Texas Press Association Austin. — Another federal court ruling - voiding the new political filing fee law - jarred state officials and posed the possibility of an emergency special legislative session soon.

While an earlier decision invalidating the old filing fee law was still on appeal to the U.S. Supreme Court, three judges in Dallas knocked out a back-up statute passed last year.

If rulings stand, Texas will be without a method of financing its May and June party primary elections. The filing deadline is February 7.

In the original 1970 decision on the old law, fees were declarwere used for revenue-collecting and were an absolute requirement to get on the ballot.

Legislators in 1971 passed law effective January 1. 1972. setting maximum filing fees amounting to four per cent of a candidate's term salary. Another provision provided for getting on the ballot by pauper's affidavit of inability to pay. together with a petition signed by 10 per cent area voters. This, too, was of invalidated by a federal court last Thursday. State is now enjoined from im-

plementing any fee system for financing the primaries.

Gov. Preston Smith and Secretary of State Bob Bullock have expressed hope courts will stay the latest order until the Supreme Court rules on the first case.

,Circuit Judge Homer Thornberry advised party county and state executive committees to make new rules for carrying out the latest ruling.

Since there is no authority for state financing of the primaries, a special legislative session apparently would be necessary to provide for that before May. One suggested alternative is voluntary contributions to pay the election bill - an estimated -1.5 million statewide.

AG OPINIONS - Texans can claim refunds on part of car sales taxes paid between August nard. 16 and December 10, Atty. Gen. Crawford C. Cartin held.

Those who get refunds of the federal excise taxes (repealed August 16) can also put in for refunds of the state tax (calculated on the total amount paid for a car) averaging about \$8. In another recent opinion, Martin concluded.

The decision determined the old professor's home should go to an attorney who signed a \$35.000 purchase contract for it. and that his other property, on his death, should go to a nephew.

A February 16 hearing was set by the Supreme Court on a Houston barber's damage suit which involves a claim that freon cans should contain printed warnings they may blow up if attached to the wrong part of an auto air conditioner. The barber was injured when a can exploded as he was attempting to "recharge" his air conditioner.

DEMOCRATS IN JUANDARY -Just about the time a contraversy over party rules appeared to be settled, Democrats found themselves with a leadership dispute on their hands.

Tips that can save you money on heating your home

Have your heating equipment serviced annually. Preventive maintenance on

blowers, and bearings

and replacement of filters can increase the efficiency of your heating system and save the cost of major repair bills later.

fans, belts

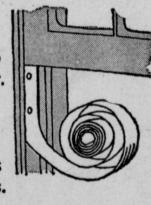

Use lower thermostat settings at night and when you're away from home.

The U.S. Government advises that you can save 3/4% on heating costs for each degree you lower the

thermostat for a period of 8 hours at night.

3 Weatherstrip doors and windows to keep out any cold air. Caulk cracks. Keep drapes closed, especially at night. Insulated-back drapes help prevent heat loss.

Wall and attic insulation pays for itself in savings on heating costs in winter and cooling costs in summer.

O Clean, flameless electric heating is 100% efficient since no heat is wasted up a chimney or flue. Electric furnaces have heating elements that turn on in sequence for exact heat control ... and the temperature stays closer to your thermostat setting.
