## Man, Wife Dead in Dual Shooting At Mt. Pleasant

Mr. and Mrs. Eddie Wayne Reed were victims of a double shooting at Hotel Stephens in Mt. Pleasant at 10 a. m. Saturday.

Mrs. Reed had been a guest of the hotel for two days. Reed left an elevator and asked the operator to wait for him. When he knocked on his wife's door, Mrs. Reed opened the door and opened fire with a revolver. Four shots struck Reed.

Mrs. Reed then turned the gun on herself, shooting herself in the chest. Both were pronounced dead at the scene of the shooting. A verdict of murder and suicide was returned.

Reed, 23, was the son of Mr. and Mrs. Edmond Reed of Mt. Pleasant. Mrs. Reed was 39. Her maiden name was Evelyn Nelson. Her father was a former Mt. Pleasant area mail carrier.

The Reeds had been married about two years and were separated recently.

## Jr.-Sr. Banquet Held Saturday

The Junior-Senior banquet was very beautiful and artistically arranged Saturday night in the school cafeteria. Their motto, "Hitch Your Wagon to a Star" was carried out in decorations and menu. ## Pastures Fine, Cattle Prices Up

Pastures, ranch land and hay meadows have made vigorous grass growth during wet March and April and excellent grazing is provided for livestock. Cattle prices are up, and receipts at cattle markets are lower.

Not much corn has been planted, due to two months of wet weather, but other row crops will take the place of corn.

Cotton farmers are a month behind with their planting, due to wet fields, but ten days of sunshine will make a whale of a difference.

Sunday guests of Mr. and Mrs. Kenneth Pirtle were her sister and children, Mrs. Russell Whitney, Peggy and Johnny of Minter.

Titus County squirrel hunters  
put out when a report was  
blinded in the Dallas News  
at there would be no spring  
outing in Titus County. This  
newspaper published a correct  
report of the squirrel season  
which opened in Titus May 1 and  
will continue thru July 31. Season  
is closed in Red River County.

Protracted rains in April caused  
more mosquitoes to develop  
than we have had in a long time.  
A trip thru Sulphur bottom on  
U. S. 271 just as dark closed in  
on Tuesday evening spotted the  
editor's car with dead mosquitoes  
until he had to use the  
windshield washers and wipers  
to see to drive. Walk thru weeds  
or grass and they will fog. Get  
weeds and grass cut and standing  
water coated with oil as soon as  
possible to get rid of them.

As a second door neighbor to  
Larry the first two years after he  
took up the sax, we marveled at  
the way he stuck to his practice  
and the progress he made. It re-

## ALCORN WOULD RISK MONOTONY OF SAME PRICE FOR CALVES

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur discusses the cattle business this week, a subject he's as much an authority on as he is the international situation, if you follow us.

Dear Editor: I didn't have anything to do the other afternoon, or rather I had plenty to do but wasn't interested, and went into town to sort of break the monotony and while I was there I borrowed a newspaper off the cafe counter and the first thing that caught my eye was an article about a proposal an agricultural expert has for stabilizing, as he calls it, the cattle business.

According to him, if the oil industry can prorate oil production, which as I understand it means control the amount of oil anybody with an oil well can pump out in any one month, and as maintain the price of oil at \$3 a barrel, then farmers and ranchers can prorate the cattle business, control the number of calves being raised, and hold the price of a steer at 33 cents a pound.

However, he went on, this might get awfully monotonous, selling cattle at 33 cents a pound year after year, and might detract from the present system whereby a man doesn't know when a calf is born what it'll be worth at selling time. He said it might take the adventure out of cattle raising.

Well, now, I'll tell you, getting 33 cents a pound for a steer might get monotonous to some people, but as far as I'm concerned it ain't near as monotonous as getting 15 cents one year, 12 the next, 18 the next, etc.

To some people, raising a calf to market age may be an adventure, but as far as I'm concerned the adventure comes after you sell him for a profit and start figuring what you'll do with the money.

I know from experience that there's a certain amount of adventure in raising cattle, even scrub cows, in looking after them,

watching the calves grow while you sit in the shade and speculate, figuring when it's time to load em up and head for market, but the big adventure comes when you get your check, and one of the most monotonous things on earth is getting one smaller than you figured.

If this fellow can figure out how to guarantee me a price of 33 cents a pound for calves, year after year, tell him to go ahead, I'll bear up under the monotony of it. Yours faithfully, A. A.

## School Students Receive 3,369 Free Polio Shots

Second series of free polio vaccinations for Titus County school children was completed Monday.

The Medical Advisory Vaccine Committee has given free of charge 3,369 shots of vaccine to Titus County school children since March 20.

Doctors advise that this was a real effort to stamp out polio in Titus County, but the main load of prevention, in the future, must be carried on by parents and parent-teacher organizations, in the schools, to encourage every school child in the future to be vaccinated, before he starts to school.

Doctors are urging young parents to be vaccinated. Polio is still a threat to young parents, less than 40 years of age, they said.
