## Burglars Enter Vault at Talco High School

Burglars broke into the Talco school building on Monday night and carried off between \$30 and \$40 in cash. It is presumed they were the same ones who entered the Deport school the same night and took \$262. Most of the money belonged to the graduating class to be used in buying rings.

At Talco they broke the lock on a window and knocked a hole in a plate glass to enter the building. Lock on a door leading to Superintendent S. O. Loving's office was broken. The knob on the vault door was knocked off, but the lock was a modern one, and punching out of the pin did not let the door open, so they cut into the steel door with a chisel and hammer and got it open.

Damage to the building doors and vault doors was estimated at about \$300.

There was some cash in various trays in the vault, but the burglars did not take all of it. It is believed they were frightened away by Sup't Loving and High School Principal W. T. Hughes. They had been to Commerce to a meeting of school men and returned home about 11:30 that night. Their homes are near the school building and their dogs had been barking for some time.

Work that was done on the vault door indicated they were not amateurs, and that they wore gloves in doing the job, as no fingerprints could be picked up by officers.

No attempt was made to enter the office and vault of Mrs. O. B. Hopwood, tax assessor and collector for the Talco school district, which is just across the hall from Sup't Loving's office.

Indian summer weather has prevailed in this area the past few days. The fair warm days followed a 1.25 inch rain which fell on Wednesday night of last week. This brought the precipitation to 7.75 inches during the month of September.

## Grades to Present The County Fair

A merry time will be had by all who attend the PTA meeting next Thursday night, Oct. 11, for the 6th and 7th grades will be celebrating the "County Fair." Yes, since October is the "fair month" in Texas, these two classes have been busily working to present their fair to the PTA audience, and a large crowd is expected.

"County Fair" is a light opera in one act. The characters are represented as students of the Talco Junior High School, who have entered a young lady to represent them at the county fair in a singing contest. Something terrible happens to this young lady before the contest and a replacement is necessary at the last minute. Lemonade, popcorn, sodapop, balloons, the side show, "Little Egypts," tottooted lady, snake man, fat man and all of the interesting exhibits are all coming to the fair. You'll be sorry if you miss it, so make plans to attend the County Fair at the next PTA meeting.

## Quail Crop Report "Fairly Good"

Prospects for the coming fall quail hunt were described as "fairly good" by the Director of Wildlife Restoration for Texas Game and Fish Commission.

He said field reports were inadequate to give the quail population pattern for the entire state but added that in scattered areas no devastated by the drought the outlook is better.

The Director explained that the original hatch was "average" in much of the state since nesting was well advanced before the drought began to sear the state during July and August.

From a food viewpoint, the Director of Wildlife Restoration predicted that there "is certain to be a reduced production of weed and grass seeds as well as the berries and seeds from trees and shrubs."

He observed that hunting conditions in most recent seasons have not been favorable to the sportsmen since the fall droughts have hampered scenting by bird dogs.

## Free People Have Stake in Keeping A Free Press

The time has come for the people to fight a political battle for a free and untrammelled press. It is not a time for secrecy in high places. We write the above after reading accounts of rottenness in Washington, and attempts of the head of this nation to cover up corruption, theft, the sale of influence among his appointees, and now his latest attempt to withhold information from the people on security grounds. We suppose that order to refuse information to the press from OPA was also "security grounds."

What we need is a thorough house-cleaning at Washington. We need to allow the people more information about what goes on nationally, state, county, city and school district. Every taxing agency of government should be required to publish lists of taxes, from whom collected and to whom paid and for what.

In Texas for instance, old-age assistance lists should be published and the chiselers smoked from the rolls. Then there would be more money for the deserving. Indiana tried to do that and the Bureaucrats at Washington said no, and cut twenty million dollars from the federal grant for that state.

A free people have a right to the fullest information about the conduct of their government. Every pensioner, every man who thinks he is piling up a nice income for his old age thru payment of social security taxes by himself and his employer; every man who has life insurance, a small nest egg in a stock or bond, U. S. government included, has a stake in a free press. His investments in such things have been reduced 50% during the past fifteen years by a spend-thrift government, and a third of his time is now spent working to pay various taxes. It is time he woke up to the need of a free press and to representatives at Washington who will not bankrupt the nation thru unnecessary spending.

The above is plain, but truthful. This is national newspaper week and a very good time to print it.

If you want to know just how far the Bureaucrats have tried to go in regimentation and regulation of the lives and activities of the people, just read its rescinding of an order that required the owner of an animal to have the meat graded and marked before it was consumed.

A new law goes into effect Jan. 1 that requires those who are over 60 years of age and exempt from payment of poll taxes, to secure a new poll tax exemption. In order to vote this next year, new exemptions will be issued to those over 60 years at any time between Oct. 1 and Jan. 31.

Lamar County farmers will probably be asked to plant a castor bean crop next year. Better let the younger farmers grow them—the older ones who took castor oil when they were boys will not be interested.

### Miss Little Weds Lt. J. M. Moore At Winnsboro

The Central Christian Church in Winnsboro was the scene Saturday evening at 7:30 o'clock of the wedding of Miss Jane Little, daughter of Mr. and Mrs. Thomas Cato Little, and Lt. John Martin Moore, son of Mrs. Hood Moore of Lampasas, formerly of Winnsboro, and the late Mr. Moore.

The vows of the double ring ceremony were read by J. M. Swafford, minister of the Church of Christ, before an altar decorated with white baskets holding white chrysanthemums. Multi-branched candelabra holding gleaming white tapers lighted the scene.

Mrs. John Craddock, at the piano, rendered pre-nuptial selections of "Always" and "Clare de Lune." She also accompanied Mrs. Wortham Daniel who sang "Because" and "Through the Years." The traditional wedding marches were used.

The bride, given in marriage by her father, wore a suit of bankers grey flannel, with a grey jewel neckline blouse. Her hat and accessories were also of grey and she carried an orchid corsage.

Mrs. James Barnes, Marshall, aunt of the bride and matron of honor, wore a plum-colored suit with mauve accessories and her corsage was Vanda orchids.

The bride's table was laid with a white cut work cloth and white satin bows adorned each corner. It was centered with crystal candelabra holding white tapers. The base was covered with a cluster of white bells. At one end the square three-tiered embossed wedding cake, topped with a miniature bride and groom, was served by Mrs. F. A. Jones. At the other end was the crystal punch bowl where Mrs. G. H. Quillin served frosted punch.

Miss Wanda Rogers registered the guests. Other members of the house party were Mrs. A. B. Wallace, Mrs. H. F. Wilson, and Mrs. R. O. Ferrell.

The bride is a graduate of Talco High School and attended Paris Junior College in Paris and East Texas State Teachers College in Commerce where she was a member of Les Choistes, social club.

The groom is a graduate of Winnsboro High School and attended Paris Junior College in Paris and received his degree in June from East Texas State Teachers College in Commerce where he was commissioned a second lieutenant in the Air Force. He is stationed at Killeen Air Force Base, Killeen.

Here's what has really happened to your telephone bill!

Shopping nowadays is a reminder of what a bargain your telephone service is. Not only has telephone service gone up far less in price than most other things during the last ten years, but it has also increased in quantity and improved in quality.

Considering that wages and family income have about doubled, telephone service stands out as a bigger bargain and a relatively smaller item in the family budget than it was ten years ago.

Where Money to Expand and Improve Service Comes From

It doesn't come from the money you pay us for telephone service... that money goes to pay wages, taxes and other operating costs. The money to build new facilities must come from people with money to invest. That's why the future of telephone service depends on the Company's continued ability to pay for the use of money invested in telephone facilities.

## Taxable Values on Increase in Red River County

Taxable valuations in Red River County have risen to \$12,491,835, a gain of \$739,613 over renditions for 1950, according to Tax Assessor-Collector J. H. Petty. This year's total is the highest since 1930.

Largest gain recorded was in the value of motor vehicles, the increase being \$524,340. Cattle ranked second with a rise of \$360,000 over last year. The average assessed valuation on land now stands at \$9.37 an acre. The increase for the county in this category was \$63,161 over 1950. City property was up only \$24,045. Gains were shown in utilities, banks and a few other classifications. Some losses were recorded, but in no case were they of appreciable size.

### Fewer Renditions

The \$12,491,835 taxable values appearing on the 1951 rolls represent 7643 owners. This total of renditions is 137 below 1950. The loss in the number of entries on the 1951 list of assessments supports other official data indicating a continuance of the declining trend in population. Most of the 137 loss in taxpayers has been occasioned by family units moving to other counties.

### Valuations

It is significant, Petty thinks, that 137 fewer owners of taxable property appear on the 1951 rolls while the gain in valuations approximate three-quarters of a million dollars. Renditions in 1950 totaled 7,780 and the total rendered was \$11,752,222, or an average of \$1,510 for each assessment. In 1951, 7,643 entries were valued at \$12,491,835, or an average of \$1,634.

The same tax rate in effect last year in Red River County will yield approximately \$7,000 more income as a result of the gain of \$739,613 in values. This gain plus the substantial increase in revenues from motor vehicle registrations and other sources simplifies to some extent at least the task of budget making for the next fiscal year.

It is anticipated that the bulk of 1951 taxes will be paid in the month of October, the period when the three per cent discount prevails.

## Winn Entertains Hunting Friends

Jack Winn entertained his deer-hunting party on Friday night at Humble repair shop on the King lease.

Mrs. Winn had prepared a venison stew from meat killed on last year's hunt, and this was served, along with bread, crackers, pickles and onions.

Plans were discussed for this year's hunt and a most enjoyable time was spent. Present at the meeting were Buford Jones of New London, Alex Wetherbee of Paris, Dude Emerson of Sulphur Bluff, Sam Holloway of Deport, K. O. France, V. L. Taylor and the host of Talco. Members of the party unable to attend were Rip Hargrove and Jim Bagley.

### STRANGE

The case concerned a will and an Irishman was a witness. "Was the deceased," asked the lawyer, "in the habit of talking to himself when alone?"

"I don't know," was the reply. "Come, come, you don't know, and yet you pretend that you were intimately acquainted with him?"

"The fact is," said Pat angrily, "I never happened to be with him when he was alone."

### WHAT A RELIEF

"Yes, I am a self-made man." "Sir, you have relieved the Lord of a great responsibility."

### MUCH WORSE

"How's your insomnia?" "Worse. Can't even sleep when it's time to get up."

EXECUTIVE DEPARTMENT  
AUSTIN, TEXAS

September 27, 1951

Mr. Brad H. Smith, President  
Texas Press Association  
441 Driskill Hotel  
Austin, Texas

Dear Mr. Smith:

With a full realization and appreciation that a free press is a bulwark of the American way of life, I consider it most appropriate that National Newspaper Week is to be observed October 1-8, inclusive. During the present unsettled world conditions it is entirely befitting that this nation and the State of Texas pay tribute to an organization that must play a vital role in the days which lie ahead.

To chronicle the many contributions of the press to our Democratic nation and to the development of a world civilization is impossible. From the smallest hamlet to the largest metropolitan center newspapers constantly have been, and will continue to be, in the foreground championing civic, governmental, educational, cultural and religious improvements. In the field of international events, the diligent efforts of a vigilant press have made the people of our nation the best informed in the world.

A free press means a free people. The history of the world has taught us that nations which censor and hamper a free press do not survive. I am convinced this will continue to be true in the future and that the iron curtain of communistic countries will represent but another chapter in the fate of tyrannical governments which saw fit to interfere with a basic freedom—a freedom of the press. Truly "Your Newspaper Lights the Way of Freedom."

To a free press of Texas, to the members of the Texas Press Association and to our great newspaper industry I offer my sincere congratulations. It is my earnest wish that National Newspaper Week be observed by all Texans with just tribute being paid to a worthy organization and industry.

Sincerely yours,

*Allan Shivers*

### REMEMBER ME?

I could be Willie, the kid who delivered the groceries to your house, or I could be Joe, the guy at the service station, who serviced your car before the war—I could be Jack, the young fellow who had just started to work in the bank when the little brown men rained hell on innocent Pearl Harbor that day in December.

Perhaps I was in the infantry—and got mine at Normandy or Bloody Okinawa—maybe I fell the victim of famine and starvation in a prisoner of war camp—I could have been shot down that day after I accounted for two Japanese vessels—and went down in flames. Perhaps I manned a deck gun that day when we were struck by a "tin fish"—or a Kamikazi—and went down with my ship. Maybe I was destroyed in the African Desert by Rommel's artillery—could be that it happened to me at Salerno—I might have been in the Coast Guard—or perhaps the "Unsung Seabees"—I might have been killed at the Inje Reservoir in Korea—regardless of my status then—I was a guy in uniform—your representative to preserve Democracy and win a war against enemy aggression.

You remember me now—sure you do—you put the rifle in my hand—"go destroy," win—save our land—you shouted "Hip! Hooray!"—but look at me today—you see I live in a land of no return—never can I come back—never will I return to those I held most dear—never can I mingle with my old pals. As for myself, I can only say that I am not sorry this happened to me, for in my heart I know that I carried on the tradition taught me since childhood about my forefathers at Bunker Hill, the Alamo, and the Argonne—within me is the self-satisfaction that I did not break the chain of Democracy handed me.

But I do wish to ask you, "Have you forgotten me?"—What are you doing to preserve the peace for which I died?

Ask yourself this question now—and please—whatever you do never allow Communism to grow as fast as Democracy—if so—we cannot sleep.—Grapeland Messenger.

Mr. and Mrs. Jimmie Watters of Childress and Joe Watters visited their sister, Mrs. Dora Reynolds, in the home of Mr. and Mrs. Henry Reynolds, Sunday.

Mrs. Alma Harbison returned Sunday to her home in Dallas, after several days' visit in the home of her daughter and family, Mr. and Mrs. Raymond Damron.

A daughter, Deborah Yvonne, was born Tuesday, Sept. 25, to Mr. and Mrs. Carrol Rogers of Clarksville. She weighed 7 lbs 12 ozs. Mrs. Rogers is the former Miss Ollie Murl Bailey.

Mr. and Mrs. Lester Bartlett and children of Dallas, spent the week end in the home of their mother, Mrs. Corbet Collins. Wayne Collins accompanied them home for a visit.

Buckman's Drug Store has a most interesting and informative window display, giving a historical record of pharmacy and the compounding of drugs. The record goes back to 2600 B. C.

### DETAILED REPORT

The railway superintendent always made a point of insisting that stationmasters send in a full report at once of any accident, however small. One morning he received the following urgent message: "Man fell from platform in front of moving train. Will send further details later." After waiting for what seemed an age, the superintendent received the second message: "Everything okeh. Nobody injured. Engine was going backward."

The oldest newspaper in America today is the Newport, Rhode Island Mercury, which was founded in 1758 by young James Franklin with aid of his uncle Benjamin.

### NOT ALWAYS

A train passenger, who had overindulged a bit, asked the conductor how far it was from Albion to Jackson. Annoyed, the conductor replied, "if it's twenty miles from Jackson to Albion, it must be twenty miles from Albion to Jackson."

"Not neshesherily," said the passenger. "It's only a week from Christmas to New Year's but it's a long time from New Year's to Christmas."

### JUST ANYTHING

Dr. Floyd Gindhart tells of a youthful Army doctor who, from a lonely outpost in the South Pacific, diagnosed the illness of a staff sergeant, but ponder what treatment could be given with his limited facilities. So he wired the nearest base hospital, "Have a case of beriberi. What shall I do?"

A prankster at the hospital radioed back, "Give it to the Marines. They'll drink anything."

### HER DREAM PLANT WAS NIGHTMARE

Westminster, Cal. — For two years Mrs. Louise Crane "green thumbed" a luxurious shrub in her front yard.

Under her tender care it grew eight feet tall, its lower branches extending four feet from the main trunk.

Friday Mrs. Crane learned the bush potentially was worth \$10,000. This made her sad, however, because the detective who told her so had come to destroy it.

She did not know that her pride and joy was a marihuana plant.

I went to Church Sunday

I hadn't gone in a long time—always too busy Sunday mornings with personal interests. But I was glad I was dragged out last Sunday. It made me realize that my attitude could destroy the Church, if universally adopted.

And I need the Church—need to make it stronger for all that it is doing for my community and my children. I felt better for going to Church last Sunday.

## Alcorn Amazed to Learn Farmer Produces Enough for 19 Town People

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, once more is no doubt misinterpreting statistics, his letter this week reveals.

Dear Editor: With occasional fall weather already being enjoyed out here, I've been wanderin' around more than usual lately, I don't mind wanderin' around any season of the year, through spring plantin' or any other time, a man who wanders around only when there ain't nothin' else to do is likely to find very little time to do it in, but fall is one of my favorites, next to winter, spring and summer, and my readin' material has been pickin' up noticeably, this morning I picked up four newspapers, three magazines and a copy of the Congressional Record, and when I got home I ran across an item which has me disturbed.

Accordin' to the latest statistics, one American in twenty is now workin' for the Federal government, supported, as the writer pointed out, "by the other nineteen of us."

This fact had the editorial writer disturbed and you got the impression it was too big a load for him and 18 others to support their Federal worker.

Well, I don't know what proportion of the population ought to be workin' for the Federal government, but so far it ain't the number that bothers me so much

as what they do or try to make me do, but what I started out to say is that this editorial writer complain about supportin' one-nineteenth of a Federal worker ought to consider the plight of the farmer. The farmer has to support not just one-nineteenth of a man but nineteen complete men.

That is, I guess he does. I read the other day where in 1850 it took one man in the country to grow enough food for himself and one extra man in town, and that the ratio has been increasin' so that now one farmer raises enough food for 19 men in town. No wonder I'm tired.

However personally I don't put too much stock by these figures, may be some farmers do raise enough to support nineteen city people, but I don't believe I make the grade myself. In fact, if nineteen people in town can live off of what I make out here, this country is on shorter rations than I ever dreamed of. If I lived in town and that's all I had to eat, believe I'd hunt me up a Federal job, too. Yours faithfully, A. A.

## Texas Going Back To Observing Only One Thanksgiving

Austin — Texas is through with double Thanksgivings.

Gov. Allan Shivers said Tuesday he will proclaim Nov. 22, fourth Thursday in November, the official Thanksgiving day this year.

That will put Texas in step with the rest of the nation. But it will be completely out of step for University of Texas and A.M. football fans, who trek to College Station for the annual Turkey Day game to be played one week later on Nov. 29.

Last year Shivers tried to make everybody happy by setting both the fourth and fifth Thursdays in November as Thanksgiving days. This year he decided against it because too many people complained that the double Thanksgiving was too confusing.

Beginning next year, Texas' Thanksgiving Day will be the last Thursday in November, regardless of whether it conforms to the national holiday or not. The Legislature passed a law setting that date but the act does not become effective until 1952.

## Will Stop Use of Electricity to Catch Catfish

Oklahoma Game Fish and Fish Commission has been told by the governor to take whatever emergency measures as necessary to halt use of electricity to catch fish.

Probable result will be a new law to make "telephoning" illegal in Oklahoma. At any rate, game officials hope to rule the new catfish catching system out Jim Pirtle.

## Top-Place Award To Detroit Boy

Roy Arrasmith's registered Poland-China gilt placed first in the 4-H swine show held in Clarksville. The show is sponsored annually by the Sears-Roebuck Foundation Swine Program in cooperation with the Extension Service. Roy is a member of the Detroit 4-H Club.

Boxelder club members won 2nd and 3rd, with Jackie Daniels showing the second place gilt and Earl Barton the third place animal. Fourth place went to John Paul Morris of R2, Bogata, and fifth place to Glenn Smith of Rt. 2, Clarksville.

Two other gilts were exhibited by William Mixon of R3, Clarksville and Lonnie Jones of Annona. According to judges, the placings were close and all the gilts were premium quality animals.

The registered Poland China boar was exhibited by Robert Smith Jr. of Clarksville.

Material prizes provided by the Sears Foundation for the county show were \$8, \$7, \$6, \$5, and \$4 for the first five placings. The money must be used to purchase materials to help do a better job of raising hogs.

The club members with the gilts will give back to the program the best sow pig from the first litter. This pig will be awarded to another club member next spring to make the program continuous.

## OPS Changes Farm Slaughter Rules

The government has decided that farmers who slaughter livestock for their own use don't have to have the beef graded and labelled.

Previously the meat regulations required every person slaughtering livestock to have the meat graded and marked. The Office of Price Stabilization (OPS said this placed an unnecessary burden on farmers, livestock raisers and other.)

The new ruling was effective Oct. 1.

as soon as possible.

Texas already has laws against the "telephoning" or shocking of fish.

## New Hunting Law For Texans, 1951

Under the new state combined hunting license law, Texans must have the \$2.15 license to hunt small game beyond their home county. All those hunting deer or turkey must have the state license, excepting those who hunt on the property of their residence and those who are under 17 years of age.

Those hunting deer or turkey on their home property or excused by youth, must obtain an "Exempt" license which is similar to the regular licenses. They are issued without cost, bear the regular two deer tags but have the word "Exempt" lettered in red across their face.

## Jefferson Downs Mt. Pleasant, 19-13

Clyde Wilson, powerful right halfback, led Jefferson High School to a 19-to-13 victory over Mount Pleasant at Jefferson Friday night.

Wilson made all of Jefferson's touchdowns—in the first, third and fourth quarters. Kenneth Bramlett, fullback, kicked for Jefferson's extra point.

Mount Pleasant scored late in the second quarter. Tommy Glass, fullback, hit the center of the line and did the same thing short-

## Parcel Post Rates Up 25 Per Cent

Most parcel post rates went up an average 25 per cent Monday in a move designed to put this branch of the postal service on a pay-as-you go basis.

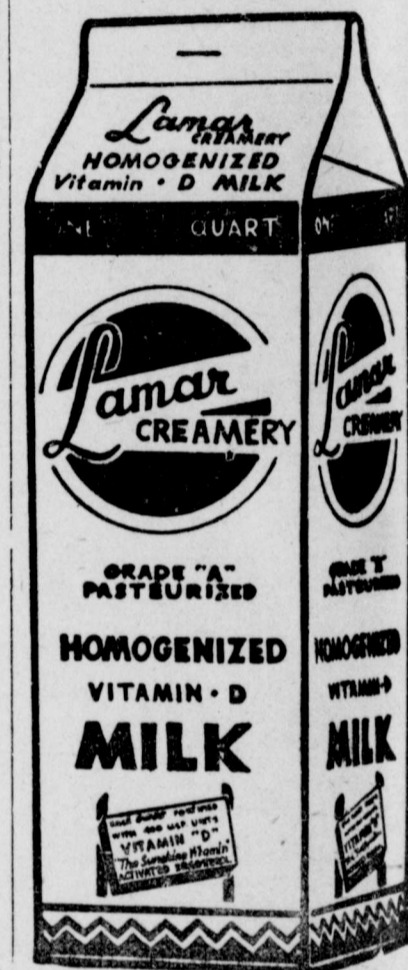

The increases boosted the cost of mailing packages by about \$100,000,000 a year, to cover a deficit which has annually ranged around that figure the last several years.

The upward revisions were authorized by the Interstate Commerce Commission last May after Congress had rejected Postmaster Jesse Donaldson's request for higher rates.

ly afterwards for his team's second touchdown. Edwin Moore, right halfback, kicked for the extra point.
