Former Talco Resident Dies

Mrs. James Marks, 20, of Smackover, Ark., formerly of Talco passed away at 11:30 a. m. Sunday in an El Dorado Ark. hospital. Funeral service was held Monday afternoon at 2 o'clock at Smackover Baptist Church and interment followed in the Camden Cemetery.

Surviving besides her husband are her parents, Mr. and Mrs. Billy Joe Pope, a brother, Jackie Pope, one sister, Linda Pope, all of Smackover, and these grandparents, Mr. and Mrs. Bob Pope and Mrs. Lena Stockton, all of Talco.

Deceased, the former Sandra Pope, was born March 25, 1942, being the daughter of Billy Joe and Aline (Stockton) Pope. She attended Talco elementary school, graduated from El Dorado High School in 1960, and would have graduated this year from nurses school. She lived in Talco until 1957 when the family moved to Arkansas. She was married in December last year to James Marks.

Mr. and Mrs. Ernest Watson were in Texarkana, Friday.

Wright Patman's Weekly Letter

1st Congressional Dist. of Texas "Heart of the Gulf Southwest" Last Weekly Letter this Congress. The 78th Congress is entering its final days. No one can say for certain exactly when adjournment will come, but it is expected to be in the near future. This issue of the Newsletter will be the final one for this congress.

Business optimism rises. A survey of 1,000 professional corporation purchasing agents indicates that during August the confidence of American business in the future of the Nation's economy rose sharply. In a "business confidence index" showing how professional purchasing agents felt about short-term economic outlook, the August index rose 15 points above the July level.

Foundation investigation draws wide support. On July 23, I made the first interim report on the Small Business Committee's investigation of tax-exempt foundations. On August 20, I made a second interim report. As a result of these reports, I have received literally thousands of letters from all parts of the country warmly endorsing the investigation. Almost all of these letters have agreed that this is an area which should be looked into thoroughly. In his August 22 press conference, the President agreed that it must be determined whether foundations are being used as a "tax dodge" by profit-making companies. The President went on to say that the Internal Revenue Service, at his direction, is working to find methods of tighter administration to stop these abuses. More tax agents have been assigned to this task.

Common Market trade vital to farmers. American farmers have a great stake in our country's foreign trade policy, particularly in our relations with the European Common Market. At the present time, a quarter of all our agricultural exports go to nations of the Common Market. 27% of all United States cotton and 36% of all food grains are exported to these nations. Cash yield to American farmers from exports to Britain and the Common Market countries is \$1.7 billion a year. Farm prosperity depends in large part on retaining these markets.

Day care centers. The public welfare legislation recently enacted by the Congress provides \$5-million for this fiscal year, and \$10-million for each year thereafter, to be used in establishing day care facilities for the children of working mothers. It is felt that these centers can be an important factor in removing clients from welfare roles. Having a proper place where children may be left in safety will enable many mothers to take jobs which will make them self-supporting. The State of Texas will receive approximately \$300,000 this year and roughly double that amount in subsequent years for this purpose.

Recent brides, take note. A packet of useful information for new home-makers, covering such matters as buying and preparing food, and the protection and care of fabrics, has been prepared by the Department of Agriculture. If you would like a free copy, let me know.

Speed up in mail delivery. An experiment in faster collection and delivery of local mail is being tried in Lansing, Michigan. Under the new plan, mail deposited in special boxes before 11 a. m. is delivered to any address within the city by 3 that same afternoon. If the system is a success in Lansing, plans are to adopt it in many areas of the country.

Soviet technology thefts. For many years, Russian scientists have been copying our inventions, ignoring the licensing and patent rights that all other nations honor. In recent months, Soviet planners have apparently begun to worry that this can work two ways. The Russian press has been complaining that some Russian inventions were picked up by Western nations. As a result, the Soviet Union has announced new patent regulations similar to those in this and other Western countries. It is expected that in the months ahead they will attempt to enter into inter-

New Hunting And Fishing Licenses Needed Sept. 1st

New 1962-63 hunting and fishing licenses are on sale. Both kinds of licenses currently in use expire Aug. 31 and new ones must be procured by hunters and anglers for use on Sept. 1.

All persons who hunt outside their home counties are required to have the new licenses. A new fishing license is also necessary for those who fish outside the county of their residence or use any kind of winding device.

Persons under 17 and over 65 years of age are not required to have licenses.

Hunting licenses are \$3.15 and fishing licenses \$2.15.

At noon, lunch prepared by Mrs. Marshall Bailey, was served to 11 employees at the American Legion Home.

Attending besides Mr. Moore were C. C. Hennig, Division manager of Whitewright, Floyd Hamilton of Talco, Fred Whitten Jr., J. Lee Smith, David Hudson, Duane Bryson of Bogata, J. H. Philley, T. E. Burks of Detroit, Joe Garrison and Miss Lois Philley of Deport.

Mrs. George Quilantan entered a Mt. Pleasant hospital, Monday.

Federal Grants Sewer Systems In Area Towns

Representative Wright Patman, of the First Congressional District of Texas, announced today that the Department of Health, Education, and Welfare has approved the following grants for municipalities within his Congressional District:

Detroit Red River County—For sanitary sewage collection system and treating facilities. Total cost, \$100,000; Federal grant, \$17,100.

Dekalb, Bowie County—For sewage treatment plant, including primary units and step ponds, outfall line and interceptor sewers. Total cost, \$196,894.49; Federal grant, \$46,894.49.

Blossom Lamar County—For sewage treatment plant and outfall sewers. Total cost, \$130,917.12; Federal grant, \$11,073.95.

Bogata Red River County—For new sewage treatment plant, including primary units and lagoons, outfall line and interceptor sewers. Total cost, \$99,527; Federal grant, \$23,193.

In making this report to his District Congressman Patman is gratified at the speed with which the applications for these vital improvements were prepared by the local officials and forwarded to the Department of Health, Education, and Welfare. He stated work is expected to commence on these projects in the near future.

Mrs. J. M. Gipson Rites Tuesday

Mrs. Hattie Viola Gipson, 65, died at 12:05 a. m. Monday morning in a Mt. Pleasant hospital.

Services were held Tuesday afternoon at 2 o'clock at the Ripley Baptist Church, with Rev. J. E. Anderson of New Diana, and Rev. W. H. Hitt officiating. Burial was in Bridges Chapel Cemetery.

Surviving are her husband, John M. Gipson, Mt. Pleasant; one daughter, Mrs. George Austin, Mt. Pleasant; three sons, Carthal Gipson, Talco; Edwin A. Gipson, Sunray; John Gipson, Dumas; nine grandchildren; four sisters, Mrs. Stella Stedham, Mrs. Doris Roundtree, Miss Ruby Gay and Mrs. Beonnie Perkins; and one brother, Johnny Gay.

Mrs. Gipson was born Jan. 1, 1897, in Alabama and had been a resident of Titus County for 30 years.

Austin. — Very few cars and trucks in Texas are taxes thru the ad valorem tax program.

Some counties, cities and school districts tax them, but close to 80 per cent of the vehicles go untaxed. So the Texas Commission on State and Local Tax policy proposes that something be done about it.

An Amendment to the constitution is their recommendation. They suggest an amendment exempting motor vehicles from the property tax, but allowing the Legislature to tax them.

Plan is to have the Legislature set up a procedure by which a state board would determine the value of all makes and models of motor vehicles. Then the county tax assessor-collector would collect a tax at the rate of \$1.50 per \$100 of market value when license tags are purchased.

Under this "suggestion," 40 per cent of the \$52,000,000 annual take would be divided among the school districts of the counties. Balance would go to the cities in accordance with their populations. County's share would be that portion represented by population outside cities.

Counties and cities would be required to spend the money only on road and street work.

Before the commission decides whether to recommend this procedure to the Legislature, a public hearing will be held sometime this fall.

SAFETY DRIVES — Two more safety drives were launched by Gov. Price Daniel. He proclaimed September as Home Safety Month, asking Texans to "live, think and drive safely throughout September."

Also outlined was a campaign to prevent some of the 30 traffic deaths the Department of Public Safety predicts will occur over the Labor Day week end.

Highway Department got into the act, too, due to the U. S. Army's planned maneuvers for October. Highway workers will erect signs calling motorists' attention to tank and convoy crossing-areas along state highways.

MORE TAXES? — Legislators and citizens who thought the state's money problem was solv-

ed by the sales tax, which took effect a year ago September 1, may have another think coming.

Budget requests of state agencies predict another huge increase in public school and college costs in the two-year period starting September 1, 1963. Laws already on the books will divert about \$55,000,000 a year more from the State Treasury to the public schools, without any new legislative action.

College and university administrators, expecting a new flood of high school graduates, say they need \$40,000,000 a year more to take care of them. This includes \$10,000,000 a year for the University of Houston, which will be the state's second largest university when it joins the state system in 1963.

So budget-makers are thinking in terms of another tax law of some kind. Only a fast upturn in business conditions, bringing new cash into the treasury from existing taxes, can relieve the situation.

Legislators, campaigning this fall, will have a chance to offer voters their suggestions. Some think the exemption on groceries, medicine and low-cost clothing should be taken out of the new sales tax law.

REDISTRICTING — There have been rumors of lawsuits to come, ever since the U. S. Supreme Court held that the courts can force states to redistrict, for legislative purposes, if their systems are patently discriminatory.

But it took Giles Miller of Dallas to bring the first suit. The Republican sued State Treasurer Jesse James, to prevent him from paying the salaries of state officials who make up an ex-officio legislative redistricting board. That is the body which is supposed to meet and redistrict, if the Legislature fails to do so.

Miller's suit departs from procedures used in 31 other states in that it is aimed at getting state, rather than federal, court action.

He contends that the redistricting law passed by the last Legislature was not fair and that it therefore is unconstitutional.

Dallas County is limited to nine representatives and one senator

under a state constitutional provision designed to limit representation of the big counties. It would be entitled to three senators and about 15 representatives if the state was divided evenly.

NEW TARGET DATE — Construction on the 3,027-mile Interstate Highway System in Texas is progressing so rapidly that the completion target date has been moved up a full year to 1971.

Texas Highway Department points out that the state now has completed and opened to traffic 1,090 miles, or 36 per cent of the total.

BATTLE CLOUDS — Legislative battle clouds already are looming on the horizon, anticipating an early combat baptism for the many new members of both houses.

Hearings before various state agencies and legislative committees are forerunners of pitched battles over the proposed consolidation, under a separate agency, of overlapping services now being rendered by numerous departments.

FLU SHOTS URGED — Health Department has issued a warning to pregnant women and persons over 45 that it's Asian flu time.

Department is urging adults over 45 (particularly senior citizens over 65), pregnant women and persons of any age with heart trouble, lung, kidney or metabolic diseases to make immediate arrangement for flu shots.

Widespread outbreaks of Asian influenza are predicted for the coming winter. A-strain flu occurs every two to three years.

Two doses of influenza vaccine, two months apart, are urged for people not previously immunized. Both should be administered prior to December, starting point of the cyclical onset.

TEACHERS-TO-LEARN — This fall, 2,300 public school teachers, of physics, mathematics and foreign languages, will attend classes Saturday mornings, or after their own teaching hours, to learn the latest developments in their subjects.

This is part of a program instituted by the Texas Education Agency to help beef up the state's instruction in these subjects.

Luck is something to look to
 when there is no other way to
 look.

Don't blame a girl if her beauty
 goes to her head. That's the place
 for it.

Beauty may be only skin deep
 but it goes at face value every-
 where.

The mistake most of us make
 is not profiting by the mistakes
 we have already made.

Many a guy has spent his life
 amassing a fortune only to spend
 the fortune trying to stay out of
 jail.

Not until we can handle the af-
 fairs on earth satisfactorily should
 we undertake to take on other
 worlds.

One of the hardest jobs we
 come across in life is that of mak-
 ing an easy living. It can be done
 if we work hard at it.

An old couplet runs this way:
 "As a rule
 Man's a fool;
 When it's hot
 He want's it cool;
 When it's cool
 He want's it hot—
 Always wanting
 What is not."

Mrs. Claud King and children
 of Henderson, who had been visit-
 ing her sister, Mrs. Paul Miller
 Sr. and Mr. Miller, returned home
 Thursday. Jerry and Billy Mil-
 ler accompanied her home for a
 week's visit.

Mr. Merchant

YOU NEED THE NEWSPAPER!

The newspaper of today is the most powerful medium of
 advertising on earth. In the old days the merchant may have
 thought he was a benefactor and that he was contributing his
 bit "as a public-spirited citizen" when he carried a two-inch
 space in the village paper every week in the year and gen-
 erally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People
 read advertisements. Many find their greatest interest in
 looking over the advertising pages to get news that will save
 them money, and, take it from John D. Rockefeller, the way
 to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as
 fresh as the news of the world or the latest baseball score.
 Live merchants cater to live people and they know they must
 not alone be up to the minute, but they must be some distance
 ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right
 now! Just read what the merchants are offering. Notice the
 invitations for you to do business with them. Notice how
 attractively the advertisements are set up and how inviting
 they are.

Business men—that is the successful ones—know advertising
 pays big returns. Look over this newspaper right now and
 pick out the successful firms. They're the advertisers. Ad-
 vertising is the tonic that puts dividends in the banks.

**Everybody reads advertisements today! Mr.
 Merchant, is your advertisement in this
 newspaper?**

ABUNDANT LIFE

by ORAL ROBERTS

YOU NEED A LITTLE MORE FAITH

As I was talking to a friend of mine one day, I inquired as to how he was feeling. He shrugged his shoulders and said, "Oral, there is nothing wrong with me that a little more money wouldn't cure."

I could not forget my friend's statement. It kept preying upon my mind. Later I was praying and reading my Bible. The Lord spoke to my heart that I should tell that man: "Friend, there is nothing wrong with you that a little more faith won't cure."

Many people say they have faith, but why is it that they find it difficult to get out of their troubles? It is simply because having faith is not enough. You must make your faith a living faith. It must live in your heart. It must be felt in your spirit so that you can let it go out to God. You can have all the faith in the world, but if you do not make your faith an active faith, you might as well not have any at all.

How does a person get evidence for his faith? He gets evidence, not through wishing, not through presumption, but through the written, literal promises of the Word of God.

We have promises made by God to us in the Holy Bible.

These promises are so faithful and sure that God has sealed them with the blood of His only begotten Son. We have evidence for our faith, and we can stand upon the Word of the living God.

Jesus said, "I am come that they might have life and that they might have it more abundantly." More speaks of a larger quantity. Abundantly speaks of an inexhaustible supply. Jesus promises us life over and beyond the ordinary. Salvation is life. Healing is life. The supplying of our needs is life. All these things God has promised us in His Word. And we can have them when we claim them by faith.

When you are tormented by fears and doubts, your body is full of aches and pain and your life is full of needs, open your Bible. Read God's promises to you. Put your name in the place of the people in the Bible and say, "Lord, this promise is for me. This is the evidence for my faith."

Many of us frantically try to solve life's difficulties and problems by our own limited efforts while God's love waits to sustain us and to give us unlimited strength. Our part is to have faith and let Him bear us up.

FAMOUS FIRSTS

SKIN-DIVING
FIRST recorded skin-divers were the Sumerians of 5,000 B.C. They sought a "weed of eternal life," believed to lie beneath the waves!

FIRST oxygen lung for skin-diving, an 1878 British invention, was first tried by a 20th Century diver who almost lost his life learning that oxygen becomes toxic at depths below 30 feet!

FIRST choice in after-sport refreshment among America's growing army of skin-diving enthusiasts (about 1,000,000 to date) is mellow Antique Bourbon—flavorsome neat, or mixed with a favorite summer cooler!

FIRST-rate skin-diving find is a 1,000-ton Roman freighter sunk off Marseilles about 205 B.C. Oldest seagoing vessel ever found, its cargo of wine and dinnerware is priceless to modern archaeologists!

Mail Change of Address Before You Move

This newspaper has spent considerable money in newspaper space to urge subscribers to send in a new change of address BEFORE they move and to give their zone number if it is a city with zone mailing.

If you move to a new address without notifying us in advance, you will miss at least three editions, and back numbers cannot be supplied.

All the subscriber has to do before he moves is give us the complete new address on a three cent post card. This should be done at least a week ahead of our mailing time. Otherwise, you will miss receiving your old home town newspaper for two or three weeks until you send in the zone number if there is one. That new address. Don't forget the zone number if there is one.

ABUNDANT LIFE

by ORAL ROBERTS

GOD'S STRENGTH CAN BE YOURS

A man and his small son were working together in the garden gathering stones.

"Here's one I can't lift, Daddy," the boy cried. "I've tried with all my might."

The father stopped working, looked down at his boy, smiled and said, "Son, you didn't really try with all your might, for I was here as a part of your might and you didn't ask me to help you."

Jesus of Nazareth wants you to count Him as a part of your might. He knows your limitations, and He stands beside you to minister to your needs. He stands beside you when the burdens are too heavy to bear.

"Here, let Me help you," He whispers, stretching forth His nail-scarred hands.

He stands beside you at the busy intersections of life, when you are bewildered by the rush and tumult of all that's going on. He takes your hand in His and leads you safely across. He stands beside you when nerves are frayed, or when you are discouraged and lonely. He has a way of calming frayed nerves, or reassuring you and of putting you back in order.

Christ's strength is placed at your disposal to be utilized. If you give up easily, if you are prey to lingering fears, it is because you have not learned to place your hand in His. You have only to reach out in faith and make His strength a part of your strength.

It often happens that life makes demands of you beyond your own powers. Such demands work for your good! Only that which seems impossible is really worth doing, for this is the law of growth and progress. But to succeed at these tasks, you must learn how to utilize God's help. For no one, of course, can go beyond human limitation without His help. Phillips Brooks used to pray, "Lord, I ask not for tasks equal to my powers, but I pray for powers equal to great tasks."

When you know that Christ's strength is a part of your strength, you need not be afraid of any situation or task that may confront you in the future. God gives just the right amount of strength for every need. Saturate your life with it and face undaunted the challenge of living each day victoriously.

Car Inspection To Begin On Sept. 1

Motorists may have their motor vehicles inspected for their 1963 inspection stickers as of September 1, Motor Vehicle Inspection, Texas Department of Public Safety announced.

Vehicles should be inspected early in an effort to avoid the last minute rush to meet the April 15 deadline. It was further pointed out that motorists are subject to a fine not to exceed two hundred dollars if they are stopped operating a vehicle without a valid sticker attached.

Ward farm near Woodland, hit Glen Rose sands at 1,772 feet, Glass reported. The closest paying production near the new well is the Bagwell field some 20 miles away.

Alcorn Bowled Over By City Writer's Ideas On Solution to Farm Problem

Editor's note: Achin Alcorn Philosopher on his Johnson grass farm on Sulphur has gotten hold of another big city newspaper, with the following results.

Dear Editor: If I lived in a city surrounded by all those unsolved problems like traffic, lack of tax money, crime, congestion, crowded schools, parking, etc., I'd devote my time to solving the farm problem and it was with considerable interest I ran into a newspaper which a puff of August wind turned up out here on this Johnson grass farm the other day with an article in it by a big city columnist discussing the farm problem. He has a brand new explanation for the farm surplus.

Now up to now, I've been contending all along the farm surplus was due to the fact us farmers are just more capable than say for example the space scientists. Everybody from President Kennedy on down admits the Russians are ahead of us in space, just as everybody from Mr. Khrushchev on down admits us American farmers are ahead of the Russians in food production. I don't want to brag, but there are the facts.

But this big city columnist has a different explanation altogether. According to him, "all this productivity in American agriculture is not necessarily the result of progress." He claims that "federal policies have been drawing into agriculture the small-town banker, the small-town doctor and anybody else after a fast buck."

In other words, it's "all those small-town bankers and small-town doctors and lawyers who have brought up the farm land and produced the surplus in order to make some fast bucks. Wasn't us farmers at all.

Now I don't want to criticize this city columnist, and after all, you've got to remember that one of the most inviting things about

the farm problem is that anybody can offer a solution to it safe in the knowledge that nobody else has found the right answer either, but what I'd like to know is where are all these bankers and doctors and lawyers who are making all those fast bucks by farming?

Now I know some bankers and doctors and lawyers who own some land, but it has been my opinion that all of them together haven't added over two inches to the mile-high surplus, and as for making any money, fast bucks or slow ones, I'm afraid that city columnist hasn't had an opportunity to examine their farm ledgers. And I notice very few of them are giving up their jobs in town to really go whole-hog after those fast bucks out in the country.

Another nice thing about the farm problem is that it puts city columnists in the same class with country columnists when it comes to finding a solution, and if I lived in a big city with all those city problems closing in on me, I'd attack the farm problem myself at least twice a week and sometimes on Sunday.

Yours faithfully, A. A.

Former Talco Resident Dies

Mrs. James Marks, 20, of Smackover, Ark., formerly of Talco passed away at 11:30 a. m. Sunday in an El Dorado Ark. hospital. Funeral service was held Monday afternoon at 2 o'clock at Smackover Baptist Church and interment followed in the Camden Cemetery.

Surviving besides her husband are her parents, Mr. and Mrs. Billy Joe Pope, a brother, Jackie Pope, one sister, Linda Pope, all of Smackover, and these grandparents, Mr. and Mrs. Bob Pope and Mrs. Lena Stockton, all of Talco.

Deceased, the former Sandra Pope, was born March 25, 1942, being the daughter of Billy Joe and Aline (Stockton) Pope. She attended Talco elementary school, graduated from El Dorado High School in 1960, and would have graduated this year from nurses school. She lived in Talco until 1957 when the family moved to Arkansas. She was married in December last year to James Marks.

Mr. and Mrs. Ernest Watson were in Texarkana, Friday.

Wright Patman's Weekly Letter

1st Congressional Dist. of Texas "Heart of the Gulf Southwest" Last Weekly Letter this Congress. The 78th Congress is entering its final days. No one can say for certain exactly when adjournment will come, but it is expected to be in the near future. This issue of the Newsletter will be the final one for this congress.

Business optimism rises. A survey of 1,000 professional corporation purchasing agents indicates that during August the confidence of American business in the future of the Nation's economy rose sharply. In a "business confidence index" showing how professional purchasing agents felt about short-term economic outlook, the August index rose 15 points above the July level.

Foundation investigation draws wide support. On July 23, I made the first interim report on the Small Business Committee's investigation of tax-exempt foundations. On August 20, I made a second interim report. As a result of these reports, I have received literally thousands of letters from all parts of the country warmly endorsing the investigation. Almost all of these letters have agreed that this is an area which should be looked into thoroughly. In his August 22 press conference, the President agreed that it must be determined whether foundations are being used as a "tax dodge" by profit-making companies. The President went on to say that the Internal Revenue Service, at his direction, is working to find methods of tighter administration to stop these abuses. More tax agents have been assigned to this task.

Common Market trade vital to farmers. American farmers have a great stake in our country's foreign trade policy, particularly in our relations with the European Common Market. At the present time, a quarter of all our agricultural exports go to nations of the Common Market. 27% of all United States cotton and 36% of all food grains are exported to these nations. Cash yield to American farmers from exports to Britain and the Common Market countries is \$1.7 billion a year. Farm prosperity depends in large part on retaining these markets.

Day care centers. The public welfare legislation recently enacted by the Congress provides \$5-million for this fiscal year, and \$10-million for each year thereafter, to be used in establishing day care facilities for the children of working mothers. It is felt that these centers can be an important factor in removing clients from welfare roles. Having a proper place where children may be left in safety will enable many mothers to take jobs which will make them self-supporting. The State of Texas will receive approximately \$300-thousand this year and roughly double that amount in subsequent years for this purpose.

Recent brides, take note. A packet of useful information for new home-makers, covering such matters as buying and preparing food, and the protection and care of fabrics, has been prepared by the Department of Agriculture. If you would like a free copy, let me know.

Speed up in mail delivery. An experiment in faster collection and delivery of local mail is being tried in Lansing, Michigan. Under the new plan, mail deposited in special boxes before 11 a. m. is delivered to any address within the city by 3 that same afternoon. If the system is a success in Lansing, plans are to adopt it in many areas of the country.

Soviet technology thefts. For many years, Russian scientists have been copying our inventions, ignoring the licensing and patent rights that all other nations honor. In recent months, Soviet planners have apparently begun to worry that this can work two ways. The Russian press has been complaining that some Russian inventions were picked up by Western nations. As a result, the Soviet Union has announced new patent regulations similar to those in this and other Western countries. It is expected that in the months ahead they will attempt to enter into inter-

New Hunting And Fishing Licenses Needed Sept. 1st

New 1962-63 hunting and fishing licenses are on sale. Both kinds of licenses currently in use expire Aug. 31 and new ones must be procured by hunters and anglers for use on Sept. 1.

All persons who hunt outside their home counties are required to have the new licenses. A new fishing license is also necessary for those who fish outside the county of their residence or use any kind of winding device.

Persons under 17 and over 65 years of age are not required to have licenses.

Hunting licenses are \$3.15 and fishing licenses \$2.15.

Austin. — Very few cars and trucks in Texas are taxes thru the ad valorem tax program.

Some counties, cities and school districts tax them, but close to 80 per cent of the vehicles go untaxed. So the Texas Commission on State and Local Tax policy proposes that something be done about it.

An Amendment to the constitution is their recommendation. They suggest an amendment exempting motor vehicles from the property tax, but allowing the Legislature to tax them.

Plan is to have the Legislature set up a procedure by which a state board would determine the value of all makes and models of motor vehicles. Then the county tax assessor-collector would collect a tax at the rate of \$1.50 per \$100 of market value when license tags are purchased.

Under this "suggestion," 40 per cent of the \$52,000,000 annual take would be divided among the school districts of the counties. Balance would go to the cities in accordance with their populations. County's share would be that portion represented by population outside cities.

Counties and cities would be required to spend the money only on road and street work.

Before the commission decides whether to recommend this procedure to the Legislature, a public hearing will be held sometime this fall.

SAFETY DRIVES — Two more safety drives were launched by Gov. Price Daniel. He proclaimed September as Home Safety Month, asking Texans to "live, think and drive safely throughout September."

Also outlined was a campaign to prevent some of the 30 traffic deaths the Department of Public Safety predicts will occur over the Labor Day week end.

Highway Department got into the act, too, due to the U. S. Army's planned maneuvers for October. Highway workers will erect signs calling motorists' attention to tank and convoy crossing-areas along state highways.

At noon, lunch prepared by Mrs. Marshall Bailey, was served to 11 employees at the American Legion Home.

Attending besides Mr. Moore were C. C. Hennig, Division manager of Whitewright, Floyd Hamilton of Talco, Fred Whitten Jr., J. Lee Smith, David Hudson, Duane Bryson of Bogata, J. H. Phillely, T. E. Burks of Detroit, Joe Garrison and Miss Lois Phillely of Deport.

Mrs. George Quilantan entered a Mt. Pleasant hospital, Monday.

Federal Grants Sewer Systems In Area Towns

Representative Wright Patman, of the First Congressional District of Texas, announced today that the Department of Health, Education, and Welfare has approved the following grants for municipalities within his Congressional District:

Detroit Red River County — For sanitary sewage collection system and treating facilities. Total cost, \$100,000; Federal grant, \$17,100.

Dekalb, Bowie County — For sewage treatment plant, including primary units and step ponds, outfall line and interceptor sewers. Total cost, \$196,894.49; Federal grant, \$46,894.49.

Blossom Lamar County — For sewage treatment plant and outfall sewers. Total cost, \$130,917.12; Federal grant, \$11,073.95.

Bogata Red River County — For new sewage treatment plant, including primary units and lagoons, outfall line and interceptor sewers. Total cost, \$99,527; Federal grant, \$23,193.

In making this report to his District Congressman Patman was gratified at the speed with which the applications for these vital improvements were prepared by the local officials and forwarded to the Department of Health, Education, and Welfare. He stated work is expected to commence on these projects in the near future.

Mrs. J. M. Gipson Rites Tuesday

Mrs. Hattie Viola Gipson, 65, died at 12:05 a. m. Monday morning in a Mt. Pleasant hospital.

The Talco Oilettes had their first annual tournament Aug. 27 at Mt. Pleasant Lanes Bowling Center with the following results:

In the doubles, Jean Kelley and Jean Newsome won first place; Cordell Alexander and Cecelia Smith, second place and Dorothy Jones and Sandra Kaufman won third. They were all presented trophies.

In the singles, Wanda Pittman won first; Nell Howard, second and Sandra Kaufman, third. They were all presented trophies. All events champion was Jean Kelley who was presented a trophy.

Four Talco Students Get Degrees at ET

Four Talco students are among approximately 450 students awarded bachelors and master's degrees at East Texas State College's summer commencement, Friday.

They are: M. L. Barron, M. Ed; Barbara Ann Johnson, M. Ed.; Vernon Joe Johnson, M. Ed.; Tommy Jean Sinclair, B. S.

Guests in the home of Mr. and Mrs. B. L. Gieger Monday were Mr. and Mrs. L. L. Gieger and Gayla Sue of Ft. Worth and Mr. and Mrs. Van Cato of Clarksville.

By Vern Sanford

ed by the sales tax, which took effect a year ago September 1, may have another thing coming.

Budget requests of state agencies predict another huge increase in public school and college costs in the two-year period starting September 1, 1963. Laws already on the books will divert about \$55,000,000 a year more from the State Treasury to the public schools, without any new legislative action.

College and university administrators, expecting a new flood of high school graduates, say they need \$40,000,000 a year more to take care of them. This includes \$10,000,000 a year for the University of Houston, which will be the state's second largest university when it joins the state system in 1963.

So budget-makers are thinking in terms of another tax law of some kind. Only a fast uptudn in business conditions, bringing new cash into the treasury from existing taxes, can relieve the situation.

Legislators, campaigning this fall, will have a chance to offer voters their suggestions. Some think the exemption on groceries, medicine and low-cost clothing should be taken out of the new sales tax law.

REDISTRICTING — There have been rumors of lawsuits to come, ever since the U. S. Supreme Court held that the courts can force states to redistrict, for legislative purposes, if their systems are patently discriminatory.

But it took Giles Miller of Dallas to bring the first suit. The Republican sued State Treasurer Jesse James, to prevent him from paying the salaries of state officials who make up an ex-officio legislative redistricting board. That is the body which is supposed to meet and redistrict, if the Legislature fails to do so.

Miller's suit departs from procedures used in 31 other states in that it is aimed at getting state, rather than federal, court action.

He contends that the redistricting law passed by the last Legislature was not fair and that it therefore is unconstitutional.

Dallas County is limited to nine representatives and one senator

under a state constitutional provision designed to limit representation of the big counties. It would be entitled to three senators and about 15 representatives if the state was divided evenly.

NEW TARGET DATE — Construction on the 3,027-mile Interstate Highway System in Texas is progressing so rapidly that the completion target date has been moved up a full year to 1971.

Texas Highway Department points out that the state now has completed and opened to traffic 1,090 miles, or 36 per cent of the total.

BATTLE CLOUDS — Legislative battle clouds already are looming on the horizon, anticipating an early combat baptism for the many new members of both houses.

Hearings before various state agencies and legislative committees are forerunners of pitched battles over the proposed consolidation, under a separate agency, of overlapping services now being rendered by numerous departments.

FLU SHOTS URGED — Health department has issued a warning to pregnant women and persons over 45 that it's Asian flu time. Department is urging adults over 45 (particularly senior citizens over 65), pregnant women and persons of any age with heart trouble, lung, kidney or metabolic diseases to make immediate arrangement for flu shots.

Widespread outbreaks of Asian influenza are predicted for the coming winter. A-strain flu occurs every two to three years.

Two doses of influenza vaccine, two months apart, are urged for people not previously immunized. Both should be administered prior to December, starting point of the cyclical onset.

TEACHERS-TO-LEARN — This fall, 2,300 public school teachers, of physics, mathematics and foreign languages, will attend classes Saturday mornings, or after their own teaching hours, to learn the latest developments in their subjects.

This is part of a program instituted by the Texas Education Agency to help beef up the state's instruction in these subjects.

Luck is something to look to
 when there is no other way to
 look.

Don't blame a girl if her beauty
 goes to her head. That's the place
 for it.

Beauty may be only skin deep
 but it goes at face value every-
 where.

The mistake most of us make
 is not profiting by the mistakes
 we have already made.

Many a guy has spent his life
 amassing a fortune only to spend
 the fortune trying to stay out of
 jail.

Not until we can handle the af-
 fairs on earth satisfactorily should
 we undertake to take on other
 worlds.

One of the hardest jobs we
 come across in life is that of mak-
 ing an easy living. It can be done
 if we work hard at it.

An old couplet runs this way:
 "As a rule
 Man's a fool;
 When it's hot
 He want's it cool;
 When it's cool
 He wants it hot—
 Always wanting
 What is not."

Mrs. Claud King and children
 of Henderson, who had been visit-
 ing her sister, Mrs. Paul Miller

 Thursday. Jerry and Billy Mil-
 ler accompanied her home for a
 week's visit.

Mr. Merchant

YOU NEED THE NEWSPAPER!

The newspaper of today is the most powerful medium of
 advertising on earth. In the old days the merchant may have
 thought he was a benefactor and that he was contributing his
 bit "as a public-spirited citizen" when he carried a two-inch
 space in the village paper every week in the year and gener-
 ally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People
 read advertisements. Many find their greatest interest in
 looking over the advertising pages to get news that will save
 them money, and, take it from John D. Rockefeller, the way
 to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as
 fresh as the news of the world or the latest baseball score.
 Live merchants cater to live people and they know they must
 not alone be up to the minute, but they must be some distance
 ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right
 now! Just read what the merchants are offering. Notice the
 invitations for you to do business with them. Notice how
 attractively the advertisements are set up and how inviting
 they are.

Business men—that is the successful ones—know advertising
 pays big returns. Look over this newspaper right now and
 pick out the successful firms. They're the advertisers. Ad-
 vertising is the tonic that puts dividends in the banks.

Everybody reads advertisements today! Mr.
 Merchant, is your advertisement in this
 newspaper?

ABUNDANT LIFE

by ORAL ROBERTS

YOU NEED A LITTLE MORE FAITH

As I was talking to a friend of mine one day, I inquired as to how he was feeling. He shrugged his shoulders and said, "Oral, there is nothing wrong with me that a little more money wouldn't cure."

I could not forget my friend's statement. It kept preying upon my mind. Later I was praying and reading my Bible. The Lord spoke to my heart that I should tell that man: "Friend, there is nothing wrong with you that a little more faith won't cure."

Many people say they have faith, but why is it that they find it difficult to get out of their troubles? It is simply because having faith is not enough. You must make your faith a living faith. It must live in your heart. It must be felt in your spirit so that you can let it go out to God. You can have all the faith in the world, but if you do not make your faith an active faith, you might as well not have any at all.

How does a person get evidence for his faith? He gets evidence, not through wishing, not through presumption, but through the written, literal promises of the Word of God.

We have promises made by God to us in the Holy Bible.

These promises are so faithful and sure that God has sealed them with the blood of His only begotten Son. We have evidence for our faith, and we can stand upon the Word of the living God.

Jesus said, "I am come that they might have life and that they might have it more abundantly." More speaks of a larger quantity. Abundantly speaks of an inexhaustible supply. Jesus promises us life over and beyond the ordinary. Salvation is life. Healing is life. The supplying of our needs is life. All these things God has promised us in His Word. And we can have them when we claim them by faith.

When you are tormented by fears and doubts, your body is full of aches and pain and your life is full of needs, open your Bible. Read God's promises to you. Put your name in the place of the people in the Bible and say, "Lord, this promise is for me. This is the evidence for my faith."

Many of us frantically try to solve life's difficulties and problems by our own limited efforts while God's love waits to sustain us and to give us unlimited strength. Our part is to have faith and let Him bear us up.

FAMOUS FIRSTS

SKIN-DIVING

FIRST recorded skin-divers were the Sumerians of 5,000 B.C. They sought a "weed of eternal life," believed to lie beneath the waves!

FIRST oxygen lung for skin-diving, an 1878 British invention, was first tried by a 20th Century diver who almost lost his life learning that oxygen becomes toxic at depths below 30 feet!

FIRST choice in after-sport refreshment among America's growing army of skin-diving enthusiasts (about 1,000,000 to date) is mellow Antique Bourbon—flavorsome, neat, or mixed with a favorite summer cooler!

FIRST-rate skin-diving find is a 1,000-ton Roman freighter sunk off Marseilles about 205 B.C. Oldest seagoing vessel ever found, its cargo of wine and dinnerware is priceless to modern archaeologists!

Winners in the junior division grand champion of the Red River Valley Exposition Beef Cattle Breeder's show held at the fair grounds in Paris Saturday were Billy Clark, son of Mr. and Mrs. Tim Clark of Mt. Mail Change of Address Before You Move

This newspaper has spent considerable money in newspaper space to urge subscribers to send in a new change of address BEFORE they move and to give their zone number if it is a city with zone mailing.

If you move to a new address without notifying us in advance, you will miss at least three editions, and back numbers cannot be supplied.

All the subscriber has to do before he moves is give us the complete new address on a three cent post card. This should be done at least a week ahead of our mailing time. Otherwise, you will miss receiving your old home town newspaper for two or three weeks until you send in the zone number if there is one, that new address. Don't forget the zone number if there is one.

ABUNDANT LIFE

by ORAL ROBERTS

GOD'S STRENGTH CAN BE YOURS

A man and his small son were working together in the garden gathering stones.

"Here's one I can't lift, Daddy," the boy cried. "I've tried with all my might."

The father stopped working, looked down at his boy, smiled and said, "Son, you didn't really try with all your might, for I was here as a part of your might and you didn't ask me to help you."

Jesus of Nazareth wants you to count Him as a part of your might. He knows your limitations, and He stands beside you to minister to your needs. He stands beside you when the burdens are too heavy to bear.

"Here, let Me help you," He whispers, stretching forth His nail-scarred hands.

He stands beside you at the busy intersections of life, when you are bewildered by the rush and tumult of all that's going on. He takes your hand in His and leads you safely across. He stands beside you when nerves are frayed, or when you are discouraged and lonely. He has a way of calming frayed nerves, or reassuring you and of putting you back in order.

Christ's strength is placed at

your disposal to be utilized. If you give up easily, if you are prey to lingering fears, it is because you have not learned to place your hand in His. You have only to reach out in faith and make His strength a part of your strength.

It often happens that life makes demands of you beyond your own powers. Such demands work for your good! Only that which seems impossible is really worth doing, for this is the law of growth and progress. But to succeed at these tasks, you must learn how to utilize God's help. For no one, of course, can go beyond human limitation without His help. Phillips Brooks used to pray, "Lord, I ask not for tasks equal to my powers, but I pray for powers equal to great tasks."

When you know that Christ's strength is a part of your strength, you need not be afraid of any situation or task that may confront you in the future.

God gives just the right amount of strength for every need. Saturate your life with it and face undaunted the challenge of living each day victoriously.

Car Inspection To Begin On Sept. 1

Motorists may have their motor vehicles inspected for their 1963 inspection stickers as of September 1, Motor Vehicle Inspection, Texas Department of Public Safety announced.

Vehicles should be inspected early in an effort to avoid the last minute rush to meet the April 15 deadline. It was further pointed out that motorists are subject to a fine not to exceed two hundred dollars if they are stopped operating a vehicle without a valid sticker attached.

Ward farm near Woodland, hit Glen Rose sands at 1,772 feet, Glass reported. The closest paying production near the new well is the Bagwell field some 20 miles away.

Alcorn Bowled Over By City Writer's Ideas On Solution to Farm Problem

Editor's note: Achin Alcorn Philosopher on his Johnson grass farm on Sulphur has gotten hold of another big city newspaper, with the following results.

Dear Editor: If I lived in a city surrounded by all those unsolved problems like traffic, lack of tax money, crime, congestion, crowded schools, parking, etc., I'd devote my time too to solving the farm problem and it was with considerable interest I ran into a newspaper which a puff of August wind turned up out here on this Johnson grass farm the other day with an article in it by a big city columnist discussing the farm problem. He has a brand new explanation for the farm surplus.

Now up to now, I've been contending all along the farm surplus was due to the fact us farmers are just more capable than say for example the space scientists. Everybody from President Kennedy on down admits the Russians are ahead of us in space, just as everybody from Mr. Khrushchev on down admits us American farmers are ahead of the Russians in food production. I don't want to brag, but there are the facts.

But this big city columnist has a different explanation altogether. According to him, "all this productivity in American agriculture is not necessarily the result of progress." He claims that "federal policies have been drawing into agriculture the small-town banker, the small-town doctor and anybody else after a fast buck."

In other words, it's all those small-town bankers and small-town doctors and lawyers who have brought up the farm land and produced the surplus in order to make some fast bucks. Wasn't us farmers at all.

Now I don't want to criticize this city columnist, and after all, you've got to remember that one of the most inviting things about

the farm problem is that anybody can offer a solution to it safe in the knowledge that nobody else has found the right answer either, but what I'd like to know is where are all these bankers and doctors and lawyers who are making all those fast bucks by farming?

Now I know some bankers and doctors and lawyers who own some land, but it has been my opinion that all of them together haven't added over two inches to the mile-high surplus, and as for making any money, fast bucks or slow ones, I'm afraid that city columnist hasn't had an opportunity to examine their farm ledgers. And I notice very few of them are giving up their jobs in town to really go whole-hog after those fast bucks out in the country.

Another nice thing about the farm problem is that it puts city columnists in the same class with country columnists when it comes to finding a solution, and if I lived in a big city with all those city problems closing in on me, I'd attack the farm problem myself at least twice a week and sometimes on Sunday.

Yours faithfully, A. A.

Cunningham School Registers Aug. 31

Cunningham school students will register on Friday, Aug. 31, according to Supt. James E. Jones.

Registration is set for 8 a. m. Books will be issued and assignments made. Regular classes will begin on Monday, Sept. 3 at 7:30 a. m., as a stepped up schedule will enable classes to dismiss earlier so students may assist in harvesting the cotton crop.
