Heat Wave Holds As Mercury Goes To 97 Tuesday

The heat wave which pushed winter into summer three weeks ago has not let up. The mercury has climbed steadily to reach a high of 97 degrees on Tuesday. This was a new high for this year. Farmers are ready for a good rain. Cotton, corn, truck crops and other crops would be benefited by a soaking rain. Early planted cotton is up and growing nicely, but many seed were planted last week and are just beginning to come up. Some of the cotton was planted over for the third time.

Numerous farmers are putting up the hay crop this week. Continuous rains in the early spring caused grass and hay crops to produce a good yield.

Total rainfall during May was 4.20 inches. This compares with 3.82 inches during the month last year and with a 35-year average of 4.87 inches in this area.

Fannin Schools Expect to Hold Summer Terms

Bonham. — With the 1952-53 school term just ended, most of Fannin County's school superintendents are laying plans for the opening of school again, less than two months from now.

County Supt. Jim Moulton says that the vast majority of schools in the county have indicated they will begin a six-week term in mid-July and delay the opening of the fall term that long.

The practice has been followed by Fannin County schools for several years. Students are released to aid in harvest of cotton and other crops without running afoul of the federal law governing the working of students during the school term.

"Our superintendents have

Swine Prices Hit Highest Point Since Nov. 1948

By TED GOULDY

Fort Worth. — Swine growers could enjoy a rueful smile Monday as hogs hit the highest peak since November 1948 at Fort Worth. Choice butcher hogs sold at \$25.25-25.75. The joy was tempered by the fact that several years of low prices for hogs had thinned down the hog population to where while the price was good, the numbers were few.

Most hog breeders are frantically trying to re-stock since a short time ago it was announced that the hog population was smaller than the numbers of cattle on the nation's farms. The ideal relationship is generally conceded to be 20 per cent more hogs than cattle in the country.

Sows and pigs were steady, sows most \$20 to \$22 and feeder pigs from \$21 down.

Cattle buyers were highly selective. The fed heaves were scarce and good and choice dry-lot fed cattle ruled strong. Grassers were weak and lower. Cows ruled steady to 50 cents lower. Bulls held steady.

Good and choice fat calves were steady but the common, plain and medium inbetween sorts sold weak to lower. High quality stockers were steady, but others druggy and plain stockers sold mainly for low grade killers. Demand for stocker cows was very narrow. Good and choice fed steers and yearlings \$18-22.50. Fat cows mostly \$9.00-12.00, just a few higher. Canners and cutters \$6.00-9.00.

Good and choice fat calves drew \$17 to \$20, with common and medium butchers at \$10.00-15.00. Culls \$8.00-10.00. Good and choice stocker steer calves \$16.00-20.00; good and choice stocker steer yearlings \$15.00-19.00; heifer calves and yearlings \$2 under comparable steers. Few stocker cows \$10.00-14.00.

Thinks England Got Queen-Crowning Ideas From Reading American Papers

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, takes the cake this week for backwardness, as his letter will reveal.

Dead Editor: I've heard it said by statesmen and students of history that the British Empire has been declinin and shrinkin in recent years, and while I've got nothin against declinin and shrinkin, know lots of folks who've been doin it steadily for years, I had not paid much attention to the claim.

In fact, the way England could still manage to swing a loan, regardless of who was in the White House, Democrats or Republicans, led me to believe she was as mighty as ever, but the last few weeks I've begun to have my doubts.

They were brought on by all the excitement and hullabaloo over the crownin of the Queen over there.

Now, personally I got nothin against the Queen, looks like one of the most level-headed young ladies I ever heard of, but what worries me about England is it looks like that once mighty empire is runnin out of ideas, at least of original ideas. Now she's copyin after America.

Crowning a queen is all right, it brings a big crowd to London, turns lots of tourists' dollars loose, but thunder the idea has been used so much in this country it's about as novel as a Fourth of July float. In the last few years a community which ain't crowned some sort of a queen was considered queer, almost unorthodox. A picture of some girl gettin crowned—doesn't make any difference who by, anybody from the governor to a county commissioner to a president of a chamber of commerce to a newspaper editor seems to be equally skillful at the job, in fact, I guess it's one of the few jobs it takes the least trainin at to reach perfection in that's known to man—as I say, a picture of some girl gettin crowned queen is as common as a sight in the papers these days as a bathin beauty or a fugitive from justice.

In the last few years I can personally remember havin seen pictures of girls gettin crowned as bathin beauty queens, black-eyed pea queens, watermelon queens, cantaloupe queens, football queens, in fact, the only two queens I haven't seen pictures of are cumquat queens and blacksmith shop queens, and also Johnson grass queens, and somebody

Farm Prices Rise Slightly in Months April and May

WASHINGTON.—The Agriculture Department reports that farm product prices increased about three fourths of 1 per cent between mid-April and mid-May.

This increase partly offset a decline in the previous month. The mid-May level was about 11 per cent below that of a year ago and about 17 per cent below the record in February of 1951.

During the past month, a sharp increase in hog prices and moderate upturns in beef cattle, lamb, cotton and corn prices caused the general level to rise slightly. Somewhat lower prices were reported for milk, tomatoes, strawberries, potatoes and wheat.

Prices paid by farmers for goods and services used in living and farm production remained unchanged. These prices, however, were 3.4 per cent below a year ago and below the record.

Farm prices as a whole averaged 94 per cent of parity compared with 93 per cent in mid-April, 101 per cent in May last year and the record of 122 set in October 1946. Parity is a level designed to be fair to farmers in relation to prices they pay.

The general level of prices received by farmers in mid-May was 261 per cent of the 1910-14 average compared with 259 per cent in mid-April, 293 per cent a year ago and the record of 313 set in February 1951.

The level of prices paid by farmers in mid-May was reported at 279 per cent of the 1910-14 average, the same as a month ago, and compared with 289 per cent a year ago, which was the record.

The report showed 24 commodities selling below parity in mid-May, including wheat, rye, corn, oats, barley, grain sorghums, cotton, cottonseed, peanuts, flaxseed, potatoes, grapefruit, oranges, lemons, beef cattle, calves, sheep, lambs, butterfat, milk,

and their parents, Mr. and Mrs. T. L. Cox, over the week end.

Mr. and Mrs. E. C. Watts and daughter, Patricia of Rosenberg and Venice, La., are here visiting his mother, Mrs. J. A. Watts.

Mr. and Mrs. Oneal Watts and children, formerly of Corpus Christi, moved here. He has employment on the Rivercrest project.

Mrs. Riordan told shocked officials that she wasn't fast enough to get out of the way when the train bore down on her at about 20 miles an hour as she crossed the tracks at a suburban station, so she grabbed the cow-catcher and hung on.

"I thought of calling out, but it all seemed a bit silly," she said. She suffered a swollen ankle and a cut finger.

A Little Headwork Saves a Lot of Footwork

"I don't ever aim to give up fishing," Pappy Hayes said one day—"but the older I get the less I like hiking over to Pike's Creek. Guess I'll have to bring the fish nearer to me."

So Pappy got his nephew to bulldoze down about three acres of bottom land. Then he dammed up the little stream there.

He wrote the U. S. Fish and Wildlife Service, in Washington, and got some "blue gills" and bass to stock it—free. Pappy's idea wound up giving him (and us) just about the best fishing

pond in the county . . . right in his own back yard.

From where I sit, Pappy may be older than some of us but his mind is active—and open. He's ready to listen to anybody with an idea. That's why he and I can talk on any subject—sometimes about his preference for buttermilk and mine for beer. And though we disagree, we respect each other's opinion. That's neighborliness without a "catch" to it

Poor Bellhop Service

The writer has received several letters from newspaper friends over the state which expressed deep regret at the passing of Editor Lon Boynton of the Lamar County Echo. Here is a little human interest story about Lon the reader will enjoy, and it shows that if Boynton thought you worthy of his confidence and friendship, there was nothing he wouldn't do for you.

This incident occurred 25 years ago. He had just completed a new brick home out on Pine Bluff street in Paris and took this writer out to show it to him. We admired this, that, and the other thing about the new home. While in the front bedroom Lon pulled a bunch of keys out of his pocket, extracted one from the ring and pushed it into our hand.

"This is the key to this front door and this is your room; come on out and use it any time you are up here and don't want to drive back to Deport that night," he said.

We tried to return the key, protesting that we were not worthy of such consideration, but Lon would have none of it.

"You might not like the bell hop service around here," he quipped, "but you will be able to get along somehow," he added.

Few men are ever afforded the pleasure and happiness it brings to have a friend like Boynton. And we will never drive past Meadowbrook, where he is buried without recalling some witicism or some act of friendship and kindness that he conferred upon us over the 29 years we were privileged to know him.

There is a lot of hokey on the radio and TV about how important they are and about visual education. But when one is really interested in something, he wants it down in black on white where he can read and study it. The printed word is still the most important part of our daily living and always will be.

With all the brains we are supposed to have among agricultural and legislative leaders, something certainly can be done about prices for some truck crops. We have the spectacle of cabbage over at Grand Saline selling for a cent a pound. And at Wylie an onion grower has just plowed up 20 acres because the current price

It is still a mooted question as to which is important—the cook book or the pocketbook.

Sinners prefer to take their punishment here, hoping to get a new trial, pardon or suspended sentence.

It is a mistake to give away advice. If your friend needs it he will go to a lawyer and pay for what he gets.

Divorce proceedings wouldn't be such interesting reading if the plaintiff were suing the defendant for being good.

We always enjoy looking toward the future because we know it is full of unexpected events that are sure to happen.

By discarding the presidential yacht, Gen. Ike saves an annual expense of half a million dollars. Every little half a million helps.

It is hard to even up things in this world. Last year Texas nearly burned up for lack of water. Today we have "water to burn."

Claud Callan thinks another group that deserves pensions is the housewives who perform the most necessary work in the world, cooking, sewing and spanking.

"Biography of a successful business man: 'I was born in the country, where I worked like a horse so I could live in the city, where I worked like a horse so I could live in the country.'"

Congressman Brady Gentry is squarely against the bill to raise the salaries of congressmen to \$25,000 a year. He doesn't think the raise is justified at this time in the face of a ten billion-dollar deficit in the annual budget.

Mr. and Mrs. E. M. Jordan Jr. have announced the birth of a son, William Edward, weighing 5 lbs. and 11½ ozs. He was born May 27. Mrs. Jordan is the former Miss Clarice Kennedy, a former Talco homemaking teacher. Mr. and Mrs. Jordan have been in Camp Roberts, Cal., for several months, where he is serving with the U. S. Army.

Mr. and Mrs. Gene Collett and children of Oakland, Calif., visited Mr. and Mrs. Ernest Watson last week. Mr. and Mrs. Watson left Sunday to visit Mr. Watson's niece and family in Chrisman, Ill. They will also visit Mr. Watson's brother in Mississippi before returning home.

With the Weatherman skipping spring entirely and jumping from winter to summer, some folks whose obligation or responsibility it is to turn in written reports to this newspaper to be published may want to procrastinate. Don't do it, folks. We know that bank notes, due dates and newspaper dead lines just "fugit" the heck out of time. We are sympathetic, but we can't do the work in one day that requires six. So just remember our rule that social functions and other matters must be reported not later than 24 hours after they occur to insure publication. Thank you.

Mrs. Dona Sloan Wins Award for Outstanding Work

The above picture shows Mrs. Dona M. Sloan, Talco, Texas, receiving her "President's Club Pin," from Supervisor W. D. Spencer, Jr., of "The White Cross Plan," issued by Bankers Life and Casualty Co.

Mrs. Sloan qualified for this coveted award having written over 450 applications during one 6 month period. This is an outstanding achievement particularly because she is the first woman agent in Texas to have earned this honor.

This award was presented in Tyler at a District barbecue, where she was crowned "Queen of Tyler" and "Leading White Cross Lady." She, also, received secondary awards for her record achievement of 150 applications in March alone. Mrs. Sloan is now well on the road to earning the Company's highest honor—600 Club Membership, which she expects to complete by the end of September. At the present time only six women in the entire United States hold this honor with the White Cross Plan. Our hat's are off to Dona!—Advertise.

Mr. and Mrs. M. B. Teague, accompanied by their grandchildren, John, Margaret and Jerry Tarpley, are spending a part of the summer at their home in Stephenville. Mrs. Thelma Tarpley, Miss Sally Worden and Jas. Tarpley plan to visit them this week end.

Johnson in Deport, Mrs. Stella Rodgers in Bogata and other relatives at Talco. Mr. Rodgers was with the Talco State Bank, prior to going to Sunray, where he is with the Sunray State Bank.

RECORD-BREAKING GAS MILEAGE

for the driving **YOU** do!

This year's Chevrolet brings you the most important gain in economy in Chevrolet history. And it's the kind of everyday economy that saves you money wherever and however you drive!

Inch along through heavy traffic. Roll up the miles in steady highway cruising. Long trips or short errands, byroads or boulevards, you get far more miles per gallon in this great new Chevrolet.

New high-compression power is the reason. Both the new 115-h.p. "Blue-Flame" engine in Powerglide* models—and the advanced 108-h.p. "Thrift-King" engine in gearshift models—deliver more power on less gasoline. Acceleration and hill-climbing ability are greater, fuel consumption is lower!

This is the kind of economy that counts the most—important gasoline savings for the driving you do, together with lower over-all costs of upkeep. And along with it, you enjoy all the other advantages that only the new Chevrolet offers you. Come in and see for yourself!

*Combination of 115-h.p. "Blue-Flame" engine and Powerglide automatic transmission available on "Two-Ten" and Bel Air models only.

Talco Senior Band Trip to Hot Springs

Students of the Talco senior band enjoyed a wonderful visit in the hills of the Ozarks. The group, sponsored by the Talco Band Booster Club, left Talco early Saturday morning and arrived in Hot Springs at 12:30 p. m.; enjoyed their picnic lunch in one of the mountain parks. After lunch they looked out across the city from the top of the observation tower, then they were taken to a lovely court where they chose their rooms and freshened up a bit.

They were quite surprised and thrilled when Pee Wee Robinson, one of the city patrol, was waiting to guide them safely through the crowded streets of Hot Springs. While visiting the museum, one of the Rangers gave an interesting talk concerning the mysteries of hot springs and arranged for the children to visit the bath houses and see some of the springs which are located in the basements of the bath houses. They went to the alligator farm, on through the crystal cave, then it was time to return to the cabins and have a bite to eat. High school students had been busy all afternoon planning the wedding that took place that night. The flowers were gathered from east mountain, the rings were bought at Kress and the cake from a nearby grocery store. We all enjoyed the wedding very much.

Miss Rita Shaw attended early morning mass in Hot Springs, while the other children were getting ready to leave for Hope, where arrangements had been made for church services and lunch. The children attended

Doris Pittman Weds John W. Woolley

Miss Doris Pittman, daughter of Mr. and Mrs. Henry Pittman of Cushing, and formerly of Talco, exchanged vows with John W. Woolley Jr. in a Sunday evening double ring ceremony at the Landmark Baptist Church at Cushing. Parents of the bridegroom are Mr. and Mrs. John W. Woolley Sr. of Turnertown.

Rev. Owen Freeman of Houston, cousin of the bride, officiated, and the traditional wedding music was presented by Mrs. A. M. Pittman of Talco and Larry Wilson of Tyler. He sang "At Dawning" and "If I Could Tell You."

The bride, given in marriage by her father, wore a gown of white satin and lace. The gown was designed with a fitted strapless top, scattered with rhinestones. The bodice was topped with a fitted lace jacket defined with a standing collar covered with tiny seed pearls, and buttoned to the waistline with small white satin buttons. The tight fitted sleeves were accented with white satin buttons from elbow to wristline which tapered to a petal point over her hands. Wide lace inserts fashioned the bouffant satin skirt, scattered with rhinestones, and was waltz length.

The bride's fingertip veil of imported white chantilly lace fell from a calot of white satin covered with tiny seed pearls. She carried a white Bible topped with a white orchid and carnations.

Miss Nell Florey of Kilgore, attended her as maid of honor, wearing cocoa organdy, with picture hat of pink organdy and carrying pink carnations. Bridesmaids were Miss Eddie Chapman of Houston, formerly of Talco, and Susie Pittman, sister of the bride, was junior bridesmaid. Their dresses were of the bride's chosen colors of pink and cocoa with pink hats and shoes. They also carried bouquets of pink carnations. Miss Sarah Bridges of Tyler, was candlelighter, wearing pink satin.

Wayne Pittman of Cushing, acted as best man and groomsmen were George Langford of Longview and W. E. Alford of London.

The bride chose as her going away costume, a tailored suit of beige, trimmed in navy linen; her accessories were navy linen and she wore an orchid corsage.

Galveston was the honeymoon destination of the couple. Later they will reside in Nacogoches where the groom will be in school this summer. He will receive his B.A. degree from Stephen F. Austin College this fall. The groom served two years in the Army, eighteen months of the time in Korea.

The bride received her B. A. degree from Stephen F. Austin College at the close of the spring semester.

Miss Alice Williams of Longview and Mr. and Mrs. Richard Williams and baby daughter of Sulphur Springs, visited their mother, Mrs. Nora Williams and their sisters, Wanda Williams and Mrs. Roy Primm, Sunday.

their own places of worship.

The group arrived home Sunday afternoon. The sponsors hope the children enjoyed being with us as much as we enjoyed them. They are truly a sweet group of children.—Reported.
