Worth

By Nanalee Nichols

We received the slick book for August a little while back. A slick book is the service we subscribe to in order to have artwork and pictures of various things to use in the ads we produce. Anyway, this slick book was filled with "back to school" stuff.

And as we looked through it I realized that it has been a lot of years since most of these symbols for school have been used!

Our traditions are so deeply rooted that a picture of an apple and a school bell instantly trigger thoughts of schools, teachers and students.

But since when has anyone seen a teacher with that wooden handled, brass symbol of authority, the school bell, around? If there is one, it isn't used to signal the entire school...but only to call in one little group from recess.

No, no days there are electronic bells, pre set to go off throughout the school building. Apples were given to teachers back in the days when apples were a real treat, something special.

The slate and chalk is yet another popular symbol of back to school...but today's children, and indeed, today's youngster's parents, have never known what it was like to use a slate to work their sums. They use a black-board sometimes at the front of the classroom, but that's about it!

Rulers are one of the school oriented things that truly haven't changed much...although they may be metric now as well as done in inches.

Books remain the same, but the traditional packaging with a book strap, shown in so many of our ad slicks, has long since given way to decorated folders and backpacks. Computer terminals are creeping in, though...several of the slicks we have show youngsters clustered around the high tech symbol of today, the PC terminal.

The little red school house, with the belfry and bell, far outways computers as the favorite educational reminder. And it's been a long, long time since there were any little red school houses around!

It's interesting the way our mind responds to these symbols...for the youngest child knows that the little red school house means back to school sales or savings...even though he has never seen one.

Personally, I find these standard symbols familiar and comfortable. And it's with relief that I spot the most common back-to-school motif of all...the big yellow school bus...and find it modernized a little...but basically still the same!

P.S. A word of thanks to all who have indicated their support and disgust over the issue about "the" in front of these paper's names. We are contacting our congressmen and senators to see if we can find some way not to be eaten by the bureaucratic monster! With apologies to a certain ad campaign "We thank you for your support".

Red River County Awarded Prison Elated County Judge Says "New Jobs For Red River County!"

At last! After months, and even years of disappointments, new jobs are coming to Red River County.

An elated judge L.D. Williamson telephoned the good news from Austin on Tuesday, August 29.

A low-security to house several hundred inmates being prepared for "reentry" into the civilian economy will be located on Highway 82 west of Clarksville.

Judge Williamson, who has spearheaded efforts to attract industry or other major employers to the county, had traveled to Austin to represent Red River County's bid for the prison facility. After several years of economic decline the prison will create

new jobs and inject several million dollars into the local economy.

The initial earth-moving contract to prepare the site for prison construction was let at the courthouse on August 29, to Harrison, Walker and Harper of Paris, Texas.

Excavation will begin immediately. "This means money coming directly in to the Red River County economy" observed First Precinct Commissioner Drue Pirtle.

Next steps include invitation to contractors to bid on the general contract for prison construction. This contract, expected to reach the neighborhood of \$7 million, is scheduled to be awarded one month after issuance of the bid invitation.

Big Hearted Postmaster Is Great Community Worker

By Mollie Williams

Although he isn't a native of Texas and certainly doesn't speak with a Texas drawl, Bogata Postmaster Jack Crane has a heart as big as the Lone Star State and shows Southern hospitality in his friendly community involvement.

Jack left his native Virginia in 1967 with his wife Jack and two small children to "seek a better life" in the United States in a 9 x 11 foot tent pulling all they owned behind the car in a small trailer.

During their trek they encountered some terrifying experiences in their quest for the future. Texas storms were a new experience, and they actually had to be rescued from Palo Duro Canyon when the Red River flooded!

Fortunately, they also had many wonderful experiences, and fell in love with the state of Texas, never returning to Virginia.

Jack graduated from Warwick High School in Virginia in 1954. He entered the army in May of 1954, and rose to the rank of Platoon Sergeant. He served in the Korean Conflict where he was wounded in action. He received a Purple Heart, Korean Unit Citation, National Defense Medal, Korean Service Medal with one

bronze star and the U.N. medal.

He also played Tri-County semi-pro baseball while in the army. He received an honorable discharge in 1959.

Jack's education includes attending Computer Programming school and Eastfield Junior College, majoring in Mid-Management. He entered the postal service in 1961 as a clerk at Ft. Eustis, Virginia.

The Crane's first home in Texas was in their tent at Lake Lavon. After several days spent job hunting Jack was employed at the Garland Post Office as a letter carrier and was later promoted to supervisor. While there, he negotiated the first postal worker's contract and served for several years as president of National Association of Letter Carriers.

In 1981 Jack came to Bogata as postmaster.

True to his character, he immediately became an active member of the community by making himself available to work on various projects and community needs.

He is a charter member of the Bogata Lions Club and was voted Lion of the Year in 1986. For several years he has prepared and served the meals for every Lions Club meeting. The job is now on a volunteer basis, but other Lion members say with a smile that "Jack's turn comes around more often than the other members".

Accident Claims Life Of Talco Woman

A two-vehicle accident on Highway 271 about midway between Bogata and Talco claimed the life of a Talco woman Saturday, August 26.

Donna Jan Whittington was pronounced dead on arrival Saturday at St. Michael's Hospital in Texarkana from injuries sustained when the van she was driving collided with a tractor-trailer loaded with pipe.

According to Jim Trammell, DPS investigating officer, Ms. Whittington was driving her 1985 Dodge van south on 271 while the tractor-trailer

was headed north. The van veered across the center line into the rear wheels of the truck, hitting head on with the rear wheels.

Ms. Whittington was transported to St. Michael's Hospital by AirLife helicopter, but was dead upon arrival from severe injuries.

The driver of the tractor trailer, Jeffie Arnold Jones of Edmond, Oklahoma, was not injured in the accident, and the tractor-trailer sustained little damage.

Social Security Notes

By Ray Hudson, District Manager
Paris Social Security Office

Fifty percent of Social Security beneficiaries have direct deposit. When the idea of direct deposit of Social Security checks was first introduced in the middle 1970's, most people were not used to the idea of having their checks deposited directly into accounts in their financial institutions. They were used to having their checks in their hands by the third day of the month.

To prevent their checks from sitting in the mailbox for a long time, beneficiaries had to be home when the checks were delivered.

On many occasions, plans for a vacation trip scheduled to start before the third of the month, or to end many days after the beginning of the month, had to be changed out of concern for the checks. Then the idea of direct deposit began to be more attractive.

To be home on the third of the month was not always enough. Sometimes the check did not arrive on time. There was also the standing in line to cash the check.

All these concerns are solved with direct deposit. When people started discovering the advantages of this service, the number of beneficiaries with direct deposit grew. However, 50% of the 38.6 million of Social Security beneficiaries now have direct deposit.

Advantages of direct deposit include: freedom from worry, freedom to be far away from home any day of the month, freedom from waiting in line to cash the check, and the assurance that the check is safe in the bank ready to be used at any moment from any place.

And this can be supported by more than 18 million Social Security beneficiaries who are presently enjoying the advantages of this service.

To arrange for direct deposit, just contact your local Social Security office. Be sure to have your Social Security number and a copy of your deposit slip, or something that shows information about your account.

NOTICE OF PETITION FOR APPROVAL OF DEFERRED ACCOUNTING TREATMENT FOR TNP ONE, UNITS 1 AND 2 AND ADJUSTMENT TO PURCHASED POWER COST RECOVERY FACTOR ("PCRF") CALCULATION

Texas-New Mexico Power Company ("Company") hereby publishes notice that it has filed with the Public Utility Commission of Texas ("Commission") a Petition for Approval of Deferred Accounting Treatment for TNP One, Units 1 and 2 and Adjustment to PCRF Calculation pursuant to Sections 16(a), and 27 of Article 1446c, Vernon's Annotated Civil Statutes and Section 23.12(a) of the Substantive Rules of the Commission. TNP One is a lignite-fired generating station being constructed by the Company in Robertson County, Texas. The Company estimates that the first Unit of TNP One will be in commercial operation in June 1990. Unit 2 is estimated to be in commercial operation in June 1991. The Company's Petition has been designated as Docket No. 8880 at the Commission. In such Petition the Company seeks an order from the Commission allowing the Company to defer the depreciation, operation and maintenance expenses, tax expenses and carrying costs associated with TNP One, Units 1 and 2 from the respective commercial-in-service dates of those units until the time rates reflecting such costs are in effect. The Company is also requesting that the Commission approve an adjustment to the calculation of its PCRF factor. This change to the PCRF factor will not affect rates until the respective commercial operation dates of the units, and would be in effect from that date until each unit's costs are allowed into rate base by Commission order. Approval of this request will not result in an increase in current rates. The rate treatment afforded these costs will, however, have a bearing on overall costs which are included in rates that customers pay over the life of the plant. The Company seeks timely regulatory action to permit the deferral of these costs to be reflected in financial statements for the deferral period, which is from the date of commercial operation until each unit's costs are allowed in rate base.

At a prehearing conference held on July 17, 1989, the Administrative Law Judge set a September 8, 1989, deadline for motions to intervene and scheduled the hearing on the merits of the Company's Petition for November 27, 1989, at 10:00 a.m. at the Commission offices in Austin, Texas.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the PUBLIC UTILITY COMMISSION OF TEXAS, 7800 Shoal Creek Blvd., Suite 450N, Austin, Texas 78757. Further information may also be obtained by contacting the Company's general office at (817) 737-1349 or by calling the PUBLIC UTILITY CONSUMER AFFAIRS DIVISION at (512) 458-0223 or (512) 458-0227 or (512) 458-0221.
