Watch The Pot Boil

By JIM, The Editor

It is an old saying that the watched pot never boils, but if we will watch the political pot when the second call session of the 44th Legislature meets we will see an exception to the rule. In fact, the pot has begun to simmer already. The Governor has submitted only one issue and that of Old Age Pension.

Let us hope that the Legislature will meet the issue boldly and fearlessly. Let us hope there will be no 2300 WORKERS dodging of the issue and that the will of the people expressed at the polls will be respected and the pension law enacted in accordance with the new constitutional amendment on that question.

I hope the Governor will also submit with the Old Age Pension proclamation the question of revenue to pay the Old Age Pensions. The question of getting the money is just as important as passing the pension law. In fact, it would be a fiddle without a bow proposition if the Legislature passed a pension law and did not provide a way to pay it in full as permitted by the constitution.

The only way to pay this pension law is to pass a general sales tax and the sooner the Legislature recognizes that fact the sooner will they carry out the pension idea voted by the people.

All this talk about taxing the natural resources and gross receipts tax and other sources of revenue are ther orders. mere childs play and they will not begin to pay the bill of some \$40,000,000 necessary to meet the pension away from their jobs Joseph P. at the last minute, refused to reconstitutional amendment.

FOOLISH FARMERS

The general public appears to be a bit "het up' over a Press report to the effect that a bunch of dairy farmers up in Wisconsin and Illinois recently embarked on a ruthless, reckless rampage of destruction by seizing a train loaded with milk and bound for the Chicago markets, and dumped it into the river. The motive for this dastardly executed deed, according to report, was that they were "striving for a higher price for their milk."

Which is evidence of the fact that farmers are following the foolishness set into operation by a bunch of college-baked economists-self-styled experts-who insist that, in order to bring about a return of prosperity, it is necessary to create a scarcity of things the people need. First, these sap-heads began by recommending the destruction of one third of the cotton crop, because there was more cotton on hand than the multitudes of moneyless, halfclad, unemployed people could use. Then these simpletons incubated another bright idea. This consisted in a further reduction by destroying an excessive crop of corn and wheat. Next came the order to shoot down a third of the cattle, also to throw into the river thousands of hogs. This was all done because the millions of starving people in the land were not consuming the constantly accumulating surplusses of these products which were glutting the market.

Finally, on discovering that a bunch of farmers down on the Rio Grande were shipping more potatoes into the destitute cities that the hungry hoards there were able to buy and eat, they gave orders to outlaw Mr. Spud.

Thus the racket of enforced scarcity in order that the people

may have plenty goes merrily on.

"Ill fares the land, to hastening ills a prey." Where people starve while jackasses bray.

THE DU PONT GANG

The DuPont gang made a profit of \$228,000,000 out of the World War. In 1933 it contracted with Germany to fix her up with arms for another world war, and was kept from doing business only by the objections of Uncle Sam. It is this gang that is in the fight against paying the veterans their bonus. One of the gang made \$29,586,000 in five years, and on this paid not one penny of income tax.

This strike can gain them nothing. Violence will lose them more. The men are up against a greater force than their employers alone. They are up against the people of Houston, and public opinion is strongly against them. The port is owned by the people. The people profit by its advancement and suffer through its losses. They are not likely to regard with tolerance losses caused by men who turn down higher wages and strike for the benefit of workers in other cities.

We strongly advise the local members of the I. L. A. to consider their own interests before blindly plunging into chaos at the orders of outside "leaders" who are safe themselves, no motter what turn events may take.

CAPITAL IS STILL ON STRIKE

The most selfish and cowardly thing on earth is capitalism. That capitalism is entitled to this bouquet is proved by the fact that during 1934 the deposits in the Federal Reserve banks rose \$6,700,000,000 while the loans of those same banks decreased \$800,000,000. Capitalism hasn't even got sense enough to do the only thing that will keep it alive. It's only motto is "Grab all; hold all."

BAD TAXES AND WORSE

(Editorial in The Houston Press)

Georgia's Governor Talmadge comes forth again with a characteristic demand that the Federal Government stop collecting ncome taxes. We agree with the governor that all taxes are a curse, including

income taxes. But we suggest that the governor might better help

us approach a taxable Utopia by insisting that levies other than those on incomes be replaced first. The Federal Government gets only about one-third of its revenue from taxes on incomes of individuals and corporations, and other levies based broadly on the principle of ability to pay. The other two-thirds comes from levies on the goods and services

which the people buy—taxes that pick the pocket without touch-If the people who pay these hidden taxes—and that means all my would sweep the country. The two things which contribute most to apathy toward Government expenditures are invisible

Instead of shouting against the one important painful and proportionate tax, which serves as a natural restraint on extravagance, let him call for repeal of taxes on gasoline, tires, motor oil, aut s, watches, cigarettes, beverages, toilet articles, etc. They are the taxes which with ruthless impartiality take the pennies of the poor and the pennies of the rich, without either one realizing what is taken from him, and with utter disregard for whether the penny happens to be the last one in the pocket of the poor man or a one-billionth fraction of the fortune of the rich.

CALIFORNIA'S PROBLEM

Perhaps the native and adopted sons of California pitched their voices too high when they warbled the praises of the Golden State. Anyway, they got the idea across; and now they're sorry. An army is marching into California—an army made up of peniless unemployed, desperately seeking Utopia. "Here we are," say the invaders, "what're you going to do about us?" AN APPEAL

Say Boys, I wish you would renew your subscription to the Forum. Our meal barrel is running mighty low and if you don't help me it is going to be mighty hard if not impossible for me to carry on the Forum Publication.

Now don't put this off and think the other fellow is going to do it because he is just as forgetful as you have been.

YOU WILL NEED THE FORUM To get the information on the Legislature which will be in session for many weeks yet and besides the campaign for next year is already in the making.

I wouldn't make this appeal if I just didn't have to; so get busy at once and send in your dollar for a year's subscription. Don't wait. I have got to hurry. Your friend. JIM, The Editor.
