TWENTY-FIFTH YEAR

NUMBER 51

## This Month Is Important In Texas Politics

February is one of the key months in the political calendar for Texas. Several dates have a direct bearing on the nominating procedures as carried out thru the primaries.

First date of importance in the new political year falls on February 5, last day on which candidates must file requests with county chairmen to have their names placed on the primary ballot.

February 11 will be the date for the first 1962 meeting of the Red River County Democratic Executive Committee. Principal business of that meeting will be the apportionment of the cost of the primaries among the candidates. Following this meeting candidates will be advised officially of their assessments.

February 17 will be the last day for candidates to pay their assessments to the county chairman. Certain candidates whose fees are fixed by statute must remit to the county chairman not later than February 8. Candidates for state senator and representative come under this provision of the law.

Candidates who fail to pay their assessments not later than the close of Saturday, February 17, will forfeit the right to appear on the primary ballot. Fees in the mails bearing a postmark of February 17 will be acceptable. No precise information regarding the list of candidates will be known until after February 5.

## Search Ends When Aged Man Found

A search of several hours duration ended Saturday night when a search party found an aged Bogata man, who had wandered away from home about 2 o'clock that afternoon. Fearing that the man, in ill health for several years, might have been picked up by a passing motorist, several nearby towns and communities were alerted.

Desiring permission to search premises, two men knocked on door of a neighbor's house. The man they were seeking opened the door. Owners of the house were absent and the sick man had made himself at home. According to relatives Monday, he was none the worse for his experience.

## F-M Road Bill Of Benefit This Area

The new farm-to-market bill which Gov. Price Daniel signed last Friday will benefit counties in this area as well as other parts of Texas.

According to Judge Harry Taylor, president of the County Judges and Commissioners Association of Texas, instrumental in drafting and passing the bill, Titus County will benefit to the extent of \$500,000 worth of new farm-to-market roads.

and men from the 20 churches in the Section will congregate with a special speaker and refreshments served afterward.

Sunday morning is the annual BGMC Day for the Assemblies of God. BGMC (Boys and Girls Missionary Crusade) is a project where boys and girls of the Sunday School save money and bring it this day for literature for foreign missions.

Austin. — Gov. Price Daniel's long fight over reporting unclaimed property to the state for escheat has ended at last. So has the argument over rural roads policy.

But the scrap over the question of what to do about regulating loans, interest rates and lenders is not yet settled. And it may not be for a long, long time.

The Legislature has settled the escheat and road policy questions. Also it has partially solved the advertising program for tourists, juvenile parole and repair of the San Jacinto Monument.

Money problems were eased when Comptroller Bob Calvert estimated that the escheat reporting law passed last year will yield at least \$300,000 during the next 20 months. He put no estimate on the bank reporting law just laid on Governor Daniel's desk for certain signature into law.

When the Legislature meets, growing Texas brings a pack of problems to Austin for it to solve.

High Plains irrigation farmers are quarreling with their gas company. They want its rates regulated. Sen. Andy Rogers of Childress and Rep. H. G. Wells of Tulia tussled a bill through both houses to let the farmers appeal to the Railroad Commission, just as cities can do, if the gas company increases its rates.

San Angelo and Edinburg got favorable reports from the Commission on Higher Education on making San Angelo and Pan American College, now locally supported, part of the state system of colleges in 1965.

They came to Austin to get the Legislature to pass the necessary laws, and make the state take over support of the colleges. House of Representatives went along with both proposals.

But Sen. W. T. Moore of Bryan, down in A&M country, thinks Texas has enough state colleges already. So, he used the filibuster to fight the two new college bills to a standstill.

State Highway Commissioner Herb Petry Jr. complimented the Legislature on passage of the Farm-to-Market Road bill. He announced new projects as soon as Governor Daniel's signature was on the bill.

The Commission approved \$135,000 worth of surfacing work on highways in Cameron and Hidalgo Counties and an \$82,000 highway contract in Cameron County. Within the next 60 days they will try to schedule more than \$1,000,000 of work on US 83 in the Valley and \$500,000 for road work in the Valley.

Senators Bob Baker of Houston and Neveille Colson of Navasota appeared before the Highway Commission to urge approval of a four-lane highway between Hempstead and Houston. The Senators reminded the Commission that they had helped pass the road bill which frees funds for primary roads.

**NO RELIEF IN SIGHT**—Many legislators were hoping to go home at the end of the week, but as soon as they processed pending bills, other bills were submitted.

At the end of the week, Governor Daniel submitted additional subjects: Authority for the Texas Employment Commission to enter into a compact with other states; financing of the Texas Securities Commission; an appropriation to the Department of Banking; and amendments to the Penal Code.

House members held a Friday session for the first time this month, and resigned themselves to working right through the last of the 30 days of the called session.

**INEQUITIES STUDY PROPOSED** — Rep. W. S. Heatly of Paducah introduced a resolution that the House Committee on Privileges, Suffrage and Elections study election "inequities" in the Constitution, and report its findings to the next legislature.

Heatly said he didn't think it fair that while the law requires district and county officials to

## File Income Tax Returns Early

Area taxpayers are urged to file their returns for '61 with their IRS District Director as soon after Jan. 1, 1962, as possible.

"Although the filing deadline is April 16, those who wait until the last minute find it more difficult to get technical help the nearer the final day approaches."

"Also," the Director said, "last minute income tax filers make more costly errors in their returns."

Checks or money orders for any tax due should be clipped, not stapled, to the return and should be made payable to the "Internal Revenue Service."

It may be more blessed to give  
 than to receive, but those on the  
 receiving line have different  
 ideas.

If you think you owe the world  
 a smile now is a good time to  
 make the payment before the law  
 makers place a tax on it.

The reason so many men are  
 in prison is because they wanted  
 more luxuries than honesty could  
 pay for.

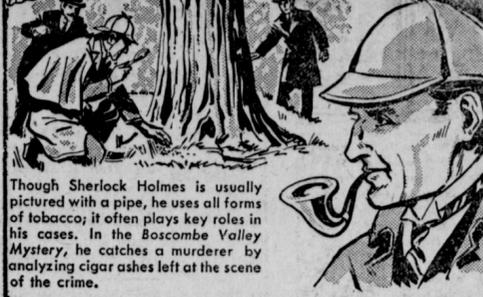

With our past gone and our  
 future mortgaged, there is nothing  
 to do but devote our entire  
 time to the present.

In the old days we were told  
 that beauty could not last, but  
 that was before beauty lotions  
 were sold in picturized bottles.

There might not be so much  
 juvenile delinquency if parents  
 who bring up their child in the  
 way he should go would go that  
 way themselves.

Uncle Silas thinks people used  
 to have a better time on less  
 money than now. He says a can  
 of worms and a cane pole was  
 once satisfactory equipment for a  
 gorgeous time on a nearby creek.  
 Now, he says, it takes a nickel-  
 plated rod and reel, a dozen fan-  
 cy lures and an Evinrude motor to  
 bring him the same amount of  
 happiness.

## LEAVES IN HISTORY

Though Sherlock Holmes is usually  
 pictured with a pipe, he uses all forms  
 of tobacco; it often plays key roles in  
 his cases. In the *Boscombe Valley  
 Mystery*, he catches a murderer by  
 analyzing cigar ashes left at the scene  
 of the crime.

In another case, Holmes stays  
 in bed for days without food  
 —faking fatal illness from a  
 poison attempt. His first words  
 after trapping his would-be  
 murderer: "A match and cig-  
 arette, please."

The tough cases are "three-pipe  
 problems," in Holmes' words. He  
 solves the case of *The Man With  
 The Twisted Lip* by deliberating  
 all night, while sitting on pillows  
 and smoking his old brier pipe.

## Mr. Merchant

### YOU NEED THE NEWSPAPER!

The newspaper of today is the most powerful medium of  
 advertising on earth. In the old days the merchant may have  
 thought he was a benefactor and that he was contributing his  
 bit "as a public-spirited citizen" when he carried a two-inch  
 space in the village paper every week in the year and gen-  
 erally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People  
 read advertisements. Many find their greatest interest in  
 looking over the advertising pages to get news that will save  
 them money, and, take it from John D. Rockefeller, the way  
 to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as  
 fresh as the news of the world or the latest baseball score.  
 Live merchants cater to live people and they know they must  
 not alone be up to the minute, but they must be some distance  
 ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right  
 now! Just read what the merchants are offering. Notice how  
 attractively the advertisements are set up and how inviting  
 they are.

Business men—that is the successful ones—know advertising  
 pays big returns. Look over this newspaper right now and  
 pick out the successful firms. They're the advertisers. Ad-  
 vertising is the tonic that puts dividends in the banks.

*Everybody reads advertisements today! Mr.  
 Merchant, is your advertisement in this  
 newspaper?*

### Alcorn Claims Canada Has Worst Foreign Policy, Canadian Cold Fronts

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur discusses foreign policy this week, or cold weather, it's hard to tell which.

Dear Editor: People are always talking about the United States' foreign policy, especially when they can't figure out the answers to all our domestic problems, but as far as I'm concerned the country with the worst foreign policy on earth is Canada.

It's those Canadian cold fronts Canada is always pushing down on the United States, that's what I'm talking about.

When the forecast announces a Canadian front is heading this way, you can expect the worst. I know we can produce some cold spells on our own, a low can develop in one part of the country and sweep cold air down on another, or however it works, but when it comes to the real jolting cold waves, Canada has us beat. There's a weather gap between our cold and Canada's that makes the missile gap look tame.

In fact, so many cold fronts have been coming out of Canada this winter you'd think we'd been sending foreign aid up there and missed our December installment.

Speaking of foreign policy, non-weather variety, there's one thing that has been puzzling me for a long time. Washington ex-

perts are always worrying about how a course of action will affect some foreign country. "What will they think of us in Latin America if we do this or that?" they ask. Or, "How will this affect South America's opinion of us? We can't afford to make them mad at us."

Well, this is all fine and good, but what I'd like to know is: does any other country on earth ever stop to ask how its course of action will affect the United States? How is it that we can't afford to make them mad, but they can all afford to make us mad? Isn't there just one country in the world which occasionally sits down and ponders how it's getting along with us? You mean to say the friendship between the United States and the rest of the world is 100 per cent one-sided?

I wish you'd use your influence if you haven't mislaid it somewhere on your desk to start a world-wide search for just one country which wakes up some mornings wondering how it's getting along with the United States. If you find one, let me know, and we'll take up a collection to send somebody there to get acquainted. Meanwhile, I won't hold up my farm work while waiting. I have plenty of other reasons for holding that up.

Yours faithfully, A. A.
