We don't know of a better time than the New Year to give recognition to our many friends who, through their consideration and patronage, have made it possible for us to enjoy a very successful year.

We do not measure success in a material way entirely, but from the standpoint of friendships maintained, new acquaintances made and service rendered to the many people whom we have had the priviledge of serving during the past twelve months, and whom we hope to keep as our friends during the coming year.

We have set our goal to serve you more efficiently in the future and we trust that our efforts will meet with your approval.
