Red River County WHD Agent is Killed in Auto-Motor Car Crash

Mrs. Juanita Zellner, Woman's Home Demonstration Agent for Red River County, was killed instantly at 5 o'clock Tuesday afternoon in Talco.

The accident was apparently unavoidable, according to an eyewitness account, given to Sheriff Lloyd Sinclair. A man driving just behind Mrs. Zellner told the sheriff that her car had apparently come to a stop on the intersection, and that Mrs. Zellner got out of the car. As the front of it collided with the railroad motorcar, the automobile was turned completely around by the impact, and Mrs. Zellner was flung under the motorcar wheels. The body, taken to Smith-Bates Funeral Home at Mt. Pleasant, was transferred Tuesday night to Littlepage Funeral Home at Mart, Mrs. Zellner's former home, where burial will be made sometime Thursday.

Surviving are her parents, Mr. and Mrs. Steve Collins of Mart; a son, Riner Zellner, attending the University of Houston, and a daughter, Betty Zellner, high school senior at Clarksville, besides a sister and brother at Houston and another sister living in West Texas.

Mrs. Zellner, formerly an elementary grades teacher, last June had received her degree in home economics from North Texas State Teachers College at Denton. She had immediately assumed duties as home demonstration agent for Red River

Radio on the car was operating when rescue workers arrived and a wind-driven mist of rain was falling at the time. Mrs. Zellner probably did not see nor hear the motor car until just before the crash. She had been to Mt. Pleasant to attend a district training meeting for Home Demonstration Agents and was returning to her home in Clarksville at the time of the accident. Titus County WHD agent told this reporter. The gathering had been guests in her home for lunch that day.

Mrs. Zellner came to Red River County as WHD Agent about a year ago and had made many friends among her club women during that period.

Mrs. D. J. Smalley Jr. received a special invitation from the PTA at Spring Hill, Longview, to the annual Founder's day program and reception given, honoring their past presidents. Mrs. Smalley served as their president two years.

McNeal is Bound Over to District Court for Murder

Hugo, Ok. — George Ed McNeal, 27, Paris, Tuesday was bound over to district court on a charge of murder, in connection with the fatal shooting of Dewey Hutson, 52, of Deport, the night of Feb. 1. The hearing was held by M. S. Watson, justice of the peace.

The defense offered no testimony, though the state used several witnesses.

Attorney for McNeal said application for bond would be made to district court through habeas corpus proceedings, as a charge of murder in Oklahoma is not bondable except by court action.

Hutson was shot at a beer tavern on the Oklahoma side of Red River, south of Hugo.

Ladies to Organize Girl Scouts Here

Mothers and ladies interested in getting Girl Scouts and Brownies organized met Tuesday morning at the City Hall.

They planned the organization of the Scouts their, leaders and helpers to be organized Thursday morning at 9 o'clock at City Hall. All who are interested please be at this meeting. Those present Tuesday were Mmes. W. T. Hall, J. P. Simmons, Dick Price, J. G. Lewis, Joe Mitchell, N. W. Neugent, Gaines Robinson, Joe Kirl, W. T. Lewis, V. P. Gibson, J. R. Poston, W. A. Thurman, J. W. Garner, R. E. Cain, Ardell Flanagan, Miss Merl Flanagan, Mmes. Eugene Mankins, W. L. Robertson, Troy Rhoades and L. D. Hanks.

Lamar County Calf May Have Rabies

Ira Taylor of Cunningham, is taking treatment for rabies. He had a Hereford calf about eight months old. It became sick ten days ago and Dr. Sam Kelsey was called. The calf disappeared Monday and no trace has since been found, although Mr. Taylor dragged his pools.

Dr. Kelsey is not certain the calf has rabies, and was not certain when he talked to a reporter Wednesday, whether or not he would take the Pasteur shots.

Bill Would Drop Lamar from First Congressional

Austin.—Lamar County would be dropped from the first congressional district by a first congressional redistricting bill proposed this session.

The bill, proposed by Harold B. Parish, representative from Portland, would move Lamar County into the Fourth District with Grayson, Fannin, Collin, Hunt, Rockwall, Rains and Kaufman Counties.

A special hearing on the bill was held last week at which the author testified. The hearing was before the Congressional and Legislative District Committee, headed by Rep. Morris Cobb of Amarillo.

It is the first to be presented this session. Cobb said others were expected to be proposed.

If the Legislature redistricts this session, it will be the first redistricting of Texas for Congressmen since 1933, when the apportionment of representatives was worked out on the basis of the 1930 census.

The 1950 census showed Texas entitled to one additional representative in Congress, but the Legislature, unable to redistrict the state, provided for a state representative-at-large.

Rain, Cool Wave in This Area

Rain, from a mist to hard showers, have spread over this area since Monday. Approximately a quarter of an inch fell Tuesday night. A mass of cool air moved in and lowered temperatures to the upper 30's Wednesday.

Farm work has been halted for the past few weeks due to rain. It will take several days of sunshine before farmers can get in fields to finish preparing the soil for this year's crops. Farmers and ranchers expect to plant more corn, feed and row crops this year, after experiencing a scarcity of feed during the winter.

Little gardening has been done and according to old-timers, potato planting time is Feb. 14, and that is Saturday.

Pewitt School Gets Federal Aid

Washington.—The Federal Security Agency announces that Pewitt Independent School District, Naples, Morris County, has been granted \$141,612. The money was allocated because Naples is in an area where enrollments were boosted by defense activities.

Drilling Suspended Rig Moved Away Halesboro Test

Drilling at the H. L. Voorhees and D. W. Shelton oil test well on the A. R. Davis place near Halesboro, southwest Red River County, was suspended late Wednesday of last week at a contract depth of 3497 feet. Jess Cross of Sanger, drilling contractor, has dismantled the rig and equipment was moved from the location Friday and Saturday.

There is some talk that a bigger rig will be moved in to carry the hole to its original projected depth of 5,250 feet.

This newspaper has no authority for this statement.

Somebody Got Carlisle's Goat

Some one got H. L. Carlisle's goat. (Pun intended.) If you believe his story, some one has stolen his goat.

The animal really belongs to Talco Lions Club and members who miss meetings must keep the goat. Carlisle did and was.

In the past as Tail Twister, Carlisle has collected many fines from Lion Club members, and we doubt seriously if he gets much sympathy in the loss of his goat.

The bad part for Carlisle is that he must find that goat or buy another one. We doubt seriously if he could get a thin dime if he passed his hat among Lion membership in an effort to raise money to buy one.

Seriously we do sympathize with the jeweler. He is quick to repartee and the fellow who got his goat had to have some method of getting even for his sharp barbs as well as heavy fines levied for simple rule infractions.

We hope this thing doesn't go so far as to smelt to high heaven before it is terminated.

P. S. This was written by the editor prior to Tuesday night's meeting. Anything could and probably did happen at that meeting.

Martin Twins Die Shortly After Birth

Twin infants of Mr. and Mrs. Earl Martin, Roland and Ronald, died a few hours after birth, Sunday in Clarksville.

Graveside services in Shamrock Cemetery were conducted by the Rev. M. R. Burgess, Methodist pastor.

Surviving besides the parents are the grandparents, Mr. and Mrs. Bob Martin, Clarksville, and Mr. and Mrs. W. Powell of Fulbright, the mother being the former Miss Janie Powell.

Mrs. Autry Sikes and Sherry of Longview, visited relatives during the week end.

The Talco Times Enters Eighteenth Year Publication

The Talco Times has a birthday this week. It has completed seventeen years of publication and this edition carries, Volume 18, No. 1. It was established by Sam Holloway one week after the discovery of oil at Talco on Feb. 7, 1936, and has not missed an issue since that time.

During the first two years of the oil boom business was good and the drilling report was often a column long. Then the field settled down and has produced millions of dollars worth of wealth each year since that time.

A few new wells are drilled every year, and discoveries at Peewitt Ranch and Sugar Hill added 115 new wells the past two years.

Talco was a small town of about 500 when oil was discovered in 1936. It had previously had a small newspaper, published by Miss Katherine Moore, who did a very good job, considering the fact that it was necessary to set the type for the paper by hand and print it on a job press, two pages at a time. Miss Moore suspended publication of the Record about a year before the advent of The Talco Times.

Many copies of The Talco Times have been printed since that first one to come off the press, and every one of them an advertisement for Talco and its great oil field.

We thank advertisers, subscribers and buyers of printing for their patronage over the 17-year period. We have given Talco just as good newspaper as the patronage would permit.

Talco Rolls Past Jefferson, 74-36

Staging one of their biggest scoring sprees of the season, Talco's Trojans trounced Jefferson, 74-36, in a District 14-A game at Talco Tuesday.

J. M. Fussell hit 23 points to lead the scoring. Talco also won the "B" game 36-31, with Delbert Alexander and James Logan scoring 10 each.

Paris Junior College Dragonettes, edged Talco's fems, 46-44, in the girls game.

Last Thursday night the Talco Trojans beat Saltillo 48 to 38 in a hard fought battle. It was a very rough game. Martin was top scorer for the Trojans with 11 points. Fussell was close behind with 10 points. Bobby King of Saltillo led his team with 15 points. Rodgers missed the game because of illness.

The Trojans have two more conference games. They play Bogata there Friday night. Next Monday night they play Linden here. They also go to Avinger Saturday to play in a tournament. The Trojans have had a fine season, losing only two conference games to Queen City, who will represent the district in regional play.

New Hiway Gets State Designation

Old Highway 37 between Bogata and Clarksville by way of Rosalie, a designation which has appeared on maps and road markers twenty years, became Farm Highway 909 last week. State highway signs were removed from this route and placed on the new road between Clarksville and Bogata by way of McCoy and Lone Star, which was formerly Farm Highway 411.

The new route of No. 37 shortens the travel distance, follows a straighter course and traffic is not held up by high water in Scatter creek bottom.

New highway signs have been placed on Main street in Bogata where Main street and old Highway 37, now FM 909, and U. S. Highway 271 cross Main street.

GUS NOBLES STOCKING FARM WITH PHEASANTS

Gus Nobles of Deport has purchased five pheasants and recently turned them out on his farm northeast of Deport, with hopes of increasing the flock within the next few years. Dr. A. G. Elder has also turned loose some pheasants at his hunting lodge near Cuthand. Few pheasants have been found in this area in many years, and there is no open season on the birds in this section. Sportsmen and hunters are trying to restock this area.

Former Cuthand Resident Dead

Andrew Franklin Provence, 73, died suddenly in a hospital at Freeport, where he had resided the past four years. Funeral services were conducted Feb. 3rd by Rev. G. R. House, with burial in Restwood Memorial Park at Freeport.

Born at Cuthand in Red River County, Oct. 27, 1879, deceased had lived in this area many years. He is survived by a sister, Mrs. Elizabeth Mauldin, Clarksville, a brother, Atha Provence of Bogata, his widow, five daughters, Mrs. Troy Phillips, Lake Jackson; Mrs. Effie Todd, Electra; Mrs. Edith Blackstone, Lamesa; Mrs. Myrtle Fox, Corpus Christi; Mrs. Lucille Larson, Angleton; three sons, R. I. and O. B. Provence of Lake Jackson, and Austin Provence of Clute; 16 grandchildren and eight great-grandchildren.

Mr. and Mrs. Walter Clark of Mt. Pleasant, announce the birth of a daughter, Sherry Carol on Saturday in Mt. Pleasant. Mrs. Clark was formerly Miss Etta Ottinger, daughter of Mr. and Mrs. Bud Ottinger.

Nine Indicted by Titus Grand Jury

Titus County Grand Jury, empanelled by Judge Sam Williams at the beginning of the January term of District Court, has made its final report and has been granted recess by Judge Williams.

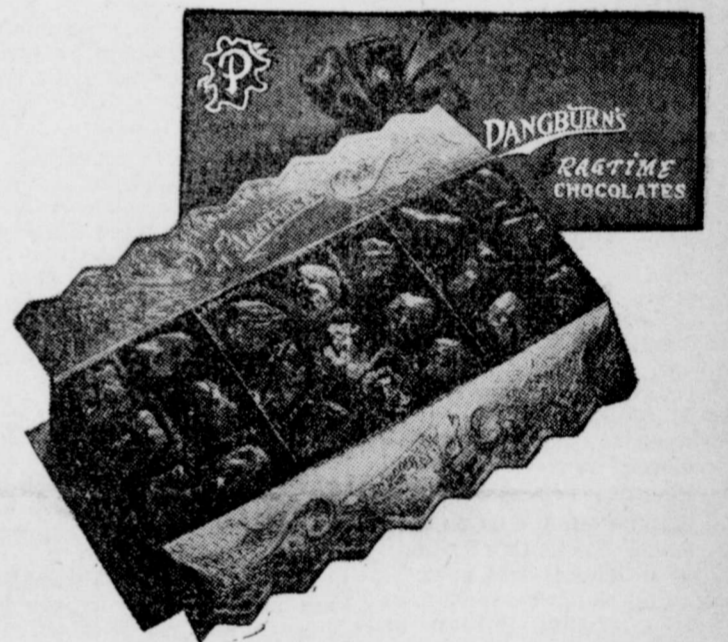

The report indicates that the jury was in working session four days, examined 82 witnesses and returned nine bills of indictment. The annual reports of all county officers were examined and found to be in good order, and the jail and courthouse was reported to be in fair condition.

It was found, also, that the county clerk will pay no bills for the county until all bills have been approved by a majority of the Commissioners Court.

BOWIE COUNTY TEST TO DRILL DEEPER

Hole was due to be bottomed at 3,400 to run electric log at Robert M. Bass, Renwar Oil et al. No. 1 E. B. McGee, C. M. Collum survey, in Bowie County, three miles west of New Boston. Sand, apparently the Paluxy, at 3,033-63 showed water.

Are you superstitious? If so, you had better stay in bed, don't walk under ladders, let a black cat cross your path or the numerous other bad omen befall you, for Friday is the 13th. The 1953 calendar shows Friday, the 13th, will occur three times this year, in February, March and November.

Mayor George Bond and his City Commissioners made a nice gesture when they issued a special invitation to citizens to attend Commission sessions and learn more about their city government. Taxpayers should accept. Too long have we been willing to "Let George Do It." (And this is not intended as a pun.)

We wonder how merchants over at Roxton will feel when they read of the honors won by Troy Griffin. Fifteen years ago, they induced him to buy a printing plant and move it and his family to Roxton and publish a newspaper for the town. He did, and remained there over a year before they finally starved him out. A bunch of chinchy, tightwad merchants let a talented newspaper man slip thru their fingers and as a result Roxton is a poorer town today, educationally, socially, civic-mindedly and financially because Roxton merchants wouldn't support their home town newspaper.

EDITORIALLY SPEAKING

BURT LOCKHART
in Pittsburg Gazette

The only way sin can get into good society is to dress up.

Man wants but little here below—until he can get more.

The fellow who is always shooting off his mouth fires many a blank cartridge.

Most of the time of the legislature is spent introducing bills, bills, bills.

You were not the only one who had the flu—149,999,999 others had it, too.

Most people's conception of the silver lining is one that is lined with silver dollars.

This is the time of year when we never know where our next snuffle is coming from.

In the old days kids were taught to put off pleasure until all the chores were done.

Some people will be terribly disappointed if heaven isn't equipped with coffee shops.

Sinners might be better satisfied if they could collect time and a half on the wages of sin.

Being broad-minded is simple. All you have to do is to shut an eye on all things questionable.

People are so queer. They seem much more interested in other people's wrongs than rights.

Keeping up appearances was easier in the old days. We didn't have to keep up an automobile, too.

If churches ever become commercialized it would be just like someone to propose a tax on salvation.

Have you ever noticed how much more forgiving you are on Sundays? Probably what the world needs is more Sundays.

It is mighty hard to find anyone who is willing to buckle down to old fashioned hard work. This push-button age is spoiling us.

The legislature seems to be spending much of its time trying to find something that will stand another tax. It is hard to do. Ozone is about the only thing left.

Here's news: The United States has been notified by the Netherlands that no more U. S. aid will be needed. This country had loaned the Netherlands \$150 million dollars and had given them \$750 million more.

Men who can make a big business succeed are wanted in Washington to help the biggest business on earth—the U. S.—succeed. We need good managers—not failures—who can stop leaks and keep the budget balanced.

"Did father seem pleased when you told him of the \$2,000 you have saved?" asked the newly engaged of her fiance.

"Very!" was the reply. "He borrowed it."

Boy Scouts Celebrate 43rd Birthday

Official Boy Scout Week Poster

Boy Scout Week, Feb. 7 to 13, marking the 43rd anniversary of the Boy Scouts of America, will be observed throughout the nation by more than 3,250,000 boys and adult leaders. Since 1910, more than 20,200,000 boys and men have been members. "Forward on Liberty's Team" is the birthday theme and the emphasis is on "The Scout Family" of programs meeting the

interests of boys in three age groups: Cub Scouting for boys 8, 9 and 10; Boy Scouting for those 11, 12 and 13 and Exploring for boys 14 and up.

The high point of Scouting in 1953 will be the third National Jamboree. More than 50,000 Boy Scouts will camp at a 3,000-acre tent city on the Irvine Ranch in the Newport Harbor area of southern California next July 17 to 22.

GOOD HEALTH

Answer to Question No. 1:
Catastrophic illness is the term commonly used to describe sickness or accidents which impose a severe or disastrous financial burden on an individual or family. Voluntary insurance plans are developing programs to lessen such hardships by absorbing major portions of costs.

Answer to Question No. 2:
When it is cluttered and disorganized with old medicines. A "medicine cabinet-mistake" can be serious. Many medicines lose their effectiveness with age—or even become harmful. Left-over medicines from last year's illness should be discarded. Poisons must

be clearly labeled and well out of children's reach. The wise family keeps nothing but currently used prescriptions and fresh first aid supplies. Never use a prescription that is not specifically ordered by your physician for the present illness.

Urine examination helps in the diagnosis of many diseases and is the basis of every examination. Though it is not expected to tell the entire story, it does show the presence of infections of the kidneys and bladder, and malfunctioning of other organs.

Take These Rules To Bed With You

London. — Here's the best way to sleep, presented by a British doctor, James McDonnell, in the British medical periodical, *Lancet*:

"Lie on the back, seize the two corners of the pillow, pull them down over the shoulders then roll onto the side with the and neck in the mould thus contrived for them."

"Then, lying on your side, bring the upper leg forward across the lower leg and allow the knee, conveniently bent, to rest on the bed. That supports the lower part of the body."

"A firm support for the upper half of the body is made by bringing forward the upper shoulder and arm and allowing them to rest on the bed."

TROY GRIFFIN WINS HONOR FOR FRONT PAGE MAKE-UP

Troy Griffin of the Beaumont Journal, won the second award among Texas daily newspapers published in towns of over 50,000 people, for the best front page make-up in the annual newspaper contest conducted by the Texas Associated Press. First place went to Lou Bailey of the San Antonio Express.

Griffin is the son of Mr. and Mrs. Hugh Griffin of Deport. He is a journalism major and received a newspaper award as a newspaper man on The Deport Times and The Talco Times. The latter newspaper he edited for nearly a year.

Griffin first became interested in newspaper work his senior year in Deport Hi, when he wrote a column of School News which was published in The Deport Times.

At college he chose journalism as his major and edited the college newspaper his senior year. Returning to Deport he asked for a job on his home-town newspaper and went to work. After a year he said to the publisher: "You can learn fundamentals of newspaper work in college, but one must do the actual work of making a newspaper before he is much of a newspaper man."

The publisher agreed with Griffin and added that he was as much of a newspaper man when he finished college as is a lawyer just out of law school or a doctor just out of med. There is no substitute for experience, concluded the publisher.

It is a real honor that has come to Griffin. He topped managing editors of great newspapers like the Dallas News, Dallas Times-Herald, Fort Worth Star-Telegram, Lubbock Avalanche, El Paso Times, Houston Post, Galveston News and Tribune and every other AP paper in any Texas city of over 50,000 population.

Front page make-up means evaluation of the news to get the most important on the front page, selection of different column length of heads and sizes of type

in which the heads shall be set, writing of the heads and their arrangement on the front page of the newspaper. A stiff crossword puzzle is child's play compared to this work.

A good front page has much to do with the sale of a metropolitan daily. Selection of news stories that go on the front page says in effect to the reader that it is the most important news in the paper and makes it more "readable."

Griffin's friends in Deport and Talco will be glad to learn of the recognition shown his ability by his profession. This little country publisher is especially pleased to have one of his former employees win such recognition.

Strong Indictment All Law-Breaking Texas Motorists

"Every traffic law violator is a potential murderer!"

Captain Guy Smith, commanding Texas Highway Patrol District No. 12 made this strong indictment of law-breaking motorists as he called for cooperation in stamping out this potential murderer.

"No normal human being would deliberately use his automobile to take another's life," Captain Smith said. "Yet our files are filled with records of automobile accidents in which 155 people have lost their lives, another 2,697 seriously and permanently injured because someone violated a traffic law on one of our East Texas streets or highways during 1952. Whenever you disregard a traffic law or ordinance, you leave yourself open to the possibility of killing or being killed."

The Texas Highway Patrol believes that many traffic accidents could be prevented if every citizen would make it his business to acquaint himself with local traffic laws and to obey them after he has learned them.

Putting laws on the statute books will not, by itself, save a single life, he said. The laws must be known and obeyed by all if they are to be effective in cutting down the traffic toll.

"While most traffic laws regulate the conduct of motorists, only, this does not absolve pedestrians from responsibility for their own safety and the safety of others. Pedestrians who cross streets in mid-block or who otherwise disregard traffic safety rules are inviting disaster. They are endangering their own lives and the lives of motorists who may not see them in time to avoid hitting them."

There can be no hope for any improvement in the local traffic picture, Captain Smith said, until each citizen accepts his own responsibility for knowing and obeying traffic laws.

LAD NEEDED 'LIFE' FOR HIS TOY ARMY

Fort Hood. — The Army was momentarily stumped by a request from young Joe Graham of Dallas.

"I would like you to send me," Joe wrote in a childish scrawl, "a pair of sergeants, if you have them."

Ft. Hood had them, but couldn't spare them. But by return mail officials sent Joe corporal's and sergeant's chevrons, plus a few unit shoulder patches.

QUALIFICATIONS

Wishing to do the right thing, the motorist started out in search of the farmer whose rooster he had hit. He crossed a newly plowed field and panted up to the owner of the dead rooster.

"Pardon me," said the motorist, "I killed your rooster with my automobile and I came out to let you know I'm willing to replace him."

The farmer eyed the man speculatively and gave a grunt. "Hummm — don't know whether you can or not. Let's hear you crow."

WASTE NOT—WANT NOT

Farm Income Off Fourteen Per Cent

Austin. — Farm cash income in Texas during 1952 was \$1,847,708,000—a 14-per-cent drop from the '51 total, the University of Texas Bureau of Business Research reports.

Most severe reverses came to producers of cotton (down \$138,000,000), cattle (down \$95,000,000), and calves (down \$44,000,000). Wool, sheep and hog revenues each were \$12,000,000 less than in 1951. However, income was up from wheat (\$38,000,000), rice (\$23,000,000), and cottonseed (\$21,000,000).

Most of the total reduction resulted from price declines, the bureau says.

VACATION DAZE

A city youth spending his vacation working on a farm was discovered one morning stuffing a small, squealing pig into a bucket, and muttering, "It's a miracle."

"What are you trying to do?" demanded the farmer. "And what's a miracle?"

"I can't figure it out," said the city fellow. "This pig just drank two buckets of milk, and I put him into the bucket and he doesn't half fill it!"

Ownership Buick Agency Changed

Omar Goodman, Clarksville farmer and stockman, has purchased the Buick Agency from Oscar Slaton. Mr. Goodman has taken over the management of the business, which will be operated as Goodman Buick Company. See his ad in this edition.

Mr. Goodman came to Red River County a few years ago from Kansas. He owned an automobile agency while living in that state. The business is not new to him.

Mr. Slaton, who has been a Buick representative here for a number of years and has no plans for the present other than the management of his ranch near Clarksville.

NO WORK—NO PAY—FIRED

The news that Joe had lost his job got around quickly and a nosy friend asked: "Why did the foreman fire you?" "You know what a foreman is?" —Joe shrugged, "the one who stands around and watches the other men work."

"So?" "Well, he got jealous. People thought I was the foreman."

Christ—The Scriptural Builder

The fact that a religious body exists is proof that it was founded by someone. There is in the world today a multiplicity of churches, different in origin, doctrine, and practice; therefore, each was either scripturally or unscripturally founded by either the divine or a human builder. Hence, it is important to know whether the builder of a church was scriptural or unscriptural. If a church was founded by unscriptural builder, that church must of necessity be unscriptural: the work of man and not of Christ. Christ founded the scriptural church. In proof of this we quote His words: "And upon this rock I will build my church" (Mt. 16:18). Therefore, it is certain that no church can be the scriptural church unless it was founded by Christ. If a church was founded by Henry VIII, John Calvin, John Wesley, Joseph Smith Jr., or any other human being, that church is unquestionably human.

Jesus, in keeping with His promise to build His church, gave Peter the authority to state the terms of admission into it: "I will give unto thee the keys of the kingdom of heaven; and whatsoever thou shalt bind on earth shall be bound in heaven; and whatsoever thou shalt loose on earth shall be loosed in heaven" (Mt. 16:19). No human being ever had scriptural authority to say this, because no human being ever had scriptural authority to originate a church. This could only be said authoritatively by Him who has all authority in heaven and on earth, the founder of the scriptural church.

Friend, where and with whom, did the church of which you are a member have its beginning?

C. F. SHIREY, Minister

Alcorn Has Impossible Idea on How The Government Can Save Money

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, has an impossible idea this week, as you'll readily agree when you read his letter.

Dear Editor: There was sort of a touch of spring in the air out here the other afternoon, a bright sun was shinin, the air was still and peaceful, heard a few birds cuttin loose, calves were racin each other over the pasture, my bony cows were warm in their hides in the sun, and I was out wanderin aimlessly around speculatin on whether eight bales of hay would get my cows through the rest of the cold spells this year, when I stumbled on a copy of a newspaper and since a man can speculate as well sittin down as walkin around I sat down and looked it over.

The first article I noticed raised my blood pressure. Accordin to it, the government is buildin a complete city out in the Nevada desert. It's gonna be complete

from paved streets to tall buildings, houses, stores, water system, electricity, gas, etc. When they get it finished, they're gonna drop an atom bomb on it and study the results, see what type buildings stand up, which ones melt down, etc.

Now I don't like to criticize the government, but it seems to me this is another example of government waste and extravagance. Certainly it would be interestin to study first-hand the effects of an atom bomb on a city, but what I want to know is why go to the trouble and expense of buildin a new city when we got plenty of good ones already available?

Why build an expensive city in the Nevada desert when we got plenty of cities that would do just as well to blow up? What's the matter with Fort Worth? Or Dallas? Or Houston? Or San Antonio? Or if there is too much professional jealousy between these cities, how about say Eagle Pass? Or Texarkana? Or there must be hundreds of cities in the

SHE LEARNED THE HARD WAY

Waco.—Mrs. Burman Black, intent on a fine spring garden, purchased a sack of commercial fertilizer and stored it in the garage.

At first opportunity she carefully mixed the fertilizer with soil in her garden, did her planting, and then gave it a good soaking.

The next morning her garden had the permanency of an airport runway.

Then she discovered she hadn't used the fertilizer but a bag of cement her husband had placed in the garage.

Ask Higher Bonds Cattle Sales Barns

Austin.—A bill to require higher bond for livestock auction barns won 10 to 5 House committee approval. It goes to the House for floor debate.

Proponents of the measure say higher bond requirements are needed to protect the public so the public will have confidence in the auction barns and bring cattle to the barns for sale.

Auction barns now must post bonds of \$1,000. This bill would require bond ranging from \$2,000 to \$50,000, depending on the amount of annual business.

Veterans Foreign Wars to Establish A Local Post

In this newspaper today is a statement from Dr. Jack King of Deport, saying a Post of Veterans of Foreign Wars will be established for this area.

It invites those who are interested in forming such a post to contact him.

Dr. King is the Surgeon General, Department of Texas, Veterans of Foreign Wars.

OUCH!
"My father said he didn't like women who drive from the back seat."

"What did your mother say to that?"

"She said back seat drivers were no worse than men who cook from the dining room table."

rest of the United States most of us never have heard of and if we tried hard enough could live without.

Of course, if there developed too much competition among cities for this honor, why couldn't the matter be settled by pickin out a city say in North Korea, or in China, or if the experts wracked their brains and couldn't think of one there, maybe there might be one somewhere in Russia.

I don't like to stand in the way of scientific progress, but I do like to see the government save money when it can.

Yours faithfully, A. A.

Medical Association Gives Advice Concerning Care of Sick People

A daily bath and grooming is a definite booster to morale by making the patient feel acceptable to others, as well as by making him more comfortable. Whether a bath is given in bed or in the bathroom or is complete or partial, it refreshes and cleanses the skin, relaxes tired muscles, and provides mild exercise. Also, depending on the temperature of the water, it can reduce fever or add warmth.

To assist a patient with a tub bath or shower, the home nurse sees that the temperature of the bathroom is right (72 degrees Fahrenheit); sets bath linen, clean nightclothes, and soap at a convenient spot; and draws a tub of lukewarm water or regulates the shower. She may need to help the patient in and out of the tub and possibly assist with scrubbing, rinsing and drying. If he can take his own bath, the door should be left slightly open in case he calls.

For a bed bath, she should set a basin of warm water, soap, and bath linen, at the head of the bed. If the patient can't take his own bath, she washes a small area at a time in approximately this order: around the eyes, the face, ears, neck, chest, arms, abdomen, legs, and back. Usually the patient can complete the rest of his bath. All parts of the body except the area being washed are covered with a washable blanket or bath towel to avoid chilling or embarrassing the patient. The ends of the washrag are held in the bather's hand. No soap is used around the eyes or, if the patient requests, on the rest of the face. For the remainder of the bath, a soapy washrag is used with firm, long strokes, then rinsed and used again in the same way. Soapy or cooling water is changed. After all soap has been removed, the area is dried and rubbing alcohol and powder used, if desired.

The hands and feet may be immersed in the bath basin. The basin (which should not be too full) should be level, and the hand or foot put into the basin. The towel is used to protect the bed.

During the bath, the skin around the nails should be pushed back with the washcloth or an orange stick. Later, they can be cleaned, cut, and, if necessary, filed.

Each day the hair should be brushed and combed. The teeth should be brushed at least twice a day. Absorbent cotton, dipped in a sodium bicarbonate of salt solution, is used to wipe the teeth and gums of the patient who can't brush his own teeth. Dentures are breakable; they may be cleaned under running

water, using a brush and mild soap or the patient's special powder. If the lips tend to be dry and cracked, they should be greased with petroleum jelly, cold cream, or some other lubricant.

After the bath and grooming, the bed linen may be changed. If the patient remains in bed, he is turned on his side and moved as far as possible toward one side of the bed. If he is weak or unable to turn easily, someone should stand on each side of the bed to make it. The soiled bottom sheet is rolled up from the vacant side to the patient's back. After the mattress covering is straightened, a clean sheet is put into position, tucked at two corners and the loose side rolled on top the roll of soiled sheet. The patient then is turned on his back across the rolled cover toward the opposite side so that the soiled sheet can be completely removed and the fresh one pulled smooth and tucked at the remaining corners. When the bottom sheet is put on the bed, another folded in half (a "draw sheet") can be added to fit under shoulders and hips to protect the rest of the bottom covers and use in helping to turn the patient. A clean top sheet is put on last. A box pleat made at the foot of the bed will allow the patient room to wiggle his toes.

The patient should be encouraged to move about in bed, if allowed to by the doctor. If not, his position should be changed often by others. Supports like pillows or a folded blanket or towel under head, shoulders, arms, or knees, or small of the back and a back or foot rest help maintain good posture. Trouble signs to look for are redness or thinning of the skin, pitting, or the tendency of the skin to show the imprint of wrinkles or texture weave of bedclothing. Cushions under the hips, heels, or other bony areas will relieve pressure and prevent bedsores, as will rubbing with alcohol and dusting with powder at frequent intervals.

From where I sit... by Joe Marsh
Just a Little "Outdated"

Back in December we sent out our yearly calendar. It listed the last date for renewing drivers' licenses, and things like the dates for registering to vote, when the hunting and fishing seasons open — even suggested you note down the wife's birthday, too.

I figured dates like these were important to keep in mind—and this was a good way to do it. Unfortunately, it now turns out I never really paid close attention to my own calendar!

Not 'til today that is—so here I am not able to drive the car this

weekend until I get my driver's license renewed on Monday!

From where I sit, I guess good advice, like charity, should begin at home. I'm always advising all of you to worry less about your neighbors (what they do, or say, and whether or not they should enjoy a temperate glass of beer) and pay more attention to whether you yourself are doing the right thing. Guess I'll "make a note" to follow my own formula.
