

LIKE FATHER, LIKE SON—When Shorty Bourland dressed up for Krazy Daze here last Friday, young Phil went right along with the act and dressed up like a little old-fashioned girl. Here, Phil does a little tie-straightening for his dad.

## Merchants, Customers Go Wild On Krazy Daze

It's said by people in some parts that living on the plains will get to you after awhile. Any strangers passing through Olton Friday are probably firm believers in that by now.

Home folks could have told them, however, that it was only Olton's annual Krazy Daze—that day, once a year, when merchants and customers alike take a little time off to go slightly mad.

Customers had a bargain hunter's field day with the wackiest bargains yet and many came away with prizes after the 4:30 drawings.

Odessa Mitchell, in a gypsy fortune-telling costume, took the \$15 prize for the craziest dressed customer.

Sue Polk, in a hula skirt, took first for merchants' costumes. Two "dainty ladies",

**SCHOOL BUDGET**

OLTON ARTISTS joined the Krazy Daze fun here Friday, setting up an exhibit for their organization, the Olton Art Guild. Although art is a serious proposition with them, some dressed in the garb of the day. Left to right are DeMetris Brigrance, president of the guild; Jessie Henderson, vice-president; and Ann Tinkle, exhibit chairman.

### Just Plain Hot

Temperatures soared this week in Olton as sunny skies took over after a siege of rain last week.

Various temperatures were reported locally, ranging up to 105 degrees. Most just agreed that it was just 'plain hot.' One businessman said: "The most I recorded was 100 in the shade... and that's hot enough for me."

Another local store owner commented: "Well, I've had some come in and buy something just to get out of the heat."

That may be one of the merchandising promotion men hadn't thought of yet.

### Johns Sole Candidate On Last Day

Dr. Basil Johns was the sole candidate late Wednesday for the vacancy on the city council. Filing deadline is today. The election is set Tuesday Aug. 21.

The vacancy on the council was created after the resignation of Cecil Galloway.

### PTA Plans Programs

PTA programs next year in Olton are scheduled to include a "This Is Your Life"-type school history program, a student debate on integration and talks by W.O. Wilburn, state school board, and Buck Weaver, well known for his work with Oklahoma youth.

The year's activities will start with a teacher reception in September, followed by an October program featuring a panel composed of school board members.

Wilburn will speak at the November meeting and Weaver at the March meet.

The student debate is scheduled for December and the TV-styled school history program for February.

The January program was left open this week by a planning committee.

Installation was tentatively set for April, pending a decision on whether or not to have only eight meetings next year instead of the usual nine.

PTA meetings will be held the first Thursday of each month beginning in September. Program chairman is George Cadell.

### For Local Girl

## Scout Roundup Is Big Experience

"I don't believe I've ever seen so many girls together at the same time."

This is one of the comments made by Lana George, daughter of Mr. and Mrs. Fred George, after she attended the Girl Scout Senior National Roundup camp on the shores of Champlain in Button Bay State Park, Vermont.

Approximately 10,000 girls, ages 14 to 17, from the United States and 20 foreign countries, attended the two-week encampment.

Miss George, who was selected from a large number of applicants by a committee of Caprock Council leaders, left for the camp July 16 and returned to Lubbock last Friday.

The 16 Girl Scouts from Caprock Council met in Lubbock, where they left by train for the trip.

"Most of us had mixed emotions," Miss George remembered. "We still couldn't believe we were really going."

"I kept thinking something would happen to keep me from going or someone would pinch me and I would wake up to find it was all a dream," she laughed.

She said the leaving was quite an affair with television cameramen, radio and newspapermen and, of course, families and relatives seeing them off.

"When the train started to move, we really felt, for the first time, that it was true," she said.

The girls then had a two hour layover in Amarillo, where they met the rest of the Texas group, and a five hour layover in Chicago.

"After going through customs, we spent the next day

## School Year Planned; Opening Set Sept. 3

It'll be back to readin', writin' and 'rithmetic for Junior and some almost forgotten peace and quiet for Mom come Sept. 3.

That is the opening date for Olton schools with the exception of Bohner School, which will open Aug. 27.

School officials have been busy throughout the summer repairing and preparing for the big rush while the younger set busied themselves with such things as swimming and golfing and, teachers hopefully suggest, a little reading.

Several new teachers will be employed at the schools this year with Ray E. Murphy of Dimmitt as the latest addition. Murphy will teach Spanish and high school English.

Resignations of Mrs. Ardith Smith, Spanish and English teacher, and Mrs. W.A. Reeves, first grade teacher, were also announced this week.

With registration set Aug. 30 and 31, Joe Turner, high school principal, asks that any new students in the community or any who have not pre-enrolled, come by the high school building before school opens Sept. 3.

According to the new school calendar, students will be dismissed for the Thanksgiving holidays Nov. 21 at 2:30 p.m. and school will resume Nov. 26.

Christmas holidays will start Dec. 21 at 2:30 p.m. and students will return Jan. 2 of next year.

School will also be dismissed March 8 for a district teachers' meeting and from April 11 to April 16 for Easter holidays.

Baccalaureate exercises are scheduled May 19 at 8 p.m. and both junior high and senior

high graduation May 24, when school will be dismissed for the summer.

The first general faculty meeting is set Sept. 1 at 9 a.m. Other meetings are scheduled at 5 p.m. Oct. 8, Nov. 19, Jan. 7, Feb. 18, April 1 and May 13. Teachers will be dismissed May 25.

The first six weeks will end Oct. 12, the second Nov. 21 and the third Jan. 11 of next year. In the second semester, the fourth six weeks will end Feb. 22 and the fifth April 5. Total school days will number 178.

Supt. Johnny Clark said Tuesday that the school still needs

three teachers, one for first grade, one for second and a teacher for the special education class.

Murphy, new high school teacher, is a 1953 graduate of Dimmitt High School and a 1957 graduate of West Texas State College with a BA degree. He has taught at Colorado City and Lockney.

## Sugar Beet Groups Join, Form Plains Association

Members of Olton's Sugar Beet Growers Association have joined forces with several other regional organizations to form The High Plains Sugar Beet Association.

The Olton group voted last Friday night to go along with plans to attempt to locate a sugar mill in or near Plainview.

The other associations represented in the High Plains

organization are those of Hale, Floyd and Swisher counties and those of Abernathy and Springlake communities.

Representatives of all the associations met in Plainview Monday night and elected Homer Garrison as head of the parent association. Owen Thorton, Lockney, was named vice-president and W.T. (Dub) Hall of Olton was elected secretary-treasurer.

First action of the new association was to send a letter to Agriculture Secretary Freeman requesting a large sugar beet acreage on the Plains.

Assignment of substantial acreage for the Plains is sought, with the idea that some sugar mill will establish a plant in this area.

Farmers have indicated they will plant more than 46,000 acres of the crop, with some commitments still coming in.

Great Western Sugar Company of Denver, largest of the nation's sugar beet processors, has expressed a desire to erect a new, modern sugar refinery.

Representatives of the company, including the firm's president, toured the Plainview area last week and went away with a "very deep impression of what we've seen or heard."

The company's president said there is "competition as to who will get to build refineries, when and where."

That apparently was a reference to numerous other areas which are seeking plants, among them Hereford, the states of California, South Dakota, New York, and others.

## Polio Vaccine Day May Be Held Here

Olton Chamber of Commerce and Agriculture directors Tuesday discussed the Chamber sponsoring a Sabin Oral Polio Vaccine day here in late August or early September.

The new polio vaccine, which is taken by mouth instead of as a shot in the arm, has been introduced successfully in many towns and cities across the nation.

The board appointed Dr. C.B.

Johns, James Hall, Ed Thompson, Bill Turner and Melvin McReynolds as a committee to investigate the sponsorship of the project here.

Plans call for the group to meet again early next week to discuss details of the project.

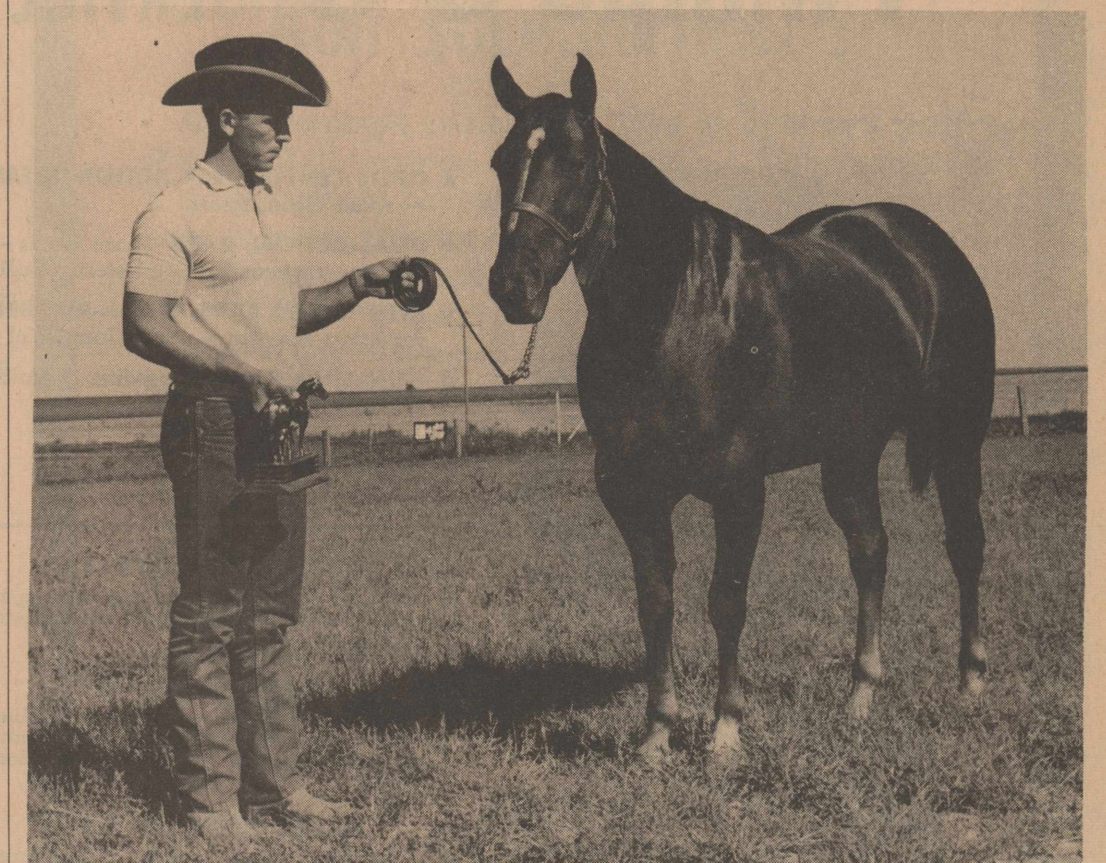

In other activity, the board authorized a "Get Out The Vote" campaign for the city council election scheduled Aug. 21.

## Thomas Quits School Post

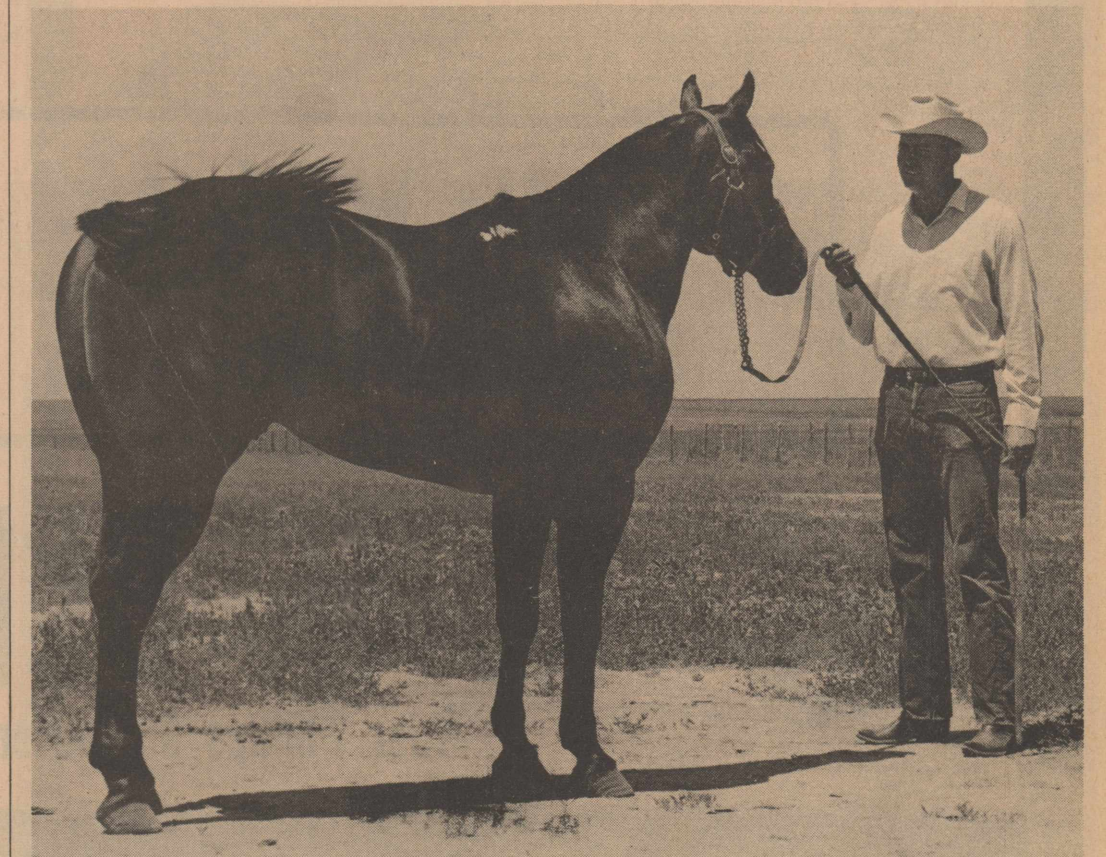

Dorman Thomas, school business manager, resigned this week to go to Robert Lee, where he will be superintendent of schools.

Thomas came to Olton in July of 1962 from Gregory where he was a coach.

He and his wife, Jody, have four children, Sandra, Buddy, Deborah and Donna. They plan to move this weekend.

SWEEP TOP HONORS AT FRIONA--Jimmy Moss, above, and J. Frank Daugherty, below, Olton Quarter Horse enthusiasts, came home with the top prizes from the Friona Quarter Horse Show last weekend. Moss' mare was grand champion and first place 1959 mare, Daugherty's horse, Bee Play, was grand champion stallion, Clifford Carlisle, Olton, won reserve grand champion mare honors and Donna Smith, Olton, had the first place 1960 mare.

### After All . . . Nobody's Perfect

A classic record of a classified ad gone berserk. It happened to the Carteret County News-Times of Morehead, N.C.:

Monday: FOR SALE: R.D. Smith has one sewing machine for sale. Phone 958. Call after 7 p.m. and ask for Mrs. Kelly who lives with him cheap.

Tuesday: "We regret having erred in R.D. Smith's ad yesterday. It should have read, FOR SALE, R.D. Smith has one sewing machine for sale. Cheap. Phone 958 and ask for Mrs. Kelly who lives with him after 7 p.m."

Wednesday: "R.D. Smith has informed us that he has received several annoying telephone calls because of an error we made in his classified ad yesterday. His ad stands corrected; FOR SALE, R.D. Smith has one sewing machine for sale. Cheap. Phone 958 after 7 p.m. and ask for Mrs. Kelly who lives with him."

Thursday: "NOTICE--I, R.D. Smith, have no sewing machine for sale. I smashed it. Don't call 958, the phone has been taken out. I have not been carrying on with Mrs. Kelly. Until yesterday, she was my housekeeper."

## Texas-Oklahoma Cotton Market Review Changed

First major change in the 43-year-old weekly cotton market review of Texas and Oklahoma trading has been announced by the U.S. Department of Agriculture.

Emphasis has been shifted from the national and regional level to the local markets in line with general trade practices, points out John L. McCollum, manager, southwest area cotton office, USDA's Agricultural Marketing Service, Dallas.

What happens to cotton in the territory covered by each of the nine cotton classing field offices in the two states will be featured weekly with a table of spot prices for each of the designated spot markets -- Galveston, Houston, Dallas and Lubbock.

McCollum says the name and format of the report have been up-dated to meet the needs of farmers as well as the cotton trade. The report will be titled -- "Cotton, Texas-Oklahoma

### Weekly Market Review.

In addition to information on cotton market conditions and prices, the report will cover crop conditions, insect control, wages for chopping and snapping, costs of machine harvesting and ginning plus other spot news and pertinent facts.

The Review is released every Friday and the complete report is available by mail without cost. Persons interested in receiving the report should direct their requests to Cotton Division, AMS-USDA, Room 404, 708 Jackson Street, Dallas 2, Texas.

## FHA Collections Over 4 Million Mark In Area

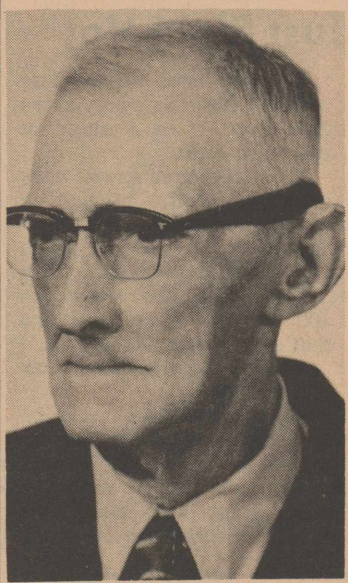

Arch T. Fowler, area supervisor of Area 20 of the Farmers Home Administration in Texas, announced today that during the past fiscal year, July 1, 1961, to June 30, 1962, the FHA had collected \$4,390,149 in the seven counties that make up Area 20. The seven counties are Bailey, Castro, Cochran, Hale, Hockley, Lamb, and Parmer.

Fowler also explained that during the past fiscal year, 1961-1962, the Farmers Home Administration has assisted a large number of farmers to produce their 1962 crops. Loans totaling \$3,761,435 have been made in this seven county area during this same period of time. These borrowers were unable to get financed through the regular conventional lending sources. These loans were of many types -- Operating Loans to help a man with his farming operations; Farm Ownership Loans to help some farmer buy a family-type farm or help a farmer acquire some additional land to enlarge his present farm to a family-type farm; Rural Housing Loans to assist someone in repairing or building a home in rural areas, small communities, or towns of less than 2,500 population; Soil and Water Loans to assist a farm owner in reorganizing his farming operation by introducing approved farming practices, drilling irrigation wells, installing water distribution systems, building terraces, fencing, and other things necessary to increase the productivity of his land resources; and a few Emergency Loans to just help a man through this crop year.

Fowler said that in 1961 many borrowers paid the FHA in full and if present prospects for the crops this year were reached that many more would pay out in full in 1962.

One of the requirements for borrowing from the FHA is to be unable to secure the needed assistance through regular conventional credit sources. Many of the farmers that FHA assisted during the drought years have paid FHA in full and have re-

turned to the credit sources they used before coming to the FHA. The assistance that FHA gives to farmers and ranchers is a contributing factor in the overall economy of a county or community. This is especially important in a practically total rural area without any large industrial payrolls.

L.S. KENNEDY

## L. S. Kennedy Is Honored On 88th Birthday

L. S. Kennedy was honored on his 88th birthday Sunday Aug. 5 with a dinner in the home of his daughter and son-in-law, Mr. and Mrs. Bill Yates.

Those attending were Mrs. L. S. Kennedy, wife of the honoree, Mrs. Ruth Gautier, Mr. and Mrs. David Cole and Norris of Dimmitt and Mr. and Mrs. Joe Dan Yates, Dale and Lynn.

## Methodists Set Revival Dates

A summer revival will begin Sunday at the First Methodist Church and will continue through Aug. 19.

The preacher-evangelist will be Rev. N.S. Daniel from Seminole. He has been in the ministry 28 years.

Also helping in the services and directing the singing is C.L. Record, a layman from Lockney. Services will be held each week day morning from 7 to 7:45. Evening services will be at 8 p.m.

The regular Sunday schedule will be observed. Evening services will begin at 6 p.m. with the young people's Methodist Fellowships with evening worship at 7 p.m.

## Witnesses May Be Impeached

A story they tell on Lincoln is how he once proved his client's innocence by "impeaching" an eye witness.

Lincoln's client had stolen a chicken, the witness vowed, at a certain time on a certain night.

Asked how he could see so well at night, the witness declared "by the light of the moon--just as clear as clear." Lincoln "impeached" the testimony with ease by pulling an old almanac out of his pocket. It showed that no moon was up at that time, nor was it full on that date.

Trials are hard on everybody--witnesses and parties alike. They often take place when other ways to settle a dispute have failed, and there are hard feelings. But granting good faith, people do make mistakes in what they recall. After they have told their story a few times, many are dead certain--like Lincoln's witness--that they did see and hear what they say they did.

And so, for the sake of justice, courts allow each side to test a witness' reliability. Sometimes a witness is so obviously prejudiced or so obviously twisting the facts that the cross-examiner easily discredits his story.

But often sincere witnesses tell different stories, and the jury has a right to know how much weight to give each. It is the jury's sworn duty, in fact, to weight the credibility of witnesses. And a good way is to see how a witness' story hangs together under fire or checks with other known facts.

## Ellen Jones Is Honored With Shower

Miss Ellen Jones, bride-elect of Don Gregory of Dimmitt, was honored with a pre-nuptial shower in the home of Mrs. Ed Thompson Tuesday afternoon.

Approximately 75 guests were received by Miss Judy Ogletree and gifts were registered by Paula Jones, sister of the honoree.

Laid with an off-white chiffon cloth accented with two tiers of ruffles around the bottom, the reception table was beautifully decorated with a white milk glass punch bowl and centered with an arrangement of gold gladioli.

Gold-colored punch and gold and white cakes were served to the guests by Charla Beth Granbery, cousin of the honoree, and Gayle Machen.

Hostess gifts consisted of a set of stainless steel cookware and stainless steel flatware.

Hostesses for the occasion were Mmes. Elmer McGill, Fred Hicks, Tom Carlisle, I. B. Holt, Lem Roberson, Frank Buncy, Charles McClain, Jack Royce Straw, D.C. Eby, Kenneth Moss, W.W. Smith, Elmo Bryant, Virgle King, Ed Thompson, Ann Blyth, H.M. Langford, D.Y. Ray, Jack Edwards, Sidney Allen, J.M. Crawford, Jack Straw, Elmer Moore, G.H. Bley, C.E. Hysinger, J.C. **IN HOSPITAL**  
Mrs. Erma Clark was taken by an ambulance from Parsons Funeral Home to Scott and White Clinic at Temple last Monday.

## Back-to-School Bedrooms

**DRUMMER BOY'S ROOM**--Red, white, and blue is the logical color scheme for this young boy's room, and it is handsomely carried out in the pinch-pleated cotton draperies and covering for toy chest and in his bright blue cotton bedspread.

**BROTHERS' ROOM**--A gay circus stripe cotton fabric used for curtains and as covering for a screen sets the tone for this room for two brothers. Yellow is picked up from the fabric for the walls, and the copper tone is repeated in the cotton bedspreads.

Children's bedrooms are often given a low redecoration priority, but this fall many women may decide to make a full-scale project of these rooms.

A few basic pieces of inexpensive furniture, happy colors, and a few imaginative accessory notes can make a child's room the most refreshing and delightful in the house. Women who attempt this chore should be guided by three basic requirements for a child's

room. The room must be practical, functional, and colorful. The practicality of furnishings in a child's room can be measured by how sturdy and long wearing they are and by how easily they can be cleaned. Size and age of the occupant must be considered if the room is to be truly functional.

Color no longer means strictly pink for girls and blue for boys. Red, orange, and yellow are just a few other colors to which children respond.

## Davis-Irons Vows Said In Ceremony At Hart

Miss Freda Marcia Davis, daughter of Mr. and Mrs. E. E. Davis, and David Dean Irons, son of Mr. and Mrs. Allen E. Irons, were married in the First Baptist Church in Hart Tuesday July 24 with Rev. Dintel Leonard officiating at the double ring ceremony.

Given in marriage by her father, the bride wore a white pique street-length dress with white accessories and carried a pink bridal bouquet.

Vera Irons of Plainview was maid of honor and John Smith, also of Plainview, served as best man.

A reception was held following the wedding in the home of the bride's parents. The table was covered with lace over

pink and centered with a bouquet of flowers. Pink and white cake and pink punch were served to the guests.

Both the bride and groom attended Hart High School.

## Bothered by "Roll Togetherness"?

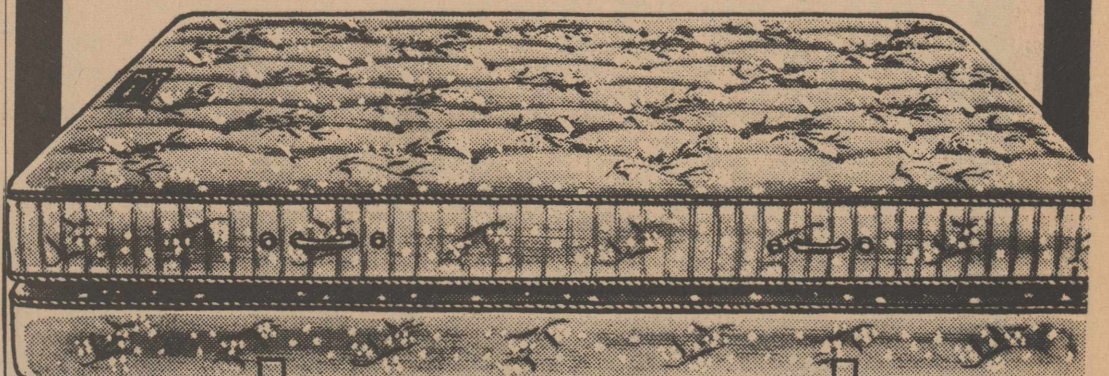

It's a common complaint. Take an ordinary mattress. Put a 190 lb. man on one side and a 130 lb. woman on the other. What happens? You guessed it. The mattress sags towards the heavier weight. He sleeps in a hollow. She sleeps on a slope. Uncomfortable? You bet.

That's one sleep problem we've solved many times because we know there's one mattress--the Beautyrest --that gives single bed comfort in a double bed.

Maybe you have another sleep problem. Is your mattress too hard? Too soft? Is it too small for you? Do you like a tufted mattress or one with a quilted top? Whatever your problem, chances are there's a Beautyrest model that is just the answer. We have it and we just love to help people solve their sleep problems.

Proposed CONSTITUTIONAL AMENDMENT NUMBER ELEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

SENATE JOINT RESOLUTION NO. 25 proposing an amendment to Section 49-b, Article III of the Constitution of Texas...

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended to read as follows:

"The foregoing notwithstanding, any lands in the Veterans Land Fund which have been first offered for sale to veterans and which have not been so sold may be resold to such purchasers, in such quantities, and at such prices and rates of interest, and under such rules and regulations as are now provided by law, or as may hereafter be provided by law."

ORC Pro-Am, Invitational Set

Approximately 120 to 140 golfers are expected to invade the ORC course Friday for the Olton Pro-Am, which kicks off the ORC's annual Invitational tournament.

All local pros in the area are expected to enter the tournament, along with some of the area's top amateur golfers.

The Pro-Am will be followed by the Invitational tournament Saturday and Sunday.

Entrance fee for the Pro-Am is \$4 and for the Invitational, \$15.

Ladies are eligible to enter the Pro-Am and may use their handicaps.

Entered in the tournament late Wednesday were Roland Adams, Lubbock; Larry Simmons, Lubbock; Bob Richmond, Plainview; Don Fox, Amarillo; Jerry Dixon, Andrews; Don Lackey, Borger; Jackie Coffey, Borger; Ben Cockrell, Plainview; Charles Findley, Amarillo; Jimmy Stewart, Lubbock; Norlan Dudley, Hart; Wade Davis, Hale Center; and Louis Maddison, Jim Jones, O.D. Huckleby and Bobby Ellis, all of Andrews.

Only four Olton men, Conner Parsons, Harlan Carson, Houston Hamby and Kenneth Ray, had entered Wednesday. It was thought that this was due to the large number now at the Ruidoso tourney.

To make competition even stiffer in the Championship flight, a President flight has been added this year. After qualifiers for the Championship flight play 18 holes, only the top 16 players will remain to battle it out in that flight, while the others will form the President flight.

Championship and President flights will be medal play. Match play will be used in all other flights, except in the finals, then medal play also will be used.

More than \$600 in prizes will

go solely to participants in the set of Stan Thompson hand-made irons, with the rumber-up getting a \$130 set of Stan Thompson hand-made woods.

In fact, no linkster entering the tournament will go home empty-handed. A DX golf ball will be given to all entries, said the ORC Pro, Fred Pendergrass.

The \$15 entrance fee also will include tickets for a barbecue supper Friday, Aug. 10, at 6:30 p.m. for players and their wives.

Qualifying round will be played August 10. A golfer unable to qualify may enter by phone, according to Pendergrass.

Each flight consolation winner will be given a \$60 golf bag.

In the championship flight, in addition to other prizes, merchandise gifts of \$30 will be given to the winner, with the second place golfer getting \$20, and third ranking linkster championship flight of the invitational meet.

In each flight, the winner will receive a \$170 winning \$10.

Golfers finishing in 4th through the 16th positions in this same flight will get a dozen DX golf balls, valued at \$15 a dozen. Players in the President's flight also will receive added merchandise.

The Pro-Am tourney August 10 will be the qualifying rounds, for medalist of the Invitational meet. There will be a \$100 added Pro-Pot.

Medalist in the qualifying round for the Invitational will be given a 17-jewel Elgin wrist watch.

Cash awards of \$15 will be given to any golfer shooting an Eagle or hole-in-one during the tournament. In the event of a more than one golfer making a hole-in-one the prize money will be split, according to Pendergrass.

Leroy Hackler is tournament chairman.

CHARLESTON, TENN., Record: "Today it costs the people of the United States 90 times as much to govern twice as many people as it did 50 years ago. . . This situation started in the year 1913 when the 16th Amendment to the Constitution was passed. When that Amendment was ratified without any limit beyond which the government could tax its citizens, the government began to grow. . . that innocent appearing tax of 3 percent on a few rich people (has grown) until today those same rich people are paying 91 percent tax and the poor people who were to have been the beneficiaries of the tax are paying 20 percent."

Proposed CONSTITUTIONAL AMENDMENT NUMBER THIRTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

SENATE JOINT RESOLUTION NO. 5 proposing an amendment to Article VII of the Constitution of Texas by adding a Section to be known as Section 3-b providing that school taxes theretofore voted in any independent school district, the major portion of which is located in Dallas County, shall not be abrogated, canceled or invalidated by a change in boundaries nor shall bonds voted, but unissued, at the time of such change, be invalidated by such change; authorizing the levy of taxes after such change without further election in the district as changed; providing an exception in the case of annexation or consolidation of whole districts; providing for an election in the case of a consolidation of districts.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article VII of the Constitution of Texas be amended by adding thereto the following:

"Section 3-b. No tax for the maintenance of public free schools voted in any independent school district, the major portion of which is located in Dallas County, nor any bonds voted in any such district, but unissued, shall be abrogated, canceled or invalidated by a change of any kind in the boundaries thereof. . .

"Section 3-c. The accounting officers of this state shall neither draw nor pay a warrant upon the Treasury in favor of any person, or salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this state or the United States, except as prescribed in this Constitution. . .

"Section 3-d. The accounting officers of this state shall neither draw nor pay a warrant upon the Treasury in favor of any person, or salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this state or the United States, except as prescribed in this Constitution. . .

"Section 3-e. The accounting officers of this state shall neither draw nor pay a warrant upon the Treasury in favor of any person, or salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this state or the United States, except as prescribed in this Constitution. . .

"Section 3-f. The accounting officers of this state shall neither draw nor pay a warrant upon the Treasury in favor of any person, or salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this state or the United States, except as prescribed in this Constitution. . .

## Flame Cultivation Tours Are Set Friday At HPRF

Results from flame cultivation control of weeds will be viewed and explained during tours at the High Plains Research Foundation Friday afternoon Aug. 10 at the Foundation's research farm at Halfway, located 14 miles west of Plainview. The Texas Butane Dealers Association sponsors the tours.

The tours will start at 1:30 p.m. from the headquarters building and close at 4 p.m. with an "experience exchange conference" in which farmers using flame cultivation will join a panel of scientists and professional flame cultivation experts in reviewing progress in this new field of farm economy practices.

Tractor drawn wagons will transport the visitors on the tours. Stops will be made

throughout the 310 acre farm where the results of flaming will be shown on corn, grain sorghum, castorbeans, soybeans, sesame, peanuts, cotton, sugar beets, blackeyed peas and green beans.

A demonstration of the use of flame cultivation equipment will be held with cotton. Included will be cotton planted June 21 and July 17, to show the results of early flaming. Cotton planted on May 24 will also be flamed.

The tour will close with an exhibit of flame cultivation at the Halfway Community Grounds. The critique will be held at 4 p.m. on the spacious lawn around the Killgore Memorial Building and Jim Hill Greenhouse.

Members of the Board of Trustees headed by host com-

mittee chairman, Claud Fargason, Halfway, will show visitors through the new facilities while others are on tour.

Flame cultivation tour guides will include Finis Edwards, Edmonson; Claude Cox, Hart; Guy Porter; Hart; Leon Melton, Edmonson; J.C. Hamby, Olton; and L.A. Watson, Springlake.

Members of the Board of Trustees who will be hosts to the visitors touring the new office building, greenhouse while attending the tour: Claude Fargason, of Halfway is Chairman of the committee, Olan Alexander, Joe Don Scott, and Homer Garrison, Plainview; R.L. Burgess, Hale Center; Harmon White, Cotton Center; Lane Decker, Floydada; Joe Foster, Lockney; Willis Hawkins Sr., Hart, Grant Hanna, Hereford; and Jarvis Angeley, Earth.

## Economist Takes A Look At The Cotton Situation

COLLEGE STATION— Consumption of cotton by domestic mills during the season ending on July 31 is up but a drop of about 1.6 million bales in exports is expected to add about 500,000 bales to the Aug. 1 carryover, says John G. McHaney, extension economist.

Total disappearance of American cotton during the 1961-62 marketing year -- Aug. 1, 1961 through July 31, 1962 -- is expected to be about 14 million bales or about 900,000 below last season, points out the economist. The supply for the current season is estimated at 21.7 million bales or 400,000 less than for the 1960-61 season.

Mill consumption is greater than a year ago primarily because of a higher level of economic activity, says McHaney.

Average price received by farmers for all 1961 cotton up to April 1, 1962 was 2.6 cents per pound above the 1960 average, and with the exception of 1958, was the best average since 1954. The value of lint and cottonseed was 10 percent above that for the 1960 crop and the highest since 1953, McHaney says. Current prices, he adds, are largely a reflection of Commodity Credit Corporation loan redemptions.

During the first quarter of 1962, imports of cotton textiles were at a record level and represented 179,000 bales of raw cotton. U.S. exports of cotton textiles during the time period represented 113,200 bales and were about 16 percent below those for the first quarter of 1961.

In commenting on how well the American and especially the Texas cotton producer is faring, McHaney says the efficient producer, at current prices, is doing fairly well. Cost of production items, especially labor, continue to make the cost-price squeeze tight for most cotton growers, adds the economist.

## Three Youths Arrested Here

Three youths, two from Olton and one from Earth, were arrested here Sunday night after a Latin man was injured by a bottle thrown from a car.

The injured man was treated for a cut on the head by a local doctor and released.

The youths were tried in justice of peace court, fined and released.

FRANKLINVILLE, N. J., TOWNSHIP SENTINEL: "The Declaration of Independence... easily ranks as one of the most important documents of history. In it, Thomas Jefferson, the author, set forth the inalienable rights of man and the theory that governments are instituted by men, not set up by God, and therefore, derive their powers from the consent of the governed."

Matt Dupree, son of Mr. and Mrs. Harold Lloyd, born Sunday Aug. 5 in the Plainview Hospital, weighing seven lbs., 12 ounces. Grandparents are Mr. and Mrs. Ira Bridges of Olton and Mrs. C.M. Lloyd of Vernon.

Danny, a son born to Mr. and Mrs. Valentine A. Garcia, Aug. 4 in the Community Hospital. The baby weighed seven pounds and nine ounces at birth.

## Than Other US Residents

### Local People More Mobil

Just how mobile are residents of Lamb County? How many of them have been living in the same houses for more than five years?

According to figures just released by the Government, local people are more likely to move about than are those in other areas of the United States. Locally, the length of stay in one house is shorter than average.

The facts are brought out in the Commerce Department's report on the mobility of the population. It is based on data collected by the Census Bureau in 1960.

It shows that some 10,291 residents of Lamb County were in different houses, at that time, than they had been living in five years earlier. Not included in the count were children below the age of five, since they had not had much opportunity to choose new addresses.

A large number of the movers, 6,172 of them, had already been living somewhere within the local county.

The rest of them, 4,119, had lived in other areas in 1955 and are newcomers.

No figure is given, however, for the number that moved away in the period.

The report shows that, for every 100 people living in Lamb County, 54 had changed residence at least once since 1955.

The ratio of movers, 54 percent, was higher than that found generally in the United States, the average being 47 percent.

In the West South Central States, 51 percent had moved and, in the State of Texas, 52 percent.

What leads people to go from place to place? There are many reasons given. In some cases it is due to a change in job opportunities. Sometimes it is brought about by other economic or business circumstances, good or bad.

People's moods account for some of the shifting. City residents get the urge for the suburbs and those in the suburbs develop a taste for urban life. Families get larger and small-

## Rains Save

### Pumping Money

The rains which finally covered the Southern High Plains rather generally have been excellent and as a result the farmers have saved thousands of dollars through reduced irrigation pumping costs.

Now, however, many are commencing again to pump water to the growing and fruiting crops. Some never stopped. During this stage of crop growth --when the crops are in peak bloom--adequate moisture is most necessary for optimum yields.

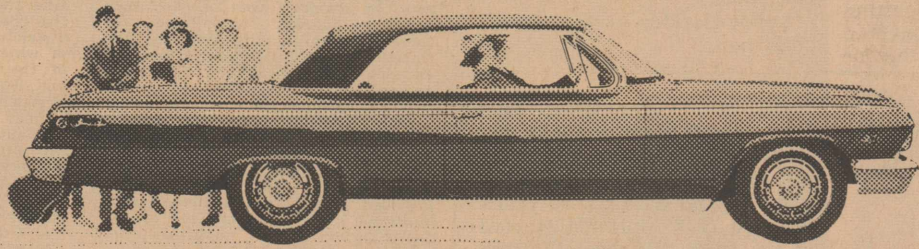

This is the time also when a minority of irrigators will have water losses due to "tailwater" escaping from the cropland.

It is apparent that many farmers should take better care of their irrigation water. Particularly, in view of the fact that the High Plains Underground Water Conservation District has just published a map which shows declines of the underground water level amounting to more than 100 feet in some areas of the southern High Plains during the past 24-year period.

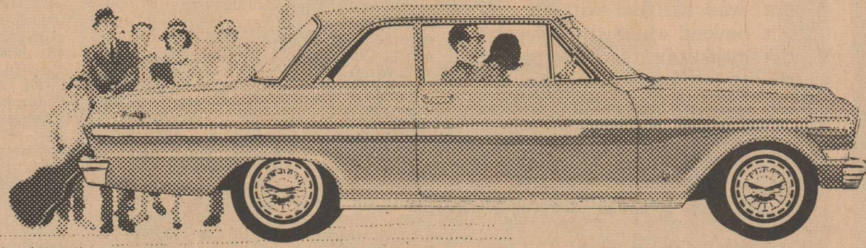

In a day when farmers do considerable talking about high production costs, and justifiably so, many of them could effect substantial savings through the use of good irrigation management practices.

To maintain an adequate level of economic prosperity in this region will require wise use of both rainfall and irrigation water by each and every water user.

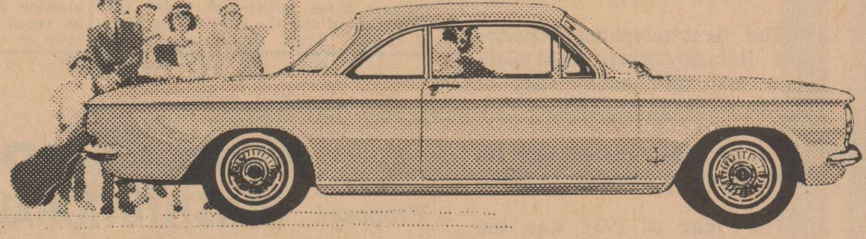

Spokesmen for the High Plains Water District state that the economic life of the ground-water supply will be prolonged if each farmer will practice this "good sense" approach to one of our most serious problems.

## 'Undiscovered' Diabetics May Number In Millions

AUSTIN--Various educated guesses as to the number of "undiscovered" diabetics in the United States place the figure somewhere between one and two million. Undoubtedly a fair proportion of them are Texans. Diabetes is a general systemic disease in which the body loses its ability to burn and store sugar normally. All starches in foods are converted into sugar. As sugar they are absorbed into the blood and pass through the liver and into general circulation to all parts of the body.

Normally the gland called the pancreas produces a secretion called insulin which is also poured into the blood. In the presence of insulin, the sugar of the blood is burned, especially by muscular activity. Any excess of sugar in the presence of a normal amount of insulin is temporarily stored, mostly in the liver, and released as needed into the blood.

This is the normal pattern. But in a person suffering with diabetes the pancreas fails to produce sufficient insulin. And when starches are eaten and absorbed as sugar, the body is unable to control the sugar normally by storing it in the liver or to burn it efficiently in muscle exercise. Result: the sugar content of the blood increases to abnormal levels.

Because the diabetic is unable to burn the sugar efficiently for energy, he becomes weak and tired. His body needs nourishment and he therefore develops great hunger. But because he cannot utilize the starches, he uses up his own tissues and continues to lose weight.

When the blood sugar gets too high, the kidneys, in an effort to lower it, removes

some of the sugar by excreting it in urine. This, in turn, makes the body dry and creates a thirst.

Proof of the hereditary nature of diabetes is the fact that surveys of diabetic children show that 60 percent of their families have other members with diabetes.

Overeating and lack of muscular exercise are conditions which tend to promote obesity which in turn creates a tendency toward diabetes. It has been shown that 20 fat persons develop the disease for every thin one who does. The obvious moral is do not overeat, do not remain overweight, and get plenty of muscular exercise.

You can judge your own tendency toward diabetes in the light of what has been said: Are you overweight? Do you over eat? Is there diabetes in your family? Also, do you have any of the symptoms: great hunger, loss of strength, loss of weight, persistent thirst, or excessive urination? If so, you're a likely candidate for a urinalysis or blood sugar test by your family physician.

## MOVED TO PLAINVIEW

Mr. and Mrs. Coy Carlisle and sons have recently moved to Plainview.

HE WALKED AWAY FROM IT---Eddie Carson, 18-year-old Olton youth, escaped from this accident with what is believed to be a minor neck injury. Carson's auto flipped after a collision with two horses on a country road three miles northeast of here last week. Carson said the horses came from the barditch and into the side of his vehicle. It happened so quickly, he said, that he headed his car toward the opposite barditch. After the impact, Carson said he stepped on the gas to come out of the barditch and lost control. The auto went into a field and overturned one and a half times, coming to rest on its top. The youth was up and around this week, after two days in a Plainview hospital. He is wearing a neck collar.

## Cotton Harvesting And Ginning Change Studied

Shifts in the cotton producing areas of Texas and changes in harvesting methods have greatly affected investments in gins, according to Progress Report 2233 of the Texas Agricultural Experiment Station.

The report shows that the Blacklands and East Texas have shown the greatest decreases and the High Plains the largest increases in cotton production. The areas with great declines in production have had comparable declines in the number of gins and those areas with increased production have had opportunities for expanded investment in gins, the report explains.

Cotton harvesting has almost completely shifted from hand picking to hand snapping and mechanical harvesting and thus has created a greater need for cleaning devices to the gin to handle this cotton. This additional equipment has increased the investment that a gin owner must make, the report continues.

There are wide differences in the amount of cotton each gin handles and in the areas of falling production they are

not handling enough cotton to be economical, the report points out. The gins in the Blacklands and East Texas are not being fully utilized as are the gins in the High Plains.

These preliminary studies show that model gin plants should be developed as a guide for installing and remodeling gins to get the most efficient operation under different conditions and in different areas of the state.

For details on the effects of the changing cotton picture on the gin operations of Texas write the Agricultural Information Office, College Station, and request a copy of Progress Report 2233.

Burial was in the Olton Cemetery under the direction of Lemmons Funeral Home, Plainview.

"I CAN LICK YOU AND YOUR KID BROTHER, TOO!"

SAID THE FORD FALCON TO THE CHEVY II (AND CORVAIR)

No matter which compacts you compare the facts favor the Ford Falcon. Here's proof!

### FALCON VS. CHEVY II

Falcon's standard engine is a Six, Chevy II's a Four! Falcon goes 6,000 miles between oil changes,\* Chevy II, 4,000. Falcon topped Chevy II's gas mileage in the '62 Mobil Economy Run. In addition, Falcon gives you more glass area, multi-leaf (not single-leaf) rear springs, wider choice of models! AND FALCON'S PRICES START LOWER! \*\*

### FALCON VS. CORVAIR

Falcon is longer and almost 4" wider than Corvaire... holds 6 adults in comfort (try that in a Corvaire!) Falcon's engine delivers more power than Corvaire's. Falcon packs almost twice as much as Corvaire's front-end trunk. Falcon's wheelbase is 1 1/2" longer; Falcon has bigger brakes; Falcon's seats are comfortably higher. In addition, Falcon gives you oil savings, more glass area, bigger doors. AND FALCON'S PRICES START LOWER! \*\*

\*After initial 1000-mile change. \*\*Based on comparison of manufacturers' suggested retail prices, including heater
