

THIS WAS THE SCENE after a school bus-pickup truck collision west of Olton Tuesday afternoon about 4:35 p.m. A Fieldton man was killed in the mishap.

THE TWO VEHICLES hit with such force that the rear axle and wheels were torn away from the bus. Shown inspecting the damage is Johnny Clark Jr., school superintendent.

Man Dies, 3 Hurt In Bus-Truck Crash

Fieldton Resident Victim Of Mishap

Fifty Bohner School students, always anxious to get home after a day at school, could look back this week and be doubly thankful their Tuesday afternoon bus ride ended when it did. For at 4:35 p.m. after Driver James Steptoe had delivered the children to their homes, Olton School Bus No. 14 overturned after a collision involving a pickup truck. When the crash came, two persons were aboard the bus and two others were in the pickup. The toll: one dead and three injured, one seriously. Berry Allen Ball, 74-year-old Fieldton resident, was fatally injured in the mishap, which occurred four miles west and one south of Olton at the intersection of two unpaved county roads. Ball was a passenger in the pickup, driven by his son, Vernon B. Ball, 49, Littlefield, who was in fair condition Wednesday at Littlefield Hospital. The injured in the bus were Steptoe, 29-year-old Bohner teacher, and a student, 14-year-old Mary Helen Mack daughter of Percy Lee Mack. Mary Helen had stopped at her home during the route and was returning to Olton to join friends for an out-of-town trip. The bus had started with 51 students and was returning to Olton after completing the route. Funeral services for Ball were set for 2:30 p.m. today at the Fieldton Baptist Church, under direction of Hammons Funeral Home, Littlefield. The body was transferred to Hammons by Parsons Funeral Home, Olton. The son, who was taken to Littlefield Hospital by Parsons' ambulance service, suffered a broken leg and lacerations about the face, hands and arms. Both Steptoe and Miss received emergency treatment, but were not hospitalized. The bus was traveling east on its return to Olton and the pickup was headed south, said Highway Patrolman, Joaquin Jackson, who investigated. Assisting at the scene were Justice of the Peace David Maxey and Deputy Sheriff V. L. Smith.

PETE GIPSON

Gipson County Gold Star Boy

Pete Gipson, Olton 4-H Club, has been named this year's Gold Star Boy. He is the son of Mr. and Mrs. Glenn Gipson of Olton. Gold Star Girl is Nancy Williams of Sudan. Pete started his club work in 1957 with money from a calf that his father gave him. Two pigs were his first projects. One of the pigs placed sixth and the other was sited. For the next three years, beef calves were projects. In 1960, he won a special beef award. In 1961-62, his projects began to branch out. They included beef calf, registered sheep and show lamb. Hereford cows and six acres of grain sorghum. Unfortunately, the grain sorghum yield was reduced due to hail. This last fall, Pete sold his Hereford cows and bought three registered Shorthorn cows. Plans are to raise his own show calves. This year's projects included a Shorthorn calf, Duroc boar, five acres of cotton, cooking safety and electricity. Other 4-H activities participated in this year were leadership camp electric camp, county rally day and annual Club camp out. Pete received the award Monday at the annual 4-H achievement program held in the Community Center. Approximately 30 boys and girls received awards. Special awards were presented to David Britton, agricultural; Kay Hudgens, beef; Iva Tanner, clothing; Rheta Hulsey, dress revue; Butch Hudgens and Steve Moss, field crops; Aaron

Robertson, food and nutrition; Steve Spain and Danny Sides, swine; and Glen Gipson, alumni recognition. Among those receiving year pins were Steve Spain, Jerry Caddel, Charles McClain, Danny Sides, Marland May, Kay Hudgens, Sherry and Steve Moss, Gary Dickenson, Paula Gipson, Aaron Robertson, Benny Akin, David Britton, Denna DeBerry, Pete Gipson, Laura Akin, Dale DeBerry, Rocky Farrar, Darrell Breland, Butch Hudgens, Ronald Oursbourn, J. Curtis Hall, Vicki Ivins, Cheri Dorris, Mickey Parsons, Iva Tanner and Lyla Pitts.

Tax Rate Same Council Approves Audit, New Budget

City councilmen Tuesday night approved an audit of last year's finances, set the tax rate at the same figure and okayed a budget for the new year. The council also made final arrangements for purchases of a new police car, approved a meat inspection ordinance and handled numerous other items of business on a full agenda. The audit for the fiscal year ending Sept. 30, 1962, showed the city operated in the black in the general fund, but slightly in the red in the water-sewer department. Overall, total receipts were \$115,640.34, compared with total expenditures of \$119,892.33. Most of the deficit was in the tax sinking fund, where year-to-year expenditures sometimes top receipts and a reserve is built up to take care of such years. The budget for the year ending Sept. 30, 1963 totals \$33,884 in the general fund and \$64,750.85 in the water-sewer fund. Expenditures in 1962 were \$30,415.32 in the general fund and \$68,138.25 in the water-sewer department. Tax rate for 1963 is \$1.50 per \$100 assessed valuation, based on 35 per cent of actual valuation. This is the same as last year. The new police car, which went into service Wednesday

was purchased from Hall-Sides Motors, low bidder. Cost was \$2,120.05. Meat inspection ordinance passed by the council requires that all meat sold or offered for sale in Olton be inspected by federal, state or local inspectors. In other activity, the city agreed to pay a total of \$519.50 to four property owners who were charged in error during the last city paving program. The council also: 1. Agreed to employ a part-time officer as extra help for the police department, allowing the chief and night officer one day and night off per week. The part-time employee will work one day and night per week. 2. Okayed use of the city maintainer to take of the ORC road, when requested by the ORC board. 3. Approved purchase of a line locator for the water-sewer department at a cost of \$280. 4. Planned to have the city engineer make a study and estimate costs of drainage improvements for Avenue A.

Moore Wins Grid Contest

Two contestants battled it out for top honors and a half dozen others scrapped for third place in the Enterprise football contest last week. James Moore came up with the top entry in the contest, edging out Bob Gullett. Both missed two games. Moore came out best on the tie-breaker, missing the Boston College-Texas Tech score by 27 points. Gullett was 41 points off. Winner of third place was Charles A. McClain, who missed three games and was only 26 off on the tie-breaker. Others who failed on three games, but missed the tie-breaker by greater margins were Twyla Goodman, Diane Moore, Neil Wells, Doug Nickerson, Rev. J.W. Douglass, June Gullett and Mike Gullett. Checks for \$10, \$6 and \$4 will be mailed to the top three winners. If you're wanting in on some of the easy cash, try your luck this week. Just get a copy of the Nov. 8 Enterprise, fill in the entry blanks and turn it in to one of the merchants sponsoring the contest before 4 p.m. Friday.

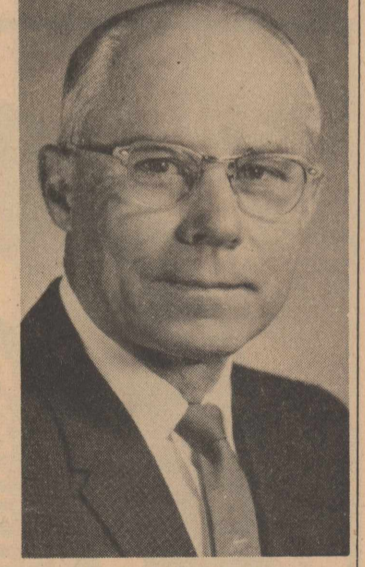

Mustangs To Tangle With Winless Friona

Olton's Mustangs enter their final ball game here Friday night under unusual circumstances, for them. For once, Olton is favored to win. The ponies go against Friona, loser of 25 straight ball games. The Chiefs, hampered by a lack of experience, size and speed, have lost 'em all this year at 5-5 in season play and 2-2 in district warfare. Friona fell last week to Muleshoe 42-0. Olton lost to the Mules, 13-0, to weeks ago. The Chiefs dropped their game with Morten, 37-14, and to Dimmitt, 48-6. Olton managed a 13-9 victory over Morten, but lost to Dimmitt, 22-2. Coach Walter Bryan says he'll have all his hosses ready for the Friona game. Joe Costello, who missed most of the Muleshoe contest, and Dennis Givens, who's missed several games, have mended and both should seek plenty of action. Game time is 7:30 p.m. at Memorial Stadium. "We could be in for a tough game," says Bryan. "Friona is going to slip up on somebody one of these days, and it could be us if we're not ready to play." The Chiefs played Dimmitt a while of a game for a half, leading by 6-0 at the end of the first quarter. "They have two boys who are as fast as any backs we've seen this season," Bryan said. "We'll have to be ready."

State Role In Schools Told By Amarillo Man

H.O. Willborn of Amarillo, state school board member, told the Olton PTA last Thursday night. "We give state aid. This necessitates our meddling in your affairs." Willborn outlined some of his duties as a member of the state board, saying they set minimum standards in courses of study and the certification of teachers. "We also serve as a referee between teachers and school boards or between school districts," he said. He compared the board to a court of appeals. "We must remember," Willborn said, "that the schools exist for only one purpose---the children in them." He noted, that in making decisions, the board must consider what will help the child. The group was entertained by music students of Gene Boswell, instructor, and heard a talk by Johnny Clark, superintendent. Clark spoke on recommendations that will come before the Texas Congress of Parents and Teachers. "We ought to know what we're endorsing," Clark said, noting the board terms used in the recommendations. He said that, in his opinion, TSTA wants the general endorsements in order to have backing on any decision they might make. Clark said that he thought things ought to be done on a local level as much as possible. "We've never known a dollar to go to Austin or Washington and gain weight," he added. The recommendations are as follows:

1. Continue support of the Minimum Foundation Program for quality education in the public schools.
2. Support legislation to facilitate study and aid for the mentally and emotionally disturbed children who are in our public schools.
3. Support legislation to provide a minimum sick leave program for teachers.
4. Support adequate local and state appropriations for the strengthening and expansion of public school programs of home

Call C-CA

Chamber of Commerce Manager Melvin McReynolds this week warned residents of transient magazine solicitors who operated in Olton during the week. Speaking to the general public, McReynolds said: "If you are contacted by transient solicitors and you feel their offers are questionable, we suggest you contact the Chamber

FROM C-CA New Emblem Out

Olton's Chamber of Commerce and Agriculture members are wearing a new look. New emblems are being distributed to all members as the Chamber prepares to kick off a new year. The emblem, pictured here, is being put on front doors of establishments on the Chamber's rolls. They're also being applied on windows of members' cars. White lettering on a blue background is used on the main emblem. The year is carried in red. The signs are just part of many new ideas being planned by the C-CA. All of the ideas should jell when the Chamber holds a meeting of the general membership later this month. This session, open to members and all other interested persons, is set for Thursday night, Nov. 29. At least four, and possibly six, new directors will be named to the C-CA board by the membership that night. Number of directors to be elected will be affected by a vote of the members on whether board members should serve two or three-year terms. The present board seems to be in favor of the three-year term, but it will take a change of the by-laws to put the change into effect. In the event a three-year term is decided against, six new directors with two-year terms will join the 12-man board. The idea behind the general meeting on Nov. 29 is to get the members together to discuss a program of work for the C-CA in 1963.

New Bus Route

The Texas Education Agency has authorized the Olton Independent School District an additional bus route, bringing the total number of routes to 15. Supt. Johnny Clark Jr. reported this week. The new route, which covers a territory northeast of Olton, should alleviate the problem of overcrowded buses somewhat, Clark said. A bus being running on the new route Monday morning.

BORN WITH TWO FRONT TEETH---It didn't take long for this little one, Graciella Cordova, to assert herself after she came into the world Tuesday. Graciella, daughter of Mr. and Mrs. Manuel Cordova of Olton, had two lower teeth when she was born. The infant weighed 10 pounds, 14 oz. at birth and was the largest baby ever delivered at Community Clinic. The Cordovas have three other children.

you have to put rocks in the hubcaps to get your ease of riding. You certainly made a lot of noise leaving school Friday. If you keep this up we may have to turn you in for excessive noise. Let's try to be a LITTLE quieter. YOU HEAR A LOT of things about what boys say and do to get a girl's attention. But this one takes the cake....Every-time Eugene calls on Pam, he removes his hubcaps and places them very neatly by the tire they came off of. Then he makes the big play showing Pam, her sister, and her parents his mechanical engineering ability by replacing the hubcap. Really Eugene--Let's try another line.

Medulla Waves

By Elaine Averitt And Bobbye Tollett

IN CASE there are any of you who do not know what a medulla is, it can be found in any Webster's Dictionary. THERE SURE WERE a lot of Olton people out to support the girls basketball team in their first game of the season Saturday night.

Those Fillies really put up a fight against the Happy Cowgirls, and we were behind them all the way. It looks like we are going to have a great team this year, so just keep up the hard work and high spirits, Girls and go all the way.

EVERYONE in OHS is just living for the Thanksgiving holidays so they can recuperate from all the activities that have been taking place since school started.

It seems like things will never slow down.

If it isn't home work we have to worry about, it's something else, and everyone is always in such a rush, the year will be gone before we have time to settle back and enjoy it. And this could be quite heart-breaking to the seniors, who want to make the most of their last year.

WELL KIDS, Friday night will be our last football game of the

season. Our boys have shown supreme effort in all our games, so let's show them how much we love and appreciate them by really backing them this week. It will really be hard on all the seniors, so think nothing of it if you see a bunch of sad-eyed kids running around after the game Friday night. This may sound ridiculous to you freshmen and sophomores, but just wait. Your time is coming and when you get to be seniors and everything you do is for the last time, you'll understand.

CONGRATULATIONS TO: Larry Fancher, Sam Roden, Ronnie Parsons, Barry Prest-ridge, and Johnny Moses; Jonelta Moss, Phyllis Hair, Cheryl Poteet, Tanya Bryant, and Tommy Witten on being nominated for Most Handsome and Most Beautiful. These are certainly deserving students.

TO Johnny Schenck, Johnny Moses, and Ronnie Kidd; did you boys find anything interesting in Plainview Saturday night?

Moses, and Ronnie Kidd; Did WE WANT to congratulate the band on their fine performances at the half-time shows so far this year. It certainly adds to the game and to the school spirit each Friday night. Keep up the outstanding work in your rehearsals and don't forget to bring a 'I' back from contest next Tuesday. We know the whole school is backing you, so GOOD LUCK!

SENIOR GIRLS want to compliment their little freshman sister on their wonderful cooperation so far this year. Believe us, you will be greatly rewarded. This doesn't mean to quit, though. Just think, six more months and you'll be rid

of us for good. WE WOULD also like to compliment the junior on their play. It was really a riot and enjoyed by everyone. Your hard work and effort certainly paid off.

Good luck on your magazine sales too. By the way, if anyone wants to subscribe to a magazine or two, see any member of the junior class.

A GROUP of senior girls including Dana Speer, Jonelta Moss, Janice Moses, Phyllis Hair, Bobbye Tollett, and Elaine Averitt journeyed to Plainview Friday night to eat out and attend a movie.

CONGRATULATIONS are also in order for our high school twirlers, Phyllis Hair, Cheryl Poteet and Lana George received a 'I' rating at the twirling contest in Levelland last Saturday for their ensemble. Cheryl Poteet received a 'I' rating in solo twirling and Lana George was rated 'I'. Keep up the good work, twirlers, you have been very impressive throughout the whole season.

RONNIE PARSONS is a good little boy and eats everything on his plate. Sometimes he eats things that are not on his plate. For instance, the table decorations and centerpieces. I guess he is going to have to eat too lunches or get his mother to feed him more.

SAMMIE CLARK just loves to go to parties. When refreshments are served, instead of eating cookies and cakes, she goes and looks for olive seeds to chew on. Sammie, if you're worried about cutting teeth, we think someone might find you a teething ring.

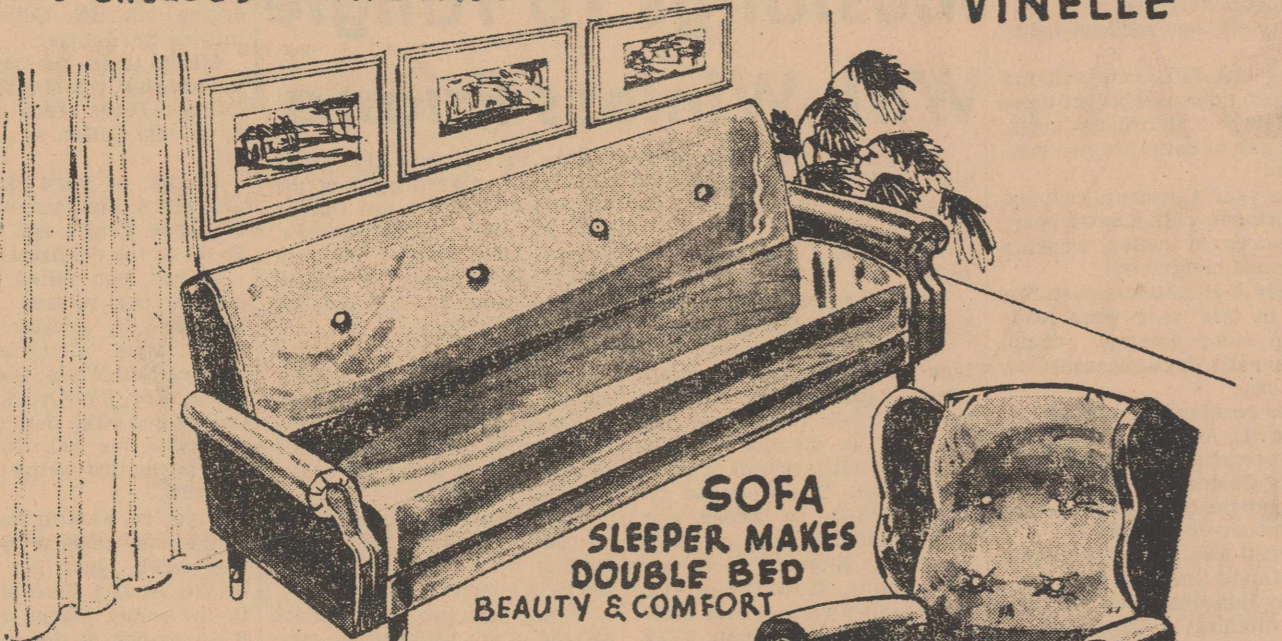

STEPHEN SMITH--We are so worried about you. We know you love your car and all, but do

Standley-Tubb Vows Said In Ceremony At Amarillo

Wedding vows were read by Father Martin Scannell for Miss Pamela Jean Standley of Amarillo and Glenn E. Tubb of Colorado Springs, Colo., in a double ring service Saturday afternoon in St. Hyacinth Catholic Church in Amarillo.

Parents of the couple are Mr. and Mrs. Olaf Paul Standley, 3413 Line Ave. Amarillo and Mr. and Mrs. W. B. Tubb of Olton.

Traditional musical selections were presented by Miss Shelia Malone, organist.

Matron of honor was Mrs. Paulette McCallister and bride-maid was Miss Priscella Dean Standley, sisters of the bride. Robert Dwayne Stiles served as best man and James A. McCallister was groomsman. Ushers included David Fauldnon and Vaughn Crawford of Gallup, N.M.

Given in marriage by her father, the bride chose a formal gown of slipper satin fashioned with rounded neckline edged with seed pearls. Her bouffant skirt terminated in a chapel train. A pearl encrusted pillbox held her fingertip veil of illusion. She carried a bouquet of white orchids atop a satin Bible.

Following the ceremony, a reception was held in the St. Hyacinth's Hall.

After Nov. 18, the couple will be at home at 306 N. Cascade in Colorado Springs, where the bridegroom is employed with Town Talk Bakery.

The bride graduated from Tascosa High School. She was employed with Southwestern Bell Telephone Company prior to her marriage. The bridegroom just recently completed service in the United States Army.

FORD "BLUE" HAS FARMERS TALKING

Farmers in this area are seeing for the first time the new Ford tractors, which have just gone on display at the local Ford tractor and implement dealership. Most noticeable feature is the new Ford Colors, although the 14 models in the new Ford line have more than 120 mechanical improvements. The tractors are in four series—"2000", "4000", "5000", and "6000"—and have power ranging from 30 to over 60 PTO horsepower.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—Republicans have turned Texas into a two-party state. The heavy vote for Jack Cox against John Connally, election of two members to the national House of Representatives and seven members to the Texas House, plus substantial Republican votes in nearly all areas, are being interpreted by many State Capitol observers as meaning that never again will the Democratic nomination be "tantamount to election."

Dallas County elected every Republican candidate for county and legislative office they had on their ballot, and gave Cox a 25,000-vote lead over Connally. Tarrant and Harris were close. Bexar, El Paso, Travis and Nueces, the next four of the big counties, went Democratic.

Unofficial and incomplete returns indicate that Connally carried 204 counties and Cox carried 50. But it was the substantial Cox votes in the 204 counties he lost which makes

this election significant. Connally is conferring with legislators and with state boards and commissions. He will not make complete budget recommendations, since outgoing Gov. Price Daniel is required, under the Constitution, to make budget recommendations, to the Legislature, in January.

But Connally will make his own budget proposals in his message to the Legislature. Industrialization, tourism, higher education and water conservation are the areas of state activity which Connally stressed most in his campaign. He will propose the creation of a Bureau of Commerce to take over tourist and industry-attracting.

The new governor with 120,000-vote margin of victory under his belt, said he holds no ill will toward areas which voted against him, that he will be governor for Republicans as well as Democrats.

Main areas where the Republicans ran strong were in the oil areas of West and East Texas, in the major cities, and in the Panhandle. They elected local officials in Midland, Ector, Smith, Dallas, Kerr, Bexar, Pecos, Hutchinson, Zavala and Randall Counties.

CAMPAIGNS TOO LONG—After the longest political campaign in Texas history there is a desire—on the part of many candidates, newspaper reporters who travel with the candidates, and the voting public—to return to the shorter campaign periods.

The old late-in-July, late-in-August and early-in-November voting months were far less strenuous than the present early-in-May, early-in-June and early-in-November dates. Campaigning in the heat of the summer now is very much preferred over the cold winter months and the long, tedious battle period that extends from December to November.

Don't be surprised if there is a big demand to return to the old election dates. They consumed only about 120 days, compared with this year's long, drawn-out, pace-killing, man-killing, more-than-300-day battle.

Governor-Elect John Connally has been quoted as saying he would favor moving the primary elections to August or September, as they are in most two-party states.

Under the present system the various party organizations close shop during the summer. Then it becomes necessary to re-organize and re-vitalize each setup for the General Election campaign. Heretofore the momentum generated carried them through to the November election. They got it all done in one big swoop.

Another reason for reverting to the old dates is that the cost of maintaining a long campaign naturally is much greater than the expense involved in a short one.

ISLAND UNDER FIRE—Officials of state and federal government had a heated discussion about land values on Matagorda Island in a preliminary round in the General Land.

Main bout will take place during the November 19 session of the U. S. District Court at Victoria, where the federal government has filed a suit to condemn a lease on some 16,000 acres of land on the island. State of Texas will contest the suit.

U. S. has leased land on Matagorda Island since 1942 for Air Force bombing practice. But when Land Commissioner Jerry Sadler was notified on May 31 that a new 5-year lease was in the offing, he raised objections.

Uncle Sam leases state-owned land there for less than six cents an acre annually. Some

of it is subleased for grazing at 25 cents per acre. In last week's Austin meeting between representatives of the U. S. Department of Justice, the State Attorney General and the Land Office, it was learned that federal appraisal of the disputed property was made from an airplane.

Government appraiser placed a 44-cent-per-acre value on beach and grass land owned outright by the U.S.; set a six-cent value on some state land; and a zero value on other state-owned property—to reach a 25 cent rental rate.

State land was described as "marshy and boggy," but Rep. Grainger McIlhenny, chairman of a legislative committee on state-owned lands, said he'd like to win "some of that worthless land," which is thought to be rich in mineral value.

Land Office questioned the government's need for all the land it seeks to lease.

An assistant to the U.S. Attorney General replied that U.S. Air Force and Navy bombing and strafing operations were subject to error—both human and mechanical—and simultaneous use by the public and armed forces would be "impractical."

EMERGENCY RESOURCES—Gov. Price Daniel appointed Major General James E. Taylor chairman of a 35-member Texas Emergency Resources Planning Committee.

In answer to a presidential request, the committee will plan for conservation and use of essential resources and services at state and local levels in case of nuclear attack, and a temporary breakdown of control of service operations.

James H. Garner, state coordinator of Civil Defense and Disaster Relief, will serve as State Emergency Planning Director. Other members of the committee include representatives of government, industry, commerce, consumers' services, labor and agriculture.

EMPLOYMENT UP—Unemployment in the state dropped in September to its lowest level since October, 1959. September showed 155,400 unemployed, compared to 170,100 in August.

Employment increased from 3,471,300 hired workers to 3,472,800. Texas Employment Commission predicted an overall gain in employment between September and November, with a heavy concentration in non-factory industries.

FISH CREEK DAM—The Texas Water Commission authorized a permit to the City of Gainesville to build a \$1,724,143 dam system on Fish Creek, a tributary of the Red River.

Plans for the dam, which was backed by local citizenry 2-1/2 to 1 in a local bond election, will include a reservoir with storage capacity of 23,210 acre feet; supply pipeline to town and a filter plant.

Surface water will be used with water from Trinity wells until the well supply dwindles. Then the reservoir is expected to supply all water for a population expected to reach 24,000 in 1995.

TALKING BOOKS—Only 10 per cent "read" about 56,467 talking books last year. But he estimated that the books which are recorded on phonograph records would be read by 10,000 if they were told about them.

The state library circulates both talking books and Braille, free of charge, including postage, to any eligible blind person. Inquiries about eligibility should be sent to the State Commission for the Blind, 201 East 14th Street, Austin.

OPTOMETRY RULE CHALLENGED—An attorney for Texas State Optical accused the State Board of Optometry Examiners with passing a rule unrelated to optometry when the board met with the House Committee on State Licensing agencies.

Rule challenged by attorney Quentin Keith would prevent optometrists from practicing under a trade name, and force an optometrist to be in his office 50 per cent of the time he's open for business.

Disputed rule—approved in December, 1959—has never gone into effect because of a restraining order Lee Optical filed three days after its passage.

Injunction is till effective, since the suit has not come to trial.

STINSON HIRED—Texas Tourist Council hired an executive vice-president, Bill Stinson, a member of governor-elect John Connally's campaign staff.

Stinson, former public relations director for the Gunter Hotel in San Antonio, will open an office in Austin soon.

FARM INCOME DOWN—Between 1929 and 1961, farmers' and farm laborers' incomes showed a percentage decrease of 12.8 per cent, according to the Bureau of Business Research.

Percentages are up in mining, contract construction, manufacturing and retail trade, but down in transportation, property income and proprietors' income.

BIG THICKET ACTIVITY—Governor Daniel picked 31 state officials, historians and East Texans to study the feasibility of a state park in the Big Thicket area.

A report is due by the time the Legislature meets in January.

TAXES AND DEFICIT BOTH RISE—The state deficit has increased despite higher tax collections.

Robert S. Calvert, State Comptroller, reports the general fund deficit stood at \$56,284,799 as of October 31. This compares to \$51,002,099 a month earlier.

Revenue for two months of the fiscal year, started September 1, totals \$206,970,520 up from \$172,948,556 of the previous year.

Spending for the two months was \$278,985,927 more than \$62,000,000 ahead of last year.

TRANSFER OF AUTHORITY—Gov. Price Daniel wants regulatory control over radioisotope used in Texas vested in the State Health Department.

On behalf of the State he has asked the Atomic Energy Commission to transfer control to the Health Department "as soon as possible."

Included in the Governor's request is the licensing and regulation of by-products, source and special nuclear materials.

Local Men Attend Seminar

Carroll Cox and G. H. Buchenau of Higginbotham-Bartlett Company, Olton, were in Lubbock recently where they attended a one-day seminar featuring the latest in home and ranch water systems.

Highlight of the seminar was a showing of advances in submersible pump design during the last decade and a sneak preview of new jet pump lines to be released shortly.

Two Injured In Car Flip

One man was hospitalized and another received minor injuries in a one-car accident five miles south of Hart on FM 168 Tuesday about 9:45 p.m. Hospitalized after the accident was Elwood Prentice, Fieldton, a passenger in a 1962 model vehicle driven by Curtis Dyer, Fieldton.

The car failed to make a curve near the Lamb-Castro county line. Highway patrolman reported the auto went out of control on the curve and skidded about 100 yards, then overturned.

Prentice received severe lacerations about the head and was taken to Castro County Hospital, Dimmitt.

FFA Boys Entertain Lions Club

Members of the Olton Lions Club met Tuesday 12 noon at the American Legion Hut with members of the Greenhand Chapter Conducting team of the Future Farmers of America in charge of the program.

On the program were Jerry Winn, secretary; Larry Winn, member; Steve Huckabee, reporter; Stan Huckabee, vice-president; Doyle Meadows, president; Rocky Farrar, member; Neal Burrow, advisor; Tommy Hall, treasurer, and Joe Bob Smith, sentinel.

The annual Lions Club Christmas party and ladies night will be Dec. 11.

Bi-County PTA

The Bi-County meet held last week in Olton was attended by 27 members from Littlefield, Spade, Amherst, Mulshoe, Springlake and Olton.

President of the organization, Mrs. Carl Nowlin of Littlefield, presided.

Mrs. Nowlin was elected as delegate to the Fort Worth convention to be held this week. Named to the nominating committee were Mrs. Gilbert Roberson, Olton, chairman; Mrs. Ray Daniel, Mulshoe; Paul I. Jones, Littlefield; Mrs. James Holland, Amherst; and Mrs. Charles Garrett, Spade.

THINK, IRRIGATION FARMER!

WATER is a commodity so precious that no tyrant has ever dared deny it to his people.
 The earliest records of our civilization are linked to the spring and the waterhole, the river and the well.
 The Children of Israel faltered in the wasteland and were ready to revolt until Moses struck the rock and brought forth a spring
 Wars have been fought over water rights and mighty nations have vanished because their water resources failed.

In view of these facts, can you afford the luxury of irrigation "TAILWATER ???"

Little Red Schoolhouse Lunch Is Different Now

Today's school lunch is more than just a streamlined lunchbag, supplying hot nutritional food for all students who care to eat there. Olton school lunches are prepared under the Type A program, which means they are designed to supply a third of the child's daily food needs. The type A lunch consists of half pint of whole milk as a beverage; meat or meat substitute; three-fourths cup of vegetables or fruit; one or more portions of bread; and two teaspoons of butter or fortified margarine. In addition, milk is used frequently in cooking.

Since the required amount of vegetable is usually too large for most children, two servings of vegetables are frequently used. Often one vegetable and one fruit or one vegetable and one fruit juice are substituted. Children pay 30 and 35 cents for their lunches. Extra milk is available at lunch and at recess. The government reimburses the school system five cents per plate of Type A lunch served. Surplus commodities received during the school term average four cents per lunch.

WMU Circle Meet Held

Day Circle of the W. M. U. of the First Baptist Church met Tuesday morning Nov. 13 at 9:30 in Fellowship Hall for mission study. Mrs. Lloyd Graham, prayer chariman, read Romans 10 verses 15-18. Prayer was led for missionaries having birthdays that day. The study was based on Taiwan, Hong Kong and Korea. Slides were shown concerning these areas. Plans are being made for the Week of Prayer program, Dec. 3-7. Those present were Meses. J. C. Miller, Jack Silcott, C.E. Turner, A. C. Brigrance, Rufus DeBerry, W. R. Hammond, Lloyd Graham, L. O. Purina Teams With Wheat For Low-Cost Cattle Gains

Demonstration Has 40 Heifers On Wheat With Self-feeder

In a test designed to produce beef at lowest possible costs, Olton Farm Supply has begun a self-feeder demonstration with 40 crossbred heifers. The cattle pictured have been put on wheat pasture at the Cloys Fancher farm three miles east and two north of Olton.

Average weight of the cattle at the start of the project three weeks ago was 323 pounds per head. After two weeks in dry lot, the cattle weighed 370 pounds per head. They were wormed with Purina Cattle Wormer and vaccinated just prior to going on pasture.

The cattle will be on a 65% grain ration with hulls, supplemented by Purina Steer Fatina, from the self-feeder. Intake of this ration will be limited by salt.

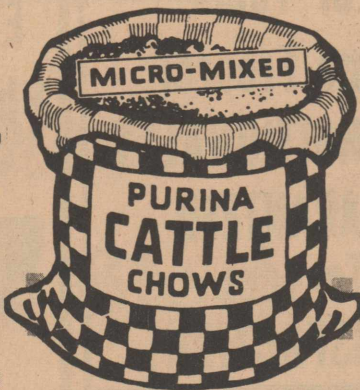

You're invited to inspect the progress of these heifers during the next 60 days while they are on pasture.
