"Heart of the Gulf Southwest" ROSY PREDICITIONS. The

Economic Report of the President, which has been submitted to Congress each year since 1946, is bi-partisan in this one respect -the occupant of the White House, whether Democrat or Republican, always speaks glowingly about our economic expectations. The Joint House - Senate Economic Committee, of which I am Chairman, must take a close look at the sober realities. disregarding the froth churned up by the Administration's economists. Hearings on the Report began last week with testimony from top officials of the Nixon Administration as well as the foremost economists from both the business world and the academic community. Based on the trend of information being received. I am more convinced than ever that we are facing a year of higher interest rates, high prices, and escalating inflation the bureaucratic double-talk of the President's advisers notwith-

SO THAT EAST TEXANS CAN SEE FOR THEMSELVES, I have obtained copies of the full "1973 Economic Report" (301 pages) and will send single copies free to constituents upon request to my office.

DAIRY FARMERS DOING A GOOD JOB FOR AMERICA. The tremendous efficiency of our agricultural system largely accounts fod America's high standard of living. Dairy efficiency, for example, has almost doubled in the last 20 years. In 1954, there were 22 million dairy cows in the U. S. producing 122 billion pounds of milk per year. In 1971, the nember of milk cows declined to 12.2 million, but total volume of milk produced remained the

CAUGHT IN THE MIDDLE. Increased feed grain prices have put dairy farmers in a severe cost-price squeeze. The price farmers get for their milk is regulated, while thir production costs are not. Dairy farmers already receive a low return on their labor and capital, and they cannot reasonably be expected to carry this added burden. I have, thedefore. co-sponsored legislation to set the milk support level at 80% of parity for the 1973-1974 marketing year (up from the present 73% figure). An abundant and dependable supply of milk is

essential for a healthy America. DALE CARNEGIE BOOK WELL RECEIVED BY EAST TEXAS SENIORS. Continuing my custom of recent years. I am again sending copies of "How To Win Friends and Influence People" to each high school senior in Texas' First Congressional District. To date, more than 6.000 copies of the book have been mailed out. and additional copoes are being sent as lists of seniors are received from the remaining schools. It is most gratifying to be able to perform this service since I feel that Mr. Carnegie's book is so helpful, and it is a

pleasure to hear from students

who have received the book. THE ENERGY CRISIS could mean homes and schools without heat or electricity in the dead of winter, businesses and factories shut down, and farms and ranches without fuel to power their equipment. Already parts of the U. S. are feeling the pinch of short supplies of oil and natural gas, and our energy needs will double by 1980. To meet present and future demands, we must move faster. especially in the field of nuclear power. The 22nd Annual Report of the Joint Committee on Defense Pdoduction, of which I was Chairman during the 92nd Congress, provides significant data and recommendations on America's energy problems. Single copies of this report will be hent free to constituents upon request to my office.

Briscoe lost no time in signing into law legislation authorizing appontment of a 37-memoer Constitutional Revision Commission when both houses finally agreed on terms.

The Commission, which will study the constitution and make recommendations to the legislature when it convenes as a constitutional convention net year, will go to work within 14 days after it is named. It has only until November 1 to complete its hearings, study and report to lawmakers.

Under the legislation, Briscoe will serve as chairman of the sixmember selection committee to pick the study commission. Other selection committee members are Lt. Gov. Bill Hobby, Atty. Gen. John Hill. House Speaker Price Daniel Jr.. Supreme Court Chief ustice oe Greenhill and Court of Criminal Appeals presiding Judge John Onion Jr.

Legislators served notice they want the Commission to be fairly and equitably representative of sexes, ethnic, social and economic groups and geographic regions.

Recommendations for membership already are pouring in from interest groups.

A majodity vote of the House (76 members minimum) and Senate (at least 16) could reject the selection committee's choices of a commission slate.

A controversial provision of the legislation permits the selection panel to meet in secret (by majority vote) to consider its apuointments - after first holding an open session and later meeting publicly for final, formal

SHIELD, LOBBY BILLS AD-VANCE - The proposed "free flow of information law" to protect newsmen from forced disclosure of their confidential sources of information to investigative bodies has pessed the House with only a handful of dissenting votes.

At the same time, the House passed (with just 25 dissenting votes) a tough lobby control bill. Both measures are part of the reform package of Speaker Daniel who also backed amendments to the open meetings law and a measure to ease access to governmental documents in the public interest.

Sponsors of the shield law fought off five amendments to weaken protection against source

disclosure. The lobby control act. to be administered by a 12-member ethics commission, would require reports of lobbyists' activities. including gifts or loans of more than \$50 in any month of a legislative session to legislators.

Both measures now advance to the Senate, where a somewhat less-enthusiastic reception is anticipated.

TEEN-AGERS ON JURIES -Under legislation approved by the House without debate. 18-yearolds can serve on all juries.

Representatives further passed a bill to extend until 1975-76 the deadline for school districts to go n the quarter basis.

Another bill advanced by the House to the Senate would make the school district fiscal year conform with the July 1-June 30 federal fiscal year timetable. COURTS SPEAK - A Fort

# Scouts Celebrate Feed Grain Prog. 63rd Anniversary Changed 1973

Producers with feed grain bases (corp, grain sorghum. barley) have three choices under the 1973 feed grain program.

1. Sign up and set aside 25 per cent of the feed grain base and earn payments of 32 cents per bushel on corn, 30 cents per bushel on grain sorghum, and 26 cents per bushel on barley. Payments to be computed on 50 per cent of the feed grain base established for the farm. Under this plan a farmer may plant all the feed grain he wants to after making the required set aside and taking care of the conserving base. All production will be eligible for loan and additional payments, if applicable. The set aside may not be haved anytime during the year 1973 and may not be grazed during the period April 30 and October 1, to get full payment. There is a provision under this option where a producer may file a request to hay or graze the set aside acrag the entire year, the payment will be reduced by 30 per cent of the set aside rate. This having or grazing provision is not available to any farm on which the 1973 conserving base is reduced from 1972.

2. Sign up in the program and not set aside any acreage and earn payments of 15 cents per bushel on corn. 14 cents per bushel on grain sorghum, and 12 cents per bushel on barley. The 1973 planting of feed grain could not exceed the acreage of feed grain planted for grain in 1972. All production would be eligible for loan but not for additional payments, if applicable. The con serving base must be maintaine !.

3. Not sign up in the program. No payments would made and production would no be eligible for loan.

A Cook Book Guild Tested Recipe

Something special to beat the cold weather-a spicy, easy-toprepare shrimp dish that will make a real change-of-pace meal From BEST RECIPES FROM THE COOK BOOK GUILD (Doubleday), edited by Pat Fink.

JUMBO SHRIMP, MARGHERITA STYLE

25 raw jumbo shrimp, about 21/2 pounds (10 to the pound) dash of paprika

3 tablespoons olive oil

1/2 cup butter

1/2 cup dry sherry

juice of 1 lemon 11/2 teaspoons Worcestershire

cloves garlic, finely chopped' 1/4 teaspoon dried tarragon 1/4 teaspoon dried basil salt and pepper to taste

Wash the shrimp but do not remove the shells or tails. To clean out the sand veins, cut the shells with a scissors along the backs of the shrimp. Remove the sand veins with a knife. Make certain the shrimp and shells are clean. Slice the shrimp down the middle lengthwise, but do not cut through completely. Spread apart to f om a butterfly shape. Put the shrimp into an ven-proof casserote r baking dish. Sprinkle with paprika and ouve .d. Re-serve.

Moit the butter in a saucepan over very low heat, being reful to too lee it burn. Add the dry sherry, lemon juice, Wore estershire cauce, garlic, dried tarragon, dried basil, salt and black pepper. Stir with a wire whisk until sauce is thoroughly blended and heated. Keep hot.

Broil the shrimp four inches from the source of the heat in a preheated, very hot (450°F.) broiler for five minutes, turning once. Be careful not to scorch the shrimp. Pour out the olive oil. Pour the sauce over the shrimp. Broil for one minute longer. Serve at once, Serves five.

#### **Bond Issue Defeated** In Vote February 10

Voters of the Talco-Bogata School District rejected the \$890,000 bond issue that was held on Saturday, Feb. 10. In Talco, the vote was 39 for and 239 against. In Bogata, the vote was 141 for the bond issue and 434

Had the bond issue been successful, an elementary school would have been constructed adjacent to the Rivercrest High School giving the district only one campus to operate and maintain as compared with the present three-campus arrangement. In addition, some of the bond funds would have been used to make improvements in the facilities and programs of the voca-

tional departments. Superintendent Talmadge Morgan said that he was encouraged to see such a large number of voters cast ballots in the bond the schools of the district. He further stated that he did not feel that the rejection of the bond proposal was an expression of unconcern and lack of interest on the part of the public in having good schools and facilities, but that the public desires that a different approach be used to ac-

complish this purpose. The superintendent stated that not solve any of the problems facing the district - that these problems are still with us and need a solution. He said that the school board, administration, and public must continue to work toward an acceptable solution to these problems.

What will be the next step by the school Board? Mr. Morgan said that since the bond issue was not approved that it would be his recommendation that time be taken to further study and evaluate conditions in the district before other proposals are presented. However, he did state that in his opinion that there are conditions related to some of our facilities that must have attention in the very near future.

Consideration may be given to the organization of a group of committee of about 20 citizens from various segments of our school district to make a thorough and complete study of conditions and problems in the schools and come up with suggestions and recommendations to be presented to the school Board for considerelection and show an interest in ation. Mr. Morgan said that if this procedure is used that it would be necessary for this committee to meet with the school Board and administration to get factual information concerning conditions of the district; that it would be necessary for members of the committee to spend time on the various campuses observing the operation of the schools; and to look into every 'nook and cranny' in order to get a true picture of the school district. He said that he felt this was absolutely necessary in order for the

committee to make recommnedations with the interest of young people at heart. Mr. Morgan's final statement was that every effort will continue to be made to give our young people the best education that we can with the facilities and programs that are available and that we still have many things to be proud of in our school district. His plea is that we do not permit too many factors apart from the main purpose of a school - which is to educate young people - to enter into our decision making.
