Worth

By Nanalee Nichols

Here in East Texas the seasons are not so clearly defined as they are in other portions of the world...say up in the New England states or the mid west.

Right now is a classic example of having a combination of seasons. The seasonal lines are blurred with a gentle hand.

This morning I awoke to a frost so heavy that my yard and all in it looked like a light snow had powdered it.

Gems beyond price studded every leaf and blade of grass. When the brilliant sun, more in keeping with early October than late November, struck the frost it glistened and shone like fire.

But before long all frost was gone. The day was keyed more to those fabulous trees who retain nature's last fall follies. Bright and joyous reds and yellows, muted ochers and tans graced the world around us in that continuing sunshine.

Before the day was over, jackets and sweaters were shed and warmth bathed our old dog as he dragged his bedding out of his house to lie in comfort in the sun.

Then, the season changed again as dusk set in.

Dusk right now is almost a "spooky" time, with a long, slow slide into the black of a winter's night.

The sunsets have been gorgeous, skies streaked in the west with puffy, turbulent clouds stained all the colors of the red field from palest pink to deepest crimson. They last a long time as night slowly, creeps up on the world...and so early too!

Then, winter holds sway yet again as the dark velvet of night is complete.

It's cold...freezing cold. A quick dash out for firewood reveals a glimpse of those highplaced diamonds...the stars. But it is too cold to linger unless carefully dressed for the chill.

So, within a twenty-four hour space I've been privy to three of our four seasons, autumn colors, spring-like temperatures, winter night time. Only the height of summer is missing...much to many people's delight (If not to mine).

It's a rare treat to enjoy the world these days. The gardening chores can be done at leisure, without the rush of knowing things are growing faster than we can keep up.

The shopping chores are still at a leisurely pace, too...we are poised just before that Christmas panic time when there is so much to do.

It's a quick slide down to Thanksgiving, which kicks off winter holidays.

Take a pause to enjoy it, folks, it's precious and doesn't last too long.

## Local Students Receive Regional Welding Award

Rivercrest High School students, Michael G. Tabb, Marty Wayne Gray, and Jimmy Bryan Ottinger have received a \$125.00 Regional Silver Award for their Region II, Division I entry in the 1993 School Shop Arc Welding Awards Program of the James F. Lincoln Arc Welding Foundation. The National program, which recognizes excellence in the application of arc welding techniques to school shop projects, granted a total of \$25,150.00 in awards. Division I entrants are 18 years old or younger; Division II is for career students of 18 years of age.

The Rivercrest team's entry describes the "Complete BBQ Center" they designed and fabricated under the supervision of shop instructor, Craig Ingram.

For the purpose of the Division I Awards Program, the United States is divided into four geographic regions. Region II encompasses the states of Kentucky, Virginia, North Carolina, South Carolina, Tennessee,

Mississippi, Alabama, Georgia, Florida, Arkansas, Louisiana, Oklahoma, and Texas, as well as Puerto Rico and the Virgin Islands.

Division I entrants were judged by a jury consisting of Foundation Chairman Donald N. Zweip, Professor Emeritus and Department Head Emeritus of Mechanical Engineering, Worcester Polytechnic Institute; Mr. Gerald Dux of Pierce, Nebraska; Mr. Rob Killingsworth, of Point, Texas; and Mr. Charles R. Nixon, of Evanston, Wyoming.

The James F. Lincoln Arc Welding foundation, established in 1936 by The Lincoln Electric Company to advance the science and application of arc welding, has offered awards annually for 57 years to recognize superior achievements in these fields. Rules brochures for the 1994 professional, pre professional, and school shop categories of the Awards Program are available free of charge from the James F. Lincoln Arc Welding Foundation, P.O. Box 17035, Cleveland.

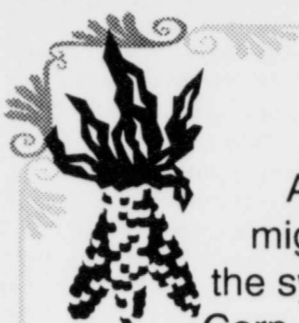

**LARGEST HOLIDAY wreath in Talco hangs in the entry way to the home of Mr. and Mrs. John D. Wright. It is made of vines from the Sulphur bottom and decorated with items from the Wright's land plus pine cones from California, Indian corn from Vermont and deer**

horns from South Texas. The Wright's daughter, Mona, got poison ivy helping make the wreath two years ago, but it has been well worth her misery as the decorations on it change each season and each season is prettier than the last. (Staff Photo by Nancy Brown)

Talco Bogata CISD Tax Office will be CLOSED for Thanksgiving Thursday and Friday, November 25th and 26th.

## Symbols Of The Season

As Thanksgiving is upon us once more, it might do everyone good to stop and consider the symbols that make us think about the Holiday.

Corn, a symbol of bountiful harvest, and a gift from Indians, is a commonly used symbol. Turkey, of course, is perhaps our most familiar Thanksgiving symbol. The Cornucopia, spilling forth the fruits and gifts of the earth is another symbol from long ago. And, of course, Pilgrims, frequently at prayer, remind us about the true meaning of Thanksgiving.

But are they only symbols, meaningless, and overshadowed by the football and time off from work? Not unless that is what we reduce them to. For the symbols of this holiday are meant to remind us of the fruitful bounty the land gives us (whether bought in a supermarket or grown in the garden, it all comes from our precious earth); to the praying Pilgrims...who came to a new world to find religious freedom and a better way of life...

and who were so very thankful for so little that first Thanksgiving...

while we sometimes are so little thankful for so much!

Give True Thanks This Year For All Our Blessings!  
HAPPY THANKSGIVING TO ALL

By Judy Screws

Our column this week is about a lady I have admired from afar and always wanted to meet. I would still like to meet her, since Nancy Brown interviewed her. The lady is Virginia Wright, and she and her husband, John D. Wright, live in Talco. The Wrights had 13 children. They lost their son Robert in an automobile accident so they now have 12 children, John David Wright, Camelia Stephenson, Scott Wright, Doug Wright, Todd Wright, Shane Wright, Karen Jones, Sue Curry, Mona Wright, Mayra Wright, Marta Rhodes, and Laura Kernan. They have 27 grandchildren and 10 great grands. I've always been a bit envious of Mrs. Wright's having so many children and having them and her grandchildren around all the time. I'd love for all of our children and grandchildren to live next door to us, or in the same house, if there was room. Of course this is not practical for us, but I can still envy someone who manages to accomplish it.

Mrs. Wright, who is lovingly called "Maw" was the secretary, bookkeeper, and probably chief cook and

bottle washer for the construction business she and her husband owned.

She collects antique spoons, butter dishes, and furniture, and enjoys an occasional trip to the Canton trade days. Other than that she just mostly enjoys her family.

Yes, they do have a place where they can all sit down to eat at one time.

One of her favorite things to cook is something her kids and grandkids call the Egg in the hole. She does this just for fun, but I understand that Mrs. Wright is a wonderful cook and homemaker. Her recipes, other than the egg, are Hot Cranberry cocktail, which she has had so long that she can't remember where she got it, Martha Cake, which came from her cousin Martha Rudd Forrest, who lives in Daingerfield, hence the name Martha Cake. All the kids and old folks like this cake.

Thank you, Mrs. Wright for being in the column. I still hope to meet you someday.

Have a safe and Happy Thanksgiving.

**Tim Wood Attends Convention**

Tim Wood, along with his sister, Denise, recently attended the National Funeral Directors Convention held in Chicago.

The meeting, which lasted for four days, included seminars and workshops giving funeral directors from across the nation the ability to communicate with each other in the ways that they work with their families.

"It is really amazing at how different cultures and locations do things differently. The funeral industry is staring at the realm of the 21st century and many changes are going to

occur," said Wood. "We are proud of what we do for our families, for our service is our main strength. From meetings such as these, we can gather new information that we can bring home and adapt to our needs and use in formatting our goals of making our funeral services as personal as possible.

Our future plans include a public education program in death, dying and bereavement; a grief newsletter; and audio-visual material for our libraries."

# REBEL SPORTS REPORT

## Lady Rebel JV Falls To Mt. Pleasant

The Rivercrest Lady Rebel JV traveled to Mt. Pleasant for their first game of the season on November 16. The team had first game jitters to an extreme. They could not pull out the win after too many mistakes. The final score was 45-19, Mt. Pleasant.

On Friday the girls traveled to Mt. Vernon. The girls had a very slow first half. It seemed they could not buy two points. The half ended 22-4, Mt. Vernon.

The third quarter saw the Lady Rebels make a comeback, but a little

too late. Jana Weatherall dropped in 11 points for the team to bring the final score to 27-21, Mt. Vernon.

The Varsity Lady Rebels took the court to play a rough game against the Mt. Vernon Tigers following the JV game.

The first quarter ended with a 7-7 tie, but by the halftime, the Lady Tigers had upped their score to 21-14.

The Lady Rebs lost three players to foul trouble. Ashley Ross, Karen Williams and LaQuita Norman all

ended the game from the bench, after fighting to end the third quarter ahead, 25-24. The team made too many bad passes to hold their slim lead and in the final seconds, Kathy Hinsley was injured in a collision with Lady Tiger Stacey Benfield. Kathy suffered a shoulder separation and will be out of play for several weeks.

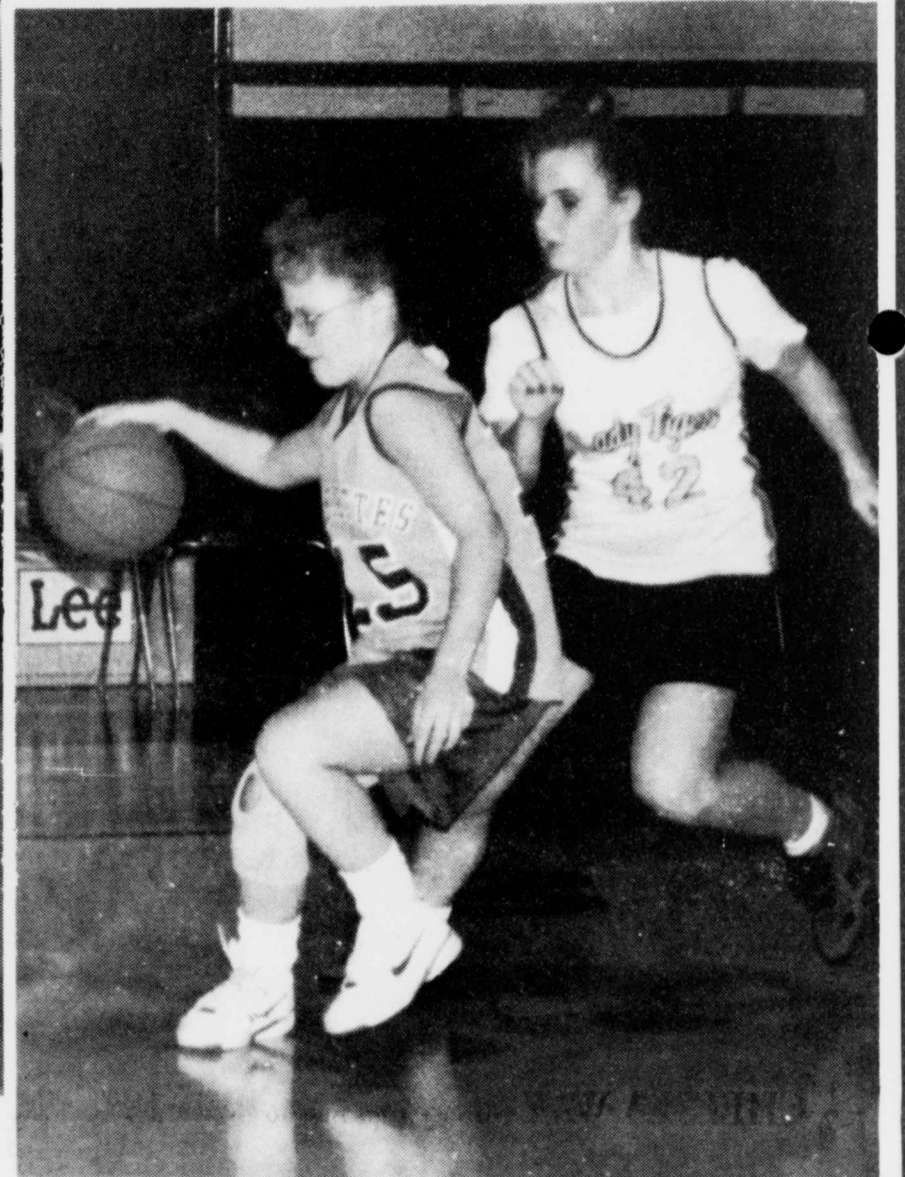

The final score was 42-37, Mt. Vernon. High scorer for the team was Michelle Giles, followed by Kathy Hinsley.

**After 45 Years At GNB Retirement Brings Honor**

When Billy Mauldin arrived at GNB Battery Technologies, in Farmers Branch in 1948, he did not plan on staying long, but because he liked his co-workers and the pay was so "high"-95 cents an hour- he just couldn't leave.

Through the years, Mauldin, 65, witnessed dramatic changes, not only in technology and production, but also to the human side of the battery manufacturing equation. The company recently honored him with a special ceremony recognizing his 45 years of service- the longest stint in the firm's history- after he retired in September.

A native of Cuthand, Mauldin settled in Irving after serving in the U.S. Army Air Corps during World War II. With the aid of a friend working at GNB, he started working there mixing mud for the battery plates for 95 cents an hour.

When such tasks became obsolete, Mauldin repaired, inspected,

and analyzed batteries. He was in charge of lot sampling and analysis of batteries that would be shipped to and from an analysis center.

Since retiring, he has devoted more time to gardening, bowling, miniature golf, and picking up aluminum cans. He has a brother, Tommy, who has worked for GNB for 31 years.

(Editor's Note: This article was originally published in a DFW area paper. It was sent to us by Mrs. Tommy Mauldin. She wanted us to have it since Mr. Mauldin is originally from Cuthand. She said that the original article contained quite a bit of information about the factory, but she thought we would only be interested in the part about Mr. Mauldin. We appreciate Mrs. Mauldin's sending this article to us and wish both of the brothers well. We also congratulate the retiree on his being honored. Forty five years is quite a record.)

**TRAVEL TIPS**

By

Marlene Pendleton, C.T.C.

Many people have a misconception of what to expect when they leave this country. They expect it to be just like the U.S.

I don't know how many times I've heard people say they don't want to go to Mexico or Jamaica or similar places because of the poverty. What they want is a vacation from reality. For these people places like Disneyworld are perfect.

So there is poverty...I did not bring it on these people and I'm doing my part to help them by spending some of my money in their country.

One thing it does do is make me feel especially thankful I live in the U.S.A. Maybe that is why we set aside a day to give thanks in this country. We have so very much to be thankful for! Until you have had the chance to travel and see how other people live you can't really compare what you have.

**Westerman Completes Basic Training**

Navy Seaman Recruit Ricky M. Westerman, son of Buster L. and Dianna J. Bailey of Route 1, Bogata, Texas, recently completed basic training at Recruit Training Command, Great Lakes, Ill.

During the cycle, recruits are taught general military subjects designed to prepare them for further academic and on-the-job training in one of the Navy's 85 occupational fields.

Studies include seamanship, close-order drill, naval history and first aid.

Westerman is a 1993 graduate of Prairiland High School of Pattonville, Texas.

The definition of a sailor: I am a United States Sailor. I represent the fighting spirit of Navy bluejackets who have gone before me to defend freedom and democracy around the world. I proudly serve my country's Navy combat team with honor, commitment and courage. I am committed to excellence and the fair treatment of all. I will obey the orders of my superiors. I will support and defend the Constitution of the United States of America.

**Baptist Group Visits Hospitality House**

Tuesday November 15, Brother George Thomas, Rose Mary Swinford, Alice Ann White, Glen White, and Linda Eilers were in Huntsville to deliver Santa Bags to the Hospitality House.

On October 23, several ladies met to make the Santa bags, then the older ROC (Reaching Others For Christ) Group donated candy to fill the bags. The bags will be given to children at Christmas. These are children of those who are incarcerated in the Texas Department of Criminal Justice in Huntsville.

The Hospitality House was built by the Texas Baptist Retired Builders on May 23, 1986. In a period of 24 hours, approximately 270 people built

the 7,000 square foot facility with 50 beds.

People have come approximately 5,000 per year, from all around the world and nearly every state of the union to visit loved ones incarcerated in the TDC.

The Hospitality House ministers to the physical and spiritual needs, assists in coping with situations, and

encourages help and strengthens family relationships.

(Glen White, who was in the group traveling to Huntsville is a member of the Builders. Please watch for a very interesting article on him and Alice Ann and their work in next week's paper.)

**Music Teachers Attend Workshop**

Red River County Music teachers, Anaya Phillips, of Bogata, and Pam King, of Clarksville, attended an Alfred Piano workshop sponsored by Lovell Music company, of Texarkana.

Practical technique tips and up-to-date teaching advice were given by leading piano clinician, Dr. Mary Robbins, who has taught private and group piano as well as sight reading and accompanying at the college level. Dr. Robbins has also performed professionally as a soloist and as an accompanist in the United States and Europe. She lectured at the 1991 International Mozart Congress in Austria.

The workshop ended with a special pedagogical discussion.

**Energy Efficiency Is A Piece Of Cake With A Heat Pump.**

Saving energy is always sweet, especially when a high efficiency heat pump lets you save without sacrificing comfort. Because a heat pump cools in the summer and heats in the winter, the savings is year-round. For icing on the cake, Texas-New Mexico Power Company is now offering rebates for new heat pumps with a Seasonal Energy Efficient Ratio (SEER) of 12.0 or higher. Units equipped with a two-speed or variable speed compressor need a minimum SEER of 11.0 to qualify. For more information, call or visit your local TNP office.
