# CREDIT ASSOCIATION

Offers Specialized And Dependable Agricultural Credit To

#### **FARMERS & RANCHERS**

#### SPECIALIZED BECAUSE:

- 1. It handles only agricultural credit.
- 2. The loan committee is composed of farmers and ranchers who know farming and ranching in this area and the General Manager who has had years of credit experience and training.
- 3. All personnel dealing with credit have an agricultural background and agricultural credit training.

#### DEPENDABLE BECAUSE:

- 1. Local conditions do not affect our supply of money, since it is all borrowed through the Intermediate Credit Bank at Houston from the investing public all over the
- 2. The association is owned by those who borrow from it and is in business to help them make money rather than a big profit for itself.
- 3. Is is strong, with over \$2,900,000 capital and reserves it can handle most any loan regardless of size.

LOANS ARE AVAILABLE for most any agricultural purpose - Operating expenses, Equipment purchases, Building, Land purchases, Pay off existing indebtedness, and are made in line with man's equity in his business and ability to repay.

# BECAUSE THEY

Compare this list of Chevy advances with the features ordinary trucks are still talking about. You'll see why Chevy trucks get more work done in a day...why they go extra thousands of miles before trade-in time. These Sturdi-Bilt Sixties aren't just new, they're a full scale revolution!

TORSION-SPRING RIDE

Each front wheel, suspended independently of the other, is free to step individually over bumps. And shockproof torsion springs up front soak up the jars and jolts before they reach the body. With three rugged new tailored-tothe-truck rear suspensions to further reduce road shocks, Chevy gives you the smoothest truck ride you've ever

NO SHIMMY, NO WHEEL FIGHT

HIGHWAY 70

Drive a '60 Chevy. Just once. Right away you'll notice the absence of I-beam shimmy and wheel fight common on ordinary trucks.

With independent front suspension there's a brand-new, smoother, easier handling feel behind the wheel.

Big guys get a bigger break in a Chevy cab. There's plenty of space inside to stretch out and relax; more room for hats and hips, more room for wide shoulders and long legs. There's horizonwide visibility through a windshield with 26% more glass area; a new see-at-aglance instrument panel. Cabs are safer, too, up to 67% more rigid.

#### 6'S SWORN TO SAVE

Chevy's 6-cylinder engines are set to squeeze extra miles out of every drop of fuel. They're long famous for low fuel consumption, high performance.

#### SHORT STROKE V8'S

Power-packed for peak performance, Chevy's husky V8's make child's play out of the toughest hauls. They have a mind tuned to economy, too, that keeps costs down, profits up.

**SLICK NEW SUBURBAN** CARRYALLS

These handsome new handy haulers "double in brass"can transport eight passengers or up to 950 lbs. of payload. Rear and center seats are easy to remove and replace when necessary. For work or for pleasure, these double-duty beauties are best for both!

Chevrolet's low prices make big truck news for '60. They mean money in your pocket on model after model. Step-Vans, 4-Wheel Drives, many

light-duty models with auto-

matic transmissions—all are

lower priced. Also, prices

have been reduced on all

**NEW DOLLAR-SAVING** 

PRICES

optional V8's.

SEE YOUR DEALER It could be the most important visit you make in '60. When you've seen these new Chevies, you'll agree they're the world's most advanced trucks. Then drive one and find out why.

#### TROPHY

Margaret Scheffer and Gayle Nicholas, co-captains of the Junior High School girls basketball team, are shown here accepting the second place trophy from the Hale Center tournament. Coach Carl Moore is presenting the trophy. Team mates are looking on. The girls later presented the trophy to Principal Morrison Asman.

#### INDIVIDUAL AWARD

George Jones is shown here receiving from Coach Carl Moore an individual trophy for outstanding performance in a junior high school basketball tournament. (STAFF PHOTO)

#### **Have Been Watching My** Neighbors Fertilizer Programs For Several Years...

SAYS ROBERT McCURRY

WHO OPERATES 2 FARMS NEAR SPADE

... And those who use Mathieson Ammo-Phos always seem to produce more and better cotton.

This is my first year to use fertilizer and I believe Ammo-Phos is the Plant Food for my cotton. Ammo-Phos is completely WATER SOLUBLE and the plants produce more than on a less soluble Plant Food.

Mr. McCurry purchased 20,000 lbs. of Mathieson Ammo-Phos 16-20-0 from Olton Farm Supply and applied it at a rate of 200 lbs. per acre on his 100 acres of cotton land. He used a Broadcast spreader then bedded his land. He plans to plant Lankart selection 57 cotton seed using proper irrigation and insect control. Mr. McCurry applied 300 lbs. per acre to 18 acres and has a few acres that will receive no fertilizer as test plots.

#### **Couple Stranded** In Snow Storm **Near Dalhart**

Mr. and Mrs. Leroy Measles, former Olton residents, were stranded twenty-seven hours in their car during a recent Panhandle snow storm.

The Measles, who now reside in Romero, were enroute to visit another couple who lived not far from their home. They planned to "sit out" the storm with their friends.

Northwest of Dalhart they encountered a family who was stuck in snow. The Measles, having chains on their car, attempted to aid the other car by pushing it.

The Measles' car slid off into a ditch and they were unable to get it out. The two carswere stranded for some twentyseven hours until the storm subsided and the men were able to seek help.

Mrs. Measles is the former Becky Herndon of Olton.

#### Jerry Felder **Gets Top Prize** For Showmanship

Jerry Felder of the Hart FFA Chapter won the first place showmanship award in the Castro County Fat Stock Show last

The award is given for showmanship, presentation of animal, and neatness and cleanliness of pens and stalls.

An individual plaque is given to the boy and a plaque also is presented to his chapter.

Jerry is a junior in Hart High School and this was his second year to show. He exhibited two steers and two barrows.

His winnings at Dimmitt included reserve champion Berkshire barrow, champion Hampshire and reserve grand champion barrow of the show. He also exhibited the grand champion steer and second place heavyweight steer. Jerry is the son of Mr. and Mrs. W. H. Felder.

#### 5456-lbs. maize per acre following ammonia applications

#### FLOYD COPELAND of Dimmitt, Tex. reports pre-planting or side dressing ammonia makes a big difference.

"I've used ammonia for the past five years and can certainly see a lot of difference in the yields. On 289 acres of maize, 100 pounds of Phillips 66 Ammonia per acre was applied . . . one-half pre-plant and one-half side dressed. Yield was 5456 pounds per acre," according to Floyd Copeland, who farms 880 acres.

He says, "A hundred pounds of Phillips 66 Ammonia" was also applied pre-plant on 200 acres of wheat. With 43% hail damage, wheat averaged 39 bushels. Where you have plenty of moisture assured through irrigation, it's just plain logic to use ammonia and get maximum

Thousands of Texas farmers are now using Phillips 66 Ammonia to help assure top net profits per acre—on irrigated or dryland fields . . . in wet or dry years. Actual field reports prove that Phillips 66 Ammonia (1) produces more high grade lint (2) increases sorghum grain yields (3) boosts wheat and small grain yields

(4) stimulates pasture growth for more meat and milk. See your local Phillips 66 Agricultural Ammonia Distributor now. You can make more money this year with this 82% nitrogen fertilizer. It can be applied by you or your distributor.
