Introducing **Gaslite** BY ARKLA

Natural gas lights . . . symbol for traditional charm in outdoor lighting and living . . . reminiscent of the nation's "Caslight Era," a period of unhurried, gracious living.

We are introducing a new gas light, the "Gaslite," manufactured at the Evansville, Ind., plant of Arkla Air Conditioning Corp.

For a low price you may have one of these finest of gas lights completely installed along your walk, driveway, or on your patio or porch—wherever you want picturesque, but practical, outdoor lighting. Like the price, the operating cost is very low, as it is with all GAS appliances and equipment.

Standard size above. Ready soon: Contemporary and traditional models. Call our Lighting Department Today.

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

By VERN SANFORD, Texas Press Association

Austin.—What will happen to Texas without a sure flow of oil money to grease the wheels of government and business?

March oil allowable was set at 2,517,249 barrels a day (a drop of 513,814 barrels a day from February) with only nine producing days. Railroad Commission said the cutback to lowest level since pre-World War II days was necessitated by excess stocks.

Over-supply developed this way, according to officials: Texas production was shoved to record highs a year ago to supply Europe while the Suez Canal was closed. Then Suez re-opened, Middle East oil flowed to Europe again and Texas was left holding unwanted surplus. Further aggravating the situation was the gush of foreign oil into the U. S., taking part of the market from Texas production.

Digging into causes and effects is Governor Daniel's Oil Imports Study Commission. At first-round hearings in Austin these views were presented:

By Gov. Daniel—Texas is facing its most serious economic threat in 25 years. "Mandatory federal controls" are apparently the only way to stop excessive importing.

By State Comptroller Robert S. Calvert—Continuation of the present oil production pattern for another 90 days would put the state \$20,000,000 further in the red by the end of the current fiscal period. This would mean a \$32,000,000 shortage rather than the \$12,000,000 deficit estimated earlier.

By Maurice Acers, Texas Employment Commission—Employment in the Texas oil industry has declined 8,000 since last July. A drop of five per cent in oil employment takes \$50,000,000 in wages from the Texas economy.

By A. T. Mullins, General Land Office—One company has said it will stop seeking oil from state-owned lands, and others have said they will, unless the state reduces lease prices.

By J. Warren Hitt, Texas Education Agency—Approximately 31.3 per cent of state school money comes from the oil and gas industry.

By Marshall Formby, Texas Highway Commission Chairman—Reduced oil production would eventually cut back construction of highways.

By John H. Winters, Commissioner of Public Welfare—Loss of oil revenue could reduce payments to the aged, the blind and dependent children.

By Rep. Max Smith, House Appropriations Chairman—Next Legislature faces the prospect of spending money it doesn't have or finding new sources of taxation.

Dr. Philip E. Coldwell, Dallas Federal Reserve Bank—Imports are only partly to blame for Texas oil troubles. Problem of over-supply is world-wide and likely will continue for some time.

French Robertson of Abilene, is chairman of the Study Commission. Governor Daniel called hearings held today "very successful." Next meeting is to be March 18 in Abilene.

Meantime, the governor has wired governors of 20 other states asking them to join in the effort to get federal government action limiting imports.

SEARCH FOR NEW INDUSTRY—Long-dormant Texas Industrial Commission has new members and a new job.

Governor Daniel named E. B. Germany of Dallas chairman and gave the commission the task of enticing new industries to Texas to help relieve unemployment.

Originally designed to study labor-management troubles, the commission had been inactive for some years. Its new industry-attracting work is to be financed by private contributions and conducted cooperatively with chambers of commerce and other local groups.

Members are Houston Harte, San Angelo Standard-Times publisher; A. G. McNeese Jr., banker and lawyer, Houston; George T. Hinson, former state representative, Mineola; Chester C. Wine, power company employe, Laredo.

NEW RECEIVER—James M. Williamson succeeds J. D. Wheeler in the often-spotlighted job as liquidator for the State Board of Insurance. Williamson is a former district judge in Laredo and prior to his appointment was attorney for several Fort Worth insurance companies.

State liquidator has responsibility for winding up affairs of insurance companies that go broke. For some years the office has been caught in the middle of a struggle between an Austin district court and the State Insurance Board as to which has authority to appoint receivership attorneys for the bankrupt companies.

PRISON FARM COTTON CUT—Texas taxpayers face an extra burden unless the Prison System can get a more favorable cotton acreage allotment, says Gen. Mgr.

HAGANSPOORT

Wilbur Holmes of Lakeview, is spending the week end with Mr. and Mrs. Billy Holmes and other relatives in Dallas.

Mrs. W. C. Clevenger is ill in bed with bronchial pneumonia in Dallas.

A bridal shower will be held Friday night, March 7 at the home of Mr. and Mrs. Coy Sims honoring Mr. and Mrs. Jerry Bogue (Betty Hyde). Mrs. Hughie Bogue and Mrs. Pete Thomas will be co-hostesses.

Mrs. Gladys Ottinger and her little daughter, Carla, were dismissed from the Mt. Vernon hospital.

Mrs. L. L. Gieger has been attending her mother, Mrs. Joe Smith, who is ill in Talco Clinic. Mrs. Smith was reported improved the first of the week.

Rev. W. V. Ray held preaching services Saturday evening and Sunday morning in the Terry Memorial Methodist Church.

Word has been received by the Grounts from Florida that their grandson, LC George Van Pelt, has returned from Okinawa, where he has served in the Marines.

Mrs. Flora Brewer spent the week end with her people at Farmersville.

Mrs. J. H. Clawson reports that Oscar and Maria Clawson and their two children visited their grandmother recently.

After six weeks illness in the hospital, Mrs. Boyd DeVore, wife of our District Supt. of Sulphur Springs, has returned home.

Claude McDuffee is improved. His sister, Mrs. Pearl Scudder, has been attending her brother.

Mrs. May Henry has been staying in Mt. Pleasant recently while she has been ill.

Mr. and Mrs. Mart Talley have

O. B. Ellis.

Ellis protested to the U. S. Dept. of Agriculture that acreage for prison farms has been cut disproportionately, costing the system \$2,500,000 in income. No chance for improvement is seen this year since U. S. D. A. refused to interfere with locally set quotas. Court action is planned, but could not bring help before the '58 planting season.

Texas Prison System is heavily dependent on income from inmate-run industry and agriculture to foot the upkeep bills.

CREDIT ORDER HOLDS—Credit insurance rates in Texas will be slashed by about 50 per cent beginning May 1—despite howls of protest from affected companies.

State Board of Insurance first issued an order cutting credit insurance rates last December. Order was withdrawn for re-study after companies declared it would ruin their business.

New order is only slightly changed. Estimates are that it will cut income from credit insurance from \$16,500,000 to \$8,000,000 annually. Only possible roadblock would be the resuming of a suit filed earlier to halt enforcement of the December order.

SHORT SNORTS—Dr. Robert Strain, associate professor of insurance at the University of Texas, has been named to the State Board of Insurance to replace Joe P. Giggis of Seguin, who has resigned. . . . Building construction authorized during January was up five per cent from December, but ran 15 per cent short of the January, 1957, level. Total for state this January was \$83,191,000. . . . It's okay for the State Hospital Board to use funds from a private organization (the H. E. Butt Foundation) to supplement the salary for an executive director. Atty. Gen. Will Wilson ruled. State-set pay is \$15,000 annually. Board chairman said they've had trouble finding a director because competent men in similar positions are getting \$25,000 to \$50,000. . . . Merit System Council of the State Department of Health has announced examination for posts in accounting, administration, nursing, medicine, psychology, social work, engineering and sanitation. Applications can be obtained from Merit System Council, 630 Littlefield Building, Austin 18.

Even the Russians With All Their Science Still Have Farm Problem

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur claims he's found Russia has a farm problem. Anything to get the spotlight off his own farm problem.

Dear Editor: I know it's customary these days to believe the Russians can do anything, they just press a button and order up a satellite, they can pause between two sips of vodka and send off a guided missile so accurate it could knock the braces off the corner post in any corner of my pasture out here, if they hadn't already fallen off on their own before it got here, etc., but while I never like to discount the power of the other fellow, still I've always had my doubts about some things in Russia.

For instance, doesn't Russia have a farm problem? I don't care how smart his own newspapers say he is, there never was a dictator so smart he could farm out in the open and never get wet, for example. Or run out of gas, or blow a gasket, or have a flat.

Well, yesterday I was reading an article in a newspaper I found caught in a fence in my pasture—I don't suppose the publisher aimed it there that accurately, but it was lodged there, none the less—that bears out my suspicions about Russian farming.

Mr. and Mrs. J. T. Goodroe, Mr. and Mrs. J. D. Riley, C. H. Dickerson and Mrs. Joe White attended the annual banquet at the Stephens Hotel Friday night for the East Texas District.

Mr. and Mrs. Johnny Lilley of Dallas, spent the week end with her parents and sisters, Mr. and Mrs. W. T. Lewis, Annette, Becky and Brenda and Mr. and Mrs. Billy Joe Vickers.

Mrs. Roy Primm and Miss Wanda Williams attended the opening of the First State Bank in Longview, Tuesday. Their sister, Mrs. Alice Cain, is employed there. Also while there they visited James A. Cain, Debra and Jimmy and Mr. and Mrs. Vernon Williams.

A surprise birthday coffee was given in the home of Mrs. G. W. Griffith honoring Laura Hendricks on Thursday, Feb. 27. Those attending and enjoying cake and coffee were Mrs. C. W. North, Mrs. Etelle Gaddis, Mrs. Richeson, Mrs. R. E. Griffith, Mrs. Mamie Mueller.

returned home from Lubbock. John Talley is remodeling his house. Mrs. Mozelle Aikin has been working in the L. B. Sheppard store.

Washington Reports Acreage Retirement

The Agriculture Department reports that 681,425 farmers have taken steps to retire about 14,500,000 acres of crop land from production this year under the soil bank program.

This represented about 4.3 per cent of the land planted to crops last year.

The producers would be entitled to payments totaling \$777,680,000 for taking this land out

of production, assuming the Senate passes a House-approved bill to provide additional funds.

Why do it the hard way?

Be modern... dry clothes ELECTRICALLY

Why lift, stoop and stretch to dry clothes on the line when an Electric Dryer will do the job . . . automatically . . . at the turn of a dial? All you do is put in freshly-washed clothes, set the controls and your clothes dry gently and thoroughly while you tend to other things. Clothes dry better electrically because electric heat is sunshine-clean . . . and it's precision-controlled, safe for even your daintiest fabrics.

See your local appliance dealer soon for a work-saving Electric Dryer. Live better . . . electrically!
