NUMBER 17

All Around The Town

BY MARY ANN SARCHET

A large crowd of friends, relatives and well wishers turned out Sunday afternoon for the Welcome Home Reception for David Schott. The party was held at the Briscoe County Showbarn. David and Kim were to leave Wednesday to return to Oceanside to set up housekeeping again before he has to report back to Camp Pendleton.

I visited with David at the bank the other day, and he has grown up to be such a nice, handsome young man that all of us can be proud to know. He said that actually he had been deployed three times and that he had spent more time out of the country than he had spent in the country since he had been in the Marine Corps.

Jamie Frizzell didn't make it home in time for the reception, but is expected this week. A Welcome Home Reception will be held for him when he arrives. He has had some problems since he returned to Fort Campbell. He had the tires on his pickup slashed, and this has delayed his return. He will be driving home.

Donna McWaters was very disappointed last week when her husband, Robert, didn't arrive back at his base in Germany as he had thought he would. She didn't know until the last minute that he wouldn't be on the plane that was bringing the troops back to their base. He should be arriving back at his home base this week, but his return has been delayed several times and now no one is quite sure about it. Donna and Robert are hoping to be in Silverton in the period between the middle of June and the middle of July. Robert hasn't been in Silverton since a year ago last January, so he is quite anxious to be home.

Ivory is National Winner

The United States Achievement Academy has announced that Lyndell Blake Ivory has been named a United States National Award winner in mathematics. This award is a prestigious honor very few students can ever hope to attain. In fact, the Academy recognizes less than 10% of all American high school students.

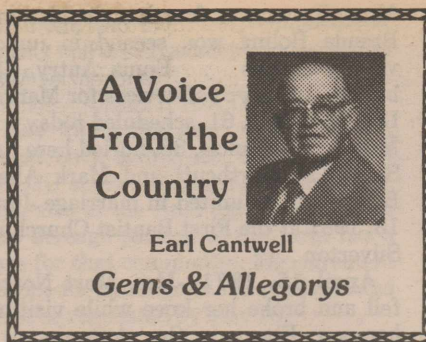

Ivory, who attends Silverton High School, was nominated for this National Award by Mrs. Dorcas Garrison, a mathematics teacher at the school.

Ivory will appear in the United States Achievement Academy official yearbook, published nationally.

"Recognizing and supporting our youth is more important than ever before in America's history. Certainly United States Achievement Academy award winners should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, Executive Director of the United States Achievement Academy.

The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors or other school sponsors and upon the Standards of Selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and aptitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve citizenship, attitude and cooperative spirit, dependability, and recommendation from a teacher or director.

Ivory is the son of Mr. and Mrs. L. B. Ivory of Silverton and grandson of Mrs. Emma Jean Ivory of Silverton and Mrs. Mary Ella Mathis of Columbus, Georgia.

A Voice From the Country

Earl Cantwell

Gems & Allegorys

And so we pray for peace, but we cannot really pray for it with hands clinched into fists . . . A means to a permanent peace is for all nations to agree not to start another war until the last one is paid for. A strange desire that men have is to seek power and lose liberty . . . It is true that there is a lot of injustice in the world, and it is a sad commentary on our country that it is not all on the other side of the ocean . . . What is liberty without wisdom and without virtue it is the greatest of all possible evils; for it is folly, vice and madness without consideration or restraint . . . Justice is as strictly due between neighbor nations as between neighbor citizens. A highwayman is as much a robber when he plunders in a gang, as when single. And a nation that makes an unjust war is only a great gang.

The individual that drinks and then drives is likely to get the quart before the hearse . . . In the "good old horse and buggy days," if a man got drunk, there was at least enough "horse sense" to get him safely home. Please remember this adage: "The drivers are safer when the roads are dry, and the roads are safer when the drivers are dry."

What a blessing to our country if we could turn our battleships into colleges. An example: Half a century ago, a battleship cost twelve million dollars. It lasted some twenty-five years. During that time its upkeep cost sixteen million dollars. Twenty-eight million in all. Then a first-class battleship cost as much as all the hundred buildings of Harvard University. Think for a moment about our present parallel: the comparison is staggering.

Do we really need more experts??? An expert is one smart enough to tell you how to run your own business but too smart to start one of his own . . . First Lady: "My husband is an efficiency expert in a large office." Second Lady: "What does one of those efficiency experts do?" First Lady: "Well, if we women did it they'd call it nagging." But enough sarcasm!!!

Now, if you were another person, would you like to be a friend of yours? A true friend unbosoms freely, advises justly, assists readily, adventures boldly, takes all patiently, defends courageously, and continues unchangeably. When you are befriended, remember it; when you befriend, forget it . . . Do good to thy friend, to keep him, to thy enemy to gain him . . . A friend is a present you give yourself by being friendly. Friendship is a treasure ship anyone can launch.

South Plains Hobby Club Meets With Bessie Bradford

the life of Christ according to the Gospels. It is given one day only every ten years. It has been performed for centuries.

Refreshments were served to Mamie Wood, Lillie Mae Milton, Peggy Roberts, Carolyn Marble, Juanita Teeple, Jerry Stewart and Connie Sanders by the hostess.

Ag Reminders

From Briscoe County ASCS

April 26 is the final day to sign up for the 1991 Farm Program. All owners' signatures must be obtained and be received at the Briscoe County ASCS office no later than May 10.

PAYMENT LIMITATION

Program benefits subject to limitation may not be provided to any producer until the necessary payment limitation determinations are made. All requested forms required for payment eligibility must be filed with the ASCS office before program payments can be received. Pay limit "person" determinations for 1991 are based on conditions that exist on May 1.

FARM PROGRAM CHANGES

It has been determined that, for 1991 only, the idle rows or rows in a skip-row pattern are now eligible for CU for Pay acres. Windstrips and terraces that

have been established for conservation as required in conservation plans with SCS and are at least 160 inches wide are now eligible for ACR and CU for Pay for 1991.

The State ASC Committee has exempted Texas from the 50% cover crop requirement on ACR. Producers are required to control weeds, insects and rodents, as well as wind and water erosion on ACR and CU for Pay.

ELIGIBILITY

Land designed as ACR and CU for Pay must be cropland with a history of being planted to a row crop or small grains, or designated as ACR or CU for Pay, in one of the last five years.

HAYING AND GRAZING

ACR and CU for Pay acres may be grazed or hayed during the seven-month non-growing season (November

1 through May 31). The five-month non-haying and non-grazing period is June 1 through October 31.

CERTIFICATION

May 15 is the final day to certify wheat, oats, barley, etc., including ACR and CU acres with a small grain cover. This also is the final date to certify to zero acreage planted if the farm has a base for that commodity. Measurement service for small grains is available and must be requested by May 15.

If you have wheat or other small grains on ACR or CU that will be left standing and not substantially destroyed by May 15, you must file a request to leave the small grains standing and pay a \$10 fee to stay in compliance. If this request is filed, this acreage may never be hayed or grazed between June 1 and October 31.

Soil, Water Stewardship Week is April 28 - May 5

The Texas Agricultural Extension Service joins with the Caprock Soil and Water Conservation District in announcing the national observance of Soil and Water Stewardship Week to take place April 28 - May 5, 1991, according to Curtis Preston, Briscoe County Extension Agent.

Theme of this year's observance is "As You Sow". This focus is especially appropriate, particularly since there has been so much publicity on recent oil spills, the ozone layer, soil erosion, water pollution, and other problems with natural resources. The need for better stewardship is vital if we are to maintain the productive capabilities of our basic natural resources, Preston said. "Together we must work for the good of all to utilize, conserve and properly manage those resources in our care." Participation in Soil and Water Stewardship Week activities offers an opportunity to reflect on the nation's natural resource problems and consider actions to resolve them or reduce their impact.

Soil and Water Conservation Districts have sponsored Soil and Water Stewardship Week each year in the United States since 1955. Others, including the Texas Agricultural Extension Service, support these efforts. Informative material on the Soil and Water Stewardship Week theme each year is distributed to clergymen, lay leaders, civic and educational organizations and to individuals interested in participating in the celebration.

Information and materials for the 1991 observance of Soil and Water Stewardship Week can be obtained from the County Extension Office and the Soil and Water Conservation District.

Moving to New Address

The Social Security Administration office in Plainview is moving. The new location effective April 29, 1991, is 201 West Fourth Street, Plainview, Texas 79072.

**LET'S SAVE OUR PLANET;
 WE'LL NEVER GET ANOTHER ONE**

We have been told of the need for preserving our environment, and the urgency of this is often verified by our own personal observation. Few of us are in a position to judge the state of the ozone layer or the so-called global warming. However, particularly in rural areas, we have seen our city or county landfills, and have watched them grow into virtual mountains of trash, garbage, newspapers, discarded furniture, and so on. No one has yet figured a way to solve this problem, but we can do our part in slowing it down, by saving, reusing and recycling; not to mention giving usable items to the poor. Let us pray at our House of Worship for the wisdom to do this, and whatever else we can do to preserve this beautiful world the Lord created for us.

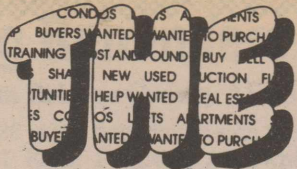

*When man destroys
 the life and beauty
 of nature, there
 is the outrage.*
 — George M. Trevelyan

*"Wasting and
 destruction are
 in their paths."*
 — Isaiah 59:7
