COMPLETE NEWS AND ADVERTISING COVERAGE OF THE GREAT TALCO OIL FIELD

NINETEENTH YEAR

TALCO, TITUS COUNTY, TEXAS, FRIDAY, FEBRUARY 26, 1954

NUMBER 3

## Big Hike Ordered March Oil Flow In Texas Wells

Austin.—The Railroad Commission boosted Texas' oil allowable by 159,266 barrels a day for March, wiping out half the decrease made since last summer.

The new proration total is 2,892,416 barrels a day, based on eighteen days' operation for fields generally, including East Texas. This means a 17,751-barrel daily average gain for the East Texas field.

Stocks of oil and products generally are "in good condition save and except gasoline stocks," Col. Ernest O. Thompson declared. He termed gasoline stocks "very tight."

The March proration order will limit Pickton to nine days. Pewitt Ranch, east of Talco, was restored to full production of 68 barrels allowable from 118 wells for eighteen days.

The eighteen-day plan was favored by Sinclair, Gulf and Magnolia, while Sun and Shell asked for 19 days in March.

A seventeen-day order was urged by Humble, Continental, Texas Company, Stanoland, Atlantic, Tidewater Associated and Pan-American.

The commission announced that the next hearing will be held March 18 instead of as previously set.

Importers notified the commission that they brought in 996,777 barrels of crude and products daily in January and are scheduled to import 1,076,604 barrels a day this month.

## PRESENT PROGRAM FOR ELEMENTARY SCHOOL

Mrs. Denison's first and second grade room presented a program in the school auditorium Friday morning for elementary school. Guests were Mr. and Mrs. D. C. Jensen and Ronnie, Mr. and Mrs. M. J. Davis and baby, Mr. and Mrs. Joe Nelson, Mrs. Charles Hawkins and baby, Mrs. G. P. Walker and Norman Guy McAfee, Mrs. Bill Miller and Leonard, Mrs. R. H. Whitney, Mrs. Joe Martin, Mrs. R. T. Fuller and Mrs. Ed Buchanan.

## EASTER STAR OBSERVES FRIENDSHIP NIGHT

Order of Easter Star observed Friendship night Tuesday in the Masonic Hall. Fifty-two local members and guests attended. Out of town visitors were present from Clarksville, Hawkins and Mt. Vernon.

After the program they enjoyed a social hour and the Talco Chapter served refreshments.

## Talco Masons Hear Grand S. Warden

Talco Masonic Lodge celebrated George Washington's birthday on Monday, with a covered dish dinner in the high school cafeteria. The principal speaker was Right Worshipful W. W. Boothe of Paris, Grand Senior Warden of the Grand Lodge of Texas.

Entertainment was furnished by a piano solo by Diana Cook, a solo by Marjorie Richardson, and a quartet of the following members: S. O. Loving, Rev. John Dvorak, Roy Beasley and L. R. Miller.

It was a most pleasant evening for local Masons and their families, according to G. G. Ryan, secretary of Talco Lodge.

## Fine Arts Discusses American Heritage

An interesting Americanism program was presented when the Fine Arts Club met Tuesday afternoon in the home of Mrs. C. C. Collins, president. Mrs. Collins, in stating that the theme of our General Federation president, Mrs. Oscar A. Ahlgren, is "Preservation of Our American Heritage" quoted Mrs. Ahlgren as saying that we should build better Americans by building "a better you." A definition of Americanism is "Devotion and loyalty to the United States, to its traditions and its customs. Americanism is you."

Roll call consisted of a panel discussion on communism, all members participating. The program, directed by Mrs. Johnson, was a very informative panel discussion, "Communist activities in the United States," Mrs. Burnham's subject was "Communism as a threat to our educational system," and Mrs. Rosson discussed "Communism in religion."

Plans were made for two important programs during March, Friendship Day and Texas Day observances. It is announced that these programs as listed in the yearbook will be interchanged, for various reasons. Friendship day will be observed on March 16, when the local Girl Scouts, their leaders and mothers will be special guests at Humble Hall, under the supervision of Mrs. R. E. Cain.

The Texas day program this year will consist of a pilgrimage to a Texas shrine. Club members participating in this trip are to meet at the home of Mrs. M. E. Jones, 10:45 a. m., Tuesday, March 2, and from there the members will proceed according to plans.

Gaily colored spring flowers were used in decorating Mrs. Collins' home for this event. During the social hour the hostess served delicious refreshments, buffet style, to these members: Mmes. R. J. Rosson, Howard Johnson, M. J. Pendleton, F. B.

## Two Deport Banks Plan Consolidation

Deport's two banks, the First National and Deport State, will be consolidated into one bank on April 7 if the action of the directors of those two institutions meets with approval of two-thirds of the voting strength of their stockholders, it has been announced by Mrs. J. H. Moore, president of the First National and Tom Jeffus, president of Deport State.

This action would bring together two of Texas' good small town banks. There is not another town in Texas with Deport's population that has two banks, and some of them three and four times as large, have only one bank.

Both these banks are in fine condition financially and could almost pay off every one of their depositors in cash at one time without borrowing money on the more than a quarter million dollars of notes and other property they hold, according to their statements published on January 7, 1954.

As planned by the directors the new consolidated bank would start off with a capital of \$50,000, a surplus of \$50,000 and undivided profits of \$25,000, giving Deport a \$125,000 bank with deposits of over one and a quarter million dollars.

Plans further provide for a board of directors to be made up of present directors of the two banks. They are for the First National, Mrs. J. H. Moore, J. B. Griffin, John G. Wright, J. R. Kelsey, John H. Moore and L. E. Hayes. For Deport State: Tom Jeffus, Joe Grant, G. R. Grant, Karl V. Kimball and H. L. Jeffus.

Subject to the action of the new board of directors, only two officers have been named for the consolidated bank: Tom Jeffus, president and J. B. Griffin, active vice-president and cashier.

## Dust Storms, Rain Blanket This Area

Dust storms coming from West Texas, New Mexico, Colorado and Oklahoma, have blanketed this area with a coat of red sand. Heaviest storm in several years moved in Friday afternoon and remained until late Saturday. Before the dust had completely settled another duster kicked up its heels in West Texas and covered this section again Tuesday and Wednesday.

A good rain, accompanied by heavy thunder and lightning, Friday morning, soaked this area.

The rain halted all farm work and gardening. Most of the land has been bedded. Planting of corn, oats and early grain crops will get underway as soon as fields are dry enough for farmers to return to work.

Rainfall at Talco Friday morning of last week before the dust began was 2.7 inches.

## Don't Take Chances Carbon Monoxide

Automobile exhaust fumes, which contain poisonous carbon monoxide, are a real hazard too often ignored. The tail pipe of the car ahead of you can spill its gases right into the heating and ventilating system of your car.

To prevent headaches, drowsiness and more serious effects of carbon monoxide, follow these rules: When driving in traffic, close behind other cars, keep air-intake ventilators closed whenever possible. When your own heater is operating, always keep a window open an inch or two.

Haynes, J. H. Weatherall, Gene Gandy, M. E. Jones, G. N. Anderson, and a guest, Mrs. G. R. Keister.

## Coach W. E. Hoffman Tenders Resignation

Coach W. E. Hoffman has resigned his position here as assistant coach and will leave this week end for his new assignment as coach in junior high school in Orange. Mrs. Hoffman, who has been employed by the Johntown school board, will teach in elementary school there.

Mrs. J. W. Haynes has been employed to work with junior high grades the remainder of this school term. The work of the school will continue as formerly planned.

## Spring is Here or Around Corner

When a local angler came by with a 6-pound black bass Thursday afternoon, the editor was ready to write a story saying spring was here, regardless of what the calendar had to say.

What with grass greening up the country side, elm trees budding and some old pear trees at the editor's home will soon be banks of blossoms, surely spring was bursting out in many places.

But we can expect as much with mean daily temperatures running from 1 to 20 degrees above February's normal of 60. Next thing we know birds' arcs will be budding, and that is an unfailing sign.

Boys with their kites are taking advantage of headwinds that have averaged about 11 miles an hour, only one and a half less than March's 12.6 mph.

With the average date for a killing frost only three weeks away, maybe spring is about here.

## Post Office Will Close at Bryarly

Bryarly Post Office will be discontinued February 28.

Closing of this unit of the U. S. Mail Service is in keeping with the economy move inaugurated early last year which has already effected thousands of small offices serving rural areas in the nation.

Bryarly is one of the oldest communities in Red River County and a post office was established there many years ago.

With the closing of this office six in Red River County will have been discontinued since the movement to abolish small units was started.

First to be closed was Cuthand. January 31 marked the conclusion of postal service rendered at Kanawha, Kiamitia and Woodland.

Patrons of Bryarly Post Office will be served by Route No. 1 out of Clarksville.

## Pinhook Seeking Deer Preserve

Leasing activity has begun in northeast Lamar County and northwest Red River County for a 20,000-acre deer preserve to be formed by the State Game and Fish Commission.

Farmers and ranchers in the area around Pinhook met to discuss the foundation of such a preserve and decided in favor of it. Under the plan, the Game and Fish Commission would release trapped deer in the area.

All the landowners have to do is sign a five-year agreement that they will allow no deer hunting on their land. At the end of five years, the land will again be open to deer hunting. Other types of legal hunting will not be affected.

D. J. Smelley called at The Times office and ordered The Talco Times sent to his son, Wayne Smelley, a junior student at Baylor University at Waco.

## W. B. Gunn Dies Friday Evening

William Bishop Gunn, 59, died Friday, Feb. 19 at 8:30 p. m. in the Red River hospital in Clarksville after a short illness. The body was prepared for burial at Bogata Funeral Home and remained at the funeral chapel, awaiting arrival of relatives Saturday, when arrangements were made to accompany the body to Sweetwater. Funeral services and interment were made their Monday.

Deceased had been employed with the Farrell Construction Company at Rivercrest on Sulphur the past year, having come to Bogata in February, 1953, and had roomed at the home of Mrs. Ruth Vaughan for several months. Surviving are his father, four sons, four daughters and a sister.

## Book Lovers Club With Mrs. Frugia

Mrs. Sidney Frugia entertained the Book Lovers Club Friday afternoon in her home in the Humble Camp. The meeting was opened with prayer by Mrs. F. A. Jones and Mrs. Lyndon Reed presided. During the business session the resignation of Mrs. F. A. Jones was accepted and the membership committee was asked to contact Mrs. H. U. Davenport, whose name is first on list for membership.

Mrs. E. E. Neugent had charge of the program which was on music. She presented Mrs. H. O. Williams, who gave an interesting and enlightening discussion on the history, advantage and effect of the different types of music. In the musical games conducted by Mrs. Neugent, Mrs. C. E. Griggs and Mrs. Williams were awarded lovely gifts.

An attractive and delicious refreshment plate was served to Mmes. J. L. Cato, Felix Jones, Jim Morris, C. E. Griggs, F. A. Jones, Lyndon Reed, W. L. Cox, E. W. Smith, E. R. Kelley, Billy Carter, H. O. Williams, E. E. Neugent and the hostess.

The next meeting will be March 5 in the home of Mrs. B. L. Gieger with Mrs. Dick Hood as program director.

## In and Out Club Entertains Families

The In and Out Club entertained their families Monday night with a spaghetti and meat ball supper. Those attending were Mr. and Mrs. Leon Burca-low and children, Mr. and Mrs. Don Winchell and family, Mr. and Mrs. M. J. Pendleton, Mr. and Mrs. C. W. Russell and family, Mr. and Mrs. Weldon Orr and family, Mr. and Mrs. Jack Seabough and family, Mr. and Mrs. Raymond Martin, Mr. and Mrs. W. L. Robinson and family, Mr. and Mrs. Johnny Stone and family, Mr. and Mrs. A. E. Foster and family, Mr. and Mrs. Rex Mitchell and family, Mr. and Mrs. R. Rothwell and family, Mr. and Mrs. Odie Gibson and son, Mr. and Mrs. Bob McWilliams. Games were played, following the meal.

## Planned Lamar Jail Break is Broken Up

Two alert jailers spiked a major break at Lamar County jail at Paris Tuesday night, 45 minutes before a well-planned break to freedom.

More than a dozen prisoners were involved, including four men being held on federal charges.

Chief Jailer Loyd Gambill and Night Jailer L. M. Perkins first spotted signs of the scheduled break while making their regular rounds at 9:15 p. m.

Gambill found that a security door to an aisle between the Negro and white sections of the jail had been partially opened. Bolts had been removed from the upper hinge and the latch shoved out.

Jailers immediately called Sheriff Dan Bills who summoned his deputies. Together they clamped a security guard on the jail and uncovered the rest of the escape plot.

Comrades had been broken out of two cells leaving holes in the wall through which prisoners could have crawled into the aisle.

Eight lengths of pipe and steel broken from the shower stall and from steel bunks were uncovered. Sheriff Bills said they were apparently to have been used as weapons.

Night Jailer Perkins was to have entered the runway at 10 p. m. to place prisoners in their cells for the night. "From what we can learn" the sheriff continued "they planned to knock Perkins in the head when he made his 10 o'clock round and make their break."

All prisoners remained locked in their individual cells Wednesday and were not allowed runway privileges.

"We believe we have singled out the ring-leaders of the break," Bills pointed out Wednesday. He called no names, but indicated that one was a Paris youth recently convicted of burglary.

## Plan Observance School Week in Texas March 1-6

Plans are being made in independent and common districts of Texas to observe Public Schools Week March 1-6. This period of special emphasis is part of a bigger celebration commemorating 100 years of the educational system.

The State's first common school law was enacted January 31, 1854. That law was a far cry from today's school statutes, for it provided for state payment of the entire tuition only for children of paupers.

While Texas does not claim preeminence today in public education it has made great strides since the days when its pioneers were divided bitterly over whether the state properly should be responsible for support of schools.

Thus, the centennial will combine recognition of past achievements in public education and anticipation of challenges to be met in the future.

One thousand citizens' committees are trying to stimulate 1,500,000 Texans to visit a public school during March 1-6. There were 1,071,000 visitors during last year's public schools week.

The Texas Heritage Foundation announced it will sponsor a hall of remembrance for the heroes of Texas education.

Karl Hobbittzelle, chairman of the foundation's executive board, said the hall of remembrance will be continued as a permanent memorial to the great men and women of Texas education. Anyone may make a nomination, and a board of 21 electors, one from each Congressional district, will make final selections.

All Talco patrons should avail themselves of this opportunity to visit their school. Since the school is one of the most important factors in Talco, every one should take advantage of this week and find out more about Talco schools.

## Butter Supports Drop Due Apr. 1

Washington.—The Agriculture Department announces that prices the government pays dairy farmers for butter under the federal support program will be cut 8 1/4c a pound April 1.

It also said prices paid for cheese will be reduced 4 3/4c a pound and for dried milk about 1c a pound.

The cuts resulted from Agriculture Secretary Ezra T. Benson's order slashing dairy price supports from 90 to 75 per cent of the so-called "fair" parity price. This is the lowest permitted by law.

Department experts have estimated that most of the on-the-farm cuts will be passed on to consumers. Benson predicted an 8c a pound decline in retail butter prices and another department official forecast a 1c a quart drop in retail milk prices.

### VOICE OF TRUMPETER PROVES LIFESAVER

Providence, R. I.—Louis W. Grande Jr., 14, was on his way to a trumpet lesson when he decided he just had to open a freight elevator door and see what was down the elevator well.

The door banged shut on Louis' neck, trapping his head in the shaft. Louis' vocal SOS fanfare was answered half an hour later.

J. M. Fussell, Talco Trojan ace, is among squadmen who will start training at ETSTC on March 1. Fussell is an end. He also expects to make the track team.

Mr. and Mrs. Edgar Easterling attended the funeral of Jim Payne in Hagansport on Wednesday afternoon. Mr. Payne died of a heart attack early Tuesday.

Mrs. Sally Gage attended the Texas State Accredited Beauty Culturists convention in Dallas last week. She is vice-president of this area and was a representative for this area to the convention.

East Texas State Teachers College was host to high school seniors in East Texas Friday. The Talco class, accompanied by A. C. Newsome, attended. Mrs. Williams met his classes during his absence.

Mr. and Mrs. Harver Mask Sr. of Hollins, Ala., and Sgt. and Mrs. Harver Mask Jr. of Ft. Smith, Ark., were week end guests of Mr. and Mrs. H. A. Hoffpaur and Miss Clara Ruth Hoffpaur.

## Alcorn Wants Money-Raising Drive To Stamp Out Inroads of Bad Colds

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, has a good idea this week, but we don't know whether he'll get anywhere with it.

Dear Editor: It's sometimes hard to tell just by looking when I'm under the weather as I don't rip and tear much even when I'm in the best of health. I always figured if feeling good meant you had to get into motion and burn up your energy you might as well feel bad to start with, after years of practice I've managed to sit still and enjoy health as much as the fellow on the run, but what I started out to say was that lately I've been sort of under the weather, with a bad cold.

And I've been thinkin. We've got nearly every kind of money-raisin drive you can think of in this country, with the exception maybe of one to raise money to stamp out ingrowing toenails, but there ought to be one more.

There ought to be a drive on over the country to set up a fund to figure out how to whip a bad cold. Personally I don't think man has any business spending money for example on rocket ships to explore space before he finds out how to cure a cold. And if you ask me, color television has no more business comin ahead of a prevention for the common cold than holdin office has comin ahead of gettin elected. I can't think of anything more ridiculous than a high-ton-

ed, expensive color television program been called off on account of the star comin down with a cold. It's one thing for me to call off a day's plowin for that reason, even if it is in natural color, but any race of people smart enough to send color pictures through the air ought to be smart enough to whip a cold.

I know we probably have too many drives already, but we may have too many fillin stations and grocery stores and I know we've got too much cotton and butter, and we ought to find room for one more.

If you'll go in with me, we'll launch the National Bad Cold Drive, with President Eisenhower as honorary head, as I understand he's already come down four times with a cold since he's been in office, and raise enough money to put some scientists on the job with instructions to isolate the germs and figure out a vaccine.

Any country able to split an atom, fly 1500 miles an hour, build a car that shifts its own gears, sell canned biscuits, and run up a national debt of 275 billion dollars, ought to be able to figure out how to prevent a cold. Let's get this organization goin. Yours faithfully, A. A.

## Over 200 Dogs Get Rabies Vaccine

Red River's county-wide rabies vaccination program got underway Saturday with co-operation from many dog owners. Over 200 dogs were vaccinated in southwestern part of the county and eastern Lamar county Saturday and Monday, according to Dr. Sam B. Kelsey, in charge of the vaccination in this section.

There are still a few dogs to be vaccinated in the Halesboro and Glendale vicinity as Friday's heavy rain and muddy roads prevented the scheduled program from being carried out. These places will be visited this week. Efforts are being made to have all dogs vaccinated in this area to prevent an outbreak of rabies.

From where I sit... by Joe Marsh

## Handy and Easy "Sign Up"

Last month's safety drive was a big success—almost. Every one helped—the schools ran movies on safe driving, Rotary put up posters, and Handy and Easy Peters went out on their own.

The boys put up a big sign by the side of the highway. It said, "Slow down—the life you save may be your own." It was a good idea—after the police moved the sign back twelve feet.

In their enthusiasm Handy and Easy put it too close to the road—in fact, right on the sharpest curve on the highway. They made driving unsafe by cutting off the view around the curve.

From where I sit, lots of people—even though they mean well—suffer from short-sightedness now and again. For instance, some can never see any further than their own preferences. They even go so far as to object to my choice of a glass of beer with supper. Shouldn't we always take the "long view"... and respect our neighbors' rights?
