Six Hospitalized When Truck Hits Tree at Mustang

Six people were hospitalized Thursday morning of last week after the truck in which they were riding got out of control and crashed into a roadside tree near Mustang bridge between Bogata and Johtown.

The casualties, Mrs. Emmett Pratt of Post Oak, Mrs. Dan Johnson and small daughter, Lisa of Cross Roads community, north of Detroit, Mrs. Dixie Wood and sons, Jimmy and Joe Lynn, aged about 7 and 10, of Paris, were carried to a Paris hospital by an ambulance from Bogata Funeral Home.

Mrs. Johnson, daughter-in-law of Mrs. C. C. Newsome of Deport, owner and driver of the vehicle, suffered a concussion, and her daughter a slight concussion. All occupants received numerous cuts and bruises and were treated for shock. Mrs. Johnson is still a patient in the hospital, Lisa was dismissed Saturday and is in Deport with her grandmother, and the others Friday. They were enroute to Mt. Pleasant for the Johnson's other daughter, Phyllis, who was visiting in the Ralph Crawford home.

Constable W. J. Corbell of Bogata, who arrived at the scene of the accident in time to clear traffic for the ambulance, said the accident apparently occurred when the vehicle developed a flat tire on the right front wheel. The truck was reported demolished and the tree broken down.

Mrs. Harold Trimble has returned from a hospital in Mount Pleasant, where she was a medical patient.

Miss Linda Haynes has returned after visiting her sister, Mrs. Max Reed and family at Andrews.

Simmons Will Visit Titus and Franklin Cos.

A ten-day helicopter tour by Kenneth W. Simmons will include Talco at 11:30 a. m. on Tuesday, July 3, when the young candidate for Congress takes his personal campaign to Titus County.

Simmons, who kicked off a month-long helicopter tour of the eleven-county district last week, will begin the day with a visit to North Mt. Pleasant and make two Mt. Pleasant stops, the last ones of his ten one-hour speeches. He will speak his Talco in the downtown area.

In his series of speeches, Simmons will discuss segregation, old-age pensions, the foreign aid program, state and individual rights, and the farm program.

"Briefly," Simmons said, "I am for equal but separate schools for both white and colored people, a minimum of \$55 every month for all persons over 65 years of age, elimination of the foreign aid program, and help for the farmer."

Simmons also explained that "federal encroachment on state and individual rights must be halted."

Ole Man Summer Turns On Heat

Ole Man Summer has turned on the heat since his arrival on June 21. The mercury has soared upward to 97 degrees for five days to chalk up the hottest weather this year. Thermometers have registered in the 90's for the past two weeks.

The hot, dry weather is beginning to show on crops and pastures. A good rain is badly needed for crops and to replenish water supplies.

June this year has produced more moisture—.03 inches—than fell in the entire month last year, the long dry spell that has extended from June 10 nearly matches last year's period.

Temperatures were slightly cooler in June last year. The mercury failed to register above 95 degrees the entire month. During the current June, the weather has already furnished five consecutive days with temperatures over 95.

A cloud out of the northeast brought a cooling breeze to this section Wednesday night, bringing some relief from the 100 degree temperature registered during the day. This was the highest reading this year. Along with the drop in temperature came showers Thursday morning.

Government rain gauge in Deport showed .37 of an inch had fallen Thursday morning by 10 o'clock. Skies were still overcast, and rain was falling then.

East Texan Killed In Highway Crash

A Cookeville man was killed and his wife was critically injured Monday night when their car, sideswiped by another, veered off Highway 67 east of Mt. Pleasant and struck a tree.

The other car, occupied by two Mt. Pleasant youths, was being pursued by city police at the time of the accident.

Lester Roseville, 56, was killed. His wife, Bessie, was taken to Titus County Memorial Hospital for treatment of injuries.

The occupants of the speeding car were arrested a short time after the accident. Dist. Atty. Bird Old said they have been charged with failure to stop and render aid.

Little League Plays Four Games At Humble Park

In Little League play June 21, the Cardinals beat the Cubs 31 to 1, and the Yankees beat a scrub Green Sox team 23 to 6 in a game forfeited by the Green Sox because enough regular squad members were not there.

In the first game the Cubs could not do anything right and the Cardinals could do no wrong. Ronald Gordon pitched the whole game and allowed only one hit, a double by Stephen Buchanan that batted in the only Cub run. Buchanan was the losing pitcher. The leading Card hitter was Billy Dixon with two singles, a double and a triple.

The night game saw the Yankees slam out 11 hits to the Green Sox' 6 and scoring 11 runs in the fifth inning. The winning pitcher was Miller and the loser was Gues. Matlock and Miller collected three hits each for the Cardinals and G. Screws and G. Legate had two apiece for the Sox.

On Tuesday, the 26th, the Yankees shut out the Cubs 15 to 0 and the Green Sox beat the Cardinals 17 to 1. In the first game Lonnie Verble led the Yankees to their victory with a two-hitter that put the Yankees in a tie with the Cubs for third place in the standings. Verble struck out 9 men in the four innings of pitching and was backed up with errorless playing by his teammates. Gary Howard got three hits for the Cardinals and Nelson and Matlock had two each. For the Cubs, C. W. Fry had a single and a double for the only Cub hits. Donnie Screws pitched for the

Texas Press Association held its annual meeting in Amarillo last Friday and Saturday, but this editor who has the honor to be a past president, was unable to attend. It is the third convention of the Association that we have missed in 43 years. Friendship and inspiration of Texas newspaper folk have meant much to us since we joined the organization at San Antonio in 1913.

Tomato growers in this area are lucky this year. Their crop is larger and better than the Jacksonville area and prices range from 8 to 12 cents. Only a small acreage was grown in the Bogata area this year, due to the low prices that have prevailed in the past. The grower who plants only small acreage each year, regardless of price, appears to be the only one who can afford to grow tomatoes.

KENNETH SIMMONS ANNOUNCES FOR CONGRESS, 1ST DISTRICT

KENNETH W. SIMMONS

"I wish to take this opportunity to make my formal newspaper announcement for U. S. Representative, First District of Texas. I announced for this office over television on Jan. 19, 1956 and have been actively campaigning since that time: I am 35 years of age, married, and have two children. I was born at Lake View, Iowa, the son of Frank Simmons, a farmer and merchant. My family moved to Texas when I was one year old and my father died when I was eight years old.

The depression came the next year and I started working then and have been working ever since, supporting my mother and family. I graduated from Sunset High School of Dallas in 1940 and attended S. M. U. night school and The University of Texas until 1943 when I entered the Air Force. I served three years during World War II and was a prisoner of war in Germany from October of 1944 until the end of the war in Europe."

After the war Kenneth Simmons returned to Avinger, Cass County. In 1946 he married Miss Geraldine Biggs of Jefferson, Marion County. He has served as Mayor of Avinger for five years; was manager of the Avinger Chamber of Commerce five years; chairman of the East Texas Defense Area Committee five years; a school teacher in the Veteran's program three years. Mr. Simmons is a member of the American Legion. He is a member of the First Methodist Church of Avinger, having taught Sunday School for six years and has been a member of the Board of Stewards the past seven years. Kenneth Simmons is a member of and actively participates in numerous civic organizations and undertakings affecting his community and area.

"This will be my second attempt to unseat the veteran Congressman Wright Patman who has held the same office in this District for 28 years. Since the lot 150x200 feet on Mt. Vernon highway curve in Bogata. Also vacant business lot on Main street in Bogata, just south of Dozier building. The vacant Dozier brick is for rent or lease. Irene Garrett. 22-dbt-c

planks of my platform:

1. Equal but separate schools for white and colored. Kenneth Simmons is a staunch supporter of continued segregation in Texas. He has spoken out against the Supreme Court and has pledged his vote and work, when elected, toward overriding the Supreme Court decision. He has also pledged to work for interposition and an amendment to the Federal Constitution to preserve States rights.

2. A minimum of \$50.00 per month pension to all persons over 65 years of age. Simmons claims the present old age assistance program is a disgrace to the State of Texas. "I am for a flat pension of at least \$50.00 per month to all people over 65 years of age, without inspections or supervisions of any kind. I think it should be paid to our older citizens as a token of appreciation for their service to our generation and should not be referred to as charity."

3. Elimination of domestic aid to foreign countries. Kenneth Simmons is opposed to most of the Foreign Aid Program. "We are giving billions of dollars to foreign countries to build dams, harbors, canals, power plants, and other projects. I do not believe that our Nation can buy friendship and I feel that most of this program should be done away with in order to reduce taxes."

4. Reduction of Taxes. Kenneth Simmons is for a large reduction in taxes. "There is a great deal of waste and duplication in Federal Government operations. Elimination of most of the Foreign Aid Program alone would save billions of dollars per year. If we are unwilling to reduce taxes, Federal spending, and our National debt now, we cannot expect our children and future generations to reduce them."

5. States Rights. Kenneth Simmons is opposed to unlimited powers of the Federal Government. "I believe, as the first Democratic President Thomas Jefferson believed, that government is better for the people and more economical on the state and local level. Recently, we have been pursuing a dangerous practice of increased Federal controls. For example, the rights of the people and the States have been challenged by the National Government in the Segregation decision. An attempt has been made to take away our tidelands. Socialized medicine is a constant threat in Congress. The Federal Government is now regulating Texas natural gas. The Supreme Court recently knocked out State sedition laws. This trend in government must be stopped and the place to stop it is at the polls next July 28, 1956."

6. Farm Program. Kenneth Simmons believes that the farmer is the backbone of this country. When the economy of the farmer suffers, the entire country will eventually suffer. "I am in favor of soil bank legislation that will assure the farmer a reasonable profit for his labor and at the same time cut out surpluses

Achin Alcorn Wants to Be Treated As Well As the People of Egypt

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, is confusing international problems with his own, his letter this week indicates.

Dear Editor: I don't always follow too accurately some of the news I read in the newspapers that turn up out here, although I don't know why a reader should be so concerned with accuracy when editors frequently aren't, if you get what I mean, but at any rate I was reading an article last night that has me puzzled.

According to it, there's a race on between the United States and Russia to see which one can furnish the most money to build a big dam in Egypt, so that country can irrigate its land and produce more.

Now I'm not going into the economics of the United States helping somebody else produce more agricultural products when we're about to choke to death on a surplus here at home, but what interests me is the contest angle. Naturally, I wouldn't be interested in a contest between the

United States and a foreign country to see which one could say furnish the most money to help me dig a water well on my farm out here, that'd be impractical, but in order for the United States to sort of sharpen up on its training in this line, why couldn't the Republicans and the Democrats get in a contest to see which one could furnish me the most money to dig a water well?

If the Democrats offered to loan me the money at 4 per cent to dig the well, the Republicans could counter with an offer of 2 percent, to be countered by the Democrats with an offer of no interest, to be countered by the Republicans with free money, to be countered by the Democrats with an offer to dig the well, put in a pump, install a hot water heater, and furnish a ten-year supply of soap and towels.

The whole purpose of this, of course, would be to keep me on one side or the other, the same as is the case with Egypt, and while I don't know anything about Egypt, I know something about myself and I figure my sentiments would lie with the side that made the best offer until the

P. O. Department Increasing Length Rural Mail Routes

It appears that the Post Office Department has established a policy of not hiring new rural mail carriers to replace those who die or retire. Other carriers take over portions of the rural route served by the retired or dead carrier.

This recently happened on a route out of Clarksville that served the Cuthand area. Such change gave Bogata Route I 61 additional boxes to serve and other Clarksville carriers were given the remainder of that rural route.

With the recent retirement of a Bogata rural carrier, there is speculation as to whether Bogata will lose the route.

We know of two rural routes in Titus County that will be divided up this fall if present plans of the Postoffice Department are carried out.

When rural mail routes were established many years ago, most of them were about thirty miles long and they each served from two to three hundred farm families.

There were no good roads in those days and a carrier used a team of horses hitched to a buggy, or horseback, when roads were impassable.

Loss of rural population to industrial cities reduced the number of farm families served by rural carriers by nearly 50 per cent. Good roads have reduced the man-killing job of the mail carrier from eight and ten hours daily to two or three, so the P. O. Department is increasing the length of rural routes from 30 to 50 and 60 miles.

Carriers are paid 9 cents a mile for their travels, and it now looks like there will be fewer but better paid rural mailmen.

well ran dry, and if you ask me that's a pretty expensive way to win friends and keep allies, especially when they're in no better shape than me and Egypt, but you've got to remember I sure could use a new water well.

Yours faithfully, A. A.
Mr. and Mrs. Donald Hopkins of Bryan, came to spend a few days with his parents, Mr. and Mrs. O. L. Hopkins.

Junior Gets "Pinned" Down

Junior Baker and friends are all set for their circus. Look for their advertisements on neighborhood trees.

The kids have had problems in staging the event. The biggest was the admission fee. Junior wanted to charge five cents, Mrs. Baker thought it would be much nicer if they charged five pins.

So Junior held a meeting with his Directors—then told his mother they'd taken her advice. The ads now read: Giant Circus in Baker's Backyard. ADMISSION FIVE PINS PLUS FIVE CENTS TAX.

From where I sit, that's a cute example of a mighty important point—if you want things to turn out your way, then you had better let the other fellow have his choice, too. For instance, if your taste should happen to run to, say, iced tea... then you owe it to yourself to see that those who prefer beer, buttermilk or what-have-you get to enjoy their favorite beverages, too. After all, turn about's fair play.
