

THE RIVERCREST REBEL JV squad outscored the Big Sandy Wildcats 36-6 last Thursday night. The young Rebels led the entire

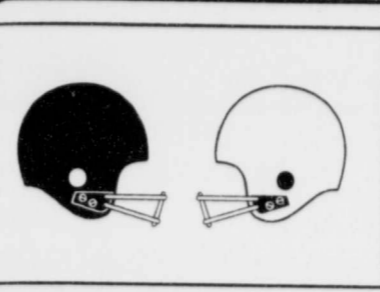

game allowing only six points to be scored against them. (Staff Photo by Thomas Nichols)

Junior Varsity Rivercrest Rebels for this year are: #10, Justin Smioth; #11, T. Peoples; #15, Jody Nolen; #22, Michael

Allen; #24, Jody Gray; #25, Mitch Ellis; #40, Clint Gage; #41, Michael Demming; #42, Todd Baker; #44, S. Bryson; #50,

C. Cruise; #82, B. Giles; #55, J. Guest; #75, D. Belcher; #67, J. Carder; #68, K. Rector; #83, R. Giles; #85, B. Scott.

REBEL SPORTS REPORT

Rebs Toppled By Big Sandy 38-14

The Rivercrest Rebels went to battle Friday night against a much larger Big Sandy. The Rebels looked better than in weeks before, having only fumbled twice in the ballgame. Regardless of how hard the Rebels fought, they were to take the loss 38-14.

In the opening minutes of the game, the Wildcats were forced to settle for a 28-yard field goal, when Rodney Humphrey stopped the advancement of the Wildcat offense.

The Wildcats were to score two

more times in the first half before the Rebels were on the scoreboard. Late in the first half with time ticking, Tee Green put the ball in the air to Josh Belcher for a Reb TD. Carey Gable's PAT fell short of its destination and the Wildcats were to be on top 17-6 when the half ended.

The Wildcats took advantage of the much smaller Rebels during the second half and continued to pound on the defense. By the end of the third quarter the score was 31-6.

The Rebels continued to struggle

and in the fourth quarter, Chesley Baird found the endzone to add points to the Rebel six. Green found Alvin Savage over the line for the two point conversion. This proved to be the final scoring for the Rebels.

The Wildcats were not quite through, as the added 7 more points to their score to finish the game.

The Rebels will travel to Maud on Friday night. The game will start at 7:30. Come out and support the rebels and enjoy Friday night football!

JV Tops Wildcats 36-6

After two disappointing games against the Big Sandy Wildcats Thursday, the JV took the field with a vengeance. The Wildcats outsize the Rebels, but the Rebels never seemed to notice.

The Wildcats took the opening kickoff, but the defense put them in their place and with a Michael Allen interception, the Rebs went to work.

The Rebels used both an air and ground attack against the Wildcats. The offensive line gave good protection to quarterback Jody Nolen and the Rebels quickly put six points on the board with Jody Gray taking it in.

The Wildcats found the Rebel defense hard hitting with Belcher taking out the Wildcat quarterback twice. A mishandled punt gave the Rebels possession on their own 30. A pass from Nolen to Justin Smith put the Rebs on the goal line. Mike Deming took the ball over for the TD and a

pass to Allen for the two point conversion put the Rebels up 14-0. The Rebels went on to score two more times before the half ended, with Deming and Allen taking the honors. The half ended Rebels up 28-0.

The second half of the contest proved to be one sided as the Rebels went to work on the Wildcats. The Rebel defense was awesome against the Wildcats which kept them scoreless throughout the third quarter.

Deming again muscled his way across the goal line and Nolen with a qb keeper the extra point was good. The Rebels had the game wrapped up with a 36 point lead.

The game ended when the Wildcat offense finally scored in the closing seconds. The Rebels wouldn't let them have any more than six and time ran out with the score Rivercrest Rebels 36-Big Sandy 6.

Outstanding plays were made by the entire team.

THE SEVENTH-EIGHTH grade Rebels fell to Big Sandy 20-0 last week in football action. (Staff Photo)

Seventh-Eighth Grade Rebs Fall To Big Sandy

Seventh Grade Football

The seventh grade Rebels had their first game last Thursday night in Big Sandy.

The Rebs met an experienced Wildcat team, but were eager to clash on the field. The opening kickoff was returned for a Wildcat TD but the Lil Reb defense pulled together to stop a two point conversion.

The Rebel offense took to the field with Cody Wolfe as quarterback but they failed to make any yardage and the Wildcats took possession. The Wildcats took control of the game from that point on and the young Rebels had difficulty containing them.

The second half brought a more confident Rebel team to the field. The highlight of the second half was a sixty yard run by J.C. King for a

Rebel TD. The Rebels were unable to add any more points to the score as the game ended with the Wildcats on top 26-6.

The Rebels had key plays made by Coleman Brown, Sam Stanley, Luis Torres, Ryan Case, Josh Jones, Cody Wolfe and Paul Billingsley.

Eighth Grade Football

The eighth grade Rebels met a large Big Sandy team Thursday night.

In the early minutes of the game, the Wildcats scored on the Rebels,

but the Reb defense stopped the extra point attempt. The Rebel offense got off to a cold start but were fired up after quarterback Chad Holland put the Rebs within scoring distance on a 60-yard run. The Rebels were fighting for the score when the half ended, Wildcats 12-Rebs 0.

Both teams were ready for play when the second half began. The Rebels were dominated by the Wildcats but they never gave up the fight. The Wildcats went on to score on the Rebs another time before the game ended. The final score was Wildcats 20-Rebs 0. The Wildcats have yet to be scored on this season. Key plays for the Rebels were made by Phillip Rolan, Aaron Martin, Wayne Williams, Jason Freelen, Will Noey and Jeremy Cantrell.

Players Injured

Two Junior High Rebels were injured in unrelated accidents last week. John Ross was out of the game last Thursday due to a muscle injury sustained in practice. He is hopeful for the game against Maud.

Gerald Chaffin is out for what could be the season. He broke his collar bone in a pickup game of football over the weekend. His presence will be missed on the seventh grade team.

Dimple School Reunion Set For October 8th

The Dimple School Reunion will be Saturday, October 8 at the Dimple Community Center, starting at 10:00 a.m. A meal of barbecue, and all the trimmings will be served starting at 2:00 p.m. Bring pictures of your class, or just group pictures. Run off copies

on a copy machine or extra photos that Katie Low can keep. Her address is Rt. 6, Box 294, Clarksville, Tx 75426. We need all of the former students to come out so we'll have a really good reunion.

The first laundrette was the Washeteria, which opened at Fort Worth, Texas on April 18, 1934. It contained four electric washing machines that were charged by the hour.

The first escalator was the Reno Inclined Elevator, patented by Jesse Reno of New York on March 15, 1892, and first installed at the Old Iron Pier on Coney Island in the autumn of 1896.

These Energy-Saving Tips Are Over Your Head.

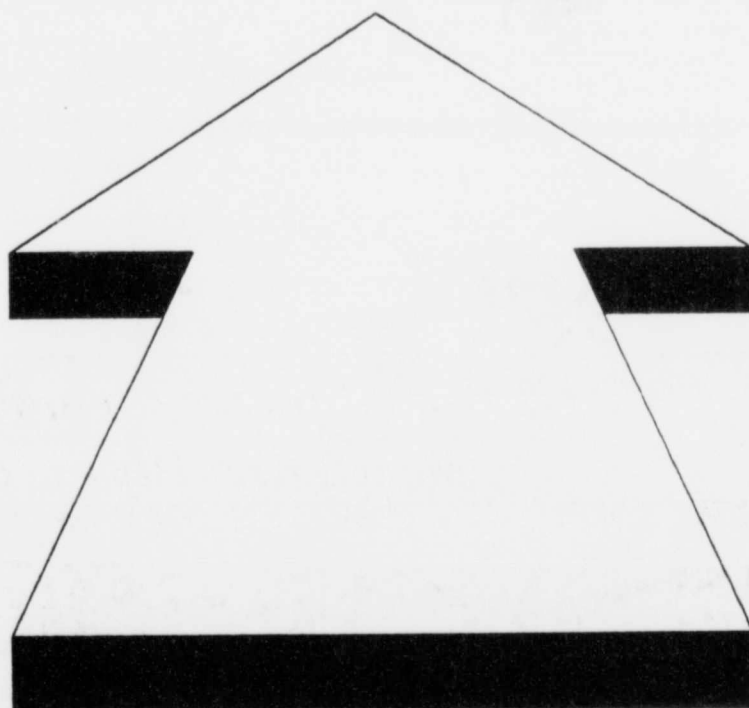

Texas-New Mexico Power Company brings you reliable electric power, plus cost-cutting energy management tips. For instance, your house needs proper attic ventilation. Otherwise, moisture can build up in the winter and reduce the effectiveness of insulation, and attic temperatures can rise and make your air conditioner work harder in the summer. For more information, call your local TNP office for our free Energy Management Guide.

Nuts & Bolts

By Judy Screws

Not too long ago I heard a preacher say that when you live in a small town, people never forget your past. He said that it doesn't matter how well or how badly you do through the years, there will always be someone who will say, "Yes, but I remember them when they....."

I agree with the minister, but I have also learned that things never change in small towns in another way. We moved away from home and lived in another town for twenty one years. When we came home, we were dealing with another generation of people, but things were still the same.

Remember when you went to school and there were the different groups of people? There were people who looked down on other people, and there were people who looked up to other people (sometimes for the right reason and sometimes for the wrong reason), and there were people who could look you in the eye. There were the very poor, hard working people, and the very poor non working people, and there were the just regular people who weren't considered wealthy but seemed to be able to pay their bills and have reasonably comfortable lives. Then there were the folks who obviously had plenty of money but didn't make a big deal about it, and there were the people who didn't have the proverbial "pot", but tried to live as though they did. This last group of people were very impressed with the people who were well off and did everything they could just to be considered as a part of that group.

During the years we were gone, employment opportunities opened up for the people who wanted to work. The very poor people who had done every thing they could possibly do just to keep a roof over their heads took those opportunities and worked to better their lot in life. Most of them were grateful for the opportunity. Some were bitter because they had to

work. Possibly they were grateful for the jobs but couldn't help feeling sorry for themselves. They were probably bitter when they were penniless also. For the most part they are still not the "leaders" of the community, but they are respected people who contribute to the community in many ways. The ones who didn't work back then still don't and still want someone to give them something for nothing. The folks who had plenty of money are still not making a big thing out of it, but those who have always been their "shadows" still maintain that position and make sure that everyone knows that they are friends of Mr. and Mrs. Well to do. I'm sure that Mr. and Mrs. Well to do would much rather be liked for themselves than for their possessions.

I never did know what group our family fell in. I know that Mama and Daddy always worked hard. I didn't get everything I asked for, but I had everything I needed. My husband and I have always worked, but we couldn't be called rich and famous. We don't have a large following, but we don't do any following, either. I am pleased to say that we are on good terms with some of the people from every group. We're not great visitors, but we do love to have company. We could be called homebodies I guess, but that suits us. As far as I know there are no doors which are closed to us, and our doors wouldn't be closed to other people. And we, along with most people in our town would do anything we could to help anyone who needed it.

While the minister was right about everyone knowing about the things people did in their past, unless they are very judgemental folks, they are also cheering for the guy who overcomes his past and becomes an up-right citizen. It's comforting to have known the ancestors and families of the people you associate with. This is possible in a small town.

NEWS OF HEALTH

New Test Detects Dangerous "Minor" Heart Attacks Other Tests Often Miss

(NAPS)—Despite recent advances in treatment, heart disease remains America's leading killer. Now, an advanced diagnostic test makes it possible for doctors to save more lives by identifying even very small heart attacks other tests miss.

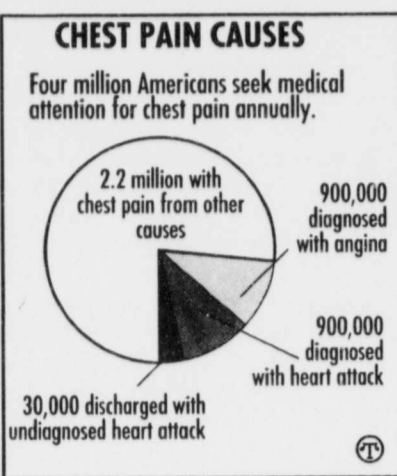

Chest pain sends about four million Americans to the hospital for medical attention every year. For 900,000 of those people, their chest pain is caused by a condition called angina. Partial blockages in the blood vessels leading to their heart cause chest pain or even "micro" heart attacks so small, they can't be detected by conventional medical tests.

It's important to identify patients suffering these very small but medically significant heart attacks because studies show these patients have about the same chance of a fatal heart problem in the future as patients suffering larger, but not fatal, heart attacks.

Now, a new test from Boehringer Mannheim Corporation, the CARDIAC T™ immunoassay for heart damage, provides conclusive proof of minor heart damage that previously went undetected. This is the only diagnostic test for heart attack that measures a truly cardiac-specific protein: cardiac troponin T, which is released only when heart damage occurs.

By identifying these previously undetectable heart attacks, the CARDIAC T assay gives doctors the information needed to begin treatments aimed at reducing the risk of future heart damage or death.

Since the protein detected by

the CARDIAC T assay is found only in the heart, the test also enables physicians to diagnose heart attack even if other muscle tissue has been injured. Damage to non-cardiac muscle tissue during heart surgery often causes abnormal readings in other diagnostic tests for heart attack currently in use, making it difficult to tell if a patient has suffered a heart attack.

The CARDIAC T assay also can diagnose heart attack in patients who have waited several days to seek treatment. Cardiac troponin T appears in the blood as soon as one hour after heart damage occurs and remains elevated for 14 days or more. Other cardiac markers, such as CK-MB, return to normal after two to three days.

The CARDIAC T assay has been successfully used for several years in Europe, Japan, Canada and elsewhere. Earlier this year, the U.S. Food and Drug Administration cleared it for use in the United States.

Those who dream by day are cognizant of many things which escape those who dream only by night.
