Annual Christmas event promises Yuletide songs

By Rachel Brown **Texan Staffer**

The annual Christmas concert presented by the WTC music department will be Tuesday in the Fine Arts Theatre at 7:30 p.m.

The indoors concert will be preceded by the annual lighting of the WTC Christmas tree, which will be erected in the central courtyard. At that event, which begins at 7 p.m., members of the Community Chorale will sing "Joy to the World," "O'Christmas Tree," Hark the Herald Angels Sing," and "Jingle Bells."

After the lighting ceremony, the Christmas Concert will begin in the Fine Arts Theatre. Two choirs—the Community Chorale and the Handbell

Choir-will perform in addition to the WTC Guitar Ensemble. They will be performing a variety of Christmas songs.

The WTC Community Chorale is directed by Jon Palomaki with George Wilson serving as accompanist.

Choir members include sopranos Janell Allen, Lisa Duncan, Misty Murphy, and Jodie Shepard; and altos Doylene Gilliland, Janet Halbert, Kathy Lee, Carolyn Osborn, Mary Palomaki and Rebekah Thornton.

Other members are tenors Cliff Yuletide sing Allmon and Jim Underwood and basses Victor Means and Mike Velasquez.

The WTC Handbell Choir is directed by Jerald Garner and members include Barbara Ashby, Deborah Baremore, See YULE SING, page 6

The WTC Community Chorale, to include members Janell Allen, Misty Myers and Jim Underwood, will perform its annual Christmas concert Tuesday following the traditional lighting of the WTC Christmas tree at 7 p.m. The concert will be at 7:30 p.m. in the Fine Arts Theatre. Santa's coming for 'Happening'

By Kari McGrew **Texan Staffer**

Santa Claus is coming to Scurry County Museum for the annual Christmas Happening on Sunday, Dec. 4.

The theme this year is "Christmas on the Ranch." The theme ties in with the current special exhibit at the museum, "Hoofbeats on the Pitchfork Ranch: Photography by Bob Moorhouse." The exhibit opened Nov.13 and will remain on display through Dec.6. The public is invited.

Guest speaker at the Christmas Happening will be James May of Amarillo. He is the Director of Curatorial Services for the American Quarter Horse Heritage Center and will be giving a 30-See HAPPENING, page 6

Early 'Aquifer' writer enjoying additional honors at Texas Tech

By Diane Rodriguez Texan Staffer

While the fifth edition of the WTC literary magazine "Aquifer" is planned for spring, one writer whose award-win-

ning entry was published in the first edition in 1990 has since gone on to further awards and the seeds of an academic career in writ-

Janice Northerns-McGlothing is currently working towards her masters degree in English at Texas Tech University and, as a teaching assistant, is

instructing an undergraduate creative writing class there. She ultimately plans to earn her doctorate.

In the fall of 1990, she was beginning her sophomore year at WTC, a staff writer on the Texan and among the first contributors to the fledgling publication "Aquifer."

Her short story, "Atonement," was the lead piece of that first edition and it was later chosen as the first place winner in the state-wide competition for Texas colleges and universities competing through the Texas Intercollegiate Press Association.

poetry for 15 years.

She has been writing fiction and Also singing in the WTC Community Chorale, to perform in the Fine Along with the honors associated with Arts Theatre Tuesday, are Janet Halbert and Doylene Gilliland. (Texan Photo)

Three classes of nursing grads earn highest mark on state test

By Sandra Hall **Texan Staffer**

For WTC's vocational nursing program graduates, it's now three in a

The last three graduating classes of the 12-month program have achieved a 100 percent passing rate on their State Board exams, college officials recently learned.

This means a total of 33 graduates have now achieved perfect scores on the state-mandated test, required before vocational nurses are officially licensed in Texas.

The Licensed Vocational Nursing (LVN) program has been a part of WTC since the college opened in 1971. Instructor Diane Beard is currently in her 20th year with the college, and

instructor Carol Watkins is in her sixth

The program offers two classes each year, one beginning in March and the other in September, with a limit of 12 students per class accepted.

The final testing date for the upcoming March class will be on Dec. 1, and the last day to interview will be Jan. 5, with all required information due in by Jan. 9.

The third consecutive class receiving a 100 percent passing rate graduated in August, 1994. This class included eight from Snyder, Christy Christenson, Carla Clements, Laketa Cochran, Samantha Dillaha, Vernon Groce, Jason Messenger, Marc Morales and Pat Williams; three from Rotan, Ben Martinez, Patti

Writer wonders 'What is the big deal with Elvis?'

By Sandra Hall **Texan Staffer**

Every summer I drag out the video camera and coerce my two sons and their three cousins into making a "movie" complete with costumes, scripts and soundtracks. Last year we decided to make music videos instead, and my 10-year-old chose to do a rather (I must say) convincing rendition of "Jail House Rock."

So why does a kid from the MTV generation decide to emulate a singer who died nearly a decade before he was born? Simple. Because the singer was Elvis Aaron Presley.

No other entertainer in this century has captured the American

conscience and held it as long as the man Ed Sullivan introduced in 1956 as "a real decent, fine boy." I was 15 when Elvis died and, frankly, I wondered what all the hoopla was about. The only Elvis I had seen was a prematurely aging, overweight singer who dressed like Porter Wagner. But even in this shape, millions of fans flocked to his concerts just to get a glimpse of the legend.

Then came the endless stream of radio and television tributes, and I finally began to recognize the charisma and talent that made a kid from Tupelo, Mississippi into "The King of Rock and Roll." The films, themselves, were giddy musicals, but the fresh, young, natural performer was an unmistakable presence.

"The only Elvis I had seen was a prematurely aging, overweight singer who dressed like Porter Wagner."

Now, 17 years after his death and millions of tributes later, the fascination still lingers. Yet another book about Elvis, "Last Train to Memphis," by Peter Guralnick, received an impressive review from Stephen Wright in the Oct. 30 issue of "The New York Times."

According to Wright, Guralnick focuses on the singer's "glory years" and leaves off at a time when "the eyes are still clear, the limbs still lean and loose, the beat still rockin'." That, to me, was the true

Unfortunately, in our modern culture we all too often forget that the people we put on pedestals are still nothing more than thatpeople. Elvis is a prime example of this in that the legend eventually superseded the man and destroyed him in the process.

But the legend lives on. I think it says something about the era of vanishing innocence that served to immortalize individuals like John F. Kennedy, Martin Luther King Jr., Marilyn Monroe and Elvis. They each represented something new, bold and revolutionary at a time when the world was ready for

So how do you explain the secret that created an idol whose legacy continues 60 years after his birth? Well, in the legend's own words, "like a river flows, surely to the sea/darlin' so it goes, some things are meant to be."

'Brainscan' and 'Clifford' are watchable...

By Kari McGrew **Texan Staffer**

"Brainscan" is an enjoyable psychological thriller about Michael (Edward Furlong), a 16-year-old boy trapped within the confines of a CD-ROM virtual reality game (Brainscan).

Actually becoming part of the game along with a super human named Trixter (T. Ryder Smith), Michael takes on the part of a serial killer. Throughout the movie, Michael is forced to kill several people, including his closest friend, Kyle. And each trip into Brainscan brings him closer to a confrontation with a local detective who already suspicions Michael as the murderer.

The movie builds to a startling and suspenseful conclusion that you must not miss. I found some parts overly melodramatic, but entertaining nonetheless. I would recommend "Brainscan" to all audiences mature enough to view it.

"Brainscan" is a perfect movie for sci-fi buffs, horror lovers and for those who enjoy being at the edge of your seat. As for the sci-fi quality of "Brainscan," the special effects are stunning. The vi-

sual sequences throughout make it the powerful but also quite graphic and gruesome, qualifying this Clifford's kindness stops and his true evilness comes out. movie as a horror flick also. "Brainscan" is certainly not a movie to watch alone on a dark, lonely night. As for keeping you on the edge of your anticipated trip to Dinosaurworld provides a much different "ride" than he expects.

seat, "Brainscan" needs no assistance in this area. It grips you from the opening credits to the closing credits and leaves you wishing there was a sequel. Even the slightly over-dramatic parts cannot ruin this quality of the movie.

"Brainscan" is a truly enveloping film, and I would definitely recommend that you see it—especially

if you were a "Lawnmower Man" fan.

After hiding in the closet with "Brainscan," I viewed a delightfully fun movie starring Martin Short in the title role as "Clifford." The movie opens with Short as an old Catholic Priest reflecting on his life as the child "Clifford."

"Brainscan' is an enjoyable psychological thriller about Michael, a 16-year-old boy trapped within the confines of a CD-ROM virtual reality game."

In a word, he is a nuisance to his parents. As an example, when his family is on a business trip to Hawaii, Clifford attempts to wreck their plane while flying over L.A. in hopes of going to "Dinosaurworld," an amusement park. Clifford does sufficient damage to force an emergency landing which prompts the pilot to ban him from the rest of the flight. Clifford's parents decide to leave him with his uncle in L.A., played by Charles Grodin,

Uncle Martin has his own motives to keep Clifford since he is engaged to Sarah Davis (Mary Steenburgen), a daycare teacher. Martin wants to prove to Sarah that he can work with children. Eager to please him, Uncle Martin agrees to take Clifford to

mind trip that it is. The murder sequences are suspenseful and Dinosaurworld. At first, everything goes well. But, when a project causes Martin to postpone the trip,

Clifford's rampage provides the bulk of the movie's laughs. In the end, however, Clifford's much

"Clifford" is an excellent movie for children and adults both. It provides super entertainment along with slap-stick and satire. "Clifford" is basically a movie in the same nature as "The Naked Gun" series or "Monty Python." Even if it is unbelievable, it will sure make you laugh.

Tecmo baseball cart lets you be manager

By Mike Hughes **Texan Staffer**

When the 1994 Major League baseball season halted due to a players strike Aug. 12, I was as upset as anyone. However, not being one to hold a grudge, I decided to give America's pastime another chance and rented the latest hardball cart, "Tecmo Super Baseball."

If you are the type that likes to sit in the dugout and manage more than play, this may the best game on the market today. On the other hand, if you are a player who likes to get into the action, this game is sort of like the Texas Rangers: not spectacular but not too terrible either.

The cart is loaded with several player options, from type of swing or pitch to make to deciding which players to "play" based on individual ratings in a wide variety of categories. Bunts, steals, intentional walks, you can call it all.

The view rotates so that the perspective is always behind the fielder once the ball is in play. When pitching, you can get a view of either behind the catcher or behind the pitcher.

A lot of control is given to both pitching and batting. In pitching, for instance, you first select the type of pitch you want, then you are still able to control movement after the ball is released.

My biggest complaint against the cart involves the fielding screen that appears once the ball is in play. The players are so big that only a couple of players are viewed at a time. Even though the players are large, they

don't cover much ground, making it hard to cut-off a ball in the gap. For example, if the batter hits a fly ball to center field, you would get a view from behind the center fielder. It looks like the shot you would get from the bleacher seats behind the fence. On fly balls, it is either a "can of corn" or a gaper Barry Bonds couldn't

reach. There is not much in between. Once you grab the ball, the controls are opposite when throwing to a base compared to other baseball carts. In short, the game would be improved if more playability were allowed in the area of fielding. Also, homeruns occur too frequently. Juiced ball or not, there are just too many round-trippers.

I do have to give credit to Tecmo for getting a full MLBPA license. All 28 pro teams are used with all the real players and the trades of last off-season. A digitized picture of each player is also a nice touch. The sound could use a little improvement. There are a few digitized voices inserted, but nothing would be missed if you turned down the volume and turned up your "jock rock" CD.

"Tecmo Super Baseball" may not be the greatest baseball cart out, but it is worth a try and is a good way for the die-hard fan to survive the winter until the boys of summer are back in action.

Nurses recognized

Continued From Page One Morrow and Lezli Zimmer; and one from Hermleigh, Sheila Stanley.

Members of the February, 1994 graduating class included, from Snyder, Shirley Cooper and Jackie Jackson; from Colorado City, Judy McCullough, Rachel Rangel and Susan Thiebaud; from Jayton, Lex Dunham and Bonnie Sallee; from Spur, Anita Chunn and Patty Clements; from Fluvanna, Kay Evans; from Rotan, Ruthie Peek; and from Post, Wilma Yarbro.

Students from the August, 1993 graduating class included five from Snyder, Glenda Hålverson, Susan Hickman, Jimmy Pittman, Teresa Scott and Tish Wilkie; two from Post, Betty Curry and Lisa Haynes; one from Roby, Kellie Hills; and one from Big Spring, Jacky Seitz.

To apply for acceptance to the program, call the counselor's office at WTC.

Writer gains added honors after leaving WTC

Continued From Page One various awards for her writings. In 1992, she was published in the "Harbinger," the literary magazine published at Texas Tech University. She also placed first for fiction and poetry in that

magazine as well. At Tech in 1993, she received the Robert Newton Memorial Award for creative writing. She has also earned the Texas Association of Creative Writing Teachers poetry award.

Her writings have also been published in many independent journals. These include the "Rectangle," "Culebra," and the "Conference of College Teachers of English (Studies)." She was recognized for her poetry in each. She has also been published in various magazines for nonfiction articles. These include "Living With Preschoolers" and

"Moody Monthly."

To further add to her accomplishments, Janice has also been invited to read her published works. These readings have been at the Conference of College Teachers for English, the Ft. Concho Literary Conference in San Angelo, and the Texas Association of Creative Writing

Teachers meeting. Janice is married to WTC English instructor Bill McGlothing and she has two children, Jordan and Janica.

DCOS links to WTC

Continued From Page One (of the company) more profitable."

DCOS incentives for new industry include grants, utility improvements, land improvements, land purchases and other aid to potential employers in exchange for a promise of new jobs locally.

Funding for the DCOS is through sales tax revenues on taxable sales within the city limits. Although statues will not allow the DCOS to offer funds directly to the college, Hutchinson feels that the agency can "invest in WTC by creating jobs locally and encouraging more extensive use of college resources."

Yule sing is Tuesday

Continued From Page One Charles Church, Lisa Duncan, Andrea Garner, Lucy Gregg, Janet Halbert, Melissa McCright, Kathy Post, Jeanie Rice, Jodie Shepard, and Joann

Jerry Echols, Paul Hagood, Darrel Johnson, and Randall Proctor comprise the WTC Guitar Ensemble with Jon Palomaki. They will perform "O Christmas Tree," "What Child is This?," "Cradle Song (Away in the Manger)," and "Silent Night."

The WTC Community Chorale will be performing 10 songs, among these "O Come, O Come, Emmanuel" with audience accompanyment, "Lo, How a Rose E'er Blooming," "Calypso Carol," "Carol of the Drum," and "Sleigh Ride." The Handbell Choir will perform "Processional and Suite for Christmas," "We Praise Thee, O God, Our Redeemer," "Jingle Bell Jazz," and "Let It Snow! Let It Snow! Let It Snow!".

Happening again set

Continued From Page One minute program profiling the cowboy of the 1880's on the Pitchfork Ranch. May will speak twice during the day, at approximately 1:30 and 3:30 p.m.

Santa Claus will arrive at 2:30 p.m. and stay until 4:30 p.m. There will also be a pinata breaking and refreshments will be served. The children will be able to participate in a craft-making activity.

The museum will have a Christmas Village Display set up and music instructor Jon Palomaki and his students will provide music. The museum will also have its gift shop open with a variety of gifts to buy.

In addition to the Christmas Happening, the Ritz Theater will be performing "The Toys Are Taking Over Christmas" Dec.2-5 here at WTC at the Fine Arts Theater. On Sunday, Dec. 4, there will be a 2 p.m. matinee in the theatre.

Concrete machine generates new paths

By Mike Hughes **Texan Staffer**

New cart paths along the Western Texas College golf course are near completion.

The 3.2 miles of path are being laid using a slip-paving machine recently purchased by Western Texas College.

The metal apparatus stands about 4 ft. tall and is about 8 ft. wide. Cement is poured into its wide top and goes straight through to the tapered bottom. As the concrete hits the ground, the paver is pulled along, leveling off the cement.

The machine is dragged along the ground by a cement truck that also keeps the machine full of concrete.

When conditions are right, a truck full of 70 ft. of concrete can be laid in about 10 minutes.

A generator is attached to the rear platform to power two vibrators located at the bottom corners of the machine. These vibrators are use to help form the sides of the path.

According to John McKinney of Concrete and Such of Snyder, the hardest part is keeping the truck in a straight line.

McKinney also explained the importance of using the proper cement mixture of about three and a half "slumps" to form the paths properly. The term refers to the amount of water in the concrete mixture.

"With a mixture of six slumps the concrete won't stand," said McKinney, who added that a too dry mixture causes the cement to pull apart.

Cement that comes out of the paver is level but must be "bullfloated" to make the paths smooth. "Bull-floating" is the process of using hand tools to smooth the concrete.

Super fast concrete

Cement poured into the wide top of this con- of 70 ft. of concrete can be laid in about 10 crete paver goes straight through to the tapered bottom, creating an "instant" concrete paths at the WTC Golf Course is nearing path. When conditions are right, a truck full

placed inside the paver walls to tion of the paths was borrowed form either 6 or 4 ft. sections. from the WTC Scholarship Foun-An estimated \$85,000 in condation. It will be paid back using tional way of pouring cement into crete was used to create the a percentage of the golf course

Tech Prep option now okayed here for high schoolers

By Sandra Hall **Texan Staffer**

WTC will now accept up to nine hours college credit for completion of specific courses at the high school level. This is made possible through the newly approved Tech Prep program which links curriculum between participating area high schools and the college.

The program is designed to aid students who are interested in a two-year degree in a specific vocational field. Through Tech Prep, these students receive free college credit by taking the classes in high school rather than college.

WTC currently has one associate degree program-Office Systems Technology-which is approved for Tech Prep students. In addition, an Accounting Technician Certificate may be earned through the program.

High school level courses approved for credit at WTC include one in keyboarding and two in word processing, with each worth three hours of credit. In order for the credits to transfer here, the high school where they were earned must be one of 38 area schools in the same consortium as WTC.

According to Bettie McQueen, dean of instruction, the program has been worked on locally for several years, was submitted for state approval about a year ago, and has recently received official state approval.

As a member of the West Central Texas Consortium, WTC is linked with other area colleges and secondary schools which are involved in Tech Prep through a grant from Texas State Technical College (TSTC).

The program involves high 275.

school teachers who instruct the approved classes in a way which applies directly toward the vocation that the students are working toward. One of the primary goals is to attract students who would not (without the program) go directly to college after high

With Tech Prep, participating students can earn up to nine hours of college credit between their freshman and senior years in high school. As a result, the student can then take 9 additional hours of advanced college

In addition to the degree in Office Systems Technology, other areas where Tech Prep could benefit both incoming students and WTC may be added later. According to Mrs. McQueen, two potential programs for consideration are Criminal Justice and Golf Landscape Technology.

The benefit for community colleges like WTC is primarily as a recruiting tool, according to Mrs. McQueen.

Education majors due Tech information

Elementary Education majors planning to transfer to Texas Tech are invited to an important meeting with WTC counselors Tuesday from 11-11:25 a.m. in the Science Lecture Hall.

In 1991, Tech increased it's requirements for accepting education students, especially elementary majors. The changes include a higher G.P.A., an early February application deadline and strict sequencing of courses.

Students unable to attend may receive information and handouts from Dan Osborn, Ext.

Semester's end nears; finals follow holiday

By Anthony Alvarez **Texan Staffer**

The end of the semester is drawing near and classes will dismiss Wednesday for the Thanksgiving holidays.

All classes will dismiss at 1 p.m. and the dormitory will close at 2 p.m. Wednesday. Campus administrative offices will close at noon.

After the short break, the dorm will reopen Sunday at 2

Defeats Westerners 71-51...

South Plains plays tough

By ChrisMcKamie **Texan Staffer**

The Lady Westerners played a tough game last Tuesday night against South Plains, but fell short. When the buzzer sounded, the scoreboard read South Plains 71, WTC 51.

The Lady Westerners had problems from the free-throw line. WTC went to the line a total of 41 times, but only made 18 of these.

Donna Carrell, from Diamond Head, Miss., led the Lady Westerners with 13 points. Jackie Wright, from Ray City, Ga., did her part by pouring in 8 points for the team.

The big story of the game was Emily Fowler of South Plains.

to the victory. Fowler hit three 3- minutes, the Lady Westerners pointers on the night.

The game began on a sweet note when Wright hit a 12-footer in the opening minute. After this, the Lady Westerners began to struggle. Ultimately, South Plains went into the locker room with a 33-21 lead at the half.

South Plains came out in the second period and began to light up the scoreboard. With 7:12 left on the clock, Fowler hit her third and final 3-pointer to send South Plains to a 30 point lead. This was a wake up call for the Lady Westerners and the women began to make their comeback.

With 3:55 left in the game, Diane Ezernack, from Gonzalez, La. hit a 3-pointer to cut the She scored 18 points on the way score to 66-40. In the final two

went on a 10-2 run, but it was too little too late.

An earlier game Nov. 7 saw WTC flying high against Cisco, winning that contest 93-53.

Every member of the Westerner team scored with five players in double figures. These included high point Tammy Wilson with 16; both Penny Glenn and Carri Moss with 12; Jackie Wright with 11; and Christy Cates with 10. The game's outcome was never seriously in doubt as WTC led at half 41-18.

The Lady Westerners competed in the Grayson College Lady Viking Classic in Denison this past weekend. They were to play NEO A&M Friday and Eastern Oklahoma Saturday.

Struggling with South Plains

The Lady Westerners, including Carri Moss (center), had tough going against South Plains, losing 71-51. (Texan Photo by Jennifer Jones)

Livestock team results profiled

The Livestock Judging Team competed in Shreveport, La. at the Louisiana State Fair Intercollegiate Livestock Judging Contest recently.

Jennifer Beard of Snyder captured third high individual in swine judging and the team placed fifth overall.

Team members include Rhonda Parker and Steven McDonald, both of Roscoe, and Michael Hess and Chris Meador, both of Snyder.

There were 160 individual contestants and 32 teams present at the competition.

The Livestock Judging Team also competed Nov. 12-13 in Kansas City.

Results for this competition were not yet available at presstime Friday.

Fall season stats for rodeo told

WTC golfer Stone is consistent standout both in '93 and today

By Will Gray **Texan Staffer**

With so many good golfers in the junior college ranks, WTC has a particular standout this year—Cory Stone from Pampa.

Stone is a returning sophomore and has had a very successful career so far, being named to the All-Conference team as a freshman.

He placed in the Top 10 in several tournaments last year and is showing great promise this year in the fall season.

As an individual, he placed 13th among all competitors in Ruidoso with rounds of 71 and 75 for a total of 146. He led the way for WTC in the Midland College Invitational with rounds of 74 and 73, good enough to finish in the Top 10.

Stone also was the number one player for WTC at Louisiana with rounds of 75, 74 and 76. He tied for 11th in the Odessa College Invitational with rounds of 77, 74, 73 and shot the second lowest round of the entire tournament the final day in very tough conditions.

Besides making several alltournament teams, Stone was medalist last year in Western Texas College's conference invitational. He shot rounds of 72, 76, 77 to beat out several Midland College players.

Prior to each tournament, the WTC players must shoot qualifying rounds to determine who represents the team.

Stone has qualified for each tourney by consistently shooting low numbers. Perhaps his best effort was for the Odessa College Invitational, where he shot qualifying rounds of 63 and 65 on the WTC Golf Course to make the number one slot.

In fact, several WTC golfers

are producing very low rounds in qualifying to make the traveling squad this semester.

Coach Milton Ham has great expectations for both Stone and his entire team and has speculated they could be a contender for both the regional and national tournaments this year.

Since the fall season has already come to a close, most of the players, including Stone, are gearing up for the spring season.

The ultimate goal is to gain recognition from four-year institutions so that the golfers may move on in their golf careers.

Coach Milton Ham stated, "I have high hopes for this team because they are one of the best teams to come through this school in several years and I'm looking forward to the opening of spring competition."

Cory Stone
