Nichols
Worth

By Nanalee Nichols

A friend of mine may say I stole her idea...but I don't think my column will keep her from doing her article.

This one's title is "Signs Seen Along Highways and Byways".

One of my favorites was a billboard in Ft. Worth for some country music station. It read "You stepped on my heart and stomped that sucker flat!" then continued, the best lyrics are on...whatever the call letters were.

Another favorite was in Dallas. This billboard were bright pink. It was advertising a plumbing company. The message was simple, and hilarious. "We're twenty five years old and flushed with happiness". Ohhh, talk about double entendres!

Up in Oklahoma there is a small, neat sign in a yard that reads "Tedder's Registered Tick Farm".

Out in Dalhart there is a motel named the "Nurse A Nickle" That cracks Me up, at least. In Arkansas there is a "Sleep Cheap" Motel.

There a cafe in New Mexico that's called "Squirrely Shirley's Cafe".

Then there's the OLD, faded out sign somewhere up in Colorado that reads "Eat Here Or We Both Starve".

Somewhere in the woods of Wisconsin there is a posted sign. It doesn't threaten violators with prosecution, but with the warning. "Hunters will be SHOT".

A hand lettered sign in front of the driveway to a volunteer fire station up at Silverton Colorado warns people to "Don't even think about parking here".

There's a sign that reads "Red Oak, Population About 15" near Blossom.

"Harvey's Poor Farm" lables another neat little place.

Perhaps one of the dumbest signs the highway department puts up occurs in hills and mountains. "Watch For Falling Rocks" it proclaims. Is a motorist supposed to just watch while one comes crashing down on his car?

On a cat cage at a cat show is the legend "I don't bite...but my owner does".

A neatly kept yard has a huge sign reading "Beware of Bullfrog". Next to it is a three foot high ceramic frog, tied to a big tree trunk with a heavy rope!

These are only a few of the signs that brighten up the road-sides along the way.

They say something about American ingenuity, humour and individuality.

They make travelling a little more fun, and the miles go by a little quicker.

Next time YOU travel, take a notebook and keep a journal, it's amazing the little signs that show up along the way!

Talco Youngsters Contribute To Drug Awareness Campaign

Jody Nolen and Michael Gardner, fourth graders at Talco Elementary School, received special recognition from Mrs. Connie Sloan, Project Director of Northeast Texas Highway Safety, from the State Department of Highway and Public Transportation, Wednesday morning for their contributions to the Texas Drug Awareness Campaign. The boys were presented sets of mugs, key chains and certificates for writing the lyrics to a drug rap that will be used in a 30-second television commercial to be

aired on Texas television stations, including Channel 6 out of Texarkana. The rap will be taped by a professional group, but Jody and Michael will receive credit for the lyrics.

The boys will participate in a three-minute radio interview on Thursday, October 18 at which time they will do the lyrics. Jody is the son of Mr. and Mrs. Ricky Nolen and Michael is the son of Mr. and Mrs. Ken Gardner, all of Talco. The boys composed the rap while jumping on a trampoline in

Jody's yard one afternoon.

Also to be congratulated are the other fourth grade students who wrote and presented "drug prevention" speeches. Copies of these speeches have been requested by a judge, a radio station, and other community leaders in the Linden area. Talco Elementary School and the individuals receive credit each time the speeches are read or used. These students will receive key chains at the interview for their contributions in the area of drug prevention.

TWO TALCO Elementary students, Jody Nolen, front left, and Michael Gardner, front right, received special recognition for

their contributions to the Texas Drug Awareness Campaign by writing lyrics to a rap song. The children are pictured with their

parents, Mr. and Mrs. Ricky Nolen and Bro. and Mrs. Ken Gardner and David. (Staff Photo by Nancy Brown)

Mr. and Mrs. Jim Branch Honored On 25th Anniversary

Mr. and Mrs. Jim Branch were honored with a reception Saturday, October 14 in celebration of their 25th wedding anniversary. The event was held at their home in Bogata from 2 to 3:30 p.m. and hosted by their children and their spouses.

Guests were greeted by the couple and then served refreshments from a table laden with a white handkerchief linen cloth belonging to Mr. Branch's mother. The centerpiece was a large floral basket arrangement, a gift from the Boyd Griffin family of Colorado City, who were unable to attend. The cake was a white sheet cake with a circular layer adorned with birds, bells, silver rings and leaves, and topped with an ornate silver design with the number 25. Other table appointments were of silver. The cake and punch were served by the couple's daughter, Rhonda Modestich and daughter-in-law, Diann Branch.

The register contained their original wedding book and a collage of their wedding pictures displayed on an easel. In charge of the register was Laura Winn, Mrs. Branch's sister.

Arranging the assortment of gifts in the adjoining bedroom were Rita Reed, Mrs. Branch's sister and Ferby Baird, sister-in-law of Mrs. Branch.

The couple also received cards and flowers from well wishers unable to attend.

Special guests were Mr. Branch's mother and her husband, Mr. and Mrs. Mack Glover of Bogata, Mrs. Branch's parents, Mr. and Mrs. Truman Baird of Cuthand and Mrs. Branch's grandfather and his wife, Mr. and Mrs. Albert Harville of Cuthand.

A ceramic artist workshop taught by Lisa Ehrich, will be offered at PJC Junior College from 9 a.m. to 4 p.m. Friday, October 13. The workshop, entitled "Surface Decoration to Enhance Form" will kick off an exhibition of Ehrich's works on display from October 13 through November 2 in the Art Building Gallery.

Ehrich is a full time instructor of ceramics, sculpture, three-dimensional design and drawing at Brookhaven College in Dallas. The Denton resident also has taught in Dallas Baptist College and Tarrant

County Junior College, Hurst.

Ehrich received her B.F.A. from the University of Texas, Austin, and her M.F.A. from the University of North Texas, Denton. She is a member of the Dallas Museum of Art, the American Craft Council, the National Council of the Education of the Ceramic Arts and is treasurer of the Texas Association of Schools of Art.

Gallery hours are from 9 a.m. to 9 p.m. Monday through Thursday and 9 a.m. until noon on Friday. Both the workshop and exhibition are free of charge and open to the public.

Weekly Agricultural Update
By Herb Brevard
Extension Communications Specialist

Insects Looking For A Winter Home...Insects are beginning to look for a place to spend the winter, says an entomologist for the Texas Agricultural Extension Service.

"Most of the insects are just looking for a place to over-winter and are not establishing permanent residences," said Dr. James Robinson, extension entomologist at the Texas A&M University Agricultural Research and Extension Center in Overton. "They will primarily be a nuisance and most of them present no great danger to the homeowner."

Cockroaches, earwigs, wasps, spiders and beetles seek protected places to spend the winter. It might be a stack of firewood, lumber, trash or the home.

"It is not uncommon for insects to

enter attics or garages through cracks in the foundation, open windows or spaces around doors," Robinson said.

"Mechanical control is possible by caulking all cracks to prevent insect entry," he said. "Caulking also makes the structure more airtight and should help lower heating costs."

Storing firewood away from the house will help eliminate hiding places for the pests.

"Insecticides are another alternative," Robinson said. "Many of the household insecticides are labeled for this application. Dursban, malathion, diazinon and some others are also labeled. Apply a band of insecticide around windows, foundations and along the eaves. Infestations inside the house can also be controlled using these products."

Replacement Heifer Care Critical To Cow Herd Maintenance

Selection of replacement heifers is a critical decision with current cattle prices and the desire of some producers to increase herd size, says Dr. Randall Grooms, livestock specialist with the Texas Agricultural Extension Service.

"Since a certain number of cows must be culled from the herd each year, replacement heifers must be bought or raised to replenish the herd," said Dr. Grooms. "If heifer calves are properly developed and culled, we need to start with at least twice as many replacement heifers as we need replacements."

For most of Texas, Grooms says that replacement heifers should be at least one-half Brahman blood because of the advantages of heterosis, environmental adaptation and heat and insect resistance.

"Select heifers that were born early

in the calving season and weaned heaviest," Grooms said. "These heifers must be weaned, calvehood vaccinated for brucellosis and revaccinated for clostridium diseases. Heifers need to gain an average of one and one-fourth pounds per day from weaning to breeding so they will weigh 65% of their estimated mature body size prior to the breeding season."

"Many producers graze heifers on a portion of their hay meadow after an extra nitrogen application," Grooms said. "An additional boost in gains can be obtained from a couple of pounds of supplemental feed such as cottonseed meal, ground corn, rice bran or soybean hulls fortified with ionophors such as Bovativ or Rumensin."

Ryegrass-clover winter pasture is also a good supplement and may be used after frost.

A FEW SIMPLE SAFETY TIPS FROM ARKLA.

If you smell gas in your home, here are a few simple tips on what to do.

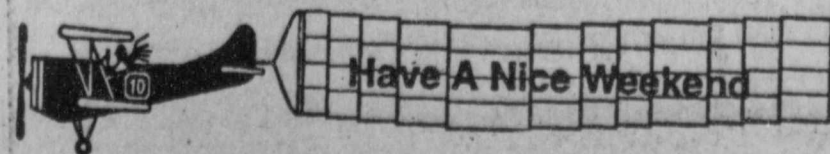

First, check all pilot lights and make sure all burners are turned completely off. If the gas smell grows stronger:

1. Ventilate your home by opening windows and doors.
2. Extinguish all open flames. Don't use matches or electric light switches.
3. Call Arkla from a neighbor's house. Wait there until our serviceman arrives.
4. If you know where your meter is, turn off the gas to your home by using the shut-off valve.

Natural gas has an excellent safety record and, by following these simple tips, you can help keep it that way.

Bereaved Parents First Anniversary

At the October 12 meeting, Bereaved Parents Support Group of Lamar County commemorated its first anniversary. Last October the group was birthed by a group of bereaved parents seeking and searching for help and support in the death of their children.

The speaker for the meeting was Fran Caffey Sandin of Greenville. She is a registered nurse, free lance writer and a bereaved mother. She and her husband, Dr. James Sandin, are parents of two teenagers. She is the author of the book "See You Later Jeffrey". During her message, she related that grief causes change and the majority of society does not like change. She presented three major phases survivors experience; crisis, crucible and construction.

Excerpts from her recent book are "We can discover that heartaches and disappointments can be used for their benefit. Death was like an urgent message shouted through a megaphone. Life is short, life is uncertain. Don't forget to say I love you. After Jeffrey left I looked at my family with new eyes. We have so little time to love and show love. Each day must count, each day must be a complete unit."

Bereaved Parents Support Group meets the second Thursday of each month at 7 p.m. in the Alford Center on the Paris Junior College Campus. For more information, call 785-7781, 785-4858 or 784-7635.

Rebel Sports

By Gary House

Rivercrest Chewed By Wolves

By Gary House

The words from the stadium announcer at the close of the 39-7 win by the Wolfe City Wolves over the Rivercrest Rebels infuriated the Rebel loyalists, who recognized that had the Rebs been healthy, the outcome might have been vastly different.

Although the Wolves did perform well in District 17-AA contest, as evidenced by the running of 190 pound senior running back Heath Davis, who had 137 yards on 19 carries and three touchdowns, the Rebels were severely hampered by injuries to key players. Senior running back Marcus Savage, who had previously averaged 93 yards per game was limited to only 40 yards on ten carries, well below his 5.9 season rushing average, due to a hurt ankle. Quarterback and middle linebacker Shane Beers was forced to alternate series on offense and defense because of knee problems. As a result, the Rebels were able to muster only 178 yards of total offense, well below their season's average of 286 yards per game. The only Rebel bright spot came from the play of senior Jeremy Abshier, who despite playing with a badly bruised index finger, which required ample wrapping, rushed for 66 yards on 10 carries, and caught for four passes for 63 yards, including the Rebels only score, a 34-yard toss from Beers, that gave the Rebels a short-lived 7-6 lead late in the first quarter.

The Rebels had problems in holding on to the pigskin, committing a season-high eight fumbles; however, they lost only two to the Wolves. A recovery by Jeff Haywood of the Wolves on the second Rebel snap of the game set up the pack's first score,

a run of 13 yards by Davis, climaxing a 30-yard drive, with 8:30 left in the first quarter. But the extra point was blocked by junior tackle Jesse Woods, who would be carried off the field near the end of the third quarter with what was first thought to be a broken leg, but proved to be a badly bruised muscle. Later facts revealed a torn tendon, sidelining Woods for several weeks.

The determined Rebels stormed back, driving 64 yards in just over two minutes to gain their only lead. Abshier was the workhorse in the drive, first compiling 24 yards and a first down on a good effort.

Three plays later, Beers entered the game at quarterback to throw a strike to Abshier along the sidelines and in to the endzone with 6:10 left to play. Joshua Abshier added the PAT. But that was the last time the Rebels would be in control.

Junior quarterback Tony White gave the Wolves the edge for keeps with 1:56 to play in the quarter as he scored on a two-yard keeper play, then passed for the two point conversion to Brian McKay. On the night, White was four of six passing for 49 yards with two scoring strikes to McKay.

With Davis setting the pace, the Wolves plowed through the patchwork Rebel defense to garner 274 yards on the ground. Keith Cherry and Eugene Brown both contributed 40 yards each to the total.

The Rebel defense played well enough in the second quarter to keep the Wolves from paydirt until only nine seconds remained. The Wolves had taken over at the Rebel 40-yard

line, following a particularly frustrating offensive series in which the Rebel ball handlers bobbled the pigskin on three consecutive snaps. Although Rebel defender David Davidson stopped Davis for a two-yard loss on first down, White, who had run on the prior play for 14 yards, found McKay alone in the endzone to give the Wolves a two touchdown halftime advantage. Wolfe City added to that lead as they took the second half kick-off for a score. The Rebels then mounted their only threat in the second half as they gained five first downs with Savage playing his only notable offense of the game; the Rebs scored on an apparent pass from Beers to Abshier, but the play was nullified on a clipping call.

Defensive standouts for the Rebels included the play of freshman Jonathan Savage. Another youngster, Tony Sanders had an excellent punting game, including a sixty-two yarder in the first quarter. Jeremy Abshier and Davidson played well at the cornerback slots, but the overall Rebel defense was lackluster.

The Rebels return home Friday to face Honey Grove, who was humbled 57-6 by an awesome Cooper squad. Both the Warriors and the Rebels will be looking for their first District 17AA win.

Reb coach Terry Giddens, reported on Tuesday that the injury situation was greatly improved. "Everyone (except Woods) is working out this week and that fact will put us in much better shape. We should be ready for a Honey Grove team which has some potential, but is reeling from internal problems."

ASCS NEWS

By James B. Allcorn

The 1989 disaster program is in place and while we don't have all of the answers, we are receiving applications at a rapid pace. April 2, 1990 is the final date to file for payment. In general, you will be paid for the loss of production on covered commodities on a sliding scale based on the crop and whether or not you had insurance and participated in the program. Limits are 65, 60, 55 and 50% of loss. 65% if you participated in the farm program on a program crop or had peanuts and bought FCIC insurance. 60% if you participated on a program crop or grew peanuts but did not have FCIC insurance. 55% for soybeans and sunflowers and 50% coverage for remaining non-program crops. Program crops are wheat, barley, oats, rice, cotton, feed grains, peanuts, soybeans and sunflowers. Non-program crops include hay, honey and just about everything else.

Payment rates are 65% of the target price for program crops participating the farm program, 65% of the loan rate for non-participating program crops, 65% of the rate to be set by the State ASCS Committee for soybeans, sunflowers and all remaining non-program crops, and 65% of the National loan rate for quota and non-quota peanuts.

Eligible disaster conditions for 1989 are limited to hail, excessive moisture, freezing conditions, tornado and excessive wind. Related conditions such as insect infestations resulting from damaging weather that occurs prior to harvest can be used if certified by the Extension Service and written documentation is provided to ASCS.

Some of the provisions of the 1988 program that DO NOT apply to the 1989 program include high and low payments rates, minimum yields and exclusion of losses that occurred in the previous year on a current year crop.

In the new changes department we see a few items, among them the replacement crop provision. While I understand that there is a move in Congress to remove or relax this provision, at this time it is in place and has significant number of teeth. At this time, we interpret this provision to mean that your payment for the failed crop will be reduced by the value of any crop planted on the same acreage to replace the original crop.

Replacement crops are those planted on the same acreage as a failed crop. They are ineligible for payment and include all acreage of a second crop that do not meet the definition of a double crop or repeat crop. A repeat crop is a crop that is planted and replanted to the same crop for harvest within the same crop year. A double crop is when two different crops were planted on the farm in either the previous year or three of the previous five years. If the crop qualifies as a double crop, then both crops are eligible for disaster

coverage.

Other new additions to the disaster program for 1989 include an unmarketable production clause. This applies primarily to non-program crops and states that production which cannot be marketed in any way through any channel, and for which no value was received is eligible. A case to illustrate this would be a fruit crop that was hailed out. If the fruit was damaged to the point it could not be sold or marketed in any way, it would be eligible. If the damaged fruit was converted to juice, for example, this would make the crop ineligible.

For honey producers, a yield will be set on a per hive basis by the State ASCS Committee. Only production losses suffered by hives located within the United States are eligible and will probably be a stinger before it is finished.

Yields have been announced and are as follows: For program crops of wheat, cotton, corn, milo, rice, oats and barley, the ASCS established yield will be used. The farm yield will be used for peanuts. For soybeans sunflowers, a county average will be set by the State ASCS Committee.

Non-program crops will be the proven yield for the crop or a yield that is assigned by the State ASCS Committee.

If you suffer a 65% or greater loss of production, you will be required to purchase crop insurance on that farm for the 1990 crop. ASCS does not require you to purchase insurance on all farms, but crop insurance companies generally do not sell insurance on single farms in multiple farm situations.

In what is sure to cause many unpleasant comments from producers, the rule on production evidence have been tightened. Producer certifications, ledger sheets, or other personal records of production or crop disposition are NO LONGER acceptable as production evidence. Only those records that identify the commodity, buyer or storer and the transaction date may be used to prove a yield. If you are unable to provide satisfactory production evidence to qualify under the new rules, an assigned yield based upon similar farms will be set as production for the year in question. Farm stored grain must be measured by ASCS at the expense of the producer.

Deaf Girl Attends "Regular" School

Kari Kirkland, daughter of Dana McCall and niece of Mr. and Mrs. J.C. Fail of Talco, has been featured in the Tribune-Herald Woodway-Hewitt "Neighbor" magazine.
You see, Kari is now attending Midway Junior High, a big step for Kari, that she has made well.
What's so special about that, well, Kari is deaf.
Kari is 11 years old, and up until now has traveled from Hewitt to Waco to a school for the deaf. Now that school has closed.
The article tells much about this young lady. Profoundly deaf since birth, she rarely speaks. She has never danced or heard a note of music, although she says she likes the "feel" of rock and roll.
Last year, after completing fifth grade at Viking Hills Elementary, she was faced with attending the Waco sixth grade that would make her the only deaf student among 600 students.
Her mother contacted Midway Independent School District officials, who agreed to welcome Kari into Midway Junior High.
There she would be close to home,

among friends and in a smaller school. She says she likes going to school among hearing kids. "They treated me normal, I have more friends there, and was one of the crowd."
Like most 11-year olds, Kari is interested in boys, and has a room of posters for her idol, Kirk Cameron.
Kari says that people took a special interest in sign language. Even the cafeteria ladies learned the signs for things like "french fries" and "hamburgers".
Kari says some of her classmates even used sign language while conversing among themselves, especially in class!
At the lunchroom, after the quiet signal was given, the students would sign, so that they could continue to "talk". This made Kari happy.
Her two best friends have learned to sign too fast for Kari's mom to follow. Kari wants to attend Texas A&M University, become a teacher or perhaps an artist. She sketches pictures quickly and well.
Of course she wishes she could hear. Kari isn't handicapped, her ears just don't work!

Stew Cookoff Set For October 21

The Deport American Legion Annual Fall Festival and Stew Contest will be held October 21.
There will be a stew cookoff, and a stew auction at 12:30 p.m., where the first place stew will go to the highest bidder. There will be games and prizes, a turkey shoot, baked goods for sale and lots of fun for all.
Stew will, of course, be for sale, at \$2.00 per bowl.
The Legion wants to point out that "if you think you're a pretty good stew cook...come out and prove it".
Now is the chance to cook up a pot of stew that could win a plaque, and all for a good cause. The cookoff is open to EVERYONE who would like to enter.
Simply mail in the name of the stew, the sponsor, head cook, alter-

nate and address. The \$10.00 fee is payable that morning. Send entry forms to the Deport American Legion,, Deport, TX 75435.
All proceeds from this event will go to the fire truck fund.

When You Can't Be Everywhere At Once...
 Depend On Motorola Communications For Your Farming Operation

When your busy season is in full swing, you can't afford to wait hours--or even minutes--to reach the people you need to talk to now.

And that's why it pays to depend on Motorola 2-way radio. You can contact your people--or have them contact you--from almost anywhere...a truck or combine, an animal confinement building, a dairy shed and more! And that means you can react more quickly to emergencies and coordinate equipment and hired hands for less downtime...and protect your crops and livestock by solving problems as soon as they occur.

You can even choose a 2-way radio with telephone capability and phone your seed suppliers to place an order right from the field...or answer a call right in the barn.

Motorola can help you choose the communication equipment that's right for your needs--and your budget--from easy-to-use portables (walkie-talkies) and rugged vehicle-mounted mobiles, to systems that monitor irrigation pumps, temperature in confinement buildings and more. Call Motorola today, without obligation, and find out how we can help improve your farm operations' communications.

Reaching you where you work.

Sen. Ratliff Appointed To Committee

Lieutenant Governor Billy Hobby and Speaker of the House Gib Lewis recently announced the creation of the Joint Select Committee on Employee Benefits which will report to the 72nd Legislature.

State Senator Bill Ratliff of Mt. Pleasant was appointed to the ten member committee. Other Senators and House Members appointed were Senator Gonzalo Barrientos of Austin and Nolan Robnett of Lubbock as co-chairmen, Senator Kent Caperton of Bryan, Senator Bill Haley of Center, Senator John Leedom of Dallas, State Representative Jim Rudd of Brownfield, State Representative Edmund Kuempel of Seguin, State

Representative Betty Denton of Waco and State Representative Curtis Soil-eau of Lumberton.

The committee will review the process for selecting health care providers, cost containment measures and legislative action that may be used to contain costs. It will also review coverage and costs in health plans provided by state institutions of higher education.

The Committee was created by a proclamation issued by the Lieutenant Governor and Speaker of the House under authority of House Concurrent Resolution 142, 71st Legislature, Regular Session, 1989.

"I look forward to investigating the problems surrounding health benefits to state employees since many of these same problems are being faced by the general public every day," Ratliff said. "At a time when health insurance is of critical need to everyone, it is important to make available the most competitive, lowest cost health care available for all citizens," said Ratliff.

Letter To The Editor

Dear Editor:

I am a lover of history and I have a somewhat unusual hobby. I collect old tokens used by stores, barber shops, pool halls, bakeries, saloons, forts and other businesses years ago. The tokens were "good for" 5¢, 10¢, 12 1/2¢ or such in trade or merchandise or "good for" a loaf of bread, one drink, one shave, one ride or whatever. They were usually made of metal, and while having the general appearance of a coin, they were made in all shapes and sizes.

I am hoping that if you have a "Letter to the Editor" section or such in your paper that you might mention my search. I know that this request is relatively unimportant, but as our elderly pass away and the younger members of the family inherit their possessions, tokens and other items are considered junk and thrown out. I do get a great deal of enjoyment from my hobby and I do believe that these concrete reminders of our great heritage are worth preserving.

I have reason to believe that some of these tokens were used in your area and I would be most interested in obtaining some of them for my collection.

I would like to hear from anyone having one or more of these tokens or from anyone that might be able to help me. Any help that you can give me of any kind is greatly appreciated. My address is Travis Roberts, Box 1168, Bellaire, TX 77402.

Thank you kindly in advance and best wishes.

Travis Roberts

Editor:

I am Pearis C. Abernathy. I was born and raised in Red River County, Texas. I am 68 years old. There has been lots of things wrote and said about the Dimple Reservoir with all due respect to everyone involved and malice toward none I would like to say something. Lots of things I don't understand.

I understand the prison system they are trying to get in the county has hit a snag. I think that is good. We don't need it. Too risky. The county does not have enough water for a prison system. Suppose one of the pumps went out. It has happened in the past. Suppose a main line broke. Suppose then they had a fire at the prison at that time. No water to fight the fire. Some of the inmates get hurt. The county would be wide open for multi-million dollar law suits, where would the money for that come from? The taxpayers pocket. We already have one white elephant on Highway 82 west of Clarksville. We don't need another. Maybe we will be lucky and not get the prison system.

It was my understanding the water board was set up to build a lake. Not fight it. Where did they get the authority to look for other sources of water? If Pat Mayse or Lake Wright Patman wanted to furnish Red River County water they would have a supply of water coming to the county long before now. They are not interested in Red River County and our water problem. They want all the new businesses coming to them, not us. If Paris and Lamar keeps growing as they are now within 10 years or so they will also be needing more water than Pat Mayse can furnish. What then? We will be cut off. We in America say we believe in a democratic form of government. Have an election and abide by the choice of the majority. We had the election. We, the majority, voted for the lake. We didn't get the lake, why? They had an election in Panama. They voted for a democratic form of government. They won the election. They didn't get their democratic form of government. Why a group of people, the minority, decided they didn't like the way the election went. They overrode the majority. A lot has been said and written about the fact that a majority of the people were strong armed out of the election. They say how bad it is. I agree. It is bad. We had an election here in Red River

County to build a lake, Dimple Reservoir, it carried, we won the election. We didn't get the lake. Why? The minority don't want it. They want their way. Now tell me the difference in these two elections. The way I see it, the majority won both elections. They didn't get what they voted for. Why? You tell me. We, the people, had better wake up before it is too late. I am afraid it is later than we think, by far. I don't think the board members had the right to run up these bills. If they were against the lake, fine. They should have declined to serve on the board and worked against the lake. Once they took a seat on the board, they should have supported the lake. Personally I don't think the taxpayers of Red River County should pay their debt. I thought it took an act of the Texas Legislature to create the water district. Does it not take the same to dissolve it? Let's keep the lake. We need it. The county needs. One city says they don't need it. They have more water than they need. I hope they have. Why are they drilling another well? They have drilled enough wells in the last few years to buy a whole lot of water for a lot of years to come. The lake is not perfect. There are two things wrong with it. It is being built about 50 years too late and it is too small, but it is a whole of a lot better than we have now. I am going to vote against all three propositions. The taxpayers should not have to pay for a bill for anyone that was doing what they were not authorized to do in the first place. If you will visit the lake south of Mt. Vernon you will quickly see why a small lake is so much better than no lake. Look how many people have homes there, how many small businesses are there, how many people come there each weekend. You will readily see how much income Franklin County has from their lake. It will bring in more income by far than the prison will and will be safer for the county. Had the County Judge and Commissioners Court been working as hard for the lake as they have for the prison, the lake would have been well underway long before now. Come on and vote no to all three propositions and lets get the lake going. Like I said at first, with all due respect to everyone involved and malice toward none, I am respectfully,
Pearis C. Abernathy.
