Tax Decrease In Telephone Bills

Telephone customers may notice a one per cent decrease in their telephone bills in January.

The reduction is the first scheduled step to eliminate the Federal Excise Tax paid by telephone customers and collected by telephone companies on telephone service, reducing it from 10 per cent to 9 per cent during 1973.

The government agreed in 1971 to continue the tax through 1972 and then reduce it one per cent annually for 10 years until eliminated.

The Federal Telephone Excise Tax was first passed as a "temporary" tax during the Korean Conflict in 1953. It was an easy tax to assess, even easier for the government to collect since telephone companies did not collect for the government free of charge. Despite continuing efforts to remove the tax, felt by many to be unfair, it has continued since the end of the Korean Conflict.

The tax is levied on both local telephone service and long distance calls.

Austin. — Texas legislators, with new leadership in both houses and a swarm of first-term members, report here January 9 for their expected history-making regular session.

They face a mountain of problems, the magnitude of some still un-measured.

Revising the present method of financing public school education stands at the top of the list — depending on a U. S. Supreme Court ruling yet to come.

If the High Court upholds a three-judge federal court ruling in San Antonio just over a year ago, lawmakers are under orders to revise the present system which is keyed to property taxes. A reversal could allow more time, but the State Board of Education is expected to vote January 13 for a complete state financing of basic education costs spread over a period of several years, regardless of the Supreme Court decision.

Lawmakers are hopeful of avoiding a major tax fight, but again the school finance case may completely upset those hopes.

Among other major items for legislators' consideration are these:

- Reform of the legislative process itself and state government in general, including a new code of ethics law, a revised lobby control act and revision of campaign finance reporting requirements.

- Overhaul of state election laws to provide a new method of financing party primaries and possibly moving voting dates for primaries.

- Court reform.
- Redoing the legislative and congressional redistricting of 1971.

POLLUTION MAJOR JOB — Atty. Gen.-elect John Hill assigned top priority in his new administration to tackling a heavy backlog of pollution cases.

Hill said he also plans heavy emphasis on consumer protection, including a fresh package of legislation in the field, and combatting organized crime thru a special, five-member task force of attorneys.

The incoming Attorney General said pollution not only damages the quality of life but is a serious economic factor, especially along the industrialized Gulf Coast.

It pledged to seek accelerated docketing of the air and water pollution cases, quicker filing of new cases submitted by state agencies and fast prosecution by his staff.

CAMPUS TROUBLED — An "extremely volatile" situation on the campus of the University of Texas at El Paso led to sudden appointment of a new president there.

Dr. Arleigh B. Templeton was dispatched to the troubled campus from the new UT-San Antonio which he had been picked earlier to serve as president. UT regents confirmed the selection in an emergency session. Dr. Joseph Smiley resigned November 1 as UT-El Paso president.

The U. S. Justice Department advised UT Chancellor Dr. Charles LeMaistre corrective steps were needed at El Paso to prevent a campus tragedy sparked by demonstrations against the ad-

PARK PLANS MOVE ON — Texas Parks and Wildlife Department, over protest of some landowners, plans to add another 550 acres to the Lyndon B. Johnson State Park along the Pedernales River near the former president's ranch.

The P-W Commission also approved buying 554 acres at Bryan Beach two miles southeast of Freport in Brazoria County for a third Gulf Coast Beach Park.

A master plan for development of Mustang Island as a state park is being prepared and is expected to be presented to the Commission in about two months.

Meanwhile, Dallas County commissioners ordered a study to determine possibility of converting 603 acres of federally-owned land at Seagoville into a state park.

GAS ORDER EXPECTED — A Railroad Commission order setting priorities for use of natural gas when supplies are short is due to be entered by mid-January.

At a hearing here November 30, two Commission officers examined views on gas curtailment. They later made recommendations (as yet not disclosed) to the three-member Commission. Opposition to a statewide standard of priorities was expressed at the hearing. Testimony was also offered in favor of granting priorities to homes, schools and hospitals in time of drastic shortages.

INAUGURAL DINNER SET — Democrats will celebrate inauguration of Governor Briscoe and Lt. Gov. Bill Hobby at a combination fund-raising and party victory dinner January 15.

The \$25-a-plate dinner will offer entertainment by Danny Davis and the Nashville Brass and talks by Briscoe, Hobby and new National Democratic Chairman Robert Strauss. State Democratic Chairman Calvin Guest of Bryan will be master of ceremonies.

AG OPINIONS — Local political subdivisions may call for elections on granting homestead property tax exemptions (not less than \$3,000) to persons over 65 on petition of 20 per cent of voters, Atty. Gen. rCawford Martin held.

In other recent opinion, Martin concluded that the State Air Control Board is among three state agencies having responsibility for feedlot waste stockpiling, along with Texas Water Quality Board and the Texas State Department of Health.

SHORT SNORTS
The State Supreme Court held tavern-owners can own more than a single vending machine and don't have to pay a \$300 annual tax on each.

Tires must be inspected under an amendment to the mandatory annual auto inspection requirement starting January 1.

New House Speaker Price Daniel Jr. proposed a rule which would allow news reporters brief contacts with representatives at their desks on the House floor.

Texas is one of 31 states which has hired a Washington law firm to oppose federal cuts in welfare assistance involving ineligible persons on aid rolls.

Texas Education Agency pointed to a 2.8 per cent cut in the dropout rate of migrant students in 1972.

Household Harmony
 WAYS OF THE WISE FOR MAKING FAMILY LIFE SMOOTHER AND MORE FUN

PLAYTHINGS FOR TOTS — BEFORE CHRISTMAS, TOO
 Looking forward to Christmas? So are the kids, but their sense of time—and their "frustration thresholds"—are much different from yours. And whether they quietly play or noisily bray during Christmas festivities will depend not only upon their discipline but on your knowledge of psychology.

Here are some tips from the makers of Crayola crayons to help smooth out the wrinkles in your Christmastime household

- 1) A week before Christmas or even earlier, make up a special Christmas Calendar. Small children know Christmas is coming, but they aren't sure when, and they get easily discouraged as the days drag on. Draw 8 or 10 large square boxes on a large white cardboard or art pad sheet. Use different colored crayons to make the lines, and mark only the last square "Christmas Day"—the goal! Each day, have your tot crayon a picture in that day's square—whatever his active imagination conceives. As blank squares fill up with colorful drawings, he'll know Christmas is coming closer, and those "endless last days" will be more enjoyable and seem to go faster.
- 2) Give your child a small present before Christmas. . . a simple game to be shared while they wait for the Big Day. . . the box of crayons he'll use to fill in his Christmas Calendar, maybe just a

TASTE-TINGLING PUNCH

After a day of skiing or skating, a tart, tangy, spicy hot cranberry punch is a taste treat that is sure to be the hit of the party.

Home economists at the Corning Glass Works test kitchens suggest this non-alcoholic recipe for cranberry punch—ideal for holiday entertaining. It should be served from heat-resistant glass punch bowls that can be warmed in the oven—a Pyrex ware sculptured toddy bowl being appropriate. The ingredients are:

- ¾ cup brown sugar, firmly packed
- 1 cup water
- ¼ teaspoon salt
- ¼ teaspoon ground nutmeg
- ½ teaspoon ground allspice
- ½ teaspoon ground cinnamon
- ¼ teaspoon ground cloves
- 1 4-ounce can unsweetened pineapple juice
- 1½-quart bottle cranberry juice
- 4 cinnamon sticks
- butter

In a five-quart saucepot, mix sugar, salt, spices (except cinnamon sticks) and cranberry juice. Bring to a boil. Add pineapple juice to the hot spiced syrup and heat again to boiling. Pour into a warmed Pyrex four-quart toddy bowl. Serve in Creative Glass sippers. Dot with butter; use cinnamon sticks for stirrers. The recipe makes ¾ quarts or about 20 five-ounce servings.

The gals in the Corning test kitchens say that even though their punch recipe is non-alcoholic, "it tingles all the way down to your toes."
