I've been asked a number of times where my ideas come from for my columns.

They come from a variety of sources, at various times, and from various reasons or inspirations.

Sometimes ideas sneak up on me very, very slowly. I feel them coming up. But I musn't make a "mental wh" grab at them, or, like timid rabbits, those ideas will scamper off, and it may be days, or even never before they are recaptured.

No, it's best to let THOSE ideas prow around on the fringes of my consciousness until sufficiently relaxed to be obtained.

Then there are those nighttime ideas that hit like a bolt of lightning out of the blue. They usually strike about two or three o'clock in the morning. I'll be sleeping peacefully, then suddenly my eyes fly open and I'm wide awake, pondering on something that may or may not be used for a column.

Those are the best kind of all, invariably being lively and interesting.

Many times it's events that go on around me that prompt a column. The things that happen during everyday "humdrum" events can frequently be turned into something amusing or thoughtful.

Then, there are those little recollections that most of us have, about by gone times or funny things that have happened.

I like to flatter myself that I look at the world that surrounds us all as closely as possible, that the little miracles that happen daily in front of our very eyes don't all pass unnoticed by me.

That prompts columns too. Where do ideas come from? I don't know, they fall from the sky, and well from the springs of summer rain. They simmer in my mind and flash like running deer from the words of friends.

All I know is that they come...some weeks much better than others. This week's column is right at the five hundred and twentieth column I have written, not counting feature stories on people and places.

And, so far, I haven't had a REAL problem yet coming up with something to write about. That, I think, isn't due to me, but to the beauty and humor in the world around us.

## Rodeo Draws Largest Number Of Contestants Ever... Purse Will Exceed \$19,000.00

# It's Rodeo Time In Bogata!!!

On Thursday afternoon at 5 p.m., the 1990 version of the Bogata Rodeo officially gets underway with the first of two downtown parades, kicking off a weekend full of special activities for everyone in the country to enjoy.

The first performance of the rodeo begins at 8:30 p.m. at the Bogata Rodeo Arena, and promises to be chock full of chills and spills and wild-west action.

This year, the Bogata rodeo has attracted an excess of 350 contestants who entered the seven championship events, and will be vying for nearly \$20,000.00 in prize monies during the three days of competition.

Last year's All Around Champion of the Bogata rodeo, Rick Yocham of Bartlesville, OK will be trying to duplicate his award from 1989. From Bogata last year, Yocham went on to be crowned the 1989 All Around Champion of the Cowboys Regional Rodeo Association, during the Finals Rodeo held in Tulsa, OK last October.

Yocham will be on hand in Bogata, along with every current champion and champion hopeful in the Cowboys Regional Rodeo Association.

The current "hot hand" in CRRA competition is young Clayton Macom of Stigler, OK, who has a lead to 1990 championships in the bull riding and the All Around, and who is also listed among the Top 15 in the bareback riding.

Many favorites will be returning to Bogata this year, such as David Wesson of Delaware, OK, two-time bull riding champion and former All Around champion for the CRRA. Wesson made a big hit in Bogata several years ago when he was on hand to sign autographs prior to the final performance of the Bogata rodeo.

And many favorites in the back pens will be at Bogata again this year as well. The stock provided by the Wing Rodeo Company, is talked about far and wide, and many "headliners" will be waiting for their turn in competition at this year's rodeo.

This year marks the 23rd year that the Bogata Rodeo has been produced by the Wing Rodeo Company, and the stock has never let the standing room only crowds down, moreover, it has usually kept them on their feet.

Thursday night is Hub Whiteman

night, when some lucky spectator will receive a \$100 savings bond. On Thursday night, also, the Bogata Rodeo Princess will be crowned during the performance. This year three contestants are entered in the competition.

Friday night at the Bogata rodeo will be dedicated to Ronnie White, long-time supporter and avid rodeo enthusiast.

And on Saturday, the day starts bright and early with Frontier Day activities in downtown Bogata. The first event of the day will be the free pancake breakfast at 7:30 a.m., followed by day-long, fun-filled contests and lots of good, homemade food.

The second rodeo parade will be held Saturday afternoon at 5 p.m. and the week will conclude with the final performance of the rodeo, at which time the 1990 Bogata Rodeo Champions will be crowned.

Even though the weather has been hot and uncomfortable, don't let it keep you from coming to the rodeo, you won't want to miss a minute of it. Action starts at 8:30 at the Bogata Rodeo Arena. Don't miss it!!

## Talco Girls Softball Report

On June 13, the Talco Rookies met the Mt. Pleasant Lil Gems in a make-up game.

During the top of the fourth inning, the Lil Gems coach entered an illegal pitcher, the Rookie coach played their team under protest from this point and following a 4-5 loss, filed an official protest in writing to the league president. The protest was found valid by the Mt. Pleasant Committee and the fee necessary to file the complaint was returned to the Talco team and a forfeit by the Lil Gems was ruled. The Lil Gem coach appealed and the Mt. Pleasant ruling was overturned.

The Rookies were forced to replay the game June 21 from the point of the offense. The girls began in the top of the fourth inning with Valerie Morgan on third base and Erin Stansell up to bat, no outs and a score

1-1. The Rookies took a 5-1 lead. Courtney Jones hit a home run. The Lil Gems scored five runs in the bottom of the fourth. Score 6-5, Lil Gems. The Rokies came out hitting in the fifth, scoring four runs. Courtney Jones hit another home run, score 9-6 Rookies, but hitting could not balance fielding mistakes and the Lil Gems slipped by 10-9. Talco can be proud of their girls. Base hits were made by Valerie Morgan, Erin Stansell, Amber Forsyth, Tanna Simpson, Chrissy Wilson, Laci Taylor and Joanie Plunkett. Samantha Jones and Jessica Forsyth forced the pitcher to work hard to put them out.

On June 14, the girls met the Mt. Pleasant Hornets. The tired and nervous Rookies couldn't get things together and lost 7-1. The lone score was made by Amber Forsyth. Base hits came from Samantha Jones, Jes-

sica Forsyth and veteran player Courtney Jones. Fly outs were caught by Courtney Jones, Tanna Simpson and Erin Stansell.

On June 18, the Rookies played their final league game against Mt. Pleasant Panthers, a team of nearly all nine year olds. The Rookies had beat the undefeated Panthers early in the season and even though they didn't pull it off twice, they made the game a tough one, 6-3. Scores were made by Tanna Simpson and Jessica Forsyth, also getting base hits were Valerie Morgan, Laci Taylor, Joanie Plunkett and Chrissy Wilson. Pitchers for the season are Tanna Simpson, Erin Stansell, Courtney Jones and Valerie Morgan, and they have done a fine job leading their team.

The girls will enter district play in Mt. Vernon on July 6.

Once I lost weight, the Nutri/System counselors taught me how to avoid gaining it back. It was simply a matter of good nutrition. I ate foods that were low in sodium and cholesterol. And were delicious, too. Now that I'm eating better, I look and feel better. And I've been able to maintain my weight for 10 months now. I've never been happier in my life.

**Letter To The Editor**

Dear Editor:

I'm presently engaged in researching the type and geographic distribution of meteorites found in and around the Texas Counties of Smith and Red River. To this end I'm requesting the assistance of those readers of this newspaper who can provide me with any written and photographic details of additional meteorites they may have been fortunate enough to have found over the past few years. Especially required are sample specimens, for scientific analysis, to ascertain the geographic distribution and earth resident time of specific petrologic types. Would anyone who can assist in this scientific project, please contact the writer, C.E. Spratt, 314-2100 Granite St., Victoria, B.C. V8S 3G7, Canada. Your help is gratefully acknowledged.

Two numbers that can save energy

By setting your thermostat at 78 in the summer and 68 in the winter, you can keep your home comfortable without wasting energy.

If you're tempted to raise or lower the setting, consider this: for each degree you adjust your thermostat, your energy use increases by about 6 to 8 percent.

### PJC Announces Programs

Three new programs, cosmetology, property maintenance and postal management, will be added to the 1990 fall curricula at Paris Junior College.

Initially, the PJC cosmetology course will be taught at the Paris High School cosmetology lab with lectures conducted on the PJC campus, said Mrs. Oglesby. The college plans to build to build a cosmetology lab in the former Howard's Building when that structure is renovated, she said.

It includes many things, safety management, cleaning and working with chemicals, repair and maintenance of basic heating and air conditioning equipment and grounds maintenance including soil analysis and landscape planning.

The postal management program will serve current U.S. Post Office employees.

Paulette is a teacher in Texarkana School System.

He said that if there ever was a perfect coach's wife, Paulette is it.

"If enthusiasm is contagious, I hope I have enough for the kids. I'm not a traditional coach, I might show up for practice in a T-shirt and flip flops. Those kids need to understand that I can enjoy laughing and not be a hard case all the time."

Green further said "I'm easy going and I don't have an ego problem. Give me a chance to show them how much fun playing and coaching football can be. When it gets to the point where its no longer fun coaching, I'll quit. I've been accused of being very boring because I like to run the football. In 1984, we had an average of 54 points a game and we only passed around six times a game. That didn't mean we would not throw the ball sometimes, we surprise our opponents. The most fun, however, is defensively, we never line up in the same place twice."

"If these kids will give me a chance and can play football, we'll go 6-4 or 7-3," the coach commented.

Green received his BSE from the University of Arkansas in 1966 and an MSE from Arkansas Tech University in 1978.

From 1966 to 1973, he was teacher/coach at Mansfield, LA, Minden, LA, Morrilton, AR (the AA state champions with a 13-0 season record). From 1973 to 1974, he was athletic director and head football coach in Mountain Home, AR and was elected Coach of the Year.

From '74 to '78, he was teacher/coach at Magnolia, AR, Morrilton, AR and Hampton, AR. Magnolia was the AA State Champion team with a 10-3 record and a defensive back record was set with 21 interceptions.

From 1978 to 1980, he served as athletic director and head football coach at Harmony Grove, AR, teaching biology, social studies and physical education and was selected District 7A West Coach of the Year.

From 1980 to 84 he was athletic director and head football coach at Simms, TX. James Bowie High School was the 1984 District 9A Champion, a first in their 46-year history. He was District 9A Coach of the Year and two players made three positions on the Texas All state team.

From 1984 to 87 he was athletic director and head football coach at Harleton, teaching social studies.

From 1987 to 90 he was teacher/coach at Pleasant Grove High School, was defensive line coach, kicking coordinator and assistant varsity basketball coach.

Green and his wife are active members of the Methodist Church.

**On Stew, Chili**  
**And Hot Tamales!**

By Bocky Norman

My dad, Roger Bell, and my uncle, Stanley Bell, were both pretty well known for their good chili and stew, both being cafe operators, they certainly were experienced!

While visiting uncle Stanley recently, the Deport Chili Cook Off was brought into our conversation and he began telling me the difference in his and daddy's concoctions and how some of the local ladies came to talk to him about the way to make a good stew. Corn and carrots are definitely a "no-no". In his "flowery" description of what they do to stew, simply meant if you want syrup, get a bottle of Karo and take a swig! Being 96 years old, his mind is sharp and his memory unbelievably good.

I can still remember the yellowish-brown sack the dried chili's came in and from being packed and handled they would be slightly crushed. A slight handful would be dropped into the pot. Hot? You bet!

James Grant never ordered one bowl at a time, but two, ate one while the other cooled, sweat rolling down his face. Now, that's chili!!

I don't recall very much about the stew making, but I do know everyone wanted a "red top", that was stew with a little chili on top.

Uncle Stanley said he used elbow macaroni for a filler and he guessed they liked it, because they ate it.

There were hot tamales, too. I can remember having to go to the barn with brother Bud to get the shucks. They were washed, trimmed and scalded before rolling the mush filled with what ever kind of meat available. Daddy and Mama would cook and grind the meat, it might have been an old tough rooster, hen or a cheap cut of pork or beef, season it just so. The tamales were then tied in bundles and boiled until daddy said they were ready.

He would take them to town, keeping them hot in a lard stand over a cool oil burner. I believe it was the Veteto building which had a recessed front, that served a good wind break. He sold them for 35¢ a dozen. Then, that was about as much money as the three dollars and fifty cents we pay now.

Times have changed and so have our lifestyles, but good stew, chili and hot tamales have stayed the same.

### Emergency Farm Loan Applications Being Accepted

Applications for emergency farm loans for losses caused by severe storms, flooding and tornadoes occurring April 15 and continuing are being accepted at the Farmers Home Administration office in Clarksville, FmHA County Supervisor, Frank B. Stroud, said recently.

Red River County is one of eight in Texas recently named by Secretary of Agriculture Clayton Yeutter as eligible for loans to cover part of actual production losses resulting from the storms, flooding and tornadoes.

Farmers may be eligible for loans of up to 80% of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lend-

ers, the interest rate is 4.5%.

As a general rule, a farmer must have suffered at least a 30% loss of production to be eligible for an FmHA emergency loan, Stroud said. Farmers participating in the PIK or Federal Crop Insurance programs will have to figure in proceeds from those programs in determining their loss.

FmHA is a credit agency of the U.S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corporations and cooperatives in which U.S. citizens hold a majority interest.

### Haymaking Season Has Arrived

Hay producers should be completing their first cutting of hay and fertilizing the meadows, says Dr. Sim A. Reeves, Jr., extension agronomist for the Texas A&M Agricultural Research and Extension Center at Overton.

The older the grass gets, the lower the quality of hay.

"Meadows which have been cut should be fertilized immediately after bailing," Reeves said. "Have the fertilizer before it rains so the fertil-

izer can be carried into the soil to produce the next hay crop. Try to fertilize when the grass is the shortest so it will reach the soil and not stay on the plants."

If the stand is thin from winter damage, use a fertilizer that has as much potassium as it has nitrogen. Potassium causes the grass plant to spread faster, have more drought tolerance and produce a higher quality grass.

### July 4 Traffic Death Estimates Made

The Texas Department of Public Safety has estimated that as many as 15 persons will be killed in traffic accidents during the brief July 4 period in Texas.

DPS Colonel Joe Milner reminded motorists that the traffic volume increases during holidays, raising the chances for fatal collisions.

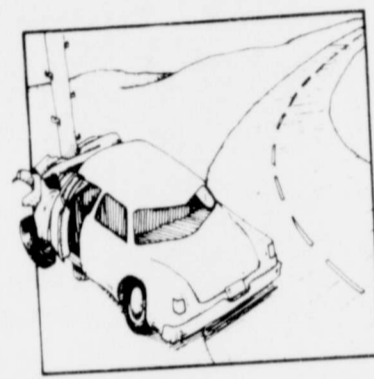

The 30-hour fatality counting period will start at 6 p.m. Tuesday, July

3 and continue until midnight on July 4.

Last year, the Independence Day driving period ran 102 hours. Thirty-four traffic fatalities were reported during that time, far below the DPS estimate of 52.

"We're relying on motorists who respect Texas officers and traffic laws to help us meet the challenge," said Col. Milner.
