It's truly amazing what can give enjoyment in this world! I suppose it has as much to do with the timing as anything...what was a joy Saturday would have been an unpleasant chore on Monday!

The gorgeous spring weather last weekend clamored for me to be outside. There were no real gardening or yard chores to be done, so I asked my husband if he had anything that needed doing which I could help with. Since I'm no longer the best choice for pulling a roller out of a hay baler (our nephew served that function) I wound up on the big tractor with three old tractor tires chained behind me. My glorious duty was to drag these around the pasture to knock down and scatter out.....well, there isn't a really delicate way to put this...manure.

I climbed up, seated myself and headed out on poop patrol. No pile was safe from my enthusiastic attentions!

And, as the afternoon proceeded, I began to see the challenge to this job and began putting "touches" to it.

I experimented with various speeds...did going slow grind stuff up finer than hitting it at a fast pace, sending it flying in a graceful arc?

I toyed with the swing the tires behind me at just the right angle and speed to spread it over a wider area.

It was when I hit the spots where we had fed hay that I really began to have fun. Old hay was piled deep and I began learning that if I hit this at a good speed the inside of the tires would fill up with the mixture. Then I could throttle back and take the good, loose mulch to an area that could use it. I would speed up again, and slowly the hay could sift out onto the ground.

After mastering all these techniques I grew a little bored, so I began to do swooping figure eights. I was very much like some one in a speed boat pulling a tuber behind, doing various patterns and turns.

I spent the whole afternoon becoming an expert on pulverizing barnyard fertilizer. Some unkind people have made snide remarks that I was only doing what I do best...slinging. Never mind. It isn't necessary to go into it here.

I had a wonderful day. The sun shone brightly and the world was beautiful.

As I said, it's truly amazing what can please and entertain us! And when another beautiful spring day arrives I just may have to move on to greener pastures!

ETMC has Open House Sunday

Sunday, March 17th was a special day at the ribbon-cutting ceremony and reception held at Red River General Hospital prepared to take on a new identity-ETMC Clarksville, the newest member of the Tyler-based East Texas Medical Center Regional Healthcare System.

To commemorate the transition to ETMC Clarksville the public was invited to the ceremony.

Refreshments, giveaways and door prizes and remarks from various people highlighted the well-attended event.

The affiliation agreement was announced in early February by James Wood Red River General Hospital board president and Elmer G. Ellis, ETMC Regional Healthcare System president and chief executive officer.

Following state licensure, the ETMC System will begin operations at the Clarksville hospital April 1.

Under terms of the agreement, affairs for ETMC Clarksville, which is licensed for 52 beds, will be guided by a board of directors consisting of representatives of the ETMC System and Clarksville/Red River County community leaders.

Wood cited the ETMC System's proven record in managing rural hospitals as the primary reason the ETMC System emerged in the search for a larger affiliate.

Other factors, Wood said, were the comprehensive services offered through the System, including tertiary care facility in Tyler and strength in emergency services through a network of trauma centers, Air 1 emergency helicopters and East Texas Medical Center EMS.

ETMC Clarksville employs 135 people and has a medical staff of six, representing the specialties of family practice, internal medicine, general surgery and cardiology.

Elmer G. Ellis, in his remarks at

the Open House said, "today is a very special day for the East Texas Medical Center Regional Healthcare System, but more importantly, I believe it is a special day for your community. As we symbolically recognize the transition of Red River General Hospital in East Texas Medical Center Clarksville, we bring your hospital into a family of health facilities that are enhancing the level of care provided to East Texans.

I would like to thank the Red River General Hospital board of directors and administration for its confidence in the ETMC System throughout its selection process. I believe we found that we shared a common philosophy and a desire to ensure that Red River residents would be served by an excellent hospital.

As part of the ETMC System's mission, we state that we continuously strive to bring a spirit of excellence to the art and science of health care and that we measure our success by how our efforts improve the quality of life for the people and communities we serve. It is a mission not just of words, but of action.

When the East Texas Medical Center System began its outreach into East Texas communities in the early 1980s, it was a time when many rural Texas hospitals were facing closure. While our vision of a network of facilities that mutually supported each other was not a part of the conventional wisdom in healthcare management at that time, today it has placed us in a leadership position.

We are proud of our rural hospital in Athens, Crockett, Mt. Vernon, Pittsburg and Rusk and our vast network of clinics, home health offices, rehabilitation centers and emergency medical services. These programs and facilities, along with our tertiary care center in Tyler are providing a system of care that serves as a state and

national model of the success of integrated Healthcare delivery systems.

But, more importantly, this network of facilities and services is providing a level of care that we believe is second to none. For thousands of East Texans each day this means that physicians, nurses and other health professionals are there when needed. It means that a state-of-the-art ambulance can be at your door, even in you live on the lake. It means that a continuum of care from the emergency department to hospital services to rehabilitation helps East Texans obtain the services they need close to home and in a cost-effective manner.

We are so pleased that Red River General Hospital and its clinics are now a part of the ETMC Regional Healthcare System. And to the employees, physicians and board members and the residents of Red River County, we pledge to your resources, our expertise and our commitment to care.

We are already working to provide services related to the quality of life that your community expects and deserves. In learning of a recent decline in seniors services (particularly the Meals on Wheels home and group programs) ETMC representatives began investigation how we could help. By aligning with Lamar County Human Resources and the Ark-Texas Council of Governments and Area Agency on Aging, we will soon be a part of the effort to reinstate these services that are so important to our senior population.

This is just one example of how ETMC will be a part of your community above and beyond Healthcare services.

We will officially begin management of Red River General Hospital on April 1st, but today we dedicate this beautiful facility as East Texas Medical Center Clarksville.

The Talco Baseball-Softball Association will hold a work day Saturday March 23 at the ball field beginning at 9:00 a.m. This will also be the last chance for children to sign up to play summer league baseball or softball. Anyone failing to turn in candy or money earned from candy sells may do so at this time also. Everyone is encouraged to attend and help prepare the field and concession stand for the coming season.

On Sunday March 31 the Calvary Baptist Church in Talco will have special guest from ETBU at morning and evening services. Everyone is invited to attend.

The Talco-Bogata Junior High track teams will travel to Chisum for their Invitational Track Meet Friday March 22.

The Talco School Library will hold a Book Fair beginning March 25 through March 29.

Talco Times Is NOT Ceasing Publication

I had a phone call from a friend who lives in Talco Tuesday morning. She said that she had known me for a long time, and had decided she would just come right out and ask me if a rumor her husband heard was true.

The rumor was that the Talco Times was going to cease publication!

In case others have heard this same rumor, I would like to say that this is just not true. We have no plans to quit publishing any of our five newspapers.

THE TALCO TIMES HAS NO INTENTIONS OF CEASING PRINTING!

So, if it is time to renew your subscription, don't hesitate, we won't be quitting.

We have no idea where this rumor came from, but it is just that...only a rumor.

Accelerated reading contest to be held

The Talco and Bogata grades 6-7 and 8 will compete in an accelerated reading contest March 25 through April 12.

The winner will be decided by points per student, as Bogata has 104 students to Talco's 60. The top ten in each class at Talco will receive a Skating pass to the Mt. Pleasant rink and the winning class will be given a

pizza party.

If the Talco students average more points per student in the contest, Principal, Johnny Gable has agreed to let his staff have his head in front of the student body.

This will be a most interesting contest, the results will be printed at the end of the three week period.

Titus County Regional Medical Center observes Poison Prevention Week

March 15th marked the week of Accidental Poisoning Prevention Week. It's something that bears consideration all year long.

The primary reason for accidental poisonings is carelessness on the part of an adult, Jerry Hudgens, pharmacist at Titus Regional Medical Center says. He continues that "It only takes seconds for a child to reach for a poisonous cleaner, cosmetic or medication, possibly resulting in a lifetime of injury." "Children under the age of six are particularly at risk for poisoning due to their stage of development. Young children constantly explore the world around them, touching and tasting everything they see".

Improper storage of dangerous products and medicines simply begs for disaster. Not only does improper storage cause incidents, but some 75% of poisonings in children occur when a product is in use or has just been used.

Child resistant packing should be used on all medications, even if young children are not living in the home. One out of every five accidental childhood poisonings involve grandparents and their medication. Seniors often bring medication to the child's home in a purse or suitcase, giving a curious child easy access to it.

Titus County Regional Medical Center will help poison proof your home. Hospital personnel urge parent, grandparent or guardian to poison-proof their home.

Don't be caught unprepared if a

poisoning incident should occur. "Every home where a child lives or visits, even if only occasionally, should have a bottle of syrup of ipecac on hand," Hudgens said. "This nauseating substance is the only way to safely and effectively cause a poisoning victim to vomit."

A one ounce bottle is readily available at any pharmacy and does not require a prescription. Vomiting is not the preferred treatment for ALL substances, so always consult the Poison Center or your physician before using syrup of ipecac.

Should an accidental poisoning occur, the first thing to do is to call the Poison Center at 1-800-764-7661 (1-800-POISON-1). The phone number belongs to the Texas Poison Center Network, and you will automatically be connected to the Regional Poison Center nearest you.

The staff can tell you how serious the situation is and what should be done about it. Most of the time the emergency can be handled in the home.

assistance from the Poison Center hotline is available to you 24 hours a day, 7 days a week because children act fast...and so do poisons.

Cook's Corner

As everyone knows, this past Sunday was St. Patrick's Day. Folks in this part of Texas have only one tradition about this March holiday and that is if you don't wear green... you get pinched! While other parts of the United States celebrate in many other ways such as big parties with green food, dyeing their rivers and waterways green and or simply letting people know one way or another that you are of Irish heritage. But the Irish have truly given us a wonderful heritage that consists of more than food. However, rarely is there a meal prepared that does not reflect the "mainstay of the Irish"... the potato! For everyone knows that Ireland is famous for their potato crop.
 Anyone with an ounce of green Irish blood never forgets to wear the Irish green that signifies his or her heritage. This is a symbol of the patron saint of Ireland--St. Patrick, who died on March 17, 461. The shamrock symbolizes the Trinity and is most appropriate as the St. Patrick's Day emblem.
 Many large cities are deeply indebted to the Irish for their founding, growth and progress with a rich heritage of culture and traditions.
 So whether you have kissed the "blarney stone" or not, have a great week full of good luck and cheer and we will see you in the kitchen!

Class of '41 to have reunion

By Charles Wilkinson
The 1941 graduating class of Bogata High School is meeting in the Fellowship Hall at the Assembly of God Church in Bogata.

In 1942 while on our Senior trip and picnic at the Dangerfield State Park, we decided to meet there again in 10 years. In 1951 some fifteen of us met at the Dangerfield Park again. At that time we decided to meet the next year at the Boy Scout Cabin in

the Bogata Park. We only had about 5 in attendance that time. Mr. Branson suggested that we have it annually and for all graduating classes. The reunion for all classes began in 1953 and is going stronger and better each year.

Our class is having lunch at the Rosalie Store from 12:00-1:00 p.m. We will then return to the Fellowship Hall for visiting.

Don't worry about avoiding temptation—as you grow older, it starts avoiding you.

James and Dee Wood were honored Saturday night with a surprise party for their 31st anniversary at the home of their son, Tim Wood in Deport. The event was hosted by their three children, Tim, Juli and Denise. (Staff photo by Thomas Nichols)

Woods honored with surprise party

James and Dee Wood were honored with a surprise party at the home of their son, Tim Wood in Deport. The occasion was their 31st wedding anniversary. Hosting the event were their children, Tim Wood, Deport, Julie Ann Wood, Tyler and Denise Wood, Bogata.

The couple were married on March 17th. The party was Saturday night, March 16th. The Woods thought they were coming with friends for a small dinner with their family.

Instead, upon arriving at their son Tim's home, they discovered between 35 and 40 people!

A sandwiches finger food buffet and a dessert buffet were served.

Guaranty Bank receives perfect score from SBA

Arthur B. Scharlach, Jr., President of Guaranty Bank, Mt. Pleasant, received word from the Texas Department of Banking that a February 28th article in *The Wall Street Journal* on Texas banks and how they ranked on lending to small firms had included them and given them a perfect score on the Small Business Administration analysis scale.

The article begins: "Many banks say small-business loans are dear to their hearts, but for borrowers, it often seems a case of unrequited love."

So the Small Business Administration is trying to act as a match-maker.

In a major analysis of lending practices, the agency has rated every lender in the nation-including Texas' total of 959, more than any other state's to determine which ones are small-business friendly."

The goal is to help small business owners target which bank to apply for a loan to.

Using banks' quarterly regulatory filings, the SBA created a small-business scorecard for the year ended June 1995. Defining small-business loans as loans to business of less than \$250,000, the SBA looked at a variety of measures, including the dollar amount and total number of such loans, as well as the ratio of those loans to total assets and to business

loans in general. Points were then assigned based on the figures.

The article says "Guaranty Bank, for example, makes its home in Mount Pleasant, a small town in the northeast corner of Texas. 'Our bank was chartered to make loans,' says Art Scharlach, chief executive of Guaranty Bank. 'We concentrate on small business lending. It's an integral part of our economy and an area that most lending institutions stay away from.' Indeed, with assets of around \$172 million, the bank has \$50.4 million of small-business loans under \$100,000 on its books, according to SBA data, a very high ratio. Mr. Scharlach says the loan portfolio is a mix of agri-business, Manufacturing, retail and service companies."

The story continues that "Mr. Scharlach is proud that the bank, founded in 1913, continued to make loans during the state's rough economic times during the 1980's. 'The only way out of it was reinvestment,' he says."

Guaranty Bank-Mt. Pleasant captured a perfect score of 50, the highest possible on the SBA scale.

The Small Business Administration sent a letter of congratulations to the bank for their work.

In part it says "thank you" and "Keep up the good work".

Guaranty Bank has branch banks in Bogata and Deport.

Bogata Book Club meets

The Bogata Book Club met March 14 in the home of Gertie Choate with Juanita Sparks and Dawn Darden as co hostesses. The meeting opened with Juanita Sparks leading the collect and the Pledge to the flag. Roll call was answered by telling your favorite Texas tree. Juanita introduced the program by Mary Margaret Vaughan, who reviewed the book, *Women in Early Texas*, by Evelyn H. Carrington. The book is a biography of fifty notable women representing a wide variety of ethnicities and classes whose lives deeply influenced the way Texas developed. Much of the information came from the families of these women. She told of the life of Suzanne Wilkerson, Sister Josephine, Rebecca Kilgore Stewart Red and Mary Burleson Whitehead.

The minutes of the last meeting were read by Margie Myers and approved as read. Reports from the committees were heard. The Bogata Book Club sponsored the February Birthday Party at the Nursing Home. Members participating were: Mary Ann Williams, Linda Hodges, Mary Margaret Vaughan, Mary K. Cotten and Gale Hervey. Eleanor McCluer told of the

book *The Tree that would not die*, by Ellen Levine. It is the story of the Old Live Oak Tree in Austin that is over 500 years old, three stories high and lives on. The next meeting will be April 11, 1996 in the home of Gale Hervey with Mary K. Cotten as co-hostess. The dismissal was repeated in unison after which refreshments were served.
