HOUSE COMMITTEE REPORT ON APPROPRIATIONS IN THIS AREA

The House Appropriations Committee has reported the Public Works Appropriations Bill to the House of Representatives with the following recommendations for the Red River Valley projects:

Ferrells Bridge Dam and Reservoir (construction), Cypress Creek, \$3,294,000.

Cooper Dam and Reservoir (planning), Sulphur River, \$275,000.

Bank Stabilization and Levees below Denison Dam (construction), Arkansas, Louisiana, Oklahoma, Texas, \$300,000.

Maniece Bayou (construction), Arkansas, \$146,000.

Hugo Dam and Reservoir (review study), Kiamichi River, \$25,000.

Review report for bank stabilization below Denison Dam, Arkansas, Louisiana, Oklahoma, Texas, \$17,400.

Total, \$4,057,000.

Eliminated from the Committee's recommendations were the following items requested by witnesses appearing before the

House and Senate Committees on May 16 and 17:

Cooper Dam and Reservoir (construction), Sulphur River, \$300,000.

Denison Dam and Lake Texoma (maintenance and capital recreation improvements), Texas and Oklahoma, \$250,000.

Walnut Bayou (construction), Arkansas, \$200,000.

Barkman Creek - McKinney Bayou (construction), Texas and Arkansas, \$200,000.

Bank stabilization and levees below Denison Dam, Arkansas, Louisiana, Oklahoma, Texas, \$1,000,000.

Overton-Red River Waterway (planning), Louisiana, \$300,000.

House floor action is expected some time next week. The bill when then go to the Senate, where, we believe, a more liberal action will be taken, particularly in view of Bank Stabilization, Overton Waterway, Cooper Dam, and other projects, according to L. R. Matthias, Executive Vice-President of the Red River Valley Association.

Jimmy Thomas Hurt In Car Accident

Jimmy, son of Mr. and Mrs. J. Thomas, who with his mother, sister and brother are visiting her parents, Mr. and Mrs. H. D. Kelley Sr., was struck by a car while riding his bicycle on FM road 71 Saturday evening.

He was riding on the edge of the highway when a car came along driven by Mrs. Tommy Rolf. She sounded the horn to warn the child and instead of him pulling into the right, he went to the left directly into the path of the car. Mrs. Rolf tried in vain to miss the child.

Wilton Kelley, great-uncle of the child, living nearby took him to Talco Clinic where he is recuperating from slight concussion.

Scotty Wright's Finger Cut Off

Little Scotty Wright, small son of Mr. and Mrs. John D. Wright, received injury to his left hand when he cut the end of his second finger off near the first joint. Shack, the maid, had taken the three smallest children of Mr. and Mrs. Wright into the yard to play. While she was locking the gate to keep the children inside, Scotty caught his hand in a push-mower and received the injury. He was rushed to Talco Clinic, where the end of the finger was sewed back in place. He is recuperating.

Mr. and Mrs. M. J. Spruill have been vacationing at Padre Island, Brownsville and Port Isabel. They also visited their sons and families in Freer.

City of Talco Buys Fogging Machine To Fight Insects

The City of Talco, with the aid of contributions from the Lions Club, merchants and individuals, has purchased a fogging machine to be used in freeing Talco from flies, mosquitoes and other insects that high winds blow in from Sulphur and White Oak bottoms, according to Mayor Jerry Jones.

"This machine cost \$1800 and we do not have enough money to pay for it and may be forced to sign a note if contributions are not more liberal," added the mayor.

"We hope to be able to interest neighboring towns in doing fogging work for them with this machine and in that way help pay for the insecticide we use in spraying Talco. The City Commission is of the opinion that if it prevents any cases of typhoid and malaria it will be well worth the money invested," Jones said.

Bagwell Oil Test Has Good Show

Possibilities of another oil well near Bagwell became evident with a core test that showed well-saturated sand.

Charles Wair, owner of the Big K Drilling Co., Odessa, said the test was taken from the Walnut Sand at 1808-1811 feet and showed possibilities of being as rich as a producing field to the south.

Wair pointed out most wells of the area were from the Paluxy Sand and this well appears to be a producer from a different pay sand.

The well, on the Mary Garson land, is being drilled by Big K Drilling Co. and Paris interests.

Boy Scout Camp Opened Sunday

Camp Glover, Boy Scout Camp of NeTseO Trails Council, opened Sunday, June 16, with 14 Troops and 142 campers.

James Griffin, camp director, is in charge of the full camp. He has a fine staff assisting him in Don Knecht, Commissary, Don Maness, Aquatic Director, Joe Carpenter and Claude Rayburn, Program.

Mrs. Monie Hargrove of Mt. Pleasant, was a patient last week in the Talco Hospital and Clinic.

Needs Clothing, Food For Poor

Mrs. Edna Swatsell, home ec. teacher in Talco school, is visiting in various communities in this area, checking projects the students have undertaken for summer work.

In some homes she visited she found that they needed food and clothing. If anyone desires to contribute to those needy families call her at the school and the articles will be picked up and delivered where they will do the most good.

Safeway Stores Inc. Fined \$105,000, In Federal Court

Fort Worth.—Safeway Stores, Inc., was fined \$105,000 in Federal court Tuesday for violation of federal anti-trust laws. Two officials of the concern were given one-year probated prison terms and fined.

Judge Joe Estes assessed the largest fine ever levied in the history of federal anti-trust cases, said Miss Margaret Brass, who headed the government prosecution for the Department of Justice's anti-trust division.

Lingan Warren of Hillsborough, Calif., and New York, was fined \$75,000 and given two one-year prison sentences probated for one year each, to run concurrently.

Warren is a former president of the concern and is now a consultant with a percentage of the chain's profits.

Earl Cliff of Dallas, manager of the Dallas division of Safeway, was fined \$7,500 and given a one-year sentence probated for one year.

13 Day Production Oil Allowable

Austin.—390,449-barrel cut in Texas oil allowable for July, one of the largest slashes on record, was ordered Wednesday by the Railroad Commission.

An unprecedented 13-day producing schedule was set for the state's oil wells compared to 15 days in June. The new premise-schedule will average 3,027,786 barrels a day. The all-time top allowable for Texas was 3,821,426 barrels a day the final week of March.

Heavy importation of foreign oil is responsible for the big slash.

Walter King Will Retire As Bogata PM On June 30

Walter King, Bogata postmaster for the past 15½ years will retire from the service June 30. The Postoffice Department has not announced the name of his successor, and there are several applicants.

The affable postmaster turned in his resignation several months ago, but has just been informed that he would be relieved at the end of this month.

King was named postmaster on Jan. 15, 1942. He could still have served 4½ years before age would have forced his retirement. He was born at Fulbright March 22, 1892 and has lived at Bogata since 1914. He first worked in a grocery store and when World War I came along he served the colors, returned to Bogata and married Miss Nora Sloan in October, 1920. Three children were born to them: Ed King who resides at Katy, Mrs. Charles Whistler of Colorado Springs, and Mrs. Glenn Seitz of Dallas.

King operated a gin at Bogata for a number of years, resigning that position to take the postmaster-ship. Asked if he had any plans for the immediate future, he stated that he did not, although Mrs. King had suggested that their home needed a new coat of paint, and that he might get caught up on his fishing.

When asked for a statement to be used as a direct quote, he said: "I have made Bogata just as good postmaster as I know how. I have made some mistakes, as all of us do, and have tried to correct all that I could."

Crabb Will Drill North of Deport

The Mt. Pleasant office of the Texas Railroad Commission announces that Dr. Madison P. Crabb of Greenville, has made application for a permit to drill a wildcat test for oil to a depth of 1500 feet in the Bentson survey, 16 miles north of Deport.

SNACK SHOP CLOSED FRIDAY

The Snack Shop on Highway 271, owned and operated by Mrs. G. A. Norwood for a number of years, closed on Friday for a few months. Purpose of the closing is for a much needed rest.

Mr. and Mrs. Ervin Hooks were fishing on Narorws Lake, in Arkansas over the week end.

Lions to Install Newly Elected Officers June 25

All members of Talco Lions Club are urged to be present at the next meeting on Tuesday, June 25, when new officers will be installed and the matter of suspending meetings until the second Tuesday night in September will come up for a vote. The meeting will be held at 6:30 p. m. at Miller's Cafe.

Officers to be installed are Frank Sloan, president; V. L. Taylor, sec.-treas.; S. O. Loving, 1st vice-pres.; E. W. Smith, 2nd vice-pres.; Lon Jones, 3rd vice-pres.; L. G. Adams, Lion tamer; Jerry Jones, tail twister; Dr. E. L. Miller, A. G. Norwood, Felix Jones, H. V. Bonham, directors.

W. T. Mauldin Rites at Cuthand

William T. (Bud) Mauldin, retired merchant and farmer of Cuthand, died at home Tuesday after illness.

The funeral was set Thursday at 2 p. m., conducted by the Rev. M. R. (Buddy) Burgess at Cuthand Methodist Church, and burial at Cuthand.

Born at Cuthand, July 29, 1875, Mr. Mauldin was a son of the late Mr. and Mrs. W. A. Mauldin. He married Miss Elizabeth Provence, November 22, 1893.

She survives, besides these children: Sam H. Mauldin, Dallas; Mrs. A. C. Underwood, Clarksville; Mrs. Clyde Williams and Mrs. Henry Parchman, Houston; 13 other descendants, and these brothers: Frank Mauldin and Andrew Mauldin, Bogata, and Dover Mauldin, San Angelo.

Betty Ann Green Drowned Friday Near Detroit

A 12-year-old girl, Betty Ann Green, drowned in a farm pool at her home near Detroit Friday about 4 p. m., while her younger sister ran for help. Her sister, Mary Ann, said they were paddling about the pool on inner tubes, when Betty told her she was going to swim out into deeper water, where she sank.

The sister ran to call her mother, Mrs. W. M. Green, who went to the highway near their home for help. Word spread into town and several men were soon diving into the pool searching for the girl's body. It was finally located by Dale Adams. Meantime, an ambulance had been summoned from Paris and its resuscitator was used, but the girl apparently had been dead some time. Justice of the Peace King was called to make official inquiry.

The girl was born in Faught community, June 20, 1945, the family living now on the Thomas Crittenden place on the old highway, south of Detroit.

Besides her parents, Mr. and Mrs. W. M. Green and her sister, the girl leaves two brothers, Elmer Lee Green, Altus, Ok., and Billy Ray Green, in the Navy, stationed in California.

The funeral, Tuesday at 3 p. m., was held at the Blossom Church of God by Rev. John Webber and Rev. Melba Hart. Burial was at Detroit.

Results of Little League Games

Results of games in Little League baseball play for the past three games are given below:

June 11—Cubs 23, Cardinals 7; Green Sox 23, Red Sox 4.
June 13—Yankees 16, Red Sox 10; Green Sox 8, Cubs 4.
June 18—Cubs 20, Red Sox 2; Yankees 18, Cardinals 17.

New Highway Map Has Been Published

An official highway travel map of Texas, completely redrawn to include 450 towns not shown in previous year, has just been released by the Texas Highway Department, D. C. Greer, State Highway Engineer, announces. These maps are being dispatched as rapidly as possible to fill a backlog of thousands of requests, and new requests are pouring in daily, Greer said.

Mr. and Mrs. Troy Richerson and family visited his father, Bill Richerson and Mrs. Richerson of Mt. Pleasant, on Thursday.

Two weeks of fair weather has let farmers make a change in the appearance of the land and crops in this area. After five months of rains and flooding with more water falling during the period than usually comes within a year, farmers needed fair weather. Now they say a good shower would help both land and crops.

Premium Salaries For Car Hops

Trenton, N. J.—Carhops are entitled to slightly higher pay than regular waitresses because they are requested to walk long distances with food over rough terrain and often must wear brief uniforms.

The New Jersey Supreme Court ruled so in affirming a state order setting carhop minimums at 80 cents per hour and those of waitresses at 66 cents.

STILL RINGING THE BELL

A solicitor of advertisements for a local paper called at the village grocer's. Upon presenting his card, he was surprised when the gray-haired proprietor said:

"Nothing doing. Been established 80 years, and never advertised."

"Excuse me, sir, but what is that building on the hill?" asked the traveler.

"The village church," said the grocer.

"Been there long?" asked the other.

"About 300 years."
"Well," was the reply, "they still ring the bell."

About the most discouraged person we've ever seen was the fellow who had written a long overdue letter, and then lost it before getting it mailed.

ALCORN TO QUALIFY FOR NEW TYPE LOAN BECAUSE HE'S WEAK

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, may be showing a lack of grasp of the international situation, his letter this week indicates.

Dear Editor: After one of the greatest surprises of my life yesterday—I found a copy of a newspaper lying on my front porch, right beside my chair where I could pick it up without moving—I settled down to reading and hadn't gone far when I ran across an article that made me sit up straight and think.

According to it, the United States has figured out a new way to attack the agricultural surplus problem.

Under this plan, for example, Washington is going to lend Poland 95 million dollars with the provision that she has to use the money to buy farm surpluses from us.

Also, because Poland needs help in strengthening herself against Russia, part of the loan will be interest free.

Now this opens up a brand new method of dealing with surpluses, and I wish you'd use your influence if you haven't misplaced it to swing a deal like that for me.

That is, I don't know exactly

off hand what I'd do with a lot of farm surplus, but if the government will lend me some money interest free, I'll be glad to see what I can figure out. We've all got to pull together on this thing. And while I don't need strengthening against Russia, I do need strengthening against a lot of creditors, and I don't see why Washington should quibble over this small point. If a man or a country is weak, they both need strengthening, it doesn't matter what against.

Also, it seems to me that the idea ought to have even wider use. For example, the agricultural surplus isn't the only surplus we've got in this country. I know some merchants who have a surplus of dry goods on their shelves. I think one or two car dealers have some cars they'd like to dispose of, and I've never seen a supermarket that didn't seem to have a surplus of groceries.

If Washington will furnish me the money interest free, I'll do my part—I'll prove I'm weak and need strengthening, and both together we'll eat into this surplus that's bothering this country.

Please let Washington know I'm ready to sign the loan papers. Yours faithfully, A. A.

HOW MUCH ARE YOUR TAXES

Citizens Public Expenditure Survey suggests that "if you want to win a bet, bet your neighbor he can't tell you how much taxes he pays in a year." The odds are overwhelming that he can't—because of the vast number of hidden, indirect, and so-called "painless" taxes that exist.

Here's the way the tax bill works out, according to a recent authoritative computation.

If you make \$67.30 a week, you pay \$1,043 a year in taxes. If you make \$86.54 a week, you pay \$1,425 a year. If you've got a job that pays \$7,500 a year, the tax collectors will get \$2,637 of it—more than a third.

The survey states: "At \$86.54 a week, you work more hours to pay taxes than for food and clothing combined. Tell that to those who still say that taxation is a serious problem only to the rich!"—Industrial Review.

Sheriff's Deputies Go Into Action

Monroe, Wis.—Sheriff's deputies went into action when an excited motorist reported seeing a man "force a woman into the trunk of a car, close the lid and drive away."

Officers found the car at a local garage and ordered the owner to open the trunk. Inside was a garage mechanic trying to locate the source of a squeak for the owner.

The motorist who called police apparently had mistaken the mechanic's long shop coat for a woman's topcoat.

Her Voice Mightier Than Mouse Trap

Tyler.—Forget about traps and poison for mice and use your voice, said Mrs. Peggy Waller, Tyler housewife.

"I saw a little mouse on my hot water heater," she said, "and I guess I was excited. I stamped my foot on the floor and screamed at it: 'Get away from here, you nasty thing!'"

"Believe it or not, he just keeled over dead, right there before my eyes."

"When my husband saw what had happened, he said, 'Don't you dare squall out at me like that!'"

AW, WHAT'S LITTLE ITEM OF \$2 MILLION

Hollywood.—Producer Michael Todd told an informal press conference that he'd prefer to make less money on "Around the World in 80 Days," if that would mean more persons could see it. "I'd rather make \$17 million and have everybody see it than make \$19 million and not have everybody see it," he said. Besides, what could I buy with that \$2 million anyway?"

PAYING UNTRIES HIS CONSCIENCE

St. Catherine, Ontario.—The old man asked a Canadian National Railways clerk how much a railroad tie costs. The puzzled clerk did some phoning and came up with the answer—\$4.24. The old man put \$4.24 on the counter and said: "I stole a railroad tie in Demaine, Saskatchewan, in 1931. It has been bothering me ever since. Now my conscience is clear."

MOVING INEFFICIENT FARMERS TO TOWN WON'T SOLVE PROBLEM

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, discussed inefficiency this week, a matter he may be an undisputed authority on.

Dear Editor: I read a copy of a magazine in a barber shop the other day, you may be wondering what I was doing in a barber shop but it's no odder than some people I know visiting a bank, which set out to solve the farm problem.

According to it, the trouble with the farm situation is there are too many "uneconomic" farmers, by which it means farmers trying to make a living on too little land, or land that's too sorry, or because the farmers don't have enough initiative to farm anyway and if they have they don't have enough efficiency.

Therefore, the magazine concluded, these "uneconomic" farmers ought to move to a city and get a job there, the efficient farmers could take over, and the farm problem would end.

Aside from the fact I know some pretty efficient farmers and ranchers who've been having a little trouble the past few years, if borrowing money is any sign, the thing about this proposal that interests me is the idea of solving a problem by moving to the city, where they've already got more problems than they can handle. The last time I was in a city it

seemed to me there was already more folks on hand than the city could handle, and a lot of folks there were wishing they had more room. I understand also there are quite a few "uneconomic" people in town already, at least they just don't seem to be able to make ends meet.

The thing to do is to have the uneconomic people in the country move to town and the uneconomic people in town move to the country.

While this might not solve the farm problem or the crowded city problem, think how much it'd benefit the moving van business.

I'll tell you, if you're going to set up the rule that when a man can't quite make ends meet he ought to move some place else, you're going to wind up with the biggest traffic jam in the history of the universe. Uneconomic farmers trying to move to town won't be able to get there for uneconomic town people trying to get the country. A good portion of the population would have to live in trailer houses, so they'd be all set to move on every time the first of the month bills came in.

Nope, this big magazine will have to try again. It hasn't solved the farm problem yet, but ought to keep trying, and all I hope is that in the interest of entertainment nobody lets em in on the secret there is no solution to it. Yours faithfully, A. A.

First words spoken over the telephone were, "Watson, come here; I want you," spoken by Alexander Graham Bell to his assistant.

Would Use Nail Picker to Find Deport Meteorites

The story on Joe R. Webb, who has driven the highway department's lone magnetic nail picker around Texas highways for the last 14 years, prompted suggestion from Oscar Monnig, the Fort Worth merchant who hunts for meteors and meteorites in his spare time.

"Up near Deport, there is a known shower of small iron meteorites and a magnetic nail picker on some of the back roads in that region might yield something," writes Mr. Monnig, who sent along a pamphlet on meteorites which he wished for us to forward to Mr. Webb, The Nail Picker.

"I admit that the probabilities are low that the magnetic nail picker will find any meteorites," said Mr. Monnig. "But you have to figure on the unusual to find anything unusual."—Dallas News.

Mr. Monnig has purchased many meteorites that have been found in the Deport area over a number of years. Any finder of one of these pieces of metal knows he can sell it to Monnig.

Chester, common ending for English town names, comes from the Roman word, castra, meaning camp, since many were originally Roman camp sites.

Re-Set Halesboro Home-Coming July 7

Sunday, July 7, is the new date set for the home-coming at Halesboro. Rains caused the postponement of the event from June 2. All former residents are invited to come, bring lunch and spend the day.

It will be on this date committee for Halesboro Cemetery organization will be named. By contributions the burial plot, adjoining the church, has been mowed and cleaned this year. For these donations the committee in charge is very grateful and feel that interested folks will be richly rewarded by the work accomplished. Funds are still being accepted to carry on the work throughout the year.

Serving on the committee since its organization are J. M. Grant, Emmitt Goodwin and Mrs. Maxine Marcum.

DELOUSING STATIONS FOR THE BIG FISH

La Jolla, Calif.—A marine biologist says his undersea observation suggests that big fish may have regular "delousing stations"—points to which they come to have little fish and shrimp eat the parasites clinging to them.

Conrad Limbaugh of the Scripps Institution of Oceanography made the observations skin diving with oxygen equipment. He said he got so he could recognize individual big fish returning to be cleaned.

Parents Liable for Acts of Offspring

Austin.—Governor Daniel has signed into law an act making parents liable for malicious damage done by their children.

The new law allows property owners to recover damages up to \$300 for willful destruction or damage of property by children under 18. It becomes effective Sept. 3.

The new law is one of several passed by the 55th Legislature cracking down on juvenile crime and delinquency. Others include a \$100 fine for driving while drinking, speeding, hot rod racing or driving without a license by teen-agers 14 or older.

Reed-Mantooth Rites Read June 15

Mrs. Sara Lue Reed of Dallas, daughter of Mr. and Mrs. T. Y. Womack of Halesboro, became the bride of Ornie V. Mantooth of Dallas, son of Mr. and Mrs. Chief Mantooth of Paris, in a double ring ceremony Saturday night, June 15, at 8 p. m., at the home of Rev. S. T. Chandler, Sr., in Dallas.

The bride, a 1954 graduate of Deport High School, chose for her wedding a blue and white dotted swiss over blue taffeta, and her accessories were white. The groom attended Deport school and served two years in the armed forces. The couple will make their home in Dallas, where both are employed.

TWO MEN PLAN TO DRIFT ACROSS ATLANTIC OCEAN

Bordeaux, France.—Two men from Bordeaux said this week they will try to drift across the Atlantic Ocean to the United States on a 15-foot-long pine log raft.

Rene Lescombe, 35, and Guy Gouttepefite, 28, said they expected a 40-day trip to take them four or five months. During that time, they will sleep in a small wooden cabin on the raft and eat fish and green they take from the ocean, they said.

Forty years ago, in June of 1917, the Humble Company received its charter from the State of Texas.

The Company was formed through a merger of the properties of a number of independent oil operators. Its founding brought together a remarkable group of men who occupy an important place in the annals of the oil industry:

R. S. Sterling and his brother, F. P. Sterling, the principal organizers of Humble Oil Company from which the present company acquired its name; W. S. Farish and R. L. Blaffer composing Blaffer and Farish; H. C. Wiess with assets from Paraffine and Reliance Oil Companies; Walter W. Fondren and C. B. Goddard, producers; and L. A. Carlton and E. E. Townes as lawyers.

All of these men contributed greatly in adopting the principles, in shaping the policies, and in laying out procedures that have guided the Company's

progress through these forty years. Their influence will survive as long as the Company continues.

They possessed courage and business judgment. They established high standards of performance. They built a strong organization of competent men and women.

The Company, as it stands today, is a tribute to the leadership, the vision, and the work of its founders.

But it is doubtful that these men, with all their foresight, visualized the changes that have occurred in the oil industry since 1917, or the size and complexity of Humble's present operations, or the extent of the Company's contributions through the years to the progress of our society.

To all who have made those contributions possible—employees, customers, shareholders and the people of the states in which the Company operates—Humble extends its thanks.

"YOU'VE GOT TO REDUCE!"

Here's How!

Spurred by a flood of letters from "back home" which demand that the proposed 1958 federal budget of \$71,800,000,000 be cut, a lot of people in Washington are talking about it, but profess they don't know how it can be done.

The National Association of Manufacturers has just issued an analysis showing how cuts aggregating \$8,227,000,000 can be made without weakening military security or impairing any essential civilian programs.

The biggest overall reduction recommended by the NAM is in domestic spending a total cut of \$4,077,000,000. This would be accomplished by the elimination of certain programs and the curtailment of scope and cost, limitations and reductions in others.

Now that it has been shown how the record-breaking peace-time budget can be cut, will there be some action in Washington?

Stockton-Dunn Vows Are Read

On Saturday evening at 8 p. m. Miss Betty Ruth Stockton became the bride of Rev. James Dunn, son of Mrs. Lula Dunn, Mt. Pleasant, at the home of her parents, Mr. and Mrs. J. A. Stockton. Rev. Charles Rex Newman of Mt. Pleasant, performed the simple, but impressive single-ring ceremony.

The bride chose a white flocked nylon, with scooped neckline, fitted bodice and full street length skirt for her wedding dress. Her accessories were white with pink carnation corsage.

Miss Dora Ann Dunn, sister of the groom, was attired in an aqua sheath with white carnation corsage and accessories, served as maid of honor. James Stockton, nephew of the bride, served as best man.

The bride attended Talco High School. The groom is a graduate of Mt. Pleasant school and is employed at Cornett Furniture in Mt. Pleasant.

Following the ceremony a reception was held in the home of the bride's parents. The traditional wedding cake and punch were served by Misses Sue Gaddis, Virginia Johnson and Sandra Pope.

The bride's going away dress was a beige sheath with white boat collar and white cuffs with black lace trim. They will be at home at 924 Hubbard, Mt. Pleasant.

Others attending the wedding were Mr. and Mrs. B. J. Pope, Jackie and Linda of Smackover, Ark.; Mrs. Lula Dunn, Glenda and Gerry, Mrs. S. F. Two Weeks Fair Weather Permits Much Farm Work

With only a trace of rain in two weeks, farmers are in fields most of the time. Work ranged from planting to harvesting. Much lowland acreage has been planted in cotton, peas, and late grain crops.

Numerous fields have been plowed and cotton chopping is in full swing where the crop, planted between rains, is up. Farmers, realizing the advantage of an early insect control program, are dusting and poisoning cotton. Considering the late planting, crops are looking good. Usually by the middle of June, blooms are reported in cotton fields. Thus far this year, none has been brought in. Hay, oats and grain harvest is underway. Hay is reported good, but the grain was damaged some by the wet weather and wind. Lowland pastures are beginning to recover from overflows, while higher ground pastures are lush and excellent. Some farmers think a good shower would be beneficial to crops and the soil.

Mr. and Mrs. Odell Belcher and Bonnie returned Friday from a fishing trip at Caddo Lake. They were accompanied by her brother and family, Mr. and Mrs. Virgil Brown and children of Gladewater. They reported nice weather, a wonderful time, and plenty of fish. They caught the limit of nice bass. Mrs. W. E. Welch and Tim Clark Jr. operated the Belcher grocery at Meadows Curve during their absence.

SOMETHING EXTRA FOR HIS SERVICES

Tulsa, Ok.—The police radio dispatcher called Car 15 and asked: "Did you escort an emergency O. E. case to the hospital last night?" "Yes," the officer replied. "What's your full name?" "The officer answered, "Howard Richard Bennett. Why?" The dispatcher explained "The mother is naming the boy after you."

Mr. and Mrs. Roy Beasley returned after a week's vacation in Arkansas, visiting relatives in McNeil and Hot Springs, and fishing at Narrows dam.
