NINETEENTH YEAR

TALCO, TITUS COUNTY, TEXAS, FRIDAY, JUNE 18, 1954

NUMBER 19

## School Library Open Thursdays

The Talco school library will be kept open to the public every Thursday afternoon from 2:00 until 4:00 p. m. This is one of the projects of the Talco P-TA and members, assisted by high school girls will be in the library.

It has been said by two school librarians within the last seven years that Talco has one of the finest selections of good reading of any library in this vicinity, and better equipped than libraries in cities. All who care to check out books to read or study during the summer may do so, beginning on Thursday, June 17.

## Local Boards Can Ply Segregation

Experience has shown that local school boards are able to handle school segregation problems well, Dr. J. W. Edgar, Texas Commissioner of Education, announces.

"The final decree by the court ought to permit continued management of local districts by local boards. Schools must be run on a community basis. They can't be run successfully from Washington or even from Austin. "Anything which schools do effectively must be done with local support," he explained.

## Postal Receipts Show Improved Economic Status

This depression talk we hear don't jibe with information in the Postmasters Gazette which shows 1132 post offices move to higher classes next fiscal year and only 146 to be relegated. Postal receipts are a very good barometer of financial conditions.

189 post offices will advance from second to first class on July 1, according to preliminary figures announced by the Post Office Department. 390 will move up from third to second, and 553 which are now fourth class will become third. All postmaster whose offices advance to a higher class will receive increases in salaries.

There are a number of post offices which will be relegated to a lower class, the report showing that 25 which are now first class, will go down to second; 19 second class will go to third, and 102 third class offices will become fourth class.

Pennsylvania leads all the states with the number of offices advancing in class, with 16 moving up to first, 37 to second and 65 to third.

Other state leaders in gains to higher classes are: Second to first: California, Michigan, Ohio and New York, 13 each.

Third to second: California, 20; Illinois and New York, 17 each.

Fourth to third: Texas, 30; New York, 25; Illinois, 22; Ohio, 21; North Carolina and Michigan, 19 each, and Minnesota 19.

## Official Board of Methodist Church Names Officers

At the organizational meeting of the Official Board of the Talco Methodist Church on June 10, the following officers were elected for the coming church year:

Chairman of Official Board—J. R. Poston; vice-chairman, V. P. Gibson; recording secretary, Mrs. J. D. Riley; treasurer, J. D. Riley; church lay-leader, D. H. Kelley.

Elected to committees responsible to the Official Board were: Christian Stewardship Committee—Jack Brown, W. S. Richardson, John Dvorak, Mrs. Grady Trawick, C. C. Penn and A. F. Bowman.

Church Music Committee—Jno. Dvorak, Mrs. W. H. Hammond, Mrs. Robert Harper and Miss Doris Jean Penn.

Christian Vocations Committee—John Dvorak, Jack Thompson, Mrs. A. E. Foster and a layman to be elected at the 1st Quarterly Conference, and a representative of the Woman's Society to be elected by the Society.

At the Official Board meeting Thursday night, following business which included the showing of a Stewardship film and the consideration of the church budget for the coming church year, refreshments were served by Mr. and Mrs. V. P. Gibson, Mr. and Mrs. Fred Johniken and Mr. and Mrs. J. A. Davis.

## Colored Folks To Observe June 19th

Emancipation Day, Saturday, June 19, will be observed by the colored population of this section. This year is no exception as throngs of the race will take off to celebrate the anniversary of their freedom from slavery.

Decked out in finery and Sunday best, picnics, barbecues, baseball games and a general good time usually round out the day's entertainment.

## Manziel Drilling Core Test

Bobby Manziel, Tyler, is drilling a core test four miles south of Manchester in the north part of Red River County and correlating electric log data to a depth of 2,500 feet. The test is No. 1 Temple Lumber Company, 3,000 feet from the north and west lines of the Noel Arrington survey.

## COMMUNITY PUBLIC SERVICE EMPLOYEES PICNIC JUNE 18

Annual spring picnic for employees of the Community Public Service Co. of the Northeast Division will be held Friday at Lake Fannin, near Bonham. Employees from Deport, Bogata, Talco and Detroit are planning to attend.

## Cubs Edge Yanks In Little League

By ROBERT F. PARKER, JR. In the Paluxy Little League play on Tuesday the Cubs handed the Yankees their second setback of the season to the tune of 11 to 9. Thompson was the winning pitcher although he weakened in the latter innings and required relief from Philip Cox. Harris pitched fine for the Yanks, but errors and wildness on his part at crucial moments proved to be his downfall. He was relieved by Stansell in the fourth.

Batting stars were Smith and Cox who each had a double and a single for the Cubs, and McGee with two doubles and Harris with three singles for the Yankees.

The second game between the Cardinals and Green Sox was called after three innings, due to darkness, with the Cardinals leading 4 to 3.

Beginning Thursday, June 17, the Little League Clubs will play only one game on Thursdays, Fridays, Mondays and Tuesdays.

It has been learned that they can't play double headers and start at 5 o'clock in the afternoon. Game time in the future will be 5:45 p. m.

## Cubs Beat Cards Thursday 14 to 10

By LON JONES Although outhit 9 to 8, the Cubs rolled over the Cardinals in the second game of Little League activity Thursday. The leading hitter was Jerry Parrish of the Cardinals who collected a single, double, and home run out of four trips to the plate. His home run cleared the left field fence and came with one man on base.

Phillip Cox, Cub first baseman, also came up with three hits, a single and two doubles. Lorenzo Adams of the Cards also got three hits in the slugfest. Black was the winning pitcher and Jones the loser.

The second game was postponed after three innings because of darkness with the Yankees leading the Green Sox 22 to 4 in an error ridden affair.

F. Whiten, slated to start the pitching for the Green Sox, was hit on the head by a pitched ball in the first inning and was unable to take his turn on the mound.

## Name Employees TPL River Crest Power Plant

A list of the men who are employed at the Texas Power and Light Company's new steam-driven electric generating plant on Sulphur river in southern Red River County, which recently went into operation, shows a count of thirty, according to plant superintendent F. M. Bradshaw. The men, the positions they hold and where they live will help local folk get better acquainted with them and help to make them welcome.

Fifteen of the men live in Bogata, nine at Mt. Pleasant, four at Clarksville and one each at Talco and Deport.

F. M. Bradshaw is the plant superintendent and resides in Mt. Pleasant. Three electrical engineers, A. L. Hurt, R. W. Claude and E. W. Rainey, reside in Mt. Pleasant.

There are four shift foremen: R. T. Craig, Jr., Deport; J. T. Rogers, Clarksville; Roy E. Brannon and Irby Joe Smith, Mt. Pleasant.

Four control operators are B. L. Wallis, S. W. Miller and J. D. Carlock, Bogata and W. H. Hill, Mt. Pleasant.

Five equipment operators are T. C. Langley, R. E. Bourland and A. N. Vaughn of Bogata, and George E. Moore and Ralph E. Feagins of Clarksville.

## Peaches Reported Scarce This Year

Each day makes it more evident that Texas has a short peach crop. Growers who are packing U. S. No. 1 grade are finding that many fruits are deformed because of cold damage and fruits with slight defects go into No. 2 and cull grades. This situation lowers the yield of quality peaches still further.

This week Burbank, Elberta, Sullivan Elberta and Halehaven will be available at most grocery stores. All are yellow fleshed freestones of high quality. For freezing, Burbank Elberta and Halehaven are preferred. Growers are receiving \$6 to \$6.50 per bushel for US No. 1 grade 2 1/2 inches and larger.

There are five auxiliary operators, C. D. Cooksey, R. A. Nolan, G. E. Harkey, R. W. Weisinger and J. D. Branch, all of Bogata.

Ray Buchanan is machinist and lives in Talco.

Ira L. Shelley is instrument technician and resides in Clarksville.

Franklin Haynes is laboratory technician and makes his home at Bogata.

D. W. Wood is clerk and resides at Mt. Pleasant.

D. R. Nabors is electrician's helper and lives at Bogata.

R. E. Tillman and Charles C. Buchanan are mechanic's helpers. Tillman resides at Bogata and Buchanan at Mt. Pleasant.

Willie Finley of Bogata, is the janitor.

SAVE 5 WAYS

BY GOING ALL THE WAY WITH ONE FEED

EVERGREEN Startgrolay STARTING... GROWING... LAYING

### No Setbacks! Feed All Ages from the Same Bag!

Startgrolay is scientifically formulated to meet National Research Council's requirements for All ages of chickens. It's never out of season. There's never a worry about over-purchase. With 3 feeds in ONE bag there's never a setback and never a cup of waste... from starting through laying.

### New Digestive Aid Unlocks More Growing Power!

Startgrolay has sensational digestive enzymes that unlock more growing power... convert feed to QUICK growth. With Startgrolay you avoid unnecessary non-profitable feeding before egg profits begin to roll in.

### Takes Less Feed To Satisfy!

Startgrolay is so richly packed with nutrients that your chickens won't stand and eat hour after hour to get satisfied. You notice right away that it takes less feed to balance the nutritional needs of your growing flock and egg-producers.

### Feed 1/3 Home Grains By 4 1/2 Months!

Start adding scratch grains and grits at six weeks. Gradually increase grain so that by 4 1/2 months your pullets are eating 1/3 Startgrolay and 1/3 grain and grits. This means you can save by using your home grains or by buying grains when the market is most favorable to you.

### Save By Getting More Eggs Per Hen!

Save as much as \$50.00 on the cost of raising each 100 pullets. Then, continue saving as much as 1/3 by getting all the eggs your hens were bred to produce... at the lowest feed cost for each egg.

### HERE'S WHAT FEEDERS SAY:

"The Parkin Hatchery and Farm, Shawnee, Oklahoma, is now in its 24th year of hatching and breeding. All of our 6,000 breeders and 4,000 young pullets are fed Evergreen Startgrolay. We started 3,200 pullets 20 days ago and livability has been better than 98%. The new vitamin E supplement (alpha-tocopherol) in Evergreen Startgrolay is important to Parkin chick buyers because it increases the stamina and ability to live."

Paul Silvey, President and Manager

"On March 16th, I bought 449 baby chicks. Out of that lot I raised 435... 257 of which were pullets. I had 60 old hens, which made a total of 317 layers. The pullets started laying at 5 months, and gradually increased in production so that by November 15th, I got 133 dozen eggs per week. This 133 dozen eggs sold at 53c doz., making a total of \$70.49. I used \$33.24 worth of Evergreen Startgrolay and scratch, which leaves a net labor profit of \$37.25."

## Alcorn Denies Key to Peace Held by Avg. Man, At Least He Hasn't Got It

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, seems a little riled up this week. He'll get over it.

Dear Editor: I was fiddlin with my radio the other night trying to get a weather report, you can't always depend on a weather report, but when a man needs a rain a rain forecast is better than nothing, when I accidentally tuned in a speech somebody was making, I never did catch his name, but I was interested in what he said.

Accordin to him, "the average man is the key to peace in the world."

Now first off I'd like to say I have never met an average man, but I think I know what a speaker means by the phrase, it's people like you and me, especially me, and for that reason I would like to disagree violently with anybody who says I'm the key to peace in the world. I don't have a thing to do with it.

All the wars I can remember, I didn't even know was happen-

ing till I read about it in the papers, and all the armistices I can remember, I didn't know was signed till I read about that too. They can't pin it on me.

You take the present trouble in Indo-China. Why, in the last fifteen or twenty years I don't guess I've spent fifteen seconds thinking about that country, don't even know which direction it is from here, and anybody who is dependin on me to bring about peace over there has sure got his head in the clouds and his foot in his mouth at the same time. If I ever had the key to peace in Indo-China, I blamed sure have misplaced it. I've gone through my brain and my pants pockets too, and it ain't here.

Maybe in the Revolutionary War the average man had something to do with it, maybe in the Civil War, when a man with a single-shot rifle was as well armed as anybody else, but nowadays it's the men who control the bombs and the airplanes that have the key, and I ain't got a bomb or an airplane to my name.

I am afraid that big shots cause

wars, not little shots, and I decline the honor of the responsibility.

I'm sure in favor of peace, I've got more than I can do fightin insects, not to mention somebody on the other side of the world I don't even know their last names, and if the world is looking to me to solve its problems, it had better lay in some more headache powder. Yours faithfully, A. A.

## Texas Farm Cash Income is Up

AUSTIN.—Texas farm cash income for the first four months of 1954 totaled almost \$442.6 million, 1 per cent more than in the same 1953 period, the University of Texas Bureau of Business Research reports.

A large factor in the rise was a 22-per-cent increase in cotton revenue (up \$23.4 million). Other increases included peanuts, up 115 per cent (\$1.5 million); oats, 77 per cent (\$688,000); sheep and lambs, 89 per cent (\$4.3 million); cattle, 1 per cent (\$900,000); and fruits and vegetables, 15 per cent (\$2.7 million).

Good moisture conditions in the South Plains, most of the Panhandle and nearly all of North and East Texas brightened Texas' general agricultural outlook, the Bureau reports. Wheat prospects are improved and an increase is expected in vegetable production.

Mrs. Tommie Cecil and family of Greenville Sunday. Mrs. Sims remained for a week's visit.

Mr. and Mrs. E. C. Watts and two daughters, Patricia and Mrs. Bill Davenport of Hamlin, arrived here Saturday for a visit.

Eddie, small son of Mr. and Mrs. Grady Dodd, is confined to his home with measles.

Nelson Eddie Watts is reported having had mumps recently.

Cheryl Hawkins is reported confined to her home with mumps.

Justice of the Peace W. R. Baxter officiated at the wedding Saturday of Mrs. Lucille Vern Wright of Clarksville and Edd Williams.

Mr. and Mrs. Enoch Black Jr. of Ft. Worth, visited her father, W. L. Wicks and family and his parents, Mr. and Mrs. J. E. Black, recently.

Mr. and Mrs. John P. Boyd of Lubbock, visited W. R. Baxter, Saturday.

Mrs. Burl Duffie and son accompanied Mr. and Mrs. J. B. Roberts and Patsy Gail to Denver City and visited Mr. and Mrs. Babe Miller and family.

Mr. and Mrs. Marvin Ward and son, James of Bogata, enjoyed an ice cream supper Tuesday night at the home of Mr. and Mrs. W. O. Bolen and Miss Joyce Bolen.

A3c Babe H. Bowers and A3c Oscar Wayne Bolen visited Oscar Wayne's parents, Mr. and Mrs. W. O. Bolen and Joyce and Mr. and Mrs. J. W. Kiril and family over the week end.

Mr. and Mrs. Howard Potter and children moved Saturday to Velasco, where he is employed.

Mr. and Mrs. Leon Gable and family visited her mother, Mrs. J. F. Dandreth of Clarksville, Sunday. Other visitors there were her sister, Mrs. L. E. Dryden and family of Dallas.

Miss Jean Ann Gable left Sunday for Dallas, where she will be employed.

Mr. and Mrs. J. B. Ham and family of Levelland, visited Mrs. Grady Rhodes and family Wednesday at the home of her mother, Mrs. T. A. York.

Safe living is no accident. Accidents happen when safety is forgotten.

## Shivers Will Open Campaign Monday

Governor Allan Shivers will open his 1954 campaign with an old-fashioned political rally at Lufkin, his birthplace, on Monday evening, June 21st. The Governor's opening address will be carried over a state-wide radio broadcast from 8:30 to 9 p. m.

With the formal opening of his campaign, the Governor will begin a series of trips throughout the state during which he will review the accomplishments of his administration and outline future improvements which are a part of his plans for a greater Texas.

## C. OF C. SIGNS UP ENTIRE TOWN

Atlanta, over in Cass County, has hung up a record for all other towns to shoot at—their Chamber of Commerce has 100 per cent membership.

Every business house in Atlanta, large or small, now belongs to the chamber. An intensive membership drive, just concluded, added 112 new names to the rolls, bringing the total up to 319. This includes 168 business and 151 individual memberships.

GREEN WRAP PRICES BELOW THREE CENTS

Bogata area did not grow many tomatoes this year, and the price of three cents or less per pound is not calculated to encourage those who did.

Price of pink tomatoes is reported satisfactory.

## Value Texas Farm Land Drops

AUSTIN.—Texas farm land values dropped sharply in the past year, the University of Texas Bureau of Business Research reports.

March, 1954, values were 7 per cent under comparable 1953 levels and 4 per cent under last November, the Bureau declares. Estimates are based on U. S. Department of Agriculture figures.

## CLEAR THE DECK!

### VISIBILITY GOOD!

The evidence mounts that our nation's economy is accomplishing a smooth transition from production for destruction—war—to production for plenty—peace.

There is every indication, say those who study the economic trends and the facts and figures, that this will be on the whole a good year for everybody—exceeded only by 1953, which was a record year.

Despite the outlandish schemes of the socialistic and political spenders for throwing the economy off course, despite the depression howlers, the signals are set for Full Speed Ahead!

ties on Memorial day, a lot of people are going to be smart and stay home on July 4, which falls on Sunday and the next day observed as a holiday in many cases. It is high time law enforcement officers started enforcing highway laws and the newspapers started calling these murderers by their real names.

Bob Johnson was admitted to Mt. Pleasant hospital for medical treatment on Thursday.

### OH, COME NOW

Albert: "The navy must have relaxed its rules on size."  
Filbert: "How so?"  
Albert: "It tells here about a sailor who went to sleep on his watch."

In 1929 we were demanding a chicken in every pot. Later on we demanded a two-car garage, and now we are willing to sign off with a television set or a radio in every room.

## EDITORIALLY SPEAKING

BURT LOCKHART  
in Pittsburg Gazette

Prosperity teaches us lessons in extravagance.

Your town can always use a pat on the back.

We don't believe everything we hear over TV. Fact is, it is hard for us to believe TV.

The push-button era is just about here. Better get your fore-finger ready for the push.

Modern burglars no longer waste time knocking off safe knobs. They take the safe.

The best thing that could happen to some people would be to lose their temper—and never find it.

A naughty exchange observes that a lot of women are trying to see who can get the most out of an evening gown.

The McCarthy investigations have proved at least one thing: that there are more ways than one to conceal the truth.

A pair of dimples and coquet-  
tish eyes have been known to make a fool out of a man quicker than a sack of new-made money.

The Texas editors who are to meet in their annual convention at Fort Worth June 18-19 are promised a helicopter ride. Most of the editors we know have been up in the air a long time and would like to get down.

The penitentiaries are full of people who claimed the world owed them a living and who proceeded to take it at the point of a gun.

With the aid of electricity, five-day weeks and holidays, it seems sometimes that the trend of the times is toward doing away with work.

Television has boosted the busi-  
ness of clothiers and dressmak-  
ers. Performers over the radio never worry about their clothes, but now when they appear on TV their sponsors demand they dress like a million dollars. Luckily, only TV performers can afford such extravagances.

Old fiddlers are not extinct, although the ranks have yielded somewhat to the encroachment of the violinist. Thirty-odd old fiddlers engaged in a contest at Athens last week, presenting a repertoire of tunes that would have put a Stradivarius to shame.

## HELP THE HENS BEAT THE HEAT

College Station.—High temperature and low humidity are two of the greatest enemies of good egg quality. With warm weather here again, poultry marketing specialists warn poultrymen that unless extra precautions are taken the quality of their eggs will drop rapidly. For producers who sell eggs on a graded basis, a drop in quality means decreased consumer demand.  
 Tips for top egg quality:  
 Keep the eggs clean. Use clean, dry nesting materials and keep the birds confined on wet days to avoid mud-tracked nests.  
 Gather the eggs two or three times a day in a wire basket. This allows aid to circulate, quickly carrying off the heat.  
 Store the eggs in a cool, humid, but well ventilated place. And, market regularly and often.  
 Grade AA eggs will become inedible in three days at 98 degrees, in eight days at 77 degrees and 45 days at 44 degrees. Eggs usually will remain Grade A for six months if held just above freezing.
