Lawn Mower Safety - No. 3

Power lawn-mowers are built for safety and easy use. However, inattention and carelessness can cause accidents. Simple care and attention can prevent them. Protect yourself and others by following these safety steps:

- When starting your mower engine, be very careful to keep your feet well away from the blades.
- NEVER use a power lawn-mower that is not completely safe. Check and tighten all nuts, bolts and screws often to be sure.
- Treat electricity with respect. Never use a plug-in electric mower in the rain or when the grass is wet.
- Fuel can explode. Fill the fuel tank before starting the engine. Never add fuel when the engine is running.

Mrs. Lallie Welch was released from the Titus County Hospital in Mt. Pleasant and returned to her home Sunday.

Mrs. Hazel Humphrey and Wanda and Joe Edmund of Linden, visited Mr. and Mrs. Rosa Suel and family during the week end.

Mrs. V. L. Taylor and Mrs. Ernest Carroll Sr. were in Shreveport, La., Wednesday purchasing merchandise for their Variety Store.

Mrs. Lucille Perkins of Commerce, who was here to attend the funeral of Cecil Loftin, visited Mrs. B. L. Gieger and Mrs. Nadine Caldwell, Saturday.

Mrs. Bob McClung returned home Monday after visiting Mrs. Cecil Johnson in Dallas. She was accompanied home by Mr. and Mrs. Joe Bob Johnson and Mike of Commerce.

Mrs. Addie Seay of Hermleigh, who was visiting her brother-in-law and sisters-in-law, Mr. and Mrs. Oscar Seay and Mrs. Dan Seay and her cousins, Mrs. Milton Bolin, Mack McCullers and Mrs. Steel, returned to her home Sunday in response to a message that her son-in-law had died of a heart attack.

Mrs. M. C. Cooper left Monday for Bristol, Tenn.-Va., where she will spend the summer. She will be employed at the Knob Observatory at South Halston Lake at Bristol.

Mr. and Mrs. Edd Nugent returned home Monday from Tulsa, Okla., where they visited Mr. and Mrs. John Duke. They were accompanied to Tulsa by Mr. and Mrs. James Cargile of Atlanta.

Joel Haley, son of former pastor of Calvary Baptist Church at Talco, was recognized as the representative senior of Art of the University High School, Waco. Joel graduates this year along with 170 seniors.

Bud Worthington returned to his home in Shreveport, La., Tuesday after a ten day visit with Mr. and Mrs. S. F. Worthington, who accompanied him to Shreveport for a visit with Mr. and Mrs. Gene Worthington.

Mrs. S. F. Worthington was in Shreveport, La., Tuesday to attend an operetta and tea, presented by the first grade of the North Highland Elementary School, of which her granddaughter, Beinda Worthington is a member.

Rev. and Mrs. W. L. Zimmerman of Byers, visited Mr. and Mrs. S. F. Worthington and others here recently. The Zimmermans are former residents of Talco. Rev. Zimmerman was pastor of the Talco Methodist Church.

Alcorn Wants to Know How Egypt Swings Hand-Outs From Both Sides

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, comes up with a hard question to answer this week. Dear Editor: I was glancing through a newspaper last night and ran across a picture of President Nasser of Egypt giving Premier Khrushchev of Russia a bear hug and a continental kiss on the cheek in appreciation for half a billion dollars in aid and my reaction was, some people will do nearly anything for half a billion dollars, but then I read the article accompanying the picture. According to it, Russia has spent half a billion dollars building a big dam for Egypt, and Mr. Khrushchev was in Egypt to get the proper credit for it. On the other hand, the United States has spent nearly a billion and a half, three times as much, on aid the Egypt, on the theory I guess that avoiding a kiss from Nasser comes high. Surely we could have found somebody who would have volunteered, just to save the country a billion dollars. I don't know anything about

this guy Nasser, but I'd like to learn some more about his system of getting money from the United States to keep from going communist and money from Russia to keep from going capitalistic. You reckon he's working now on getting money from the Democrats to keep from going Republican and from the Republicans to keep from going Democratic? Has he thought of working Red China against Formosa? How about Degaulle against England? Texas against Oklahoma? If he can keep the system going, it won't be long before the desert sands of Egypt will flourish and it's possible we can apply to him for aid to keep from going Castro. Speaking of Castro, I have a notion he'll go down in history as the man who lost his country's cigar trade with the United States right when cigarettes were given a bad name. As for Nasser, we ought to study his methods a little closer. If I could just get two banks competing with each other to see which could lend me the cost money... Yours faithfully A. A.

Mrs. H. G. Murphy, the former Miss Louise Knechtel of Honolulu, Hawaii, came Sunday to visit her aunt, Mrs. C. E. Jones, and Mr. and Mrs. Harold Bonham and Peggy.

According to recruiter T/Sgt. Lee Milam of Wichita Falls, one man in about 200 ever scores

100% on the Air Force entrance exams, but six seniors of Burk Burnett High School did just that this year. One of those six was Dana Matherly, son of Mrs. Ray Matherly and the late Mr. Matherly, and grandson of Mrs. B. L. Gieger and the late Mr. Gieger of Talco.

WSCS In Pledge Service Monday

WSCS met Monday night at the Methodist Church for a pledge service. Mrs. Alex Waddell directed the program.

A salad plate, prepared by Mrs. Waddell, was served to Mmes. A. E. Foster, Francis Grayson, Lillie Belle Burks, Annie Lee Gipson, Beatrice Brown, Florence Richardson, Sarah Stamey, Nora Lee Gray, Jessie Bolin, Mary Sloan.

All members are urged to be present for the next meeting.

Mrs. James Clyde Watson of Talco and Mrs. James Gibson of Bogata, accompanied by their parents, Mr. and Mrs. Charlie Davidson of Deport, were in Dallas Wednesday.

Mrs. J. B. Nalls Dies May 14

Mrs. J. B. Nalls, 89, of McNeil, Ark., died May 15 at the home of a son, J. A. Nalls in McNeil. Funeral services were held Thursday at El Dorado, Ark., with burial in Rebotha Cemetery, near Smackover, Ark.

Survivors include Mrs. Sam Bailey of Shreveport, La., J. A. Nalls of McNeil, Roy and Grover Nalls of El Dorado, and Mrs. W. A. Perdue of Talco; 26 grandchildren, 56 great-grandchildren and 24 great-great-grandchildren. She was the grandmother of Mrs. Jack Winn of Talco.

which will be at the home of Mrs. L. G. Adams.

NOW... GREAT NEW ENCO EXTRA!

PUT A TIGER IN YOUR TANK!

New Power-formula Enco Extra gasoline boosts power three ways... preserves the power of new engines... restores lost power to many older engines:

1. **Cleaning Power!** Dirt can clog even a new carburetor in a few months of normal operation—causing hard starting and rough idling. Your very first tankful of New Enco Extra will start to clear away these deposits to improve power and mileage.
2. **Firing Power!** Spark plug and cylinder deposits can cause misfiring, pre-ignition and hot spots. New Enco Extra neutralizes these harmful deposits to help your engine fire smoothly and efficiently.
3. **Octane Power!** Octane requirements for new cars are up again this year. New Enco Extra has the high octane that most cars now need for full performance, smooth acceleration and passing power without knocking.

posits can cause misfiring, pre-ignition and hot spots. New Enco Extra neutralizes these harmful deposits to help your engine fire smoothly and efficiently.

You'll get something extra for your money with New Power-formula Enco Extra—it's like putting a tiger in your tank! *Happy Motoring!*

Wright Patman's Weekly Letter

st Congressional Dist. of Texas "Heart of the Gulf Southwest"
The Civil Rights controversy should not be considered a war between the Negroes and the Whites, and radical demonstrations on either side should not be allowed to cause it. Demonstrations will not influence Congress. Experiences in the past are convincing that they will not. If the Senate gets cloture and forces a vote in order to pass a watered-down provision of Civil Rights, the House by over 3 to 1—as past votes indicate—will refuse to accept the amendments and the Bill will go to conference between the two Houses to be worked out. If the bill is then restored to the House version, Senators who voted for the watered-down provision can save face only by voting against it. Therefore the real filibuster will likely commence after the conference report. If riots and demonstrations continue, chances of final passage are not good.
Red China, in addition to maintaining the largest standing army in the world, has an organized militia numbering more than 30 million. This is the "human sea" tactic that took so many American lives in Korea and proved so successful on the Indian frontier in 1962. Khrushchev wants to "bury" us; the Chinese speak of a vast sea in which to "drown" us. Buried or drowned, the choice is a poor one. Our own National Guard is not so numerous, but it has served us well during two World Wars. The present emphasis on nuclear armaments (which have neutralized each other—much as germ warfare was mutually too dangerous for use in World War II) has apparently created some dis-

Time to Apply For Transfer

Parents who plan to send their children to a school district other than the one in which they live, should apply for transfer sometime during the month of May, the county superintendent has announced.
Parents of children whose grades are taught in their home district who wish to transfer should make application first at the superintendent's office, and then contact their local board for approval.

interest in this important arm of defense. We must not neglect nor stint the National Guard units we do have nor should we be niggardly in providing the necessary facilities. National Guard Armories are a direct investment in the security and freedom of all our people.

The Ways and Means Committee of the House is taking a new look at existing Federal-state medical programs for all needy people, including dependent children, the blind, and the disabled, as well as the elderly. This is shaping up as a broader, more generous medical benefits program and would be offered as a substitute for Medicare which does not have enough votes to get out of Committee.

Congress will probably not complete its work before July 13, the date the Republican Convention begins at San Francisco and may not ever adjourn before August 24 when the Democrats convene at Atlantic City.

Texas Gets Second Largest Defense Payroll. Outranked only by California, the Defense Department paid out over \$1.1 billion in salaries to Texas based military personnel and civilian workers during the 1963 fiscal year. This is a tremendous aid to our state economy and helps to keep many thousands of small businessmen and non-defense workers profitably employed.

The Pesticides Bill has been signed by the President and is now law. Controversy will continue regarding the amount of danger to health and wildlife involved in the use of chemicals used in pesticides, but evidence is accumulating that this problem warrants increased attention.

A Congressman from an eastern state told me that he was recently visited by a constituent who said, "I hear that you fellows have declared war against poverty; well, I want to surrender."

Mosquitoes Are Serious Problem

Austin. — While you are reading this, your problems are multiplying. The problem: mosquitoes. At this time of the year they are multiplying by the score. One female may lay several batches of eggs—from 50 to 200 in a batch. She will leave her eggs only where there is water. These eggs will hatch into swarms of insect adults to vex and plague you this summer.

Mosquitoes continue to be a vexing and sometimes serious problem for everyone. In your home or yard and in public parks, they can interfere with man's chores and spoil his enjoyment of leisure time. They may reduce the efficiency of outdoor workers and cause farm animals to lose weight by driving them from lush pastures to barren hill-sides.

Some species of mosquitoes transmit diseases such as malaria and yellow fever to man, encephalitis to man and horses, and heartworm to dogs.

By acting now, you may save yourself time and trouble later on. The simplest and most effective method of cutting down or controlling mosquito population is to eliminate their breeding places. You might simply say it's a matter of killing them before they multiply.

Mosquitoes cannot hatch unless they are in water. Double-check your home for standing water. You may be surprised at the number of small puddles of water you'll find.

Discarded bicycle and automobile tires and tin cans will probably hold at least a small amount of water, or water may collect in rain gutters or on a flat roof.

Cisterns, cesspools, septic tanks, rain barrels and tubs provide excellent breeding places unless they are tightly covered.

If there is standing water on your premises that cannot be

Second Primary Absentee Voting May 27-June 2

County Clerk announced this week absentee voting in the second Democratic Primary election began on May 27 and continues through June 2.

Applications to vote absentee may be applied for at any time and the ballots can be mailed to the voters after May 27. Absentee ballots being returned must be postmarked no later than June 2.

eliminated, examine it to see if larvae are present. To do so, dip up a cupful—preferable a white cup—of water weekly. The small dark larvae will show up against the light background if they are present.

Should you find larvae in the water, apply an insecticide. If the water is not to be used for human or animal consumption, you may apply a spray containing 1 per cent DDT; .5 per cent lindane, 2 per cent of malathion or full strength kerosene or fuel oil. Whatever action you need to take, do it now . . . save yourself a lot of problems later.

SWST Co. - Workers Reach Agreement

Brownwood. — A new working agreement between Southwestern States Telephone Co. and the Communications Workers of America (CWA) has been reached.

The new contract, effective retroactive to May 1, is for a 12 months period and provides principally for wage increases ranging from 3c an hour to 9c an hour.

Throughout the eight weeks the negotiations, discussions have been on an amicable basis. Company officials termed the settlement "reasonable" and said the new agreement was "fair and equitable" to the employee group.

I used to swelter when I cooked hot summer meals . . .

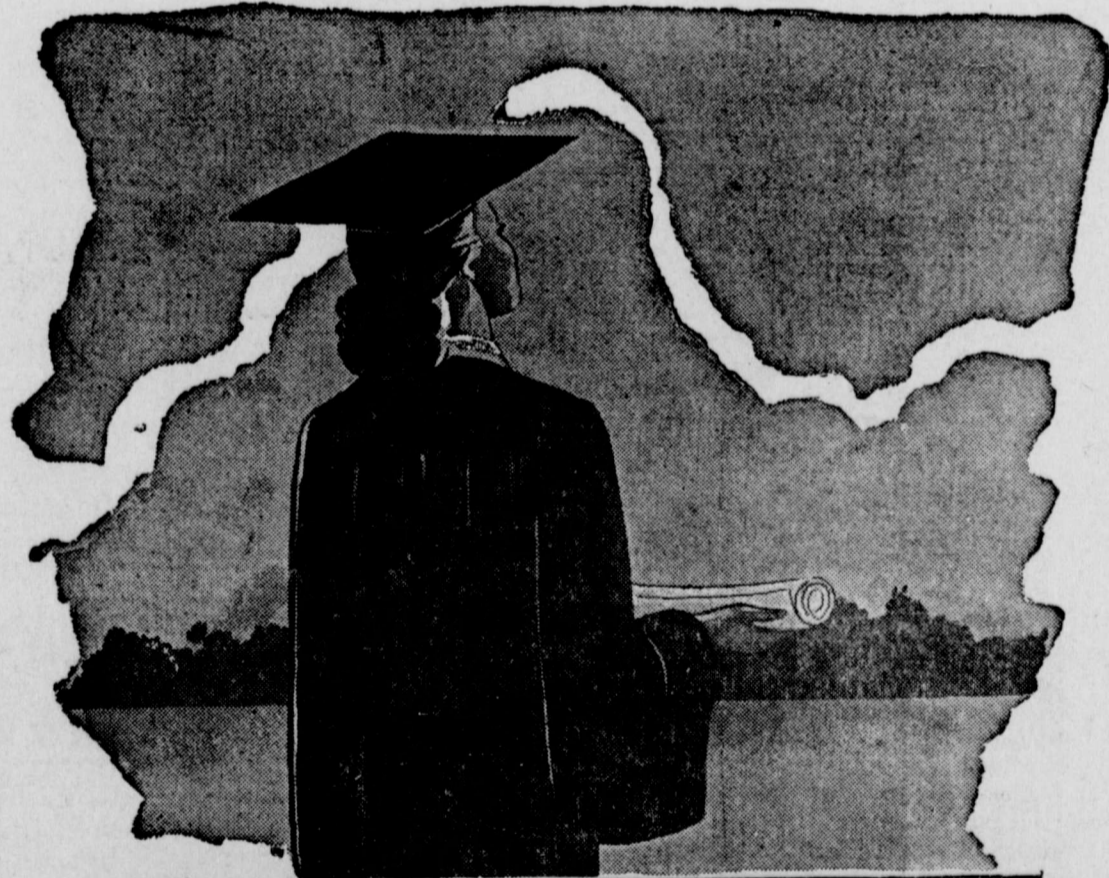

...and then I changed to a cool-cooking electric range

Electric cooking is cool cooking because an electric range cooks without flame. Flameless electric surface units fit snugly against pan bottoms. They put their heat into the utensils and the food, not into the kitchen air. The flameless electric oven cooks without combustion, so no flow of air is needed through the hot oven and into your kitchen. Result: your kitchen stays degrees cooler when you cook hot summer meals. See your electric range dealer soon.

Get details of the free normal wiring installation, now available to all CPS customers.
