## Deer Season to Open Friday

Deer season in Texas opens Friday, Nov. 16, and numerous local parties will be after deer. Some travel to Southwest Texas while others will hunt locally.

If early-season estimates run true to form, 350 to 400 hunters will get their buck. Lamar, Red River and Fannin Counties have a five-day season from Nov. 16 through 21. Over in Franklin, Delta and Hopkins Counties it's Nov. 16 thru 25.

Game wardens will patrol the deer hunting areas heavily. Wardens Reb Burks and Oma Puckett will set up camp on the Chapman Ranch in Red River County and cover that area. Wardens Vernon Burgess and Clarence Jones will cover the Lamar-Fannin area near Direct, working out of their camp there. Bill Pratt of Athens will come over to help John Jackson in Hopkins, Delta and Franklin Counties. They'll make camp somewhere on White Oak creek.

You need a \$2.15 hunting license to hunt deer, in your home county or anywhere else. Bag limit is one buck in Red River, Fannin, Lamar, Hopkins, Delta and Franklin Counties. But you're allowed to take two for the season if you take one in each of the three-county areas.

## Crop Forecast Estimate Lower

The government Friday pared slightly its estimate of the year's crops as the result of drought, freezes and other bad weather in October.

An Agriculture Department report said the decline reflected chiefly reductions in prospects for corn and cotton. Friday forecast put the corn crop at 3,088,092,000 bushels, 16,896,000 less than predicted a month ago.

Nevertheless, the total of all crops will be the third largest of record. Combined with production of livestock, farm output this year is expected to be the largest on record.

Meanwhile, fall seedlings of winter wheat and rye for harvest next year, and planting of the new meadows were reported to be mostly in satisfactory to excellent conditions.

## Celebrates 81st Birthday Sunday

Children of Mrs. J. H. Blackburn honored her with a birthday dinner, Sunday at her home.

The cake was artistically decorated in the likeness of a room, with window drapes of white trimmed in blue; a little lady sitting in a rocking chair, knitting.

A table with a vase of red roses and one candle resting on a rag rug, with birthday greetings printed across the lower side of the cake.

Those present were Mr. and Mrs. A. C. Blackburn and Smithy, Mr. and Mrs. W. H. Blackburn, Mr. and Mrs. E. A. Brown, Mr. and Mrs. J. M. Blackburn and children of Mt. Pleasant, Mr. and Mrs. J. H. Murray and Elizabeth Ann of Dallas, Mr. and Mrs. C. E. Blackburn and children, Mr. and Mrs. Louis Cato and Christelle, Talco.

Guests were Mrs. Ella Pyles, Talco, Mr. and Mrs. Dallas Fry and Mr. and Mrs. Vic Mason, Jefferson.

If all the land of the earth were covered with the salt of the sea, it would make a layer 400 feet deep.

## Thanksgiving GREETINGS

### AND A PRAYER

For what we have, thought small it be,  
We thank thee, Lord,  
For the simple joys of serenity,  
We thank thee, Lord,  
For the gentle touch of the friendly hand  
Of those who love and understand,  
We thank thee, Lord.

Of all thy gifts the greatest three  
Are friendship, love and fidelity.  
Let others pray for the harvest's yields,  
For the golden grains of the fruitful fields,  
Humbly our prayer to Thee we send  
That when we've reached our journey's end,  
Someone may say, "Farewell, good friend."

"On the first play from scrimmage, Gerald Wilson raced 48 yards to the Talco 8, then Clyde carried over. The latter scored again on a 49-yarder, and Gerald raced 15 yards to a TD.

## Lamar, Delta, Red River Designated Disaster Counties

Secretary of Agriculture Branran Tuesday designated Lamar, Delta and Red River Counties as disaster loan areas because of critical summer drought conditions.

Local FHA offices will make loans to farmers and stockmen who have suffered substantial losses and who are unable to obtain needed credit from other sources to continue operations.

This is the second consecutive year that the three counties have been included in a disaster area. Last year, 210 Lamar farmers and cattlemen obtained loans totaling more than \$300,000, an average of approximately \$1,430.

The loans are at 3 per cent interest for one year only, and are based on "actual needs for feed, seed, fuel, fertilizer and labor."

FHA will work with local banks and other lending agencies in establishing lending agencies in establishing disaster loans.

## Army Pledges Holiday Leave

The Army Tuesday ordered a 10-day break in training and home leave for as many soldiers as possible during the Christmas season.

The news was given to troops Tuesday night as they gathered at mess halls for their evening meals at camps throughout the country. The training suspension applied only to stations in the continental United States.

The purpose, the Army said, is to permit as many soldiers as possible to go home during the period beginning at noon, Dec. 22 and ending the morning of Jan. 2.

The Army said also that both the break in training and the Christmas leave taking will be governed by the international situation at that time.

### WHO IS AT FAULT?

His car and her car met head-on. Both drivers got out and, with that fine courtesy so characteristic of motorists nowadays, both began to apologize profusely. "I'm sorry," said the woman; "It was all my fault."

"Not at all, madam," the man responded with gallantry; "I was to blame myself."

"But I insist the fault was mine. I was on your side of the road."

"That may be true; but, my dear madam, I am responsible for the collision. I saw you coming blocks away, and I had ample opportunity to dart down a side street."

### BIBLICAL REUNION

The young recruit was the victim of so many practical jokes that he doubted all men and their motives. One night while on guard duty, the figure of one of the officers loomed up in the darkness.

"Who goes there?" he challenged.

"Major Moses," replied the officer.

The recruit sensed a joke. "Glad to meet you, Moses," he said cheerfully. "Advance and give the Ten Commandments."

### ROOM TO SPARE

When the Mayflower brought the Pilgrim Fathers to America she carried 102 passengers. Just one lifeboat from the Queen Mary will carry more than all of the Mayflower's passengers—145! The Mayflower was a ship of 180 tons, 95 feet long and 26 feet wide. The Queen Mary is 1,018 feet long and her tonnage is listed at 80,000! The Mayflower could easily be tucked away in one corner of the Mary's main dining room.

### SUCH AN ASP

All the animals had left the ark except two snakes lying over in a corner. Noah asked them: "Why don't you go forth and multiply?"

"We can't," replied one, "we're adders."

## EDITORIALLY SPEAKING

BURT LOCKHART  
in Pittsburg Gazette

Everything indicates a good Christmas coming up.

Luck can do little for you without a helping hand—two are better.

I lot of people are not considering Gen. Ike's politics. They are considering Gen. Ike.

A politician may be all right in his place, but some of them are a long way from that place.

Remember, Bud, the game of life does not depend so much on the hand you hold as on how well you play the game.

Our reader up the street wants to know what people talked about before football was invented.

With ball players in demand at \$80,000 a year, it is not surprising that so few mothers are training their sons to be president.

Remember way back when old things got useless they were junked? Now they are resurrected and find an enticing place in antique shops.

The loss of 1,500,000 Chinese Communists in the Korean War doesn't seem to be worrying the Chinese. They probably realize there are millions more who haven't been killed.

Probably the reason there is plenty of room at the top is that many who were on the way up decided to go back and secure seats at their favorite football game.

A Major-General back from Europe says Stalin has a case of jitters due from fears of a Russian revolution. The general thinks he is worrying more over Russian unrest than over a third world war.

Sixty tons of nickel needed for defense equipment in this country had to be shipped back to Norway because of a longshoremen's strike in New York. Not all presidents would have allowed that shipment to go back to Norway.

### TIME TO MOVE

Bashful Swain: "Honey, while we're sitting out here in the moonlight, I want to ask you a question?"

Girl Friend: "Yes, darling."

Bashful Swain: "Could we move over a little bit? I'm sitting on a nail."

### FISHING'S NO GOOD

Warden: "Son, don't you know you aren't allowed to fish here?"

Boy: "Oh, but I'm not."

Warden: "You have a rod and line, and I presume a worm on a hook at the end of the line."

Boy: "Yes, but after a few hours, I've decided I'm just washing the worm."

### MRS. BURGIN HONORS HUSBAND'S BIRTHDAY

In honor of Mr. Burgin's birthday, Mrs. Remus Burgin served coffee and cake to the following guests Tuesday:

Mr. and Mrs. A. T. Blalock, Eugene Blalock, Mr. and Mrs. Morris Blalock, Mr. and Mrs. Wallace Frye, Mr. and Mrs. Henry Hoff pair, Mr. and Mrs. T. J. Honeycutt, Mr. and Mrs. E. F. Washington, Monette and Jimmy Honeycutt, C. W., J. W., and Kay Frye, Martha Washington and Josephine Honeycutt.

### WET, ISN'T IT?

An inch of rain may not sound like much but actually it means that 113 tons of water have fallen on an acre of ground or 72,000 tons to a square mile. A 10 inch snowfall will amount to the same thing. Scientists have estimated that rain and snow in the amount of sixteen million tons per second falls on the entire earth's surface.

The tallest tree in the world, a eucalyptus in a national park near Sydney, Australia, is 575 feet tall.

## Truckers Pay Fines Over Million Dollars

DR. JACK A. KING

Dr. Jack A. King, M. D., has purchased the Grant Hospital in Deport from Dr. Stephen H. Grant and will reopen the institution for the practice of medicine and surgery on Monday, Nov. 26.

Dr. Grant will have an office at the hospital, but will limit his future practice to seeing patients by appointment. His health has not been good for several months, and he is reducing the amount of work he will do upon his doctor's orders.

Dr. King was born at Snow Lake, Ark., July 3, 1913. He graduated from Gulf Coast Military Academy at Gulfport, Miss., in 1930 and from Little Rock Junior College in 1932. He graduated from the University of Arkansas School of Medicine at Little Rock in 1939 and served a year's internship at Baptist Memorial Hospital at Memphis, Tenn.

He served in the Medical Corps of the U. S. Army from April, 1941, to December, 1945. He was stationed at Jefferson Barracks, St. Louis; Fort Riley, Kans., and Wm. Beaumont General Hospital at El Paso.

Sent overseas to the Southwest Pacific, he was with the 54th General Hospital in Hollandia, Dutch New Guinea, and later transferred to the Seventh Amphibious Forces, which operated in the New Guinea, New Britain and Solomon Islands.

Prior to being sent overseas he was in command of the General Staff School at Fort Leavenworth in 1943, and later took war surgery courses at the Mayo Foundation in Rochester, Minn.

Dr. King was connected with the Veterans Administration from 1947 to 1950, at Little Rock and Texarkana and for the past year has practiced medicine at Linden, county seat of Cass County.

His fraternities are Phi Lambda Epsilon, Phi Alpha Beta and Phi Chi (medical).

He is Surgeon, Department of Texas, Veterans of Foreign Wars of the United States, and a member of the Episcopal church, a Mason, Scottish Rite Bodies and the Shrine.

Dr. King has two daughters: Jacqueline, 15 and Mary Elizabeth, 12. They will make their home for the present at the hospital, formerly used for nurses quarters.

### JUST WONDERED

Passing a door in the wee hours of the morning, a drunk noticed a sign which read, "Ring the bell for the caretaker."  
He did just that, and a sleepy-eyed man came to the door.  
"What do you want?" asked the caretaker.  
"I wanna know why you cannot ring the bell yourself."

Originally there were four months between presidential elections and the inauguration to allow for slow methods of communication and transportation.

## Cattle Lose Flesh Recent Cold Spell

By TED GOULDY

Ft. Worth—Livestock producers in the Southwest suffered a heavy loss in flesh on their grass cattle and calves following the unseasonable killing frost and freeze that struck Nov. 3.

Livestock movement is expected to continue heavy during the next several weeks to Ft. Worth. One reason is that only in the past week or ten days have the clean-up cattle from the big ranches begun to show at the market.

The aged cows, bulls and culled out calves, yearlings, etc., are coming to market from 30 to as much as 75 days later than usual this year. Part of the delay has been the shortage of livestock cars during September and the first part of October that slowed the movement of contracted calves and cattle off the big spreads in the western part of Texas.

The hog market in the past few weeks has been having its ups and downs, mostly downs, as the large movement in the Midwest continues.

Price fluctuations have been upward or downward almost in the exact ratio to the numbers of hogs offered around the 12 major markets during the past week.

When the days receipts neared the 100,000 marker, the market sagged, when they were nearer the 70,000 marker, then prices climbed a little higher.

Incidentally to give you an idea as to the tremendous amount of pork that was produced this year—the September hog slaughter was six per cent above a year ago, but 54 per cent above the September average for the past five years.

Another eye-opener was the fact that the hog slaughter for the first nine months of 1951 was ten per cent of a year ago but 26 per cent above the five year average for the first nine months.

A severe meat shortage would have developed had not the hog producers stepped up their production during 1951. All other species, cattle, calves and sheep dropped well behind the previous year's slaughter total.

### METHODIST BOARD OF EDUCATION MEETS

Monday night the Board of Education of the Methodist Church met at the church for its regular monthly meeting. Those present at the session of the board were: Chairman, Clark McPherson; Secretary, Mrs. J. D. Riley; C. C. Penn, D. H. Kelley, W. T. Hughes, Jack Brown, Mrs. S. F. Worthington, Mrs. Jack Thompson, Mrs. W. W. Richeson, Mrs. W. S. Richardson, Barbara and Marjorie, and Rev. John Dvorak.

"Where has our money gone?" asks a writer in a popular magazine. He must be a newcomer. If he will stick around awhile he can answer his own question.

## Winners in Corn Growing Contest Are Announced

Harold Watkins of the Lone Star community won first place in the 3rd annual corn production contest sponsored by the Clarksville Rotary Club with a yield of 165.37 bushels per acre. 2nd and 3rd place premiums went to Harold's brothers. Charles Watkins placed second with 140 bushels per acre, and John Dan placed third with 117.25 bu. per acre. The three boys are sons of Mr. and Mrs. J. C. Watkins of Lone Star.

Cash prizes of \$20, \$15 and \$10 were awarded by the Clarksville Rotary Club at the regular meeting on Nov. 8. The annual contest is sponsored to encourage 4-H and FFA boys to do a better job of producing feed.

In producing more than 165 bushels per acre Harold planted Texas Hybrid No. 28 on March 14. A cover crop of Austrian winter peas had been turned under on the land in 1950 and 300 pounds of 12-24-12 fertilizer was put out prior to planting. The corn was side dressed with 100 pounds of Anhydrous ammonia when about knee high and the crop was cultivated three times. The corn was planted in 40 inch rows with the plants spaced 13-15 inches apart in the drill.

The total fertilizer cost for the acre was \$23.50, or 14.2 cents per bushel. The total production cost per bushel was 20.7 cents.

Harold had entered the contest in 1949 and produced 67 bu. per acre. In 1950 he placed second in the contest with 97 bu. per acre.

Ben Selman Jr., Detroit FFA member living at Kiomitia, placed 4th in the contest, producing 88 bu. per acre.

Billy Brewer of Avery, 1949 1st place winner, placed 5th with 87 1-9 bu. per acre.

4-H member Herbert Knight of Savannah, produced 77½ bu. per acre.

A good many other junior contestants had yields upwards of fifty bushels per acre but didn't turn in official reports after the dry weather during the summer.

Jack Walker of Kanawha, winner of the 1950 contest, produced 133.18 bu. per acre this year. He was not eligible to enter the junior contest but submitted his record for the Texas Hybrid Seed

## Cotton is Still King in Texas

Cotton is still king of Texas agriculture.

The University of Texas Bureau of Business Research reports that farm cash income for nine months this year, through September, totaled \$1,307,623,000, up 37 per cent over 1950.

Cotton led the increase. Lint sales grew from \$219,000,000 in the first nine months of 1950 to \$327,000,000 this year, and cotton-seed from \$36,000,000 to \$63,000,000. This meant a 49 per cent gain for cotton and 74 per cent for seed.

Cattle, the second-ranking source of cash to Texas farmers and ranchers, brought \$287,448,000 compared to \$182,018,000, up 58 per cent.

Other gains included poultry, 42 per cent; eggs, 53; hogs, 30; sheep and lambs, 23; milk and milk products, 11.

Mr. and Mrs. R. E. Miller of Deport, have received a letter from their son-in-law, Capt. Rex Wilson of the U. S. Marines, saying he had completed 73 missions over North Korea, on Oct. 31. He briefly described how members of his group had prepared their tent to keep out the cold. He hoped and expected to have his missions completed and be at home with his wife, the former, Christine Miller, and their children before Christmas.

Corn contest. Two other high yields submitted to the Texas Hybrid Seed Corn Contest were made by O. J. Walker of Kanawha, 120 bu. per acre, and J. C. Watkins of Lone Star with 117.25.

Other high yields reported by adults but not submitted for a contest are as follows: P. P. Grice, Avery, 116 bu. per acre on one acre.

Will Tucker, Rosalie, 105 bu. per acre.

Darvis Davison, Rt. 3, Clarksville, 85 bu. per acre, 7 acres.

John Dew, Negley, 81 bu. per acre, 75 acres.

Murray Franklin, Rt. 1, Deport, 80 bu. per acre, 10 acres.

Floyd Cole, 65 bu. per acre, 15 acres.

Stiles Jones, 56.8 bu. per acre, 8 acres.

Wayne W. Walton, Rt. 1, Deport, 55 bu. per acre, 40 acres.

Many high yielding fields were not reported.

### GOOD REASON

To the blonde dancer who had just finished the act in the floor show, the rich young man said deplorably: "Tell me, why do you, a beautiful, talented—and apparently educated girl—dance in a sordid joint like this?" "Don't know," she answered, just as sadly, "unless it's because I meet a great many more prominent young men here than I did when I was a public librarian."

### Talco Happenings Ten Years Ago

Week of November 14, 1941  
Mary Sue Rollins of Deport, had been elected the new director of the Talco school cafeteria.

Fulbright Banker Sam Ramsey had died of gunshot wounds, self-inflicted.

The Talco Trojans had defeated the Clarksville Tigers by a score of 19 to 6.

Youths enlisting in the Army Air Corps were Willie E. Smith and Hiram C. Clevenger, RI, Talco.

M. L. Saylor, 83, of Bogata, had died at the home of his daughter, Mrs. Hobart Grayson.

Talco FFA rodeo had been held at the Carr farm and had been a big success.

Earl Belcher and Miss Pauline MacDaniels had married.

The Talco WHD Club had met at the home of Mrs. C. E. Whitmire with 10 members present.

A daughter had been born to Mr. and Mrs. N. W. Nugent.

Mr. and Mrs. Alton Scarborough had entertained with a dinner honoring their son-in-law and Odell Messick, in the army at San Antonio.

Gaines Whitt Sively, 35, of Clarksville, had died.

Talco deer hunters off to Southwest Texas were Leo Wilson, Luke Wilson, C. E. Jones, Felix Jones, and Norress Justice and Bob Presley of Mt. Pleasant.

Miss Mary Sue Rollins, daughter of Mr. and Mrs. Will Rollins of Deport, was the new director of the Talco school cafeteria. She replaced Mrs. Myrtle Gage.

Fire had destroyed Mrs. Lula Hinson's home at Rosalie.

James B. Cole, 41, had died of injuries received when a log fell on him and pinned him to the ground for two hours, before workers could rescue him.

Psychology  
It was a difficult hicough case. All simple remedies had failed and the physician, knowing that his patient was an old tightwad, resorted to strategem. He administered a new, inexpensive medicine which drew from the patient an inquiry as to its contents. "Chiefly musk," said the doctor.

"But isn't that the expensive stuff they use in perfumes?" "Yes," said the doctor. "Each dose of it costs \$30."

The hicoughs immediately stopped.

FOR THE RECORD  
One overenthusiastic fisherman was haled into court, charged with catching eighteen more black bass than the law allows.

"Guilty or not guilty?" asked the judge.

"Guilty," the young man admitted.

"Ten dollars and costs," announced the judge.

The defendant paid the fine, then asked cheerfully, "And, now, Your Honor, may I have several typewritten copies of the court record made to take back to show my friends?"

GOING BUGGY?  
Hotel guest (phoning at a late hour): "Is this the desk clerk?" Ill-humored Clerk: "Well, what's eating you now?" Guest: "That's what I'd like to know."

## Alcorn Says His Worries Nothing Compared to Speculating on Ike

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, is off on a subject this week that everybody apparently knows as much about as everybody else.

Dear Editor: I'm always sort of neutral in politics, that is I like cigars from both sides, although naturally I make up my mind when I settle down with a ballot, consequently I can look at next year's presidential race with considerable calmness and detachment. After looking at a field needin plowin the same way for years, it's no trouble to do the same with a political race, from precinct to presidency.

In the first place, in regard to the presidential race, since it's exactly a year before the votin takes place, it seems to me the boys are startin out too soon, just don't see how they can put on a show good enough to hold my attention twelve long months. A candidate who figures he's got it won now may find by next November he's run out of oil, burnt out a berin.

But the big problem of course is Eisenhower.

As I understand it, nearly everybody outside of Taft is on record as contendin Eisenhower would make a fine president, and this includes Democrats, Republicans, big shots in both parties, and people who vote like they please. For example, Truman says he would make a fine president, Dewey says he would make a fine president, and lots of lesser lights in both parties say the same thing.

But a few minor points are missin. In the first place, nobody knows whether Eisenhower is a Democrat or a Republican or neither.

In the second place, nobody knows whether he would run, although if you ask me I think maybe way down at the bottom of his feet he's itchin a little.

In the third place, nobody knows whether if he ran which party it would be in.

Now this is something new and has thrown the politicians into more confusion than the time two loads of unbranded steers be-

Mr. and Mrs. Jim Hervey visited her sister, Mrs. Bale Stogner and Mr. Stogner in Mt. Pleasant, Sunday.

Pfc. Twyman Pirtle, U. S. Air longin to two separate owners got mixed up in my pasture. How can you line up votes for a man when it may turn out you've been linin em up for the other side?

And if you don't line up votes, how'll you ever get any patronage? The problem is too big for me, although sooner or later I guess Eisenhower will have to come around to recognizin, if he's willin to try for the job, that no president ain't never yet been elected by acclamation. Personally, I'm glad I don't have to make such a decision myself. Too hard on you. Reminds me of the hours I used to spend tryin to decide which field I was gonna let lay out durin the next year. Finally solved the worry by lettin em all lay out. Yours faithfully, A. A.

## Crop Estimate Ups Cotton \$10 Bale

Forecast for Texas was 500,000 less bales than indicated a month ago, or 4,300,000 bales with production of 164 pounds per acre.

Ginnings were 10,021,664 bales up to Nov. 1, with Texas ginning 2,521,376 bales to that date.

## Pink Bollworm Peril Seen in Texas Fields

State Agriculture Commissioner John C. White has described the spread of the pink bollworm in Texas as "alarming" and urged an all-out fight to eradicate the threat to Texas cotton.

The devastating cotton insect has moved into 193 of the state's 254 counties. Most of the counties are only lightly infested, but White said the swift spread of the pink bollworm marked a big step toward heavy infestation.

## TREE EXPERT EXPLAINS AUTUMN LEAF COLORS

Accra, Africa -- How Jack Frost whips up these brilliant autumn red colorings in trees is no secret. He mixes two ingredients -- sunshine and cold, according to Martin L. Davey Jr., tree expert.

Days must be sunny and warm and the nights below 45 degrees F. The sugar formation in the leaf, the amount of sunshine and the temperature of the air are the three factors that largely control the degree of autumn foliage coloration.

## "Talks Turkey" - Long Distance

Some people chuckled when Sonny Fisher rented a home recording machine to record the noise his flock of turkeys make.

"I sent the recording to a buyer for a super-market chain," Sonny said. "I told them 'My turkeys speak for themselves--listen to this record!' They not only took my birds, but bought the record!"

"Why did they want the record?" I asked him. "Very simple," he says. "They're going to play it over the loud speakers in their stores--and then an announcer on another record reminds the cus-

tomers that turkeys are plentiful and a good buy."

From where I sit, it's not always smart to make fun of someone just because he does things a little differently. I think a glass of beer is the most refreshing beverage there is. You -- or Sonny -- may prefer something else. But who's to decide one's right and the other's wrong? Let's stay "on record" that everyone's entitled to his own tastes and opinion.
