deep drilling before but other promised tests did not reach the location

B. B. Bowden of the J. F. Morrissey company is in Bogata as geologist for the test. E. W. Turner of Ada, Okla., has been announced as drilling contractor. His machinery is several days past due.

The test will be made through the Trinity sands.

Some activity is reported outside the 9,000-acre tract.

To The Voters of **Titus County**

On August 24th, this year, you will be called upon to select a man to serve as County Judge of Titus County. Inmaking that selection you will want to choose a man whom you KNOW will serve the county in the best possible manner, and one who will always work for the best interests of the county.

Before you go to the polls to cast your ballot for a County Judge won't you consider several questions that should be of the utmost importance to you?

Do you want to vote for a man who has lived in Titus County for more than seventy years and during that time has never paid one penny in school taxes to help maintain the schools of the county, or to help educate your children?

know what a tax burden is and has never even been on the tax rolls of Titus County? Although that man has lived in Titus County for seventy years?

Do you want a man to set your tax rate who does not

Do you want a man to take charge of the county's \$11,-000,000 business who has never been able to support his own self to the extent of accumulating enough property of his own

Or do you want a man who knows what a tax burden is; one who has paid city, county, state and school taxes ever since he came out of the army after the first World War, and one who is not only capable of managing his own affairs, but the affairs of the county as well?

I am offering myself as a candidate for the office of County Judge, and if you see fit to elect me I will go into that office under obligations to no man or group of men. No clique or clan will have control of my actions and my efforts will always be directed toward the best interests of every person in the county.

I am not in favor of paying a fee of fifteen per cent to out of town lawyers to handle the collection of Delinquent Taxes, when local lawyers will do the work for half the price.

ployment in Titus County, and at the same time allow the county the benefits that the program will provide.

I favor a liberal WPA Program in order to relieve unem-

I also favor a liberal wage scale for county employees who occupy non-elective places on the county's payroll.

I feel that I am thoroughly qualified, through actual experience, to help administer the affairs of the county in an efficient manner and any support you give me on August 24th will be deeply appreciated. Sincerely yours,

JACK CROSS

Here's why I prefer ELECTRIC COOKING

IT'S COOL-no flame, no wasted heat, no circulation of hot air through oven and into kitchen.

IT'S CLEAN-no smoke, no soot, no greasy vapors to blacken pans, smudge walls and curtains.

IT'S FAST-cooking starts in less than 30 seconds—speed unsurpassed by any other method.

IT'S SAFE—no matches, no flame, no fumes, no danger of asphyxiation or explosion.

electric heat prevents overcooking or undercooking, ends guesswork.

IT'S ACCURATE—measured

IT'S ECONOMICAL—saves cleaning and redecorating expense, cuts meat shrinkage losses, prevents food and fuel

IT'S HEALTHFUL—preserves health-giving vitamins, makes meats more tender and easily digestible.

IT'S TIME-SAVING-ends potwatching, allows more time for leisure.

And It Costs Much Less Than You Think

Electric rates are lower and electric ranges use less current than ever before. Ask for free cooking cost estimate based on your present electrical consumption.

New Hotpoint "CENTURY" MODEL

(illustrated)

Handsome, built-to-floor model with 5-heat Calrod units, Thrift Cooker, roomy 2-unit oven, utility drawer, center work space on cooking top, many other fine features. (Electric light furnished at small extra cost.)
