Old Archie sat in the State Senate for twenty years, ran a rip-roaring wide open county back home in Duval where not a dog barked without his permission. He controlled the courts, the police, the schools, the rackets, every-thing in the county. He manipulated elections with the dexterity of a gambler with a deck of cards.

There were sporadic revolts "One of these days the blankety against his rule, of course, but these were put down ruthlessly. On primary day in 1912, for example, three men were shot to death in the street in front of the Courthouse. Two years later a determined attempt was made by Parr foes to clean up Duval by the simple expedient of abolishing the county altogether. It didn't work. In 1915 the Texas Supreme visiting a friend in jail for mur-Court ordered an audit of the county's books and the Court-house burned down after the der, a friend who was acquitted quickly when the case went to a jury. Parr's father, old Senator Archie Parr, and the son that document the Duke of Duval ruled with the absolute authority of a Medici.

Thus it was the Constitution as much as Parr himself, that posed the serious obstacle to Attorney General John Ben Shepperd in his march on the Duchy of Duval. He had to stay carefully within its obsolete framework while fighting against forces that cared not one snap of the fingers for all the law in Texas.

Old Archie's son, the present Duke of Duval, grew up in this atmosphere of corrupt politics. He knew of the liquor-laden pack trains that came into the county during the lush days of prohibition. He knew of the other things that went on, and he learned well. His playmates were the Latin children of San Diego. Spanish, not English, was his mother
