But, lately, it seems the bank has been for the birds...and the goats...and the snakes!

True, the bank isn't on main street, but it isn't exactly out in the woods either. That doesn't seem to stop it from attracting a wierd variety of wild life!

Guineas were one of the first fowl visitors to show up. The speckled, prehistoric looking birds were scratching around in the shrubs and lawn, happily giving their unusual little chirps and clucks. Each day, he claims, the flock got a little larger.

Some days they would be there, others not.

Then there were the goats. They had to be run off, instead of rooting around in the shrubs the goats were eating them!

Of course, a time or two the employees have had to run a calf or two back to it's pasture, too.

Then, a month or two ago, the sissortails showed up. Several of

The frogs managed to find their way in too, back during the rainey

For a few weeks the bank was critter-less. Only for a few, though. Yesterday it was turkeys. That's right, gobblers!

They were pecking on his office window. Perhaps they wanted to borrow enough money to take a vacation along about Thanksgiving? Or perhaps the hens were seeking life insurance on the toms?

Hugh claims he's thinking about opening a special branch bank. Would it be called "Critter Credit' or perhaps" Fauna Finance". I can just hear him now.

"Yes Mr. and Mrs. Hogg, Iknow you live in a pig sty, but we really can't accept ham as collateral". Or perhaps "Sure Mr. Turkey, ou can have a loan, unlike most birds you don't seem too flighty".
