## Eisenhower Elected President by Landslide; Congress Control Close

DWIGHT D. EISENHOWER  
... Elected President

RICHARD M. NIXON  
... Elected Vice-President

Tuesday's election was a landslide for Dwight D. Eisenhower, who carried 20 states Truman won four years ago, split the solid South by taking Texas, Virginia, Florida, Oklahoma and probably Tennessee, and is the first Republican to win the presidency in twenty years.

A record avalanche of votes gave Gen. Dwight D. Eisenhower the presidential election and the GOP control of Congress.

The flood of votes for the old soldier rolled past the 31-million level and on up.

Control of Senate and House were put definitely in Republican hands, although the margins are thin and shaky. The party now has 49 Senators, including Independent Wayne Morse, and 218 House members—in each instance a controlling majority.

Early Wednesday night, the congressional scorecard stood like this, with a number of races still undecided; house: 435 seats; 218 required for control.

Republicans had elected 216; Democrats 201; independents, 1.

Senate: Ninety-six seats; forty-eight represent control since the Vice-President votes in case of a tie, and the "veep" will be Republican Richard M. Nixon after Jan. 20.

Republicans had forty-nine including holdovers and Wayne Morse of Oregon, who now calls himself an independent; Democrats had forty-seven including holdovers.

Thus Eisenhower's vast margin of victory was very much a personal thing. He outran his party in state after state and failed to take along with him enough Senate and House candidates to establish a firm GOP hold on Congress.

With returns from only 14,863 of the total of 146,361 precincts missing early Wednesday night, Eisenhower had piled up a popular vote of 31,024,749 to 24,948,

## Talco Trojans Swamp Queen City in One-Sided Game Friday, 52 to 0

By GERALD STANSELL  
The Talco Trojans moved a step closer to District 14-A championship at Talco Friday night by swamping Queen City, 52-0, in a free-scoring fracas.

The Trojans battle one of their three remaining adversaries next Friday night in Bogata against the Bulldogs.

Fullback Elton Belcher romped for four touchdowns, Bobby Martin scored two and Freddie Rogers and Billy Ramey each crossed the double stripe once. Ramey also booted four extra points.

Belcher scored first on a five-yard jaunt through the middle of Queen City's line. Ramey kicked the extra point.

Bobby Martin sped 50 yards for a touchdown, but the try for the extra point was no good. Quarterback Freddie Rodgers ended the first period's scoring when he skirted around end for 30 yards and the Trojans' third score. Ramey's kick was wide and Talco led 19-0 at the end of the first quarter.

In the third period Belcher

plunged over from the three and Ramey converted. The score stood at 26-0 at the half.

Belcher took the second half's opening kickoff and raced 80 yards across the double stripe. Martin scored next on a 2 yard run and Ramey's kick was good.

With the score 39-0 at the beginning of the final quarter Coach G. W. McGill substituted freely. Ramey, a regular offensive guard, moved into the backfield and scored six points on his 25-yard dash. Ramey romped 30 yards for the final touchdown late in the game.

Everyone in uniform saw action for the Trojans, who have won four district games and lost none.

## C. N. Hunt Jr. is Transferred to Houston District

C. N. Hunt Jr., assistant superintendent in the production department for Humble at Talco, is being transferred to Friendswood field near Houston as assistant superintendent of the field. It is a large district and the change comes as a promotion for Mr. Hunt.

The Hunts have been here about a year and a half and have made many friends while residents of Talco. They have been active in church and social circles.

Mr. Hunt was instrumental in developing Boy Scouts activity here, and was manager of a good baseball club the past season. The Hunts and their two sons, Jimmie and Larry, will take to their new home the best wishes of a host of friends. He left Wednesday for Friendswood. Mrs. Hunt and sons will follow later when a house has been built for their occupancy.

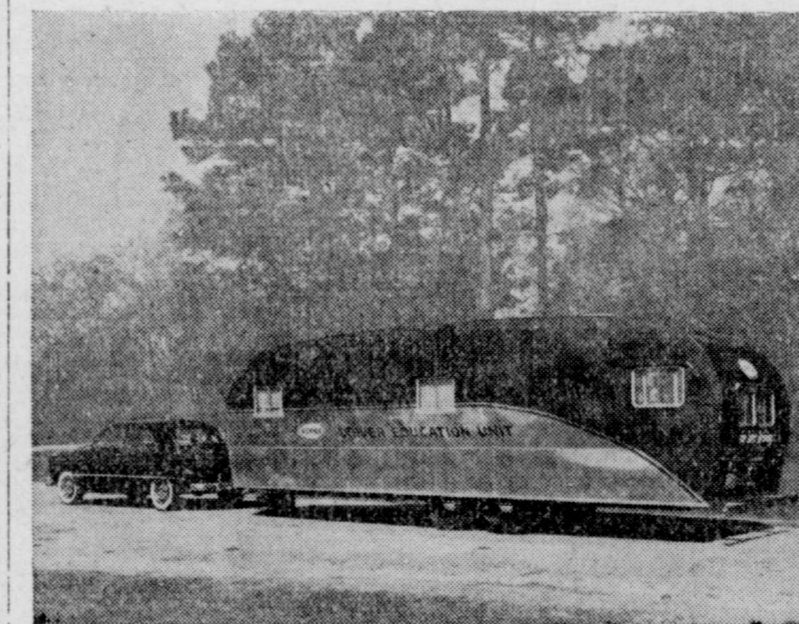

## Lt. Bob Alsbrook's Wounds Healed

Lt. Bob K. Alsbrook, son of Mr. and Mrs. Doug Alsbrook of Rugby, who has been in Korea since June, had a week's rest period recently and on Oct. 30 talked to his parents by telephone.

He reported that shrapnel wounds he received July 16 have entirely healed and that he was as good as new. He was working as an observer when wounded, and was enroute to his observation post when struck.

Mr. and Mrs. Audrey Sikes and Sherry of Longview, visited relatives here during the week end.

## Humble's Mobile Driver Edu. Unit Testing for Safety Driving at Talco

A mobile Driver Education unit, which Humble Oil & Refining Co. and Humble Pipe Line Co. in Houston introduced and put on the road in early 1950, will be in the proximity of Talco for 15 days to make testing equipment and instructions available to Humble drivers. Every company employee who drives an assigned company car or truck or who at any time has authority to drive a company vehicle will be invited to participate in the program so that he may evaluate his own driving. Several of Humble's drivers have accepted this opportunity to evaluate their driving.

The driver education program, according to Chief Safety Engineer, R. B. Roaper, consists of four major parts: examining visual skills; inventing driver's knowledge of traffic laws and safe driving practices; evaluating driving skill; and a review to show where improvements can be made. The object of the program is to bring home to company vehicle operators the hazards of driving and to teach them the best driving techniques and safety practices.

## Strange Animal Attacks Hunter Near Mt. Pleasant

Naz Runnells, 60-year-old negro who lives on the Bess Rogers farm a mile east of Mt. Pleasant, had a weird tale to tell of his experience Monday evening and had considerable evidence to prove that he was telling the truth, says the Mt. Pleasant Times.

According to reports of other residents in the community, Runnells left his home early in the evening to go 'possum hunting. He carried along a small dog to help out on the trail.

A short distance north of the road from East First street to Harts Creek, Runnells and his dog were hunting near a spring when an animal suddenly pounced on the negro and clawed and bit him severely. The little dog joined the fight and according to the family of Curtis Vaughan, near whose home the fight took place, the air was filled with screams from the animal, the dog and the man.

During the fight, Runnells said, he managed to open his pocket knife and used it on the animal, which was said to have been larger than a collie dog, spotted and with a rough mane along its neck and back. The man said that he succeeded in stabbing the animal several times.

When the fight was over Runnells went to Vaughan's home and the latter, in company with the negro and a neighbor, Jack Robertson, went to the scene of the fight to investigate. There they found a trail of blood leading into Harts Creek bottoms, where the trail played out.

It is believed that Runnells was attacked either by a panther or a large bobcat, but no one really knows what the animal was.

## Construction of Lake Site for New Power Plant on Sulphur Underway

### Overcast Skies Bring New Hope of Rain

Overcast skies Wednesday and report of rain in other localities brought new hope of a good rain in this section. Drinking and stock water supplies have dwindled to an unusual low stage. The thirsty earth could readily take up a four or five inch rain. It is doubtful if the numerous large cracks would be completely filled.

Temperatures have remained at a comfortable degree, ranging from the upper 40's to the low 70's most of the past week.

Texarkana, Tyler and Lufkin report light rains to our east and Dallas and Ft. Worth to our southwest on Tuesday night. Maybe J. Pluvius will get around to this area soon.

ern devices are used to determine how well drivers can see; their field of vision, depth perception, glare recovery, color perception, steadiness, and reaction time are checked according to performance. The final phase of the program includes driving skill evaluation. This is actual operation of a vehicle over an "obstacle course."

Ed H. Lancaster, driver-instructor of the Mobile Unit, expects to assist 30 drivers each week to inventory their personal driving habits. The trailer will be located at Talco approximately two weeks, and the program began Oct. 30.

This program has been instituted solely to help the driver—to show him how he can improve his driving in his personal car as well as in company vehicles. It will be co-ordinated by Humble's Safety Division, "and we hope that through this program we can make some contribution to highway and traffic safety," Roaper said.

With dry weather favoring the project, good progress has been made by contractors who are at work on the Texas Power and Light Company's new 80,000 KWH electric plant on Sulphur river.

First work started was to clear brush and timber from the site of the big lake that is now under construction to hold 6,000 acre feet of water. Great logs and stumps have been burning for nearly a month in what will be the lake bed.

Earthwork along the north and eastern banks of the new lake is being put up with giant shovels and bulldozers. Sheep-foot rollers, pulled by caterpillar tractors, follow water sprinklers, packing the dirt as it is placed on the dump.

North bank of the lake will be just south of the Paris and Mt. Pleasant Railroad right-of-way, and U. S. Highway 271. The east line is alongside of Trent slough. A good view of the lake site may be had from the highway, just west of the slough bridge on the highway.

The lake will be formed by pumping water from Sulphur river into the great basin. The river forks on the south side of the property and some water flows thru Trent slough when the river is high.

The Paris and Mt. Pleasant railroad has built a switch into the power company property on the north side of the lake site, and a considerable dump and cutting down the grade through a hill was necessary in this operation.

If the new power plant, which will be a steam affair, elects to burn lignite from Winfield under its boilers, as it previously did at the Trinidad plant, and as it will do at the big 200,000 KWH plant it has built at Rockdale to help operate an aluminum plant, several carloads of this fuel will move daily over that new siding switch.

### TITUS FARMERS ORDER 456 TONS OF HAY

A total of 142 applications have been received from Titus County farmers for 456 tons of hay under the drought emergency program. Due to labor conditions and the shortage of railroad cars in the Chicago area, first shipment of hay is not expected before the middle of December. Texas alone has some 8,000 cars of hay on order that has not been shipped.

Mrs. H. F. Teague returned home Saturday from a Paris hospital where she was a patient for twelve days. Mr. and Mrs. Joda Nelson and daughters of Nashville, Ark., visited her and Mr. Teague over the week end.

**Bulldogs Lose to Daingerfield 40-2**

A two-point safety in the fourth quarter kept Bogata's Bulldogs from being blanked in a District 14-A football game Thursday night in Daingerfield. The score was 40-2.

Defensive End Avret Vaughan crashed through to nail Daingerfield's passer, shook him loose from the ball, and the free pigskin rolled into the end zone. A Daingerfield player pounded upon it but Bogata got a safety.

Daingerfield made short work of the crippled Bulldogs, rolling up a 26-0 halftime lead.

**Women Are Burned Lighting Gas Stoves**

Both Mrs. C. J. Whitt and Mrs. Charles Evans of Bogata, were given first aid treatment by Dr. Grayson for burns on face and neck caused by escaping gas when they attempted to light the ovens to their gas ranges.

Mrs. Whitt received painful though not serious burns on face and neck, and her hair was singed.

Mrs. Evans' burns also were painful, though not serious, and her face, neck and arms were affected.

Mr. and Mrs. A. B. Later of Longview, visited Mr. and Mrs. Oscar Goodloe Sunday.

but actually in the interest of  
Eisenhower's candidacy, appeared  
in last week's edition of this pub-  
lication. It made many women  
boiling mad. One of them wrote  
a hot reply, but since no name was  
signed, it cannot be published.  
The election is over and it is the  
duty of every citizen to whole-  
heartedly support the newly-  
elected president, and to help  
him lift our nation out of the  
quagmire into which it has fallen  
under Truman.

We have elected a new presi-  
dent, but that alone will not au-  
tomatically solve this nation's  
problems. We will never have a  
genuinely representative govern-  
ment until our representatives in  
congress express the will of all  
the people by their votes rather  
than that of the "pressure"  
groups. It goes without saying  
that the crookedness and thievery  
in our tax collecting departments,  
five percenters, bungling foreign  
policy, red herrings, spending and  
taxing, Commies in our govern-  
ment employ, and the low estate  
of respect for our government  
during the Truman administra-  
tion does not represent the will  
of our people. At any rate, we  
are to have a gentleman for president,  
and they do say a new  
broom sweeps clean. We shall  
see.

The United States has just con-  
cluded one of the hardest fought  
and most bitter political cam-  
paigns in which it ever engaged.  
This country editor is constrained  
to believe that it will redound  
to the benefit of the American  
people. They now know more  
about their government and how  
it has operated than ever before.  
Press, radio and television have  
taught things about our govern-  
ment they did not know. The po-  
litical spotlight has been turned  
upon men and measures. Con-  
gressmen and senators will be  
hearing from voters as they have  
never heard before. People are  
going to take a hand in what goes  
on at Washington—their interest  
in Tuesday's election, indicated  
by the great vote cast—is a har-  
binger of more interest to follow.  
The conscientious public official  
will be cheered and reassured by  
that great vote, while the self-  
seeking politician will know this  
nation will not condone many  
things that have taken place the  
past few years. This election  
should redound to the benefit of  
all our people.

## EDITORIALLY SPEAKING

BURT LOCKHART  
in Pittsburg Gazette

A close observer says that the  
way to make an honest failure  
is to do nothing.

Advice from those who have  
failed is often the most valuable  
advice you can get.

Remember, Bud, heaven helps  
those who help themselves, but  
don't expect heaven to do it all.

If most of us who brag about  
our ancestors were to look back  
far enough we might not brag so  
much.

No matter which of the two  
places you ultimately go to, you'll  
probably find friends at either  
place.

Spies in this country were shot  
or hanged in the old days. Now  
they go to jail waiting on snail-  
pace court decisions.

Laughter is recommended to  
cure many ills. Its popularity  
no doubt would be enhanced if  
it were sold in bottles.

Some men have more bad luck  
than anybody. There's the Tex-  
an who drilled for a water well  
and found oil at 370 feet.

The government has issued a  
32-page pamphlet giving instruc-  
tions for washing dishes. Every  
new husband should have a copy.

No matter what form of gov-  
ernment you choose, you will still  
have to work like blazes if you  
pay your grocery and dry goods  
bills.

The popular desire to get some-  
thing for nothing is just as com-  
mon as it was a thousand years  
ago. And the results are no dif-  
ferent.

As soon as a lot of folks get  
rich and used to the advantages  
of a small town, they move to a  
city where they can enjoy all the  
disadvantages.

One advantage in staying at  
the bottom of the ladder is that  
you will have plenty of company.  
Besides, you'll not have so far to  
fall as those on top.

Congressman Wright Patman  
says our national debt will never  
be paid. Is our government too  
busy spending and wasting mon-  
ey to pay its honest debts?

With Christmas fast approach-  
ing, the far-seeing housewife will  
soon be taking an interest in the  
display windows and tossing out  
broad hints of a Christmas flavor.

**STILL GROWING**  
"Pick up everything that's not  
growing," ordered the sergeant to  
the policing detail.

Just then a pretty bobbysoxer  
passed. The sarge blew his whis-  
tle and shouted, "Halt men, that's  
still growing!"

### American Art Week Observance

Considerable local interest in the fine arts was evidenced when a large group of men and women gathered at the Humble Recreation hall Tuesday from 3 to 5 p. m. for the Fine Arts Festival arranged by the Fine Arts Club of Talco.

It was in observance of "American Art Week," which pays tribute to American art and artists, and is promoted on a world-wide basis. The observance is sponsored by the General Federation of Women's Clubs, of which Fine Arts Club is a member through the Texas Federation of Women's Clubs, and the American Artists and Professional League.

The art festival consisted of extensive displays of art work exhibited by local artists under the supervision of Mrs. B. H. Hazzard, artist and art instructor and who is art chairman for the Fine Arts Club. Mrs. Hazzard, assisted by Mrs. Howard Johnson, greeted the guests as they entered the building.

A tea in connection with this highlighted event in the club's many activities was arranged by the hostesses, Mrs. Omer Cole, Mrs. R. T. Fuller, and Mrs. J. H. Weatherall.

Adding to the decorative displays of beautiful art work, the hostesses further enhanced the beauty of the hall for the afternoon's festivities with colorful arrangements of fall flowers and foliage. The tea table was covered with a yellow cloth overlaid with a white lace cloth, and the centerpiece consisted of tall yellow tapers intertwined with an artistic arrangement of vividly colored foliage, fruits and nuts. Mrs. C. N. Hunt Jr., presided at the silver service, pouring tea and coffee. Dainty cakes and salted nuts completed the tea arrangements. While the guests viewed the exhibits, music for the occasion was contributed by Miss Linda Haynes at the piano.

Another feature of this American Art Week observance was a generous contribution from members and guests to the Penny Art Fund, which fund is used by the TFWC in many phases to encourage art and artists.

On display also was a large group of books, in observance of Book Week, later to be presented to the Talco negro school.

The various phases of art exhibited, and the artists represented, were the following: China painting—Mmes. Odell Morrison, M. E. Jones, Omer Cole, Sydney Frugia, Lynn Cox, Frank Sloan, Renford Sikes, W. E. Chapman, J. W. Arnold, J. H. Weatherall, Agnes Curlee, L. W. Ledwell Jr., B. H. Hazzard, Miss Gayle Burnham, Talco; Mmes. Ava Porter, Jewel Williams, Black Robinson, Lack Middleton, Mary Holder, DeKalb.

Handcraft—lamp shades, Mrs. W. E. Chapman, Talco; Mrs. Thad Wright, art. Needlecraft—Mrs. Howard Johnson, Talco; Mrs. Mary Anderson Potthoff, Houston. Ceramics— from Hobby Shop, DeKalb. Portraits—Mrs. Bess Moscrip, Sulphur Springs; Mrs. B. H. Hazzard. Pencil sketch and still life, Jimmy Hunt. Floral and still life paintings—Mrs. B. H. Hazzard and Mrs. L. W. Ledwell Jr.

In addition to club members and local guests, the 80 guests registered under the supervision of Mrs. C. C. Collins included women from these towns: Mt. Pleasant, Mt. Vernon, Texarkana, Pittsburg, DeKalb, Overton, Tyler, and Gilmer.

At the conclusion of the afternoon's festivities a door prize consisting of a hand-painted ash-tray, was awarded to Mrs. Haynes.

So live, Bud, that if you ever run for vice-president you can make a clean breast of your finances without apologies or shame.

### W. S. C. S. OBSERVES WEEK OF PRAYER

The WSCS was host to the Bogata and Hagansport WSCS in observance of the Week of Prayer. The meeting began with the Talco ladies presenting the morning program. Mrs. Jack Brown was in charge.

At the noon hour a covered dish luncheon was held, music being played through the hour. The Bogata ladies presented the program, being centered around the topic "Venture of Faith." Mrs. Lassiter was in charge of the program. The meeting was concluded by gifts being presented and the benediction by Mrs. Jack Brown. Thirty-one ladies were present.

# Save Time

Your telephone multiplies you!

A busy day with a crowded schedule helps remind you of the telephone's true value. Oftentimes a quick call made, or a quick call received, can save you hours of time and travel. It's only natural that telephoning has become second nature to most people. The telephone is always on the job. And today it works harder than ever, speeding the defense calls of a nation on the move. It's a big value at low cost.

Telephone service has not gone up in price nearly as much as most other things you buy.

## SCHOOL TALK

By PEGGY CORNELIUS  
 This has been just like Grand Central Station all this week. Everyone was helping with plans for the Halloween show which was Oct. 30, in the school auditorium. The show consisted of talent from the grade school and high school, costume contest and the coronation of the queen which was the main event.

The program was: Elementary section—Kenneth Davis, Rodney Russell, John Earl Davis and Truett Bennett, quartette, "Too Old to Cut the Mustard"; Douglas Ray Miller, solo, "Turkey Gobbler"; Evelyn McCuller, solo, "1 Little, 2 Little Witches"; Alice Robertson, solo, "Chimes of Times"; Alfred Westerman, solo, "Hadaool Boogie"; Janice Jones, solo, "Chattanooga Shoe Shine Boy"; Linda Shaw, poem, "Our Lady of Watima"; Lynda Thomas and Mary Jo Flanagan, duet, "Frankie and Johnnie"; Barbara Mitchell, piano, "Under the Double Eagle" and "Waltz No. 3"; Schubert; Dora Ann Gandy, Linda Haynes and Betty Thurman, trio, "I Don't Know Why"; Martha Johnniken, piano, "Slumber Song"; Schuman; Dorothy Spivey and Martha Easterling, duet, "Blacksmith Blues"; Lynda Thomas and Gerald Morris, duet, "You Don't Learn That at School."

Winners for elementary school: First prize—"Frankie and Johnnie" by Mary Flanagan and Lynda Thomas; second prize, "Too Old to Cut the Mustard" by Kenneth Davis, Truett Bennett and Ronny Russell.

High School section of the program: Cynthia Ritcherson, solo, "You Belong to Me"; John Tarpley, Bobby Funderburk and Rosemary Robinson, trumpet trio, "Fantasy for Three"; Janell Brown and Jane Kelly, piano duet, "The Man I Love"; Dorothy Bowden and Gene Worthington, pantomime, "Steadies"; Janice Seay, piano solo, "Down Under"; Clydene Rutledge, Sue Davis, Peggy Holland, trio, "Huckle Buck"; Earl Hawkins and Gene Worthington, "Fo, Five Times"; Rosemary Neugent, Jan Hawkins and Peggy Cornelius, negro routine.

Winners for high school: First prize—Negro routine, Rosemary Neugent, Jan Hawkins and Peggy Cornelius; second prize—Pantomime, Gene Worthington and Dorothy Bowden.

The costume winner was Jimmy Fall for having an out-standing costume of Halloween.

The High School Halloween Queen was Doris Cogburn. Her escort was Johnny Clemmons. Martha Easterling was chosen as the grade school Halloween queen and her escort was Gerald Morris. Bobby Martin, president of the Senior Class of 1953, crowned the queens and presented them with gifts. Both girls made very lovely queens and this is proud of them. The queens' attendants were: Judy Jagers, Johnny Buralow, Marjorie Richeson, Carlton Parrish, Martha Lewis, Steven Buchanan, Terita Hill, Jerry Miller, Jerry Rothwell, Virgil Jones, Sylvia Lewis, Woody Sanford, Margaret Tarpley, Charles Lewis, Tommie Calloway, Robert Simmons, Nancy Kelly, Tommie Neugent, Peggy Holland, Eddie Griggs, Shir-

## Rainfall in This Area Scarce for Past Five Months

November moved into the calendar picture last Saturday, but the great drought that has plagued this area for five months kept right on the even tenor of its devastating way.

Recorded precipitation has amounted to only 1 1/4 inches during the period. The average is about ten inches.

October produced .18 of an inch, the driest in many years. Average rainfall for October is about two inches.

Average November rainfall is 3 1/4 inches in this area. It will require more than that to close the drought-parched cracks in the earth's surface, but it would be a starter.

A north Titus County old-timer who is said to observe various signs of the seasons, told our reporter that he did not look for much moisture until after the first of the year. We devoutly hope he is wrong.

About the only bright spot in the bone-dry picture is the cotton harvest. Farmers hardly slowed down all fall in gathering the crop and many have finished harvesting and have their stalks cut.

Rainy days are often referred to as melancholy days in both poetry and prose. Sales people have never been able to sell much goods on rainy days, but a rain now would bring a flood of orders and sales. Truly, "I Get the Blues When it Rains," would not apply now.

## Hospital News

The football boys had a meeting with Coach McGill Tuesday afternoon to elect football queen. Sue Elliott was elected as the Football Queen of 1953. Sue is a senior in school and very active in all school affairs. She is one of the cheer leaders of the pep squad. Sue is well liked by everyone and has an outstanding personality. Her escort was Billy Ramey, who is right guard on the Trojan team. Sue chose a light brown suit with brown high heels for the crowning of queen. Her bouquet was made up of white mums with green fern. You made a lovely queen and everyone of us is real proud of you, Sue.

Oh, yes! Our boys just won another football game! The score of this game was 52-0 in our favor over Queen City. Come on, boys, let's do our best to win the other games. We all know you can win and we are backing all of you every step of the way.

## THE PEOPLE HAVE SPOKEN

## Now, All Together!

We have chosen the President who will head the nation during the four years beginning next January 20.

If the United States were one of the Red dictatorships, the losing candidate and his supporters would have been "liquidated" by this time, unless they had been lucky enough to get across the frontier ahead of the winner's hatchmen.

Fortunately, that is not the American way. Harsh words spoken in the heat of the campaign already have been forgotten. Real statesmen have never been "sore-heads," and all of them are now working together to promote the interests of our country.

It's time for the rest of us—regardless of party—to pull together toward peace and prosperity as Americans all.

## W. S. C. S. MEETS IN REGULAR STUDY

W.S.C.S. met in regular Monday afternoon meeting at the church. The meeting was opened with prayer by Mrs. W. H. Hughes. Mrs. Jack Thompson, the president, presided over a short business session.

Mrs. Helen Kempe presented the second unit in the study. The song, "Forward Through the Ages," was sung. The scripture reading was taken from Matthew 26 Chap. A discussion on "Declaration of Human Rights." Several stories were told: "Miss Florence" by Mrs. Jack Thompson, and "By Opposing End Them" by Mrs. Jack Braden. Mrs. Kempe then gave the third chapter "Freeing the Mind."

Those present were Mmes. Adelaide Jackson, Jack Braden, Grady Traweck, Gerald Kempe, Jack Thompson, Jack Brown, W. H. Hughes, John Dvorak, A. E. Foster and Sidney Frugia.

# Newspapers and Wastebaskets

ARE STRANGERS!

The Home-Town Newspaper is seldom or never thrown into the postoffice wastebasket, and is seldom thrown away at home. After a thorough reading it is frequently sent to a relative or a friend. Did you ever notice the wastebasket at the local postoffice?

Consequently newspaper advertising reaches more people and stays with them longer than other forms of advertising.

Newspaper advertising is "business insurance" for the days ahead when buyers may not be as plentiful as they seem to be these days.

THAT'S WHY NEWSPAPER ADVERTISING PAYS

## Oats Are Seeded Dallis, Bermuda Grass Sod

Research work conducted at the Angleton Substation of the Texas Agricultural Experiment Station indicates that oats can be successfully seeded on established sods of Dallis and Bermuda grass.

According to a report just released by J. C. Smith, station superintendent and M. E. Riewe, junior agronomist, this practice will provide grazing during the winter months when Dallis and Bermuda are not growing and permits grazing during wet weather. Still another advantage, they say, is that oats and clover are actively growing at the same time and the oats in the pasture should reduce the losses caused from blight.

Camellia oats were used in the project as were varying amounts of nitrogen and phosphate fertilizers. The investigations, though preliminary, do indicate that oats can be successfully grown on a Dallis and Bermuda grass sod without previous seedbed preparations; that nitrogen and phosphoric acid are required to produce satisfactory yields of oats on Lake Charles clay and that best yields were obtained from the 60 pounds of nitrogen and 30 pounds of phosphoric acid fertilizers per acre.

In the tests, seedings were made with a "Pasture Dream" machine which does not disturb the established sod but places the seed and phosphate fertilizer about two inches below the surface. Seedings were made with spacings of 10 and 20 inch rows. The nitrogen fertilizer was broadcast. The phosphate and 30 pounds of nitrogen were applied at planting time with the additional nitrogen applied as a top-dressing the latter part of February.

This information and other details of the tests are contained in

## Alcorn Gets Mind Off Politics and Back to Odd Philosophy of Farming

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, has shifted from politics to farming, if you want to call it that, his letter this week reveals.

Dear Editor: Now that the election is over and I have woke up to the grim reality that regardless of all the golden promises that have been made to me I'm probably still gonna have to do my own work if it ever gets done, although I am glad to be livin' in a country where it doesn't have to get done unless I feel like it and I'm the sole judge of how I feel, I was highly interested in an article I read in a magazine last night.

Accordin to this article, a seed which was buried fifteen feet deep in rock for 2,000 years has been found and watered and it sprouted, making a flower just as pretty as any we got today. I consider this welcome news.

It's a perfect answer to people who accuse me of bein lazy, who like to ask: "What's the matter with that crop of yours? Looks like most weeds. No garden? Why don't you plant one?"

Under this new system, all these critics are doin is demonstratin a lack of patient and foresight and a knowledge of plant life. I remember as plain as if it was yesterday plantin all kinds of seeds in my garden back in 1928, and the fact they haven't come up yet is nothing to get alarmed about. What's 20 years or so compared with 2,000? I planted a good crop of corn and cotton eight years ago, and the fact it hasn't come up yet is nothing, unless you're ignorant of the scientific facts on seeds. I never was selfish. If I don't get to harvest that crop, there's a great satisfaction in knowing somebody in the next 2,000 years may, and as far as I'm concerned he's welcome to it. I've never

## One Man Killed Another Critically Injured Friday

Billy Joe Milner, 21-year-old Titus County youth, died in a Gilmer hospital Saturday from the effects of injuries sustained in an automobile accident occurring a short time earlier on Highway 271, between Pittsburg and Gilmer. Another young man, Dwyatt Robinson of Talco, is still in the hospital reportedly in critical condition.

The two boys were occupants of a 1940 Ford that overturned several times near the community of Midway.

Milner is survived by his wife, Jeanie Nell; his parents, Mr. and Mrs. Joe Milner and the following brothers and sisters:

Horace Milner, William Love, Wheeler Love, Jimmy Love, Mrs. Annie Adkins, Mrs. William Thompson, Mrs. Maydeen Thompson, Mrs. Beulah Thompson, all of Titus County; Marshall Love of Lubbock, Mrs. Christine Brownlee and Mrs. Pearl Brownlee, both of Stratford, Mrs. Cleo Skaggs, Brownfield, and Mrs. Bessie Carlock, Odessa.

Funeral services were held at the Center Grove church at 2:30 o'clock Monday afternoon, under direction of Rev. J. D. McClung, and burial followed in the nearby cemetery.

Pallbearers for the final rites included Dean Langston, James Shulman, Lindbrew Hinson, Virgil Hayes, Bobbie Hinson, Virgil Vanzandt and Bob Chapman.

## Establish Big Game and Fish Preserve In North Titus and Morris Counties

A wildlife preserve covering 61,310 acres in northeast Titus and northwest Morris counties was accepted for the Texas Game and Fish Commission recently by A. J. Springs, biologist. Some seventy-five landowners are co-operating in the project which lies along White Oak creek and Sulphur river in the northeast part of Titus County and northwest part of Morris County. More landowners are expected to co-operate later.

Trapping of wild deer has already started in South Texas, Springs said, and it is hoped that the Titus-Morris County project will receive some deer this winter.

At the present time the 61,310 acres represent the third largest white-tail deer project in the state. Work on it was begun last May and was completed in six months, which is said to be a near record where so many landowners are involved. A potential, or backlog of another 50 or 60 thousand

and acres of land that could be included in the project lies along the north bank of Sulphur, Springs pointed out.

The plan for Northeast Texas, Springs continued, is to continue to transfer deer from South Texas to this area to make this section of the state the best deer hunting territory in the Southwest.

Bob White quail and fish are to be included in the spring program of the Northeast Texas Wildlife Association, sponsors of the game preserve, according to the association's president, Jack Langston. He said:

"It is hoped that we can start a quail hatching program among boys and girls of the county to increase the quail population of the area. It is also hoped that every landowner will conserve water by building dams to hold permanent water for livestock, and to stock the resulting lakes with game fish, which will be furnished free by the state."

## Young Hunter Out Shoots Father

Melvin Jackson of Deport, decided to take his 12-year-old son, Gary, with him on a squirrel hunt over the week end. Hunting on Pine creek, near Manchester, Mr. Jackson left his son in a wooded section while he sought game elsewhere. Returning a

short time later, he found Gary with five cat squirrels, which he had killed during his absence. Mr. Jackson was only able to display two squirrel that he had bagged.

## Deer Hunting is Banned in Six Sooner Areas

The Oklahoma Game and Fish Commission Monday cancelled the state's deer hunting season because of fire danger in woods and pastures of six Southeastern Oklahoma counties.

Commissioners called off both the gun season scheduled for Nov. 8-12 and the Camp Gruber archery season Nov. 15-23. Sportsmen who already have bought their hunting licenses will be refunded the fees.

A group of ranchers and landowners in Northwestern Oklahoma also asked the commission to suspend all hunting until a general rain relieves the worst autumn drought in state history and ends the fire hazard.

Experts at Oklahoma A&M College have estimated loss to grazing land alone by fire in the last few weeks at more than \$600,000.

## INSPECTORS CAPTURE ILLICIT STILL

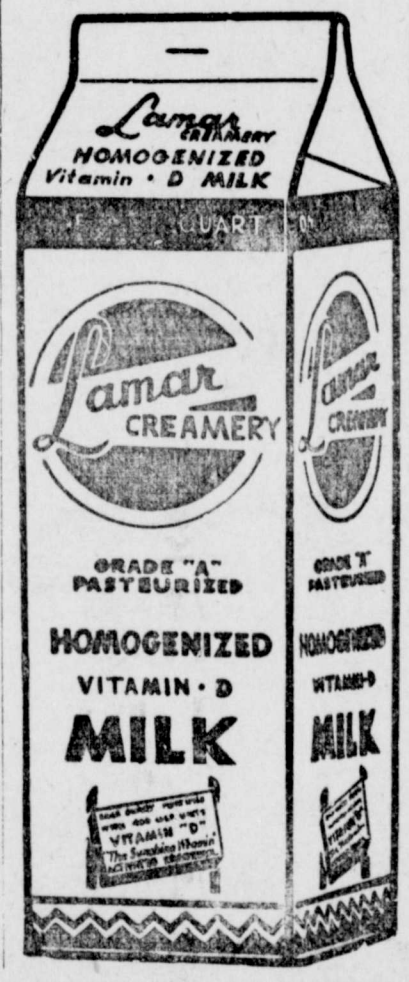

Texas Liquor Control Board inspectors in September reported the seizure of three illicit stills. With the stills, which had a cubic capacity of 165 gallons, inspectors captured 200 gallons of mash. A gallon of moonshine liquor was destroyed. Two stills were taken in Titus County and one in Lamar.

Mineral deposits in the state of Mississippi include hydrated limestone, coal, gypsum and rich clay.

seen a crop yet that wasn't easier to plant than to gather.

In fact, if the people living years ago had been more thoughtful of future generations, particularly the one I'm in, they'd have gotten more seed in the ground and we could be sittin back now watchin em sprout.

I hope this new discovery will silence a lot of people who like to drive around criticizin farmers and home gardeners. Just because a plot of ground is barren ain't no sign something ain't planted there. Come back in 2,000 years and see for yourself and just don't be so quick to criticize. Yours faithfully, A. A.

Left Ham Sandwich

-40¢

Ambed over to Bob's Restaurant Tuesday for lunch and noticed a new sign "Left Ham Sandwich, 40¢ . . . Right Ham Sandwich, 30¢."

"Why the sign, Bob?" I asked. "Don't tell me you believe hogs scratch more with their right leg than with their left—so's the left ham is more tender?"

"No," he says. "I don't take any stock in it. But, some people have ordered those 'left' sandwiches. When I explain to them that there's nothing to that fable, that the sign is just a business-getter, and I've only one price, they enjoy

a regular, old fashioned, plain ham sandwich all the more!"

From where I sit, stories like "right" hams being tougher than "left" ones are with us because some people get ideas into their head and hang onto them for dear life. It's like those who think an adult like myself hasn't the right to a glass of beer with my supper. I say let's keep our opinions free from being "sandwiched-in" by misinformation.
