

Nichols  
Worth

By Nanalee Nichols

For the second week in a row I think I'll heave myself up on my old soapbox and get serious.

Perhaps you have heard where a group of stutterers have protested the airing of the movie "A Fish Called Wanda" because of a character's speech impediment. The stuttering was eliminated from the movie.

Come on, let's get real here!

There is no humor that does not have an object of the joke. There truly isn't any such thing as a joke that doesn't make a little fun of someone or something.

So where does censorship go from here? I'm overweight...does that mean John Candy and other heavy comedians and actors should never be allowed to be the brunt of "fat jokes"?

What about short jokes? How about tall jokes...or skinny jokes?

While I don't favor vicious ethnic jokes I think it is ridiculous to eliminate a joke or play on words concerning accented speech. (Witness protests about a comedian with a Spanish accent).

Are we then going to get rid of jokes that play on southern accents...or English accents...or "high brow" accents?

Are we going to ignore the very fact that there are plenty of people in the world with handicaps, different skin tones, features or mannerisms?

A line in a movie about "being so pale if she went outside the buzzards circled" didn't draw a storm of protest from fair people! Why not? Wasn't it insulting?

Hey, there are lots of "Aggie Jokes" perhaps all the alumni from down there would like to get together and make it against the law to tell Aggie jokes?

What about people who wear glasses, as one of that legion I still don't take mortal offense when I see a movie in which someone breaks their glasses and has to fumble and stumble around! Indeed, I'm more likely to laugh and say "Boy, I know how he feels!"

The glorious thing about humor is that we can laugh...not just at powerful, perfect people...but at all of humanity...we can laugh at our weaknesses, our foibles, our imperfections and our heartaches.

And, sure, every now and then those jokes get a little painful...but please, let's not start eliminating everything that "picks on" someone...because there won't be anything left to laugh at!

## Talco Sunshine Club Hears Guest Speaker

The Calvary Baptist Sunshine Club met Tuesday, September 17 at 10:30 a.m.

Guest speaker was Jack Martin, who spoke to the group about how people are swindled out of their hard-earned money. Martin advised the group of the 800 number of the Better Business Bureau for people to call and check any type of business deal you are considering making, regardless of the reputation of the company. He also told the people to beware of this type swindle following the loss of a loved one, as these people watch the obituaries in the newspaper.

As an example, Martin told the group of one lady who was approached by a man wanting to paint her house for \$200.00. He painted her house, but also the windows, roof, scrubs and everything else and he was at her door waiting for his money.

The lady informed the man that she was on the telephone with the BBB, and the man replied, "Oh, lady, there's no problem, it's gonna wash off when it rains anyway." Promptly leaving, he was just one step ahead of the law.

Booklets were passed out on several subjects for the group to take and read, including how to buy used cars and other important things. The program ended with Martin reminding the group not to give their credit card numbers, addresses or checking account numbers to anyone over the telephone, especially if they call you.

Celebrating a September birthday was Elsie Weatherall, who also won the door prize.

This monthly meeting was sponsored by the Friendship Class and was closed by grace being said by Jerry Russell.

## Titus County Fair To Open September 25

The Titus County Fair will open September 25 and run through September 28. Advance tickets are being sold in books of five for \$10.00 through September 24. Admission at the gate will be \$3.00 per person. Pre school age children will be admitted free. Various area school organizations are selling the tickets and dona-

tions will be made to each organization based on their sales.

The Arts and Crafts show has spaces available for Saturday, September 28. The spaces are \$15.00 each and are located outside. Other outside spaces are available for the entire fair. For information on booths, call 572-6376.

## New Law Requires Recycling of Batteries

The Texas Department of Health (TDH) soon will publish new rules governing the disposal of automobile batteries. Under a law (SB 1340) which became effective Sept. 1, lead-acid automobile batteries are no longer permitted in municipal landfills and must instead be recycled.

The Texas Board of Health adopted emergency rules for public compliance with the law. Those rules are

now published in the Texas Register. Final rules will be adopted after a Sept. 25 public hearing and a review of public comments ending on Oct. 11.

Under the new law, anyone who wishes to dispose of a car battery must take it to a wholesale or retail battery dealer, a secondary lead smelter or a recycling center authorized to accept it.

The law further requires that all battery retailers must accept used batteries offered for recycling. Similarly, battery wholesalers are required to accept, and pick up within 90 days, used batteries collected by their retail customers.

Retailers also must post signs advising the public about the new requirements. The law specifies the wording for the signs, and the signs themselves will be produced and distributed by TDH.

TDH inspectors have the authority to enforce compliance with the recycling law.

According to T.A. Outlaw, chief of the TDH Bureau of Solid Waste Management, "The inspectors may issue warnings of citations to any battery retailer who fails to post the new signs. The penalty for

failing to post the sign within three days of receiving a warning can be as much as \$100 a day."

Outlaw added, "Besides posting the required signs, businesses must collect a fee on the wholesale or retail sale of any lead-acid battery." For each battery with a capacity of at least six volts but less than 12 volts, the fee is \$2. For batteries of 12 volts or more, the fee is \$3.

All such fees from battery sales must be reported to the Texas Comptroller of Public Accounts on or before the 20th day of the month, following the month in which they were collected. Reporting forms and information about fees are available from the Comptroller's office at 1-800-252-5555. The Comptroller's office will deposit battery sale fees into the Hazardous and Solid Waste Remediation Fee Fund, administered by the Texas Water Commission.

Outlaw said that, in a related action, the lawmakers authorized the TDH Bureau of Solid Waste Management's merger with the Texas Water Commission, effective March 1, 1992, as part of the creation of a single state environmental agency.

THE TALCO Junior High Student Council was elected last week. Officers for 1991-92 are: president, Carey Gable; vice-president, Maria Prado; and secretary-treasurer, Jonny Southern. (Staff Photo by Nancy Brown)

STILL COOKING and collecting recipes is 81-year old Purna Haydock, who is sharing this

week in the Country Cooking column. (Staff Photo by Gerrie Bankhead)

## Country Cooking

By Gerrie Bankhead

The Country Cooking column is coming to you this week from the kitchen of Purna Haydock. Being a resident of Deport for 58 years, she and her late husband, Mike, had been married 53 years before his death three years ago. Purna attends the First Baptist Church in Deport and through the years has taught beginners and young peoples' classes and sung in the choir.

Purna is retired from the position of cashier at the First National Bank of Deport where she spent 27 years of her life.

Purna is the proud mom of one stepson, Dick Haydock and family of Deer Park. She has two grandchildren and three great-grandchildren. Purna also has one brother, Everett Guest and his wife Berdena of Dallas.

Playing 42, sewing, cooking, collecting recipes, yardwork and being around people are hobbies Purna enjoys.

She belongs to the Tuesday and Friday 42 Clubs at Deport and thoroughly enjoys these because she loves to be with people and loves to be the hostess and serve refreshments when it's her month to do so.

She also loves to prepare and fellowship at Sunday School socials each month.

Cooking cakes and casseroles are Purna's favorite foods to prepare. She also states she's a big vegetable maker. Visiting nursing homes is also an

enjoyment of hers. She enjoys "circling" around and visiting all her friends. She says no one has better neighbors and friends than she has and she loves them all and appreciates them dearly. Purna loves to have friends visit her also.

She saves every recipe that come out in the Thunder Prairie Country Cooking column. She is sharing with the readers this week her recipe for Cowboy Casserole, that came from the first cooking school held in Paris many years ago. Don Meredith's wife submitted this recipe.

The Cheese Soup recipe came from her late daughter-in-law, Geanne Haydock, about 10 years ago. The Adams Apple Pie recipe came from a dear friend, Thelma Warren of Deport, about four years ago.

The Hollywood Carrot Juice Cake is great for persons watching their cholesterol because it contains no eggs. In case you've never heard of it, there is a can of juice by this name. She suggests not to substitute the juice for any other for this recipe.

The Meat Loaf recipe came from the very first Methodist Cookbook and was submitted by Casey Grant of Deport. Feel free to call Purna if you have any questions concerning her recipes.

If you've enjoyed the article, request a recipe or have a recipe to share or suggest a feature, please call 652-6032 or write Rt. 1, Box 67A, Deport, TX 75435.

# Rebels Bested By New Diana

**By Marian Green**  
Rivercrest tried to do a better job this week, but it somehow didn't come out that way. The New Diana Eagles were a little tougher than expected and won the game by a whopping 47-0 score.  
RHS won the toss and elected to receive. Shannon Richeson received and ran for 4 yards. On RHS's second play quarterback John Smith was sacked and made it two down and 23-yards. Two plays later, RHS was unable to meet the first down.  
By this time, New Diana had the ball, but it didn't help much. The Rebs wouldn't seem to move the ball past Diana's defense. But there was excellent punting by Harold Tiffie, which set the Eagles back a few yards.

But even that didn't slow down New Diana, for within three plays, they had scored with 34 seconds left in the first quarter, making the score 14-0.  
With all of RHS's effort, this New Diana team was unstoppable. The Rebels came out of the locker room after halftime with a little more energy, but not enough. The Rebel offensive line could not sustain their blocks against a larger New Diana defense and they couldn't move the ball up the field. In the end, the New Diana Eagles beat Rivercrest 47-0.  
There were not that many comments from the coaches. Coach Barker stated "Our effort was great. We've got to understand that New Diana has very good talent. I think we

underestimated them and they were better than we expected. We saw that New Diana had an awesome defensive line and basically they were very good. It would have been very hard to come back from that kind of score."  
The Rivercrest JV played New Diana last Thursday there. New Diana won the game 38-0.  
The Junior High will begin this week against James Bowie.  
RHS varsity will travel to James Bowie on Friday night with game time at 8 p.m.  
Varsity, JV and junior high will play James Bowie here on Thursday night at 6 p.m. and 7:30 p.m. Show your support, come out and watch the Rivercrest Rebels.

### District 17AA Football Roundup

**By Marian Green**  
Only one team in District 17AA tasted victory in the first week of the new season as Chisum beat Prosper 12-7.  
Honey Grove at least hasn't afelt the agony of defeat as they slugged it out to a 40-all tie in Fannindel.  
Rivercrest showed good offense potential in a 26-14 loss to 3A Prairi-

land.  
Royce City surprised the Dogs of Cooper in taking their 7-6 win with Wolfe City being outmanned 28-0 at home against Rains. Howe poured it on Leonard 27-6.  
This week's schedule has always tough New Diana coming to Rivercrest as the Rebels continue to re-

member the 66-0 shelling at Diana last year. Cooper will have their hands full again hosting Celina as will Leonard playing host to Royce City. Chisum might find themselves 2-0 as they host Detroit, whil Wolfe City journeys to Lone Oak to try for their first score. Honey Grove will host Whitwright.

Season Standings		Tied	PF	PA

## PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 5, 1991

### PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 114 proposes a constitutional amendment that would authorize home rule cities having a population of 5,000 or fewer inhabitants to amend their city charters by a majority vote of a city's qualified voters at an election held for that purpose. The amendment makes clear that home rule cities that have declined in population below the population required to initially adopt a charter may nevertheless continue to amend their charters.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment allowing home-rule cities with a population of 5,000 or less to amend their charters by popular vote."

### PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 10 proposes a constitutional amendment that would allow the legislature to authorize the Texas Department of Transportation to expend money, from any source available, for the costs of the turnpikes, toll roads, or toll bridges of the Texas Turnpike Authority, provided that any monies expended from the state highway fund shall be repaid to the fund from tolls or other turnpike revenue.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment mandating the repayment to the Department of Transportation of monies expended to assist the Texas Turnpike Authority in the construction, maintenance, and operation of turnpikes, toll roads and toll bridges."

### PROPOSITION NO. 3 ON THE BALLOT

Senate Joint Resolution 26 proposes a constitutional amendment that would authorize the Veterans' Land Board to invest, as authorized by law, moneys of the Veterans' Land Fund which are not immediately committed to the payment of principal and interest on bonds issued by the Veterans' Land Board, the purchase of lands, or the payment of expenses. Investment of such moneys would no longer be restricted to investments in bonds or obligations of the United States. The proposed amendment would also authorize the Veterans' Land Board to invest, as authorized by law, moneys of the Veterans' Housing Assistance Fund which are not immediately committed to the payment of principal and interest on general obligation bonds issued by the Veterans' Land Board for the benefit of the Veterans' Housing Assistance Fund, the making of home mortgage loans, or the payment of expenses. Investment of such moneys would no longer be restricted to investments in bonds or obligations of the United States. The proposed amendment gives the legislature power to implement the amendment and to delegate such duties and authority to the Veterans' Land Board as it deems necessary.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to authorize the legislature to further implement and enhance the administration of the veterans' housing assistance and land programs and to expand the investment authority of the Veterans' Land Board."

### PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 4 proposes a constitutional amendment that would allow the legislature to authorize the issuance of a maximum of \$1.1 billion in general obligation bonds. The proceeds of the bonds are to be used to acquire, construct, or equip new prisons and substance abuse felony punishment facilities, mental health and mental retardation

institutions, and youth corrections institutions, to repair and renovate existing facilities of those institutions and to acquire, repair, or renovate other facilities for use as state prisons or substance abuse felony punishment facilities. The \$1.1 billion is in addition to the \$900 million currently authorized by the constitution to be expended on bond issues for facilities of correctional and mental health and mental retardation institutions. The bonds would constitute a general obligation of the state. The bonds and interest on the bonds would be paid from the first money coming into the state treasury that is not otherwise appropriated by the constitution, less any amount in a sinking fund at the end of the preceding fiscal year that is pledged to payment of the bonds or interest.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the issuance of up to \$1.1 billion in general obligation bonds for acquiring, constructing, or equipping new prisons or other punishment facilities to confine criminals, mental health and mental retardation institutions, and youth corrections institutions, for major repair or renovation of existing facilities of those institutions, and for the acquisition of, major repair to, or renovation of other facilities for use as state prisons or other punishment facilities."

### PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 39 proposes a constitutional amendment that would allow a county, junior college district, or municipality to exempt tangible personal property from ad valorem taxation if: (1) the property is acquired or brought into the state in an enterprise zone to be forwarded outside the state, (2) the property is assembled, stored, repaired, maintained, manufactured, processed, or fabricated in the enterprise zone, (3) the property is transported outside the state not later than 175 days after being acquired or brought into an enterprise zone, and (4) the person who acquired or brought the property into an enterprise zone is a qualified business. A county, junior college district, or municipality may exempt such property by entering into a written agreement with a qualified business that states the duration of the exemption and the terms on which the exemption is granted. Any action to exempt property must be taken before April 1 of the first year in which the property would otherwise be taxed. The term "enterprise zone" means an area that (1) has been designated as such by a state agency responsible for economic development, and (2) has pervasive poverty, unemployment, and economic distress. The term "qualified business" means a business that meets the qualification established by general law, and requires that the qualified business is actively engaged in a new business in the enterprise zone or is expanding a business that is already active in the enterprise zone. An enterprise zone is created to foster economic development in an area of pervasive poverty and unemployment.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the exemption for ad valorem taxes of certain property in an enterprise zone."

### PROPOSITION NO. 6 ON THE BALLOT

Senate Joint Resolution 8 proposes a constitutional amendment that would establish a Texas Ethics Commission with the powers and duties provided by law. The commission would consist of eight appointed members selected as follows: two members of different political parties appointed by the governor from a list of at least ten names submitted by the members of the house of representatives from each major political party; two

members of different political parties appointed by the governor from a list of at least ten names submitted by the members of the senate from each major political party; a major political party is a political party required by law to hold a primary. With the exception of the initial appointees, commission members would serve for four-year terms. A member who has served for one term and any part of a second term would not be eligible for reappointment. The commission would be authorized to recommend the salary of the members of the legislature and may recommend that the salary of the speaker of the house of representatives and the lieutenant governor be set at an amount higher than that of other members. If the commission recommends a change in salary, the voters would be authorized to accept or reject the salary change at the next general election for state and county officers. If the voters approve the recommended salary, that salary would take effect January 1 of the next odd-numbered year; if the voters reject the recommended salary, no change in salary would occur. The commission would set the per diem of the members of the legislature and of the lieutenant governor. The per diem could be raised or lowered biennially as necessary to pay members' costs, but could not exceed the amount allowed as of January 1 that year as a federal income tax deduction for living expenses incurred in a legislative day in connection with a member's business as a legislator, disregarding any federal income tax exception for legislators residing near the Capitol. The commission would have other powers and duties provided by the commission's enabling act (Senate Bill 1, 72nd Legislature, Regular Session). The amendment would also provide that an increase in the emoluments of the office of Lieutenant Governor would not make a legislator ineligible to serve in the office of Lieutenant Governor.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment creating the Texas Ethics Commission and authorizing the commission to recommend the salary for members of the legislature and the lieutenant governor, subject to voter approval, and to set the per diem for those officials, subject to a limit."

### PROPOSITION NO. 7 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment that would allow the board of trustees of each statewide public retirement system to invest the funds of the system in such manner as the board considers prudent. The board would no longer be limited to investing the funds of the system in securities.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to allow the board of trustees of a statewide public retirement system to invest the funds of the system in a manner that the board considers prudent."

### PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 21 proposes a constitutional amendment that would permit the legislature to create debt by or on behalf of the state if the legislature submitted the debt question to the voters of the state in the form of a proposition and a majority of those voting approved the proposition. The legislature may call the election, by joint resolution approved by at least two-thirds of the members of each house, during any regular session or during any special session if the subject of the proposition is included in the Governor's proclamation for that special session. A proposition must clearly describe the amount and purpose for which debt is to be created and must describe the source of payment for the debt. The amount of debt stated in the proposition may

not be exceeded and may not be renewed unless the right to exceed or renew is stated in the proposition. The legislature may enact laws necessary to implement the authority granted by a proposition. A law enacted in anticipation of the election on a proposition is valid if, by its terms, it is enacted subject to approval of the related proposition. State debt that is created following voter approval of a proposition and that is approved by the Attorney General is incontestable for any reason.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the voters of this state to consider state debt questions in the form of ballot propositions that must clearly describe the amounts, purposes, and sources of payment of the debt only after approval of the propositions by a two-thirds vote of each house of the legislature."

### PROPOSITION NO. 9 ON THE BALLOT

Senate Joint Resolution 11 proposes a constitutional amendment that would authorize the commissioner of the General Land Office to issue patents for certain public free school fund land for which there is not a valid transfer of title from either the State or the Republic of Texas to a private party. A patent is a document of title issued by the state. On application to the School Land Board, a person is entitled to receive a patent if: (1) the land is surveyed public free school fund land, (2) the land was not patentable under the law before the adoption of this proposed amendment, (3) the person acquired the land without knowledge of the title defect of the State of Texas or the Republic of Texas and held the land under color of title, the chain of which dates from at least January 1, 1941, (4) the person has a recorded deed on file in the county courthouse and, in conjunction with his predecessor in interest, has claimed the land for at least fifty years as of January 1, 1991, and (5) the person, in conjunction with his predecessor in interest, for at least 50 years has paid taxes on the land together with all interest and penalties associated with any delinquency. If the applicant is denied a patent, the applicant may file suit against the School Land Board in a district court in the county where the land is located within 60 days from the date of denial. The proposed amendment does not apply to beach land, submerged land, or islands, and may not be used to resolve a boundary dispute. The proposed amendment also does not apply to land found by a court to be state-owned or to land on which the state has given a mineral lease that is in effect when a patent is sought. A patent under this proposed amendment for land within five miles of mineral production shall reserve minerals to the state in the manner provided by law for reservations of minerals in sales to claimants of unsurveyed school land within five miles of production. An application for a patent under this proposed amendment must be filed with the School Land Board before January 1, 1993.

This proposed constitutional amendment is similar to the version of article VII, section 4A, that was in effect between 1981 and 1990. The main difference is that under the earlier version the applicant for a patent to land had to have a chain of title that dated back to at least as early as January 1, 1932.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years."

### PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 15 proposes a constitutional amendment that would allow the legislature to pass general laws to exempt property owned by a nonprofit corporation organized to supply water or provide wastewater service from ad valorem taxation. A nonprofit corporation would be eligible for the exemption if its bylaws provide that

on dissolution, the assets remaining after the discharge of the corporation's indebtedness will be transferred to an entity providing water supply or wastewater service, or both, which is exempt from ad valorem taxation. The transferred assets must be property that is reasonably necessary for and used for water supply and wastewater services.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing the legislature to exempt from ad valorem taxes certain property of a nonprofit corporation that supplies water or provides wastewater service."

### PROPOSITION NO. 11 ON THE BALLOT

House Joint Resolution 8 proposes a constitutional amendment that would allow the legislature to pass laws to authorize the State of Texas to operate lotteries and to enter into a contract with one or more legal entities that will operate lotteries on behalf of the State of Texas.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment authorizing a state lottery."

### PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment that would increase the total amount of bonds that may be issued by the Texas Water Development Board to provide wholesale and retail water and wastewater facilities to economically distressed areas of the state. The proposed amendment increases the maximum principal amount of the bonds from 20 percent to 50 percent of the \$500 million amount authorized by article III, section 49-d-7, of the Texas Constitution. The proposed amendment would increase the maximum aggregate dollar amount of bonds that the Texas Water Development Board could issue from \$100 million to \$250 million.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment to increase from 20 percent to 50 percent the percentage of Texas water development bonds previously authorized by Texas voters that may be issued for economically distressed areas."

### PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 2 proposes a constitutional amendment that would allow the legislature to pass general laws authorizing Texas Higher Education Coordinating Board or its successor to issue and sell up to \$300 million of general obligation bonds to finance education loans to students. The maximum net effective interest rate to be borne by the bonds would be set by law. The amendment would also authorize the legislature to provide for the investment of bond proceeds and to establish an interest and sinking fund to pay the bonds and provide for the investment of such fund. Bonds authorized under this amendment would be paid from the first money coming into the treasury in each fiscal year that is not otherwise appropriated by the constitution, less any amount in an interest and sinking fund established at the end of the preceding year that is pledged to the payment of the bonds or interests.

The proposed amendment will be described on the ballot as follows: "The constitutional amendment providing for the issuance of general obligation bonds not to exceed \$300,000,000 to continue existing programs to provide educational loans to students, with repayments of student loans applied toward retirement of the bonds."

Officer  
To Speak**

On Thursday, September 26 at 7 p.m. at the Bogata Community Center, everyone is asked to attend a special meeting regarding the safety of neighborhoods.

A Paris Crime Prevention officer will be present to talk about what can be done to prevent crimes in the neighborhood and will present a program and then participate in a general discussion.

The safety of your neighborhood depends on your cooperation. Find out how you can protect your family against crime and help make this a better place to live for everyone.

Be sure to remember Thursday, September 26.

**Youths Particiate In  
Nationwide Prayer**

Young people from around the community gathered at school flag poles on the school campuses last Wednesday morning at 7am in a joint prayer effort for the coming school year.

Seventeen students from Bogata met at the Rivercrest campus, while five junior high students met at the Bogata school. This prayer effort was student led, with the students reading scripture and praying for the school, teachers, administrators, other students, and the school year that faces them.

These area young people were only a small part of a simultaneous nationwide prayer entitled "See You At The Pole". Students from across the state and around the nation met at their respective schools for prayer of the school year, as well as showing support for each other.

This early morning prayer meeting was not an effort of these young people to try and be "holier-than-thou". Rather it was a sincere prayer meeting of concern on behalf of these

**SILENT PRAYER-A group of youth participated in a nationwide silent prayer last Wednesday at the Bogata school campus.**

students. Young people today face a tremendous amount of pressure and temptations that students of twenty and thirty years ago did not have to deal with. These young people realize what they face, and know that prayer and the support of other Christian young people will go a long way in helping them through the things that will confront them in the coming months. "See You At The Pole" is only a once a year event, but the encouragement these people recieved from the joint prayer and Christian support will help them get started on the right track, as well as help them be positive influences on their campuses.

All the news concerning young people today is not bad. There are students that are concerned and doing something about it. Adults in the Bogata community can be proud of young people like these, who are willing to stand up and be counted, and do their part to make their schools a better place.

**D-Fy-It Program Is Ready  
For Another Successful Year**

The D-Fy-It president, Rue Anna Bell, along with Linda Eilers, Karen Jones and Nancy Brown met shortly Thursday, September 5 to set a date

for the first D-Fy-It meeting of the year.

Although no definite date was set, the group will try to work in a meeting before September 27. D-Fy-It will sponsor a fifth quarter fellowship following the football game on September 27 at the Feed Trough Etc. in Talco and everyone is encouraged to attend.

Testing for new members will begin soon, this year's sixth graders may join and any other students, grades 6 through 12, interested in staying drug free and enjoying benefits of the group.

Last year Talco reported 100% of their sixth, seventh and eighth graders, Bogata reported 90% of their students the same age, and Rivercrest had 80% of the student body.

The group stresses the importance of its work in the schools and feels if they can turn one child away from the ever-present pressure to experiment with drugs, they have been a success.

Everyone in th community is encouraged to join in the drug war in the schools and in the community.

**A few minutes now  
can mean security  
later if you rely  
on electricity for  
life-support equipment**

A brief phone call now can help ensure quick restoration of electric service to your home during an outage later.

If you depend on electricity for life-support equipment, call your local Texas-New Mexico Power Company office today to make sure that your name is on a list of customers who need prompt attention during an outage.

Texas-New Mexico Power Company works to restore service to all customers as quickly as possible after outages but will give priority attention to customers with health considerations.
